(3) The amount for profit and general expenses referred to in subsection (1)(c) shall be determined on the basis of information supplied by or on behalf of the producer of the material being valued unless the profit and general expenses figures that are supplied with that information are inconsistent with those usually reflected in sales by producers of materials of the same class or kind as the material being valued who are located in the country in which the material is produced or the producer is located, as the case may be. The information supplied shall be prepared in a manner consistent with generally accepted accounting principles of the country in which the material being valued is produced. Where the material is produced in the territory of a NAFTA country, the information shall be prepared in accordance with the Generally Accepted Accounting Principles set out in the authorities listed for that NAFTA country in Schedule XII.

(4) For purposes of subsection (1)(c) and subsection (3), general expenses means the direct and indirect costs of producing and selling the material that are not included under subsections (1)(a) and (b).

(5) For purposes of subsection (3), the amount for profit and general expenses shall be taken as a whole. Where, in the information supplied by or on behalf of the producer

of a material, the profit figure is low and the general expenses figure is high, the profit and general expense figures taken together may nevertheless be consistent with those usually reflected in sales of materials of the same class or kind as the material being valued. Where the producer of a material can demonstrate that it is taking a nil or low profit on its sales of the material because of particular commercial circumstances, its actual profit and general expense figures shall be taken into account, provided that the producer of the material has valid commercial reasons to justify them and its pricing policy reflects usual pricing policies in the branch of industry concerned. For an illustration of this, such a situation might occur where producers have been forced to lower prices temporarily because of an unforeseeable drop in demand, or where the producers sell the material to complement a range of materials and goods being produced in the country in which the material is sold and accept a low profit to maintain competitiveness. A further illustration is where a material was being launched and the producer accepted a nil or low profit to offset high general expenses associated with the launch.

(6) Where the figures for the profit and general expenses supplied by or on behalf of the producer of the material are not consistent with those usually reflected in sales of materials of the same class or kind as the material being valued that are made by other producers in the country in which that material is sold, the amount for profit and general expenses may be based on relevant information other than that supplied by or on behalf of the producer of the material.

(7) Where a customs administration uses information other than that supplied by or on behalf of the producer of the material for the purposes of determining the value of a material under this section, the customs administration shall communicate to the producer, if that producer so requests, the source of such information, the data used and the calculations based upon such data, subject to the provisions on confidentiality under Article 507 of the Agreement, as implemented in each NAFTA country.

(8) Whether certain materials are of the same class or kind as the material being valued shall be determined on a case-by-case basis with reference to the circumstances involved. For purposes of determining the amount for profit and general expenses usually reflected under the provisions of this section, sales of the narrowest group or range of materials of the same class or kind, which includes the material being valued, for which the necessary information can be provided, shall be examined. For the purposes of this section, the materials of the same class or kind must be from the same country as the material being valued.

SECTION 11.

(1) Where there is no transaction value under section 2(2) or the transaction value is unacceptable under section 2(3), and the value of the materials cannot be determined under sections 6 through 10, the value of the material, referred to in Article 402(9)(b) of the Agreement, as implemented by section 7(1)(b)(ii) of part IV of this appendix, shall be determined under this section using reasonable means consistent with the principles and general provisions of this Schedule and on the basis of data available in the country in which the producer is located.

(2) The value of the material determined under this section shall not be determined on the basis of

(a) a valuation system which provides for the acceptance of the higher of two alternative values;

(b) a cost of production other than the value determined in accordance with section 10;

(c) minimum values;

(d) arbitrary or fictitious values;

(e) where the material is produced in the territory of the NAFTA country in which the producer is located, the price of the material for export from that territory; or

(f) where the material is imported, the price of the material for export to a country other than to the territory of the NAFTA country in which the producer is located.

(3) To the greatest extent possible, the value of the material determined under this section shall be based on the methods of valuation set out in sections 2 through 10, but a reasonable flexibility in the application of such methods would be in conformity with the aims and provisions of this section. For an illustration of this, under section 6, the requirement that the identical materials should be sold at or about the same time as the time the material being valued is shipped to the producer could be flexibly interpreted. Similarly, identical materials produced in a country other than the country in which the material is produced could be the basis for determining the value of the material, or the value of identical materials already determined under section 9 could be used. For another illustration, under section 7, the requirement that the similar materials should be sold at or about the same time as the material being valued are shipped to the producer could be flexibly interpreted. Likewise, similar materials produced in a country other than the country in which the material is produced could be the basis for determining the value of the material, or the value of similar materials already determined under the provisions of section 9 could be used. For a further illustration, under section 9, the ninety days requirement could be administered flexibly.

SCHEDULE IX

METHODS FOR DETERMINING THE VALUE OF NON-ORIGINATING MATERIALS THAT ARE IDENTICAL MATERIALS AND THAT ARE USED IN THE PRODUCTION OF A GOOD

DEFINITIONS AND INTERPRETATION

SECTION 1. DEFINITIONS.

For purposes of this Schedule,

''FIFO method'' means the method by which the value of non-originating materials first received in materials inventory, determined in accordance with section 7 of this appendix, is considered to be the value of non-originating materials used in the production of the good first shipped to the buyer of the good;

''identical materials'' means, with respect to a material, materials that are the same as that material in all respects, including physical characteristics, quality and reputation but excluding minor differences in appearance;

''LIFO method'' means the method by which the value of non-originating materials last received in materials inventory, determined in accordance with section 7 of this appendix, is considered to be the value of non-originating materials used in the production of the good first shipped to the buyer of the good;

''materials inventory'' means, with respect to a single plant of the producer of a good, an inventory of non-originating materials that are identical materials and that are used in the production of the good; and

''rolling average method'' means the method by which the value of non-originating materials used in the production of a good that is shipped to the buyer of the good is based on the average value, calculated in accordance with section 4, of the non-originating materials in materials inventory.

GENERAL

SECTION 2.

For purposes of sections 5(11) and (12) and 6(10) of this appendix, the following are the methods for determining the value of non-originating materials that are identical materials and are used in the production of a good:

(a) FIFO method;

(b) LIFO method; and

(c) rolling average method.

SECTION 3.

(1) Where a producer of a good chooses, with respect to non-originating materials that are identical materials, any of the methods referred to in section 2, the producer may not use another of those methods with respect to any other non-originating materials that are identical materials and that are used in the production of that good or in the production of any other good.

(2) Where a producer of a good produces the good in more than one plant, the method chosen by the producer shall be used with respect to all plants of the producer in which the good is produced.

(3) The method chosen by the producer to determine the value of non-originating materials may be chosen at any time during the producer's fiscal year and may not be changed during that fiscal year.

AVERAGE VALUE FOR ROLLING AVERAGE METHOD

SECTION 4.

(1) The average value of non-originating materials that are identical materials and that are used in the production of a good that is shipped to the buyer of the good is calculated by dividing

(a) the total value of non-originating materials that are identical materials in materials inventory prior to the shipment of the good, determined in accordance with section 7 of this appendix,

by

(b) the total units of those non-originating materials in materials inventory prior to the shipment of the good.

(2) The average value calculated under subsection (1) is applied to the remaining units of non-originating materials in materials inventory.

ADDENDUM

''EXAMPLES'' ILLUSTRATING THE APPLICATION OF THE METHODS FOR DETERMINING THE VALUE OF NON-ORIGINATING MATERIALS THAT ARE IDENTICAL MATERIALS AND THAT ARE USED IN THE PRODUCTION OF A GOOD

The following ''examples'' are based on the figures set out in the table below and on the following assumptions:

(a) Materials A are non-originating materials that are identical materials that are used in the production of Good A;

(b) one unit of Materials A is used to produce one unit of Good A;

(c) all other materials used in the production of Good A are originating materials; and

(d) Good A is produced in a single plant.

Date (M/D/Y)	Materials inventory (Receipts of materials A)		Sales (Shipments of good A)
	Quantity (units)	Unit cost*	Quantity (units)
01/01/94	200	$1.05	
01/03/94	1,000	1.00	
01/05/94	1,000	1.10	
01/08/94			500
01/09/94			500
01/10/94	1,000	1.05	
01/14/94			1,500
01/16/94	2,000	1.10	
01/18/94			1,500

*Unit cost is determined in accordance with section 7 of this appendix.

Example 1: FIFO method

By applying the FIFO method:

(1) the 200 units of Materials A received on 01/01/94 and valued at $1.05 per unit and 300 units of the 1,000 units of Material A received on 01/03/94 and valued at $1.00 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/08/94; therefore, the value of the non-originating materials used in the production of those goods is considered to be $510 [(200 unit × $1.05) + ($300 units × $1.00)];

(2) 500 units of the remaining 700 units of Materials A received on 01/03/94 and valued at $1.00 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/09/94; therefore, the value of the non-originating materials used in the production of those goods is considered to be $500 (500 units × $1.00);

(3) the remaining 200 units of the 1,000 of Materials A received on 01/03/94 and valued at $1.00 per unit, the 1,000 units of Materials A received on 01/05/94 and valued at $1.10 per unit, and 300 units of the 1,000 Materials A received on 01/10/94 and valued at $1.05 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/14/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,615 [(200 units × $1.00) + (1,000 units × $1.10) + (300 units × $1.05)]; and

(4) the remaining 700 units of the 1,000 units of Materials A received on 01/10/94 and valued at $1.05 per unit and 800 units of the 2,000 units of Materials A received on 01/16/94 and valued at $1.10 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/18/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,615 [(700 × $1.05) + (800 × $1.10)].

Example 2: LIFO method

By applying the LIFO method:

(1) 500 units of the 1,000 units of Materials A received on 01/05/94 and valued at $1.10 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/08/94; therefore, the value of the non-originating materials used in the production of those goods is considered to be $550 (500 units × $1.10);

(2) the remaining 500 units of the 1,000 units of Materials A received on 01/05/94 and valued at $1.10 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/09/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $550 (500 units × $1.10);

(3) the 1,000 units of Materials A received on 01/10/94 and valued at $1.05 per unit and 500 units of the 1,000 units of Material A received on 01/03/94 and valued at $1.00 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/14/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,550 [(1,000 units × $1.05) + (500 units × $1.00)]; and

(4) 1,500 units of the 2,000 units of Materials A received on 01/16/94 and valued at $1.10 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/18/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,650 (1,500 units × $1.10).

Example 3: Rolling average method

The following table identifies the average value of non-originating Materials A as determined under the rolling average method. For purposes of this example, a new average value of non-originating Materials A is calculated after each receipt.

	Materials inventory			
	Date (M/D/Y)	Quantity (units)	Unit cost*	Total value
Beginning Inventory	1/1/94	200	$1.05	$210

Materials inventory				
	Date (M/D/Y)	Quantity (units)	Unit cost*	Total value
Receipt	1/3/94	1,000	1.00	1,000
AVERAGE VALUE		1,200	1.008	1,210
Receipt	1/5/94	1,000	1.10	1,100
AVERAGE VALUE		2,200	1.05	2,310
Shipment	1/8/94	500	1.05	525
AVERAGE VALUE		1,700	1.05	1,785
Shipment	1/9/94	500	1.05	525
AVERAGE VALUE		1,200	1.05	1,260
Receipt	1/16/94	2,000	1.10	2,200
AVERAGE VALUE		3,200	1.08	3,460

* Unit cost is determined in accordance with section 7 of this appendix.

By applying the rolling average method:
(1) the value of non-originating materials used in the production of the 500 units of Good A shipped on 01/08/94 is considered to be $525 (500 units × $1.05); and
(2) the value of non-originating materials used in the production of the 500 units of Good A shipped on 01/09/94 is considered to be $525 (500 units × $1.05).

SCHEDULE X

INVENTORY MANAGEMENT METHODS

PART I

FUNGIBLE MATERIALS

DEFINITIONS AND INTERPRETATION

SECTION 1. DEFINITIONS.

For purposes of this part,
''average method'' means the method by which the origin of fungible materials withdrawn from materials inventory is based on the ratio, calculated under section 5, of originating materials and non-originating materials in materials inventory;
''FIFO method'' means the method by which the origin of fungible materials first received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;
''LIFO method'' means the method by which the origin of fungible materials last received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;
''materials inventory'' means,
(a) with respect to a producer of a good, an inventory of fungible materials that are used in the production of the good, and
(b) with respect to a person from whom the producer of the good acquired those fungible materials, an inventory from which fungible materials are sold or otherwise transferred to the producer of the good;
''opening inventory'' means the materials inventory at the time an inventory management method is chosen;
''origin identifier'' means any mark that identifies fungible materials as originating materials or non-originating materials.

GENERAL

SECTION 2.

The inventory management methods for determining whether fungible materials referred to in section 7(16)(a) of this appendix are originating materials are the following:
(a) specific identification method;
(b) FIFO method;
(c) LIFO method; and
(d) average method.

SECTION 3.

A producer of a good, or a person from whom the producer acquired the fungible materials that are used in the production of the good, may choose only one of the inventory management methods referred to in section 2, and, if the averaging method is chosen, only one averaging period in each fiscal year of that producer or person for the materials inventory.

SPECIFIC IDENTIFICATION METHOD

SECTION 4.

(1) Except as otherwise provided under subsection (2), where the producer or person referred to in section 3 chooses the specific identification method, the producer or person shall physically segregate, in materials inventory, originating materials that are fungible materials from non-originating materials that are fungible materials.
(2) Where originating materials or non-originating materials that are fungible materials are marked with an origin identifier, the producer or person need not physically segregate those materials under subsection (1) if the origin identifier remains visible throughout the production of the good.

AVERAGE METHOD

SECTION 5.

Where the producer or person referred to in section 3 chooses the average method, the origin of fungible materials withdrawn from materials inventory is determined on the basis of the ratio of originating materials and non-originating materials in materials inventory that is calculated under sections 6 through 8.

SECTION 6.

(1) Except as otherwise provided in sections 7 and 8, the ratio is calculated with respect to a month or three-month period, at the choice of the producer or person, by dividing

(a) the sum of

(i) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period,

by

(b) the sum of

(i) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating materials and non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period.

(2) The ratio calculated with respect to a preceding month or three-month period under subsection (1) is applied to the fungible materials remaining in materials inventory at the end of the preceding month or three-month period.

SECTION 7.

(1) Where the good is subject to a regional value-content requirement and the regional value content is calculated under the net cost method and the producer or person chooses to average over a period under sections 6(15), 11(1), (3) or (6), 12(1) or 13(4) of this appendix, the ratio is calculated with respect to that period by dividing

(a) the sum of

(i) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory at the beginning of the period, and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that period,

by

(b) the sum of

(i) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory at the beginning of the period, and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that period.

(2) The ratio calculated with respect to a period under subsection (1) is applied to the fungible materials remaining in materials inventory at the end of the period.

SECTION 8.

(1) Where the good is subject to a regional value-content requirement and the regional value content of that good is calculated under the transaction value method or the net cost method, the ratio is calculated with respect to each shipment of the good by dividing

(a) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory prior to the shipment,

by

(b) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory prior to the shipment.

(2) The ratio calculated with respect to a shipment of a good under subsection (1) is applied to the fungible materials remaining in materials inventory after the shipment.

MANNER OF DEALING WITH OPENING INVENTORY

SECTION 9.

(1) Except as otherwise provided under subsections (2) and (3), where the producer or person referred to in section 3 has fungible materials in opening inventory, the origin of those fungible materials is determined by

(a) identifying, in the books of the producer or person, the latest receipts of fungible materials that add up to the amount of fungible materials in opening inventory;

(b) determining the origin of the fungible materials that make up those receipts; and

(c) considering the origin of those fungible materials to be the origin of the fungible materials in opening inventory.

(2) Where the producer or person chooses the specific identification method and has, in opening inventory, originating materials or non-originating materials that are fungible

materials and that are marked with an origin identifier, the origin of those fungible materials is determined on the basis of the origin identifier.

(3) The producer or person may consider all fungible materials in opening inventory to be non-originating materials.

PART II

FUNGIBLE GOODS

Definitions and Interpretation

SECTION 10. Definitions.

For purposes of this part,

''average method'' means the method by which the origin of fungible goods withdrawn from finished goods inventory is based on the ratio, calculated under section 12, of originating goods and non-originating goods in finished goods inventory;

''FIFO method'' means the method by which the origin of fungible goods first received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

''finished goods inventory'' means an inventory from which fungible goods are sold or otherwise transferred to another person;

''LIFO method'' means the method by which the origin of fungible goods last received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

''opening inventory'' means the finished goods inventory at the time an inventory management method is chosen; and

''origin identifier'' means any mark that identifies fungible goods as originating goods or non-originating goods.

General

SECTION 11.

The inventory management methods for determining whether fungible goods referred to in section 7(16)(b) of this appendix are originating goods are the following:

(a) specific identification method;

(b) FIFO method;

(c) LIFO method; and

(d) average method.

SECTION 12.

An exporter of a good, or a person from whom the exporter acquired the fungible good, may choose only one of the inventory management methods referred to in section 11, including only one averaging period in the case of the average method, in each fiscal year of that exporter or person for each finished goods inventory of the exporter or person.

Specific Identification Method

SECTION 13.

(1) Except as provided under subsection (2), where the exporter or person referred to in section 12 chooses the specific identification method, the exporter or person shall physically segregate, in finished goods inventory, originating goods that are fungible goods from non-originating goods that are fungible goods.

(2) Where originating goods or non-originating goods that are fungible goods are marked with an origin identifier, the exporter or person need not physically segregate those goods under subsection (1) if the origin identifier is visible on the fungible goods.

Average Method

SECTION 14.

(1) Where the exporter or person referred to in section 12 chooses the average method, the origin of each shipment of fungible goods withdrawn from finished goods inventory during a month or three-month period, at the choice of the exporter or person, is determined on the basis of the ratio of originating goods and non-originating goods in finished goods inventory for the preceding one-month or three-month period that is calculated by dividing

(a) the sum of

(i) the total units of originating goods or non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating goods or non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period,

by

(b) the sum of

(i) the total units of originating goods and non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating goods and non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period.

(2) The calculation with respect to a preceding month or three-month period under subsection (1) is applied to the fungible goods remaining in finished goods inventory at the end of the preceding month or three-month period.

MANNER OF DEALING WITH OPENING INVENTORY

SECTION 15.

(1) Except as otherwise provided under subsections (2) and (3), where the exporter or person referred to in section 12 has fungible goods in opening inventory, the origin of those fungible goods is determined by

(a) identifying, in the books of the exporter or person, the latest receipts of fungible goods that add up to the amount of fungible goods in opening inventory;

(b) determining the origin of the fungible goods that make up those receipts; and

(c) considering the origin of those fungible goods to be the origin of the fungible goods in opening inventory.

(2) Where the exporter or person chooses the specific identification method and has, in opening inventory, originating goods or non-originating goods that are fungible goods and that are marked with an origin identifier, the origin of those fungible goods is determined on the basis of the origin identifier.

(3) The exporter or person may consider all fungible goods in opening inventory to be non-originating goods.

ADDENDUM A

''EXAMPLES'' ILLUSTRATING THE APPLICATION OF THE INVENTORY MANAGEMENT METHODS TO DETERMINE THE ORIGIN OF FUNGIBLE MATERIALS

The following ''examples'' are based on the figures set out in the table below and on the following assumptions:

(a) originating Material A and non-originating Material A that are fungible materials are used in the production of Good A;

(b) one unit of Material A is used to produce one unit of Good A;

(c) Material A is only used in the production of Good A;

(d) all other materials used in the production of Good A are originating materials; and

(e) the producer of Good A exports all shipments of Good A to the territory of a NAFTA country.

Date (M/D/Y)	Materials inventory (Receipts of material A)			Sales (Shipments of good A)
	Quantity (units)	Unit cost *	Total value	Quantity (units)
12/18/93	100 (O [1])	$1.00	$100	
12/27/93	100 (N [2])	1.10	110	
01/01/94	200 (OI [3])			
01/01/94	1,000 (O)	1.00	1,000	
01/05/94	1,000 (N)	1.10	1,100	
01/10/94				100
01/10/94	1,000 (O)	1.05	1,050	
01/15/94				700
01/16/94	2,000 (N)	1.10	2,200	
01/20/94				1,000
01/23/94				900

* Unit cost is determined in accordance with section 7 of this appendix.
[1] ''O'' denotes originating materials.
[2] ''N'' denotes non-originating materials.
[3] ''OI'' denotes opening inventory.

Example 1: FIFO method

Good A is subject to a regional value-content requirement. Producer A is using the transaction value method to determine the regional value content of Good A.

By applying the FIFO method:

(1) the 100 units of originating Material A in opening inventory that were received in materials inventory on 12/18/93 are considered to have been used in the production of the 100 units of Good A shipped on 01/10/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $0;

(2) the 100 units of non-originating Material A in opening inventory that were received in materials inventory on 12/27/93 and 600 units of the 1,000 units of originating Material A that were received in materials inventory on 01/01/94 are considered to have been used in the production of the 700 units of Good A shipped on 01/15/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $110 (100 units × $1.10);

(3) the remaining 400 units of the 1,000 units of originating Material A that were received in materials inventory on 01/01/94 and 600 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/94 are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/94; therefore, the value of non-originating materials used in

the production of those goods is considered to be $660 (600 units × $1.10); and

(4) the remaining 400 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/94 and 500 units of the 1,000 units of originating Material A that were received in materials inventory on 01/10/94 are considered to have been used in the production of the 900 units of Good A shipped on 01/23/94; therefore, the value of non-originating materials used in the production of those goods is considered to be $440 (400 units × $1.10).

Example 2: LIFO method

Good A is subject to a change in tariff classification requirement and the non-originating Material A used in the production of Good A does not undergo the applicable change in tariff classification. Therefore, where originating Material A is used in the production of Good A, Good A is an originating good and, where non-originating Material A is used in the production of Good A, Good A is a non-originating good.

By applying the LIFO method:

(1) 100 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/94 are considered to have been used in the production of the 100 units of Good A shipped on 01/10/94;

(2) 700 units of the 1,000 units of originating Material A that were received in materials inventory on 01/10/94 are considered to have been used in the production of the 700 units of Good A shipped on 01/15/94;

(3) 1,000 units of the 2,000 units of non-originating Material A that were received in materials inventory on 01/16/94 are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/94; and

(4) 900 units of the remaining 1,000 units of non-originating Material A that were received in materials inventory on 01/16/94 are considered to have been used in the production of the 900 units of Good A shipped on 01/23/94.

Example 3: Average method

Good A is subject to an applicable regional value-content requirement. Producer A is using the transaction value method to determine the regional value content of Good A. Producer A determines the average value of non-originating Material A and the ratio of originating Material A to total value of originating Material A and non-originating Material A in the following table.

	Date (M/D/Y)	Materials inventory						Sales (Shipments of good A)
		(Receipts of material A)			(Non-originating material)			
		Quantity (units)	Total value	Unit cost *	Quantity (units)	Total value	Ratio	Quantity (units)
Receipt	12/18/93	100 (O [1])	$100	$1.00				
Receipt	12/27/93	*100 (N [2])*	*110*	*1.10*	*100*	*$110.00*		
NEW AVERAGE INV. VALUE.		200 (OI [3])	210	1.05	100	105.00	0.50	
Receipt	01/01/94	*1,000 (O)*	*1,000*	*1.00*				
NEW AVERAGE INV. VALUE.		1,200	1,210	1.01	100	101.00	0.08	
Receipt	01/05/94	*1,000 (N)*	*1,100*	*1.10*	*1,000*	*1,100.00*		
NEW AVERAGE INV. VALUE.		2,200	2,310	1.05	1,100	1,155.00	0.50	
Shipment	01/10/94	(100)	(105)	1.05	(50)	(52.50)		100
Receipt	01/10/94	*1,000 (O)*	*1,050*	*1.05*				
NEW AVERAGE INV. VALUE.		3,100	3,255	1.05	1,050	1,102.50	0.34	
Shipment	01/15/94	(700)	(735)	1.05	(238)	(249.90)		700
Receipt	01/16/94	*2,000 (N)*	*2,200*	*1.10*	*2,000*	*2,000.00*		
NEW AVERAGE INV. VALUE.		4,400	4,720	1.07	2,816	3,013.20	0.64	
Shipment	01/20/94	(1,000)	(1,070)	1.07	(640)	(648.80)		1,000
Shipment	01/23/94	(*900*)	(*963*)	*1.07*	(*576*)	(*616.32*)		900
NEW AVERAGE INV. VALUE.		2,500	2,687	1.07	1,596	1,707.24	0.64	

* Unit cost is determined in accordance with section 7 of this appendix.

[1] "O" denotes originating materials.

[2] "N" denotes non-originating materials.

[3] "OI" denotes opening inventory.

By applying the average method:
(1) before the shipment of the 100 units of Material A on 01/10/94, the ratio of units of originating Material A to total units of Material A in materials inventory was .50 (1,100 units/2,200 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was .50 (1,100 units/2,200 units); based on those ratios, 50 units (100 units × .50) of originating Material A and 50 units (100 units × .50) of non-originating Material A are considered to have been used in the production of the 100 units of Good A shipped on 01/10/94; therefore, the value of non-originating Material A used in the production of those goods is considered to be $52.50 [100 units × $1.05 (average unit value) × .50]; the ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,050 units (2,100 units × .50) are considered to be originating materials and 1,050 units (2,100 units × .50) are considered to be non-originating materials;
(2) before the shipment of the 700 units of Good A on 01/15/94, the ratio of units of originating Material A to total units of Material A in materials inventory was 66% (2,050 units/3,100 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 34% (1,050 units/3,100 units); based on those ratios, 462 units (700 units × .66) of originating Material A and 238 units (700 units × .34) of non-originating Material A are considered to have been used in the production of the 700 units of Good A shipped on 01/15/94; therefore, the value of non-originating Material A used in the production of those goods is considered to be $249.90 [700 units × $1.05 (average unit value) × 34%]; the ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,584 units (2,400 units × .66) are considered to be originating materials and 816 units (2,400 units × .34) are considered to be non-originating materials;
(3) before the shipment of the 1,000 units of Material A on 01/20/94, the ratio of units of originating Material A to total units of Material A in materials inventory was 36% (1,584 units/4,400 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 64% (2,816 units/4,400 units); based on those ratios, 360 units (1,000 units × .36) of originating Material A and 640 units (1,000 units × .64) of non-originating Material A are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/94; therefore, the value of non-originating Material A used in the production of those goods is considered to be $684.80 [1,000 units × $1.07 (average unit value) × 64%]; those ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,224 units (3,400 units × .36) are considered to be originating materials and 2,176 units (3,400 units × .64) are considered to be non-originating materials;
(4) before the shipment of the 900 units of Good A on 01/23/94, the ratio of units of originating Material A to total units of Material A in materials inventory was 36% (1,224 units/3,400 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 64% (2,176 units/3,400 units; based on those ratios, 324 units (900 units × .36) of originating Material A and 576 units (900 units × .64) of non-originating Material A are considered to have been used in the production of the 900 units of Good A shipped on 01/23/94; therefore, the value of non-originating Material A used in the production of those goods is considered to be $616.32 [900 units × $1.07 (average unit value) × 64%]; those ratios are applied to the units of Material A remaining in materials inventory after the shipment: 900 units (2,500 units × .36) are considered to be originating materials and 1,600 units (2,500 units × .64) are considered to be non-originating materials.

Example 4: Average method

Good A is subject to an applicable regional value-content requirement. Producer A is using the net cost method and is averaging over a period of one month under section 6(15)(a) of this appendix to determine the regional value content of Good A.

By applying the average method:

the ratio of units of originating Material A to total units of Material A in materials inventory for January 1994 is 40.4% (2,100 units/5,200 units);

based on that ratio, 1,091 units (2,700 units × .404) of originating Material A and 1,609 units (2,700 units-1,091 units) of non-originating Material A are considered to have been used in the production of the 2,700 units of Good A shipped in January 1994; therefore, the value of non-originating materials used in the production of those goods is considered to be $0.64 per unit [$5,560 (total value of Material A in materials inventory)/ $5,200 (units of Material A in materials inventory) = $1.07 (average unit value) × (1-.404)] or $1,728 ($0.64 × 2,700 units); and

that ratio is applied to the units of Material A remaining in materials inventory on January 31, 1994: 1,010 units (2,500 units × .404) are considered to be originating materials and 1,490 units (2,500 units-1,010 units) are considered to be non-originating materials.

ADDENDUM B

''EXAMPLES'' ILLUSTRATING THE APPLICATION OF THE INVENTORY MANAGEMENT METHODS TO DETERMINE

THE ORIGIN OF FUNGIBLE GOODS

The following ''examples'' are based on the figures set out in the table below and on the

assumption that Exporter A acquires originating Good A and non-originating Good A that are fungible goods and physically combines or mixes Good A before exporting those goods to the buyer of those goods.

Date (M/D/Y)	Finished goods inventory (receipts of good A)	Sales (shipments of good A)
	Quantity (units)	Quantity (units)
12/18/93	100 (O[1])	
12/27/93	100 (N[2])	
01/01/94	200 (OI[3])	
01/01/94	1,000 (O)	
01/05/94	1,000 (N)	
01/10/94		100
01/15/94	1,000 (O)	
01/16/94		700
01/20/94	2,000 (N)	
01/20/94		1,000
01/23/94		900

[1] ''O'' denotes originating goods.
[2] ''N'' denotes non-originating goods.
[3] ''OI'' denotes opening inventory.

Example 1: FIFO method

By applying the FIFO method:

(1) the 100 units of originating Good A in opening inventory that were received in finished goods inventory on 12/18/93 are considered to be the 100 units of Good A shipped on 01/10/94;

(2) the 100 units of non-originating Good A in opening inventory that were received in finished goods inventory on 12/27/93 and 600 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/01/94 are considered to be the 700 units of Good A shipped on 01/15/94;

(3) the remaining 400 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/01/94 and 600 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/94 are considered to be the 1,000 units of Good A shipped on 01/20/94; and

(4) the remaining 400 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/94 and 500 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/10/94 are considered to be the 900 units of Good A shipped on 01/23/94.

Example 2: LIFO method

By applying the LIFO method:

(1) 100 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/94 are considered to be the 100 units of Good A shipped on 01/10/94;

(2) 700 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/10/94 are considered to be the 700 units of Good A shipped on 01/15/94;

(3) 1,000 units of the 2,000 units of non-originating Good A that were received in finished goods inventory on 01/16/94 are considered to be the 1,000 units of Good A shipped on 01/20/94; and

(4) 900 units of the remaining 1,000 units of non-originating Good A that were received in finished goods inventory on 01/16/94 are considered to be the 900 units of Good A shipped on 01/23/94.

Example 3: Average method

Exporter A chooses to determine the origin of Good A on a monthly basis. Exporter A exported 3,000 units of Good A during the month of February 1994. The origin of the units of Good A exported during that month is determined on the basis of the preceding month, that is January 1994.

By applying the average method:

the ratio of originating goods to all goods in finished goods inventory for the month of January 1994 is 40.4% (2,100 units/5,200 units); based on that ratio, 1,212 units (3,000 units × .404) of Good A shipped in February 1994 are considered to be originating goods and 1,788 units (3,000 units − 1,212 units) of Good A are considered to be non-originating goods; and

that ratio is applied to the units of Good A remaining in finished goods inventory on January 31, 1994: 1,010 units (2,500 units × .404) are considered to be originating goods and 1,490 units (2,500 units − 1,010 units) are considered to be non-originating goods.

SCHEDULE XI

METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS

DEFINITIONS AND INTERPRETATION

SECTION 1. DEFINITIONS.

For purposes of this Schedule,

''fixed-rate contract'' means a loan contract, installment purchase contract or other financing agreement in which the interest rate remains constant throughout the life of the contract or agreement;

''linear interpolation'' means, with respect to the yield on federal government debt obligations, the application of the following mathematical formula:

$$A + [((B - A) \times (E - D))/(C - D)]$$

where

A is the yield on federal government debt obligations that are nearest in maturity but of shorter maturity than the weighted average principal maturity of the payment schedule under the fixed-rate contract or variable-rate contract to which they are being compared,

B is the yield on federal government debt obligations that are nearest in maturity but of greater maturity than the weighted average principal maturity of that payment schedule,

C is the maturity of federal government debt obligations that are nearest in maturity but of greater maturity than the weighted average principal maturity of that payment schedule,

D is the maturity of federal government debt obligations that are nearest in maturity but of shorter maturity than the weighted average principal maturity of that payment schedule, and

E is the weighted average principal maturity of that payment schedule; ''payment schedule'' means the schedule of payments, whether on a weekly, bi-weekly, monthly, yearly or other basis, of principal and interest, or any combination thereof, made by a producer to a lender in accordance with the terms of a fixed-rate contract or variable-rate contract;

''variable-rate contract'' means a loan contract, installment purchase contract or other financing agreement in which the interest rate is adjusted at intervals during the life of the contract or agreement in accordance with its terms;

''weighted average principal maturity'' means, with respect to fixed-rate contracts and variable-rate contracts, the number of years, or portion thereof, that is equal to the number obtained by

(a) dividing the sum of the weighted principal payments,

(i) in the case of a fixed-rate contract, by the original amount of the loan, and

(ii) in the case of a variable-rate contract, by the principal balance at the beginning of the interest rate period for which the weighted principal payments were calculated, and

(b) rounding the amount determined under paragraph (a) to the nearest single decimal place and, where that amount is the midpoint between two such numbers, to the greater of those two numbers;

''weighted principal payment'' means,

(a) with respect to fixed-rate contracts, the amount determined by multiplying each principal payment under the contract by the number of years, or portion thereof, between the date the producer entered into the contract and the date of that principal payment, and

(b) with respect to variable-rate contracts

(i) the amount determined by multiplying each principal payment made during the current interest rate period by the number of years, or portion thereof, between the beginning of that interest rate period and the date of that payment, and

(ii) the amount equal to the outstanding principal owing, but not necessarily due, at the end of the current interest rate period, multiplied by the number of years, or portion thereof, between the beginning and the end of that interest rate period;

''yield on federal government debt obligations'' means

(a) in the case of a producer located in Canada, the yield for federal government debt obligations set out in the Bank of Canada's *Weekly Financial Statistics*

(i) where the interest rate is adjusted at intervals of less than one year, under the title ''Treasury Bills'', and

(ii) in any other case, under the title ''Selected Government of Canada benchmark bond yields'',

for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract,

(b) in the case of a producer located in Mexico, the yield for federal government debt obligations set out in *La Seccion de Indicadores Monetarios, Financieros, y de Finanzas Publicas, de los Indicadores Economicos,* published by the Banco de Mexico under the title *''Certificados de la Tesoreria de la Federacion''* for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract, and

(c) in the case of a producer located in the United States, the yield for federal government debt obligations set out in the Federal Reserve statistical release (H.15) *Selected Interest Rates*

(i) where the interest rate is adjusted at intervals of less than one year, under the title ''U.S. government securities, Treasury bills, Secondary market'', and

(ii) in any other case, under the title ''U.S. Government Securities, Treasury constant maturities'',

for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract.

GENERAL

SECTION 2.

For purposes of calculating non-allowable interest costs

(a) with respect to a fixed-rate contract, the interest rate under that contract shall be compared with the yield on federal government debt obligations that have maturities of the same length as the weighted average principal maturity of the payment schedule under the contract (that yield determined by linear interpolation, where necessary);

(b) with respect to a variable-rate contract

(i) in which the interest rate is adjusted at intervals of less than or equal to one year, the interest rate under that contract shall be compared with the yield on federal government debt obligations that have maturities closest in length to the interest rate adjustment period of the contract, and

(ii) in which the interest rate is adjusted at intervals of greater than one year, the interest rate under the contract shall be compared with the yield on federal government debt obligations that have maturities of the same length as the weighted average principal maturity of the payment schedule under the contract (that yield determined by linear interpolation, where necessary); and

(c) with respect to a fixed-rate or variable-rate contract in which the weighted average principal maturity of the payment schedule under the contract is greater than the maturities offered on federal government debt obligations, the interest rate under the contract shall be compared to the yield on federal government debt obligations that have maturities closest in length to the weighted average principal maturity of the payment schedule under the contract.

ADDENDUM

''EXAMPLE'' ILLUSTRATING THE APPLICATION OF THE METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS IN THE CASE OF A FIXED-RATE CONTRACT

The following example is based on the figures set out in the table below and on the following assumptions:

(a) a producer in a NAFTA country borrows $1,000,000 from a person of the same NAFTA country under a fixed-rate contract;

(b) under the terms of the contract, the loan is payable in 10 years with interest paid at the rate of 6 percent per year on the declining principal balance;

(c) the payment schedule calculated by the lender based on the terms of the contract requires the producer to make annual payments of principal and interest of $135,867.36 over the life of the contract;

(d) there are no federal government debt obligations that have maturities equal to the 6-year weighted average principal maturity of the contract; and

(e) the federal government debt obligations that are nearest in maturity to the weighted average principal maturity of the contract are of 5- and 7-year maturities, and the yields on them are 4.7 percent and 5.0 percent, respectively.

Years of loan	Principal balance [1]	Interest payment [2]	Principal payment [3]	Payment schedule	Weighted principal payment [4]
1	$924,132.04	$60,000.00	$75,867.96	$135,867.96	$75,867.96
2	843,712.00	55,447.92	80,420.04	135,867.96	160,840.08
3	758,466.76	50,622.72	85,245.24	135,867.96	255,735.72
4	668,106.81	45,508.01	90,359.95	135,867.96	361,439.82
5	572,325.26	40,086.41	95,781.55	135,867.96	478,907.76
6	470,796.81	34,339.52	101,528.44	135,867.96	609,170.67
7	363,176.66	28,247.81	107,620.15	135,867.96	753,341.06
8	249,099.30	21,790.60	114,077.36	135,867.96	912,618.88
9	128,177.30	14,945.96	120,922.00	135,867.96	1,088,298.02
10	(0.00)	7,690.66	128,177.32	135,867.96	1,281,773.22
					$5,977,993.19

[1] The principal balance represents the loan balance at the end of each full year the loan is in effect and is calculated by subtracting the current year's principal payment from the prior year's ending loan balance.

[2] Interest payments are calculated by multiplying the prior year's ending loan balance by the contract interest rate of 6 percent.

[3] Principal payments are calculated by subtracting the current year's interest payments from the annual payment schedule amount.

[4] The weighted principal payment is determined by, for each year of the loan, multiplying that year's principal payment by the number of years the loan had been in effect at the end of that year.

[5] The weighted average principal maturity of the contract is calculated by dividing the sum of the weighted principal payments by the original loan amount and rounding the amount determined to the nearest decimal place.

By applying the above method:

Weighted Average Principal Maturity

$5,977,993.19 / $1,000,000 = 5.977993 or 6 years [5]

(1) the weighted average principal maturity of the payment schedule under the 6 percent contract is 6 years;

(2) the yields on the closest maturities for comparable federal government debt obligations of 5 years and 7 years are 4.7 percent and 5.0 percent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity equal to the weighted average principal maturity of the contract is 4.85 percent. This number is calculated as follows:

$4.7 + [((5.0 - 4.7) \times (6 - 5)) / (7 - 5)]$

$= 4.7 + 0.15$

$= 4.85\%$; and

(3) the producer's contract interest rate of 6 percent is within 700 basis points of the 4.85 percent yield on the comparable federal government debt obligation; therefore, none of the producer's interest costs are considered to be non-allowable interest costs for purposes of the definition ''non-allowable interest costs.''

''EXAMPLE'' ILLUSTRATING THE APPLICATION OF THE METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS IN THE CASE OF A VARIABLE-RATE CONTRACT

The following example is based on the figures set out in the tables below and on the following assumptions:

(a) a producer in a NAFTA country borrows $1,000,000 from a person of the same NAFTA country under a variable-rate contract;

(b) under the terms of the contract, the loan is payable in 10 years with interest paid at the rate of 6 percent per year for the first two years and 8 percent per year for the next two years on the principal balance, with rates adjusted each two years after that;

(c) the payment schedule calculated by the lender based on the terms of the contract requires the producer to make annual payments of principal and interest of $135,867.96 for the first two years of the loan, and of $146,818.34 for the next two years of the loan;

(d) there are no federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the first two years of the contract;

(e) there are no federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the third and fourth years of the contract; and

(f) the federal government debt obligations that are nearest in maturity to the weighted average principal maturity of the contract are 1- and 2-year maturities, and the yields on them are 3.0 percent and 3.5 percent respectively.

Beginning of year	Principal balance	Interest rate (%)	Interest payment	Principal payment	Payment schedule	Weighted principal payment
1	$1,000,000.00	6.00	$60,000.00	$75,867.96	$135,867.96	$75,867.96
2	924,132.04	6.00	55,447.92	80,420.04	135,867.96	1,848,264.08
						$1,924,132.04

Weighted Average Principal Maturity

$1,924,132.04/$1,000,000 = 1.92413204 or 1.9 years

By applying the above method:

(1) the weighted average principal maturity of the payment schedule of the first two years of the contract is 1.9 years;

(2) the yield on the closest maturities of federal government debt obligations of 1 year and 2 years are 3.0 and 3.5 percent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity equal to the weighted average principal maturity of the payment schedule of the first two years of the contract is 3.45 percent. This amount is calculated as follows:

$3.0 + [((3.5 - 3.0) \times (1.9 - 1.0)) / (2.0 - 1.0)]$

$= 3.0 + 0.45$

$= 3.45\%$; and

(3) the producer's contract rate of 6 percent for the first two years of the loan is within 700 basis points of the 3.45 percent yield on federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the payment schedule of the first two years of the producer's loan contract; therefore, none of the producer's interest costs are considered to be non-allowable interest costs for purposes of the definition ''non-allowable interest costs''.

Beginning of year	Principal balance	Interest rate (%)	Interest payment	Principal payment	Payment schedule	Weighted principal payment
1	$1,000,000.00	6.00	$60,000.00	$75,867.96	$135,867.96	
2	924,132.04	6.00	55,447.92	80,420.04	135,867.96	
3	843,712.01	8.00	67,496.96	79,321.38	146,818.34	$79,321.38

Beginning of year	Principal balance	Interest rate (%)	Interest payment	Principal payment	Payment schedule	Weighted principal payment
4	764,390.62	8.00	61,151.25	85,667.09	146,818.34	1,528,781.24
						$1,608,102.62

Weighted Average Principal Maturity
$1,608,102.62 / $843,712.01 = 1.905985 or 1.9 years
By applying the above method:
(1) the weighted average principal maturity of the payment schedule under the first two years of the contract is 1.9 years;
(2) the federal government debt obligations that are nearest in maturities to the weighted average principal maturity of the contract are 1- and 2-year maturities, and the yields on them are 3.0 and 3.5 percent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity equal to the weighted average principal maturity of the payment schedule of the first two years of the contract is 3.45 percent. This amount is calculated as follows:
$3.0 + [((3.5 - 3.0) \times (1.9 - 1.0)) / (2.0 - 1.0)]$
$= 3.0 + 0.45$
$= 3.45\%$
(3) the producer's contract interest rate, for the third and fourth years of the loan, of 8 percent is within 700 basis points of the 3.45 percent yield on federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the payment schedule under the third and fourth years of the producer's loan contract; therefore, none of the producer's interest costs are considered to be non-allowable interest costs for purposes of the definition ''non-allowable interest costs''.

SCHEDULE XII

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

SECTION 1.

Generally Accepted Accounting Principles means the recognized consensus or substantial authoritative support in the territory of a NAFTA country with respect to the recording of revenues, expenses, costs, assets and liabilities, disclosure of information and preparation of financial statements. These standards may be broad guidelines of general application as well as detailed standards, practices and procedures.

SECTION 2.

For purposes of Generally Accepted Accounting Principles, the recognized consensus or authoritative support are referred to or set out in the following publications:

(a) with respect to the territory of Canada, *The Canadian Institute of Chartered Accountants Handbook*, as updated from time to time;
(b) with respect to the territory of Mexico, *Los Principios de Contabilidad Generalmente Aceptados*, issued by the *Instituto Mexicano de Contadores Públicos A.C. (IMCP)*, including the *boletines complementarios*, as updated from time to time; and
(c) with respect to the territory of the United States,
(i) the following publications of the American Institute of Certified Public Accountants (AICPA), as updated from time to time:
(A) AICPA Professional Standards,
(B) Committee on Accounting Procedure Accounting Research Bulletins,
(C) Accounting Principles Board Opinions and Statements,
(D) APB Accounting and Auditing Guides,
(E) AICPA Statements of Position, and
(F) AICPA Issues Papers and Practice Bulletins,
(ii) the following publications of the Financial Accounting Standards Board (FASB), as updated from time to time:
(A) FASB Accounting Standards and Interpretations,
(B) FASB Technical Bulletins, and
(C) FASB Concepts Statements.

[T.D. 95–68, 60 FR 46364, Sept. 6, 1995, as amended by T.D. 02–15, 67 FR 15482, Apr. 2, 2002; 67 FR 19810, Apr. 23, 2002; CBP Dec. 15–07, 80 FR 26830, May 11, 2015]

PART 182—UNITED STATES-MEXICO-CANADA AGREEMENT

Sec.

Subpart A—General Provisions

Subpart B—Import Requirements

AUTHORITY: 19 U.S.C. 66, 1202 (General Note 3(i) and General Note 11, Harmonized Tariff Schedule of the United States (HTSUS)), 1624, 4513, 4535;

Section 182.1 also issued under 19 U.S.C. 4502;

Subpart D also issued under 19 U.S.C. 1520(d);

Subpart E also issued under 19 U.S.C. 4534;

Subpart 182.61 also issued under 19 U.S.C. 4531, 4532;

Subpart G also issued under 19 U.S.C. 4533.

SOURCE: 85 FR 39693, July 1, 2020, unless otherwise noted.

Subpart A—General Provisions

§ 182.0 Scope.

This part implements the duty preference and related customs provisions applicable to imported and exported goods under the Agreement Between the United States of America, the United Mexican States, and Canada (USMCA), signed on December 10, 2019, and entered into force on July 1, 2020, and under the United States-Mexico-Canada Agreement Implementation Act (134 Stat. 11) (the Act). For goods entered for consumption, or withdrawn from warehouse for consumption, prior to July 1, 2020, please see the NAFTA provisions in part 181 of this chapter. Except as otherwise specified in this part, the procedures and other requirements set forth in this part are in addition to the CBP procedures and requirements of general application contained elsewhere in this chapter.

§ 182.1 General definitions.

The definitions applicable to rules of origin are contained in Appendix A. This section sets forth the general definitions used throughout this part. As used in this part, the following terms will have the meanings indicated unless either the context in which they are used requires a different meaning or a different definition is prescribed for a particular section of this part:

Canada, when used in a geographical rather than governmental context, means the ''Territory'' of Canada as defined in Appendix A to this part;

Claim for preferential tariff treatment means a claim that a good is entitled to the customs duty rate applicable under the USMCA to an originating good and to an exemption from the merchandise processing fee;

Commercial importation means the importation of a good into the United States, Canada, or Mexico for the purpose of sale, or any commercial, industrial, or other like use.

Customs duty includes a duty or charge of any kind imposed on or in connection with the importation of a good, and any surtax or surcharge imposed in connection with such importation, but does not include any:

(1) Charge equivalent to an internal tax imposed consistently with Article III:2 of the GATT 1994;

(2) Fee or other charge in connection with the importation commensurate with the cost of services rendered;

(3) Antidumping or countervailing duty; and

(4) Premium offered or collected on an imported good arising out of any tendering system in respect of the administration of quantitative import restrictions, tariff-rate quotas, or tariff preference levels;

Customs Valuation Agreement means the Agreement on Implementation of Article VII of the *General Agreement on Tariffs and Trade 1994*, set out in Annex 1A to the WTO Agreement;

Days means calendar days, and includes Saturdays, Sundays and holidays;

Enterprise means an entity constituted or organized under applicable law, whether or not for profit, and whether privately-owned or governmentally-owned or controlled, including a corporation, trust, partnership, sole proprietorship, joint venture, association or similar organization;

Exporter means an exporter located in the territory of a USMCA country and an exporter required under this part to maintain records regarding exportations of a good;

GATT 1994 means the *General Agreement on Tariffs and Trade 1994*, set out in Annex 1A to the WTO Agreement;

Goods means merchandise, product, article, or material;

Goods of a USMCA country means domestic products as these are understood in the GATT 1994 or such goods as the USMCA country may agree, and includes originating goods of a USMCA country;

HTSUS means the Harmonized Tariff Schedule of the United States as promulgated by the U.S. International Trade Commission;

Identical goods means goods that are the same in all respects, including physical characteristics, quality, and reputation, irrespective of minor differences in appearance that are not relevant to a determination of origin of those goods;

Importer means an importer located in the territory of a USMCA country and an importer required under this part to maintain records regarding importations of a good;

Indirect material means a material used or consumed in the production, testing, or inspection of a good but not physically incorporated into the good, or a material used or consumed in the maintenance of buildings or the operation of equipment associated with the production of a good, including:

(1) Fuel and energy,

(2) Tools, dies, and molds,

(3) Spare parts and materials used or consumed in the maintenance of equipment or buildings,

(4) Lubricants, greases, compounding materials and other materials used or consumed in production or used to operate equipment or buildings,

(5) Gloves, glasses, footwear, clothing, safety equipment, and supplies,

(6) Equipment, devices and supplies used or consumed for testing or inspecting the goods,

(7) Catalysts and solvents, and

(8) Any other material that is not incorporated into the good but if the use in the production of the good can reasonably be demonstrated to be a part of that production;

Material means a good that is used in the production of another good, and includes a part or ingredient;

Mexico, when used in a geographical rather than governmental context, means the ''Territory'' of Mexico as defined in Appendix A to this part;

Originating, when used with regard to a good or material, means a good or material qualifying as originating under the rules of origin set forth in General Note 11, HTSUS, and in Appendix A to this part;

Person means a natural person or an enterprise;

Post-importation duty refund claim means a claim filed by the importer of a good for a refund of any excess customs duties at any time within one year after the date of importation of the good where the good would have qualified as an originating good when it was imported into the United States but no claim for preferential tariff treatment was made.

Preferential tariff treatment means the customs duty rate applicable under the USMCA to an originating good;

Producer means a person who engages in the production of a good;

Series of importations means two or more customs entries covering a good arriving the same day from the same exporter and consigned to the same person;

United States, when used in a geographical rather than governmental context, means the territory of the United States as defined in Appendix A to this part;

Used means used or consumed in the production of a good;

USMCA means the Agreement between the United States of America, the United Mexican States, and Canada, entered into force by the United States, Canada and Mexico on July 1, 2020.

USMCA country means a Party to the USMCA;

Value means the value of a good or material for the purpose of calculating customs duties or for the purpose of applying this part;

WTO means the World Trade Organization; and

WTO Agreement means the *Marrakesh Agreement Establishing the World Trade Organization* done at Marrakesh on April 15, 1994.

[CBP Dec. 21–10, 86 FR 35583, July 6, 2021]

§ 182.2 Confidentiality.

(a) *Maintaining confidentiality.* Subject to paragraph (b) of this section, CBP must maintain the confidentiality of the information that it receives from the public when the information is considered trade secrets under the Trade Secrets Act (18 U.S.C. 1905), personally identifiable information under the Privacy Act (5 U.S.C. 552a), or privileged or confidential commercial or financial information. This information must be maintained as confidential in accordance with part 103 of this chapter, 6 CFR part 5, and all other applicable statutes and regulations.

(b) *Authorized disclosures.* CBP may only disclose the confidential information in paragraph (a) of this section to third parties and to other USMCA countries for purposes of administration or enforcement of the customs laws or if otherwise authorized by law, and pursuant to the routine uses of the systems of record notices (SORNs) for the trade systems maintained by CBP. This does not preclude the disclosure of confidential information to U.S. government authorities responsible for the administration and enforcement of USMCA requirements, such as the Department of Labor, and of customs and revenue matters.

[CBP Dec. 21–10, 86 FR 35584, July 6, 2021]

Subpart B—Import Requirements

§ 182.11 Filing of claim for preferential tariff treatment upon importation.

(a) *Basis of claim.* An importer may make a claim for USMCA preferential tariff treatment, including an exemption from the merchandise processing fee, based on a written or electronic certification of origin, as specified in § 182.12, completed by the importer, exporter, or producer for the purpose of certifying that a good qualifies as an originating good.

(b) *Making a claim.* The claim is made by including on the entry summary, or equivalent documentation, or by the method specified for equivalent reporting via a CBP-authorized electronic data interchange system, the letters ''S'' or ''S+'' as a prefix to the subheading of the HTSUS under which each originating good is classified.

(c) *Corrected claim.* If, after making the claim specified in paragraph (b) of this section, the importer has reason to believe that the certification of origin is based on inaccurate information or

is otherwise invalid, the importer must promptly and voluntarily correct the claim or certification of origin, pay any duties that may be due, and submit a statement either in writing to the CBP office where the original claim was filed or via a CBP-authorized electronic data interchange system in accordance with §182.124 of this part (*see* §§182.122 and 182.124 of this part).

[CBP Dec. 21–10, 86 FR 35584, July 6, 2021]

§182.12 Certification of origin.

(a) *General.* An importer who makes a claim, pursuant to §182.11(b), based on a certification of origin completed by the importer, exporter, or producer that the good is originating must submit, at the request of CBP, a copy of the certification of origin. The certification of origin:

(1) Need not be in a prescribed format but must be in writing or must be transmitted electronically pursuant to any electronic means authorized by CBP for that purpose;

(2) May be provided on an invoice or any other document, except an invoice or commercial document issued in the territory of a non-USMCA country;

(3) Must be in the possession of the importer at the time the claim for preferential tariff treatment is made;

(4) Must include the following information to be valid:

(i) Whether the certifier is the importer, exporter, or producer in accordance with this subpart;

(ii) The certifier's name, title, address (including country), telephone number, and email address;

(iii) The exporter's name, address (including country), email address, and telephone number if different from the certifier, unless the producer is completing the certification of origin and does not know the identity of the exporter;

(iv) The producer's name, address (including country), email address, and telephone number, if different from the certifier or exporter; or if there are multiple producers, ''Various'' or a list of producers (*see also* paragraph (c) of this section);

(v) If known, the importer's name, address, email address, and telephone number; or if there are multiple importers, ''Various'' or a list of importers;

(vi) The legal name, address (including country), telephone number, and email address (if any) of the responsible official or authorized agent of the importer, exporter, or producer signing the certification;

(vii) A description of the good for which preferential tariff treatment is claimed, which must be sufficiently detailed to relate it to the invoice and the Harmonized System (HS) nomenclature;

(viii) The HTSUS tariff classification, to six or more digits, as necessary for the specific change in tariff classification rule for the good set forth in General Note 11, HTSUS;

(ix) The applicable rule of origin set forth in General Note 11, HTSUS, under which the good qualifies as an originating good;

(x) In the case of a good listed in Schedule II of Appendix A of this part, the following statement must be included: ''Schedule II of the USMCA Rules of Origin Uniform Regulations'';

(xi) If the certification of origin covers a single shipment of a good, the invoice number related to the exportation, if known;

(xii) In case of a blanket certification issued with respect to multiple shipments of identical goods within any period specified in the certification of origin, not exceeding 12 months from the date of certification, the period that the certification covers; and

(5) Must include the following statement: ''I certify that the goods described in this document qualify as originating and the information contained in this document is true and accurate. I assume responsibility for proving such representations and agree to maintain and present upon request or to make available during a verification visit, documentation necessary to support this certification.''

(b) *Address.* For the purposes of the certification of origin provided for in paragraph (a) of this section:

(1) The address of the exporter provided under paragraph (a)(4)(iii) is the place of export of the good in a USMCA country's territory;

(2) The address of a producer provided under paragraph (a)(4)(iv) is the place

of production of the good in a USMCA country's territory; and

(3) The address of the importer provided under paragraph (a)(4)(v) must be in a USMCA country's territory.

(c) *Confidentiality of producer information*. For the purposes of the information provided under paragraph (a)(4)(iv) of this section, a person that wishes for this information to remain confidential may state ''Available upon request by the importing authorities.''

(d) *Responsible official or agent*. The certification of origin provided for in paragraph (a) of this section must be signed and dated by a responsible official of the importer, exporter, or producer, or by the importer's, exporter's, or producer's authorized agent having knowledge of the relevant facts.

(e) *Language*. The certification provided for in paragraph (a) of this section must be completed in English, French, or Spanish. If the certification of origin is not in English, CBP may require the importer to submit an English translation of the certification.

(f) *Basis of a certification of origin*. (1) A certification of origin may be completed by the importer, exporter, or producer of the good on the basis of:

(i) The certifier of the certification of origin of the good having information, including documents, that demonstrate that the good is originating; or

(ii) In the case of an exporter who is not the producer of the good, reasonable reliance on the producer's written representation, such as in a certification of origin, that the good is originating.

(2) CBP may not require that an exporter or producer complete a certification of origin, or provide a certification of origin or written representation to another person.

(g) *Applicability of certification of origin*. The certification of origin provided for in paragraph (a) of this section may be applicable to:

(1) A shipment of goods into the United States, which may consist of:

(i) A single shipment of goods that results in the filing of one or more entries; or

(ii) More than one shipment of goods that results in the filing of one entry.

(2) Multiple shipments of identical goods into the United States that occur within a specified blanket period, not exceeding 12 months, set out in the certification.

(h) *Validity of certification of origin*. A certification of origin that is properly completed, signed, and dated in accordance with the requirements of this section will be accepted as valid for four years following the date on which it was completed.

[CBP Dec. 21–10, 86 FR 35584, July 6, 2021]

§ 182.13 Importer obligations.

(a) *General*. An importer who makes a claim for USMCA preferential tariff treatment:

(1) Will be deemed to have made a statement based on a valid certification of origin that the good qualifies as an originating good;

(2) Is responsible for the truthfulness of the claim and of all the information and data contained in the certification of origin provided for in § 182.12; and

(3) Is responsible for submitting supporting documents requested by CBP, and for the truthfulness of the information contained in those documents. When a certification of origin prepared by an exporter or producer forms the basis of a claim for preferential tariff treatment and CBP requests the submission of supporting documents, the importer will provide to CBP, or arrange for the direct submission by the exporter or producer of, information relied on by the exporter or producer in preparing the certification.

(b) *Exemption from penalties*. An importer will not be subject to civil or administrative penalties under 19 U.S.C. 1592 for making an incorrect claim for preferential tariff treatment or submitting an incorrect certification of origin, provided that the importer promptly and voluntarily corrects the claim or certification of origin, pays any duties and merchandise processing fees, if applicable, that may be due, and submits a statement either in writing or via a CBP-authorized electronic data interchange system to the CBP office where the original claim was filed in accordance with § 182.124 (*see* §§ 182.122 and 182.124).

[CBP Dec. 21–10, 86 FR 35585, July 6, 2021]

§ 182.14 Certification of origin not required.

(a) *General.* Except as otherwise provided in paragraph (b) of this section, an importer will not be required to submit a copy of a certification of origin under § 182.12 for:

(1) A non-commercial importation of a good; or

(2) A commercial importation for which the value of the originating goods does not exceed $2,500 in U.S. dollars.

(b) *Exception.* If CBP determines that an importation described in paragraph (a) of this section is part of a series of importations carried out or planned for the purpose of evading compliance with the certification requirements of § 182.12, CBP will notify the importer that for that importation the importer must submit to CBP a copy of the certification of origin. The importer must submit such a copy within 30 days from the date of the notice. Failure to timely submit a copy of the certification of origin will result in denial of the claim for preferential tariff treatment.

[CBP Dec. 21–10, 86 FR 35585, July 6, 2021]

§ 182.15 Maintenance of records.

(a) *General.* An importer claiming USMCA preferential tariff treatment for a good must maintain for a minimum of five years from the date of importation of the good, all records and documents that the importer has demonstrating that the good qualifies for preferential tariff treatment under the USMCA, including the certification of origin and records related to transit and transshipment. These records are in addition to any other records that the importer is required to prepare, maintain, or make available to CBP under part 163 of this chapter.

(b) *Method of maintenance.* The records and documents referred to in paragraph (a) of this section must be maintained by importers as provided in § 163.5 of this chapter.

[CBP Dec. 21–10, 86 FR 35585, July 6, 2021]

§ 182.16 Effect of noncompliance; failure to provide documentation regarding transshipment.

(a) *General.* If the importer fails to comply with applicable requirements under this subpart, including submission of a complete certification of origin prepared in accordance with §§ 182.12 and 182.14, when requested, CBP may deny preferential tariff treatment to the imported good.

(b) *Failure to provide documentation regarding transshipment.* Where the requirements for preferential tariff treatment set forth elsewhere in this subpart are met, CBP nevertheless may deny preferential tariff treatment to an originating good if the good is transported outside the territories of the USMCA countries, and at the request of CBP, the importer of the good does not provide evidence demonstrating to the satisfaction of CBP that the transit and transshipment conditions set forth in Appendix A of this part were met.

[CBP Dec. 21–10, 86 FR 35585, July 6, 2021]

Subpart C—Export Requirements

§ 182.21 Certification of origin for goods exported to Canada or Mexico.

(a) *Submission of certification of origin to CBP.* An exporter or producer who completes a certification of origin for a good exported from the United States to Canada or Mexico must provide a copy of the certification of origin (written or electronic) to CBP upon request.

(b) *Notification of errors in certification of origin.* An exporter or producer who completes a certification of origin for a good exported from the United States to Canada or Mexico and who has reason to believe that the certification contains or is based on incorrect information must promptly and voluntarily notify every person, in writing, to whom the certification was provided of any change that could affect the accuracy or validity of the certification. Notification of an incorrect certification must also be given either in writing or via a CBP-authorized electronic data interchange system to CBP specifying the correction in accordance with § 182.124 (*see* §§ 182.123 and 182.124).

(c) *Maintenance of records*—(1) *General.* An exporter or producer who completes a certification of origin or a producer who provides a written representation for a good exported from the

United States to Canada or Mexico must maintain, for a period of at least five years after the date the certification was completed, all records and supporting documents relating to the origin of a good for which the certification of origin was completed, including the certification or copies thereof and records and documents associated with:

(i) The purchase, cost, value, and shipping of, and payment for, the good or material;

(ii) The purchase, cost, value, and shipping of, and payment for, all materials, including indirect materials, used in the production of the good or material; and

(iii) The production of the good in the form in which the good is exported or the production of the material in the form in which it was sold.

(2) *Method of maintenance.* The records referred to in paragraph (c) of this section must be maintained as provided in §163.5 of this chapter.

(3) *Availability of records.* For purposes of determining compliance with the provisions of this part, the records required to be maintained under this section must be stored and made available for examination and inspection by a CBP official in the same manner as provided in part 163 of this chapter.

[CBP Dec. 21–10, 86 FR 35585, July 6, 2021]

Subpart D—Post-Importation Duty Refund Claims

§182.31 Right to make post-importation claim for preferential tariff treatment and refund duties.

Notwithstanding any other available remedy, where a good would have qualified as an originating good when it was imported into the United States but no claim for preferential tariff treatment was made, the importer of that good may file a claim for a refund of any excess customs duties at any time within one year after the date of importation of the good in accordance with 19 U.S.C. 1520(d) and the procedures set forth in §182.32. Unless the importer fails to comply with the applicable requirements in this part, CBP may refund any excess customs duties by liquidation or reliquidation of the entry covering the good in accordance with §182.33.

[CBP Dec. 21–10, 86 FR 35586, July 6, 2021]

§182.32 Filing procedures.

(a) *Place of filing.* A post-importation claim for a refund must be filed with CBP, either at the port of entry or electronically.

(b) *Contents of claim.* A post-importation claim for a refund must be filed by presentation of the following:

(1) A written or electronic declaration or statement stating that the good was an originating good at the time of importation and setting forth the number and date of the entry or entries covering the good;

(2) A copy of a written or electronic certification of origin prepared in accordance with §182.12 demonstrating that the good qualifies for preferential tariff treatment;

(3) A written statement indicating whether the importer of the good provided a copy of the entry summary or equivalent documentation to any other person. If such documentation was so provided, the statement must identify each recipient by name, CBP identification number, and address and must specify the date on which the documentation was provided; and

(4) A written statement indicating whether or not any person has filed a protest, petition, or request for reliquidation; and if any such protest, petition, or request for reliquidation has been filed, the statement must identify the filing by number and date.

[CBP Dec. 21–10, 86 FR 35586, July 6, 2021]

§182.33 CBP processing procedures.

(a) *Status determination.* After receipt of a post-importation claim made pursuant to §182.32, CBP will determine whether the entry covering the good has been liquidated and, if liquidation has taken place, whether the liquidation has become final.

(b) *Pending protest, petition, or request for reliquidation or judicial review.* If CBP determines that any protest, petition, or request for reliquidation relating to the good has not been finally decided, CBP will suspend action on the claim filed under §182.32 until the decision on the protest, petition, or request

for reliquidation becomes final. If a summons involving the tariff classification or dutiability of the good is filed in the Court of International Trade, CBP will suspend action on the claim filed under §182.32 until judicial review has been completed.

(c) *Allowance of claim*—(1) *Unliquidated entry*. If CBP determines that a claim for a refund filed under §182.32 should be allowed and the entry covering the good has not been liquidated, CBP will take into account the claim for refund in connection with the liquidation of the entry.

(2) *Liquidated entry*. If CBP determines that a claim for a refund filed under §182.32 should be allowed and the entry covering the good has been liquidated, whether or not the liquidation has become final, the entry must be reliquidated in order to effect a refund of customs duties under this section. If the entry is otherwise to be reliquidated based on administrative review of a protest or as a result of judicial review, CBP will reliquidate the entry taking into account the claim for refund under §182.32.

(d) *Denial of claim*—(1) *General*. CBP may deny a claim for a refund filed under §182.32 if the claim was not filed timely, if the importer has not complied with the requirements of §182.32 or the other applicable requirements in this part, or if, following an origin verification, CBP determines either that the imported good was not an originating good at the time of importation or that a basis exists upon which preferential tariff treatment may be denied.

(2) *Unliquidated entry*. If CBP determines that a claim for a refund filed under §182.32 should be denied and the entry covering the good has not been liquidated, CBP will deny the claim in connection with the liquidation of the entry, and notice of the denial and the reason for the denial will be provided to the importer in writing or via a CBP-authorized electronic data interchange system.

(3) *Liquidated entry*. If CBP determines that a claim for a refund filed under §182.32 should be denied and the entry covering the good has been liquidated, whether or not the liquidation has become final, the claim may be denied without reliquidation of the entry. If the entry is otherwise to be reliquidated based on administrative review of a protest, petition, or request for reliquidation or as a result of judicial review, such reliquidation may include denial of the claim filed under this subpart. In either case, CBP will provide notice of the denial and the reason for the denial to the importer in writing or via a CBP-authorized electronic data interchange system.

[CBP Dec. 21–10, 86 FR 35586, July 6, 2021]

Subpart E—Restrictions on Drawback and Duty-Deferral Programs

§182.41 Applicability.

This subpart sets forth the provisions regarding drawback claims and duty-deferral programs under Article 2.5 of the USMCA and applies to any good that is a ''good subject to USMCA drawback'' within the meaning of 19 U.S.C. 4534. The provisions of this subpart apply to goods which are entered for consumption, or withdrawn from warehouse for consumption, into the United States on or after July 1, 2020. The requirements and procedures set forth in this subpart for USMCA drawback are in addition to the general definitions, requirements, and procedures for all drawback claims set forth in part 190 of this chapter, unless otherwise specifically provided in this subpart. Also, the requirements and procedures set forth in this subpart for USMCA duty-deferral programs are in addition to the requirements and procedures for manipulation, manufacturing, and smelting and refining warehouses contained in part 19 and part 144 of this chapter, for foreign trade zones under part 146 of this chapter, and for temporary importations under bond contained in part 10 of this chapter.

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§182.42 Duties and fees not subject to drawback.

The following duties or fees which may be applicable to a good entered for consumption or withdrawn from warehouse for consumption in the Customs territory of the United States are not

subject to drawback under this subpart:

(a) Antidumping and countervailing duties;

(b) A premium offered or collected on a good with respect to quantitative import restrictions, tariff-rate quotas or tariff preference levels; and

(c) Customs duties paid or owed under unused merchandise substitution drawback. There will be no payment of such drawback under 19 U.S.C. 1313(j)(2) on goods exported to Canada or Mexico.

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§ 182.43 Eligible goods subject to USMCA drawback.

Except as otherwise provided in this subpart, drawback is authorized for an imported good that is entered for consumption and is:

(a) Subsequently exported to Canada or Mexico (*see* 19 U.S.C. 1313(j)(1));

(b) Used as a material in the production of another good that is subsequently exported to Canada or Mexico (*see* 19 U.S.C. 1313(a)); or

(c) Substituted by a good of the same kind and quality as defined in §182.44(d) and used as a material in the production of another good that is subsequently exported to Canada or Mexico (*see* 19 U.S.C. 1313(b)).

[CBP Dec. 21–10, CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§ 182.44 Calculation of drawback.

(a) *General.* Except in the case of goods specified in §182.45, drawback of the duties previously paid upon importation of a good into the United States may be granted by the United States, upon presentation of a USMCA drawback claim under this subpart, on the lower amount of:

(1) The total duties paid or owed on the good in the United States; or

(2) The total amount of duties paid on the exported good upon subsequent importation into Canada or Mexico.

(b) *Individual relative value and duty comparison principle.* For purposes of this section, relative value will be determined, and the comparison between the duties referred to in paragraph (a)(1) of this section and the duties referred to in paragraph (a)(2) of this section will be made, separately with reference to each individual exported good, including where two components or materials are used to produce one exported good or one component or material is divided among multiple exported goods.

(c) *Direct identification manufacturing drawback under 19 U.S.C. 1313(a).* Upon presentation of the USMCA drawback claim under 19 U.S.C. 1313(a), in which the amount of drawback payable is based on the lesser amount of the customs duties paid on the good either to the United States or to Canada or Mexico, the amount of drawback refunded may not exceed 99 percent of the duty paid on such imported merchandise into the United States.

(d) *Substitution manufacturing drawback under 19 U.S.C. 1313(b).* Upon presentation of a USMCA drawback claim under 19 U.S.C. 1313(b), on which the amount of drawback payable is based on the lesser amount of the customs duties paid on the good either to the United States or to Canada or Mexico, the amount of drawback is the same as that which would have been allowed had the substituted merchandise used in manufacture been itself imported.

(1) *General.* For purposes of drawback under this subpart, the term ''same kind and quality'' has the same meaning as the 8-digit HTSUS substitution standard established in 19 U.S.C. 1313(b)(1) (*see* §§190.2 and 190.22(a)(1)(i) of this chapter).

(2) *Special rule for sought chemical elements.* For purposes of drawback under this subpart, for sought chemical elements, the term ''same kind and quality'' has the same meaning as the 8-digit HTSUS substitution standard established in 19 U.S.C. 1313(b)(4) (*see* §190.22(a)(2) of this chapter).

(e) *Meats cured with imported salt.* Meats, whether packed or smoked, which have been cured with imported salt may be eligible for drawback in aggregate amounts of not less than $100 in duties paid on the imported salt upon exportation of the meats to Canada or Mexico (*see* 19 U.S.C. 1313(f)).

(f) *Jet aircraft engines.* A foreign-built jet aircraft engine that has been overhauled, repaired, rebuilt, or reconditioned in the United States with the use of imported merchandise, including parts, may be eligible for drawback of

duties paid on the imported merchandise in aggregate amounts of not less than $100 upon exportation of the engine to Canada or Mexico (19 U.S.C. 1313(h)).

(g) *Unused goods under 19 U.S.C. 1313(j)(1) that have changed in condition.* An imported good that is unused in the United States under 19 U.S.C. 1313(j)(1) and that is shipped to Canada or Mexico not in the same condition within the meaning of § 182.45(b)(1) may be eligible for drawback under this section except when the shipment to Canada or Mexico does not constitute an exportation under 19 U.S.C. 1313(j)(4).

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§ 182.45 Goods eligible for full drawback.

(a) *Goods originating in Canada or Mexico.* A Canadian or Mexican originating good that is dutiable and is imported into the United States is eligible for drawback without regard to the limitation on drawback set forth in § 182.44 if that good is originating under the rules of origin set out in General Note 11, HTSUS, and Appendix A of this part, and is:

(1) Subsequently exported to Canada or Mexico;

(2) Used as a material in the production of another good that is subsequently exported to Canada or Mexico; or

(3) Substituted by a good of the same 8-digit HTSUS subheading number and used as a material in the production of another good that is subsequently exported to Canada or Mexico.

(b) *Claims under 19 U.S.C 1313(j)(1) for goods in same condition.* A good imported into the United States and subsequently exported to Canada or Mexico in the same condition is eligible for drawback under 19 U.S.C. 1313(j)(1) without regard to the limitation on drawback set forth in § 182.44 .

(1) *Same condition defined.* For purposes of this subpart, a reference to a good in

the ''same condition'' includes a good that has been subjected to any of the following operations provided that no such operation materially alters the characteristics of the good:

(i) Mere dilution with water or another substance;

(ii) Cleaning, including removal of rust, grease, paint or other coatings;

(iii) Application of preservative, including lubricants, protective encapsulation, or preservation paint;

(iv) Trimming, filing, slitting or cutting;

(v) Putting up in measured doses, or packing, repacking, packaging or repackaging; or

(vi) Testing, marking, labelling, sorting, grading, or inspecting a good.

(2) *Commingling of fungible goods*—(i) *General*—(A) *Inventory of other than all non-originating goods.* Commingling of fungible originating and non-originating goods in inventory is permissible provided that the origin of the goods and the identification of entries for designation for same condition drawback are on the basis of an approved inventory management method set forth in the Appendix A to this part (*see* 19 CFR 102.1).

(B) *Inventory of the non-originating goods.* If all goods in a particular inventory are non-originating goods, identification of entries for designation for same condition drawback must be on the basis of one of the accounting methods in § 190.14 of this chapter, as appropriate.

(ii) *Exception.* Agricultural goods imported from Mexico may not be commingled with fungible agricultural goods in the United States for purposes of same condition drawback under this subpart.

(c) *Goods not conforming to sample or specifications or shipped without consent of consignee under 19 U.S.C. 1313(c).* An imported good exported to Canada or Mexico by reason of failure of the good to conform to sample or specification or by reason of shipment of the good without the consent of the consignee is eligible for drawback under 19 U.S.C. 1313(c) without regard to the limitation on drawback set forth in § 182.44. Such a good must be exported or destroyed within the statutory 5-year time period and in compliance with the requirements set forth in subpart D of part 190 of this chapter, as applicable.

(d) *Certain goods exported to Canada or Mexico.* A good provided for in U.S. tariff items 1701.13.20 or 1701.14.20 that is imported into the Customs territory of the United States under any re-export

or like program that is used as a material, or substituted for by a good of the same kind and quality that is used as a material, in the production of a good provided for in Canadian tariff item 1701.99.00 or Mexican tariff items 1701.99.01, 1701.99.02, and 1701.99.99 (relating to refined sugar), is eligible for drawback without regard to the limitation on drawback set forth in §182.44. Same kind and quality for purposes of this subsection means that the imported good and the substituted good must be capable of being used interchangeably in the manufacture or production of the exported or destroyed articles with no substantial change in the manufacturing or production process.

(e) *Certain goods exported to Canada.* Goods identified in Article 2.5.6(g) of the USMCA and in 19 U.S.C. 4534(a)(7) and (8), if exported to Canada, are eligible for drawback without regard to the limitations on drawback set forth in §182.44.

(f) *Certain goods that are exported or deemed exported.* Goods that are delivered:

(1) To a duty-free shop,

(2) For ship's stores or supplies for ships or aircrafts, or

(3) For the use in a project undertaken jointly by the United States and a USMCA country, and destined to become the property of the United States, are eligible upon exportation for drawback without regard to the limitations on drawback set forth in §182.44.

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§182.46 Filing of drawback claim.

(a) *Time of filing.* A drawback claim under this subpart must be filed within 5 years after the date of importation of the goods on which drawback is claimed. No extension will be granted unless it is established that a CBP official was responsible for the untimely filing. Drawback will be allowed only if the completed good is exported within 5 years after importation of the merchandise identified or designated to support the claim.

(b) *Method of filing.* A drawback claim must be filed electronically through a CBP-authorized electronic system (*see* §190.51 of this chapter).

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§182.47 Completion of claim for drawback.

(a) *General.* A claim for drawback will be granted, upon the submission of appropriate documentation to substantiate compliance with the drawback laws and regulations of the United States, evidence of exportation to Canada or Mexico, and satisfactory evidence of the payment of duties to Canada or Mexico. Unless otherwise provided in this subpart, the documentation, filing procedures, time and place requirements and other applicable procedures required to determine whether a good qualifies for drawback must be in accordance with the provisions of part 190 of this chapter, as appropriate; however, a drawback claim subject to the provisions of this subpart must be filed separately from any part 190 drawback claim (that is, a claim that involves goods exported to countries other than Canada or Mexico). Claims inappropriately filed or otherwise not completed within the periods specified in §182.46 will be considered abandoned.

(b) *Complete drawback claim*—(1) *General.* A complete drawback claim under this subpart must consist of the filing of the appropriate completed drawback entry, evidence of exportation (a copy of the Canadian or Mexican customs entry showing the amount of duty paid to Canada or Mexico) and its supporting documents, and a certification from the Canadian or Mexican importer as to the amount of duties paid. Each drawback entry filed under this subpart must be filed using the indicator ''USMCA Drawback''.

(2) *Specific claims.* The following documentation, for the drawback claims specified below, must be submitted to CBP in order for a drawback claim to be processed under this subpart. Missing documentation or incorrect or incomplete information on required customs forms or supporting documentation will result in an incomplete drawback claim.

(i) *Manufacturing drawback claim.* The following must be submitted in connection with a claim for direct identification manufacturing drawback or substitution manufacturing drawback:

(A) A completed CBP Form 331, or its electronic equivalent, to establish the manufacture of goods made with imported merchandise and, if applicable, the identity of substituted domestic, duty-paid or duty-free merchandise, and including the tariff classification number of the imported merchandise;

(B) CBP Form 7501, or its electronic equivalent, or the import entry number;

(C) [Reserved]

(D) Evidence of exportation and satisfactory evidence of the payment of duties in Canada or Mexico, as provided in paragraph (c) of this section;

(E) Waiver of right to drawback. If the person exporting to Canada or Mexico was not the importer or the manufacturer, written waivers executed by the importer or manufacturer and by any intervening person to whom the good was transferred must be submitted in order for the claim to be considered complete; and

(F) An affidavit of the party claiming drawback stating that no other drawback claim has been made on the designated goods, that such party has not provided an exporter's certification of origin pertaining to the exported goods to another party except as stated on the drawback claim, and that the party agrees to notify CBP if the party subsequently provides such an exporter's certification of origin to any person.

(ii) *Same condition drawback claim under 19 U.S.C. 1313(j)(1).* The following must be submitted in connection with a drawback claim covering a good in the same condition:

(A) The foreign entry number and date of entry, the HTSUS classification for the foreign entry, the amount of duties paid for the foreign entry and the applicable exchange rate, and, if applicable, a certification from the claimant that provides as follows: ''Same condition—The undersigned certifies that the merchandise herein described is in the same condition as when it was imported under the above import entry(s) and further certifies that this merchandise was not subjected to any process of manufacture or other operation except the allowable operations as provided for by regulation.'';

(B) Information sufficient to trace the movement of the imported goods after importation;

(C) In-bond application submitted pursuant to part 18 of this chapter, if applicable. This is required for merchandise which is examined at one port but exported through border points outside of that port. Such goods must travel in bond from the location where they were examined to the point of the border crossing (exportation). If examination is waived, in-bond transportation is not required;

(D) *Notification of intent to export or waiver of prior notice.* CBP must be notified at least 5 business days in advance of the intended date of exportation in order to have the opportunity to examine the goods (*see* §190.35 of this chapter);

(E) *Evidence of exportation.* Acceptable documentary evidence of exportation to Canada or Mexico may include originals or copies of any of the following documents that are issued by the exporting carrier: bill of lading, air waybill, freight waybill, export ocean bill of lading, Canadian customs manifest, and cargo manifest. Supporting documentary evidence must establish fully the time and fact of exportation, the identity of the exporter, and the identity and location of the ultimate consignee of the exported goods;

(F) *Waiver of right to drawback.* If the party exporting to Canada or Mexico was not the importer, a written waiver from the importer and from each intermediate person to whom the goods were transferred is required in order for the claim to be considered complete; and

(G) An affidavit of the party claiming drawback stating that no other drawback claim has been made on the designated goods.

(iii) *Nonconforming or improperly shipped goods drawback claim.* The following must be submitted in the case of goods not conforming to sample or specifications, or shipped without the consent of the consignee and subject to a drawback claim under 19 U.S.C. 1313(c):

(A) Customs Form 7501, or its electronic equivalent, to establish the fact of importation, the receipt of the imported goods, and the identity of the party to whom drawback is payable (*see* § 182.48(b));

(B) [Reserved]

(C) CBP Form 7512, or its electronic equivalent, if applicable;

(D) Notification of intent to export or waiver of prior notice. CBP must be notified at least 5 business days in advance of the intended date of exportation in order to have the opportunity to examine the goods (*see* § 190.42 of this chapter); and

(E) Evidence of exportation, as provided in paragraph (b)(2)(ii)(E) of this section.

(iv) *Meats cured with imported salt.* The provisions of paragraph (b)(2)(i) of this section relating to direct identification manufacturing drawback will apply to claims for drawback on meats cured with imported salt filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart, and the forms referred to in that paragraph must be modified to show that the claim is being made for refund of duties paid on salt used in curing meats.

(v) *Jet aircraft engines.* The provisions of paragraph (b)(2)(i) of this section relating to direct identification manufacturing drawback will apply to claims for drawback on foreign-built jet aircraft engines repaired or reconditioned in the United States filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart and the provisions of subpart N of part 190 of this chapter.

(c) [Reserved]

[CBP Dec. 21–10, 86 FR 35587, July 6, 2021]

§ 182.49 Retention of records.

All records required to be kept by the exporter, importer, manufacturer or producer under this subpart with respect to manufacturing drawback claims, and all records kept by others which complement the records of the importer, exporter, manufacturer or producer, including any person who transfers or enables another person to make or perfect a drawback claim, must be retained for at least three years from the date of liquidation of such claims or longer period if required by law (*see* §§ 190.10, 190.15, 190.38, and 190.175(c) of this chapter).

[CBP Dec. 21–10, 86 FR 35589, July 6, 2021]

§ 182.50 Liquidation and payment of drawback claims.

(a) *General.* When the drawback claim has been fully completed by the filing of all required documents, and exportation of the articles has been established and the amount of duties paid to Canada or Mexico has been established, the entry will be liquidated to determine the proper amount of drawback due either in accordance with the limitation on drawback set forth in § 182.44 of this subpart or in accordance with the regular drawback calculation. The liquidation procedures of subpart H of part 190 of this chapter, as appropriate, will control for purposes of this subpart.

(b) [Reserved]

(c) *Accelerated payment.* Accelerated drawback payment procedures will apply as set forth in § 190.92 of this chapter, as appropriate. However, a person who receives drawback of duties under this procedure must repay the duties paid if a USMCA drawback claim is adversely affected thereafter by administrative or court action.

[CBP Dec. 21–10, 86 FR 35589, July 6, 2021]

§ 182.51 Prevention of improper payment of claims.

(a) *Double payment of claim.* The drawback claimant must certify to CBP that the claimant has not earlier received payment on the same import entry for the same designation of goods. If, notwithstanding such a certification, such an earlier payment was in fact made to the claimant, the claimant must repay any amount paid on the second claim.

(b) *Preparation of Certification of Origin.* The drawback claimant must, within 30 calendar days after the filing of the drawback claim under this subpart, submit to CBP a written statement as to whether the claimant has prepared, or has knowledge that another person has prepared, a certification of origin provided for under § 182.12 and pertaining to the goods

which are covered by the claim. If, following such 30-day period, the claimant prepares, or otherwise learns of the existence of, any such certification of origin, the claimant must, within 30 calendar days thereafter, disclose that fact to CBP.

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

§ 182.52 Subsequent claims for preferential tariff treatment.

If a claim for a refund of duties is allowed by the Canadian or Mexican customs administration under Article 5.11 of the USMCA (post-importation claim) or under any other circumstance after drawback has been granted under this subpart, the appropriate CBP official must reliquidate the drawback claim and obtain a refund of the amount paid in drawback in excess of the amount permitted to be paid under § 182.44.

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

§ 182.54 Verification of claim for drawback, waiver or reduction of duties.

The allowance of a claim for drawback, waiver or reduction of duties submitted under this subpart is subject to such verification, including verification with the Canadian or Mexican customs administration, of any documentation obtained in Canada or Mexico and submitted in connection with the claim, as CBP may deem necessary.

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

Subpart F—Rules of Origin

§ 182.61 Rules of origin.

The regulations, implementing the rules of origin provisions of General Note 11, Harmonized Tariff Schedule of the United States (HTSUS), and Chapters Four and Six of the USMCA, are contained in Appendix A to this part.

§ 182.62 [Reserved]

Subpart G—Origin Verifications and Determinations

§ 182.71 Applicability.

This subpart contains the general origin verification and determination provisions applicable to goods claiming preferential tariff treatment under § 182.11(b) or § 182.32.

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

§ 182.72 Verification of claim for preferential tariff treatment.

(a) *Verification.* A claim for preferential tariff treatment made under § 182.11(b) or 182.32, including any statements or other information submitted to CBP in support of the claim, will be subject to such verification as CBP deems necessary. CBP may initiate the verification of goods imported into the United States under the USMCA with the importer, or with the exporter or producer who completed the certification of origin. A verification of a claim for preferential tariff treatment under the USMCA may be conducted by means of one or more of the following:

(1) Requests for information or questionnaires, including a request for documents, to the importer, exporter, or producer;

(2) Verification visits to the premises of the exporter or producer in Mexico or Canada in order to request information, including documents, and to observe production processes and facilities; and

(3) Any other procedure to which the USMCA countries may agree.

(b) *Verification of a material.* When conducting a verification of a good imported into the United States, CBP may conduct a verification of the material that is used in the production of that good. A verification of a material producer may be conducted pursuant to any of the verification means set forth in paragraph (a) of this section. With the exception of §§ 182.73(c) and 182.75, the provisions in this subpart also apply to the verification of a material and references to the term ''producer'' apply to a producer of a good or to a material producer.

(c) *Sending information directly to CBP.* During a verification, CBP will accept information, including documents, directly from an importer, exporter, or producer.

(d) *Applicable accounting principles.* When conducting a verification to which Generally Accepted Accounting Principles or an otherwise accepted inventory method may be relevant, CBP

will apply and accept the Generally Accepted Accounting Principles applicable in the USMCA country in which the production is performed or from which the good is exported, as appropriate, or an otherwise accepted inventory management method as provided for in Appendix A of this part. If information, including documents, books and records, were not maintained accordingly, CBP will provide the importer, exporter or producer 30 days to record costs in accordance with Appendix A of this part.

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

§ 182.73 Notification and response procedures.

(a) *Requests for information and questionnaires.* When conducting a verification through a request for information or a questionnaire as provided for in § 182.72(a)(1), CBP will send the importer, exporter or producer a written request for information, a written questionnaire, or its electronic equivalent, including a request for specific documentation to support the claim for preferential tariff treatment.

(1) *Contents.* The written request for information, written questionnaire, or its electronic equivalent will contain the following:

(i) The objective and scope of the verification, including the specific issue that the verification is seeking to resolve; and

(ii) Sufficient information to identify the good or material that is the subject of the verification.

(2) *Availability of records*—(i) *Verification of a good.* The importer, exporter, or producer must make the records, which are required to be maintained to demonstrate that the good qualifies for preferential tariff treatment under the USMCA, available for inspection by a CBP official conducting a verification. CBP may deny the claim for preferential tariff treatment of the good for failure to maintain the required records or if a CBP official is denied access to the records.

(ii) *Verification of a material.* During the verification of a material, any records in the material producer's possession demonstrating that the material qualifies as originating must be made available for inspection by a CBP official conducting a verification. CBP may consider the material that is used in the production of the good and is the subject of the verification to be non-originating material if a CBP official is denied access to these records.

(b) *Notification of a verification visit.* Prior to conducting a verification visit in Canada or Mexico, CBP will provide the exporter or producer, using one of the communication means specified in paragraph (d)(2) of this section, with a notification stating the intent to conduct a verification visit and containing the following:

(1) The objective and scope of the verification, including the specific issue that the verification is seeking to resolve;

(2) Sufficient information to identify the good or material that is the subject of the verification;

(3) A request for the written consent of the exporter or producer whose premises are going to be visited;

(4) The legal authority for the visit;

(5) The proposed date and location of the visit;

(6) The specific purpose of the visit; and

(7) The names and titles of the U.S. officials conducting the visit.

(c) *Importer notification.* When CBP initiates a verification by sending a request for information or questionnaire under paragraph (a) of this section to an exporter or producer or by sending a notification of a verification visit under paragraph (b) of this section, CBP will notify the importer claiming preferential tariff treatment of the good that CBP has initiated a verification of that good, subject to the confidentiality provisions in § 182.2.

(d) *Means of communications.* (1) For purposes of a verification, it is sufficient for CBP to use the contact information provided in the certification of origin for any communication sent to the importer, exporter, or producer.

(2) For purposes of a verification, CBP will send all communication to the exporter or producer by any means that can produce a confirmation of receipt including:

(i) Electronic mail;

(ii) International courier services;

(iii) Certified or registered mail services; or

(iv) A CBP-authorized electronic data interchange system.

(e) *Time periods.* Any time periods specified in this subpart begin from the date of confirmation of receipt, provided for in paragraph (d)(2) of this section, when sending communication to the exporter or producer, and begin from the date the communication is sent when sending communication to the importer.

(f) *Response time for a request for information, a questionnaire, and a notification of a verification visit*—(1) *Request for information and questionnaire.* When CBP sends a request for information or a questionnaire, the importer, exporter, or producer will have 30 days from the date specified in paragraph (e) of this section to respond and provide the requested documentation. CBP may deny the claim for preferential tariff treatment of the good, or consider the material that is used in the production of the good to be non-originating material, for failure to respond to the request for information subject to the conditions in §182.75(c)(1), or for failure to respond to the questionnaire.

(2) *Notification of a verification visit.* When CBP sends a notification of a verification visit, the exporter or producer will have 30 days from the date specified in paragraph (e) of this section to consent to or deny the verification visit. CBP may deny the claim for preferential tariff treatment of the good, or consider the material that is used in the production of the good to be non-originating material, for failure to provide consent for a verification visit within the 30-day response period, unless a postponement is requested in accordance with §182.74(b).

[CBP Dec. 21–10, 86 FR 35590, July 6, 2021]

§182.74 Verification visit procedures.

(a) *Written consent required.* Prior to conducting a verification visit in Canada or Mexico, CBP must obtain the written consent of the exporter or producer whose premises are to be visited. The exporter or producer must submit this written consent, requested in the notification of a verification visit under §182.73(b)(3), to CBP through one of the communication means specified in §182.73(d)(2), within the time period provided in §182.73(f)(2), unless a postponement is requested in accordance with paragraph (b) of this section.

(b) *Postponement of a verification visit*—(1) *Request for postponement by an exporter or producer.* Within 15 days of confirmed receipt of the notification of a verification visit, the exporter or producer may, on a single occasion, using one of the communication means specified in §182.73(d)(2), request the postponement of the verification visit for a period not to exceed 30 days from the proposed date of the visit.

(2) *Notification of a postponement.* CBP will notify the exporter or producer when a postponement request under paragraph (b)(1) of this section is received and will provide the new date of the verification visit. The Mexican or Canadian customs administration where the verification visit will occur may also, within 15 days of confirmed receipt of the notification of a verification visit, postpone the verification visit for a period not to exceed 60 days from the proposed date of the visit or for a longer period as CBP and the Mexican or Canadian customs administration may decide. CBP will notify the exporter or producer if the verification visit is postponed at the request of the Mexican or Canadian customs administration.

(c) *Availability of records*—(1) *Verification of a good.* The exporter or producer must make the records, which are required to be maintained to demonstrate that the good qualifies for preferential tariff treatment under the USMCA, available for inspection by a CBP official conducting a verification and provide facilities for that inspection during the verification visit. CBP may deny the claim for preferential tariff treatment of the good for failure to maintain these records or if a CBP official is denied access to these records.

(2) *Verification of a material.* During the verification of a material, any records in the material producer's possession demonstrating that the material qualifies as originating must be made available for inspection by a CBP official conducting a verification. CBP may consider the material that is the used in the production of the good and is the subject of the verification visit to be non-originating material if a CBP

official is denied access to these records.

(d) *Observers.* The exporter or producer may designate up to two observers to be present during the verification visit, if the exporter or producer chooses, provided that:

(1) The observers do not participate in a manner other than as observers;

(2) The failure of the exporter or producer to designate observers does not result in the postponement of the visit; and

(3) The exporter or producer identifies to CBP any observers designated to be present during the visit.

[CBP Dec. 21–10, 86 FR 35591, July 6, 2021]

§ 182.75 Determinations of origin.

(a) *Contents.* For verifications initiated under this part, CBP will issue a determination of origin that sets forth:

(1) A description of the good that was the subject of the verification;

(2) A statement setting forth the findings of facts made in connection with the verification and upon which the determination is based; and

(3) The legal basis for the determination.

(b) *Parties who will receive a determination of origin.* CBP will issue the determination of origin to the importer, and to the exporter or producer who is subject to the verification and either completed the certification of origin or provided information directly to CBP during the verification, subject to the confidentiality provisions in §182.2, within 120 days (or in exceptional cases and upon notification to the parties, within 210 days) after CBP has determined that it has received all the information necessary to issue a determination of origin, including any information necessary from the exporter or producer.

(c) *Negative determinations*—(1) *When a request for information must be sent to the exporter or producer prior to issuing a negative determination.* If a claim for preferential tariff treatment is based on a certification of origin completed by the exporter or producer, and, in response to a request for information, the importer does not provide CBP with sufficient information to verify or substantiate the claim, CBP will send a written request for information or its electronic equivalent to the exporter or producer that completed the certification of origin, subject to the confidentiality provisions in §182.2, prior to issuing a negative determination.

(2) *Denial of preferential tariff treatment.* CBP may deny the claim for preferential tariff treatment if:

(i) The certification of origin is not submitted to CBP upon request as required pursuant to §182.12(a);

(ii) The claim or certification of origin is invalid or based on inaccurate information and is not corrected within the required time period pursuant to §182.11(c);

(iii) CBP determines that the importer, exporter, or producer failed to provide sufficient information to substantiate the claim;

(iv) CBP determines that the good does not qualify for preferential tariff treatment, including failing to meet the rules of origin requirements in General Note 11, HTSUS, and Appendix A to this part;

(v) The importer, exporter, or producer fails to respond to the request for information pursuant to §182.73(f)(1) subject to the conditions in §182.75(c)(1);

(vi) The importer, exporter, or producer fails to respond to the questionnaire pursuant to §182.73(f)(1);

(vii) The exporter or producer fails to consent to a verification visit pursuant to §182.74;

(viii) The importer, exporter, or producer fails to maintain records demonstrating that the good qualifies for preferential tariff treatment as required pursuant to this part;

(ix) The importer, exporter, or producer denies access, as requested by CBP, to records or documentation that are in its possession or required to be maintained pursuant to this part;

(x) The exporter or producer denies access to records or documentation that are in its possession or required to be maintained, or to facilities during a verification visit as required pursuant to this part;

(xi) CBP finds a pattern of conduct pursuant to §182.76; or

(xii) CBP determines that any other reason to deny a claim for preferential tariff treatment as set forth in this part applies

(3) *Intent to deny*. Prior to issuing a negative determination, CBP will inform the importer, and the exporter or producer who is subject to the verification and either completed the certification of origin or provided information directly to CBP during the verification, of CBP's intent to deny preferential tariff treatment, subject to the confidentiality provisions in §182.2. This intent to deny will contain the preliminary results of the verification, the effective date of the denial of preferential tariff treatment, and a notice to the importer, exporter, or producer that CBP will provide 30 days to submit additional information, including documents, related to the preferential tariff treatment of the good.

(4) *Issuance of a negative determination of origin*. CBP will issue a negative determination of origin to the parties specified in paragraph (b) of this section if CBP determines, at least 30 days after receipt by the importer, exporter, or producer of the intent to deny issued pursuant to paragraph (c)(3) of this section, that one or more of the reasons for denial of preferential tariff treatment under paragraph (c)(2) of this section continues to apply. In addition to the contents of the determination set forth in paragraph (a) of this section, unless CBP determines that there is a pattern of conduct of false or unsupported representations pursuant to §182.76, a negative determination of origin will provide the exporter or producer with the information necessary to file a protest as provided for in 19 U.S.C. 1514(e) and part 174 of this chapter.

[CBP Dec. 21–10, 86 FR 35591, July 6, 2021]

§182.76 Repeated false or unsupported preference claims.

Where the verification reveals a pattern of conduct by the importer, exporter, or producer of false or unsupported representations relevant to a claim that a good imported into the United States qualifies for preferential tariff treatment under the USMCA, CBP may withhold preferential tariff treatment under the USMCA for entries of identical goods covered by subsequent statements, declarations, or certifications by that importer, exporter, or producer until CBP determines that representations of that person are in conformity with this part and with General Note 11, HTSUS.

Subpart H—Textile and Apparel Goods

§§ 182.81–182.82 [Reserved]

Subpart I—Automotive Goods

§§ 182.91–182.93 [Reserved]

Subpart J—Commercial Samples and Goods Returned after Repair or Alteration

SOURCE: CBP Dec. 21–10, 86 FR 35592, July 6, 2021, unless otherwise noted.

§182.111 Commercial samples of negligible value.

(a) *General*. Commercial samples of negligible value imported from Canada or Mexico may qualify for duty-free entry under subheading 9811.00.60, HTSUS. For purposes of this section, ''commercial samples of negligible value'' means commercial samples which have a value, individually or in the aggregate as shipped, of not more than one U.S. dollar, or the equivalent amount in the currency of Canada or Mexico, or which are so marked, torn, perforated, or otherwise treated that they are unsuitable for sale or for use except as commercial samples.

(b) *Qualification for duty-free entry*. Commercial samples of negligible value imported from Canada or Mexico will qualify for duty-free entry under subheading 9811.00.60, HTSUS, only if:

(1) The samples are imported solely for the purpose of soliciting orders for foreign goods or services; and

(2) If valued over one U.S. dollar, the samples are properly marked, torn, perforated or otherwise treated prior to arrival in the United States so that they are unsuitable for sale or for use except as commercial samples.

§ 182.112 Goods re-entered after repair or alteration in Canada or Mexico.

(a) *General.* This section sets forth the rules that apply for purposes of obtaining duty-free treatment on goods returned after repair or alteration in Canada or Mexico as provided for in subheadings 9802.00.40 and 9802.00.50, HTSUS. Goods returned after having been repaired or altered in Canada or Mexico, regardless of whether the repair or alteration could be performed in the United States or has increased the value of the good and regardless of their origin, are eligible for duty-free treatment, provided that the requirements of this section are met. For purposes of this section, ''repairs or alterations'' means restoration, addition, renovation, re-dyeing, cleaning, resterilizing, or other treatment that does not destroy the essential characteristics of, or create a new or commercially different good from, the good exported from the United States.

(b) *Goods not eligible for duty-free treatment after repair or alteration.* The duty-free treatment referred to in paragraph (a) of this section will not apply to goods that:

(1) In their condition, as exported from the United States to Canada or Mexico, are incomplete for their intended use and for which the processing operation performed in Canada or Mexico constitutes an operation that is performed as a matter of course in the preparation or manufacture of finished goods; or

(2) Are imported under a duty-deferral program that are exported for repair or alteration and are not re-imported under a duty-deferral program.

(c) *Documentation.* The provisions of § 10.8(a), (b), and (c) of this chapter, relating to the documentary requirements for goods entered under subheading 9802.00.40 or 9802.00.50, HTSUS, will apply in connection with the entry of goods which are returned from Canada or Mexico after having been exported for repairs or alterations and which are claimed to be duty-free.

Subpart K—Penalties

SOURCE: CBP Dec. 21–10, 86 FR 35593, July 6. 2021, unless otherwise noted.

§ 182.121 General.

Except as otherwise provided in this subpart, all criminal, civil, or administrative penalties which may be imposed on U.S. importers, exporters, and producers for violations of the customs and related U.S. laws and regulations will also apply to U.S. importers, exporters, and producers for violations of the U.S. laws and regulations relating to the USMCA.

§ 182.122 Corrected claim or certification of origin by importers.

An importer who makes a corrected claim under § 182.11(c) will not be subject to civil or administrative penalties under 19 U.S.C. 1592 for having made an incorrect claim or having submitted an incorrect certification of origin, provided that the corrected claim is promptly and voluntarily made in accordance with § 182.124.

§ 182.123 Corrected certification of origin by U.S. exporters or producers.

Civil or administrative penalties provided for under 19 U.S.C. 1592 will not be imposed on an exporter or producer who completed a certification of origin for a good exported from the United States to Canada or Mexico when the exporter or producer promptly and voluntarily provides written notification pursuant to §§ 182.21(b) and 182.124 with respect to the making of an incorrect certification of origin.

§ 182.124 Framework for correcting claims or certifications of origin.

(a) ''*Promptly and voluntarily*'' *defined.* Except as provided for in paragraph (b) of this section, for purposes of this part, the making of a corrected claim or certification of origin by an importer or the providing of written notification of an incorrect certification of origin by an exporter or producer will be deemed to have been done promptly and voluntarily if:

(1)(i) Done before the commencement of a formal investigation, within the meaning of § 162.74(g) of this chapter; or

(ii) Done before any of the events specified in § 162.74(i) of this chapter has occurred; or

(iii) Done within 30 days after the importer, exporter, or producer initially

becomes aware that the claim or certification is incorrect; and

(2) Accompanied by a statement setting forth the information specified in paragraph (c) of this section; and

(3) In the case of a corrected claim or certification of origin by an importer, accompanied or followed by a tender of any actual loss of duties and merchandise processing fees, if applicable, in accordance with paragraph (d) of this section.

(b) *Exception in cases involving fraud or subsequent incorrect claims*—(1) *Fraud.* Notwithstanding paragraph (a) of this section, a person who acted fraudulently in making an incorrect claim or certification of origin may not make a voluntary correction of that claim or certification of origin. For purposes of this paragraph, the term ''fraud'' will have the meaning set forth in paragraph (C)(3) of Appendix B to part 171 of this chapter.

(2) *Subsequent incorrect claims.* An importer who makes one or more incorrect claims after becoming aware that a claim involving the same merchandise and circumstances is invalid may not make a voluntary correction of the subsequent claims pursuant to paragraph (a) of this section.

(c) *Statement.* For purposes of this part, each corrected claim or certification of origin must be accompanied by a statement, submitted in writing or via a CBP-authorized electronic data interchange system, which:

(1) Identifies the class or kind of good to which the incorrect claim or certification of origin relates;

(2) In the case of a corrected claim or certification of origin by an importer, identifies each affected import transaction, including each port of importation and the approximate date of each importation;

(3) In the case of a written notification of an incorrect certification of origin by an exporter or producer, identifies each affected export transaction, including each port of exportation and the approximate date of each exportation. A producer who provides written notification that certain information in a certification of origin is incorrect and who is unable to identify the specific export transactions under this paragraph must provide as much information concerning those transactions as the producer, by the exercise of good faith and due diligence, is able to obtain;

(4) Specifies the nature of the incorrect statements or omissions regarding the claim or certification of origin; and

(5) Sets forth, to the best of the person's knowledge, the true and accurate information or data which should have been covered by or provided in the claim or certification of origin, and states that the person will provide any additional information or data which is unknown at the time of making the corrected claim or certification of origin within 30 days or within any extension of that 30-day period as CBP may permit in order for the person to obtain the information or data.

(d) *Tender of actual loss of duties.* A U.S. importer who makes a corrected claim must tender any actual loss of duties at the time of making the corrected claim, or within 30 days thereafter, or within any extension of that 30-day period as CBP may allow in order for the importer to obtain the information or data necessary to calculate the duties owed.

APPENDIX A TO PART 182—RULES OF ORIGIN REGULATIONS

UNIFORM REGULATIONS REGARDING THE INTERPRETATION, APPLICATION, AND ADMINISTRATION OF CHAPTER 4 (RULES OF ORIGIN) AND RELATED PROVISIONS IN CHAPTER 6 (TEXTILE AND APPAREL GOODS) OF THE AGREEMENT BETWEEN THE UNITED STATES OF AMERICA, THE UNITED MEXICAN STATES, AND CANADA[1]

PART I

SECTION 1. DEFINITIONS AND INTERPRETATIONS

(1) *Definitions.* The following definitions apply in these Regulations,

accessories, spare parts, tools, instructional or other information materials means goods that are delivered with a good, whether or not they are physically affixed to that good, and that are used for the transport, protection, maintenance or cleaning of the good, for instruction in the assembly, repair or use of that good, or as replacements for

[1] Please note that the citing conventions in Appendix A might not conform to the ordinary citing conventions in the Code of Federal Regulations (CFR) because the language is added pursuant to an international agreement without revision.

consumable or interchangeable parts of that good;

adjusted to exclude any costs incurred in the international shipment of the good means, with respect to the transaction value of a good, adjusted by

(a) deducting the following costs if those costs are included in the transaction value of the good:

(i) The costs of transporting the good after it is shipped from the point of direct shipment,

(ii) the costs of unloading, loading, handling and insurance that are associated with that transportation, and

(iii) the cost of packing materials and containers, and

(b) if those costs are not included in the transaction value of the good, adding

(i) the costs of transporting the good from the place of production to the point of direct shipment,

(ii) the costs of loading, unloading, handling and insurance that are associated with that transportation, and

(iii) the costs of loading the good for shipment at the point of direct shipment;

Agreement means the *United States-Mexico-Canada Agreement;*[2]

applicable change in tariff classification means, with respect to a non-originating material used in the production of a good, a change in tariff classification specified in a rule established in Schedule I (PSRO Annex) for the tariff provision under which the good is classified;

aquaculture means the farming of aquatic organisms, including fish, molluscs, crustaceans, other aquatic invertebrates and aquatic plants from seed stock such as eggs, fry, fingerlings, or larvae, by intervention in the rearing or growth processes to enhance production such as regular stocking, feeding, or protection from predators;

costs incurred in packing means, with respect to a good or material, the value of the packing materials and containers in which the good or material is packed for shipment and the labor costs incurred in packing it for shipment, but does not include the costs of preparing and packaging it for retail sale;

Customs Valuation Agreement means the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, set out in Annex 1A to the WTO Agreement;

customs value means

(a) in the case of Canada, value for duty as defined in the *Customs Act,* except that for the purpose of determining that value the reference in section 55 of that Act to ''in accordance with the regulations made under the *Currency Act*'' is to be read as a reference to ''in accordance with subsection 2(1) of these *CUSMA Rules of Origin Regulations*'',

(b) in the case of Mexico, the *valor en aduana* as determined in accordance with the *Ley Aduanera*, converted, if such value is not expressed in Mexican currency, to Mexican currency at the rate of exchange determined in accordance with subsection 2(1), and

(c) in the case of the United States, the value of imported merchandise as determined by the U.S. Customs and Border Protection in accordance with section 402 of the *Tariff Act of 1930*, as amended, converted, if that value is not expressed in United States currency, to United States currency at the rate of exchange determined in accordance with subsection 2(1);

days means calendar days, and includes Saturdays, Sundays and holidays;

direct labor costs means costs, including fringe benefits, that are associated with employees who are directly involved in the production of a good;

direct material costs means the value of materials, other than indirect materials and packing materials and containers, that are used in the production of a good;

direct overhead means costs, other than direct material costs and direct labor costs, that are directly associated with the production of a good;

enterprise means an entity constituted or organized under applicable law, whether or not for profit, and whether privately-owned or governmentally-owned or controlled, including a corporation, trust, partnership, sole proprietorship, joint venture, association or similar organization;

excluded costs means, with respect to net cost or total cost, sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs;

fungible goods means goods that are interchangeable for commercial purposes with another good and the properties of which are essentially identical;

fungible materials means materials that are interchangeable with another material for commercial purposes and the properties of which are essentially identical;

Harmonized System means the *Harmonized Commodity Description and Coding System,* including its General Rules of Interpretation, Section Notes, Chapter Notes and Subheading Notes, as set out in

(a) in the case of Canada, the *Customs Tariff,*

(b) in the case of Mexico, the *Tarifa de la Ley de los Impuestos Generales de Importación y de Exportación,* and

(c) in the case of the United States, the *Harmonized Tariff Schedule of the United States;*

[2] Please be aware that, in other contexts, the United States-Mexico-Canada Agreement is referred to by its official name, the Agreement Between the United States of America, the United Mexican States, and Canada.

identical goods means, with respect to a good, including the valuation of a good, goods that

(a) are the same in all respects as that good, including physical characteristics, quality and reputation but excluding minor differences in appearance,

(b) were produced in the same country as that good, and

(c) were produced

(i) by the producer of that good, or

(ii) by another producer, if no goods that satisfy the requirements of paragraphs (a) and (b) were produced by the producer of that good;

identical materials means, with respect to a material, including the valuation of a material, materials that

(a) are the same as that material in all respects, including physical characteristics, quality and reputation but excluding minor differences in appearance,

(b) were produced in the same country as that material, and

(c) were produced

(i) by the producer of that material, or

(ii) by another producer, if no materials that satisfy the requirements of paragraphs (a) and (b) were produced by the producer of that material;

incorporated means, with respect to the production of a good, a material that is physically incorporated into that good, and includes a material that is physically incorporated into another material before that material or any subsequently produced material is used in the production of the good;

indirect material means a material used or consumed in the production, testing or inspection of a good but not physically incorporated into the good, or a material used or consumed in the maintenance of buildings or the operation of equipment associated with the production of a good, including

(a) fuel and energy,

(b) tools, dies, and molds,

(c) spare parts and materials used or consumed in the maintenance of equipment and buildings,

(d) lubricants, greases, compounding materials and other materials used or consumed in production or used to operate equipment and buildings,

(e) gloves, glasses, footwear, clothing, safety equipment, and supplies,

(f) equipment, devices and supplies used or consumed for testing or inspecting the goods,

(g) catalysts and solvents, and

(h) any other material that is not incorporated into the good but if the use in the production of the good can reasonably be demonstrated to be part of that production;

interest costs means all costs paid or payable by a person to whom credit is, or is to be advanced, for the advancement of credit or the obligation to advance credit;

intermediate material means a material that is self-produced and used in the production of a good, and designated as an intermediate material under subsection 8(6);

location of the producer means,

(a) the place where the producer uses a material in the production of the good; or

(b) the warehouse or other receiving station where the producer receives materials for use in the production of the good, provided that it is located within a radius of 75 km (46.60 miles) from the production site.

material means a good that is used in the production of another good, and includes a part or ingredient;

month means a calendar month;

national means a natural person who is a citizen or permanent resident of a USMCA country, and includes

(a) with respect to Mexico, a national or citizen according to Articles 30 and 34, respectively, of the Mexican Constitution, and

(b) with respect to the United States, a ''national of the United States'' as defined in the Immigration and Nationality Act on the date of entry into force of the Agreement;

net cost means total cost minus sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost;

net cost of a good means the net cost that can be reasonably allocated to a good using the method set out in subsection 7(3) (Regional Value Content);

net cost method means the method of calculating the regional value content of a good that is set out in subsection 7(3) (Regional Value Content);

non-allowable interest costs means interest costs incurred by a producer on the producer's debt obligations that are more than 700 basis points above the interest rate issued by the federal government for comparable maturities of the country in which the producer is located;

non-originating good means a good that does not qualify as originating under these Regulations;

non-originating material means a material that does not qualify as originating under these Regulations;

originating good means a good that qualifies as originating under these Regulations;

originating material means a material that qualifies as originating under these Regulations;

packaging materials and containers means materials and containers in which a good is packaged for retail sale;

packing materials and containers means materials and containers that are used to protect a good during transportation, but does not include packaging materials and containers;

payments means, with respect to royalties and sales promotion, marketing and after-

sales service costs, the costs expensed on the books of a producer, whether or not an actual payment is made;

person means a natural person or an enterprise;

person of a USMCA country means a national, or an enterprise constituted or organized under the laws of a USMCA country;

point of direct shipment means the location from which a producer of a good normally ships that good to the buyer of the good;

producer means a person who engages in the production of a good;

production means growing, cultivating, raising, mining, harvesting, fishing, trapping, hunting, capturing, breeding, extracting, manufacturing, processing, or assembling a good, or aquaculture;

reasonably allocate means to apportion in a manner appropriate to the circumstances;

recovered material means a material in the form of one or more individual parts that results from:

(a) The disassembly of a used good into individual parts; and

(b) the cleaning, inspecting, testing or other processing of those parts as necessary for improvement to sound working condition;

related person means a person related to another person on the basis that

(a) they are officers or directors of one another's businesses,

(b) they are legally recognized partners in business,

(c) they are employer and employee,

(d) any person directly or indirectly owns, controls or holds 25 percent or more of the outstanding voting stock or shares of each of them,

(e) one of them directly or indirectly controls the other,

(f) both of them are directly or indirectly controlled by a third person, or

(g) they are members of the same family;

remanufactured good means a good classified in HS Chapters 84 through 90 or under heading 94.02 except goods classified under HS headings 84.18, 85.09, 85.10, and 85.16, 87.03 or subheadings 8414.51, 8450.11, 8450.12, 8508.11, and 8517.11, that is entirely or partially composed of recovered materials and:

(a) Has a similar life expectancy and performs the same as or similar to such a good when new; and

(b) has a factory warranty similar to that applicable to such a good when new;

reusable scrap or by-product means waste and spoilage that is generated by the producer of a good and that is used in the production of a good or sold by that producer;

right to use, for the purposes of the definition of royalties, includes the right to sell or distribute a good;

royalties means payments of any kind, including payments under technical assistance or similar agreements, made as consideration for the use of, or right to use, a copyright, literary, artistic, or scientific work, patent, trademark, design, model, plan, or secret formula or process, excluding those payments under technical assistance or similar agreements that can be related to specific services such as

(a) personnel training, without regard to where the training is performed, or

(b) if performed in the territory of one or more of the USMCA countries, engineering, tooling, die-setting, software design and similar computer services, or other services;

sales promotion, marketing, and after-sales service costs means the following costs related to sales promotion, marketing and after-sales service:

(a) Sales and marketing promotion; media advertising; advertising and market research; promotional and demonstration materials; exhibits; sales conferences, trade shows and conventions; banners; marketing displays; free samples; sales, marketing and after-sales service literature (product brochures, catalogs, technical literature, price lists, service manuals, or sales aid information); establishment and protection of logos and trademarks; sponsorships; wholesale and retail restocking charges; or entertainment;

(b) sales and marketing incentives; consumer, retailer or wholesaler rebates; or merchandise incentives;

(c) salaries and wages, sales commissions, bonuses, benefits (for example, medical, insurance, or pension), travelling and living expenses, or membership and professional fees for sales promotion, marketing and after-sales service personnel;

(d) recruiting and training of sales promotion, marketing and after-sales service personnel, and after-sales training of customers' employees, if those costs are identified separately for sales promotion, marketing and after-sales service of goods on the financial statements or cost accounts of the producer;

(e) product liability insurance;

(f) office supplies for sales promotion, marketing and after-sales service of goods, if those costs are identified separately for sales promotion, marketing, and after-sales service of goods on the financial statements or cost accounts of the producer;

(g) telephone, mail and other communications, if those costs are identified separately for sales promotion, marketing, and after-sales service of goods on the financial statements or cost accounts of the producer;

(h) rent and depreciation of sales promotion, marketing, and after-sales service offices and distribution centers;

(i) property insurance premiums, taxes, cost of utilities, and repair and maintenance of sales promotion, marketing, and after-sales service offices and distribution centers, if those costs are identified separately for sales promotion, marketing and after-sales

service of goods on the financial statements or cost accounts of the producer; and

(j) payments by the producer to other persons for warranty repairs;

self-produced material means a material that is produced by the producer of a good and used in the production of that good;

shipping and packing costs means the costs incurred in packing a good for shipment and shipping the good from the point of direct shipment to the buyer, excluding the costs of preparing and packaging the good for retail sale;

similar goods means, with respect to a good, goods that

(a) although not alike in all respects to that good, have similar characteristics and component materials that enable the goods to perform the same functions and to be commercially interchangeable with that good,

(b) were produced in the same country as that good, and

(c) were produced

(i) by the producer of that good, or

(ii) by another producer, if no goods that satisfy the requirements of paragraphs (a) and (b) were produced by the producer of that good;

similar materials means, with respect to a material, materials that

(a) although not alike in all respects to that material, have similar characteristics and component materials that enable the materials to perform the same functions and to be commercially interchangeable with that material,

(b) were produced in the same country as that material, and

(c) were produced

(i) by the producer of that material, or

(ii) by another producer, if no materials that satisfy the requirements of paragraphs (a) and (b) were produced by the producer of that material;

subject to a regional value content requirement means, with respect to a good, that the provisions of these Regulations that are applied to determine whether the good is an originating good include a regional value content requirement;

tariff provision means a heading, subheading or tariff item;

territory means:

(a) For Canada, the following zones or waters as determined by its domestic law and consistent with international law:

(i) The land territory, air space, internal waters, and territorial sea of Canada,

(ii) the exclusive economic zone of Canada, and

(iii) the continental shelf of Canada;

(b) for Mexico,

(i) the land territory, including the states of the Federation and Mexico City,

(ii) the air space, and

(iii) the internal waters, territorial sea, and any areas beyond the territorial seas of Mexico within which Mexico may exercise sovereign rights and jurisdiction, as determined by its domestic law, consistent with the *United Nations Convention on the Law of the Sea,* done at Montego Bay on December 10, 1982; and

(c) for the United States,

(i) the customs territory of the United States, which includes the 50 states, the District of Columbia, and Puerto Rico,

(ii) the foreign trade zones located in the United States and Puerto Rico, and

(iii) the territorial sea and air space of the United States and any area beyond the territorial sea within which, in accordance with customary international law as reflected in the *United Nations Convention on the Law of the Sea,* the United States may exercise sovereign rights or jurisdiction.

total cost means all product costs, period costs, and other costs incurred in the territory of one or more of the USMCA countries, where:

(a) Product costs are costs that are associated with the production of a good and include the value of materials, direct labor costs, and direct overheads;

(b) period costs are costs, other than product costs, that are expensed in the period in which they are incurred, such as selling expenses and general and administrative expenses; and

(c) other costs are all costs recorded on the books of the producer that are not product costs or period costs, such as interest.

Total cost does not include profits that are earned by the producer, regardless of whether they are retained by the producer or paid out to other persons as dividends, or taxes paid on those profits, including capital gains taxes;

transaction value means the customs value as determined in accordance with the Customs Valuation Agreement, that is, the price actually paid or payable for a good or material with respect to a transaction of the producer of the good, adjusted in accordance with the principles of Articles 8(1), 8(3), and 8(4) of the Customs Valuation Agreement, regardless of whether the good or material is sold for export;

transaction value method means the method of calculating the regional value content of a good that is set out in subsection 7(2) (Regional Value Content);

used means used or consumed in the production of a good;

USMCA country means a Party to the Agreement;

value means the value of a good or material for the purpose of calculating customs duties or for the purpose of applying these Regulations.

verification of origin means a verification of origin of goods under

(a) in the case of Canada, paragraph 42.1(1)(a) of the *Customs Act*,

(b) in the case of Mexico, Article 5.9 of the Agreement, and

(c) in the case of the United States, section 509 of the Tariff Act of 1930, as amended.

(2) *Interpretation: ''similar goods'' and ''similar materials''*. For the purposes of the definitions of *similar goods* and *similar materials*, the quality of the goods or materials, their reputation and the existence of a trademark are among the factors to be considered for the purpose of determining whether goods or materials are similar.

(3) *Other definitions*. For the purposes of these Regulations,

(a) *chapter*, unless otherwise indicated, refers to a chapter of the Harmonized System;

(b) *heading* refers to any four-digit number set out in the ''Heading'' column in the Harmonized System, or the first four digits of any tariff provision;

(c) *subheading* refers to any six-digit number, set out in the ''H.S. Code'' column in the Harmonized System or the first six digits of any tariff provision;

(d) *tariff item* refers to the first eight digits in the tariff classification number under the Harmonized System as implemented by each USMCA country;

(e) any reference to a tariff item in Chapter Four of the Agreement or these Regulations that includes letters is to be reflected as the appropriate eight-digit number in the Harmonized System as implemented in each USMCA country; and

(f) *books* refers to,

(i) with respect to the books of a person who is located in a USMCA country,

(A) books and other documents that support the recording of revenues, expenses, costs, assets and liabilities and that are maintained in accordance with Generally Accepted Accounting Principles set out in the publications listed in Schedule X with respect to the territory of the USMCA country in which the person is located, and

(B) financial statements, including note disclosures, that are prepared in accordance with Generally Accepted Accounting Principles set out in the publications listed in Schedule X with respect to the territory of the USMCA country in which the person is located, and

(ii) with respect to the books of a person who is located outside the territories of the USMCA countries,

(A) books and other documents that support the recording of revenues, expenses, costs, assets and liabilities and that are maintained in accordance with generally accepted accounting principles applied in that location or, if there are no such principles, in accordance with the International Accounting Standards, and

(B) financial statements, including note disclosures, that are prepared in accordance with generally accepted accounting principles applied in that location or, if there are no such principles, in accordance with the International Accounting Standards.

(4) *Use of examples*. If an example, referred to as an ''Example'', is set out in these Regulations, the example is for the purpose of illustrating the application of a provision, and if there is any inconsistency between the example and the provision, the provision prevails to the extent of the inconsistency.

(5) *References to domestic laws*. Except as otherwise provided, references in these Regulations to domestic laws of the USMCA countries apply to those laws as they are currently in effect and as they may be amended or superseded.

(6) *Calculation of Total Cost*. For the purposes of subsections 5(11), 7(11) and 8(8),

(a) total cost consists of all product costs, period costs and other costs that are recorded, except as otherwise provided in subparagraphs (b)(i) and (ii), on the books of the producer without regard to the location of the persons to whom payments with respect to those costs are made;

(b) in calculating total cost,

(i) the value of materials, other than intermediate materials, indirect materials and packing materials and containers, is the value determined in accordance with subsections 8(1) and 8(2),

(ii) the value of intermediate materials used in the production of the good or material with respect to which total cost is being calculated must be calculated in accordance with subsection 8(6),

(iii) the value of indirect materials and the value of packing materials and containers is to be the costs that are recorded on the books of the producer for those materials, and

(iv) product costs, period costs and other costs, other than costs referred to in subparagraphs (i) and (ii), is to be the costs thereof that are recorded on the books of the producer for those costs;

(c) total cost does not include profits that are earned by the producer, regardless of whether they are retained by the producer or paid out to other persons as dividends, or taxes paid on those profits, including capital gains taxes;

(d) gains related to currency conversion that are related to the production of the good must be deducted from total cost, and losses related to currency conversion that are related to the production of the good must be included in total cost;

(e) the value of materials with respect to which production is accumulated under section 9 must be determined in accordance with that section; and

(f) total cost includes the impact of inflation as recorded on the books of the producer, if recorded in accordance with the

Generally Accepted Accounting Principles of the producer's country.

(7) *Period for the calculation of total cost.* For the purpose of calculating total cost under subsections 5(11) and 7(11) and 8(8),

(a) if the regional value content of the good is calculated on the basis of the net cost method and the producer has elected under subsection 7(15), 16(1) or (3) to calculate the regional value content over a period, the total cost must be calculated over that period; and

(b) in any other case, the producer may elect that the total cost be calculated over

(i) a one-month period,

(ii) any consecutive three-month or six-month period that falls within and is evenly divisible into the number of months of the producer's fiscal year remaining at the beginning of that period, or

(iii) the producer's fiscal year.

(8) *Election not modifiable.* An election made under subsection (7) may not be rescinded or modified with respect to the good or material, or the period, with respect to which the election is made.

(9) *Election considered made with respect to period.* If a producer chooses a one, three or six-month period under subsection (7) with respect to a good or material, the producer is considered to have chosen under that subsection a period or periods of the same duration for the remainder of the producer's fiscal year with respect to that good or material.

(10) *Election considered made with respect to cost.* With respect to a good exported to a USMCA country, an election to average is considered to have been made

(a) in the case of an election referred to in subsection 16(1) or (3), if the election is received by the customs administration of that USMCA country; and

(b) in the case of an election referred to in subsection 1(7), 7(15) or 16(10), if the customs administration of that USMCA country is informed in writing during the course of a verification of origin of the good that the election has been made.

SECTION 2. CONVERSION OF CURRENCY

2 (1) *Conversion of currency.* If the value of a good or a material is expressed in a currency other than the currency of the country where the producer of the good is located, that value must be converted to the currency of the country in which that producer is located, based on the following rates of exchange:

(a) In the case of the sale of that good or the purchase of that material, the rate of exchange used by the producer for the purpose of recording that sale or purchase, or

(b) in the case of a material that is acquired by the producer other than by a purchase,

(i) if the producer used a rate of exchange for the purpose of recording another transaction in that other currency that occurred within 30 days of the date on which the producer acquired the material, that rate, or

(ii) in any other case,

(A) with respect to a producer located in Canada, the rate of exchange referred to in section 5 of the *Currency Exchange for Customs Valuation Regulations* for the date on which the material was shipped directly to the producer,

(B) with respect to a producer located in Mexico, the rate of exchange published by the *Banco de Mexico* in the *Diario Oficial de la Federación*, under the title ''*TIPO de cambio para solventar obligaciones denominadas en moneda extranjera pagaderas en la República Mexicana*'', for the date on which the material was shipped directly to the producer, and

(C) with respect to a producer located in the United States, the rate of exchange referred to in 31 U.S.C. 5151 for the date on which the material was shipped directly to the producer.

(2) *Information in other currency in statement.* If a producer of a good has a statement referred to in section 9 that includes information in a currency other than the currency of the country in which that producer is located, the currency must be converted to the currency of the country in which the producer is located based on the following rates of exchange:

(a) If the material was purchased by the producer in the same currency as the currency in which the information in the statement is provided, the rate of exchange must be the rate used by the producer for the purpose of recording the purchase; or

(b) if the material was purchased by the producer in a currency other than the currency in which the information in the statement is provided,

(i) and the producer used a rate of exchange for the purpose of recording a transaction in that other currency that occurred within 30 days of the date on which the producer acquired the material, the rate of exchange must be that rate, or

(ii) in any other case,

(A) with respect to a producer located in Canada, the rate of exchange is the rate referred to in section 5 of the *Currency Exchange for Customs Valuation Regulations* for the date on which the material was shipped directly to the producer,

(B) with respect to a producer located in Mexico, the rate of exchange is the rate published by the *Banco de Mexico* in the *Diario Oficial de la Federacion*, under the title ''*TIPO de cambio para solventar obligaciones denominadas en moneda extranjera pagaderas en la Republica Mexicana*'', for the date on which the material was shipped directly to the producer, and

(C) with respect to a producer located in the United States, the rate of exchange is the rate referred to in 31 U.S.C. 5151 for the date on which the material was shipped directly to the producer; and

(c) if the material was acquired by the producer other than by a purchase,

(i) if the producer used a rate of exchange for the purpose of recording a transaction in that other currency that occurred within 30 days of the date on which the producer acquired the material, the rate of exchange must be that rate, and

(ii) in any other case,

(A) with respect to a producer located in Canada, the rate of exchange must be the rate referred to in section 5 of the *Currency Exchange for Customs Valuation Regulations* for the date on which the material was shipped directly to the producer,

(B) with respect to a producer located in Mexico, the rate of exchange must be the rate published by the *Banco de Mexico* in the *Diario Oficial de la Federacion,* under the title ''*TIPO de cambio para solventar obligaciones denominadas en moneda extranjera pagaderas en la Republica Mexicana*'', for the date on which the material was shipped directly to the producer, and

(C) with respect to a producer located in the United States, the rate of exchange must be the rate referred to in 31 U.S.C. 5151 for the date on which the material was shipped directly to the producer.

PART II

SECTION 3. ORIGINATING GOODS

3(1) *Wholly obtained goods.* A good is originating in the territory of a USMCA country if the good satisfies all other applicable requirements of these Regulations and is:

(a) A mineral good or other naturally occurring substance extracted in or taken from the territory of one or more of the USMCA countries;

(b) a plant, plant good, vegetable, or fungus, grown, harvested, picked, or gathered in the territory of one or more of the USMCA countries;

(c) a live animal born and raised in the territory of one or more of the USMCA countries;

(d) a good obtained from a live animal in the territory of one or more of the USMCA countries;

(e) an animal obtained from hunting, trapping, fishing, gathering or capturing in the territory of one or more of the USMCA countries;

(f) a good obtained from aquaculture in the territory of one or more of the USMCA countries;

(g) fish, shellfish or other marine life taken from the sea, seabed or subsoil outside the territories of the USMCA countries and, under international law, outside the territorial sea of non-USMCA countries, by vessels that are registered, listed, or recorded with a USMCA country and entitled to fly the flag of that USMCA country;

(h) a good produced from goods referred to in paragraph (g) on board a factory ship where the factory ship is registered, listed, or recorded with a USMCA country and entitled to fly the flag of that USMCA country;

(i) a good, other than fish, shellfish or other marine life, taken by a USMCA country or a person of a USMCA country from the seabed or subsoil outside the territories of the USMCA countries, if that USMCA country has the right to exploit that seabed or subsoil;

(j) waste and scrap derived from:

(i) Production in the territory of one or more of the USMCA countries, or

(ii) used goods collected in the territory of one or more of the USMCA countries, provided the goods are fit only for the recovery of raw materials; or

(k) a good produced in the territory of one or more of the USMCA countries, exclusively from a good referred to in any of paragraphs (a) through (j), or from their derivatives, at any stage of production.

(2) *Goods produced from non-originating materials.* A good, produced entirely in the territory of one or more of the USMCA countries, is originating in the territory of a USMCA country if each of the non-originating materials used in the production of the good satisfies all applicable requirements of Schedule I (PSRO Annex), and the good satisfies all other applicable requirements of these Regulations.

(3) *Goods produced exclusively from originating materials.* A good is originating in the territory of a USMCA country if the good is produced entirely in the territory of one or more of the USMCA countries exclusively from originating materials and the good satisfies all other applicable requirements of these Regulations.

(4) *Exceptions to the change in tariff classification requirement.* Except in the case of a good of any of Chapters 61 through 63, a good is originating in the territory of a USMCA country if:

(a) One or more of the non-originating materials used in the production of that good cannot satisfy the change in tariff classification requirements set out in Schedule I (PSRO Annex) because both the good and its materials are classified in the same subheading or same heading that is not further subdivided into subheadings, and,

(i) the good is produced entirely in the territory of one or more of the USMCA countries;

(ii) the regional value content of the good, calculated in accordance with section 7 (Regional Value Content), is not less than 60 percent if the transaction value method is

used, or not less than 50 percent if the net cost method is used; and

(iii) the good satisfies all other applicable requirements of these Regulations; or

(b) it was imported into the territory of a USMCA country in an unassembled or a disassembled form but classified as an assembled good in accordance with rule 2(a) of the General Rules of Interpretation for the Harmonized System and,

(i) the good is produced entirely in the territory of one or more of the USMCA countries;

(ii) the regional value content of the good, calculated in accordance with section 7 (Regional Value Content), is not less than 60 percent if the transaction value method is used, or not less than 50 percent if the net cost method is used; and

(iii) the good satisfies all other applicable requirements of these Regulations.

(5) *Interpretation of goods and parts of goods.* For the purposes of paragraph (4)(a),

(a) the determination of whether a heading or subheading provides for a good and its parts is to be made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System; and

(b) if, in accordance with the Harmonized System, a heading includes parts of goods by application of a Section Note or Chapter Note of the Harmonized System and the subheadings under that heading do not include a subheading designated ''Parts'', a subheading designated ''Other'' under that heading is to be considered to cover only the goods and parts of the goods that are themselves classified under that subheading.

(6) *Requirement to meet one rule.* For the purposes of subsection (2), if Schedule I (PSRO Annex) sets out two or more alternative rules for the tariff provision under which a good is classified, if the good satisfies the requirements of one of those rules, it need not satisfy the requirements of another of the rules in order to qualify as an originating good.

(7) *Special rule for certain goods.* A good is originating in the territory of a USMCA country if the good is referred to in Schedule II and is imported from the territory of a USMCA country.

(8) *Self-produced material considered as a material.* For the purpose of determining whether non-originating materials undergo an applicable change in tariff classification, a self-produced material may, at the choice of the producer of that material, be considered as a material used in the production of a good into which the self-produced material is incorporated.

(9) *Each of the following examples is an ''Example'' as referred to in subsection 1(4).*

Example 1: Subsection 3(2) Regarding the 'component that determines the tariff classification' of a textile or apparel good)

Producer A, located in a USMCA country, produces women's wool overcoats of subheading 6202.11 from two different fabrics, one for the body and another for the sleeves. Both fabrics are produced using originating and non-originating materials. The overcoat's body is made of woven wool and silk fabric, and the sleeves are made of knit cotton fabric.

For the purpose of determining if the women's wool overcoats are originating goods, Producer A must take into account Note 2 of Chapter 62 of Schedule I, which indicates that the applicable rule will apply only to the component that determines the tariff classification of the good and that the component must satisfy the tariff change requirements set out in the rule for that good.

The woven fabric (80% wool and 20% silk) used for the body is the component of the women's wool overcoat that determines its tariff classification under subheading 6202.11, because it constitutes the predominant material by weight and makes up the largest surface area of the overcoat. This fabric is made by Producer A from originating wool yarn classified in heading 51.06 and non-originating silk yarn classified in heading 50.04.

Since the knit cotton fabric used in the sleeves is not the component that determines the tariff classification of the good, it does not need to meet the requirements set out in the rule for the good.

Producer A must determine whether the non-originating materials used in the production of the component that determines the tariff classification of the women's wool overcoats (the woven fabric) satisfy the requirements established in the product-specific rule of origin, which requires both a change in tariff classification from any other chapter, except from some headings and chapters under which certain yarns and fabrics are classified, and a requirement that the good be cut or knit to shape and sewn or otherwise assembled in the territory of one or more of the USMCA countries. The non-originating silk yarn of heading 50.04 used by Producer A satisfies the change in tariff classification requirement, since heading 50.04 is not excluded under the product-specific rule of origin. Additionally, the overcoats are cut and sewn in the territory of one of the USMCA countries, and therefore the women's wool overcoats would be considered to be originating goods.

Example 2: (Subsection 3(2))

Producer A, located in a USMCA country, produces T-shirts of subheading 6109.10 from knit cotton and polyester fabric (60% cotton and 40% polyester), which is also produced by Producer A using originating cotton yarn of heading 52.05 and polyester yarn made of non-originating filaments of heading 54.02.

As the t-shirt is made of a single fabric and classified under GRI 1 in subheading 6109.10,

this fabric is the component that determines tariff classification. Therefore, to be considered originating by application of the tariff-shift rule for subheading 6109.10, each of the non-originating materials used in the production of the t-shirt must undergo the required change in tariff classification.

In this case, the non-originating polyester filaments of heading 54.02 used in the production of the T-shirts do not satisfy the change in tariff classification set out in the product-specific rule of origin. In addition, the weight of the non-originating polyester is over the ''de minimis'' allowance. Therefore, the T-shirts do not qualify as originating goods.

Example 3: (subsection 3(2))—Note 2 contained in Section XI—Textiles and Textile Articles (Chapter 50–63)

Producer A, located in a USMCA country, produces fabrics of subheading 5211.42 from originating cotton and polyester yarns, and non-originating rayon filament. For the purpose of determining if the fabrics are originating goods, Producer A must consider Note 2 of Section XI of Schedule I, which indicates a good of Chapter 50 through 63 is considered as originating, regardless of whether the rayon filaments used in its production are non-originating materials, provided that the good meets the requirements of the applicable product-specific rule of origin.

With the exception of the rayon filaments of heading 54.03, that Note 2 of Section XI of Schedule I allows, all of the materials used in the production of the fabrics are originating materials, and since General Interpretative Note (d) of Schedule I provides that a change in tariff classification of a product-specific rule of origin applies only to non-originating materials, the fabrics are considered to be originating goods.

Example 4: Subsection 3(2) Note 2 and 5 of Chapter 62 regarding the interpretation of the component that determines the tariff classification and the requirement for pockets.

Producer A, located in a USMCA country, produces men's suits classified in subheading 6203.12, which are made of three fabrics: A non-originating fabric of subheading 5407.61 used to make a visible lining, an originating fabric of 5514.41 used to make the outer part of the suit and a non-originating fabric of subheading 5513.21 used to make pocket bags.

For the purpose of determining if the men's suits are originating goods, Producer A should take into account Note 2 of Chapter 62 of Schedule I, which indicates that the applicable rule will only apply to the component that determines the tariff classification of the good and that the component must satisfy the tariff change requirements set out in the rule for that good.

The originating fabric used to make the outer part of the suit is the component of the suit that determines the tariff classification under subheading 6203.12, because it constitutes the predominant material by weight and is the largest surface area of the suit. The origin of the fabric used as visible lining is disregarded for the purpose of determining whether the suit is an originating good since that fabric is not considered the component that determines the tariff classification, and there are no Chapter notes related to visible lining for apparel goods.

Additionally, Producer A uses a non-originating fabric of subheading 5513.21 for the pocket bags of the suits, so it should take into account the second paragraph of Note 5 of Chapter 62 of Schedule I, which requires that the pocket bag fabric must be formed and finished in the territory of one or more USMCA countries from yarn wholly formed in one or more USMCA countries.

In this case, for the production of men's suits, Producer A uses non-originating fabric for the pockets, and such fabric was not formed and finished in the territory of one or more Parties, therefore the suits would be considered to be non-originating goods.

Example 5 (subsection 3(7)): A wholesaler located in USMCA Country A imports non-originating storage units provided for in subheading 8471.70 from outside the territory of the USMCA countries. The wholesaler resells the storage units to a buyer in USMCA Country B. While in the territory of Country A, the storage units do not undergo any production and therefore do not meet the rule in Schedule I for goods of subheading 8471.70 when imported into the territory of USMCA Country B.

Notwithstanding the rule in Schedule I, the storage units of subheading 8471.70 are considered originating goods when they are imported to the territory of USMCA Country B because they are referred to in Schedule II and were imported from the territory of another USMCA country.

The buyer in USMCA Country B subsequently uses the storage units provided for in subheading 8471.70 as a material in the production of another good. For the purpose of determining whether the other good originates, the buyer in USMCA Country B may treat the storage units of subheading 8471.70 as originating materials.

Example 6 subsection 3(8): Self-produced Materials as Materials for the purpose of Determining Whether Non-originating Materials Undergo an Applicable Change in Tariff Classification

Producer A, located in a USMCA country, produces Good A. In the production process, Producer A uses originating Material X and non-originating Material Y to produce Material Z. Material Z is a self-produced material that will be used to produce Good A.

The rule set out in Schedule I for the heading under which Good A is classified specifies a change in tariff classification from any other heading. In this case, both Good A and the non-originating Material Y are of the same heading. However, the self-produced Material Z is of a heading different than that of Good A.

For the purpose of determining whether the non-originating materials that are used in the production of Good A undergo the applicable change in tariff classification, Producer A has the option to consider the self-produced Material Z as the material that must undergo a change in tariff classification. As Material Z is of a heading different than that of Good A, Material Z satisfies the applicable change in tariff classification and Good A would qualify as an originating good.

SECTION 4. TREATMENT OF RECOVERED MATERIALS USED IN THE PRODUCTION OF A REMANUFACTURED GOOD

4(1) *Treatment of recovered materials used in the production of remanufactured goods.* A recovered material derived in the territory of one or more of the USMCA countries, will be treated as originating, provided that:

(a) It is the result of a disassembly process of a used good into individual parts;

(b) It has undergone certain processing, such as cleaning, inspection, testing or other improvement processing, to sound working condition; and

(c) It is used in the production of, and incorporated into, a remanufactured good.

(2) *Recovered material not used in remanufactured good.* In the case that the recovered material is not used or incorporated in the production of a remanufactured good, it is originating only if it satisfies the requirements established in Section 3, and satisfies all other applicable requirements in these Regulations.

(3) *Requirements of Schedule I (PSRO Annex).* A remanufactured good is originating in the territory of a USMCA country only if it satisfies the applicable requirements established in Schedule I (PSRO Annex), and satisfies all other applicable requirements in these Regulations.

(4) Each of the following examples is an ''Example'' as referred to in subsection 1(4)

Example 1: (Section 4)

In July 2023, Producer A located in a USMCA country manufactures water pumps of subheading 8413.30 for use in automotive engines. In addition to selling new water pumps, Producer A also sells water pumps that incorporate used parts.

To obtain the used parts, Producer A disassembles used water pumps in a USMCA country and cleans, inspects, and tests the individual parts. Accordingly, these parts qualify as recovered materials.

The water pumps that Producer A manufactures incorporate the recovered materials, have the same life expectancy and performance as new water pumps, and are sold with a warranty that is similar to the warranty for new water pumps. The water pumps therefore qualify as remanufactured goods, and the recovered materials are treated as originating materials when determining whether the good qualifies as an originating good.

In this case, because the water pumps are for use in an automotive good, the provisions of Part VI apply. Because the water pump is a part listed in Table B, the RVC required is 70% under the net cost method or 80% under the transaction value method.

The producer chooses to calculate the RVC using net cost as follows:

Water pump net cost = $1,000
Value of recovered materials = $600
Value other originating materials = $20
Value of non-originating materials = $280
RVC = (NC − VNM)/NC × 100
RVC = (1,000 − 280)/1,000 × 100 = 72%

The remanufactured water pumps are originating goods because their regional value content exceeds the 70% requirement by net cost method.

Example 2: Section 4

Producer A located in a USMCA country, uses recovered materials derived in the territory of a USMCA country in the production of self-propelled ''bulldozers'' classified in subheading 8429.11.

In the production of the bulldozers, Producer A uses recovered engines, classified in heading 84.07. The engines are recovered materials because they are disassembled from used bulldozers in a USMCA country and then subject to cleaning, inspecting and technical tests to verify their sound working condition.

In addition to the recovered materials, other non-originating materials, classified in subheading 8413.91, are also used in the production of the bulldozers.

Producer A's bulldozers are considered a ''remanufactured good'' because they are classified in a tariff provision set out in the definition of a remanufactured good, are partially composed of recovered materials, have a similar life expectancy and perform the same as or similar to new self-propelled bulldozers, and have a factory warranty similar to new self-propelled bulldozers.

Once the recovered engines are used in the production of, and incorporated into, the remanufactured bulldozers, the recovered engines would be treated considered as originating materials for the purpose of determining if the remanufactured bulldozers are originating.

The rule of origin set out in in Schedule I for subheading 8429.11 specifies a change in tariff classification from any other subheading.

In this case, because the recovered engines are treated as originating materials, and the non-originating materials, classified in subheading 8413.91, satisfy the requirements set out in Schedule I, the remanufactured bulldozers are originating goods.

SECTION 5. DE MINIMIS

5(1) *De minimis rule for non-originating materials*. Except as otherwise provided in subsection (3) (Exceptions), a good is originating in the territory of a USMCA country if

(a) the value of all non-originating materials that are used in the production of the good and that do not undergo an applicable change in tariff classification as a result of production occurring entirely in the territory of one or more of the USMCA countries is not more than ten percent

(i) of the transaction value of the good, determined in accordance with Schedule III (Value of Goods), and adjusted to exclude any costs incurred in the international shipment of the good, or

(ii) of the total cost of the good;

(b) if the good is also subject to a regional content requirement under the rule in which the applicable change in tariff classification is specified, the value of those non-originating materials is to be taken into account in calculating the regional value content of the good in accordance with the method set out for that good; and

(c) the good satisfies all other applicable requirements of these Regulations.

(2) *Only one rule to satisfy*. If Schedule I (PSRO Annex) sets out two or more alternative rules for the tariff provision under which the good is classified, and the good is considered an originating good under one of those rules in accordance with subsection (1), it need not satisfy the requirements of any alternative rule to be originating.

(3) *Exceptions*. Subsections (1) and (2) do not apply to:

(a) A non-originating material of heading 04.01 through 04.06, or a non-originating material that is a dairy preparation containing over 10 percent by dry weight of milk solids of subheading 1901.90 or 2106.90, used in the production of a good of heading 04.01 through 04.06;

(b) a non-originating material of heading 04.01 through 04.06, or a non-originating material that is a dairy preparation containing over 10 percent by dry weight of milk solids of subheading 1901.90 or 2106.90, used in the production of a good of:

(i) Infant preparations containing over 10 percent by dry weight of milk solids of subheading 1901.10,

(ii) mixes and doughs, containing over 25 percent by dry weight of butterfat, not put up for retail sale of subheading 1901.20,

(iii) dairy preparations containing over 10 percent by dry weight of milk solids of subheading 1901.90 or 2106.90,

(iv) goods of heading 21.05,

(v) beverages containing milk of subheading 2202.90, or

(vi) animal feeds containing over 10 percent by dry weight of milk solids of subheading 2309.90;

(c) a non-originating material of any of heading 08.05 and subheadings 2009.11 through 2009.39 that is used in the production of a good of any of subheadings 2009.11 through 2009.39 or a fruit or vegetable juice of any single fruit or vegetable, fortified with minerals or vitamins, concentrated or unconcentrated, of subheading 2106.90 or 2202.90;

(d) a non-originating material of Chapter 9 that is used in the production of instant coffee, not flavored, of subheading 2101.11;

(e) a non-originating material of Chapter 15 that is used in the production of a good of any of headings 15.01 through 15.08, 15.12, 15.14 or 15.15;

(f) a non-originating material of heading 17.01 that is used in the production of a good of any of headings 17.01 through 17.03;

(g) a non-originating material of Chapter 17 or heading 18.05 that is used in the production of a good of subheading 1806.10;

(h) a non-originating material that is pears, peaches or apricots of Chapter 8 or 20 that is used in the production of a good of heading 20.08;

(i) a non-originating material that is a single juice ingredient of heading 20.09 that is used in the production of a good of any of subheading 2009.90, or tariff item 2106.90.cc or 2202.90.bb;

(j) a non-originating material of heading 22.03 through 22.08 that used in the production of a good provided for in any of heading 22.07 or 22.08;

(k) a non-originating material that is used in the production of a good of any of Chapters 1 through 27, unless the non-originating material is of a different subheading than the good for which origin is being determined under this section; or

(l) a non-originating material that is used in the production of a good of any of Chapters 50 through 63.

(4) *De minimis rule for regional value content requirement*. A good that is subject to a regional value content requirement is originating in the territory of a USMCA country and is not required to satisfy that requirement if

(a) the value of all non-originating materials used in the production of the good is not more than ten per cent

(i) of the transaction value of the good, determined in accordance with Schedule III (Value of the Good), and adjusted to exclude any costs incurred in the international shipment of the good, or

(ii) of the total cost of the good, and

(b) the good satisfies all other applicable requirements of these Regulations.

(5) *Value of non-originating materials for subsections (1) and (4)*. For the purposes of subsections (1) and (4), the value of non-originating materials is to be determined in accordance with subsections 8(1) through (6).

(6) *De minimis rule for textile goods.* A good of any of Chapters 50 through 60 or heading 96.19, that contains non-originating materials that do not satisfy the applicable change in tariff classification requirements, will be considered originating in the territory of a USMCA country if:

(a) The total weight of all those non-originating materials is not more than ten per cent of the total weight of the good, of which the total weight of elastomeric content may not exceed seven per cent of the total weight of the good; and

(b) the good satisfies all other applicable requirements of these Regulations.

(7) A good of any of Chapters 61 through 63, that contains non-originating fibers or yarns in the component of the good that determines the tariff classification that do not undergo the applicable change in tariff classification requirements, will be considered originating in the territory of a USMCA country if:

(a) The total weight of all those non-originating materials is not more than ten per cent of the total weight of that component, of which the elastomeric content may not exceed seven per cent; and

(b) the good satisfies all other applicable requirements of these Regulations.

(8) For purposes of subsection (7),

(a) the component of a good that determines the tariff classification of that good is identified in accordance with the first of the following General Rules for the Interpretation of the Harmonized System under which the identification can be determined, namely, Rule 3(b), Rule 3(c) and Rule 4; and

(b) if the component of the good that determines the tariff classification of the good is a blend of two or more yarns or fibers, all yarns and fibers used in the production of the component must be taken into account in determining the weight of fibers and yarns in that component.

(9) For the purpose of determining if a good of Chapter 61 through 63 is originating, the requirements set out in Schedule I (PSRO Annex) only apply to the component that determines the tariff classification of the good. Materials that are not part of the component that determines the tariff classification of the good are disregarded when determining if a good is originating. Similarly, for the purposes of Section 5 as applicable to a good of Chapters 61 through 63, only the materials used in the component that determines the tariff classification are taken into account in the de minimis calculation.

(10) Subsection (6) does not apply to sewing thread, narrow elastic bands, and pocket bag fabric subject to the requirements set out in Chapter 61 Notes 2 through 4, Chapter 62 Notes 3 through 5 or for coated fabric as set out in Chapter 63 Note 2 of Schedule I (PSRO Annex).

(11) *Calculation of ''Total Cost'', choice of methods.* For the purposes of paragraph (1)(a)(ii) and subparagraph (4)(a)(ii), the total cost of a good is, at the choice of the producer of the good,

(a) the total cost incurred with respect to all goods produced by the producer that can be reasonably allocated to that good in accordance with Schedule V; or

(b) the aggregate of each cost that forms part of the total cost incurred with respect to that good that can be reasonably allocated to that good in accordance with Schedule V.

(12) *Calculation of total cost.* Total cost under subsection (11) consists of the costs referred to in subsection 1(6), and is calculated in accordance with that subsection and subsection 1(7).

(13) *Value of non-originating materials—other methods.* For the purpose of determining the value under subsection (1) of non-originating materials that do not undergo an applicable change in tariff classification, if an inventory management method either recognized in the Generally Accepted Accounting Principles (GAAP) of the USMCA country where the production was performed or a method set out in Schedule VIII, is not being used to determine the value of those non-originating materials, the following methods are to be used:

(a) If the value of those non-originating materials is being determined as a percentage of the transaction value of the good and the producer chooses under subsection 7(10) to use one of the methods recognized in the GAAP of the USMCA country where the material was produced, or a method set out in Schedule VII to determine the value of those non-originating materials for the purpose of calculating the regional value content of the good, the value of those non-originating materials must be determined in accordance with that method;

(b) if the following conditions are met and if the value of those non-originating materials is equal to the sum of the values of non-originating materials, determined in accordance with the election under subparagraph (iv), divided by the number of units of the goods with respect to which the election is made

(i) the value of those non-originating materials is being determined as a percentage of the total cost of the good,

(ii) under the rule in which the applicable change in tariff classification is specified, the good is also subject to a regional value content requirement and paragraph (5)(a) does not apply with respect to that good,

(iii) the regional value content of the good is calculated on the basis of the net cost method, and

(iv) the producer elects under subsection 7(15), 16(1) or (10) that the regional value content of the good be calculated over a period;

(c) if the conditions below are met the value of those non-originating materials is the sum of the values of non-originating materials divided by the number of units produced during the period under subparagraph (iii):

(i) The value of those non-originating materials is being determined as a percentage of the total cost of the good,

(ii) under the rule in which the applicable change in tariff classification is specified, the good is not also subject to a regional value content requirement or paragraph (6)(a) applies with respect to that good, and

(iii) the producer elects under paragraph 1(7)(b) that, for the purposes of subsection 5(11), the total cost of the good be calculated over a period; and

(d) in any other case, the value of those non-originating materials may, at the choice of the producer, be determined in accordance with an inventory management method recognized in the GAAP of the USMCA country where the production was performed or one of the methods set out in Schedule VII.

(14) *Value of non-originating materials—production of the good.* For the purposes of subsection (4), the value of the non-originating materials used in the production of the good may, at the choice of the producer, be determined in accordance with an inventory management method recognized in the GAAP of the USMCA country where the production was performed or one of the methods set out in Schedule VII

(15) *Examples illustrating de minimis rules.* Each of the following examples is an ''Example'' as referred to in subsection 1(4).

Example 1: Subsection 5(1)

Producer A, located in a USMCA country, uses originating materials and non-originating materials in the production of aluminum powder of heading 76.03. The product-specific rule of origin set out in Schedule I for heading 76.03 specifies a change in tariff classification from any other chapter. There is no applicable regional value content requirement for this heading. Therefore, in order for the aluminum powder to qualify as an originating good under the rule set out in Schedule I, Producer A may not use any non-originating material of Chapter 76 in the production of the aluminum powder.

All of the materials used in the production of the aluminum powder are originating materials, with the exception of a small amount of aluminum scrap of heading 76.02, that is in the same chapter as the aluminum powder. Under subsection 5(1), if the value of the non-originating aluminum scrap does not exceed ten per cent of the transaction value of the aluminum powder or the total cost of the aluminum powder, whichever is applicable, the aluminum powder would be considered an originating good.

Example 2: Subsection 5(2)

Producer A, located in a USMCA country, uses originating materials and non-originating materials in the production of fans of subheading 8414.59. There are two alternative rules set out in Schedule I for subheading 8414.59, one of which specifies a change in tariff classification from any other heading. The other rule specifies both a change in tariff classification from the subheading under which parts of the fans are classified and a regional value content requirement. In order for the fan to qualify as an originating good under the first of the alternative rules, all of the materials that are classified under the subheading for parts of fans and used in the production of the completed fan must be originating materials.

In this case, all of the non-originating materials used in the production of the fan satisfy the change in tariff classification set out in the rule that specifies a change in tariff classification from any other heading, with the exception of one non-originating material that is classified under the subheading for parts of fans. Under subsection 5(1), if the value of the non-originating material that does not satisfy the change in tariff classification specified in the first rule does not exceed ten per cent of the transaction value of the fan or the total cost of the fan, whichever is applicable, the fan would be considered an originating good. Therefore, under subsection 5(2), the fan would not be required to satisfy the alternative rule that specifies both a change in tariff classification and a regional value content requirement.

Example 3: Subsection 5(2)

Producer A, located in a USMCA country, uses originating materials and non-originating materials in the production of copper anodes of heading 74.02. The product-specific rule of origin set out in Schedule I for heading 74.02 specifies both a change in tariff classification from any other heading, except from heading 74.04, under which certain copper materials are classified, and a regional value content requirement. With respect to that part of the rule that specifies a change in tariff classification, in order for the copper anode to qualify as an originating good, any copper materials that are classified under heading 74.02 or 74.04 and that are used in the production of the copper anode must be originating materials.

In this case, all of the non-originating materials used in the production of the copper anode satisfy the specified change in tariff classification, with the exception of a small amount of copper materials classified under heading 74.04. Subsection 5(1) provides that the copper anode can be considered an originating good if the value of the non-originating copper materials that do not satisfy the specified change in tariff classification does not exceed ten per cent of the transaction value of the copper anode or the total cost of the copper anode, whichever is applicable. In this case, the value of those non-originating materials that do not satisfy the specified change in tariff classification does not exceed the ten per cent limit.

However, the rule set out in Schedule I for heading 74.02 specifies both a change in tariff

classification and a regional value content requirement. Under paragraph 5(1)(b), in order to be considered an originating good, the copper anode must also, except as otherwise provided in subsection 5(4), satisfy the regional value content requirement specified in that rule. As provided in paragraph 5(1)(b), the value of the non-originating materials that do not satisfy the specified change in tariff classification, together with the value of all other non-originating materials used in the production of the copper anode, will be taken into account in calculating the regional value content of the copper anode.

Example 4: Subsection 5(4)

Producer A, located in a USMCA country, primarily uses originating materials in the production of shoes of heading 64.05. The product-specific rule of origin set out in Schedule I for heading 64.05 specifies both a change in tariff classification from any heading other than headings 64.01 through 64.05 or subheading 6406.10 and a regional value content requirement.

With the exception of a small amount of materials of Chapter 39, all of the materials used in the production of the shoes are originating materials.

Under subsection 5(4), if the value of all of the non-originating materials used in the production of the shoes does not exceed ten per cent of the transaction value of the shoes or the total cost of the shoes, whichever is applicable, the shoes are not required to satisfy the regional value content requirement specified in the rule set out in Schedule I in order to be considered originating goods.

Example 5: Subsection 5(4)

Producer A, located in a USMCA country, produces barbers' chairs of subheading 9402.10. The product-specific rule of origin set out in Schedule I for goods of subheading 9402.10 specifies a change in tariff classification from any other subheading. All of the materials used in the production of these chairs are originating materials, with the exception of a small quantity of non-originating materials that are classified as parts of barbers' chairs. These parts undergo no change in tariff classification because subheading 9402.10 provides for both barbers' chairs and their parts.

Although Producer A's barbers' chairs do not qualify as originating goods under the rule set out in Schedule I, paragraph 3(4)(a) provides, among other things, that, if there is no change in tariff classification from the non-originating materials to the goods because the subheading under which the goods are classified provides for both the goods and their parts, the goods will qualify as originating goods if they satisfy a specified regional value content requirement.

However, under subsection 5(4), if the value of the non-originating materials does not exceed ten per cent of the transaction value of the barbers' chairs or the total cost of the barbers' chairs, whichever is applicable, the barbers' chairs will be considered originating goods and are not required to satisfy the regional value content requirement set out in subparagraph 3(4)(a)(ii).

Example 6: Subsection 5(6):

Producer A, located in a USMCA country, manufactures an infant diaper, classified in heading 96.19, consisting of an outer shell of 94 percent nylon and 6 percent elastomeric fabric, by weight, and a terry knit cotton absorbent crotch. All materials used are produced in a USMCA country, except for the elastomeric fabric, which is from a non-USMCA country. The elastomeric fabric is only 6 percent of the total weight of the diaper. The product otherwise satisfies all other applicable requirements of these Regulations. Therefore, the product is considered originating from a USMCA country as per subsection (6).

Example 7: Subsection 5(6)

Producer A, located in a USMCA country, produces cotton fabric of subheading 5209.11 from cotton yarn of subheading 5205.11. This cotton yarn is also produced by Producer A.

The product-specific rule of origin set out in Schedule I for subheading 5209.11, under which the fabric is classified, specifies a change in tariff classification from any other heading outside 52.08 through 52.12, except from certain headings under which certain yarns are classified, including cotton yarn of subheading 5205.11.

Therefore, with respect to that part of the rule that specifies a change in tariff classification, in order for the fabric to qualify as an originating good, the cotton yarn that is used by Producer A in the production of the fabric must be an originating material.

At one point Producer A uses a small quantity of non-originating cotton yarn in the production of the cotton fabric. Under subsection 5(6), if the total weight of the non-originating cotton yarn does not exceed ten per cent of the total weight of the cotton fabric, it would be considered an originating good.

Example 8: Subsections 5(7) and (8)

Producer A, located in a USMCA country, produces women's dresses of subheading 6204.41 from fine wool fabric of heading 51.12. This fine wool fabric, also produced by Producer A, is the component of the dress that determines its tariff classification under subheading 6204.41.

The product-specific rule of origin set out in Schedule I for subheading 6204.41, under which the dress is classified, specifies both a change in tariff classification from any other chapter, except from those headings and chapters under which certain yarns and fabrics, including combed wool yarn and wool fabric, are classified, and a requirement that the good be cut and sewn or otherwise assembled in the territory of one or more of the USMCA countries. In addition, narrow elastics classified in subheading 5806.20 or heading 60.02 and sewing thread classified in heading 52.04, 54.01 or 55.08 or yarn classified in heading 54.02 that is used as sewing thread, must be formed and finished in the territory of one or more of the USMCA countries for

the dress to be originating. Furthermore, if the dress has a pocket, the pocket bag fabric must be formed and finished in the territory of one or more of the USMCA countries for the dress to be originating.

Therefore, with respect to that part of the rule that specifies a change in tariff classification, in order for the dress to qualify as an originating good, the combed wool yarn and the fine wool fabric made therefrom that are used by Producer A in the production of the dress must be originating materials. In addition, the sewing thread, narrow elastics and pocket bags that are used by Producer A in the production of the dress must also be formed and finished in the territory of one or more of the USMCA countries.

At one point Producer A uses a small quantity of non-originating combed wool yarn in the production of the fine wool fabric. Under subsection 5(7), if the total weight of the non-originating combed wool yarn does not exceed ten per cent of the total weight of all the yarn used in the production of the component of the dress that determines its tariff classification, that is, the wool fabric, the dress would be considered an originating good.

Example 9: Subsection 5(7)

Producer A, located in a USMCA country, manufactures women's knit sweaters, which have knit bodies and woven sleeves. The knit body is composed of 95 percent polyester and 5 percent spandex, by weight. The sleeves are made of non-USMCA woven fabric that is 100 percent polyester. All materials of the knit body are from a USMCA country, except for the spandex, which is from a non-USMCA country. The sweater is cut and sewn in a USMCA country. Since the knit body gives the garment its essential character, the sweater is classified in subheading 6110.30. The product-specific rule of origin set out in Schedule I for subheading 6110.30 is that the product is both cut (or knit to shape) and sewn or otherwise assembled in the territory of one or more of the USMCA countries. The sleeves are disregarded in determining whether the sweater originates in a USMCA country because only the component that determines the tariff classification of the good must be originating and the de minimis provision is applied to that component. Moreover, the total weight of the spandex is less than 10 percent of the total weight of the knit body fabric, which is the component that determines the tariff classification of the sweater, and the spandex does not exceed seven percent of the total weight of good. Assuming that the women's knit sweater satisfies all other applicable requirements of these Regulations, the women's knit sweater is originating from the USMCA country.

Example 10: Subsection 5(9)

A men's shirt of Chapter 61 is made using two different fabrics; one for the body and another for the sleeves. The component that determines the tariff classification of the men's shirt would be the fabric used for the body, as it constitutes the material that predominates by weight and makes up the largest surface area of the shirt's exterior. If this fabric is produced using non-originating fibers and yarns that do not satisfy a tariff change rule, the de minimis provision would be calculated on the basis of the total weight of the non-originating fibers or yarns used in the production of the fabric that makes up the body of the shirt. The weight of these non-originating fibers or yarns must be ten percent or less of the total weight of that fabric and any elastomeric content must be seven per cent or less of the total weight of that fabric.

Alternatively, if the shirt is made entirely of the same fabric, the component that determines the tariff classification of that shirt would be that fabric, as the shirt is made out of the same material throughout. Therefore, under this second scenario, the total weight of all non-originating fibers and yarns used in the production of the shirt that do not satisfy a tariff change rule, must be ten percent or less of the total weight of the shirt, and any elastomeric content must be seven per cent or less of the total weight of that shirt, for the shirt to be considered as an originating good.

Example 11: Subsection 5(9)

Producer A, located in a USMCA country, produces women´s blouses of subheading 6206.40 from a fabric also produced by Producer A using 90% by weight originating polyester yarns of subheading 5402.33, 3% by weight non-originating lyocell yarn of subheading 5403.49 and 7% by weight non-originating elastomeric filament yarn of subheading 5402.44. This fabric is the component of the women´s blouses that determines its tariff classification under subheading 6206.40.

The product-specific rule of origin of Schedule I applicable to the women´s blouses of subheading 6206.40 requires a change in tariff classification from any other chapter, except from those headings and chapters under which certain yarns and fabrics, including polyester, lyocell and elastomeric filament yarns, are classified and a requirement that the good is cut and sewn or otherwise assembled in the territory of one or more of the USMCA countries.

In this case, the non-originating lyocell yarns of subheading 5403.49 and the non-originating elastomeric filament yarn of subheading 5402.44 do not satisfy the change in tariff classification required by the product-specific rule of origin of Schedule I, because the product specific rule of origin for heading 62.06 excludes a change from Chapter 54 to heading 62.06.''

However, according to subsection (7), a textile or apparel good classified in Chapters 61 through 63 of the Harmonized System that contains non-originating fibers or yarns in the component of the good that determines its tariff classification that do not satisfy the applicable change in tariff classification, will nonetheless be considered an originating good if the total weight of all those fibers or yarns is not more than 10 percent of the total weight of that component, of which the total weight of elastomeric

content may not exceed 7 percent of the total weight of the component, and such good meets all the other applicable requirements of these Regulations.

Since the weight of the non-originating materials used by Producer A does not exceed 10 percent of the total weight of the component that determines the tariff classification of the women's blouses, and the weight of elastomeric content also does not exceed 7 percent of such total weight, the women's blouses qualify as originating goods.

Example 12: Subsection 5(10)

A producer located in a USMCA country manufactures boys' swimwear of subheading 6211.11 from fabric that has been woven in a USMCA country from yarn spun in a USMCA country; however, the producer uses non-originating narrow elastic of heading 60.02 in the waist-band of the swimwear. As a result of the use of non-originating narrow elastic of heading 60.02 in the waistband, and provided the garment is imported into a USMCA country at least 18 months after the Agreement enters into force, the swimwear is considered non-originating because it does not satisfy the requirement set out in Note 3 of Chapter 62. In addition, subsection 5(7) is not applicable regarding the narrow elastic of 60.02 and the good is therefore a non-originating good.

SECTION 6. SETS OF GOODS, KITS OR COMPOSITE GOODS

6 (1) This section applies to a good that is classified as a set as a result of the application of rule 3 of the General Rules for the Interpretation of the Harmonized System.

(2) *Requirements.* Except as otherwise provided in Schedule I (PSRO Annex), a set is originating in the territory of one or more of the USMCA countries only if each good in the set is originating and both the set and the goods meet the other applicable requirements of these Regulations.

(3) *Exceptions.* Notwithstanding, subsection 2, a set is only originating if the value of all the non-originating goods included in the set does not exceed 10 percent of the value of the set.

(4) *Value.* For the purposes of subsection 3, the value of non-originating goods in the set and the value of the set is to be calculated in the same manner as the value of non-originating materials determined in accordance with section 8 and the value of the good determined in accordance with section 7.

(5) *Examples. Each of the following examples is an ''Example'' as referred to in subsection 1(4).*

Example 1 (paint set)

Producer A assembles a paint set for arts and crafts. The set includes tubes of paint, paint brushes, and paper all presented in a reusable wooden box. The paint set for arts and crafts is classified in subheading 3210.00 as a result of the application of Rule 3 of the General Rules for the Interpretation of the Harmonized System and, as a result, Section 6 will apply with respect to such set. The paint, paper and wooden box are all originating as they each undergo the changes required in the product-specific rules of origin in Schedule I. The paint brushes, which represent four percent of the value of the set, are produced in the territory of a non-USMCA country and are therefore non-originating. The set is nonetheless originating.

Example 2: Subsection 6(2)

Producer A, located in a USMCA country, uses originating materials and non-originating materials to assemble a manicure set of subheading 8214.20. The set includes a nail nipper, cuticle scissors, a nail clipper and a nail file with cardboard support, all presented in a plastic case with zipper. The items are not classified as a set as a result of the application of rule 3 of the General Rules for the Interpretation of the Harmonized System. The Harmonized System specifies that manicure sets are classified in subheading 8214.20. This means that the specific rule of origin set out in Schedule I is applied. This rule requires a change in tariff classification from any other chapter. In order for the manicure set to qualify as an originating good under the rule set out in Schedule I, Producer A may not use any non-originating material of Chapter 82 in the assembly of the manicure set.

In this case, Producer A, located in a USMCA country, produces the nail nipper, the cuticle scissors and the nail clipper included in the set, and all qualify as originating. Despite being classified in the same chapter as the manicure set (chapter 82), the originating nail nipper, the cuticle scissors and the nail clipper satisfy the change in tariff classification applicable to the manicure set. The nail file with cardboard support (6805.20) and the plastic case with zipper (4202.12) are imported from outside the territories of the USMCA countries; however, these items are not classified in chapter 82, so they satisfy the applicable change in tariff classification. Therefore, the manicure set is an originating good.

Example 3: Pants set Section 6(2)

Producer A makes a pants set, containing men's cotton denim trousers and a polyester belt, packed together for a retail sale. The trousers are made of cotton fabric formed and finished from yarn in a USMCA country. The sewing thread is formed and finished in a USMCA country. The pocket bag fabric is formed and finished in a USMCA country, of yarn wholly formed in a USMCA country. The trousers are cut and sewn in USMCA country A. A polyester webbing belt with a metal buckle is made in a non-USMCA country and shipped to USMCA country A, where it is threaded through the belt loops of the trousers. The value of the belt is 8% of the value of the trousers and belt combined.

The men's trousers are classified under subheading 6203.42. The rule of origin set out in Schedule I for subheading 6203.42 requires that the trousers be made from fabric produced in a

USMCA country from yarn produced in a USMCA country. The trousers satisfy the product-specific rules provided in Schedule I and are considered originating. However, the belt does not satisfy the rules and would not be considered originating. The set is nonetheless an originating good if the belt value is 10% or less of the value of the set. Since the value of the belt is 8% of the value of the set, the men's trousers and belt set would be treated as an originating good under the USMCA.

Example 4: Shirt and Tie Set Section 6(2)

Producer A makes a boys' shirt and tie set in a USMCA country. The shirt is constructed from 55% cotton, 45% polyester, solid color, dyed, woven fabric, classified in subheading 5210.31. The fabric contains 73.2 total yarns per square centimeter and 76 metric yarns. The shirt is packaged in a retail polybag with a coordinating color, 100% polyester, woven fabric tie. The yarns used in the shirt fabric are spun in non-USMCA country and the fabric is woven and dyed in the same non-USMCA country. The shirt fabric is sent to the USMCA country where it is cut and sewn into finished garments. The coordinating tie is made in a non-USMCA country from fabric that is woven in that country from yarns that are spun in that country. The value of the coordinating tie is approximately 13% of the value of the set.

The shirt is classified under heading 62.05. The shirt satisfies the product-specific rule for subheading 62.05 set out in Schedule I and is considered originating because it is wholly made from fabric of heading 5210.31 (not of square construction, containing more than 70 warp ends and filling picks per square centimeter, of average yarn number exceeding 70 metric) and cut and sewn into finished garments in the USMCA country. On the other hand, the tie does not satisfy the product specific rule for heading 62.15 and would not be considered originating. For purposes of the sets rule, provided the tie is valued at 10% or less of the value of the set, the set will be treated as originating. However, since the value of the coordinating tie is approximately 13% of the value of the set, the shirt and tie set would not be treated as an originating good under the USMCA.

Example 5: Chef set Section 6(2)

Producer A, located in a USMCA country, produces a chef set for retail sale using originating and non-originating materials. This set includes an apron, cooking gloves and a chef hat. The chef set is classified in heading 62.11 as a result of the application of rule 3 of the General Rules for the Interpretation of the Harmonized System. For this reason, subsection (3) applies to this set. Both the apron and cooking gloves meet the product-specific rules of origin for their respective product categories and are therefore considered to be originating. The chef hat, which represents 9.7 percent of the value of the set, is produced in the territory of a non-USMCA country and is therefore non-originating. The set is nonetheless an originating good because less than ten percent of the value of the set is non-originating.

PART III

SECTION 7. REGIONAL VALUE CONTENT

7 (1) *Calculation.* Except as otherwise provided in subsection (6), the regional value content of a good is to be calculated, at the choice of the importer, exporter or producer of the good, on the basis of either the transaction value method or the net cost method.

(2) *Transaction value method.* The transaction value method for calculating the regional value content of a good is as follows:

RVC = (TV − VNM)/TV * 100

Where

RVC is the regional value content of the good, expressed as a percentage;

TV is the transaction value of the good, determined in accordance with Schedule III with respect to the transaction in which the producer of the good sold the good, adjusted to exclude any costs incurred in the international shipment of the good; and

VNM is the value of non-originating materials used by the producer in the production of the good, determined in accordance with section 8.

(3) *Net cost method.* The net cost method for calculating the regional value content of a good is as follows:

RVC = (NC − VNM)/NC * 100

Where

RVC is the regional value content of the good, expressed as a percentage;

NC is the net cost of the good, calculated in accordance with subsection (11); and

VNM is the value of non-originating materials used by the producer in the production of the good, determined, except as otherwise provided in sections 14 and 15 and, in accordance with section 8.

(4) *Non-originating materials—values not included.* For the purpose of calculating the regional value content of a good under subsection (2) or (3), the value of non-originating materials used by a producer in the production of the good must not include

(a) the value of any non-originating materials used by another producer in the production of originating materials that are subsequently acquired and used by the producer of the good in the production of that good; or

(b) the value of any non-originating materials used by the producer in the production of a self-produced material that is an originating material and is designated as an intermediate material.

(5) *Self-produced material.* For the purposes of subsection (4),

(a) in the case of any self-produced material that is not designated as an intermediate material, only the value of any non-

originating materials used in the production of the self-produced material is to be included in the value of non-originating materials used in the production of the good; and

(b) if a self-produced material that is designated as an intermediate material and is an originating material is used by the producer of the good with non-originating materials (whether or not those non-originating materials are produced by that producer) in the production of the good, the value of those non-originating materials is to be included in the value of non-originating materials.

(6) *Net cost method—when required.* The regional value content of a good is to be calculated only on the basis of the net cost method if the rule set in Schedule I (PSRO Annex) does not provide a rule based on the transaction value method;

(7) *Net cost method—when change permitted.* If the importer, exporter or producer of a good calculates the regional value content of the good on the basis of the transaction value method and the customs administration of a USMCA country subsequently notifies that importer, exporter or producer in writing, during the course of a verification of origin, that

(a) the transaction value of the good, as determined by the importer, exporter or producer, is required to be adjusted under section 4 of Schedule III, or

(b) the value of any material used in the production of the good, as determined by the importer, exporter or producer, is required to be adjusted under section 5 of Schedule VI, the importer, exporter or producer may choose that the regional value content of the good be calculated on the basis of the net cost method, in which case the calculation must be made within 30 days after receiving the notification, or such longer period as that customs administration specifies.

(8) *Net cost method—no change permitted.* If the importer, exporter or producer of a good chooses that the regional value content of the good be calculated on the basis of the net cost method and the customs administration of a USMCA country subsequently notifies that importer, exporter or producer in writing, during the course of a verification of origin, that the good does not satisfy the applicable regional value content requirement, the importer, exporter or producer of the good may not recalculate the regional value content on the basis of the transaction value method.

(9) *Clarification.* Nothing in subsection (7) is to be construed as preventing any review and appeal under Article 5.15 of the Agreement, as implemented in each USMCA country, of an adjustment to or a rejection of

(a) the transaction value of the good; or

(b) the value of any material used in the production of the good.

(10) *Value of identical non-originating materials.* For the purposes of the transaction value method, if non-originating materials that are the same as one another in all respects, including physical characteristics, quality and reputation but excluding minor differences in appearance, are used in the production of a good, the value of those non-originating materials may, at the choice of the producer of the good, be determined in accordance with one of the methods set out in Schedule VII.

(11) *Calculating the net cost of a good.* For the purposes of subsection (3), the net cost of a good may be calculated, at the choice of the producer of the good, by

(a) calculating the total cost incurred with respect to all goods produced by that producer, subtracting any excluded costs that are included in that total cost, and reasonably allocating, in accordance with Schedule V, the remainder to the good;

(b) calculating the total cost incurred with respect to all goods produced by that producer, reasonably allocating, in accordance with Schedule V, that total cost to the good, and subtracting any excluded costs that are included in the amount allocated to that good; or

(c) reasonably allocating, in accordance with Schedule V, each cost that forms part of the total cost incurred with respect to the good so that the aggregate of those costs does not include any excluded costs.

(12) *Calculation of total cost.* Total cost under subsection (11) consists of the costs referred to in subsection 1(6), and is calculated in accordance with that subsection and subsection 1(7).

(13) *Calculation of net cost of a good.* For the purpose of calculating the net cost under subsection (11),

(a) excluded costs must be the excluded costs that are recorded on the books of the producer of the good;

(b) excluded costs that are included in the value of a material that is used in the production of the good must not be subtracted from or otherwise excluded from the total cost; and

(c) excluded costs do not include any amount paid for research and development services performed in the territory of a USMCA country.

(14) *Non-allowable interest.* For the purpose of calculating non-allowable interest costs, the determination of whether interest costs incurred by a producer are more than 700 basis points above the interest rate of comparable maturities issued by the federal government of the country in which the producer is located is to be made in accordance with Schedule IX.

(15) *Use of ''averaging'' over a period.* For the purposes of the net cost method, the regional value content of the good, other than a good with respect to which an election to

average may be made under subsection 16(1) or (10), may be calculated, if the producer elects to do so, by

(a) calculating the sum of the net costs incurred and the sum of the values of non-originating materials used by the producer of the good with respect to the good and identical goods or similar goods, or any combination thereof, produced in a single plant by the producer over

(i) a one-month period,

(ii) any consecutive three-month or six-month period that falls within and is evenly divisible into the number of months of the producer's fiscal year remaining at the beginning of that period, or

(iii) the producer's fiscal year; and

(b) using the sums referred to in paragraph (a) as the net cost and the value of non-originating materials, respectively.

(16) *Application*. The calculation made under subsection (15) applies with respect to all units of the good produced during the period chosen by the producer under paragraph (15)(a).

(17) *No change to the goods or period*. An election made under subsection (15) may not be rescinded or modified with respect to the goods or the period with respect to which the election is made.

(18) *Period considered to be chosen*. If a producer chooses a one, three or six-month period under subsection (15) with respect to a good, the producer will be considered to have chosen under that subsection a period or periods of the same duration for the remainder of the producer's fiscal year with respect to this good.

(19) *Method and period for remainder of fiscal year*. If the net cost method is required to be used or has been chosen and an election has been made under subsection (15), the regional value content of the good is to be calculated on the basis of the net cost method over the period chosen under that subsection and for the remainder of the producer's fiscal year.

(20) *Analysis of actual costs*. Except as otherwise provided in subsections 16(9), if the producer of a good has calculated the regional value content of the good under the net cost method on the basis of estimated costs, including standard costs, budgeted forecasts or other similar estimating procedures, before or during the period chosen under paragraph (15)(a), the producer must conduct an analysis at the end of the producer's fiscal year of the actual costs incurred over the period with respect to the production of the good.

(21) *Option to treat any material as non-originating*. For the purpose of calculating the regional value content of a good, the producer of that good may choose to treat any material used in the production of that good as a non-originating material.

(22) *Examples*. Each of the following examples is an ''Example'' as referred to in subsection 1(4).

Example 1: Example of point of direct shipment (with respect to adjusted to exclude any costs incurred in the international shipment of the good)

A producer has only one factory, at which the producer manufactures finished office chairs. Because the factory is located close to transportation facilities, all units of the finished good are stored in a factory warehouse 200 meters from the end of the production line. Goods are shipped worldwide from this warehouse. The point of direct shipment is the warehouse.

Example 2: Examples of point of direct shipment (with respect to adjusted to exclude any costs incurred in the international shipment of the good)

A producer has six factories, all located within the territory of one of the USMCA countries, at which the producer produces garden tools of various types. These tools are shipped worldwide, and orders usually consist of bulk orders of various types of tools. Because different tools are manufactured at different factories, the producer decided to consolidate storage and shipping facilities and ships all finished products to a large warehouse located near the seaport, from which all orders are shipped. The distance from the factories to the warehouse varies from 3 km to 130 km. The point of direct shipment for each of the goods is the warehouse.

Example 3: Examples of point of direct shipment (with respect to adjusted to exclude any costs incurred in the international shipment of the good)

A producer has only one factory, located near the center of one of the USMCA countries, at which the producer manufactures finished office chairs. The office chairs are shipped from that factory to three warehouses leased by the producer, one on the west coast, one near the factory and one on the east coast. The office chairs are shipped to buyers from these warehouses, the shipping location depending on the shipping distance from the buyer. Buyers closest to the west coast warehouse are normally supplied by the west coast warehouse, buyers closest to the east coast are normally supplied by the warehouse located on the east coast and buyers closest to the warehouse near the factory are normally supplied by that warehouse. In this case, the point of direct shipment is the location of the warehouse from which the office chairs are normally shipped to customers in the location in which the buyer is located.

Example 4: Subsection 7(3), net cost method

A producer located in USMCA country A sells Good A that is subject to a regional value content requirement to a buyer located in USMCA country B. The producer of Good A chooses that the regional value content of that good be calculated using the net cost method. All applicable requirements of these Regulations, other than the regional value content requirement,

have been met. The applicable regional value content requirement is 50 per cent.

In order to calculate the regional value content of Good A, the producer first calculates the net cost of Good A. Under paragraph 6(11)(a), the net cost is the total cost of Good A (the aggregate of the product costs, period costs and other costs) per unit, minus the excluded costs (the aggregate of the sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs) per unit. The producer uses the following figures to calculate the net cost:

Product costs:

Value of originating materials $30.00
Value of non-originating materials 40.00
Other product costs 20.00
Period costs 10.00
Other costs 0.00
Total cost of Good A, per unit $100.00
Excluded costs:
Sales promotion, marketing and after-sales service cost $5.00
Royalties 2.50
Shipping and packing costs 3.00
Non-allowable interest costs 1.50
Total excluded costs $12.00

The net cost is the total cost of Good A, per unit, minus the excluded costs.

Total cost of Good A, per unit: $100.00
Excluded costs:—12.00
Net cost of Good A, per unit: $ 88.00

The value for net cost ($88) and the value of non-originating materials ($40) are needed in order to calculate the regional value content. The producer calculates the regional value content of Good A under the net cost method in the following manner:

*RVC = (NC − VNM)/NC*100*
*= (88–40)/88*100*
= 54.5%

Therefore, under the net cost method, Good A qualifies as an originating good, with a regional value content of 54.5 per cent.

Example 5: Paragraph 7(11)(a)

A producer in a USMCA country produces Good A and Good B during the producer's fiscal year.

The producer uses the following figures, which are recorded on the producer's books and represent all of the costs incurred with respect to both Good A and Good B, to calculate the net cost of those goods:

Product costs:
Value of originating materials $2,000
Value of non-originating materials 1,000
Other product costs 2,400
Period costs: (including $1,200 in excluded costs) 3,200
Other costs: 400
Total cost of Good A and Good B: $9,000

The net cost is the total cost of Good A and Good B, minus the excluded costs incurred with respect to those goods.

Total cost of Good A and Good B: $9,000
Excluded costs:—1,200
Net cost of Good A and Good B: $7,800

The net cost must then be reasonably allocated, in accordance with Schedule V, to Good A and Good B.

Example 6: Paragraph 7(11)(b))

A producer located in a USMCA country produces Good A and Good B during the producer's fiscal year. In order to calculate the regional value content of Good A and Good B, the producer uses the following figures that are recorded on the producer's books and incurred with respect to those goods:

Product costs:

Value of originating materials $2,000
Value of non-originating materials 1,000
Other product costs 2,400
Period costs: (including $1,200 in excluded costs) 3,200
Other costs: 400
Total cost of Good A and Good B: $9,000

Under paragraph 6(11)(b), the total cost of Good A and Good B is then reasonably allocated, in accordance with Schedule VII, to those goods. The costs are allocated in the following manner:

Allocated to Good A 5,220
Allocated to Good B 3,780
Total cost ($9,000 for both Good A and Good B)

The excluded costs ($1,200) that are included in total cost allocated to Good A and Good B, in accordance with Schedule VII, are subtracted from that amount.

Total Excluded costs:

Sales promotion, marketing and after-sale service costs 500
Royalties 200
Shipping and packing costs 500
Excluded Cost Allocated to Good A:
Sales promotion, marketing and after-sale service costs 290
Royalties 116
Shipping and packing costs 290
Net cost (total cost minus excluded costs): $4,524
Excluded Cost Allocated to Good B:
Sales promotion, marketing and after-sale service costs 210
Royalties 84
Shipping and packing costs 210
Net cost (total cost minus excluded costs): $3,276

The net cost of Good A is thus $4,524, and the net cost of Good B is $3,276.

Example 7: Paragraph 7(11)(c)

A producer located in a USMCA country produces Good C and Good D. The following costs are recorded on the producer's books for the months of January, February and March, and each cost that forms part of the total cost are reasonably allocated, in accordance with Schedule VII, to Good C and Good D.

Total cost: Good C and Good D (in thousands of dollars)

Product costs:

Value of originating materials 100
Value of non-originating materials 900

Other product costs 500
Period costs: (including $420 in excluded costs) 5,679
Minus Excluded costs 420
Other costs: 0
Total cost (aggregate of product costs, period costs and other costs): 6,759
Allocated to Good C (in thousands of dollars): Product costs:
Value of originating materials 0
Value of non-originating materials 800
Other product costs 300
Period costs: (including $420 in excluded costs) 3,036
Minus Excluded costs 300
Other costs: 0
Total cost (aggregate of product costs, period costs and other costs): 3,836
Allocated to Good D (in thousands of dollars): Product costs:
Value of originating materials 100
Value of non-originating materials 100
Other product costs 200
Period costs: (including $420 in excluded costs) 2,643
Minus Excluded costs 120
Other costs: 0
Total cost (aggregate of product costs, period costs and other costs): 2,923

Example 8: Subsection 7(12)

Producer A, located in a USMCA country, produces Good A that is subject to a regional value content requirement. The producer chooses that the regional value content of that good be calculated using the net cost method. Producer A buys Material X from Producer B, located in a USMCA country. Material X is a non-originating material and is used in the production of Good A. Producer A provides Producer B, at no charge, with molds to be used in the production of Material X. The cost of the molds that is recorded on the books of Producer A has been expensed in the current year. Pursuant to subparagraph 4(1)(b)(ii) of Schedule VI, the value of the molds is included in the value of Material X. Therefore, the cost of the molds that is recorded on the books of Producer A and that has been expensed in the current year cannot be included as a separate cost in the net cost of Good A because it has already been included in the value of Material X.

Example 9: Subsection 7(12)

Producer A, located in a USMCA country, produces Good A that is subject to a regional value content requirement. The producer chooses that the regional value content of that good be calculated using the net cost method and averages the calculation over the producer's fiscal year under subsection 7(15). Producer A determines that during that fiscal year Producer A incurred a gain on foreign currency conversion of $10,000 and a loss on foreign currency conversion of $8,000, resulting in a net gain of $2,000. Producer A also determines that $7,000 of the gain on foreign currency conversion and $6,000 of the loss on foreign currency conversion is related to the purchase of non-originating materials used in the production of Good A, and $3,000 of the gain on foreign currency conversion and $2,000 of the loss on foreign currency conversion is not related to the production of Good A. The producer determines that the total cost of Good A is $45,000 before deducting the $1,000 net gain on foreign currency conversion related to the production of Good A. The total cost of Good A is therefore $44,000. That $1,000 net gain is not included in the value of non-originating materials under subsection 8(1).

Example 10: Subsection 7(12)

Given the same facts as in example 9, except that Producer A determines that $6,000 of the gain on foreign currency conversion and $7,000 of the loss on foreign currency conversion is related to the purchase of non-originating materials used in the production of Good A. The total cost of Good A is $45,000, which includes the $1,000 net loss on foreign currency conversion related to the production of Good A. That $1,000 net loss is not included in the value of non-originating materials under subsection 8(1).

PART IV

SECTION 8. MATERIALS

8 (1) *Value of material used in production.* Except as otherwise provided for non-originating materials used in the production of a good referred to in section 14 or subsection 15(1), and except in the case of indirect materials, intermediate materials and packing materials and containers, for the purpose of calculating the regional value content of a good and for the purposes of subsection 5(1) and (4), the value of a material that is used in the production of the good is to be

(a) except as otherwise provided in subsection (4), if the material is imported by the producer of the good into the territory of the USMCA country in which the good is produced, the transaction value of the material at the time of importation, including the costs incurred in the international shipment of the material,

(b) if the material is acquired by the producer of the good from another person located in the territory of the USMCA country in which the good is produced

(i) the price paid or payable by the producer in the USMCA country where the producer is located,

(ii) the value as determined for an imported material in subparagraph (a), or (iii) the earliest ascertainable price paid or payable in the territory of the USMCA country where the good is produced, or

(c) for a material that is self-produced

(i) all the costs incurred in the production of the material, which includes general expenses, and

(ii) an amount equivalent to the profit added in the normal course of trade, or equal to the profit that is usually reflected in the sale of goods of the same class or kind as the

self-produced material that is being valued provided that no self-produced material that has been used in its production has been valued including the amount equivalent or equal to the profit according to this paragraph.

(2) *Adjustments to the value of materials.* The following costs may be deducted from the value of a non-originating material or material of undetermined origin, if they are included under subsection (1):

(a) the costs of freight, insurance and packing and all other costs incurred in transporting the material to the location of the producer;

(b) duties and taxes paid or payable with respect to the material in the territory of one or more of the USMCA countries, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable,

(c) customs brokerage fees, including the cost of in-house customs brokerage services, incurred with respect to the material in the territory of one or more of the USMCA countries, and

(d) the cost of waste and spoilage resulting from the use of the material in the production of the good, minus the value of any reusable scrap or by-product.

(3) *Documentary evidence required.* If the cost or expense listed in subsection (2) is unknown or documentary evidence of the amount of the adjustment is not available, then no adjustment is allowed for that particular cost or expense.

(4) *Transaction value not acceptable.* For the purposes of paragraph (1)(a), if the transaction value of the material referred to in that paragraph is not acceptable or if there is no transaction value in accordance with Schedule IV (Unacceptable Transaction Value), the value of the material must be determined in accordance with Schedule VI (Value of Materials) and, if the costs referred to in subsection (2) are included in that value, those costs may be deducted from that value.

(5) *Costs recorded on books.* For the purposes of subsection (1), the costs referred to in paragraph (1)(c) are to be the costs referred to in those paragraphs that are recorded on the books of the producer of the good.

(6) *Designation of self-produced material as an intermediate material.* For the purpose of calculating the regional value content of a good the producer of the good may designate as an intermediate material any self-produced material that is used in the production of the good, provided that if an intermediate material is subject to a regional value content requirement, no other self-produced material that is subject to a regional value content requirement and is incorporated into that intermediate material is also designated by the producer as an intermediate material.

(7) *Particulars.* For the purposes of subsection (6),

(a) in order to qualify as an originating material, a self-produced material that is designated as an intermediate material must qualify as an originating material under these Regulations;

(b) the designation of a self-produced material as an intermediate material is to be made solely at the choice of the producer of that self-produced material; and

(c) except as otherwise provided in subsection 9(4), the proviso set out in subsection (6) does not apply with respect to an intermediate material used by another producer in the production of a material that is subsequently acquired and used in the production of a good by the producer referred to in subsection (6).

(8) *Value of an intermediate material.* The value of an intermediate material will be, at the choice of the producer of the good,

(a) the total cost incurred with respect to all goods produced by the producer that can be reasonably allocated to that intermediate material in accordance with Schedule V; or

(b) the aggregate of each cost that forms part of the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material in accordance with Schedule V.

(9) *Calculation of total cost.* Total cost under subsection (8) consists of the costs referred to in subsection 1(6), and is calculated in accordance with that subsection and subsection 1(7).

(10) *Rescission of a designation.* If a producer of a good designates a self-produced material as an intermediate material under subsection (6) and the customs administration of a USMCA country into which the good is imported determines during a verification of origin of the good that the intermediate material is a non-originating material and notifies the producer of this in writing before the written determination of whether the good qualifies as an originating good, the producer may rescind the designation, and the regional value content of the good must be calculated as though the self-produced material were not so designated.

(11) *Effect of a rescission.* A producer of a good who rescinds a designation under subsection (10) may, not later than 30 days after the customs administration referred to in subsection (10) notifies the producer in writing that the self-produced material referred to in paragraph (a) is a non-originating material, designate as an intermediate material another self-produced material that is incorporated into the good, subject to the provision set out in subsection (6).

(12) *Second rescission.* If a producer of a good designates another self-produced material as an intermediate material under subsection (6) and the customs administration referred to in subsection (10) determines during the verification of origin of the good that that self-produced material is a non-originating material,

(a) the producer may rescind the designation, and the regional value content of the good will be calculated as though the self-produced material were not so designated; and,

(b) the producer may not designate another self-produced material that is incorporated into the good as an intermediate material.

(13) *Indirect materials.* For the purpose of determining whether a good is an originating good, an indirect material that is used in the production of the good

(a) will be considered to be an originating material, regardless of where that indirect material is produced; and

(b) if the good is subject to a regional value content requirement, for the purpose of calculating the net cost under the net cost method, the value of the indirect material is to be the costs of that material that are recorded on the books of the producer of the good.

(14) *Packaging materials and containers.* Packaging materials and containers, if classified under the Harmonized System with the good that is packaged therein, will be disregarded for the purpose of

(a) determining whether all of the non-originating materials used in the production of the good undergo an applicable change in tariff classification;

(b) determining whether a good is wholly obtained or produced; and

(c) determining under subsection 5(1) the value of non-originating materials that do not undergo an applicable change in tariff classification.

(15) *Value of packaging materials and containers—cases where taken into account.* If packaging materials and containers in which a good is packaged for retail sale are classified under the Harmonized System with the good that is packaged therein and that good is subject to a regional value content requirement, the value of those packaging materials and containers will be taken into account as originating materials or non-originating materials, as the case may be, for the purpose of calculating the regional value content of the good.

(16) *Packaging materials and containers—self-produced.* For the purposes of subsection (15), if packaging materials and containers are self-produced materials, the producer may choose to designate those materials as intermediate materials under subsection (6).

(17) *Packing materials and containers.* For the purpose of determining whether a good is an originating good, packing materials and containers are disregarded.

(18) *Fungible materials and fungible goods.* A fungible material or good is originating if:

(a) when originating and non-originating fungible materials

(i) are withdrawn from an inventory in one location and used in the production of the good, or

(ii) are withdrawn from inventories in more than one location in the territory of one or more of the USMCA countries and used in the production of the good at the same production facility, the determination of whether the materials are originating is made on the basis of an inventory management method recognized in the Generally Accepted Accounting Principles of, or otherwise accepted by, the USMCA country in which the production is performed or an inventory management method set out in Schedule VIII; or

(b) when originating and non-originating fungible goods are commingled and exported in the same form, the determination of whether the goods are originating is made on the basis of an inventory management method recognized in the Generally Accepted Accounting Principles of, or otherwise accepted by, the USMCA country from which the good is exported or an inventory management method set out in Schedule VIII.

(19) The inventory management method selected under subsection 18 must be used throughout the fiscal year of the producer or the person that selected the inventory management method.

(20) An importer may claim that a fungible material or good is originating if the importer, producer, or exporter has physically segregated each fungible material or good as to allow their specific identification.

(21) *Choice of inventory management method.* If fungible materials referred to in paragraph (18)(a) and fungible goods referred to in paragraph (18)(b) are withdrawn from the same inventory, the inventory management method used for the materials must be the same as the inventory management method used for the goods, and if the averaging method is used, the respective averaging periods for fungible materials and fungible goods are to be used.

(22) *Written notice.* A choice of inventory management methods under subsection (18) will be considered to have been made when the customs administration of the USMCA country into which the good is imported is informed in writing of the choice during the course of a verification of origin of the good.

(23) *Accessories, spare parts, tools or instructional or other information materials.* For the purposes of subsections (24) through (27), ''accessories, spare parts, tools, or instructional or other information materials'' are covered when

(a) they are classified with, delivered with, but not invoiced separately from the good, and

(b) their type, quantity and value are customary for the good, within the industry that produces the good.

(24) *Exclusion*. Accessories, spare parts, tools, or instructional or other information materials are to be disregarded for the purpose of determining

(a) whether a good is wholly obtained;

(b) whether all the non-originating materials used in the production of the good satisfy a process or applicable change in tariff classification requirement established in Schedule I (PSRO Annex); or,

(c) under subsection 5(1), the value of non-originating materials that do not undergo an applicable change in tariff classification.

(25) *Value for regional value content requirement*. If a good is subject to a regional value content requirement, the value of accessories, spare parts, tools, or instructional or other information materials is to be taken into account as originating materials or non-originating materials, as the case may be, in calculating the regional value content of the good.

(26) *Designation*. For the purposes of subsection (25), if accessories, spare parts, tools, or instructional or other information materials are self-produced materials, the producer may choose to designate those materials as intermediate materials under subsection (6).

(27) *Originating status*. A good's accessories, spare parts, tools, or instructional or other information materials have the originating status of the good with which they are delivered.

(28) *Examples illustrating the provisions on materials*. Each of the following examples is an ''Example'' as referred to in subsection 1(4).

Example 1: Subsection 8(4), Transaction Value not Determined in a Manner Consistent with Schedule VI

Producer A, located in USMCA country A, imports a bicycle chainring into USMCA country A. Producer A purchased the chainring from a middleman located in country B. The middleman purchased the chainring from a manufacturer located in country B. Under the laws in USMCA country A that implement the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, the customs value of the chainring was based on the price actually paid or payable by the middleman to the manufacturer. Producer A uses the chainring to produce a bicycle, and exports the bicycle to USMCA country C. The bicycle is subject to a regional value content requirement.

Under subsection 3(1) of Schedule VI (Value of Materials), the price actually paid or payable is the total payment made or to be made by the producer to or for the benefit of the seller of the material. Section 1 of that Schedule defines producer and seller for the purposes of the Schedule. A producer is the person who uses the material in the production of a good that is subject to a regional value content requirement. A seller is the person who sells the material being valued to the producer.

The transaction value of the chainring was not determined in a manner consistent with Schedule VI because it was based on the price actually paid or payable by the middleman to the manufacturer, rather than on the price actually paid or payable by Producer A to the middleman. Thus, subsection 8(4) applies and the chainring is valued in accordance with Schedule IV.

Example 2: Subsection 8(7), Value of Intermediate Materials

A producer located in a USMCA country produces a bicycle, which is subject to a regional value content requirement under section 3(2). The producer also produces a chain ring, which is used in the production of the bicycle. Both originating materials and non-originating materials are used in the production of the chainring. The chainring is subject to a change in tariff classification requirement under section 3(2). The costs to produce the chainring are the following:

Product costs:

Value of originating materials $ 1.00
Value of non-originating materials 7.50
Other product costs 1.50
Period costs (including $0.30 in royalties): 0.50
Other costs: 0.10
Total cost of the chainring: $10.60

The producer designates the chainring as an intermediate material and determines that, because all of the non-originating materials that are used in the production of the chainring undergo an applicable change in tariff classification set out in Schedule I, the chainring would, under section 3(2) qualify as an originating material. The cost of the non-originating materials used in the production of the chainring is therefore not included in the value of non-originating materials that are used in the production of the bicycle for the purpose of determining its regional value content of the bicycle. Because the chainring has been designated as an intermediate material, the total cost of the chainring, which is $10.60, is treated as the cost of originating materials for the purpose of calculating the regional value content of the bicycle. The total cost of the bicycle is determined in accordance with the following figures:

Product costs:

Value of originating materials
—intermediate materials $10.60
—other materials 3.00
Value of non-originating materials 5.50
Other product costs 6.50
Period costs: 2.50
Other costs: 0.10
Total cost of the bicycle: $28.20

Example 3: Subsection 8(7), Effects of the Designation of Self-produced Materials on Net Cost

The ability to designate intermediate materials helps to put the vertically integrated producer who is self-producing materials that are used in the production of a good on par with a producer who is purchasing materials and valuing those materials in accordance with subsection 8(1). The following situations demonstrate how this is achieved:

Situation 1

A producer located in a USMCA country produces a bicycle, which is subject to a regional value content requirement of 50 per cent under the net cost method. The bicycle satisfies all other applicable requirements of these Regulations. The producer purchases a bicycle frame, which is used in the production of the bicycle, from a supplier located in a USMCA country. The value of the frame determined in accordance with subsection 8(1) is $11.00. The frame is an originating material. All other materials used in the production of the bicycle are non-originating materials.

The net cost of the bicycle is determined as follows:

Product costs:

Value of originating materials (bicycle frame) $11.00
Value of non-originating materials 5.50
Other product costs 6.50
Period costs: (including $0.20 in excluded costs) 0.50
Other costs: 0.10
Total cost of the bicycle: $23.60
Excluded costs: (included in period costs) 0.20
Net cost of the bicycle: $23.40

The regional value content of the bicycle is calculated as follows:

*RVC = (NC − VNM)/NC*100*
*= ($23.40 − $5.50)/$23.50*100*
= 76.5%

The regional value content of the bicycle is 76.5 per cent, and the bicycle, therefore, qualifies as an originating good.

Situation 2

A producer located in a USMCA country produces a bicycle, which is subject to a regional value content requirement of 50 per cent under the net cost method. The bicycle satisfies all other applicable requirements of these Regulations. The producer self-produces the bicycle frame which is used in the production of the bicycle. The costs to produce the frame are the following:

Product costs:

Value of originating materials $ 1.00
Value of non-originating materials 7.50
Other product costs 1.50
Period costs: (including $0.20 in excluded costs) 0.50
Other costs: 0.10
Total cost of the bicycle frame: $10.60

Additional costs to produce the bicycle are the following:

Product costs:

Value of originating materials $ 0.00
Value of non-originating materials 5.50
Other product costs 6.50
Period costs: (Including $0.20 in excluded costs) 0.50
Other costs: 0.10
Total additional costs: $12.60

The producer does not designate the bicycle frame as an intermediate material under subsection 8(4). The net cost of the bicycle is calculated as follows:

	Costs of the bicycle frame (not designated as an intermediate material)	*Additional costs to produce the bicycle*	*Total*
Product costs:			
Value of originating materials	*$ 1.00*	*$ 0.00*	*$ 1.00*
Value of non-originating materials	*7.50*	*5.50*	*13.00*
Other product costs	*1.50*	*6.50*	*8.00*
Period costs (including $0.20 in excluded costs)	*0.50*	*0.50*	*1.00*
Other costs	*0.10*	*0.10*	*0.20*
Total cost of the bicycle	*10.60*	*12.60*	*23.20*
Excluded costs (in period costs)	*0.20*	*0.20*	*0.40*
Net cost of the bicycle (total cost minus excluded costs):	.....	.....	*22.80*

The regional value content of the bicycle is calculated as follows:

RVC = (NC − VNM)/NC*100
*= ($22.80 − $13.00)/$22.80*100*
= 42.9%

The regional value content of the bicycle is 42.9 per cent, and the bicycle, therefore, does not qualify as an originating good.

Situation 3

A producer located in a USMCA country produces the bicycle, which is subject to a regional value content requirement of 50 per cent under the net cost method. The bicycle satisfies all other applicable requirements of these Regulations. The producer self-produces the bicycle frame, which is used in the production of the bicycle. The costs to produce the frame are the following:

Product costs:

Value of originating materials $ 1.00
Value of non-originating materials 7.50
Other product costs 1.50

Period costs: (Including $0.20 in excluded costs) 0.50

Other costs: 0.10
Total cost of the bicycle frame: $10.60

Additional costs to produce the bicycle are the following: Product costs: 0.10

Product costs:

Value of originating materials $ 0.00
Value of non-originating materials 5.50
Other product costs 6.50
Period costs: (including $0.20 in excluded costs) 0.50
Other costs: 0.10
Total additional costs: $12.60

The producer designates the frame as an intermediate material under subsection 8(6). The frame qualifies as an originating material under section 3(2). Therefore, the value of non-originating materials used in the production of the frame is not included in the value of non-originating materials for the purpose of calculating the regional value content of the bicycle. The net cost of the bicycle is calculated as follows:

	Costs of the bicycle frame (not designated as an intermediate material)	*Additional costs to produce the bicycle*	*Total*
Product costs:			
Value of originating materials	*$10.60*	*$0.00*	*$10.60*
Value of non-originating materials	.....	*5.50*	*5.50*
Other product costs	.....	*6.50*	*6.50*
Period costs (including $0.20 in excluded costs)	.....	*0.50*	*0.50*
Other costs	.....	*0.10*	*0.10*
Total cost of the bicycle	*10.60*	*12.60*	*23.20*
Excluded costs (in period costs)	.....	*0.20*	*0.20*
Net cost of the bicycle (total cost minus excluded costs):	.....	.....	*23.00*

The regional value content of the bicycle is calculated as follows:

RVC = (NC − VNM)/NC*100
= ($23.00 − $5.50)/$23.00*100
= 76.1%

The regional value content of the bicycle is 76.1 per cent, and the bicycle, therefore, qualifies as an originating good.

Example 4: Originating Materials Acquired from a Producer Who Produced Them Using Intermediate Materials

Producer A, located in USMCA country A, produces switches. In order for the switches to qualify as originating goods, Producer A designates subassemblies of the switches as intermediate materials. The subassemblies are subject to a regional value content requirement. They satisfy that requirement, and qualify as originating materials. The switches are also subject to a regional value content requirement, and, with the subassemblies designated as intermediate materials, are determined to have a regional value content of 65 per cent.

Producer A sells the switches to Producer B, located in USMCA country B, who uses them to produce switch assemblies that are used in the production of Good B. The switch assemblies are subject to a regional value content requirement. Producers A and B are not accumulating their production within the meaning of section 9. Producer B is therefore able, under subsection 8(6), to designate the switch assemblies as intermediate materials.

If Producers A and B were accumulating their production within the meaning of section 9, Producer B would be unable to designate the switch assemblies as intermediate materials, because the production of both producers would be considered to be the production of one producer.

Example 5: Single Producer and Successive Designations of Materials Subject to a Regional Value Content Requirement as Intermediate Materials

Producer A, located in USMCA country, produces Material X and uses Material X in the production of Good B. Material X qualifies as an originating material because it satisfies the applicable regional value content requirement. Producer A designates Material X as an intermediate material.

Producer A uses Material X in the production of Material Y, which is also used in the production of Good B. Material Y is also subject to a regional value content requirement. Under the proviso set out in subsection 8(6), Producer A cannot designate Material Y as an intermediate

material, even if Material Y satisfies the applicable regional value content requirement, because Material X was already designated by Producer A as an intermediate material.

Example 6: Single Producer and Multiple Designations of Materials as Intermediate Materials

Producer X, who is located in USMCA country X, uses non-originating materials in the production of self-produced materials A, B and C. None of the self-produced materials are used in the production of any of the other self-produced materials.

Producer X uses the self-produced materials in the production of Good O, which is exported to USMCA country Y. Materials A, B and C qualify as originating materials because they satisfy the applicable regional value content requirements.

Because none of the self-produced materials are used in the production of any of the other self-produced materials, then even though each self-produced material is subject to a regional value content requirement, Producer X may, under subsection 8(6), designate all of the self-produced materials as intermediate materials. The proviso set out in subsection 8(6) only applies if self-produced materials are used in the production of other self-produced materials and both are subject to a regional value content requirement.

Example 7: Subsection 8(23) Accessories, Spare Parts, Tools, Instruction or Other Information Materials

The following are examples of accessories, spare parts, tools, instructional or other information materials that are delivered with a good and form part of the good's standard accessories, spare parts, tools, instructional or other information materials:

(a) Consumables that must be replaced at regular intervals, such as dust collectors for an air-conditioning system,

(b) a carrying case for equipment,

(c) a dust cover for a machine,

(d) an operational manual for a vehicle,

(e) brackets to attach equipment to a wall,

(f) a bicycle tool kit or a car jack,

(g) a set of wrenches to change the bit on a chuck,

(h) a brush or other tool to clean out a machine, and

(i) electrical cords and power bars for use with electronic goods.

Example 8: Value of Indirect Materials that are Assists

Producer A, located in a USMCA country, produces a well-water pump that is subject to a regional value content requirement. The producer chooses that the regional value content of that good be calculated using the net cost method. Producer A buys a mold-injected plastic water flow sensor from Producer B, located in the same USMCA country, and uses it in the production of the well-water pump. Producer A provides to Producer B, at no charge, molds to be used in the production of the water flow sensor. The molds have a value of $100 which is expensed in the current year by Producer A.

The water flow sensor is subject to a regional value content requirement which Producer B chooses to calculate using the net cost method. For the purpose of determining the value of non-originating materials in order to calculate the regional value content of the water flow sensor, the molds are considered to be an originating material because they are an indirect material. However, pursuant to subsection 8(13) they have a value of nil because the cost of the molds with respect to the water flow sensor is not recorded on the books of Producer B.

It is determined that the water flow sensor is a non-originating material. The cost of the molds that is recorded on the books of producer A is expensed in the current year. Pursuant to section 4 of Schedule VI (Value of Materials), the value of the molds (see subparagraph 4(1)(b)(ii) of Schedule VI) must be included in the value of the water flow sensor by Producer A when calculating the regional value content of the well-water pump. The cost of the molds, although recorded on the books of producer A, cannot be included as a separate cost in the net cost of the well-water pump because it is already included in the value of the water flow sensor. The entire cost of the water flow sensor, which includes the cost of the molds, is included in the value of non-originating materials for the purposes of the regional value content of the well-water pump.

PART V GENERAL PROVISIONS

SECTION 9. ACCUMULATION

(9) (1) Subject to subsections (2) through (5) (a) a good is originating if the good is produced in the territory of one or more of the USMCA countries by one or more producers, provided that the good satisfies the requirements of section 3 and all other applicable requirements of these Regulations;

(b) an originating good or material of one or more of the USMCA countries is considered as originating in the territory of another USMCA country when used as a material in the production of a good in the territory of another USMCA country; and

(c) production undertaken on a non-originating material in the territory of one or more of the USMCA countries may contribute toward the originating status of a good, regardless of whether that production was sufficient to confer originating status to the material itself.

(2) *Accumulation using the net cost method.* If a good is subject to a regional value content requirement based on the net cost method and an exporter or producer of the good has a statement signed by a producer of a material that is used in the production of the good that states

(a) the net cost incurred and the value of non-originating materials used by the producer of the material in the production of that material,

(i) net cost incurred by the producer of the good with respect to the material is to be the net cost incurred by the producer of the material plus, if not included in the net cost incurred by the producer of the material, the costs referred to in paragraphs 8(2)(a) through (c), and

(ii) the value of non-originating materials used by the producer of the good with respect to the material is to be the value of non-originating materials used by the producer of the material; or

(b) any amount, other than an amount that includes any of the value of non-originating materials, that is part of the net cost incurred by the producer of the material in the production of that material,

(i) the net cost incurred by the producer of the good with respect to the material is to be the value of the material, determined in accordance with subsection 8(1), and

(ii) the value of non-originating materials used by the producer of the good with respect to the material is to be the value of the material, determined in accordance with subsection 8(1), minus the amount stated in the statement.

(3) *Accumulation using the transaction value method.* If a good is subject to a regional value content requirement based on the transaction value method and an exporter or producer of the good has a statement signed by a producer of a material that is used in the production of the good that states the value of non-originating materials used by the producer of the material in the production of that material, the value of non-originating materials used by the producer of the good with respect to the material is the value of non-originating materials used by the producer of the material.

(4) *Averaging of costs—net cost method.* If a good is subject to a regional value content requirement based on the net cost method and an exporter or producer of the good does not have a statement described in subsection (2) but has a statement signed by a producer of a material that is used in the production of the good that

(a) states the sum of the net costs incurred and the sum of the values of non-originating materials used by the producer of the material in the production of that material and identical materials or similar materials, or any combination thereof, produced in a single plant by the producer of the material over a month or any consecutive three, six or twelve month period that falls within the fiscal year of the producer of the good, divided by the number of units of materials with respect to which the statement is made,

(i) the net cost incurred by the producer of the good with respect to the material is to be the sum of the net costs incurred by the producer of the material with respect to that material and the identical materials or similar materials, divided by the number of units of materials with respect to which the statement is made, plus, if not included in the net costs incurred by the producer of the material, the costs referred to in paragraphs 8(2)(a) through (c), and

(ii) the value of non-originating materials used by the producer of the good with respect to the material is to be the sum of the values of non-originating materials used by the producer of the material with respect to that material and the identical materials or similar materials divided by the number of units of materials with respect to which the statement is made; or

(b) states any amount, other than an amount that includes any of the values of non-originating materials, that is part of the sum of the net costs incurred by the producer of the material in the production of that material and identical materials or similar materials, or any combination thereof, produced in a single plant by the producer of the material over a month or any consecutive three, six or twelve month period that falls within the fiscal year of the producer of the good, divided by the number of units of materials with respect to which the statement is made,

(i) the net cost incurred by the producer of the good with respect to the material is to be the value of the material, determined in accordance with subsection 8(1), and

(ii) the value of non-originating materials used by the producer of the good with respect to the material is to be the value of the material, determined in accordance with subsection 8(1), minus the amount stated in the statement.

(5) *Averaging of costs—transaction value method.* If a good is subject to a regional value content requirement based on the transaction value method and an exporter or producer of the good does not have a statement described in subsection (3) but has a statement signed by a producer of a material that is used in the production of the good that states the sum of the values of non-originating materials used by the producer of the material in the production of that material and identical materials or similar materials, or any combination thereof, produced in a single plant by the producer of the material over a month or any consecutive three, six or twelve month period that falls within the fiscal year of the producer of the good, divided by the number of units of materials with respect to which the statement is made, the value of non-originating materials used by the producer of the good with respect to the material is the sum of the values of non-originating materials used by the producer of the material with respect to that material

and the identical materials or similar materials divided by the number of units of materials with respect to which the statement is made.

(6) *Single producer*. For the purposes of subsection 8(6), if a producer of the good chooses to accumulate the production of materials under subsection (1), that production will be considered to be the production of the producer of the good.

(7) *Particulars*. For the purposes of this section,

(a) in order to accumulate the production of a material,

(i) if the good is subject to a regional value content requirement, the producer of the good must have a statement described in subsection (2) through (5) that is signed by the producer of the material, and

(ii) if an applicable change in tariff classification is applied to determine whether the good is an originating good, the producer of the good must have a statement signed by the producer of the material that states the tariff classification of all non-originating materials used by that producer in the production of that material and that the production of the material took place entirely in the territory of one or more of the USMCA countries;

(b) a producer of a good who chooses to accumulate is not required to accumulate the production of all materials that are incorporated into the good; and

(c) any information set out in a statement referred to in subsection (2) through (5) that concerns the value of materials or costs is to be in the same currency as the currency of the country in which the person who provided the statement is located.

(8) *Examples of accumulation of production*.

Each of the following examples is an ''Example'' as referred to in subsection 1(4).

Example 1: Subsection 9(1)

Producer A, located in USMCA country A, imports unfinished bearing rings provided for in subheading 8482.99 into USMCA country A from a non-USMCA territory. Producer A further processes the unfinished bearing rings into finished bearing rings, which are of the same subheading. The finished bearing rings of Producer A do not satisfy an applicable change in tariff classification and therefore do not qualify as originating goods.

The net cost of the finished bearing rings (per unit) is calculated as follows:

Product costs:	
Value of originating materials	$0.15
Value of non-originating materials	0.75
Other product costs	0.35
Period costs: (including $0.05 in excluded costs)	0.15
Other costs:	0.05
Total cost of the finished bearing rings, per unit:	1.45
Excluded costs: (included in period costs)	0.05
Net cost of the finished bearing rings, per unit:	1.40

Producer A sells the finished bearing rings to Producer B who is located in USMCA country A for $1.50 each. Producer B further processes them into bearings, and intends to export the bearings to USMCA country B. Although the bearings satisfy the applicable change in tariff classification, the bearings are subject to a regional value content requirement.

Situation A:

Producer B does not choose to accumulate costs incurred by Producer A with respect to the bearing rings used in the production of the bearings. The net cost of the bearings (per unit) is calculated as follows:

Product costs:	
Value of originating materials	$0.45
Value of non-originating materials (value, per unit, of the bearing rings purchased from Producer A)	1.50
Other product costs	0.75
Period costs: (Including $0.05 in excluded costs)	0.15
Other costs	0.05
Total cost of the bearings, per unit:	2.90
Excluded costs: (Included in period costs)	0.05

Net cost of the bearings, per unit:	2.85

Under the net cost method, the regional value content of the bearings is

$$RVC = \frac{NC - VNM}{NC} \times 100$$

$$= \frac{\$2.85 - \$1.50}{\$2.85} \times 100$$

$$= 47.4\%$$

Therefore, the bearings are non-originating goods.

Situation B:

Producer B chooses to accumulate costs incurred by Producer A with respect to the bearing rings used in the production of the bearings. Producer A provides a statement described in paragraph 9(2)(a) to Producer B. The net cost of the bearings (per unit) is calculated as follows:

Product costs:	
Value of originating materials ($0.45 + $0.15)	$0.60
Value of non-originating materials (value, per unit, of the unfinished bearing rings imported by Producer A)	0.75
Other product costs ($0.75 + $0.35)	1.10
Period costs: (($0.15 + $0.15), including $0.10 in excluded costs)	0.30
Other costs: ($0.05 + $0.05)	0.10
Total cost of the bearings, per unit:	2.85
Excluded costs: (Included in period costs)	0.10
Net cost of the bearings, per unit:	2.75

Under the net cost method, the regional value content of the bearings is

$$RVC = \frac{NC - VNM}{NC} \times 100$$

$$= \frac{\$2.75 - \$0.75}{\$2.75} \times 100$$

$$= 72.7\%$$

Therefore, the bearings are originating goods.

Situation C:

Producer B chooses to accumulate costs incurred by Producer A with respect to the bearing rings used in the production of the bearings. Producer A provides to Producer B a statement described in paragraph 9(2)(b) that specifies an amount equal to the net cost minus the value of non-originating materials used to produce the finished bearing rings ($1.40 − 0.75 = $0.65). The net cost of the bearings (per unit) is calculated as follows:

Product costs:	
Value of originating materials ($0.45 + $0.65)	$1.10
Value of non-originating materials ($1.50 − $0.65)	0.85
Other product costs	0.75
Period costs: (Including $0.05 in excluded costs)	0.15
Other costs	0.05
Total cost of the bearings, per unit:	2.90
Excluded costs: (Included in period costs)	0.05
Net cost of the bearings, per unit:	2.85

Under the net cost method, the regional value content of the bearings is

$$RVC = \frac{NC - VNM}{NC} \times 100$$

$$= \frac{\$2.85 - \$0.85}{\$2.85} \times 100$$

$$= 70.2\%$$

Therefore, the bearings are originating goods.

Situation D:

Producer B chooses to accumulate costs incurred by Producer A with respect to the bearing rings used in the production of the bearings. Producer A provides to Producer B a statement described in paragraph 9(2)(b) that specifies an amount equal to the value of other product costs used in the production of the finished bearing rings ($0.35). The net cost of the bearings (per unit) is calculated as follows:

Product costs:	
Value of originating materials	$0.45
Value of non-originating materials ($1.50 − $0.35)	1.15
Other product costs ($0.75 + $0.35)	1.10
Period costs: (Including $0.05 in excluded costs)	0.15
Other costs	0.05
Total cost of the bearings, per unit:	2.90
Excluded costs: (Included in period costs)	0.05
Net cost of the bearings, per unit:	2.85

Under the net cost method, the regional value content of the bearings is

$$RVC = \frac{NC - VNM}{NC} \times 100$$
$$= \frac{\$2.85 - \$1.15}{\$2.85} \times 100$$
$$= 59.7\%$$

Therefore, the bearings are originating goods.

Example 2: Section 9(1)

Producer A, located in USMCA country A, imports non-originating cotton, carded or combed, provided for in heading 52.03 for use in the production of cotton yarn provided for in heading 52.05. Because the change from cotton, carded or combed, to cotton yarn is a change within the same chapter, the cotton does not satisfy the applicable change in tariff classification for heading 52.05, which is a change from any other chapter, with certain exceptions. Therefore, the cotton yarn that Producer A produces from non-originating cotton is a non-originating good.

Producer A then sells the non-originating cotton yarn to Producer B, also located in USMCA country A, who uses the cotton yarn in the production of woven fabric of cotton provided for in heading 52.08. The change from non-originating cotton yarn to woven fabric of cotton is insufficient to satisfy the applicable change in tariff classification for heading 52.08, which is a change from any heading outside headings 52.08 through 52.12, except from certain headings, under which various yarns, including cotton yarn provided for in heading 52.05, are classified.

Therefore, the woven fabric of cotton that Producer B produces from non-originating cotton yarn produced by Producer A is a non-originating good.

However, Producer B can choose to accumulate the production of Producer A. The rule for heading 52.08, under which the cotton fabric is classified, does not exclude a change from heading 52.03, under which carded or combed cotton is classified. Therefore, under section 15(1), the change from carded or combed cotton provided for in heading 52.03 to the woven fabric of cotton provided for in heading 52.08 would satisfy the applicable change of tariff classification for heading 52.08. The woven fabric of cotton would be considered as an originating good.

Producer B, in order to choose to accumulate Producer A's production, must have a statement described in subsection 9(7).

Situation E:

Producer B chooses to accumulate costs incurred by Producer A with respect to the bearing rings used in the production of the bearings. Producer A provides to Producer B a signed statement described in subsection 9(3) that specifies the value of non-originating materials used in the production of the finished bearing rings ($0.75). Producer B chooses to calculate the regional value content of the bearings under the transaction value method. The regional value content of the bearings (per unit) is calculated as follows:

Transaction value of the bearings, per unit	$3.15
Costs incurred, per unit, in the international shipment of the good (included in transaction value of the bearings)	0.15
Transaction value, per unit, adjusted to exclude any costs incurred in the international shipment of the good	3.00
Value of non-originating materials (value, per unit, of the unfinished bearing rings imported by Producer A)	0.75

Under the transaction value method, the regional value content of the bearings is

RVC = (TV − VNM)/TV × 100
= ($3.00 − $0.75)/$3.00 × 100
= 75%

Therefore, because the bearings have a regional value content of at least 60 percent under transaction value method, the bearings are originating goods.

SECTION 10. TRANSSHIPMENT

10 (1) *Transport requirements to retain originating status.* If an originating good is transported outside the territories of the USMCA countries, the good retains its originating status if

(a) the good remains under customs control outside the territories of the USMCA countries; and

(b) the good does not undergo further production or any other operation outside the

territories of the USMCA countries, other than unloading; reloading; separation from a bulk shipment; storing; labeling or other marking required by the importing USMCA country; or any other operation necessary to transport the good to the territory of the importing USMCA country or to preserve the good in good condition, including:

(i) Inspection;

(ii) removal of dust that accumulates during shipment;

(iii) ventilation;

(iv) spreading out or drying;

(v) chilling;

(vi) replacing salt, sulphur dioxide or other aqueous solutions; or

(vii) replacing damaged packing materials and containers and removal of units of the good that are spoiled or damaged and present a danger to the remaining units of the good.

(2) *Good entirely non-originating.* A good that is a non-originating good by application of subsection (1) is considered to be entirely non-originating for the purposes of these Regulations.

(3) *Exceptions for certain goods.* Subsection (1) does not apply with respect to

(a) a ''smart card'' of subheading 8523.52 containing a single integrated circuit, if any further production or other operation that that good undergoes outside the territories of the USMCA countries does not result in a change in the tariff classification of the good to any other subheading;

(b) a good of any of subheadings 8541.10 through 8541.60 or 8542.31 through 8542.39, if any further production or other operation that that good undergoes outside the territories of the USMCA countries does not result in a change in the tariff classification of the good to a subheading outside of that group;

(c) an electronic microassembly of subheading 8543.90, if any further production or other operation that that good undergoes outside the territories of the USMCA countries does not result in a change in the tariff classification of the good to any other subheading; or

(d) an electronic microassembly of subheading 8548.90, if any further production or other operation that that good undergoes outside the territories of the USMCA countries does not result in a change in the tariff classification of the good to any other subheading.

SECTION 11. NON-QUALIFYING OPERATIONS

11 A good is not an originating good merely by reason of

(a) mere dilution with water or another substance that does not materially alter the characteristics of the good; or

(b) any production or pricing practice with respect to which it may be demonstrated, on the basis of a preponderance of evidence, that the object was to circumvent these Regulations.

PART VI AUTOMOTIVE GOODS

SECTION 12. DEFINITIONS AND INTERPRETATION

(1) For purposes of this part,

aftermarket part means a good that is not for use as original equipment in the production of passenger vehicles, light trucks or heavy trucks as defined in these Regulations;

all-terrain vehicle means a vehicle that does not meet United States federal safety and emissions standards permitting unrestricted on-road use or the equivalent Mexican and Canadian on-road standards;

annual purchase value (APV) means the sum of the values of high-wage materials purchased annually by a producer for use in the production of passenger vehicles, light trucks or heavy trucks in a plant located in the territory of a USMCA country;

average base hourly wage rate means the average hourly rate of pay based on all the hours performed on direct production work at a plant or facility, even if such workers performing that work are paid on a salary, piece-rate, or day-rate basis. This includes all hours performed by full-time, part time, temporary, and seasonal workers. The rate of pay does not include benefits, bonuses or shift-premiums, or premium pay for overtime, holidays or weekends. If a worker is paid by a third party, such as a temporary employment agency, only the wages received by the worker are included in the average base hourly wage rate calculation.

For direct production workers, the average base hourly wage rate of pay is calculated based on all their working hours. For other workers performing direct production work, the average base hourly rate is calculated based on the number of hours performing direct production work. The rate also does not include any hours worked by interns, trainees, students, or any worker that does not have an express or implied compensation agreement with the employer.

If any direct production worker or worker performing direct production work is compensated by a method other than hourly, such as a salary, piece-rate, or day-rate basis, the worker's hourly base wage rate-is calculated by converting the salary, piece-rate, or day-rate to an hourly equivalent. This hourly equivalent is then multiplied by the number of hours worked in direct production for purposes of calculating the average base hourly wage rate.

class of motor vehicles means one of the following categories of motor vehicles:

(a) Road tractors for semi-trailers of subheading 8701.20, vehicles for the transport of 16 or more persons of subheading 8702.10 or 8702.90, motor vehicles for the transport of goods of subheading 8704.10, 8704.22, 8704.23,

8704.32 or 8704.90, special purpose motor vehicles of heading 87.05, or chassis fitted with engines of heading 87.06;

(b) tractors of subheading 8701.10 or 8701.30 through 8701.90;

(c) vehicles for the transport of 15 or fewer persons of subheading 8702.10 or 8702.90, or light trucks of subheading 8704.21 or 8704.31; or

(d) passenger vehicles of subheading 8703.21 through 8703.90;

complete motor vehicle assembly process means the production of a motor vehicle from separate constituent parts, including the following:

(a) A structural frame or unibody
(b) body panels
(c) an engine, a transmission and a drive train
(d) brake components
(e) steering and suspension components
(f) seating and internal trim
(g) bumpers and external trim
(h) wheels and
(i) electrical and lighting components;

direct production work means work by any employee directly involved in the production of passenger vehicles, light trucks, heavy trucks, or parts used in the production of these vehicles in the territory of a USMCA country. It also includes work by an employee directly involved in the set-up, operation, or maintenance of tools or equipment used in the production of those vehicles or parts. Direct production work may take place on a production line, at a workstation, on the shop floor, or in another production area.

Direct production work also includes:

(a) Material handling of vehicles or parts;

(b) inspection of vehicles or parts, including inspections that are normally categorized as quality control and, for heavy trucks, pre-sale inspections carried out at the place where the vehicle is produced;

(c) work performed by skilled tradespeople, such as process or production engineers, mechanics, technicians and other employees responsible for maintaining and ensuring the operation of the production line or tools and equipment used in the production of vehicles or parts; and

(d) on-the-job training regarding the execution of a specific production task.

Direct production work does not include any work by executive or management staff that have the authority to make final decisions to hire, fire, promote, transfer and discipline employees; workers engaged in research and development, or work by engineering or other personnel that are not responsible for maintaining and ensuring the operation of the production line or tools and equipment used in the production of vehicles or parts. It also does not include any work by interns, trainees, students, or any worker that does not have an express or implied compensation agreement with the employer.

direct production worker means any worker whose primary responsibilities are direct production work, meaning at least 85% of the worker's time is spent performing direct production work.

first motor vehicle prototype means the first motor vehicle that

(a) is produced using tooling and processes intended for the production of motor vehicles to be offered for sale, and

(b) follows the complete motor vehicle assembly process in a manner not specifically designed for testing purposes;

heavy truck means a vehicle other than a vehicle that is solely or principally for off-road use of subheading 8701.20, 8704.22, 8704.23, 8704.32 or 8704.90, or a chassis fitted with an engine of heading 87.06 that is for use in such a vehicle;

high-wage assembly plant for passenger vehicle or light truck parts means a qualifying wage-rate production plant, operated by a corporate producer, or by a supplier with whom the producer has a contract of at least 3 years for the materials listed in sub-paragraphs (a) through (c), provided that the plant is located in the territory of a USMCA country and that it has a production capacity of:

(a) 100,000 or more engines of heading 84.07 or 84.08,

(b) 100,000 or more transmissions of subheading 8708.40, or

(c) 25,000 or more advanced battery packs;

Such engines, transmissions, or advanced battery packs are not required to qualify as originating;

high-wage assembly plant for heavy truck parts means a qualifying wage rate production plant, operated by a corporate producer, or by a supplier with whom the producer has a contract of at least 3 years for the materials listed in sub-paragraphs (a) through (c), provided that the plant is located in the territory of a USMCA country and that it has a production capacity of:

(a) 20,000 or more engines of heading 84.07 or 84.08,

(b) 20,000 or more transmissions of subheading 8708.40, or

(c) 20,000 or more advanced battery packs;

Such engines, transmissions, or advanced battery packs are not required to qualify as originating;

high-wage labor costs (HWLC) means the sum of wage expenditures, not including benefits, for workers who perform direct production work at a qualifying wage-rate vehicle assembly plant;

high-wage material (HWM) means a material that is produced in a qualifying wage-rate production plant;

high-wage technology expenditures means wage expenditures—expressed as a percentage of a passenger vehicle, light truck, or

heavy truck producer's total production wage expenditures—at a corporate level in the territory of one or more of the USMCA countries on:

(a) Research and development, including prototype development, design, engineering, or testing operations and any work undertaken by a producer for the purpose of creating new, or improving existing, materials, parts, vehicles or processes, including incremental improvements thereto, and

(b) information technology, including software development, technology integration, vehicle communications, or information technology support operations,

Expenditures on capital or other non-wage costs for R&D or IT are not included. For greater certainty, there is no minimum wage rate associated with high-wage technology expenditures;

high-wage transportation or related costs for shipping means costs incurred by a producer for transportation, logistics, or material handling associated with the movement of high-wage parts or materials within the territories of the USMCA countries, provided that the transportation, logistics, or material handling provider pays an average base hourly wage rate to direct production employees performing these services of at least:

(a) US$16 in the United States;

(b) CA$20.88 in Canada; and

(c) MXN$294.22 in Mexico;

High-wage transportation or related costs for shipping may be included in high wage material and manufacturing expenses if those costs are not otherwise included;

light truck means a vehicle of subheading 8704.21 or 8704.31, except for a vehicle that is solely or principally for off-road use;

marque means the trade name used by a separate marketing division of a motor vehicle assembler;

model line means a group of motor vehicles having the same platform or model name;

model name means the word, group of words, letter, number or similar designation assigned to a motor vehicle by a marketing division of a motor vehicle assembler to:

(a) Differentiate the motor vehicle from other motor vehicles that use the same platform design,

(b) associate the motor vehicle with other motor vehicles that use different platform designs, or

(c) denote a platform design;

motorhome or entertainer coach means a vehicle of heading 87.02 or 87.03 built on a self-propelled motor vehicle chassis that is solely or principally designed as temporary living quarters for recreational, camping, entertainment, corporate or seasonal use;

motor vehicle assembler means a producer of motor vehicles and any related persons or joint ventures in which the producer participates;

new building means a new construction, including at least the pouring or construction of a new foundation and floor, the erection of a new structure and roof and installation of new plumbing, electrical and other utilities to house a complete vehicle assembly process;

passenger vehicle means a vehicle of subheading 8703.21 through 8703.90, except for:

(a) A vehicle with a compression-ignition engine of subheading 8703.31 through 8703.33 or a vehicle of subheading 8703.90 with both a compression-ignition engine and an electric motor for propulsion,

(b) a three- or four-wheeled motorcycle,

(c) an all-terrain vehicle,

(d) a motorhome or entertainer coach, or

(e) an ambulance, hearse or prison van;

plant means a building, or buildings in close proximity but not necessarily contiguous, machinery, apparatus and fixtures that are under the control of a producer and are used in the production of any of the following:

(a) Passenger vehicles, light trucks or heavy trucks,

(b) a good listed in Table A.1, A.2, B, C, D, E, F or G;

platform means the primary load-bearing structural assembly of a motor vehicle that determines the basic size of the motor vehicle, and is the structural base that supports the driveline and links the suspension components of the motor vehicle for various types of frames, such as the body-on-frame or space-frame, and monocoques;

qualifying wage-rate production plant means a plant that produces materials for passenger vehicles, light trucks or heavy trucks located in the territory of a USMCA country, at which the average base hourly wage rate is at least:

(a) US$16 in the United States;

(b) CA$20.88 in Canada; and

(c) MXN$294.22 in Mexico;

qualifying wage-rate vehicle assembly plant means a passenger vehicle, light truck or heavy truck assembly plant located in the territory of a USMCA country, at which the average base hourly wage rate is at least:

(a) US$16 in the United States;

(b) CA$20.88 in Canada; and

(c) MXN$294.22 in Mexico;

refit means a plant closure, for purposes of plant conversion or retooling, that lasts at least three months;

size category, with respect to a light-duty vehicle, means that the total of the interior volume for passengers and the interior volume for luggage is

(a) 85 cubic feet (2.38 m^3) or less,

(b) more than 85 cubic feet (2.38 m3) but less than 100 cubic feet (2.80 m3),

(c) 100 cubic feet (2.80 m3) or more but not more than 110 cubic feet (3.08 m3),

(d) more than 110 cubic feet (3.08 m3) but less than 120 cubic feet (3.36 m3), or

(e) 120 cubic feet (3.36 m3) or more;

super-core means the parts listed in column 1 of Table A.2 of this Part, which are considered as a single part for the purpose of performing a Regional Value Content calculation in accordance with subsections 14(10), 14(11), 14(13) and 16(10);

total vehicle plant assembly annual purchase value (TAPV) means the sum of the values of all parts or materials purchased, on an annual basis, for use in the production of passenger vehicles, light trucks or heavy trucks in a plant located in the territory of a USMCA country;

underbody means a component, comprising a single part or two or more parts joined together, with or without additional stiffening members, that forms the base of a motor vehicle, beginning at the fire-wall or bulkhead of the motor vehicle and ending:

(a) If there is a luggage floor panel in the motor vehicle, at the place where that luggage floor panel begins, or

(b) if there is no luggage floor panel in the motor vehicle, at the place where the passenger compartment of the motor vehicle ends;

vehicle that is solely or principally for off-road use means a vehicle that does not meet U.S. federal safety and emissions standards permitting unrestricted on-road use or the equivalent Mexican and Canadian on-road standards.

SECTION 13: PRODUCT-SPECIFIC RULES OF ORIGIN FOR VEHICLES AND CERTAIN AUTO PARTS

(1) Except as provided for in section 19 (Alternative Staging Regimes), the product-specific rule of origin for a good of heading 87.01 through 87.08 is:

8701.10 A change to a good of subheading 8701.10 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

8701.20 A change to a good of subheading 8701.20 from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027; or

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

8701.30–8701.90 A change to a good of subheading 8701.30 through 8701.90 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

8702.10–8702.90

(1) A change to a motor vehicle for the transport of 15 or fewer persons of subheading 8702.10 through 8702.90 from any other heading, provided there is a regional value content of not less than 62.5 percent under the net cost method; or

(2) A change to a motor vehicle for the transport of 16 or more persons of subheading 8702.10 through 8702.90 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

8703.10 A change to subheading 8703.10 from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the transaction value method, or

(b) 50 percent under the net cost method.

8703.21–8703.90 (1) A change to a passenger vehicle of subheading 8703.21 through 8703.90 from any other heading, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter; or

(2) A change to any other good of subheading 8703.21 through 8703.90 from any other heading, provided there is a regional value content of not less than 62.5 percent under the net cost method.

8704.10 A change to a good of subheading 8704.10 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

8704.21 (1) A change to a light truck of subheading 8704.21 from any other heading, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter; or

(2) A change to a vehicle that is solely or principally for off-road use subheading 8704.21 from any other heading, provided there is a regional value content of not less than 62.5 percent under the net cost method.

8704.22–8704.23 (1) A change to a heavy truck of subheading 8704.22 through 8704.23 from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter; or

(2) A change to a vehicle that is solely or principally for off-road use subheading

8704.22 through 8704.23 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

8704.31 (1) A change to a light truck of subheading 8704.31 from any other heading, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter; or

(2) A change to a vehicle that is solely or principally for off-road use subheading 8704.31 from any other heading, provided there is a regional value content of not less than 62.5 percent under the net cost method.

8704.32–8704.90 (1) A change to a heavy truck of subheading 8704.32 through 8704.90 from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter; or

(2) A change to a vehicle that is solely or principally for off-road use of subheading 8704.32 through 8704.90 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

87.05 A change to heading 87.05 from any other heading, provided there is a regional value content of not less than 60 percent under the net cost method.

87.06 For a good of heading 87.06 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of heading 87.06 for use as original equipment in a heavy truck:

(2) No required change in tariff classification provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of heading 87.06 for use as original equipment in any other vehicle, or as an aftermarket part:

(3) No required change in tariff classification provided there is a regional value content of not less than 60 percent under the net cost method.

87.07 For a good of heading 87.07 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of heading 87.07 for use as original equipment in a heavy truck:

(2) A change to heading 87.07 from any other chapter; or

(3) No required change in tariff classification provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of heading 87.07 for use as original equipment in any other vehicle or as an aftermarket part:

(4) A change to heading 87.07 from any other chapter; or

(5) No required change in tariff classification provided there is a regional value content of not less than 60 percent under the net cost method.

8708.10 For a good of subheading 8708.10 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.10 from any other heading; or

(2) A change to subheading 8708.10 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.10 for use as original equipment in a heavy truck:

(3) A change to subheading 8708.10 from any other heading; or

(4) A change to subheading 8708.10 from subheading 8708.99, whether or not there is

also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.10 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to subheading 8708.10 from any other heading; or

(6) A change to subheading 8708.10 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.21 For a good of subheading 8708.21 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.21 from any other heading; or

(2) A change to subheading 8708.21 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.21 for use as original equipment in a heavy truck:

(3) A change to subheading 8708.21 from any other heading; or

(4) A change to subheading 8708.21 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.21 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to subheading 8708.10 from any other heading; or

(6) A change to subheading 8708.10 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.29 For a body stamping of subheading 8708.29 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to a body stamping of subheading 8708.29, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For any other good of subheading 8708.29 for use as original equipment in a passenger vehicle or light truck:

(2) A change to subheading 8708.29 from any other heading; or

(3) No required change in tariff classification to subheading 8708.29, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.29 for use as original equipment in a heavy truck:

(4) A change to subheading 8708.29 from any other heading; or

(5) No required change in tariff classification to subheading 8708.29, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.29 for use as original equipment in any other vehicle or as an aftermarket part:

(6) A change to subheading 8708.29 from any other heading; or

(7) No required change in tariff classification to subheading 8708.29, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.30 For a good of subheading 8708.30 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.30 from any other heading; or

(2) No required change in tariff classification to subheading 8708.30, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.30 for use as original equipment in a heavy truck:

(3) A change to subheading 8708.30 from any other heading; or

(4) No required change in tariff classification to subheading 8708.30, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.30 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to mounted brake linings of subheading 8708.30 from any other heading; or

(6) A change to mounted brake linings of subheading 8708.30 from parts of mounted brake linings, brakes or servo-brakes of subheading 8708.30 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(7) A change to any other good of subheading 8708.30 from any other heading; or

(8) A change to any other good of subheading 8708.30 from mounted brake linings or parts of brakes or servo-brakes of subheading 8708.30, or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.40 For a good of subheading 8708.40 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to subheading 8708.40, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.40 for use as original equipment in a heavy truck:

(2) A change to subheading 8708.40 from any other heading; or

(3) No required change in tariff classification to subheading 8708.40, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For a good of subheading 8708.40 for use as original equipment in any other vehicle or as an aftermarket part:

(4) A change to gear boxes of subheading 8708.40 from any other heading; or

(5) A change to gear boxes of subheading 8708.40 from any other good of subheading 8708.40 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(6) A change to any other good of subheading 8708.40 from any other heading; or

(7) No required change in tariff classification to any other good of subheading 8708.40, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.50 For a good of subheading 8708.50 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to subheading 8708.50, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.50 for use as original equipment in a heavy truck:

(2) A change to drive-axles with differential, whether or not provided with other transmission components, for vehicles of heading 87.03, of subheading 8708.50 from any other heading, except from subheading 8482.10 through 8482.80; or

(3) A change to drive-axles with differential, whether or not provided with other transmission components, for vehicles of heading 87.03, of subheading 8708.50 from subheading 8482.10 through 8482.80 or parts of drive-axles of subheading 8708.50, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

(4) A change to other drive-axles with differential, whether or not provided with other transmission components, of subheading 8708.50 from any other heading; or

(5) A change to other drive-axles with differential, whether or not provided with other transmission components, of subheading 8708.50 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

(6) A change to non-driving axles and parts thereof, for vehicles of heading 87.03, of subheading 8708.50 from any other heading, except from subheading 8482.10 through 8482.80; or

(7) A change to non-driving axles and parts thereof, for vehicles of heading 87.03, of subheading 8708.50 from subheading 8482.10 through 8482.80 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter;

(8) A change to other non-driving axles and parts thereof of subheading 8708.50 from any other heading; or

(9) A change to other non-driving axles and parts thereof of subheading 8708.50 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

(10) A change to any other good of subheading 8708.50 from any other heading; or

(11) No required change in tariff classification to any other good of subheading 8708.50, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For a good of subheading 8708.50 for use as original equipment in any other vehicle or as an aftermarket part:

(12) A change to drive-axles with differential, whether or not provided with other transmission components, for vehicles of heading 87.03, of subheading 8708.50 from any other heading, except from subheading 8482.10 through 8482.80; or

(13) A change to drive-axles with differential, whether or not provided with other transmission components, for vehicles of heading 87.03, of subheading 8708.50 from subheading 8482.10 through 8482.80 or parts of drive-axles of subheading 8708.50, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(14) A change to other drive-axles with differential, whether or not provided with other transmission components, of subheading 8708.50 from any other heading; or

(15) A change to other drive-axles with differential, whether or not provided with other transmission components, of subheading 8708.50 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(16) A change to non-driving axles and parts thereof, for vehicles of heading 87.03, of subheading 8708.50 from any other heading, except from subheading 8482.10 through 8482.80; or

(17) A change to non-driving axles and parts thereof, for vehicles of heading 87.03, of subheading 8708.50 from subheading 8482.10 through 8482.80 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(18) A change to other non-driving axles and parts thereof of subheading 8708.50 from any other heading; or

(19) A change to other non-driving axles and parts thereof of subheading 8708.50 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(20) A change to any other good of subheading 8708.50 from any other heading; or

(21) No required change in tariff classification to any other good of subheading 8708.50, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.70 For a good of subheading 8708.70 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.70 from any other heading; or

(2) A change to subheading 8708.70 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.70 for use as original equipment in a heavy truck:

(3) A change to subheading 8708.70 from any other heading; or

(4) A change to subheading 8708.70 from subheading 8708.99, whether or not there is

also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.70 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to subheading 8708.70 from any other heading; or

(6) A change to subheading 8708.70 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.80 For a good of subheading 8708.80 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to subheading 8708.80, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.80 for use as original equipment in a heavy truck:

(2) A change to McPherson struts of subheading 8708.80 from parts thereof of subheading 8708.80 or any other subheading, provided there is a regional value content of not less than 50 percent under the net cost method;

(3) A change to any other good of subheading 8708.80 from any other heading; or

(4) A change to suspension systems (including shock absorbers) of subheading 8708.80 from parts thereof of subheading 8708.80 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter; or

(5) No required change in tariff classification to parts of suspension systems (including shock absorbers) of subheading 8708.80, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.80 for use as original equipment in any other vehicle or as an aftermarket part:

(6) A change to McPherson struts of subheading 8708.80 from parts thereof of subheading 8708.80 or any other subheading, provided there is a regional value content of not less than 50 percent under the net cost method;

(7) A change to subheading 8708.80 from any other heading;

(8) A change to suspension systems (including shock absorbers) of subheading 8708.80 from parts thereof of subheading 8708.80 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method; or

(9) No required change in tariff classification to parts of suspension system (including shock absorbers) of subheading 8708.80, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.91 For a good of subheading 8708.91 for use as original equipment in a passenger vehicle or light truck:

(1) A change to radiators of subheading 8708.91 from any other heading;

(2) A change to radiators of subheading 8708.91 from any other good of subheading 8708.91, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023; or

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

(3) No required change in tariff classification to any other good of subheading 8708.91, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023; or

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.91 for use as original equipment in a heavy truck:

(4) No required change in tariff classification to any other good of subheading 8708.91, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023; or
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.
(5) A change to radiators of subheading 8708.91 from any other heading;
(6) A change to radiators of subheading 8708.91 from any other good of subheading 8708.91, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.91 for use as original equipment in any other vehicle or as an aftermarket part:

(7) A change to radiators of subheading 8708.91 from any other heading;
(8) A change to radiators of subheading 8708.91 from any other good of subheading 8708.91, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method; or
(9) No required change in tariff classification to any other good of subheading 8708.91, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.92 For a good of subheading 8708.92 for use as original equipment in a passenger vehicle or light truck:

(1) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other heading;
(2) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other good of subheading 8708.92, whether or not there is also a change from any other heading, provided there is a regional value content of not less than; or
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.
(3) No required change in tariff classification to any other good of subheading 8708.92, provided there is a regional value content of not less than:
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023; or
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.92 for use as original equipment in a heavy truck:

(4) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other heading;
(5) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other good of subheading 8708.92, whether or not there is also a change from any other heading, provided there is a regional value content of not less than; or
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.
(6) No required change in tariff classification to any other good of subheading 8708.92, provided there is a regional value content of not less than:
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023; or
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For any other good of subheading 8708.92 for use as original equipment in any other vehicle or as an aftermarket part:

(7) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other heading;
(8) A change to silencers (mufflers) or exhaust pipes of subheading 8708.92 from any other good of subheading 8708.92, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method; or
(9) No required change in tariff classification to any other good of subheading 8708.92, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.93 For a good of subheading 8708.93 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.93 from any other heading;
(2) A change to subheading 8708.93 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 70 percent under the net cost method; or
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.93 for use as original equipment in a heavy truck:

(3) A change to subheading 8708.93 from any other heading;

(4) A change to subheading 8708.93 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 70 percent under the net cost method; or

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.93 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to subheading 8708.93 from any other heading;

(6) A change to subheading 8708.93 from subheading 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.94 For a good of subheading 8708.94 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to subheading 8708.94, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.94 for use as original equipment in a heavy truck:

(2) A change to subheading 8708.94 from any other heading; or

(3) A change to steering wheels, steering columns or steering boxes of subheading 8708.94 from parts thereof of subheading 8708.94 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter;

(4) No required change in tariff classification to parts of steering wheels, steering columns or steering boxes of subheading 8708.94, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.94 for use as original equipment in any other vehicle or as an aftermarket part:

(5) A change to subheading 8708.94 from any other heading; or

(6) A change to steering wheels, steering columns or steering boxes of subheading 8708.94 from parts thereof of subheading 8708.94 or 8708.99, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 percent under the net cost method;

(7) No required change in tariff classification to parts of steering wheels, steering columns or steering boxes of subheading 8708.94, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.95 For a good of subheading 8708.95 for use as original equipment in a passenger vehicle or light truck:

(1) A change to subheading 8708.95 from any other heading; or

(2) No required change in tariff classification to subheading 8708.95, provided there is a regional value content of not less than:

(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;

(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a good of subheading 8708.95 for use as original equipment in a heavy truck:

(1) A change to subheading 8708.95 from any other heading; or

(2) No required change in tariff classification to subheading 8708.95, provided there is a regional value content of not less than:

(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;

(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.95 for use as original equipment in any other vehicle or as an aftermarket part:

(3) A change to subheading 8708.95 from any other heading; or

(4) No required change in tariff classification to subheading 8708.95, provided there is a regional value content of not less than 50 percent under the net cost method.

8708.99 For a chassis frame of subheading 8708.99 for use as original equipment in a passenger vehicle or light truck:

(1) No required change in tariff classification to subheading 8708.99, provided there is a regional value content of not less than:

(a) 66 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 69 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 72 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;
(d) 75 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For a chassis of subheading 8708.99 for use as original equipment in a heavy truck:

(2) No required change in tariff classification to subheading 8708.99, provided there is a regional value content of not less than:
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.99 for use as original equipment in a passenger vehicle or light truck:

8708.99.aa A change to tariff item 8708.99.aa from any other subheading, provided there is a regional value content of not less than:
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

8708.99.bb A change to tariff item 8708.99.bb from any other heading, except from subheading 8482.10 through 8482.80 or tariff item 8482.99.aa; or

A change to tariff item 8708.99.bb from subheadings 8482.10 through 8482.80 or tariff item 8482.99.aa, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

8708.99 A change to subheading 8708.99 from any other heading; or

No required change in tariff classification to subheading 8708.99, provided there is a regional value content of not less than:
(a) 62.5 percent under the net cost method, beginning on July 1, 2020 until June 30, 2021;
(b) 65 percent under the net cost method, beginning on July 1, 2021 until June 30, 2022;
(c) 67.5 percent under the net cost method, beginning on July 1, 2022 until June 30, 2023;
(d) 70 percent under the net cost method, beginning on July 1, 2023, and thereafter.

For any other good of subheading 8708.99 for use as original equipment in a heavy truck:

8708.99.aa A change to tariff item 8708.99.aa from any other subheading, provided there is a regional value content of not less than:
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

8708.99.bb A change to tariff item 8708.99.bb from any other heading, except from subheading 8482.10 through 8482.80 or tariff item 8482.99.aa; or

A change to tariff item 8708.99.bb from subheadings 8482.10 through 8482.80 or tariff item 8482.99.aa, whether or not there is also a change from any other heading, provided there is a regional value content of not less than:
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

8708.99 A change to subheading 8708.99 from any other heading; or

No required change in tariff classification to subheading 8708.99, provided there is a regional value content of not less than:
(a) 60 percent under the net cost method, beginning on July 1, 2020 until June 30, 2024;
(b) 64 percent under the net cost method, beginning on July 1, 2024 until June 30, 2027;
(c) 70 percent under the net cost method, beginning on July 1, 2027, and thereafter.

For any other good of subheading 8708.99 for use as original equipment in any other vehicle or as an aftermarket part:

8708.99.aa A change to tariff item 8708.99.aa from any other subheading, provided there is a regional value content of not less than 50 per cent under the net cost method.

8708.99.bb A change to tariff item 8708.99.bb from any other heading, except from subheading 8482.10 through 8482.80 or tariff item 8482.99.aa; or

A change to tariff item 8708.99.bb from subheadings 8482.10 through 8482.80 or tariff item 8482.99.aa, whether or not there is also a change from any other heading, provided there is a regional value content of not less than 50 per cent under the net cost method.

8708.99 A change to subheading 8708.99 from any other heading; or

No required change in tariff classification to subheading 8708.99, provided there is a regional value content of not less than 50 percent under the net cost method.

SECTION 14: FURTHER REQUIREMENTS RELATED TO THE REGIONAL VALUE CONTENT FOR PASSENGER VEHICLES, LIGHT TRUCKS, AND PARTS THEREOF

Roll-Up of Originating Materials

(1) The value of non-originating materials used by the producer in the production of a passenger vehicle, light truck and parts thereof must not, for the purpose of calculating the regional value content of the good, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good. For greater certainty, if the production undertaken on non-originating materials results in the production of a good that qualifies as originating, no account is to be taken of the non-originating material contained therein if that good is used in the subsequent production of another good.

Requirements Related to Core Parts Listed in Table A.1

(2) A part listed in Table A.1 that is for use as original equipment in the production of a passenger vehicle or light truck, except for batteries of subheading 8507.60 that are used as the primary source of electrical power for the propulsion of an electric passenger vehicle or an electric light truck, is originating only if it satisfies the regional value content requirement in sections 13 or 14 or Schedule I (PSRO Annex).

(3) A battery of subheading 8507.60 that is used as the primary source of electrical power for the propulsion of an electric passenger vehicle or an electric light truck is originating if it meets the applicable requirements set out in section 14 or Schedule I (PSRO Annex).

Parts Listed in Column 1 of Table A.2 Must Be Originating for Passenger Vehicle or Light Truck To Be Originating

(4) In addition to other applicable requirements set out in these Regulations, a passenger vehicle or light truck is only originating if the parts listed in column 1 of Table A.2 used in its production are originating. The value of non-originating materials (VNM) for such parts must be calculated in accordance with subsections 14(7) through 14(8), or, at the choice of the vehicle producer or exporter, subsections 14(9) through 14(11). The net cost of a part must be calculated in accordance with section 7 (Regional Value Content), without regard to the VNM calculation method chosen.

Parts Listed in Column 1 of Table A.2 Must Meet an RVC Requirement; Advanced Batteries May Meet an RVC or Tariff Shift Requirement

(5) Except for an advanced battery of subheading 8507.60, a part listed in column 1 of Table A.2, that is for use in a passenger vehicle or light truck, must meet the regional value content requirement of section 13 or Schedule I (PSRO Annex) to be considered originating.

(6) An advanced battery of subheading 8507.60, that is for use in a passenger vehicle or light truck, is originating if it meets the applicable change in tariff classification or regional value content requirements set out in Schedule I (PSRO Annex).

VNM for Core Parts May Include All Non-Originating Materials, or Only Materials Listed in Column 2 of Table A.2

(7) For the purpose of satisfying the requirement specified in subsections (4) through (6), the regional value content of a part listed in column 1 of Table A.2, the value of non-originating materials (VNM) may be determined, at the choice of the vehicle producer or exporter, taking into consideration:

(a) The value of all non-originating materials used in the production of the part; or

(b) the value of non-originating components that are listed in column 2 of Table A.2 that are used in the production of the part.

(8) For the purposes of a regional value content calculation for a good listed in column 1 of Table A.2, based on paragraph (7)(b), any non-originating materials used in the production of the good that are not listed in column 2 of Table A.2 may be disregarded. For greater certainty, any non-originating parts listed in column 2 of Table A.2 must be included in the VNM calculation. Any parts not listed in column 2 of Table A.2 or materials or components used to produce such parts should also not be part of the VNM calculation.

(9) Subsections (7) and (8) do not apply when calculating the regional value content of a part listed in Column 1 of Table A.2 traded on its own. The rules for such parts are listed in section 13 or Schedule I of these Regulations.

Parts Listed in Column 1 of Table A.2 May Be Treated as a Single, Super-Core Part

(10) For the purpose of satisfying the requirement specified in subsections (4) through (6) and as an alternative to determining the VNM based on the method in subsection (7), the regional value content of the parts listed in column 1 of Table A.2 of these Regulations may be determined, at the choice of the vehicle producer or exporter, by treating these parts as a single part, which may be referred to as a super-core part,

using the sum of the net cost of each part listed under column 1 of Table A.2 of these Regulations, and when calculating the VNM taking into consideration:

(a) The sum of the value of all non-originating materials used in the production of the parts listed under column 1 of table A.2; or

(b) the sum of the value of the non-originating components that are listed in column 2 of Table A.2 that are used in the production of the parts listed in column 1 of Table A.2.

(11) If a non-originating material used in the production of a component listed in column 2 of Table A.2 undergoes further production such that it satisfies the requirements of these Regulations, the component is treated as originating when determining the originating status of the subsequently produced part listed in column 1 of Table A.2, regardless of whether that component was produced by the producer of the part.

(12) The regional value content requirement for the parts listed in column 1 of Table A.2 may be averaged in accordance with the provisions in Section 16. Such an average may be calculated using the average regional value content for each individual parts category in the left hand column of Table A.2, or by calculating the average regional value content for all parts in the left hand column of Table A by treating them as a single part, defined as a super-core. Once this average, by either methodology, exceeds the required thresholds listed in subsection (13), all parts used to calculate this average are considered originating.

RVC Requirements Related to Parts Listed in Tables A.1 and A.2

(13) Further to subsections (2), (7) and (10), the following regional value content thresholds apply to parts for use as original equipment listed under Table A.1 and column 1 of Table A.2:

(a) 66 percent under the net cost method or 76 percent under the transaction value method beginning on July 1, 2020 until June 30, 2021;

(b) 69 percent under the net cost method or 79 percent under the transaction value method beginning on July 1, 2021 until June 30, 2022;

(c) 72 percent under the net cost method or 82 percent under the transaction value method, beginning on July 1, 2022 until June 30, 2023; or

(d) 75 percent under the net cost method or 85 percent under the transaction value method, beginning on July 1, 2023, and thereafter.

Requirements Related to Principal and Complementary Parts Listed in Tables B and C

(14) Notwithstanding the regional value content requirements set out in Schedule I (PSRO Annex), a material listed in Table B is considered originating if it satisfies the applicable change in tariff classification requirement or the applicable regional value-content requirement provided in Schedule I (PSRO Annex).

(15) Further to subsection (14), the following regional value content thresholds apply to parts for use as original equipment listed under Table B:

(a) 62.5 percent under the net cost method or 72.5 percent under the transaction value method beginning on July 1, 2020 until June 30, 2021;

(b) 65 percent under the net cost method or 75 percent under the transaction value method beginning on July 1, 2021 until June 30, 2022;

(c) 67.5 percent under the net cost method or 77.5 percent under the transaction value method, beginning on July 1, 2022 until June 30, 2023; or

(d) 70 percent under the net cost method or 80 percent under the transaction value method, beginning on July 1, 2023, and thereafter.

(16) Notwithstanding the regional value content requirements set out in Schedule I (PSRO Annex), a material listed in Table C is originating if it meets the applicable change in tariff classification requirement or the applicable regional value-content requirement provided in Schedule I (PSRO Annex).

(17) Further to subsection (16), the following regional value content thresholds apply to parts for use as original equipment listed under Table C:

(a) 62 percent under the net cost method or 72 percent under the transaction value method beginning on July 1, 2020 until June 30, 2021;

(b) 63 percent under the net cost method or 73 percent under the transaction value method beginning on July 1, 2021 until June 30, 2022;

(c) 64 percent under the net cost method or 74 percent under the transaction value method, beginning on July 1, 2022 until June 30, 2023; or

(d) 65 percent under the net cost method or 75 percent under the transaction value method, beginning on July 1, 2023, and thereafter.

(18) For greater certainty, subsections (13), (15) or (17) do not apply to aftermarket parts.

SECTION 15: FURTHER REQUIREMENTS RELATED TO THE REGIONAL VALUE CONTENT FOR HEAVY TRUCKS AND PARTS THEREOF

(1) The value of non-originating materials used by the producer in the production of a heavy truck and parts thereof must not, for the purpose of calculating the regional value content of the good, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good.

(2) Notwithstanding the Product-Specific Rules of Origin in Schedule I (PSRO Annex),

the regional value content requirement for a part listed in Table D that is for use in a heavy truck is:

(a) 60 percent under the net cost method or 70 percent under the transaction value method, if the corresponding rule includes a transaction value method, beginning on July 1, 2020 until June 30, 2024;

(b) 64 percent under the net cost method or 74 percent under the transaction value method, if the corresponding rule includes a transaction value method beginning on July 1, 2024 until June 30, 2027; or

(c) 70 percent under the net cost method or 80 percent under the transaction value method, if the corresponding rule includes a transaction value method, beginning on July 1, 2027, and thereafter.

(3) Notwithstanding the Product-Specific Rules of Origin in Schedule I (PSRO Annex), the regional value content requirement for a part listed in Table E that is for use in a heavy truck is:

(a) 50 percent under the net cost method or 60 percent under the transaction value method, if the corresponding rule includes a transaction value method, beginning on July 1, 2024 until June 30, 2027; or

(b) 54 percent under the net cost method or 64 percent under the transaction value method, if the corresponding rule includes a transaction value method beginning on July 1, 2024 until June 30, 2027; or

(c) 60 percent under the net cost method or 70 percent under the transaction value method, if the corresponding rule includes a transaction value method, beginning on July 1, 2027, and thereafter.

(4) Notwithstanding section 13 (Product-Specific Rules of Origin for Vehicles) or Schedule I (PSRO Annex), an engine of heading 84.07 or 84.08, or a gear box (transmission) of subheading 8708.40, or a chassis classified in 8708.99, that is for use in a heavy truck, is originating only if it satisfies the applicable regional value content requirement in subsection (2).

SECTION 16: AVERAGING FOR PASSENGER VEHICLES, LIGHT TRUCKS AND HEAVY TRUCKS

(1) For the purpose of calculating the regional value content of a passenger vehicle, light truck, or heavy truck, the calculation may be averaged over the producer's fiscal year, using any one of the following categories, on the basis of either all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of one or more of the other USMCA countries:

(a) The same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a USMCA country;

(b) the same class of motor vehicles produced in the same plant in the territory of a USMCA country;

(c) the same model line or same class of motor vehicles produced in the territory of a USMCA country; or

(d) any other category as the USMCA countries may decide.

(2) For the purposes of paragraph (1)(c), vehicles within the same model line or class may be averaged separately if such vehicles are subject to different regional value content requirements.

(3) If a producer chooses to use averaging for the purpose of calculating regional value content, the producer must state the category it has chosen, and:

(a) If the category referred to in paragraph (1)(a) is chosen, state the model line, model name, class of passenger vehicle, light truck, or heavy truck and tariff classification of the motor vehicles in that category, and the location of the plant at which the motor vehicles are produced,

(b) if the category referred to in paragraph (1)(b) is chosen, state the model name, class of passenger vehicle, light truck, or heavy truck and tariff classification of the motor vehicles in that category, and the location of the plant at which the motor vehicles are produced,

(c) if the category referred to in paragraph (1)(c) is chosen, state the model line, model name, class of motor vehicle and tariff classification of the passenger vehicle, light truck, or heavy truck in that category, and the locations of the plants at which the motor vehicles are produced,

(d) if the category referred to in paragraph (1)(d) is chosen, state the model lines, model names, classes of motor vehicles and tariff classifications of the passenger vehicles, light trucks, or heavy trucks, and the location of the plants at which the motor vehicles are produced, or

(e) if the category referred to in paragraph (1)(e) is chosen, state the model lines, model names, classes of motor vehicles and tariff classifications of the passenger vehicles, light trucks, or heavy trucks, the location of the plants at which the motor vehicles are produced and the party or parties to which the vehicles are exported;

Averaging Period

(4) If the fiscal year of a producer begins after July 1, 2020, but before July 1, 2021, the producer may calculate its regional value content for passenger vehicles, light trucks, heavy trucks, other vehicles, core parts listed in Table A.2 used in the production of passenger vehicles, light trucks or heavy trucks, an automotive good listed in Tables A.1, B, C, D or E, steel and aluminum purchasing requirement and labor value content, for the period beginning on July 1, 2020 and ending at the end of the following fiscal year.

Averaging After Entry Into Force + D133

(5) For the period July 1, 2020 to June 30, 2023, the producer may calculate its regional value content for passenger vehicles, light trucks, heavy trucks, other vehicles, core parts listed in Table A.2 used in the production of passenger vehicles, light trucks or heavy trucks, an automotive good listed in Tables A.1, B, C, D or E, steel and aluminum purchasing requirement and labor value content, for the following periods:

(a) July 1, 2020 to June 30, 2021

(b) July 1, 2021 to June 30, 2022

(c) July 1, 2022 to June 30, 2023, and

(d) July 1, 2023 to the end of the producer's fiscal year.

Additionally, a producer may calculate its regional value content for heavy trucks and parts listed in Table D or E, steel and aluminum purchasing requirement and labor value content, for the following periods:

(a) July 1, 2023 to June 30, 2024

(b) July 1 2024 to June 30, 2025

(c) July 1 2025 to June 30, 2026

(d) July 1 2026 to June 30, 2027 and

(e) July 1, 2027 to the end of the producer's fiscal year.

Timely Filing of Choice to Average

(6) If a producer chooses to average its regional value content calculations the producer must notify the customs administration of the USMCA country to which passenger vehicles, light trucks, heavy trucks or other vehicles are to be exported, by July 31, 2020 and subsequently at least 10 days before the first day of the producer's fiscal year during which the vehicles will be exported, or such shorter period as the customs administration may accept.

Choice to Average May Not Be Rescinded

(7) The producer may not modify or rescind the category of passenger vehicles, light trucks, heavy trucks or other vehicles or the period that they have notified the customs authority they intend to use for their averaged regional value calculation.

Averaged Net Cost and VNM Included in Calculation of RVC on the Basis of Producer's Option To Include All Vehicles of Category or Only Certain Exported Vehicles of Category

(8) For purposes of sections 13 through 15, if a producer chooses to average its net cost calculation, the net costs incurred and the values of non-originating materials used by the producer, with respect to

(a) all passenger vehicles, light trucks, or heavy trucks that fall within the category chosen by the producer and that are produced during the fiscal year, or partial fiscal year if the producer's fiscal year begins after July 1, 2020, or

(b) those passenger vehicles, light trucks, or heavy trucks to be exported to the territory of one or more of the USMCA countries that fall within the category chosen by the producer and that are produced during the fiscal year or, or partial fiscal year if the producer's fiscal year begins after July 1, 2020, must be included in the calculation of the regional value content under any of the categories set out in subsection (1).

Year-End Analysis Required if Averaging Based of Estimated Costs; Obligation To Notify of Change in Status

(9) If the producer of a passenger vehicle, light truck, heavy truck or other vehicle has calculated the regional value content of the motor vehicle on the basis of estimated costs, including standard costs, budgeted forecasts or other similar estimating procedures, before or during the producer's fiscal year, the producer must conduct an analysis at the end of the producer's fiscal year of the actual costs incurred over the period with respect to the production of the motor vehicle, and, if the passenger vehicle, light truck, or heavy truck does not satisfy the regional value content requirement on the basis of the actual costs, immediately inform any person to whom the producer has provided a Certificate of Origin for the motor vehicle, or a written statement that the motor vehicle is an originating good, that the motor vehicle is a non-originating good.

(10) For the purpose of calculating the regional value content for an automotive good listed in Tables A.1, B, C, D, or E, produced in the same plant, a core part listed in Table A.2, or when treating the parts listed in column 1 of Table A.2 as a super-core, for use in a passenger vehicle or light truck, the calculation may be averaged:

(a) Over the fiscal year of the motor vehicle producer to whom the good is sold;

(b) over any quarter or month;

(c) over the fiscal year of the producer of the automotive material; or

(d) over any of the categories in paragraph (1)(a) through (d), provided that the good was produced during the fiscal year, quarter, or month forming the basis for the calculation, in which:

(i) The average in paragraph (9)(a) is calculated separately for those goods sold to one or more passenger vehicle, light truck, or heavy truck producer, or

(ii) the average in paragraph (9)(a) or (d) is calculated separately for those goods that are exported to the territory of another USMCA country.

Example Relating to the Fiscal Year of a Producer Not Coinciding With the Entry Into Force of The Agreement

(11) The following example is an ''Example'' as referred to in subsection 1(4).

Example: Subsection (4)

The agreement enters into force on July 1, 2020. A producer's fiscal year begins on January 1, 2021. The producer may calculate their regional value content over the 18-month period beginning on July 1, 2020 and ending on December 31, 2021.

SECTION 17: STEEL AND ALUMINUM

(1) In addition to meeting the requirements of sections 13 through 16 or Schedule I (PSRO Annex), a passenger vehicle, light truck, or heavy truck is originating only if, during a time period provided for in subsection (2), at least 70 percent, by value, of the vehicle producer's purchases at the corporate level in the territories of one or more of the USMCA countries of:

(a) Steel listed in Table S; and

(b) aluminum listed in Table S;

are of originating goods.

(2) For the purposes of subsection (1), only the value of the steel or aluminum listed in Table S that is used in the production of the part will be taken into consideration for a part of subheading 8708.29 or 8708.99 listed in Table S.

(3) The requirement set out in subsection (1) applies to steel and aluminum purchases made by the producer of passenger vehicles, light trucks or heavy trucks, including purchases made directly by the vehicle producer from a steel producer, purchases by the vehicle producer from a steel service center or a steel distributor. Subsection (1) also applies to steel or aluminum covered by a contractual arrangement in which a producer of passenger vehicles, light trucks, or heavy trucks negotiates the terms under which steel or aluminum will be supplied to a parts producer by a steel producer or supplier selected by the vehicle producer, for use in the production of parts that are supplied by the parts producer to a producer of passenger vehicles, light trucks, or heavy trucks. Such purchases must also include steel and aluminum purchases for major stampings that form the ''body in white'' or chassis frame, regardless of whether the vehicle producer or parts producer makes such purchases.

(4) The requirement set out in subsection (1) applies to steel and aluminum purchased for use in the production of passenger vehicles, light trucks or heavy trucks. Subsection (1) does not apply to steel and aluminum purchased by a producer for other uses, such as the production of other vehicles, tools, dies or molds.

(5) For the purpose subsection (1), as it applies to a steel good set out in Table S, a good is originating if:

(a) Beginning on July 1, 2020 until June 30, 2027 the good satisfies the applicable requirements established in Schedule I (PSRO Annex) or section 13 and all other applicable requirements of these Regulations; or

(b) beginning on July 1, 2027 the good satisfies all other applicable requirements of these Regulations, and provided that all steel manufacturing processes occur in one or more of the USMCA countries, except for metallurgical processes involving the refinement of steel additives. Such steel manufacturing processes include the initial melting and mixing and continues through the coating stage. This requirement does not apply to raw materials of used in the steel manufacturing process, including iron ore or reduced, processed, or pelletized iron ore of heading 26.01, pig iron of heading 72.01, raw alloys of heading 72.02 or steel scrap of heading 72.04.

(6) The vehicle producer may calculate the value of steel and aluminum purchases in subsection (1) by the following methods:

(a) For steel or aluminum imported or acquired in the territory of a USMCA country:

(i) The price paid or payable by the producer in the USMCA country where the producer is located;

(ii) the net cost of the material at the time of importation; or

(iii) the transaction value of the material at the time of importation.

(b) For steel or aluminum that is self-produced:

(i) All costs incurred in the production of materials, which includes general expenses, and

(ii) an amount equivalent to the profit added in the normal course of trade, or equal to the profit that is usually reflected in the sale of goods of the same class or kind as the self-produced material that is being valued.

(7) For the purpose of determining the vehicle producer's purchases of steel or aluminum in subsection 17(1), the producer may calculate the purchases:

(a) Over the previous fiscal year of the producer;

(b) over the previous calendar year;

(c) over the quarter or month to date in which the vehicle is exported;

(d) over the producer's fiscal year to date in which the vehicle is exported; or

(e) over the calendar year to date in which the vehicle is exported.

(8) If the producer chooses to base a steel or aluminum calculation on paragraph (7)(c), (d) or (e), that calculation may be based on the producer's estimated purchases for the applicable period.

(9) For the purpose of determining the vehicle producer's purchases of steel or aluminum in subsection (1), the producer may calculate the purchases on the basis of:

(a) All motor vehicles produced in one or more plants in the territory of one or more USMCA countries;

(b) all motor vehicles exported to the territory of one or more USMCA countries;

(c) all motor vehicles in a category set out in subsection 16(1) that are produced in one

or more plants in the territory of one or more USMCA countries; or,

(d) all motor vehicles in a category set out in subsection 16(1) exported to the territory of one or more USMCA countries.

(10) The producer may choose different periods for the purpose of its steel and aluminum calculations.

(11) If the producer of a passenger vehicle, light truck, or heavy truck has calculated steel or aluminum purchases on the basis of estimates before or during the applicable period, the producer must conduct an analysis at the end of the producer's fiscal year of the actual purchases made over the period with respect to the production of the vehicle, and, if the passenger vehicle, light truck, or heavy truck does not satisfy the steel or aluminum requirement on the basis of the actual purchases, immediately inform any person to whom the producer has provided a certification of origin for the vehicle, or a written statement that the vehicle is an originating good, that the vehicle is a non-originating good.

SECTION 18: LABOR VALUE CONTENT

Labor Value Content Requirements for Passenger Vehicles

(1) In addition to the requirements in sections 13 through 17 and Schedule I (PSRO Annex), a passenger vehicle is originating only if the vehicle producer certifies that the passenger vehicle meets a Labor Value Content (LVC) requirement of:

(a) 30 percent, consisting of at least 15 percentage points of high-wage material and labor expenditures, no more than 10 percentage points of technology expenditures, and no more than 5 percentage points of high-wage assembly expenditures, beginning on July 1, 2020 until June 30, 2021;

(b) 33 percent, consisting of at least 18 percentage points of high-wage material and labor expenditures, no more than 10 percentage points of technology expenditures, and no more than 5 percentage points of high-wage assembly expenditures, beginning on July 1, 2021 until June 30, 2022;

(c) 36 percent, consisting of at least 21 percentage points of high-wage material and labor expenditures, no more than 10 percentage points of technology expenditures, and no more than 5 percentage points of high-wage assembly expenditures, beginning on July 1, 2022 until June 30, 2023; or

(d) 40 percent, consisting of at least 25 percentage points of high-wage material and labor expenditures, no more than 10 percentage points of technology expenditures, and no more than 5 percentage points of high-wage assembly expenditures, beginning on July 1, 2023, and thereafter.

LVC Requirement Related to Light Trucks or Heavy Trucks

(2) In addition to the requirements set out in sections 13 through 17 and Schedule I (PSRO Annex), a light truck or heavy truck is originating only if the vehicle producer certifies that the truck meets an LVC requirement of 45 percent, consisting of at least 30 percentage points based on high-wage material and labor expenditures, no more than 10 percentage points based on technology expenditures, and no more than 5 percentage points based on high-wage assembly expenditures.

Calculation of LVC Requirement

(3) For purposes of an LVC calculation for a passenger vehicle, light truck or heavy truck, a producer may include:

(a) An amount for high-wage materials used in production;

(b) an amount for high-wage labor costs incurred in the assembly of the vehicle;

(c) an amount for high-wage transportation or related costs for shipping materials to the location of the vehicle producer, if not included in the amount for high-wage materials;

(d) a credit for technology expenditures; and

(e) a credit for high-wage assembly expenditures.

(4) *High wage materials.* The amount that may be included for high-wage materials used in production is the net cost or the annual purchase value of materials that undergo production in a qualifying-wage-rate production plant and that are used in the production of passenger vehicles, light trucks or heavy trucks in a plant located in the territory of a USMCA country.

(5) A plant engaged in the production of vehicles or parts may be certified as a qualifying wage-rate vehicle assembly plant or a qualifying-wage-rate production plant based on the average wage paid to direct production workers at the plant for July 1 to December 31, 2020, or for July 1 to June 30, 2021. In subsequent periods, the certification of a qualifying-wage-rate production plant based on period less than 12 months is valid for the following period of the same length. The certification of a qualifying-wage-rate production plant based on a 12-month period is valid for the following 12 months.

(6) For the purpose of meeting the Labor Value Content requirement a producer may use one of the following formulas:

(a) Formula based on net cost

$$LVC = \frac{((HWLC + HWM) \times 100) + HWTC + HWAC}{NC}$$

(b) Formula based on total annual purchase value

$$LVC = \frac{((APV + HWLC^*) \times 100) + HWTC + HWAC}{(TAPV + HWLC^*)}$$

*HWLC is included in the numerator at the choice of the producer and, if included, must also be included in the denominator

Where:

APV is the annual purchase value of high-wage material expenditures

HWAC is the credit for high-wage assembly expenditures;

HWLC is the sum of the high-wage labor costs incurred in the assembly of the vehicle;

HWM is the sum or the high-wage material expenditures used in production;

HWTC is the credit for high-wage technology expenditures;

HWT is the high-wage transportation or related costs for shipping materials used in production, if not included in the amount for HWM;

NC is the net cost of the vehicle, and

TAPV is the total vehicle plant assembly annual purchase value of parts and materials for use in the production of the vehicle

High Wage Material Expenditures

(7) The high wage material expenditures may be calculated as sum of the following values:

(a) The annual purchase value (APV) or net cost, depending on the formula used, of a self-produced high-wage material used in the production of a vehicle;

(b) the APV or net cost, depending on the formula used, of an imported or acquired high-wage material used in the production of a vehicle;

(c) the APV or net cost, depending on the formula used, of a high-wage material used in the production of a part or material that is used in the production of an intermediate or self-produced part that is subsequently used in the production of a vehicle; and

(d) the APV or net cost depending on the formula used of a high wage material used in the production of a part or material that is subsequently used in the production of a vehicle.

(8) It is suggested, but not required, that the vehicle producer calculate the high-wage material and labor expenditures in the order described in paragraph (7). A vehicle producer need not calculate the elements in paragraphs 7(b) to (d) if the previous element or elements is sufficient to meet the LVC requirement.

High-Wage Technology Expenditures Credit

(9) The high-wage technology expenditures credit (HWTC) is based on annual vehicle producer expenditures at the corporate level in one or more USMCA countries on wages paid by the producer for research and development (R&D) or information technology (IT), calculated as a percentage of total annual vehicle producer expenditures on wages paid to direct production workers in one or more USMCA countries. Expenditures on capital or other non-wage costs for R&D or IT are not included.

(10) To determine the high-wage technology expenditures credit (HWTC), the following formula may be used:

$$HWTC = \frac{\text{Annual producer expenditures for R\&D or IT}}{\text{Total annual vehicle production expenditures}} \times 100$$

Where
HWTC is the credit for high-wage technology expenditures, expressed as a percentage;

(11) For the purposes of subsection 14(10), expenditures on wages for R&D include wage expenditures on research and development including prototype development, design, engineering, testing, or certifying operations.

High-Wage Assembly Credit

(12) A high-wage assembly credit of five percentage points may be included in the LVC for passenger vehicles or light trucks produced by a producer that operates a high-wage assembly plant for passenger vehicle or light truck parts or has a long-term supply contract for those parts (*i.e.* a contract with a minimum of three years) with such a plant.

(13) A high-wage assembly credit of five percentage points may be included in the LVC for heavy trucks produced by a producer that operates a high-wage assembly plant for heavy truck parts or has a long-term supply contract (*i.e.,* a contract with a minimum of three years) for those parts with such a plant.

(14) A high-wage assembly plant for passenger vehicle, light truck, or heavy truck parts need only have the capacity to produce the minimum amount of originating parts specified in the definition. There is no need to maintain or provide records or other documents that certify such parts are originating, as long as information demonstrating the capacity to produce these minimum amounts is maintained and can be provided.

Averaging for LVC Requirement

(15) For the purpose of calculating the LVC of a passenger vehicle, light truck or heavy truck, the producer may elect to average the calculation using any one of the following categories, on the basis of either all vehicles in the category or only those vehicles in the category that are exported to the territory of one or more of the other USMCA countries:

(a) The same model line of vehicles in the same class of vehicles produced in the same plant in the territory of a USMCA country;

(b) the same class of vehicles produced in the same plant in the territory of a USMCA country;

(c) the same model line of vehicles or same class of vehicles produced in the territory of a USMCA country;

(d) any other category as the USMCA countries may decide.

(16) An election made under subsection (15) must

(a) state the category chosen by the producer, and

(i) if the category referred to in paragraph (15)(a) is chosen, state the model line, model name, class of vehicle and tariff classification of the vehicles in that category, and the location of the plant at which the vehicles are produced,

(ii) if the category referred to in paragraph (15)(b) is chosen, state the model name, class of vehicle and tariff classification of the vehicles in that category, and the location of the plant at which the vehicles are produced, and

(iii) if the category referred to in paragraph (15)(c) is chosen, state the model line, model name, class of vehicle and tariff classification of the vehicles in that category, and the locations of the plants at which the vehicles are produced;

(b) state whether the basis of the calculation is all vehicles in the category or only those vehicles in the category that are exported to the territory of one or more of the other USMCA countries;

(c) state the producer's name and address;

(d) state the period with respect to which the election is made, including the starting and ending dates;

(e) state the estimated labor value content of vehicles in the category on the basis stated under paragraph (b);

(f) be dated and signed by an authorized officer of the producer; and

(g) be filed with the customs administration of each USMCA country to which vehicles in that category are to be exported during the period covered by the election, by July 31, 2020, and subsequently at least 10 days before the first day of the producer's fiscal year, or such shorter period as that customs administration may accept.

(17) An election filed for the vehicles referred to in subsection (16) may not be

(a) rescinded; or

(b) modified with respect to the category or basis of calculation.

(18) For purposes of this section, if a producer files an election under paragraph (16)(a), it must include the labor value content and the net cost of the producer's passenger vehicles, light trucks or heavy trucks, calculated under one of the categories set out in subsection (15), with respect to

(a) all vehicles that fall within the category chosen by the producer, or

(b) those vehicles to be exported to the territory of one or more of the USMCA countries that fall within the category chosen by the producer.

LVC Periods

(19) For the purposes of determining the LVC in this section, the producer may base the calculation on the following periods:

(a) The previous fiscal year of the producer;

(b) the previous calendar year;

(c) the quarter or month to date in which the vehicle is produced or exported;

(d) the producer's fiscal year to date in which the vehicle is produced or exported; or

(e) the calendar year to date in which the vehicle is produced or exported.

Transportation and Related Costs

(20) High-wage transportation or related costs for shipping may be included in a producer's LVC calculation, if not included in the amount for high-wage materials. Alternatively, a producer may aggregate such costs within the territories of one or more of the USMCA countries. Based on this aggregate amount, the producer may attribute an amount for transportation or related costs for shipping for purposes of the LVC calculation. Transportation or related costs for shipping incurred in transporting a material from outside the territories of the USMCA countries to the territory of a USMCA country are not included in this calculation.

Value of Materials for LVC Purposes

(21) The value of both originating and non-originating materials must be taken into account for the purpose of calculating the labor value content of a good. For greater certainty, the full value of a non-originating material that has undergone production in a qualifying-wage-rate production plant may be included in the HWM described in subsection 6.

Excess LVC May Be Used Towards RVC Requirement for Heavy Trucks

(22) For the period ending July 1, 2027, if a producer certifies a Labor Value Content for a heavy truck that is higher than 45 percent by increasing the amount of high wage material and manufacturing expenditures above 30 percentage points, the producer may use the points above 30 percentage points as a credit towards the regional value content percentages under section 13, provided that the regional value content percentage is not below 60 percent.

SECTION 19: ALTERNATIVE STAGING REGIME

(1) For the purposes of this section, eligible vehicles means passenger vehicles or light trucks for which an alternative staging regime has been approved by the USMCA countries.

(2) Notwithstanding sections 13 through 18, eligible vehicles are subject to the requirements set forth in subsection (4) from July 1, 2020 to June 30, 2025, or any other period provided for in the producer's approved alternative staging regime. Eligible vehicles are also subject to any other applicable requirements established in these Regulations.

(3) Passenger vehicles or light trucks that are not eligible vehicles may qualify as originating under the rules of origin established in sections 13 through 18, and any other applicable requirements established in these Regulations.

(4) Eligible vehicles are considered originating if they meet the following requirements:

(a) A regional value content of not less than 62.5 percent, under the net cost method;

(b) for parts listed in Table A.1, except lithium ion batteries of subheading 8507.60, a regional value content of not less than:

(i) 62.5 percent where the net cost method is used; or

(ii) 72.5 percent where the transaction value method is used if the corresponding rule includes a transaction value method; and

(iii) for lithium-ion batteries of 8507.60, a change from within subheading 8507.60 or from any other subheading for lithium-ion batteries of 8507.60

(c) at least 70 percent of a vehicle producer's purchases of steel and at least 70 percent of a vehicle producer's purchases of aluminum, by value, must qualify as originating under the rules of origin established in Schedule I (PSRO Annex). This requirement will not apply to vehicle producers that have an exemption under an approved alternative staging regime from having to satisfy this requirement; and

(d) a labor value content of at least 25 percent, consisting of at least ten percentage points of high-wage material and manufacturing expenditures, no more than ten percentage points of high-wage technology expenditures, and no more than five percentage points of high-wage assembly expenditures.

(5) Eligible vehicles are exempt from the core parts requirement set out in section 14.

(6) All methods and calculations for the requirements applicable to eligible vehicles must be based on the applicable provisions in these Regulations.

(7) Vehicles that are presently covered under the alternative staging regime described in Article 403.6 of the NAFTA Agreement as of November 30, 2019, may continue to use this regime, including any regulations that were effect prior to entry into force of the USMCA, according to each USMCA country's approval process for use of the alternative staging regime. After the expiration of the period under the Article 403.6 alternative staging period, such vehicles will be eligible for preferential treatment under the requirements described in subsection (4), until the end of the USMCA alternative staging period described in subsection (2). For greater certainty, such vehicles will also be eligible for preferential tariff treatment under the other rules of origin set forth in these regulations.

SECTION 20: REGIONAL VALUE CONTENT FOR OTHER VEHICLES

(1) The value of non-originating materials used by the producer in the production of

other vehicles and parts thereof must not, for the purpose of calculating the regional value content of the good, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good.

(2) Notwithstanding section 13 and Schedule I (PSRO Annex), the regional value content requirement is 62.5 percent under the net cost method for:

(a) A motor vehicle for the transport of 15 or fewer persons of subheading 8702.10 or 8702.90;

(b) a passenger vehicle with a compression-ignition engine as the primary motor of propulsion of subheading 8703.21 through 8703.90,

(c) a three or four-wheeled motorcycle of subheading 8703.21 through 8703.90,

(d) a motorhome or entertainer coach of subheading 8703.21 through 8703.90;

(e) an ambulance, a hearse, a prison van of subheading 8703.21 through 8703.90;

(f) a vehicle solely principally for off-road use of subheading 8703.21 through 8703.90; or

(g) a vehicle of subheading 8704.21 or 8704.31 that is solely or principally for off-road use; and

(h) a good of heading 84.07 or 84.08, or subheading 8708.40, that is for use in a motor vehicle in paragraphs (a) through (g).

(3) Notwithstanding section 13 and Schedule I (PSRO Annex), the regional value content requirement is 60 percent under the net cost method for:

(a) A good that is:

(i) A motor vehicle of heading 87.01, except for subheading 8701.20;

(ii) a motor vehicle for the transport of 16 or more persons of subheading 8702.10 or 8702.90;

(iii) a motor vehicle of subheading 8704.10;

(iv) a motor vehicle of subheading 8704.22, 8704.23, 8704.32, or 8704.90 that is solely or principally for off-road use;

(v) a motor vehicle of heading 87.05; or,

(vi) a good of heading 87.06 that is not for use in a passenger vehicle, light truck, or heavy truck;

(b) a good of heading 84.07 or 84.08, or subheading 8708.40, that is for use in a motor vehicle in paragraph (3)(a); or

(c) except for a good in paragraph (3)(b) or of subheading 8482.10 through 8482.80, 8483.20, or 8483.30, a good in Table F that is subject to a regional value content requirement and that is for use in a motor vehicle in paragraphs (2)(a) through (g) or (3)(a).

(4) For the purpose of calculating the regional value content under the net cost method for a good that is a motor vehicle provided for in paragraphs (2)(a) through (g) or (3)(a), a good listed in Table F for use as original equipment in the production of a good in paragraphs (2)(a) through (g), or a component listed in Table G for use as original equipment in the production of the motor vehicle in paragraph (3)(a), the value of non-originating materials used by the producer in the production of the good must be the sum of:

(a) For each material used by the producer listed in Table F or Table G, whether or not produced by the producer, at the choice of the producer and determined in accordance with section 7 (Regional Value Content), either

(i) the value of such material that is non-originating, or

(ii) the value of non-originating materials used in the production of such material; and

(b) the value of any other non-originating material used by the producer that is not listed in Table F or Table G, determined in accordance with section 7 (Regional Value Content).

(5) For greater certainty, notwithstanding subsection (4), for purposes of a good that is a motor vehicle provided for in paragraphs (2)(a) through (g) or (3)(a), the value of non-originating materials is the sum of the values of all non-originating materials used by the producer in the production of the vehicle.

(6) For the purpose of calculating the regional value content of a motor vehicle covered by subsections (2) or (3), the producer may average its calculation over its fiscal year, using any one of the following categories, on the basis of either all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of one or more of the other USMCA countries:

(a) The same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a USMCA country;

(b) the same class of motor vehicles produced in the same plant in the territory of a USMCA country; or

(c) the same model line of motor vehicles produced in the territory of a USMCA country.

(7) For the purpose of calculating the regional value content for a good listed in Table F, or a component or material listed in Table G, produced in the same plant, the producer of the good may:

(a) Average its calculation:

(i) Over the fiscal year of the motor vehicle producer to whom the good is sold,

(ii) over any quarter or month, or

(iii) over its fiscal year, if the good is sold as an aftermarket part;

(b) calculate the average referred to in paragraph (a) separately for a good sold to one or more motor vehicle producers; or

(c) with respect to any calculation under this subsection, calculate the average separately for goods that are exported to the territory of one or more of the USMCA countries.

(8) The regional value content requirement for a motor vehicle identified in subsection (2) or (3) is:

(a) 50 percent for five years after the date on which the first motor vehicle prototype is produced in a plant by a motor vehicle assembler, if:

(i) It is a motor vehicle of a class, or marque, or, except for a motor vehicle identified in subsection (3), size category and underbody, not previously produced by the motor vehicle assembler in the territory of any of the USMCA countries,

(ii) the plant consists of a new building in which the motor vehicle is assembled, and

(iii) the plant contains substantially all new machinery that is used in the assembly of the motor vehicle; or

(b) 50 percent for two years after the date on which the first motor vehicle prototype is produced at a plant following a refit, if it is a different motor vehicle of a class, or marque, or, except for a motor vehicle identified in subsection (3), size category and underbody, that was assembled by the motor vehicle assembler in the plant before the refit.

Note: The Regional Value Content requirements set out in sections 13 or 14 or Schedule I (PSRO Annex) apply to a good for use as original equipment in the production of a passenger vehicle or light truck. For an aftermarket part, the applicable product-specific rule of origin set out in section 13 or 14 or Schedule I (PSRO Annex) is the alternative that includes the phrase ''for any other good.''

TABLE A.1—CORE PARTS FOR PASSENGER VEHICLES AND LIGHT TRUCKS

HS 2012	Description
8407.31	Reciprocating piston engines of a kind used for the propulsion of passenger vehicles of Chapter 87, of a cylinder capacity not exceeding 50 cc.
8407.32	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 50 cc but not exceeding 250 cc.
8407.33	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 250 cc but not exceeding 1,000 cc.
8407.34	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 1,000 cc.
Ex 8408.20	Compression-ignition internal combustion piston engines of a kind used for the propulsion of vehicles of subheading 8704.21 or 8704.31.
8409.91	Parts suitable for use solely or principally with the engines of heading 84.07 or 84.08, suitable for use solely or principally with spark-ignition internal combustion piston engines.
8409.99	Parts suitable for use solely or principally with the engines of heading 84.07 or 84.08, other.
8507.60	Lithium-ion batteries that are used as the primary source of electrical power for the propulsion of an electric passenger vehicle or electric light truck.
8706.00	Chassis fitted with engines, for the motor vehicles of heading 87.03 or subheading 8704.21 or 8704.31.
8707.10	Bodies for the vehicles of heading 87.03.
8707.90	Bodies for the vehicles of subheading 8704.21 or 8704.31.
Ex 8708.29	Body stampings.
8708.40	Gear boxes and parts thereof.
8708.50	Drive axles with differential, whether or not provided with other transmission components, and non-driving axles; parts thereof.
8708.80	Suspension systems and parts thereof (including shock absorbers).
8708.94	Steering wheels, steering columns, and steering boxes; parts thereof.
Ex 8708.99	Chassis frames.

The following table sets out the parts and components applicable to Table A.2 and their related tariff provisions, to facilitate implementation of the core parts requirement pursuant to Article 3.7 of the Appendix to the Annex 4–B of the Agreement.

These parts, and components used to produce such parts, are for the production of a passenger vehicle or light truck in order to meet the requirements under Section 14. The prefix ''ex'' is used to indicate that only the parts described in the components column and used in the production of parts for use as original equipment in a passenger vehicle or light truck are taken into consideration when performing the calculation.

TABLE A.2—PARTS AND COMPONENTS FOR DETERMINING THE ORIGIN OF PASSENGER VEHICLES AND LIGHT TRUCKS UNDER SECTIONS 13 OR 14 OR SCHEDULE I (PSRO ANNEX)

Column 1 *(the parts listed in this column may be referred to collectively as a super-core part)*	Column 2	
Parts	Components	6-Digit HS Subheading
Engines	Spark-ignition reciprocating or rotary internal combustion piston engines and Compression-ignition internal combustion piston engines (diesel or semi-diesel engines).	ex 8407.33, ex 8407.34, ex 8408.20.
	Heads	ex 8409.91, ex 8409.99.
	Blocks	ex 8409.91, ex 8409.99.
	Crankshafts	ex 8483.10.
	Crankcases	ex 8409.91, ex 8409.99.
	Pistons	ex 8409.91.
	Rods	ex 8409.91, ex 8409.99.
	Head subassembly	ex 8409.91, ex 8409.99.
Transmissions	Gear boxes	ex 8708.40.
	Transmission cases	ex 8708.40.
	Torque converters	ex 8708.40, ex 8483.90.
	Torque converter housings	ex 8708.40, ex 8483.90.
	Gears and gear blanks	ex 8708.40, ex 8483.90.
	Clutches, including continuously variable transmissions, but not parts thereof.	ex 8708.93.
	Valve body assembly	ex 8481.90, ex 8708.40.
Body and Chassis	Major stampings that form the ''body in white'' or chassis frame.	ex 8707.10, ex 8707.90, ex 8708.29, ex 8708.99.
	Major body panel stampings	ex 8708.10, ex 8708.29.
	Secondary panel stampings	ex 8708.29.
	Structural panel stampings	ex 8708.29, ex 8708.99.
	Stamped Frame components	ex 8708.29, ex 8708.99.
Axles	Drive-axles with differential, whether or not provided with other transmission components, and non-driving axles.	ex 8708.50.
	Axle shafts	ex 8708.50.
	Axle housings	ex 8708.50.
	Axle hubs	ex 8482.10, ex 8482.20, ex 8708.50, ex 8708.99.
	Carriers	ex 8708.50.
	Differentials	ex 8708.50.
Suspension Systems	Suspension systems (including shock absorbers)	ex 8708.80.
	Shock absorbers	ex 8708.80.
	Struts	ex 8708.80.
	Control arms	ex 8708.80.
	Sway bars	ex 8708.80.
	Knuckles	ex 8708.80.
	Coil springs	ex 7320.20.
	Leaf springs	ex 7320.10.
Steering Systems	Steering wheels, steering columns and steering boxes	ex 8708.94.
	Steering columns	ex 8708.94.
	Steering gears/racks	ex 8708.94.
	Control units	ex 8537.10, ex 8537.90, ex 8543.70.
Advanced Batteries	Batteries of a kind used as the primary source for the propulsion of electrical power for electrically powered vehicles for passenger vehicles and light trucks.	ex 8507.60, ex 8507.80.
	Cells	ex 8507.60, ex 8507.80, ex 8507.90.
	Modules/arrays	ex 8507.60, ex 8507.80, ex 8507.90.
	Assembled packs	ex 8507.60, ex 8507.80.

Note: The Regional Value Content requirements set out in section 13 or 14 or Schedule I (PSRO Annex) apply to a good for use as original equipment in the production of a passenger vehicle or light truck.

For an aftermarket part, the applicable product-specific rule of origin set out in section 13 or 14 or Schedule I (PSRO Annex) is the alternative that includes the phrase ''for any other good.''

TABLE B—PRINCIPAL PARTS FOR PASSENGER VEHICLES AND LIGHT TRUCKS

HS 2012	Description
8413.30	Fuel, lubricating or cooling medium pumps for internal combustion piston engines.
8413.50	Other reciprocating positive displacement pumps.
8414.59	Other fans.
8414.80	Other air or gas pumps, compressors and fans.
8415.20	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which humidity cannot be separately regulated, of a kind used for persons, in motor vehicles.
Ex 8479.89	Electronic brake systems, including ABS and ESC systems.
8482.10	Ball bearings.
8482.20	Tapered roller bearings, including cone and tapered roller assemblies.
8482.30	Spherical roller bearings.
8482.40	Needle roller bearings.
8482.50	Other cylindrical roller bearings.
8482.80	Other ball or roller bearings, including combined ball/roller bearings.
8483.10	Transmission shafts (including cam shafts and crank shafts) and cranks.
8483.20	Bearing housings, incorporating ball or roller bearings.
8483.30	Bearing housings, not incorporating ball or roller bearings; plain shaft bearings.
8483.40	Gears and gearing, other than toothed wheels, chain sprockets and other transmission elements presented separately; ball or roller screws; gear boxes and other speed changers, including torque converters.
8483.50	Flywheels and pulleys, including pulley blocks.
8483.60	Clutches and shaft couplings (including universal joints).
8501.32	Other DC motors and generators of an output exceeding 750 W but not exceeding 75 kW.
8501.33	Other DC motors and generators of an output exceeding 75 kW but not exceeding 375 kW.
8505.20	Electro-magnetic couplings, clutches and brakes.
8505.90	Other electro-magnets; electro-magnetic or permanent magnet chucks, clamps and similar holding devices; electro-magnetic lifting heads; including parts.
8511.40	Starter motors and dual purpose starter-generators of a kind used for spark-ignition or compression-ignition internal combustion engines.
8511.50	Other generators.
8511.80	Other electrical ignition or starting equipment of a kind used for spark-ignition or compression-ignition internal combustion engines.
Ex 8511.90	Parts of electrical ignition or starting equipment of a kind used for spark-ignition or compression-ignition internal combustion engines.
8537.10	Electric controls for a voltage not exceeding 1,000 V.
8708.10	Bumpers and parts thereof.
8708.21	Safety seat belts.
Ex 8708.29	Other parts and accessories of bodies (including cabs) of motor vehicles (excluding body stampings).
8708.30	Brakes and servo-brakes; parts thereof.
8708.70	Road wheels and parts and accessories thereof.
8708.91	Radiators and parts thereof.
8708.92	Silencers (mufflers) and exhaust pipes; parts thereof.
8708.93	Clutches and parts thereof.
8708.95	Safety airbags with inflator system; parts thereof.
Ex 8708.99	Other parts and accessories of motor vehicles of headings 87.01 to 87.05 (excluding chassis frames).
9401.20	Seats of a kind used for motor vehicles.

Note: The Regional Value Content requirements set out in sections 13 or 14 or Schedule I (PSRO Annex) apply to a good for use as original equipment in the production of a passenger vehicle or light truck. For an aftermarket part, the applicable product-specific rule of origin set out in section 13 or 14 or Schedule I (PSRO Annex) is the alternative that includes the phrase ''for any other good.''

TABLE C—COMPLEMENTARY PARTS FOR PASSENGER VEHICLES AND LIGHT TRUCKS

HS 2012	Description
4009.12	Tubes, pipes and hoses of vulcanised rubber other than hard rubber, not reinforced or otherwise combined with other materials, with fittings.
4009.22	Tubes, pipes and hoses of vulcanised rubber other than hard rubber, reinforced or otherwise combined only with metal, with fittings.
4009.32	Tubes, pipes and hoses of vulcanised rubber other than hard rubber, reinforced or otherwise combined only with textile materials, with fittings.
4009.42	Tubes, pipes and hoses of vulcanised rubber other than hard rubber, reinforced or otherwise combined with other materials, with fittings.
8301.20	Locks of a kind used for motor vehicles.
Ex 8421.39	Catalytic converters.
8481.20	Valves for oleohydraulic or pneumatic transmissions.
8481.30	Check (nonreturn) valves.

TABLE C—COMPLEMENTARY PARTS FOR PASSENGER VEHICLES AND LIGHT TRUCKS—Continued

HS 2012	Description
8481.80	Other taps, cocks, valves and similar appliances, including pressure-reducing valves and thermostatically controlled valves.
8501.10	Electric motors of an output not exceeding 37.5 W.
8501.20	Universal AC/DC motors of an output exceeding 37.5 W.
8501.31	Other DC motors and generators of an output not exceeding 750 W.
Ex 8507.20	Other lead-acid batteries of a kind used for the propulsion of motor vehicles of Chapter 87.
Ex 8507.30	Nickel-cadmium batteries of a kind used for the propulsion of motor vehicles of Chapter 87.
Ex 8507.40	Nickel-iron batteries of a kind used for the propulsion of motor vehicles of Chapter 87.
Ex 8507.80	Other batteries of a kind used for the propulsion of motor vehicles of Chapter 87.
8511.30	Distributors; ignition coils.
8512.20	Other lighting or visual signalling equipment.
8512.40	Windshield wipers, defrosters and demisters.
Ex 8519.81	Cassette decks.
8536.50	Other electrical switches, for a voltage not exceeding 1,000 V.
Ex 8536.90	Junction boxes.
8539.10	Sealed beam lamp units.
8539.21	Tungsten halogen filament lamp.
8544.30	Ignition wiring sets and other wiring sets of a kind used in motor vehicles.
9031.80	Other measuring and checking instruments, appliances & machines.
9032.89	Other automatic regulating or controlling instruments and apparatus.

Note: The Regional Value Content requirements set out in sections 13 or 15 or Schedule I (PSRO Annex) apply to a good for use as original equipment in the production of a heavy truck. For an aftermarket part, the applicable product-specific rule of origin set out in section 13 or Schedule I (PSRO Annex) is the alternative that includes the phrase ''for any other good.''

TABLE D—PRINCIPAL PARTS FOR HEAVY TRUCKS

8407.31	Reciprocating piston engines of a kind used for the propulsion of passenger vehicles of Chapter 87, of a cylinder capacity not exceeding 50 cc.
8407.32	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 50 cc but not exceeding 250 cc.
8407.33	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 250 cc but not exceeding 1,000 cc.
8407.34	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 1,000 cc.
8408.20	Compression-ignition internal combustion piston engines of a kind used for the propulsion of vehicles of Chapter 87.
8409.91	Parts suitable for use solely or principally with the engines of heading 84.07 or 84.08, suitable for use solely or principally with spark-ignition internal combustion piston engines.
8409.99	Parts suitable for use solely or principally with the engines of heading 84.07 or 84.08, other.
8413.30	Fuel, lubricating or cooling medium pumps for internal combustion piston engines.
Ex 8414.59	Turbochargers and superchargers.
8414.80	Other air or gas pumps, compressors and fans.
8415.20	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which humidity cannot be separately regulated, of a kind used for persons, in motor vehicles.
8483.10	Transmission shafts (including cam shafts and crank shafts) and cranks.
8483.40	Gears and gearing, other than toothed wheels, chain sprockets and other transmission elements presented separately; ball or roller screws; gear boxes and other speed changers, including torque converters.
8483.50	Flywheels and pulleys, including pulley blocks.

TABLE D—PRINCIPAL PARTS FOR HEAVY TRUCKS—Continued

Ex 8501.32 ...	Other DC motors and generators of an output exceeding 750 W but not exceeding 75 kW, of a kind used for the propulsion of motor vehicles of Chapter 87.
8511.40	Starter motors and dual purpose starter-generators of a kind used for spark-ignition or compression-ignition internal combustion engines.
8511.50	Other generators.
8537.10	Electric controls for a voltage not exceeding 1,000 V.
8706.00	Chassis fitted with engines, for the motor vehicles of heading 87.01 through 87.05.
8707.90	Bodies for the vehicles of heading 87.01, 87.02, 87.04 or 87.05.
8708.10	Bumpers and parts thereof.
8708.21	Safety seat belts.
8708.29	Other parts and accessories of bodies (including cabs) of motor vehicles.
8708.30	Brakes and servo-brakes; parts thereof.
8708.40	Gear boxes and parts thereof.
8708.50	Drive axles with differential, whether or not provided with other transmission components, and non-driving axles; and parts thereof.
8708.70	Road wheels and parts and accessories thereof.
8708.80	Suspension systems and parts thereof (including shock absorbers).
8708.91	Radiators and parts thereof.
8708.92	Silencers (mufflers) and exhaust pipes; parts thereof.
8708.93	Clutches and parts thereof.
8708.94	Steering wheels, steering columns and steering boxes; parts thereof.
8708.95	Safety airbags with inflator system; parts thereof.
8708.99	Other parts and accessories of motor vehicles of headings 87.01 to 87.05.
9401.20	Seats of a kind used for motor vehicles.

Note: The Regional Value Content requirements set out in sections 13 or 15 or Schedule I (PSRO Annex) apply to a good for use as original equipment in the production of a heavy truck. For an aftermarket part, the applicable product-specific rule of origin set out in section 13 or Schedule I (PSRO Annex) is the alternative that includes the phrase ''for any other good.''

TABLE E—COMPLEMENTARY PARTS FOR HEAVY TRUCKS

8413.50	Other reciprocating positive displacement pumps.
Ex 8479.89 ...	Electronic brake systems, including ABS and ESC systems.
8482.10	Ball bearings.
8482.20	Tapered roller bearings, including cone and tapered roller assemblies.
8482.30	Spherical roller bearings.
8482.40	Needle roller bearings.
8482.50	Other cylindrical roller bearings.
8483.20	Bearing housings, incorporating ball or roller bearings.
8483.30	Bearing housings, not incorporating ball or roller bearings; plain shaft bearings.
8483.60	Clutches and shaft couplings (including universal joints).
8505.20	Electro-magnetic couplings, clutches and brakes.
8505.90	Other electro-magnets; electro-magnetic or permanent magnet chucks, clamps and similar holding devices; electro-magnetic lifting heads; including parts.
8507.60	Lithium-ion batteries.
8511.80	Other electrical ignition or starting equipment of a kind used for spark-ignition or compression-ignition internal combustion engines.
8511.90	Parts of electrical ignition or starting equipment of a kind used for spark-ignition or compression-ignition internal combustion engines or generators and cut-outs of a kind used in conjunction with such engines.

Note: The Regional Value Content requirements set out in section 20 or Schedule I (PSRO Annex) apply to a good for use in a vehicle specified in subsections 20(2) and 20(3).

TABLE F—PARTS FOR OTHER VEHICLES

HS 2012	Description
40.09	Tubes, pipes and hoses.
4010.31	Endless transmission belts (V-belts), V-ribbed, of an outside circumference exceeding 60 cm but not exceeding 180 cm.
4010.32	Endless transmission belts (V-belts), other than V-ribbed, of an outside circumference exceeding 60 cm but not exceeding 180 cm.
4010.33	Endless transmission belts (V-belts), V-ribbed, of an outside circumference exceeding 180 cm but not exceeding 240 cm.
4010.34	Endless transmission belts (V-belts), other than V-ribbed, of an outside circumference exceeding 180 cm but not exceeding 240 cm.
4010.39.aa	Other endless transmission belts (V-belts).
40.11	New pneumatic tires, of rubber.
4016.93.aa	Gaskets, washers and other seals of vulcanised rubber other than hard rubber.
4016.99.aa	Vibration control goods.
7007.11	Toughened (tempered) safety glass of a size and shape suitable for incorporation in vehicles.
7007.21	Laminated safety glass of a size and shape suitable for incorporation in vehicles.
7009.10	Rearview mirrors for vehicles.
8301.20	Locks of a kind used for motor vehicles.
8407.31	Reciprocating piston engines of a kind used for the propulsion of passenger vehicles of Chapter 87, of a cylinder capacity not exceeding 50 cc.
8407.32	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 50 cc but not exceeding 250 cc.
8407.33	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 250 cc but not exceeding 1,000 cc.
8407.34.aa	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 1,000 cc but not exceeding 2,000 cc.
8407.34.bb	Reciprocating piston engines of a kind used for the propulsion of vehicles of Chapter 87, of a cylinder capacity exceeding 2,000 cc.
8408.20	Compression-ignition internal combustion piston engines of a kind used for the propulsion of vehicles of Chapter 87.
84.09	Parts suitable for use solely or principally with spark-ignition internal combustion piston engines.
8413.30	Fuel, lubricating or cooling medium pumps for internal combustion piston engines.
8414.80.aa	Other air or gas pumps, compressors and fans (turbochargers and superchargers for motor vehicles, where not provided for under subheading 8414.59).
8414.59.aa	Other fans (turbochargers and superchargers for motor vehicles, where not provided for under subheading 8414.80).
8415.20	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which humidity cannot be separately regulated, of a kind used for persons, in motor vehicles.
8421.39.aa	Catalytic converters.
8481.20	Valves for oleohydraulic or pneumatic transmissions.
8481.30	Check (nonreturn) valves.
8481.80	Other taps, cocks, valves and similar appliances, including pressure-reducing valves and thermostatically controlled valves.
8482.10 through 8482.80	Ball or roller bearings.
8483.10	Transmission shafts (including cam shafts and crank shafts) and cranks.
8483.20	Bearing housings, incorporating ball or roller bearings.
8483.30	Bearing housings; not incorporating ball or roller bearings; plain shaft bearings.
8483.40	Gears and gearing, other than toothed wheels, chain sprockets and other transmission elements presented separately; ball or roller screws; gear boxes and other speed changes, including torque converters.
8483.50	Flywheels and pulleys, including pulley blocks.
8501.10	Electric motors and generators of an output not exceeding 37.5 W.
8501.20	Universal AC/DC motors of an output exceeding 37.5 W.
8501.31	Other DC motors and generators of an output not exceeding 750 W.
8501.32.aa	Other DC motors and generators of an output exceeding 750 W but not exceeding 75 kW of a kind used for the propulsion of vehicles of Chapter 87.
8507.20.aa, 8507.30.aa, 8507.40.aa and 8507.80.aa.	Batteries that provide primary source for electric cars.
8511.30	Distributors; ignition coils.
8511.40	Starter motors and dual purpose starter-generators of a kind used for spark-ignition or compressing-ignition internal combustion engines.
8511.50	Other generators.
8512.20	Other lighting or visual signalling equipment.
8512.40	Windshield wipers, defrosters and demisters.
ex 8519.81	Cassette decks.
8527.21	Radios combined with cassette players.
8527.29	Radios.

TABLE F—PARTS FOR OTHER VEHICLES—Continued

HS 2012	Description
8536.50	Other electrical switches, for a voltage not exceeding 1,000 V.
8536.90	Junction boxes.
8537.10.bb	Motor control centers.
8539.10	Sealed beam lamp units.
8539.21	Tungsten halogen filament lamp.
8544.30	Ignition wiring sets and other wiring sets of a kind used in vehicles.
87.06	Chassis fitted with engines, for the motor vehicles of heading 87.01 through 87.05.
87.07	Bodies (including cabs) for the motor vehicles of headings 87.01 to 87.05.
8708.10.aa	Bumpers (but not parts thereof).
8708.21	Safety seat belts.
8708.29.aa	Body stampings.
8708.29.cc	Door assemblies.
8708.30	Brakes and servo-brakes; parts thereof.
8708.40	Gear boxes and parts thereof.
8708.50	Drive axles with differential, whether or not provided with other transmission components, and non-driving axles.
8708.70.aa	Road wheels, but not parts or accessories thereof.
8708.80	Suspension systems and parts thereof (including shock absorbers).
8708.91	Radiators and parts thereof.
8708.92	Silencers (mufflers) and exhaust pipes; parts thereof.
8708.93.aa	Clutches (but not parts thereof).
8708.94	Steering wheels, steering columns and steering boxes; parts thereof.
8708.95	Safety airbags with inflator systems, and parts thereof.
8708.99.aa	Vibration control goods containing rubber.
8708.99.bb	Double flanged wheel hub units incorporating ball bearings.
8708.99.ee	Other parts for powertrains.
8708.99.hh	Other parts and accessories not provided for elsewhere in subheading 8708.99.
9031.80	Other measuring and checking instruments, appliances & machines.
9032.89	Other automatic regulating or controlling instruments and apparatus.
9401.20	Seats of a kind used for motor vehicles.

TABLE G—LIST OF COMPONENTS AND MATERIALS FOR OTHER VEHICLES

1. Component: Engines provided for in heading 84.07 or 84.08

Materials: Cast block, cast head, fuel nozzle, fuel injector pumps, glow plugs, turbochargers and superchargers, electronic engine controls, intake manifold, exhaust manifold, intake/exhaust valves, crankshaft/camshaft, alternator, starter, air cleaner assembly, pistons, connecting rods and assemblies made therefrom (or rotor assemblies for rotary engines), flywheel (for manual transmissions), flexplate (for automatic transmissions), oil pan, oil pump and pressure regulator, water pump, crankshaft and camshaft gears, and radiator assemblies or charge-air coolers.

2. Component: Gear boxes (transmissions) provided for in subheading 8708.40

Materials: (a) For manual transmissions—transmission case and clutch housing; clutch; internal shifting mechanism; gear sets, synchronizers and shafts; and (b) for torque convertor type transmissions—transmission case and convertor housing; torque convertor assembly; gear sets and clutches; and electronic transmission controls.

The following table lists the HS subheadings for steel and aluminum subject to the USMCA steel and aluminum purchasing requirements set out in Section 17 to facilitate implementation of the steel and aluminum purchasing requirement, pursuant to Article 6.3 of the Appendix to Annex 4–B of the Agreement.

The prefix ''ex'' is used to indicate that only goods described in the ''Description'' column are taken into consideration when performing the calculation.

These descriptions cover structural steel or aluminum purchases by vehicle producers used in the production of passenger vehicles, light trucks, or heavy trucks, including all steel or aluminum purchases used for the production of major stampings that form the ''body in white'' or chassis frame as defined in Table A.2 (Parts and Components for Passenger Vehicles and Light Trucks). The descriptions do not cover structural steel or aluminum purchased by parts producers or suppliers used in the production of other automotive parts.

TABLE S—STEEL AND ALUMINUM

S	Description	6-Digit HS subheading(s)
Steel	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, hot-rolled, not clad, plated or coated:	
	Other, in coils, not further worked than hot-rolled, pickled	7208.25, 7208.26, 7208.27.
	Other, in coils, not further worked than hot-rolled	7208.36, 7208.37, 7208.38, 7208.39.
	Other, not in coils, not further worked than hot-rolled	7208.51, 7208.52, 7208.53, 7208.54.
	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, cold-rolled (cold-reduced), not clad, plated or coated:	
	In coils, not further worked than cold-rolled (cold-reduced):	7209.15, 7209.16, 7209.17, 7209.18.
	Not in coils, not further worked than cold-rolled (cold-reduced):	7209.25, 7209.26, 7209.27, 7209.28, 7209.90.
	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, clad, plated or coated:	
	Electrolytically plated or coated with zinc	7210.30.
	Otherwise plated or coated with zinc, Other (Not Corrugated).	7210.49.
	Other plated or coated with aluminum	7210.69.
	Other: Clad; Other: Electrolytically coated or plated with base metal, Other.	7210.90.
	Flat-rolled products of iron or non-alloy steel, of a width of less than 600 mm, not clad, plated or coated:	
	Other, of a thickness of 4.75 mm or more	7211.14.
	Other:	7211.19.
	Not further worked than cold-rolled (cold-reduced), Containing by weight less than 0.25 percent of carbon:	7211.23.
	Flat-rolled products of iron or non-alloy steel, of a width of less than 600 mm, clad, plated or coated:	
	Electrolytically plated or coated with zinc	7212.20.
	Otherwise plated or coated with zinc	7212.30.
	Bars and rods, hot-rolled, in irregularly wound coils, of iron or non-alloy steel.	
	Other, of free-cutting steel	7213.20.
	Other: Other	7213.99.
	Other bars and rods of iron or non-alloy steel, not further worked than forged, hot-rolled, hot-drawn or hot-extruded, but including those twisted after rolling	
	Other, of free-cutting steel	7214.30.
	Of rectangular (other than square) cross-section	7214.91.
	Other: Other	7214.99.
	Flat-rolled products of other alloy steel, of a width of 600 mm or more.	
	Other, not further worked than hot-rolled, in coils:	7225.30.
	Other, not further worked than hot-rolled, not in coils:	7225.40.
	Other, not further worked than cold-rolled (cold-reduced):	7225.50.
	Electrolytically plated or coated with zinc	7225.91.
	Other: Otherwise plated or coated with zinc	7225.92.
	Other: Other	7225.99.
	Flat-rolled products of other alloy steel, of a width of less than 600 mm:	
	Other: Not further worked than hot-rolled: Of tool steel (other than high-speed steel):.	7226.91.
	Not further worked than cold-rolled (cold-reduced):	7226.92.
	Other:	7226.99.
	Bars and rods, hot-rolled, in irregularly wound coils, of other alloy steel.	
	Of silico-manganese steel	7227.20.
	Other	7227.90.
	Other bars and rods of other alloy steel; angles, shapes and sections, of other alloy steel; hollow drill bars and rods, of alloy or non-alloy steel.	
	Bars and rods, of high speed steel	7228.10.
	Bars and rods, of silico-manganese steel	7228.20.
	Other bars and rods, not further worked than hot-rolled, hot-drawn or extruded.	7228.30.
	Other bars and rods	7228.60
	Other tubes, pipes and hollow profiles (for example, open seamed or welded, riveted or similarly closed), of iron or steel:.	

TABLE S—STEEL AND ALUMINUM—Continued

S	Description	6-Digit HS subheading(s)
	Other, welded, of circular cross section, of iron or nonalloy steel:.	7306.30.
	Other, welded, of circular cross section, of other alloy steel:	7306.50.
	Other, welded, of noncircular cross section:	7306.61, 7306.69, ≤7306.90.
	Parts and accessories of the motor vehicles of headings 8701 to 8705:.	
	Major, secondary, and structural body panel stampings, that form the ''body in white''.	ex 8708.29.
	Stamped frame components that form the chassis frame	ex 8708.99.
		HS heading or subheading
Aluminum.		
	Unwrought aluminum	76.01.
	Aluminum waste and scrap	76.02.
	Aluminum bars, rods and profiles	76.04.
	Aluminum wire	76.05.
	Aluminum plates, sheets and strip, of a thickness exceeding 0.2 mm:.	76.06.
	Aluminum tubes and pipes	76.08.
	Parts and accessories of the motor vehicles of headings 8701 to 8705:.	
	Major, secondary, and structural body panel stampings, that form the ''body in white''.	ex 8708.29.
	Stamped frame components that form the chassis frame	ex 8708.99.

SCHEDULE I (PSRO ANNEX)

1. This schedule is deemed to be the contents of Sections A, B and C of Annex 4–B of the Agreement, as implemented in General Note 11 of the Harmonized Tariff Schedule of the United States,[3] except that the following rules of interpretation apply:

(a) For the purpose of Chapter 61, Note 2 or Chapter 62, Note 3 of Annex 4–B, a fabric of subheading 5806.20 or heading 60.02 is considered formed from yarn and finished in the territory of one or more Parties if all production processes and finishing operations, starting with the weaving, knitting, needling, tufting, or other process, and ending with the fabric ready for cutting or assembly without further processing, took place in the territories of one or more of the USMCA countries, even if non-originating yarn is used in the production of the fabric of subheading 5806.20 or heading 60.02;

(b) for the purposes of Chapter 61, Note 3 and Chapter 62, Note 4 of Annex 4–B, sewing thread is considered formed and finished in the territory of one or more Parties if all production processes and finishing operations, starting with the extrusion of filaments, strips, film or sheet, and including slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with the finished single or plied thread ready for use for sewing without further processing, took place in the territories of one or more of the USMCA countries even if non-originating fibre is used in the production of sewing thread of heading 52.04, 54.01 or 55.08, or yarn of heading 54.02 used as sewing thread referred to in the Notes;

(c) for the purpose of Chapter 61, Note 4 or Chapter 62, Note 5 of Annex 4–B, pocket bag fabric is considered formed and finished in the territory of one or more of the Parties if all production processes and finishing operations, starting with the weaving, knitting, needling, tufting, felting, entangling, or other process, and ending with the fabric ready for cutting or assembly without further processing, took place in the territories of one or more of the USMCA countries, even if non-originating fiber is used in the production of the yarn used to produce the pocket bag fabric;

(d) for the purpose of Chapter 61, Note 4 or Chapter 62, Note 5 of Annex 4–B, pocket bag fabric is considered a pocket or pockets if the pockets in which fabric is shaped to form a bag is not visible as the pocket is in the interior of the garment (*i.e.* pockets consisting of ''bags'' in the interior of the garment). Visible pockets such as patch pockets, cargo pockets, or typical shirt pockets are not subject to these notes;

(e) for the purpose of Chapter 61, Note 4 or Chapter 62, Note 5 of Annex 4–B, yarn is considered wholly formed in the territory of one

[3] The language ''in General Note 11 of the Harmonized Tariff Scheduled of the United States'' differs from the trilaterally agreed upon uniform regulations because the Parties contemplated that the language ''by each USMCA country'' would be replaced with the specific Party's reference to the location of the rules of origin under domestic law.

or more Parties if all the production processes and finishing operations, starting with the extrusion of filaments, strips, film, or sheet, and including slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with a finished single or plied yarn, took place in the territory of one or more of the USMCA countries, even if non-originating fiber is used in the production of the yarn used to produce the pocket bag fabric; and,

(f) for the purpose of Chapter 63, Note 2 of Annex 4–B, a fabric of heading 59.03 is considered formed and finished in the territory of one or more Parties if all production processes and finishing operations, starting with the weaving, knitting, needling, tufting, felting, entangling, or other process, including coating, covering, laminating, or impregnating, and ending with the fabric ready for cutting or assembly without further processing, took place in the territories of one or more of the USMCA countries, even if non-originating fiber or yarn is used in the production of the fabric of heading 5903;

SCHEDULE II (MOST-FAVORED-NATION RATES OF DUTY ON CERTAIN GOODS SET OUT IN TABLE 2.10.1 OF THE AGREEMENT)

A. Automatic Data Processing Machines (ADP):		
	8471.30.	
	8471.41.	
	8471.49.	
B. Digital Processing Units:		
	8471.50.	
C. Input or Output Units:		
Combined Input/Output Units.		
Canada	8471.60.00.	
Mexico	8471.60.02.	
United States.	8471.60.10.	
Display Units.		
Canada	8528.42.00, 8528.52.00, 8528.62.00.	
Mexico	8528.41.99, 8528.51.01, 8528.51.99, 8528.61.01.	
United States.	8528.42.00, 8528.52.00, 8528.62.00.	
Other Input or Output Units.		
Canada	8471.60.00.	
Mexico	8471.60.03, 8471.60.99	
United States.	8471.60.20, 8471.60.70, 8471.60.80, 8471.60.90.	
D. Storage Units:		
	8471.70.	
E. Other Units of Automatic Data Processing Machines:		
	8471.80.	
F. Parts of Computers:		
	8443.99	parts of machines of subheading 8443.31 and 8443.32, excluding facsimile machines and teleprinters.
	8473.30	parts of ADP machines and units thereof.
	8517.70	parts of LAN equipment of subheading 8517.62.
Canada	8529.90.19, 8529.90.50, 8529.90.90.	parts of monitors and projectors of subheading 8528.42, 8528.52, and 8528.62.

Mexico	8529.90.01, 8529.90.06	parts of monitors or projectors of subheadings 8528.41, 8528.51, and 8528.61.
United States	8529.90.22, 8529.90.75, 8529.90.99.	parts of monitors and projectors of subheading 8528.42, 8528.52, and 8528.62.
G. Computer Power Supplies:		
Canada	8504.40.30, 8504.40.90, 8504.90.10, 8504.90.20, 8504.90.90.	
Mexico	8504.40.12, 8504.40.14, 8504.90.02, 8504.90.07, 8504.90.08.	parts of goods classified in tariff item 8504.40.12.
United States	8504.40.60, 8504.40.70, 8504.90.20, 8504.90.41.	

SCHEDULE III (VALUE OF GOODS)

1 Unless otherwise stated, the following definitions apply in this Schedule.

buyer refers to a person who purchases a good from the producer;

buying commissions means fees paid by a buyer to that buyer's agent for the agent's services in representing the buyer in the purchase of a good;

producer refers to the producer of the good being valued.

2 For purposes of subsection 7(2) of these Regulations, the transaction value of a good is the price actually paid or payable for the good, determined in accordance with section 3 and adjusted in accordance with section 4.

3 (1) The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the producer. The payment need not necessarily take the form of a transfer of money. It may be made by letters of credit or negotiable instruments. The payment may be made directly or indirectly to the producer. For an illustration of this, the settlement by the buyer, whether in whole or in part, of a debt owed by the producer is an indirect payment.

(2) Activities undertaken by the buyer on the buyer's own account, other than those for which an adjustment is provided in section 4, must not be considered to be an indirect payment, even though the activities may be regarded as being for the benefit of the producer. For an illustration of this, the buyer, by agreement with the producer, undertakes activities relating to the marketing of the good. The costs of such activities must not be added to the price actually paid or payable.

(3) The transaction value must not include the following charges or costs, provided that they are distinguished from the price actually paid or payable:

(a) Charges for construction, erection, assembly, maintenance or technical assistance related to the good undertaken after the good is sold to the buyer; or

(b) duties and taxes paid in the country in which the buyer is located with respect to the good.

(4) The flow of dividends or other payments from the buyer to the producer that do not relate to the purchase of the good are not part of the transaction value.

4 (1) In determining the transaction value of a good, the following must be added to the price actually paid or payable:

(a) To the extent that they are incurred by the buyer, or by a related person on behalf of the buyer, with respect to the good being valued and are not included in the price actually paid or payable

(i) commissions and brokerage fees, except buying commissions,

(ii) the costs of transporting the good to the producer's point of direct shipment and the costs of loading, unloading, handling and insurance that are associated with that transportation, and

(iii) where the packaging materials and containers are classified with the good under the Harmonized System, the value of the packaging materials and containers;

(b) the value, reasonably allocated in accordance with subsection (13), of the following elements if they are supplied directly or indirectly to the producer by the buyer, free of charge or at reduced cost for use in connection with the production and sale of the good, to the extent that the value is not included in the price actually paid or payable:

(i) A material, other than an indirect material, used in the production of the good,

(ii) tools, dies, molds and similar indirect materials used in the production of the good,

(iii) an indirect material, other than those referred to in subparagraph (ii) or in paragraphs (c), (e) or (f) of the definition indirect material set out in subsection 1(1) of these Regulations, used in the production of the good, and

(iv) engineering, development, artwork, design work, and plans and sketches necessary

for the production of the good, regardless of where performed;

(c) the royalties related to the good, other than charges with respect to the right to reproduce the good in the territory of one or more of the USMCA countries, that the buyer must pay directly or indirectly as a condition of sale of the good, to the extent that such royalties are not included in the price actually paid or payable; and

(d) the value of any part of the proceeds of any subsequent resale, disposal or use of the good that accrues directly or indirectly to the producer.

(2) The additions referred to in subsection (1) must be made to the price actually paid or payable under this section only on the basis of objective and quantifiable data.

(3) If objective and quantifiable data do not exist with regard to the additions required to be made to the price actually paid or payable under subsection (1), the transaction value cannot be determined under section 2.

(4) Additions must not be made to the price actually paid or payable for the purpose of determining the transaction value except as provided in this section.

(5) The amounts to be added under subparagraphs (1)(a)(i) and (ii) are:

(a) Those amounts that are recorded on the books of the buyer; or

(b) if those amounts are costs incurred by a related person on behalf of the buyer and are not recorded on the books of the buyer, those amounts that are recorded on the books of that related person.

(6) The value of the packaging materials and containers referred to in subparagraph (1)(a)(iii) and the value of the elements referred to in subparagraph (1)(b)(i) are

(a) if the packaging materials and containers or the elements are imported from outside the territory of the USMCA country in which the producer is located, the customs value of the packaging materials and containers or the elements,

(b) if the buyer, or a related person on behalf of the buyer, purchases the packaging materials and containers or the elements from a person who is not a related person in the territory of the USMCA country in which the producer is located, the price actually paid or payable for the packaging materials and containers or the elements,

(c) if the buyer, or a related person on behalf of the buyer, acquires the packaging materials and containers or the elements from a person who is not a related person in the territory of the USMCA country in which the producer is located other than through a purchase, the value of the consideration related to the acquisition of the packaging materials and containers or the elements, based on the cost of the consideration that is recorded on the books of the buyer or the related person, or

(d) if the packaging materials and containers or the elements are produced by the buyer, or by a related person, in the territory of the USMCA country in which the producer is located, the total cost of the packaging materials and containers or the elements, determined in accordance with subsection (8),

(7) The value referred to in subsection (6), to the extent that such costs are not included under paragraphs 6(a) through (d), must include the following costs that are recorded on the books of the buyer or the related person supplying the packaging materials and containers or the elements on behalf of the buyer:

(a) The costs of freight, insurance, packing, and all other costs incurred in transporting the packaging materials and containers or the elements to the location of the producer,

(b) duties and taxes paid or payable with respect to the packaging materials and containers or the elements, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable,

(c) customs brokerage fees, including the cost of in-house customs brokerage services, incurred with respect to the packaging materials and containers or the elements, and

(d) the cost of waste and spoilage resulting from the use of the packaging materials and containers or the elements in the production of the good, less the value of renewable scrap or by-product.

(8) For purposes of paragraph (6)(d), the total cost of the packaging materials and containers referred to in subparagraph (1)(a)(iii) or the elements referred to in subparagraph (1)(b)(i) are

(a) if the packaging materials and containers or the elements are produced by the buyer, at the choice of the buyer:

(i) The total cost incurred with respect to all goods produced by the buyer, calculated on the basis of the costs that are recorded on the books of the buyer, that can be reasonably allocated to the packaging materials and containers or the elements in accordance with Schedule V, or

(ii) the aggregate of each cost incurred by the buyer that forms part of the total cost incurred with respect to the packaging materials and containers or the elements, calculated on the basis of the costs that are recorded on the books of the buyer, that can be reasonably allocated to the packaging materials and containers or the elements in accordance with Schedule V; and

(b) if the packaging materials and containers or the elements are produced by a person who is related to the buyer, at the choice of the buyer:

(i) The total cost incurred with respect to all goods produced by that related person, calculated on the basis of the costs that are

recorded on the books of that person, that can be reasonably allocated to the packaging materials and containers or the elements in accordance with Schedule V, or

(ii) the aggregate of each cost incurred by that related person that forms part of the total cost incurred with respect to the packaging materials and containers or the elements, calculated on the basis of the costs that are recorded on the books of that person, that can be reasonably allocated to the packaging materials and containers or the elements in accordance with Schedule V.

(9) Except as provided in subsections (11) and (12), the value of the elements referred to in subparagraphs (1)(b)(ii) through (iv) are

(a) the cost of those elements that is recorded on the books of the buyer; or

(b) if such elements are provided by another person on behalf of the buyer and the cost is not recorded on the books of the buyer, the cost of those elements that is recorded on the books of that other person.

(10) If the elements referred to in subparagraphs (1)(b)(ii) through (iv) were previously used by or on behalf of the buyer, the value of the elements must be adjusted downward to reflect that use.

(11) Where the elements referred to in subparagraphs (1)(b)(ii) and (iii) were leased by the buyer or a person related to the buyer, the value of the elements are the cost of the lease as recorded on the books of the buyer or that related person.

(12) An addition must not be made to the price actually paid or payable for the elements referred to in subparagraph (1)(b)(iv) that are available in the public domain, other than the cost of obtaining copies of them.

(13) The producer must choose the method of allocating to the good the value of the elements referred to in subparagraphs (1)(b)(ii) through (iv), provided that the value is reasonably allocated to the good. The methods the producer may choose to allocate the value include allocating the value over the number of units produced up to the time of the first shipment or allocating the value over the entire anticipated production where contracts or firm commitments exist for that production. For an illustration of this, a buyer provides the producer with a mold to be used in the production of the good and contracts with the producer to buy 10,000 units of that good. By the time the first shipment of 1,000 units arrives, the producer has already produced 4,000 units. In these circumstances, the producer may choose to allocate the value of the mold over 4,000 units or 10,000 units but must not choose to allocate the value of the elements to the first shipment of 1,000 units. The producer may choose to allocate the entire value of the elements to a single shipment of a good only if that single shipment comprises all of the units of the good acquired by the buyer under the contract or commitment for that number of units of the good between the producer and the buyer.

(14) The addition for the royalties referred to in paragraph (1)(c) is the payment for the royalties that is recorded on the books of the buyer, or if the payment for the royalties is recorded on the books of another person, the payment for the royalties that is recorded on the books of that other person.

(15) The value of the proceeds referred to in paragraph (1)(d) is the amount that is recorded for such proceeds on the books of the buyer or the producer.

SCHEDULE IV UNACCEPTABLE TRANSACTION VALUE

1 Unless otherwise stated, the following definitions apply in this Schedule.

buyer refers to a person who purchases a good from the producer;

producer refers to the producer of the good being valued.

2 (1) There is no transaction value for a good if the good is not the subject of a sale.

(2) The transaction value of a good is unacceptable if:

(a) There are restrictions on the disposition or use of the good by the buyer, other than restrictions that

(i) are imposed or required by law or by the public authorities in the territory of the USMCA country in which the buyer is located,

(ii) limit the geographical area in which the good may be resold, or

(iii) do not substantially affect the value of the good;

(b) the sale or price actually paid or payable is subject to a condition or consideration for which a value cannot be determined with respect to the good;

(c) part of the proceeds of any subsequent resale, disposal or use of the good by the buyer will accrue directly or indirectly to the producer, and an appropriate addition to the price actually paid or payable cannot be made in accordance with paragraph 4(1)(d) of Schedule III; or

(d) the producer and the buyer are related persons and the relationship between them influenced the price actually paid or payable for the good.

(3) The cases or considerations referred to in paragraph (2)(b) include the following:

(a) The producer establishes the price actually paid or payable for the good on condition that the buyer will also buy other goods in specified quantities;

(b) the price actually paid or payable for the good is dependent on the price or prices at which the buyer sells other goods to the producer of the good; and

(c) the price actually paid or payable is established on the basis of a form of payment extraneous to the good, such as where the good is a semi-finished good that is provided

by the producer to the buyer on condition that the producer will receive a specified quantity of the finished good from the buyer.

(4) For purposes of paragraph (2)(b), conditions or considerations relating to the production or marketing of the good must not render the transaction value unacceptable, such as if the buyer undertakes on the buyer's own account, even though by agreement with the producer, activities relating to the marketing of the good.

(5) If objective and quantifiable data do not exist with regard to the additions required to be made to the price actually paid or payable under subsection 4(1) of Schedule III, the transaction value cannot be determined under the provisions of section 2 of that Schedule. For an illustration of this, a royalty is paid on the basis of the price actually paid or payable in a sale of a litre of a particular good that was purchased by the kilogram and made up into a solution. If the royalty is based partially on the purchased good and partially on other factors that have nothing to do with that good, such as when the purchased good is mixed with other ingredients and is no longer separately identifiable, or when the royalty cannot be distinguished from special financial arrangements between the producer and the buyer, it would be inappropriate to add the royalty and the transaction value of the good could not be determined. However, if the amount of the royalty is based only on the purchased good and can be readily quantified, an addition to the price actually paid or payable can be made and the transaction value can be determined.

SCHEDULE V (REASONABLE ALLOCATION OF COSTS)

Definitions and Interpretation

1 of the following definitions apply in this Schedule,

costs means any costs that are included in total cost and that can or need to be allocated in a reasonable manner under to subsections 5(11), 7(11) and 8(8) of these Regulations, subsection 4(8) of Schedule III and subsections 4(8) and 9(3) of Schedule VI;

discontinued operation, in the case of a producer located in a USMCA country, has the meaning set out in that USMCA country's Generally Accepted Accounting Principles;

indirect overhead means period costs and other costs;

internal management purpose means any purpose relating to tax reporting, financial reporting, financial planning, decision-making, pricing, cost recovery, cost control management or performance measurement;

overhead means costs, other than direct material costs and direct labor costs.

2 (1) In this Schedule, reference to ''producer'', for purposes of subsection 4(8) of Schedule III, is to be read as a reference to ''buyer''.

(2) In this Schedule, a reference to ''good'',

(a) for purposes of subsection 7(15) of these Regulations, is to be read as a reference to ''identical goods or similar goods, or any combination thereof'';

(b) for purposes of subsection 8(8) of these Regulations, is to be read as a reference to ''intermediate material'';

(c) for purposes of section 16 of these Regulations, is to be read as a reference to ''category of vehicles that is chosen pursuant to subsection 16(1) of these Regulations'';

(d) for purposes of subsection 4(8) of Schedule III, be read as a reference to ''packaging materials and containers or the elements''; and

(e) for purposes of subsection 4(8) of Schedule VI, be read as a reference to ''elements''.

Methods to Reasonably Allocate Costs

3 (1) If a producer of a good is using, for an internal management purpose, a cost allocation method to allocate to the good direct material costs, or part thereof, and that method reasonably reflects the direct material used in the production of the good based on the criterion of benefit, cause or ability to bear, that method must be used to reasonably allocate the costs to the good.

(2) If a producer of a good is using, for an internal management purpose, a cost allocation method to allocate to the good direct labor costs, or part thereof, and that method reasonably reflects the direct labor used in the production of the good based on the criterion of benefit, cause or ability to bear, that method must be used to reasonably allocate the costs to the good.

(3) If a producer of a good is using, for an internal management purpose, a cost allocation method to allocate to the good overhead, or part thereof, and that method is based on the criterion of benefit, cause or ability to bear, that method must be used to reasonably allocate the costs to the good.

4 If costs are not reasonably allocated to a good under section 3, those costs are reasonably allocated to the good if they are allocated:

(a) With respect to direct material costs, on the basis of any method that reasonably reflects the direct material used in the production of the good based on the criterion of benefit, cause or ability to bear;

(b) with respect to direct labor costs, on the basis of any method that reasonably reflects the direct labor used in the production of the good based on the criterion of benefit, cause or ability to bear; and

(c) with respect to overhead, on the basis of any of the following methods:

(i) The method set out in Appendix A, B or C,

(ii) a method based on a combination of the methods set out in Appendices A and B or Appendices A and C, and

(iii) a cost allocation method based on the criterion of benefit, cause or ability to bear.

5 Notwithstanding sections 3 and 8, if a producer allocates, for an internal management purpose, costs to a good that is not produced in the period in which the costs are expensed on the books of the producer (such as costs with respect to research and development, and obsolete materials), those costs must be considered reasonably allocated if:

(a) For purposes of subsection 7(11) of these Regulations, they are allocated to a good that is produced in the period in which the costs are expensed, and

(b) the good produced in that period is within a group or range of goods, including identical goods or similar goods, that is produced by the same industry or industry sector as the goods to which the costs are expensed.

6 Any cost allocation method referred to in section 3, 4 or 5 that is used by a producer for the purposes of these Regulations must be used throughout the producer's fiscal year.

Costs Not Reasonably Allocated

7 The allocation to a good of any of the following is considered not to be reasonably allocated to the good:

(a) Costs of a service provided by a producer of a good to another person where the service is not related to the good;

(b) gains or losses resulting from the disposition of a discontinued operation, except gains or losses related to the production of the good;

(c) cumulative effects of accounting changes reported in accordance with a specific requirement of the applicable Generally Accepted Accounting Principles; and

(d) gains or losses resulting from the sale of a capital asset of the producer.

8 Any costs allocated under section 3 on the basis of a cost allocation method that is used for an internal management purpose that is solely for the purpose of qualifying a good as an originating good are considered not to be reasonably allocated.

APPENDIX A—COST RATIO METHOD

Calculation of Cost Ratio

For the overhead to be allocated, the producer may choose one or more allocation bases that reflect a relationship between the overhead and the good based on the criterion of benefit, cause or ability to bear.

With respect to each allocation base that is chosen by the producer for allocating overhead, a cost ratio is calculated for each good produced by the producer as determined by the formula:

$$CR = AB \div TAB$$

where

CR is the cost ratio with respect to the good;
AB is the allocation base for the good; and
TAB is the total allocation base for all the goods produced by the producer.

Allocation to a Good of Costs Included in Overhead

The costs with respect to which an allocation base is chosen are allocated to a good in accordance with the following formula:

$$CAG = CA \times CR$$

where

CAG is the costs allocated to the good;
CA is the costs to be allocated; and
CR is the cost ratio with respect to the good.

Excluded Costs

Under paragraph 7(11)(b) of these Regulations, where excluded costs are included in costs to be allocated to a good, the cost ratio used to allocate that cost to the good is used to determine the amount of excluded costs to be subtracted from the costs allocated to the good.

Allocation Bases for Costs

The following is a non-exhaustive list of allocation bases that may be used by the producer to calculate cost ratios:

- Direct labor hours
- Direct labor costs
- Units produced
- Machine-hours
- Sales dollars or pesos
- Floor space

''Examples''

The following examples illustrate the application of the cost ratio method to costs included in overhead.

Example 1: Direct Labor Hours

A producer who produces Good A and Good B may allocate overhead on the basis of direct labor hours spent to produce Good A and Good B. A total of 8,000 direct labor hours have been spent to produce Good A and Good B: 5,000 hours with respect to Good A and 3,000 hours with respect to Good B. The amount of overhead to be allocated is $6,000,000.

Calculation of the ratios:

Good A: 5,000 hours/8,000 hours = .625
Good B: 3,000 hours/8,000 hours = .375

Allocation of overhead to Good A and Good B:

Good A: $6,000,000 × .625 = $3,750,000
Good B: $6,000,000 × .375 = $2,250,000

Example 2: Direct Labor Costs

A producer who produces Good A and Good B may allocate overhead on the basis of direct labour costs incurred in the production of Good

A and Good B. The total direct labor costs incurred in the production of Good A and Good B is $60,000: $50,000 with respect to Good A and $10,000 with respect to Good B. The amount of overhead to be allocated is $6,000,000.

Calculation of the ratios:

Good A: $50,000/$60,000 = .833
Good B: $10,000/$60,000 = .167

Allocation of Overhead to Good A and Good B:

Good A: $6,000,000 × .833 = $4,998,000
Good B: $6,000,000 × .167 = $1,002,000

Example 3: Units Produced

A producer of Good A and Good B may allocate overhead on the basis of units produced. The total units of Good A and Good B produced is 150,000: 100,000 units of Good A and 50,000 units of Good B. The amount of overhead to be allocated is $6,000,000.

Calculation of the ratios:

Good A: 100,000 units/150,000 units = .667
Good B: 50,000 units/150,000 units = .333

Allocation of Overhead to Good A and Good B:

Good A: $6,000,000 × .667 = $4,002,000
Good B: $6,000,000 × .333 = $1,998,000

Example 4: Machine-Hours

A producer who produces Good A and Good B may allocate machine-related overhead on the basis of machine-hours utilized in the production of Good A and Good B. The total machine-hours utilized for the production of Good A and Good B is 3,000 hours: 1,200 hours with respect to Good A and 1,800 hours with respect to Good B. The amount of machine-related overhead to be allocated is $6,000,000.

Calculation of the ratios:

Good A: 1,200 machine-hours/3,000 machine-hours = .40
Good B: 1,800 machine-hours/3,000 machine-hours = .60

Allocation of machine-related overhead to Good A and Good B:

Good A: $6,000,000 × .40 = $2,400,000
Good B: $6,000,000 × .60 = $3,600,000

Example 5: Sales Dollars or Pesos

A producer who produces Good A and Good B may allocate overhead on the basis of sales dollars. The producer sold 2,000 units of Good A at $4,000 and 200 units of Good B at $3,000. The amount of overhead to be allocated is $6,000,000.

Total sales dollars for Good A and Good B:

Good A: $4,000 × 2,000 units = $8,000,000
Good B: $3,000 × 200 units = $600,000
Total sales dollars: $8,000,000 + $600,000 = $8,600,000

Calculation of the ratios:

Good A: $8,000,000/$8,600,000 = .93
Good B: $600,000/$8,600,000 = .07

Allocation of Overhead to Good A and Good B:

Good A: $6,000,000 × .93 = $5,580,000
Good B: $6,000,000 × .07 = $420,000

Example 6: Floor Space

A producer who produces Good A and Good B may allocate overhead relating to utilities (heat, water and electricity) on the basis of floor space used in the production and storage of Good A and Good B. The total floor space used in the production and storage of Good A and Good B is 100,000 square feet: 40,000 square feet with respect to Good A and 60,000 square feet with respect to Good B. The amount of overhead to be allocated is $6,000,000.

Calculation of the Ratios:

Good A: 40,000 square feet/100,000 square feet = .40
Good B: 60,000 square feet/100,000 square feet = .60

Allocation of overhead (utilities) to Good A and Good B:

Good A: $6,000,000 × .40 = $2,400,000
Good B: $6,000,000 × .60 = $3,600,000

Appendix B—Direct Labor and Direct Material Ratio Method

Calculation of Direct Labor and Direct Material Ratio

For each good produced by the producer, a direct labor and direct material ratio is calculated by the formula:

DLDMR = (DLC + DMC) ÷ (TDLC + TDMC)

where

DLDMR is the direct labor and direct material ratio for the good;
DLC is the direct labor costs of the good;
DMC is the direct material costs of the good;
TDLC is the total direct labor costs of all goods produced by the producer; and
TDMC is the total direct material costs of all goods produced by the producer.

Allocation of Overhead to a Good

Overhead is allocated to a good by the formula:

OAG = O × DLDMR

where

OAG is the overhead allocated to the good;
O is the overhead to be allocated; and
DLDMR is the direct labor and direct material ratio for the good.

Excluded Costs

Under paragraph 7(11)(b) of these Regulations, if excluded costs are included in overhead to be allocated to a good, the direct

labor and direct material ratio used to allocate overhead to the good is used to determine the amount of excluded costs to be subtracted from the overhead allocated to the good.

''*Examples*''

Example 1

The following example illustrates the application of the direct labor and direct material ratio method used by a producer of a good to allocate overhead where the producer chooses to calculate the net cost of the good in accordance with paragraph 7(11)(a) of these Regulations. A producer produces Good A and Good B. Overhead (O) minus excluded costs (EC) is $30 and the other relevant costs are set out in the following table:

	Good A ($)	Good B ($)	Total ($)
Direct labor costs (DLC)	5	5	10
Direct material costs (DMC)	10	5	15
Totals	15	10	25

Overhead Allocated to Good A

OAG (Good A) = O ($30) × DLDMR ($15/$25)
OAG (Good A) = $18.00

Overhead Allocated to Good B

OAG (Good B) = O ($30) × DLDMR ($10/$25)
OAG (Good B) = $12.00

Example 2

The following example illustrates the application of the direct labor and direct material ratio method used by a producer of a good to allocate overhead where the producer chooses to calculate the net cost of the good in accordance with paragraph 7(11)(b) of these Regulations and where excluded costs are included in overhead.

A producer produces Good A and Good B. Overhead (O) is $50 (including excluded costs (EC) of $20). The other relevant costs are set out in the table to Example 1.

Overhead Allocated to Good A

OAG (Good A) = [O ($50) × DLDMR ($15/$25)] − [EC ($20) × DLDMR ($15/$25)]
OAG (Good A) = $18.00

Overhead Allocated to Good B

OAG (Good B) = [O ($50) × DLDMR ($10/$25)] − [EC ($20) × DLDMR ($10/$25)]
OAG (Good B) = $12.00

APPENDIX C—DIRECT COST RATIO METHOD

Direct Overhead

Direct overhead is allocated to a good on the basis of a method based on the criterion of benefit, cause or ability to bear.

Indirect Overhead

Indirect overhead is allocated on the basis of a direct cost ratio.

Calculation of Direct Cost Ratio

For each good produced by the producer, a direct cost ratio is calculated by the formula:

DCR = (DLC + DMC + DO) ÷ (TDLC + TDMC + TDO)

where

DCR is the direct cost ratio for the good;
DLC is the direct labor costs of the good;
DMC is the direct material costs of the good;
DO is the direct overhead of the good;
TDLC is the total direct labor costs of all goods produced by the producer;
TDMC is the total direct material costs of all goods produced by the producer; and
TDO is the total direct overhead of all goods produced by the producer.

Allocation of Indirect Overhead to a Good

Indirect overhead is allocated to a good by the formula:

IOAG = IO × DCR

where

IOAG is the indirect overhead allocated to the good;
IO is the indirect overhead of all goods produced by the producer; and
DCR is the direct cost ratio of the good.

Excluded Costs

Under paragraph 7(11)(b) of these Regulations, if excluded costs are included in

(a) direct overhead to be allocated to a good, those excluded costs are subtracted from the direct overhead allocated to the good; and

(b) indirect overhead to be allocated to a good, the direct cost ratio used to allocate indirect overhead to the good is used to determine the amount of excluded costs to be subtracted from the indirect overhead allocated to the good.

''*Examples*''

Example 1

The following example illustrates the application of the direct cost ratio method used by a producer of a good to allocate indirect overhead where the producer chooses to calculate the net cost of the good in accordance with paragraph 7(11)(a) of these Regulations. A producer produces Good A and Good B. Indirect overhead

(IO) minus excluded costs (EC) is $30. The other relevant costs are set out in the following table:

	Good A ($)	Good B ($)	Total ($)
Direct labor costs (DLC)	5	5	10
Direct material costs (DMC)	10	5	15
Direct overhead (DO) ...	8	2	10
Totals	23	12	35

Indirect Overhead Allocated to Good A

IOAG (Good A) = IO ($30) × DCR ($23/$35)
IOAG (Good A) = $19.71

Indirect Overhead Allocated to Good B

IOAG (Good B) = IO ($30) × DCR ($12/$35)
IOAG (Good B) = $10.29

Example 2

The following example illustrates the application of the direct cost ratio method used by a producer of a good to allocate indirect overhead if the producer has chosen to calculate the net cost of the good in accordance with paragraph 7(11)(b) of these Regulations and where excluded costs are included in indirect overhead.

A producer produces Good A and Good B. The indirect overhead (IO) is $50 (including excluded costs (EC) of $20). The other relevant costs are set out in the table to Example 1.

Indirect Overhead Allocated to Good A

IOAG (Good A) = [IO ($50) × DCR ($23/$35)] − [EC ($20) × DCR ($23/$35)]
IOAG (Good A) = $19.72

Indirect Overhead Allocated to Good B

IOAG (Good B) = [IO ($50) × DCR ($12/$35)] − [EC ($20) × DCR ($12/$35)]
IOAG (Good B) = $10.28

SCHEDULE VI VALUE OF MATERIALS

1 (1) Unless otherwise stated, the following definitions apply in this Schedule.

buying commissions means fees paid by a producer to that producer's agent for the agent's services in representing the producer in the purchase of a material;

materials of the same class or kind means, with respect to materials being valued, materials that are within a group or range of materials that

(a) is produced by a particular industry or industry sector, and

(b) includes identical materials or similar materials;

producer refers to the producer who used the material in the production of a good that is subject to a regional value-content requirement;

seller refers to a person who sells the material being valued to the producer.

2 (1) Except as provided under subsection (2), the transaction value of a material under paragraph 8(1)(b) of these Regulations is the price actually paid or payable for the material determined in accordance with section 3 and adjusted in accordance with section 4.

(2) There is no transaction value for a material if the material is not the subject of a sale.

(3) The transaction value of a material is unacceptable if:

(a) there are restrictions on the disposition or use of the material by the producer, other than restrictions that

(i) are imposed or required by law or by the public authorities in the territory of the USMCA country in which the producer of the good or the seller of the material is located,

(ii) limit the geographical area in which the material may be used, or

(iii) do not substantially affect the value of the material;

(b) the sale or price actually paid or payable is subject to a condition or consideration for which a value cannot be determined with respect to the material;

(c) part of the proceeds of any subsequent disposal or use of the material by the producer will accrue directly or indirectly to the seller, and an appropriate addition to the price actually paid or payable cannot be made in accordance with paragraph 4(1)(d); or

(d) the producer and the seller are related persons and the relationship between them influenced the price actually paid or payable for the material.

(4) The cases or considerations referred to in paragraph (3)(b) include the following:

(a) the seller establishes the price actually paid or payable for the material on condition that the producer will also buy other materials or goods in specified quantities;

(b) the price actually paid or payable for the material is dependent on the price or prices at which the producer sells other materials or goods to the seller of the material; and

(c) the price actually paid or payable is established on the basis of a form of payment extraneous to the material, such as where the material is a semi-finished material that is provided by the seller to the producer on condition that the seller will receive a specified quantity of the finished material from the producer.

(5) For purposes of paragraph (3)(b), conditions or considerations relating to the use of the material will not render the transaction

value unacceptable, such as where the producer undertakes on the producer's own account, even though by agreement with the seller, activities relating to the warranty of the material used in the production of a good.

(6) If objective and quantifiable data do not exist with regard to the additions required to be made to the price actually paid or payable under subsection 4(1), the transaction value cannot be determined under the provisions of subsection 2(1). For an illustration of this, a royalty is paid on the basis of the price actually paid or payable in a sale of a litre of a particular good that is produced by using a material that was purchased by the kilogram and made up into a solution. If the royalty is based partially on the purchased material and partially on other factors that have nothing to do with that material, such as when the purchased material is mixed with other ingredients and is no longer separately identifiable, or when the royalty cannot be distinguished from special financial arrangements between the seller and the producer, it would be inappropriate to add the royalty and the transaction value of the material could not be determined. However, if the amount of the royalty is based only on the purchased material and can be readily quantified, an addition to the price actually paid or payable can be made and the transaction value can be determined.

3 (1) The price actually paid or payable is the total payment made or to be made by the producer to or for the benefit of the seller of the material. The payment need not necessarily take the form of a transfer of money. It may be made by letters of credit or negotiable instruments. Payment may be made directly or indirectly to the seller. For an illustration of this, the settlement by the producer, whether in whole or in part, of a debt owed by the seller, is an indirect payment.

(2) Activities undertaken by the producer on the producer's own account, other than those for which an adjustment is provided in section 4, must not be considered to be an indirect payment, even though the activities might be regarded as being for the benefit of the seller.

(3) The transaction value must not include charges for construction, erection, assembly, maintenance or technical assistance related to the use of the material by the producer, provided that they are distinguished from the price actually paid or payable.

(4) The flow of dividends or other payments from the producer to the seller that do not relate to the purchase of the material are not part of the transaction value.

4 (1) In determining the transaction value of the material, the following must be added to the price actually paid or payable:

(a) To the extent that they are incurred by the producer with respect to the material being valued and are not included in the price actually paid or payable,

(i) commissions and brokerage fees, except buying commissions, and

(ii) the costs of containers which, for customs purposes, are classified with the material under the Harmonized System;

(b) the value, reasonably allocated in accordance with subsection (13), of the following elements if they are supplied directly or indirectly to the seller by the producer free of charge or at reduced cost for use in connection with the production and sale of the material, to the extent that the value is not included in the price actually paid or payable:

(i) A material, other than an indirect material, used in the production of the material being valued,

(ii) tools, dies, mold and similar indirect materials used in the production of the material being valued,

(iii) an indirect material, other than those referred to in subparagraph (ii) or in paragraphs (c), (e) or (f) of the definition *indirect material* in subsection 1(1) of these Regulations, used in the production of the material being valued, and

(iv) engineering, development, artwork, design work, and plans and sketches made outside the territory of the USMCA country in which the producer is located that are necessary for the production of the material being valued;

(c) the royalties related to the material, other than charges with respect to the right to reproduce the material in the territory of the USMCA country in which the producer is located that the producer must pay directly or indirectly as a condition of sale of the material, to the extent that such royalties are not included in the price actually paid or payable; and

(d) the value of any part of the proceeds of any subsequent disposal or use of the material that accrues directly or indirectly to the seller.

(2) The additions referred to in subsection (1) must be made to the price actually paid or payable under this section only on the basis of objective and quantifiable data.

(3) If objective and quantifiable data do not exist with regard to the additions required to be made to the price actually paid or payable under subsection (1), the transaction value cannot be determined under subsection 2(1).

(4) Additions must not be made to the price actually paid or payable for the purpose of determining the transaction value except as provided in this section.

(5) The amounts to be added under paragraph (1)(a) must be those amounts that are recorded on the books of the producer.

(6) The value of the elements referred to in subparagraph (1)(b)(i) must be:

(a) Where the elements are imported from outside the territory of the USMCA country

in which the seller is located, the customs value of the elements,

(b) where the producer, or a related person on behalf of the producer, purchases the elements from a person who is not a related person in the territory of the USMCA country in which the seller is located, the price actually paid or payable for the elements,

(c) where the producer, or a related person on behalf of the producer, acquires the elements from a person who is not a related person in the territory of the USMCA country in which the seller is located other than through a purchase, the value of the consideration related to the acquisition of the elements, based on the cost of the consideration that is recorded on the books of the producer or the related person, or

(d) where the elements are produced by the producer, or by a related person, in the territory of the USMCA country in which the seller is located, the total cost of the elements, determined in accordance with subsection (8),

(7) Those elements must include the following costs, that are recorded on the books of the producer or the related person supplying the elements on behalf of the producer, to the extent that such costs are not included under paragraphs (6)(a) through (d):

(a) The costs of freight, insurance, packing, and all other costs incurred in transporting the elements to the location of the seller,

(b) duties and taxes paid or payable with respect to the elements, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable,

(c) customs brokerage fees, including the cost of in-house customs brokerage services, incurred with respect to the elements, and

(d) the cost of waste and spoilage resulting from the use of the elements in the production of the material, minus the value of reusable scrap or by-product.

(8) For the purposes of paragraph (6)(d), the total cost of the elements referred to in subparagraph (1)(b)(i) are:

(a) Where the elements are produced by the producer, at the choice of the producer,

(i) the total cost incurred with respect to all goods produced by the producer, calculated on the basis of the costs that are recorded on the books of the producer, that can be reasonably allocated to the elements in accordance with Schedule V, or

(ii) the aggregate of each cost incurred by the producer that forms part of the total cost incurred with respect to the elements, calculated on the basis of the costs that are recorded on the books of the producer, that can be reasonably allocated to the elements in accordance with Schedule V; and

(b) if the elements are produced by a person who is related to the producer, at the choice of the producer:

(i) The total cost incurred with respect to all goods produced by that related person, calculated on the basis of the costs that are recorded on the books of that person, that can be reasonably allocated to the elements in accordance with Schedule V, or

(ii) the aggregate of each cost incurred by that related person that forms part of the total cost incurred with respect to the elements, calculated on the basis of the costs that are recorded on the books of that person, that can be reasonably allocated to the elements in accordance with Schedule V.

(9) Except as provided in subsections (11) and (12), the value of the elements referred to in subparagraphs (1)(b)(ii) through (iv) are:

(a) The cost of those elements that is recorded on the books of the producer; or

(b) if such elements are provided by another person on behalf of the producer and the cost is not recorded on the books of the producer, the cost of those elements that is recorded on the books of that other person.

(10) If the elements referred to in subparagraphs (1)(b)(ii) through (iv) were previously used by or on behalf of the producer, the value of the elements must be adjusted downward to reflect that use.

(11) If the elements referred to in subparagraphs (1)(b)(ii) and (iii) were leased by the producer or a person related to the producer, the value of the elements are the cost of the lease that is recorded on the books of the producer or that related person.

(12) An addition must not be made to the price actually paid or payable for the elements referred to in subparagraph (1)(b)(iv) that are available in the public domain, other than the cost of obtaining copies of them.

(13) The producer must choose the method of allocating to the material the value of the elements referred to in subparagraphs (1)(b)(ii) through (iv), provided that the value is reasonably allocated. The methods the producer may choose to allocate the value include allocating the value over the number of units produced up to the time of the first shipment or allocating the value over the entire anticipated production where contracts or firm commitments exist for that production. For an illustration of this, a producer provides the seller with a mold to be used in the production of the material and contracts with the seller to buy 10,000 units of that material. By the time the first shipment of 1,000 units arrives, the seller has already produced 4,000 units. In these circumstances, the producer may choose to allocate the value of the mold over 4,000 units or 10,000 units but must not choose to allocate the value of the elements to the first shipment of 1,000 units. The producer may choose to allocate the entire value of the elements to a single shipment of material only where that single shipment comprises all of

the units of the material acquired by the producer under the contract or commitment for that number of units of the material between the seller and the producer.

(14) The addition for the royalties referred to in paragraph (1)(c) is the payment for the royalties that is recorded on the books of the producer, or where the payment for the royalties is recorded on the books of another person, the payment for the royalties that is recorded on the books of that other person.

(15) The value of the proceeds referred to in paragraph (1)(d) is the amount that is recorded for those proceeds on the books of the producer or the seller.

5 (1) If there is no transaction value under subsection 2(2) or the transaction value is unacceptable under subsection 2(3), the value of the material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, is the transaction value of identical materials sold, at or about the same time as the material being valued was shipped to the producer, to a buyer located in the same country as the producer.

(2) In applying this section, the transaction value of identical materials in a sale at the same commercial level and in substantially the same quantity of materials as the material being valued shall be used to determine the value of the material. If no such sale is found, the transaction value of identical materials sold at a different commercial level or in different quantities, adjusted to take into account the differences attributable to the commercial level or quantity, must be used, provided that such adjustments can be made on the basis of evidence that clearly establishes that the adjustment is reasonable and accurate, whether the adjustment leads to an increase or a decrease in the value.

(3) A condition for adjustment under subsection (2) because of different commercial levels or different quantities is that such adjustment be made only on the basis of evidence that clearly establishes that an adjustment is reasonable and accurate. For an illustration of this, a bona fide price list contains prices for different quantities. If the material being valued consists of a shipment of 10 units and the only identical materials for which a transaction value exists involved a sale of 500 units, and it is recognized that the seller grants quantity discounts, the required adjustment may be accomplished by resorting to the seller's bona fide price list and using the price applicable to a sale of 10 units. This does not require that sales had to have been made in quantities of 10 as long as the price list has been established as being bona fide through sales at other quantities. In the absence of such an objective measure, however, the determination of a value under this section is not appropriate.

(4) If more than one transaction value of identical materials is found, the lowest such value must be used to determine the value of the material under this section.

6 (1) If there is no transaction value under subsection 2(2) or the transaction value is unacceptable under subsection 2(3), and the value of the material cannot be determined under section 5, the value of the material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, is the transaction value of similar materials sold, at or about the same time as the material being valued was shipped to the producer, to a buyer located in the same country as the producer.

(2) In applying this section, the transaction value of similar materials in a sale at the same commercial level and in substantially the same quantity of materials as the material being valued must be used to determine the value of the material. Where no such sale is found, the transaction value of similar materials sold at a different commercial level or in different quantities, adjusted to take into account the differences attributable to the commercial level or quantity, must be used, provided that such adjustments can be made on the basis of evidence that clearly establishes that the adjustment is reasonable and accurate, whether the adjustment leads to an increase or a decrease in the value.

(3) A condition for adjustment under subsection (2) because of different commercial levels or different quantities is that such adjustment be made only on the basis of evidence that clearly establishes that an adjustment is reasonable and accurate. For an illustration of this, a bona fide price list contains prices for different quantities. If the material being valued consists of a shipment of 10 units and the only similar materials for which a transaction value exists involved a sale of 500 units, and it is recognized that the seller grants quantity discounts, the required adjustment may be accomplished by resorting to the seller's bona fide price list and using the price applicable to a sale of 10 units. This does not require that sales had to have been made in quantities of 10 as long as the price list has been established as being bona fide through sales at other quantities. In the absence of such an objective measure, however, the determination of a value under this section is not appropriate.

(4) If more than one transaction value of similar materials is found, the lowest of those values must be used to determine the value of the material under this section.

7 If there is no transaction value under subsection 2(2) or the transaction value is unacceptable under subsection 2(3), and the value of the material cannot be determined under section 5 or 6, the value of the material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, must be determined under section 8 or, when the value cannot be determined under that section, under section 9 except that, at the request of the producer, the

order of application of sections 8 and 9 must be reversed.

8 (1) Under this section, if identical materials or similar materials are sold in the territory of the USMCA country in which the producer is located, in the same condition as the material was in when received by the producer, the value of the material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, must be based on the unit price at which those identical materials or similar materials are sold, in the greatest aggregate quantity by the producer or, where the producer does not sell those identical materials or similar materials, by a person at the same trade level as the producer, at or about the same time as the material being valued is received by the producer, to persons located in that territory who are not related to the seller, subject to deductions for the following:

(a) Either the amount of commissions usually earned or the amount generally reflected for profit and general expenses, in connection with sales, in the territory of that USMCA country, of materials of the same class or kind as the material being valued; and

(b) taxes, if included in the unit price, payable in the territory of that USMCA country, which are either waived, refunded or recoverable by way of credit against taxes actually paid or payable.

(2) If neither identical materials nor similar materials are sold at or about the same time the material being valued is received by the producer, the value must, subject to the deductions provided for under subsection (1), be based on the unit price at which identical materials or similar materials are sold in the territory of the USMCA country in which the producer is located, in the same condition as the material was in when received by the producer, at the earliest date within 90 days after the day on which the material being valued was received by the producer.

(3) The expression ''unit price at which those identical materials or similar materials are sold, in the greatest aggregate quantity'' in subsection (1) means the price at which the greatest number of units is sold in sales between persons who are not related persons. For an illustration of this, materials are sold from a price list which grants favourable unit prices for purchases made in larger quantities.

Sale quantity	Unit price	Number of sales	Total quantity sold at each price
1–10 units	100	10 sales of 5 units 5 sales of 3 units	65
11–25 units	95	5 sales of 11 units	55
Over 25 units	90	1 sale of 30 units 1 sale of 50 units	80

The greatest number of units sold at a particular price is 80; therefore, the unit price in the greatest aggregate quantity is 90.

As another illustration of this, two sales occur. In the first sale 500 units are sold at a price of 95 currency units each. In the second sale 400 units are sold at a price of 90 currency units each. In this illustration, the greatest number of units sold at a particular price is 500; therefore, the unit price in the greatest aggregate quantity is 95.

(4) Any sale to a person who supplies, directly or indirectly, free of charge or at reduced cost for use in connection with the production of the material, any of the elements specified in paragraph 4(1)(b), must not be taken into account in establishing the unit price for the purposes of this section.

(5) The amount generally reflected for profit and general expenses referred to in paragraph (1)(a) must be taken as a whole. The figure for the purpose of deducting an amount for profit and general expenses must be determined on the basis of information supplied by or on behalf of the producer unless the figures provided by the producer are inconsistent with those usually reflected in sales, in the country in which the producer is located, of materials of the same class or kind as the material being valued. If the figures provided by the producer are inconsistent with those figures, the amount for profit and general expenses must be based on relevant information other than that supplied by or on behalf of the producer.

(6) For the purposes of this section, general expenses are the direct and indirect costs of marketing the material in question.

(7) In determining either the commissions usually earned or the amount generally reflected for profit and general expenses under this section, the question as to whether certain materials are materials of the same class or kind as the material being valued must be determined on a case-by-case basis with reference to the circumstances involved. Sales in the country in which the producer is located of the narrowest group or range of materials of the same class or kind as the material being valued, for which the

necessary information can be provided, must be examined. For the purposes of this section, ''materials of the same class or kind'' includes materials imported from the same country as the material being valued as well as materials imported from other countries or acquired within the territory of the USMCA country in which the producer is located.

(8) For the purposes of subsection (2), the earliest date is the date by which sales of identical materials or similar materials are made, in sufficient quantity to establish the unit price, to other persons in the territory of the USMCA country in which the producer is located.

9 (1) Under this section, the value of a material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, is the sum of:

(a) The cost or value of the materials used in the production of the material being valued, as determined on the basis of the costs that are recorded on the books of the producer of the material,

(b) the cost of producing the material being valued, as determined on the basis of the costs that are recorded on the books of the producer of the material, and

(c) an amount for profit and general expenses equal to that usually reflected in sales

(i) where the material being valued is imported by the producer into the territory of the USMCA country in which the producer is located, to persons located in the territory of the USMCA country in which the producer is located by producers of materials of the same class or kind as the material being valued who are located in the country in which the material is produced, and

(ii) where the material being valued is acquired by the producer from another person located in the territory of the USMCA country in which the producer is located, to persons located in the territory of the USMCA country in which the producer is located by producers of materials of the same class or kind as the material being valued who are located in the country in which the producer is located.

(2) This value of a material, to the extent it is not are not already included under paragraph (a) or (b) must include the following costs and where the elements are supplied directly or indirectly to the producer of the material being valued by the producer free of charge or at a reduced cost for use in the production of that material,

(a) the value of elements referred to in subparagraph 4(1)(b)(i), determined in accordance with subsections 4(6) and (7), and

(b) the value of elements referred to in subparagraphs 4(1)(b)(ii) through (iv), determined in accordance with subsection 4(9) and reasonably allocated to the material in accordance with subsection 4(13).

(3) For purposes of paragraphs (1)(a) and (b), if the costs recorded on the books of the producer of the material relate to the production of other goods and materials as well as to the production of the material being valued, the costs referred to in paragraphs (1)(a) and (b) with respect to the material being valued must be those costs recorded on the books of the producer of the material that can be reasonably allocated to that material in accordance with Schedule V.

(4) The amount for profit and general expenses referred to in paragraph (1)(c) must be determined on the basis of information supplied by or on behalf of the producer of the material being valued unless the profit and general expenses figures that are supplied with that information are inconsistent with those usually reflected in sales by producers of materials of the same class or kind as the material being valued who are located in the country in which the material is produced or the producer is located, as the case may be. The information supplied must be prepared in a manner consistent with generally accepted accounting principles of the country in which the material being valued is produced. If the material is produced in the territory of a USMCA country, the information must be prepared in accordance with the Generally Accepted Accounting Principles set out in the authorities listed for that USMCA country in Schedule X.

(5) For purposes of paragraph (1)(c) and subsection (4), general expenses means the direct and indirect costs of producing and selling the material that are not included under paragraphs (1)(a) and (b).

(6) For purposes of subsection (4), the amount for profit and general expenses must be taken as a whole. If, in the information supplied by or on behalf of the producer of a material, the profit figure is low and the general expenses figure is high, the profit and general expense figures taken together may nevertheless be consistent with those usually reflected in sales of materials of the same class or kind as the material being valued. If the producer of a material can demonstrate that it is taking a nil or low profit on its sales of the material because of particular commercial circumstances, its actual profit and general expense figures must be taken into account, provided that the producer of the material has valid commercial reasons to justify them and its pricing policy reflects usual pricing policies in the branch of industry concerned. For an illustration of this, such a situation might occur if producers have been forced to lower prices temporarily because of an unforeseeable drop in demand, or if the producers sell the material to complement a range of materials and goods being produced in the country in which the material is sold and accept a low profit to maintain competitiveness. A further illustration is if a material was being

launched and the producer accepted a nil or low profit to offset high general expenses associated with the launch.

(7) If the figures for the profit and general expenses supplied by or on behalf of the producer of the material are not consistent with those usually reflected in sales of materials of the same class or kind as the material being valued that are made by other producers in the country in which that material is sold, the amount for profit and general expenses may be based on relevant information other than that supplied by or on behalf of the producer of the material.

(8) Whether certain materials are of the same class or kind as the material being valued will be determined on a case-by-case basis with reference to the circumstances involved. For purposes of determining the amount for profit and general expenses usually reflected under the provisions of this section, sales of the narrowest group or range of materials of the same class or kind, which includes the material being valued, for which the necessary information can be provided, shall be examined. For the purposes of this section, the materials of the same class or kind must be from the same country as the material being valued.

10 (1) If there is no transaction value under subsection 2(2) or the transaction value is unacceptable under subsection 2(3), and the value of the material cannot be determined under sections 5 through 9, the value of the material, referred to in subparagraph 8(1)(b)(ii) of these Regulations, must be determined under this section using reasonable means consistent with the principles and general provisions of this Schedule and on the basis of data available in the country in which the producer is located.

(2) The value of the material determined under this section must not be determined on the basis of

(a) a valuation system which provides for the acceptance of the higher of two alternative values;

(b) a cost of production other than the value determined in accordance with section 9;

(c) minimum values;

(d) arbitrary or fictitious values;

(e) if the material is produced in the territory of the USMCA country in which the producer is located, the price of the material for export from that territory; or

(f) if the material is imported, the price of the material for export to a country other than to the territory of the USMCA country in which the producer is located.

(3) To the greatest extent possible, the value of the material determined under this section must be based on the methods of valuation set out in sections 2 through 9, but a reasonable flexibility in the application of such methods would be in conformity with the aims and provisions of this section. For an illustration of this, under section 5, the requirement that the identical materials should be sold at or about the same time as the time the material being valued is shipped to the producer could be flexibly interpreted. Similarly, identical materials produced in a country other than the country in which the material is produced could be the basis for determining the value of the material, or the value of identical materials already determined under section 8 could be used. For another illustration, under section 6, the requirement that the similar materials should be sold at or about the same time as the material being valued are shipped to the producer could be flexibly interpreted. Likewise, similar materials produced in a country other than the country in which the material is produced could be the basis for determining the value of the material, or the value of similar materials already determined under the provisions of section 8 could be used. For a further illustration, under section 8, the ninety days requirement could be administered flexibly.

SCHEDULE VII (METHODS FOR DETERMINING THE VALUE OF NON-ORIGINATING MATERIALS THAT ARE IDENTICAL MATERIALS AND THAT ARE USED IN THE PRODUCTION OF A GOOD)

Definitions

1 The following definitions apply in this Schedule.

FIFO method means the method by which the value of non-originating materials first received in materials inventory, determined in accordance with section 8 of these Regulations, is considered to be the value of non-originating materials used in the production of the good first shipped to the buyer of the good;

identical materials means, with respect to a material, materials that are the same as that material in all respects, including physical characteristics, quality and reputation but excluding minor differences in appearance;

LIFO method means the method by which the value of non-originating materials last received in materials inventory, determined in accordance with section 8 of these Regulations, is considered to be the value of non-originating materials used in the production of the good first shipped to the buyer of the good;

materials inventory means, with respect to a single plant of the producer of a good, an inventory of non-originating materials that are identical materials and that are used in the production of the good;

rolling average method means the method by which the value of non-originating materials used in the production of a good that is shipped to the buyer of the good is based on the average value, calculated in accordance

with section 4, of the non-originating materials in materials inventory.

General

2 For purposes of subsections 5(13) and (14) and 7(10) of these Regulations, the following are the methods for determining the value of non-originating materials that are identical materials and are used in the production of a good:

(a) FIFO method;

(b) LIFO method; and

(c) rolling average method.

3 (1) If a producer of a good chooses, with respect to non-originating materials that are identical materials, any of the methods referred to in section 2, the producer may not use another of those methods with respect to any other non-originating materials that are identical materials and that are used in the production of that good or in the production of any other good.

(2) If a producer of a good produces the good in more than one plant, the method chosen by the producer must be used with respect to all plants of the producer in which the good is produced.

(3) The method chosen by the producer to determine the value of non-originating materials may be chosen at any time during the producer's fiscal year and may not be changed during that fiscal year.

Average Value for Rolling Average Method

4 (1) The average value of non-originating materials that are identical materials and that are used in the production of a good that is shipped to the buyer of the good is calculated by dividing:

(a) The total value of non-originating materials that are identical materials in materials inventory prior to the shipment of the good, determined in accordance with section 8 of these Regulations, by

(b) the total units of those non-originating materials in materials inventory prior to the shipment of the good.

(2) The average value calculated under subsection (1) is applied to the remaining units of non-originating materials in materials inventory.

APPENDIX ''EXAMPLES'' ILLUSTRATING THE APPLICATION OF THE METHODS FOR DETERMINING THE VALUE OF NON-ORIGINATING MATERIALS THAT ARE IDENTICAL MATERIALS AND THAT ARE USED IN THE PRODUCTION OF A GOOD

The following examples are based on the figures set out in the table below and on the following assumptions:

(a) Materials A are non-originating materials that are identical materials that are used in the production of Good A;

(b) one unit of Materials A is used to produce one unit of Good A;

(c) all other materials used in the production of Good A are originating materials; and

(d) Good A is produced in a single plant.

Materials Inventory (Receipts of Materials A)		Sales (Shipments of Good A)	
Date (M/D/Y)	Quantity (units)	Unit cost ($)	Quantity (units)
01/01/21	200	1.05	
01/03/21	1,000	1.00	
01/05/21	1,000	1.10	
01/08/21			500
01/09/21			500
01/10/21	1,000	1.05	
01/14/21			1,500
01/16/21	2,000	1.10	
01/18/21			1,500

* Unit cost is determined in accordance with section 8 of these Regulations.

Example 1: FIFO method

By applying the FIFO Method:

(1) The 200 units of Materials A received on 01/01/21 and valued at $1.05 per unit and 300 units of the 1,000 units of Material A received on 01/03/21 and valued at $1.00 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/08/21; therefore, the value of the non-originating materials used in the production of those goods is considered to be $510 [(200 units × $1.05) + (300 units × $1.00)];

(2) 500 units of the remaining 700 units of Materials A received on 01/03/21 and valued at $1.00 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/09/21; therefore, the value of the non-originating materials used in the production of those goods is considered to be $500 (500 units × $1.00);

(3) the remaining 200 units of the 1,000 units of Materials A received on 01/03/21 and valued at $1.00 per unit, the 1,000 units of Materials A received on 01/05/21 and valued at $1.10 per unit, and 300 units of the 1,000 units of Materials A received on 01/10/21 and valued at $1.05 per unit

are considered to have been used in the production of the 1,500 units of Good A shipped on 01/14/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,615 [(200 units × $1.00) + (1,000 units × $1.10) + (300 units x $1.05)]; and

(4) the remaining 700 units of the 1,000 units of Materials A received on 01/10/21 and valued at $1.05 per unit and 800 units of the 2,000 units of Materials A received on 01/16/21 and valued at $1.10 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/18/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,615 [(700 units × $1.05) + (800 units × $1.10)].

Example 2: LIFO Method

By applying the LIFO method:

(1) 500 units of the 1,000 units of Materials A received on 01/05/21 and valued at $1.10 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/08/21; therefore, the value of the non-originating materials used in the production of those goods is considered to be $550 (500 units × $1.10);

(2) the remaining 500 units of the 1,000 units of Materials A received on 01/05/21 and valued at $1.10 per unit are considered to have been used in the production of the 500 units of Good A shipped on 01/09/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $550 (500 units × $1.10);

(3) the 1,000 units of Materials A received on 01/10/21 and valued at $1.05 per unit and 500 units of the 1,000 units of Material A received on 01/03/21 and valued at $1.00 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/14/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,550 [(1,000 units × $1.05) + (500 units × $1.00)]; and

(4) 1,500 units of the 2,000 units of Materials A received on 01/16/21 and valued at $1.10 per unit are considered to have been used in the production of the 1,500 units of Good A shipped on 01/18/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $1,650 (1,500 units × $1.10).

Example 3: Rolling Average Method

The following table identifies the average value of non-originating Materials A as determined under the rolling average method. For purposes of this example, a new average value of non-originating Materials A is calculated after each receipt.

Materials inventory	Date (M/D/Y)	Quantity (units)	Unit cost* ($)	Total value ($)
Beginning Inventory	01/01/21	200	1.05	210
Receipt	01/03/21	1,000	1.00	1,000
AVERAGE VALUE	.....	1,200	1.008	1,210
Receipt	01/05/21	1,000	1.10	1,100
AVERAGE VALUE	.....	2,200	1.05	2,310
Shipment	01/08/21	500	1.05	525
AVERAGE VALUE	.....	1,700	1.05	1,785
Shipment	01/09/21	500	1.05	525
AVERAGE VALUE	.....	1,200	1.05	1,260
Receipt	01/16/21	2,000	1.10	2,200
AVERAGE VALUE	.....	3,200	1.08	3,460

* Unit cost is determined in accordance with section 8 of these Regulations.

By applying the rolling average method:

(1) The value of non-originating materials used in the production of the 500 units of Good A shipped on 01/08/21 is considered to be $525 (500 units × $1.05); and

(2) the value of non-originating materials used in the production of the 500 units of Good A shipped on 01/09/21 is considered to be $525 (500 units × $1.05).

SCHEDULE VIII (INVENTORY MANAGEMENT METHODS)

Part I Fungible Materials

Definitions

1 The following definitions apply in this Part,

average method means the method by which the origin of fungible materials withdrawn from materials inventory is based on the ratio, calculated under section 5, of originating materials and non-originating materials in materials inventory;

FIFO method means the method by which the origin of fungible materials first received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;

LIFO method means the method by which the origin of fungible materials last received in materials inventory is considered to be the origin of fungible materials first withdrawn from materials inventory;

materials inventory means,

(a) with respect to a producer of a good, an inventory of fungible materials that are used in the production of the good, and

(b) with respect to a person from whom the producer of the good acquired those fungible materials, an inventory from which fungible materials are sold or otherwise transferred to the producer of the good;

opening inventory means the materials inventory at the time an inventory management method is chosen;

origin identifier means any mark that identifies fungible materials as originating materials or non-originating materials.

General

2 The following inventory management methods may be used for determining whether fungible materials referred to in paragraph 8(18)(a) of these Regulations are:

(a) Specific identification method;

(b) FIFO method;

(c) LIFO method; and

(d) average method.

3 A producer of a good, or a person from whom the producer acquired the fungible materials that are used in the production of the good, may choose only one of the inventory management methods referred to in section 2, and, if the averaging method is chosen, only one averaging period in each fiscal year of that producer or person for the materials inventory.

Specific Identification Method

4 (1) Except as otherwise provided under subsection (2), if the producer or person referred to in section 3 chooses the specific identification method, the producer or person must physically segregate, in materials inventory, originating materials that are fungible materials from non-originating materials that are fungible materials.

(2) If originating materials or non-originating materials that are fungible materials are marked with an origin identifier, the producer or person need not physically segregate those materials under subsection (1) if the origin identifier remains visible throughout the production of the good.

Average Method

5 If the producer or person referred to in section 3 chooses the average method, the origin of fungible materials withdrawn from materials inventory is determined on the basis of the ratio of originating materials and non-originating materials in materials inventory that is calculated under sections 6 through 8.

6 (1) Except as otherwise provided in sections 7 and 8, the ratio is calculated with respect to a month or three-month period, at the choice of the producer or person, by dividing

(a) the sum of

(i) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period, by

(b) the sum of

(i) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating materials and non-originating materials that are fungible materials and that were received in materials inventory during that preceding one-month or three-month period.

(2) The ratio calculated with respect to a preceding month or three-month period under subsection (1) is applied to the fungible materials remaining in materials inventory at the end of the preceding month or three-month period.

7 (1) If the good is subject to a regional value-content requirement and the regional value content is calculated under the net cost method and the producer or person chooses to average over a period under subsections 7(15), 16(1) or (10) of these Regulations, the ratio is calculated with respect to that period by dividing

(a) the sum of

(i) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory at the beginning of the period, and

(ii) the total units of originating materials or non-originating materials that are fungible materials and that were received in materials inventory during that period, by

(b) the sum of

(i) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory at the beginning of the period, and

(ii) the total units of originating materials and non-originating materials that are fungible materials and that were received in materials inventory during that period.

(2) The ratio calculated with respect to a period under subsection (1) is applied to the fungible materials remaining in materials inventory at the end of the period.

8 (1) If the good is subject to a regional value-content requirement and the regional value content of that good is calculated under the transaction value method or the net cost method, the ratio is calculated with respect to each shipment of the good by dividing

(a) the total units of originating materials or non-originating materials that are fungible materials and that were in materials inventory prior to the shipment, by

(b) the total units of originating materials and non-originating materials that are fungible materials and that were in materials inventory prior to the shipment.

(2) The ratio calculated with respect to a shipment of a good under subsection (1) is applied to the fungible materials remaining in materials inventory after the shipment.

Manner of Dealing With Opening Inventory

9 (1) Except as otherwise provided under subsections (2) and (3), if the producer or person referred to in section 3 has fungible materials in opening inventory, the origin of those fungible materials is determined by

(a) identifying, in the books of the producer or person, the latest receipts of fungible materials that add up to the amount of fungible materials in opening inventory;

(b) identifying the origin of the fungible materials that make up those receipts; and

(c) considering the origin of those fungible materials to be the origin of the fungible materials in opening inventory.

(2) If the producer or person chooses the specific identification method and has, in opening inventory, originating materials or non-originating materials that are fungible materials and that are marked with an origin identifier, the origin of those fungible materials is determined on the basis of the origin identifier.

(3) The producer or person may consider all fungible materials in opening inventory to be non-originating materials.

Part II Fungible Goods

Definitions

10 The following definitions apply in this Part,

average method means the method by which the origin of fungible goods withdrawn from finished goods inventory is based on the ratio, calculated under section 14, of originating goods and non-originating goods in finished goods inventory;

FIFO method means the method by which the origin of fungible goods first received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

finished goods inventory means an inventory from which fungible goods are sold or otherwise transferred to another person;

LIFO method means the method by which the origin of fungible goods last received in finished goods inventory is considered to be the origin of fungible goods first withdrawn from finished goods inventory;

opening inventory means the finished goods inventory at the time an inventory management method is chosen;

origin identifier means any mark that identifies fungible goods as originating goods or non-originating goods.

General

11 The following inventory management methods may be used for determining whether fungible goods referred to in paragraph 8(18)(b) of these Regulations are originating goods:

(a) Specific identification method;

(b) FIFO method;

(c) LIFO method; and

(d) average method.

12 An exporter of a good, or a person from whom the exporter acquired the fungible good, may choose only one of the inventory management methods referred to in section 11, including only one averaging period in the case of the average method, in each fiscal year of that exporter or person for each finished goods inventory of the exporter or person.

Specific Identification Method

13 (1) Except as provided under subsection (2), if the exporter or person referred to in section 12 chooses the specific identification method, the exporter or person must physically segregate, in finished goods inventory, originating goods that are fungible goods from non-originating goods that are fungible goods.

(2) If originating goods or non-originating goods that are fungible goods are marked with an origin identifier, the exporter or person need not physically segregate those goods under subsection (1) if the origin identifier is visible on the fungible goods.

Average Method

14 (1) If the exporter or person referred to in section 12 chooses the average method, the origin of each shipment of fungible goods withdrawn from finished goods inventory during a month or three-month period, at the choice of the exporter or person, is determined on the basis of the ratio of originating goods and non-originating goods in finished goods inventory for the preceding one-month or three-month period that is calculated by dividing

(a) the sum of

(i) the total units of originating goods or non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating goods or non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period, by

(b) the sum of

(i) the total units of originating goods and non-originating goods that are fungible goods and that were in finished goods inventory at the beginning of the preceding one-month or three-month period, and

(ii) the total units of originating goods and non-originating goods that are fungible goods and that were received in finished goods inventory during that preceding one-month or three-month period.

(2) The ratio calculated with respect to a preceding month or three-month period under subsection (1) is applied to the fungible goods remaining in finished goods inventory at the end of the preceding month or three-month period.

Manner of Dealing With Opening Inventory

15 (1) Except as otherwise provided under subsections (2) and (3), if the exporter or person referred to in section 12 has fungible goods in opening inventory, the origin of those fungible goods is determined by

(a) identifying, in the books of the exporter or person, the latest receipts of fungible goods that add up to the amount of fungible goods in opening inventory;

(b) determining the origin of the fungible goods that make up those receipts; and

(c) considering the origin of those fungible goods to be the origin of the fungible goods in opening inventory.

(2) If the exporter or person chooses the specific identification method and has, in opening inventory, originating goods or non-originating goods that are fungible goods and that are marked with an origin identifier, the origin of those fungible goods is determined on the basis of the origin identifier.

(3) The exporter or person may consider all fungible goods in opening inventory to be non-originating goods.

APPENDIX A

''Examples'' Illustrating the Application of the Inventory Management Methods To Determine the Origin of Fungible Materials

The following examples are based on the figures set out in the table below and on the following assumptions:

(a) Originating Material A and non-originating Material A that are fungible materials are used in the production of Good A;

(b) one unit of Material A is used to produce one unit of Good A;

(c) Material A is only used in the production of Good A;

(d) all other materials used in the production of Good A are originating materials; and

(e) the producer of Good A exports all shipments of Good A to the territory of a USMCA country.

Materials inventory (Receipts of Material A)				Sales (Shipments of Good A)
Date (M/D/Y)	Quantity (units)	Unit cost *	Total value	Quantity (units)
12/18/20	100 (O [1])	$1.00	$ 100	
12/27/20	100 (N [2])	1.10	110	
01/01/21	200 (OI [3])			
01/01/21	1,000 (O)	1.00	1,000	
01/05/21	1,000 (N)	1.10	1,100	
01/10/21				100
01/10/21	1,000 (O)	1.05	1,050	
01/15/21				700
01/16/21	2,000 (N)	1.10	2,200	
01/20/21				1,000
01/23/21				900

* Unit cost is determined in accordance with section 8 of these Regulations.
[1] ''O'' denotes originating materials.
[2] ''N'' denotes non-originating materials.
[3] ''OI'' denotes opening inventory.

Example 1: FIFO Method

Good A is subject to a regional value-content requirement. Producer A is using the transaction value method to determine the regional value content of Good A.

By applying the FIFO method:

(1) The 100 units of originating Material A in opening inventory that were received in materials inventory on 12/18/20 are considered to have been used in the production of the 100 units of Good A shipped on 01/10/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $0;

(2) the 100 units of non-originating Material A in opening inventory that were received in materials inventory on 12/27/20 and 600 units of the 1,000 units of originating Material A that were received in materials inventory on 01/01/21 are considered to have been used in the production of the 700 units of Good A shipped on 01/15/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $110 (100 units × $1.10);

(3) the remaining 400 units of the 1,000 units of originating Material A that were received in materials inventory on 01/01/21 and 600 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/21 are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $660 (600 units × $1.10); and

(4) the remaining 400 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/21 and 500 units of the 1,000 units of originating Material A that were received in materials inventory on 01/10/21 are considered to have been used in the production of the 900 units of Good A shipped on 01/23/21; therefore, the value of non-originating materials used in the production of those goods is considered to be $440 (400 units × $1.10).

Example 2: LIFO Method

Good A is subject to a change in tariff classification requirement and the non-originating Material A used in the production of Good A does not undergo the applicable change in tariff classification. Therefore, if originating Material A is used in the production of Good A, Good A is an originating good and, if non-originating Material A is used in the production of Good A, Good A is a non-originating good.

By applying the LIFO method:

(1) 100 units of the 1,000 units of non-originating Material A that were received in materials inventory on 01/05/21 are considered to have been used in the production of the 100 units of Good A shipped on 01/10/21;

(2) 700 units of the 1,000 units of originating Material A that were received in materials inventory on 01/10/21 are considered to have been used in the production of the 700 units of Good A shipped on 01/15/21;

(3) 1,000 units of the 2,000 units of non-originating Material A that were received in materials inventory on 01/16/21 are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/21; and

(4) 900 units of the remaining 1,000 units of non-originating Material A that were received in materials inventory on 01/16/21 are considered to have been used in the production of the 900 units of Good A shipped on 01/23/21.

Example 3: Average Method

Good A is subject to an applicable regional value-content requirement. Producer A is using the transaction value method to determine the regional value content of Good A. Producer A determines the average value of non-originating Material A and the ratio of originating Material A to total value of originating Material A and non-originating Material A in the following table.

Material inventory			Sales					
(Receipts of Material A)			(Non-originating material)				(Shipments of Good A)	
	Date (M/D/Y)	Quantity (units)	Total value	Unit cost*	Quantity (units)	Total value	Ratio	Quantity (units)
Receipt	12/18/20	100 (O[1])	$ 100	$1.00				
Receipt	12/27/20	100 (N[2])	110	1.10	100	$ 110.00		
New AVG INV Value		200 (OI[3])	210	1.05	100	105.00	0.50	
Receipt	01/01/21	1,000 (O)	1,000	1.00				
New AVG INV Value		1,200	1,210	1.01	100	101.00	0.08	
Receipt	01/05/21	1,000 (N)	1,100	1.10	1,000	1,100.00		
New AVG INV Value		2,200	2,310	1.05	1,100	1,155.00	0.50	
Shipment	01/10/21	(100)	(105)	1.05	(50)	(52.50)		100
Receipt	01/10/21	1,000 (O)	1,050	1.05				
New AVG INV Value		3,100	3,255	1.05	1,050	1,102.50	0.34	
Shipment	01/15/21	(700)	(735)	1.05	(238)	(249.90)		700
Receipt	01/16/21	2,000 (N)	2,200	1.10	2,000	2,200.00		
New AVG INV Value		4,400	4,720	1.07	2,812	3,008.84	0.64	
Shipment	01/20/21	(1,000)	(1,070)	1.07	(640)	(684.80)		1,000
Shipment	01/23/21	(900)	(963)	1.07	(576)	(616.32)		900
New AVG INV Value		2,500	2,687	1.07	1,596	1,707.24	0.64	

*Unit cost is determined in accordance with section 8 of these Regulations.
[1]"O" denotes originating materials.
[2]"N" denotes non-originating materials.
[3]"OI" denotes opening inventory.

By applying the average method:

(1) Before the shipment of the 100 units of Material A on 01/10/21, the ratio of units of originating Material A to total units of Material A in materials inventory was .50 (1,100 units/2,200 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was .50 (1,100 units/2,200 units);

based on those ratios, 50 units (100 units × .50) of originating Material A and 50 units (100 units × .50) of non-originating Material A are considered to have been used in the production of the 100 units of Good A shipped on 01/10/21; therefore, the value of non-originating Material A used in the production of those goods is considered to be $52.50 [100 units × $1.05 (average unit value) × .50];

the ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,050 units (2,100 units × .50) are considered to be originating materials and 1,050 units (2,100 units × .50) are considered to be non-originating materials;

(2) before the shipment of the 700 units of Good A on 01/15/21, the ratio of units of originating Material A to total units of Material A in materials inventory was 66% (2,050 units/3,100 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 34% (1,050 units/3,100 units);

based on those ratios, 462 units (700 units × .66) of originating Material A and 238 units (700 units × .34) of non-originating Material A are considered to have been used in the production of the 700 units of Good A shipped on 01/15/21; therefore, the value of non-originating Material A used in the production of those goods is considered to be $249.90 [700 units × $1.05 (average unit value) × 34%];

the ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,584 units (2,400 units × .66) are considered to be originating materials and 816 units (2,400 units × .34) are considered to be non-originating materials;

(3) before the shipment of the 1,000 units of Material A on 01/20/21, the ratio of units of originating Material A to total units of Material A in materials inventory was 36% (1,584 units/4,400 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 64% (2,816 units/4,400 units);

based on those ratios, 360 units (1,000 units × .36) of originating Material A and 640 units (1,000 units × .64) of non-originating Material A are considered to have been used in the production of the 1,000 units of Good A shipped on 01/20/21; therefore, the value of non-originating Material A used in the production of those goods is considered to be $684.80 [1,000 units × $1.07 (average unit value) × 64%];

those ratios are applied to the units of Material A remaining in materials inventory after the shipment: 1,224 units (3,400 units × .36) are considered to be originating materials and 2,176 units (3,400 units × .64) are considered to be non-originating materials;

(4) before the shipment of the 900 units of Good A on 01/23/21, the ratio of units of originating Material A to total units of Material A in materials inventory was 36% (1,224 units/3,400 units) and the ratio of units of non-originating Material A to total units of Material A in materials inventory was 64% (2,176 units/3,400 units);

based on those ratios, 324 units (900 units × .36) of originating Material A and 576 units (900 units × .64) of non-originating Material A are considered to have been used in the production of the 900 units of Good A shipped on 01/23/21; therefore, the value of non-originating Material A used in the production of those goods is considered to be $616.32 [900 units × $1.07 (average unit value) × 64%];

those ratios are applied to the units of Material A remaining in materials inventory after the shipment: 900 units (2,500 units × .36) are considered to be originating materials and 1,600 units (2,500 units × .64) are considered to be non-originating materials.

Example 4: Average Method

Good A is subject to an applicable regional value-content requirement. Producer A is using the net cost method and is averaging over a period of one month under paragraph 7(15)(a) of these Regulations to determine the regional value content of Good A.

By applying the average method:

The ratio of units of originating Material A to total units of Material A in materials inventory for January 2021 is 40.4% (2,100 units/5,200 units);

based on that ratio, 1,091 units (2,700 units × .404) of originating Material A and 1,609 units (2,700 units—1,091 units) of non-originating Material A are considered to have been used in the production of the 2,700 units of Good A shipped in January 2021; therefore, the value of non-originating materials used in the production of those goods is considered to be $0.64 per unit [$5,560 (total value of Material A in materials inventory)/5,200 (units of Material A in materials inventory) = $1.07 (average unit value) × (1 − .404)] or $1,728 ($0.64 × 2,700 units); and

that ratio is applied to the units of Material A remaining in materials inventory on January 31, 2021: 1,010 units (2,500 units × .404) are considered to be originating materials and 1,490 units (2,500 units − 1,010 units) are considered to be non-originating materials.

Appendix B

''Examples'' Illustrating the Application of the Inventory Management Methods to Determine the Origin of Fungible Goods

The following examples are based on the figures set out in the table below and on the assumption that Exporter A acquires originating Good A and non-originating Good A that are fungible goods and physically combines or mixes Good A before exporting those goods to the buyer of those goods.

Finished goods inventory (Receipts of Good A)		Sales (Shipments of Good A)
Date (M/D/Y)	Quantity (units)	Quantity (units)
12/18/20	100 (O[1])	
12/27/20	100 (N[2])	
01/01/21	200 (OI[3])	
01/01/21	1,000 (O)	
01/05/21	1,000 (N)	
01/10/21		100
01/10/21	1,000 (O)	
01/15/21		700
01/16/21	2,000 (N)	
01/20/21		1,000
01/23/21		900

[1] "O" denotes originating goods.
[2] "N" denotes non-originating goods.
[3] "OI" denotes opening inventory.

Example 1: FIFO Method

By applying the FIFO method:

(1) The 100 units of originating Good A in opening inventory that were received in finished goods inventory on 12/18/20 are considered to be the 100 units of Good A shipped on 01/10/21;

(2) the 100 units of non-originating Good A in opening inventory that were received in finished goods inventory on 12/27/20 and 600 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/01/21 are considered to be the 700 units of Good A shipped on 01/15/21;

(3) the remaining 400 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/01/21 and 600 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/21 are considered to be the 1,000 units of Good A shipped on 01/20/21; and

(4) the remaining 400 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/21 and 500 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/10/21 are considered to be the 900 units of Good A shipped on 01/23/21.

Example 2: LIFO Method

By applying the LIFO method:

(1) 100 units of the 1,000 units of non-originating Good A that were received in finished goods inventory on 01/05/21 are considered to be the 100 units of Good A shipped on 01/10/21;

(2) 700 units of the 1,000 units of originating Good A that were received in finished goods inventory on 01/10/21 are considered to be the 700 units of Good A shipped on 01/15/21;

(3) 1,000 units of the 2,000 units of non-originating Good A that were received in finished goods inventory on 01/16/21 are considered to be the 1,000 units of Good A shipped on 01/20/21; and

(4) 900 units of the remaining 1,000 units of non-originating Good A that were received in finished goods inventory on 01/16/21 are considered to be the 900 units of Good A shipped on 01/23/21.

Example 3: Average Method

Exporter A chooses to determine the origin of Good A on a monthly basis. Exporter A exported 3,000 units of Good A during the month of February 2021. The origin of the units of Good A exported during that month is determined on the basis of the preceding month, that is January 2021.

By applying the average method:

The ratio of originating goods to all goods in finished goods inventory for the month of January 2021 is 40.4% (2,100 units/5,200 units);

based on that ratio, 1,212 units (3,000 units × .404) of Good A shipped in February 2021 are considered to be originating goods and 1,788 units (3,000 units − 1,212 units) of Good A are considered to be non-originating goods; and

that ratio is applied to the units of Good A remaining in finished goods inventory on January 31, 2021: 1,010 units (2,500 units × .404) are considered to be originating goods and 1,490 units (2,500 units − 1,010 units) are considered to be non-originating goods.

SCHEDULE IX (METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS)

Definitions and Interpretation

1 For purposes of this Schedule,

fixed-rate contract means a loan contract, instalment purchase contract or other financing agreement in which the interest rate remains constant throughout the life of the contract or agreement;

linear interpolation means, with respect to the interest rate issued by the federal government, the application of the following mathematical formula:

$$A + [((B - A) \times (E - D))/(C - D)]$$

where

A is the interest rate issued by the federal government debt obligations that are nearest in maturity but of shorter maturity than the weighted average principal maturity of the payment schedule under the fixed-rate contract or variable-rate contract to which they are being compared,

B is the interest rate issued by the federal government debt obligations that are nearest in maturity but of greater maturity than the weighted average principal maturity of that payment schedule,

C is the maturity of federal government debt obligations that are nearest in maturity but of greater maturity than the weighted average principal maturity of that payment schedule,

D is the maturity of federal government debt obligations that are nearest in maturity but of shorter maturity than the weighted average principal maturity of that payment schedule, and

E is the weighted average principal maturity of that payment schedule;

payment schedule means the schedule of payments, whether on a weekly, bi-weekly, monthly, yearly or other basis, of principal and interest, or any combination thereof, made by a producer to a lender in accordance with the terms of a fixed-rate contract or variable-rate contract;

variable-rate contract means a loan contract, instalment purchase contract or other financing agreement in which the interest rate is adjusted at intervals during the life of the contract or agreement in accordance with its terms;

weighted average principal maturity means, with respect to fixed-rate contracts and variable-rate contracts, the numbers of years, or portion thereof, that is equal to the number obtained by

(a) dividing the sum of the weighted principal payments,

(i) in the case of a fixed-rate contract, by the original amount of the loan, and

(ii) in the case of a variable-rate contract, by the principal balance at the beginning of the interest rate period for which the weighted principal payments were calculated, and

(b) rounding the amount determined under paragraph (a) to the nearest single decimal place and, if that amount is the midpoint between two such numbers, to the greater of those two numbers;

weighted principal payment means,

(a) with respect to fixed-rate contracts, the amount determined by multiplying each principal payment under the contract by the number of years, or portion thereof, between the date the producer entered into the contract and the date of that principal payment, and

(b) with respect to variable-rate contracts

(i) the amount determined by multiplying each principal payment made during the current interest rate period by the number of years, or portion thereof, between the beginning of that interest rate period and the date of that payment, and

(ii) the amount equal to the outstanding principal owing, but not necessarily due, at the end of the current interest rate period, multiplied by the number of years, or portion thereof, between the beginning and the end of that interest rate period;

interest rate issued by the federal government means

(a) in the case of a producer located in Canada, the weekly average of the yield for federal government debt obligations set out in the Bank of Canada's *Daily Digest*

(i) if the interest rate is adjusted at intervals of less than one year, under the title ''Treasury Bills—1 Month'', and

(ii) in any other case, under the title ''Government of Canada benchmark bond yields—3 Year'', for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract,

(b) in the case of a producer located in Mexico, the yield for federal government debt obligations set out in *La Seccion de Indicadores Monetarios, Financieros, y de Finanzas Publicas, de los Indicadores Economicos,* published by the Banco de Mexico under the title ''*Certificados de la Tesoreria de la Federacion''* for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract, and

(c) in the case of a producer located in the United States, the yield for federal government debt obligations set out in the Federal Reserve statistical release (H.15) *Selected Interest Rates*

(i) if the interest rate is adjusted at intervals of less than one year, under the title ''U.S. government securities, Treasury bills, Secondary market'', and

(ii) in any other case, under the title ''U.S. Government Securities, Treasury constant maturities'', for the week that the producer entered into the contract or the week of the most recent interest rate adjustment date, if any, under the contract.

General

2. For purposes of calculating non-allowable interest costs

(a) with respect to a fixed-rate contract, the interest rate under that contract must be compared with the interest rate issued by the federal government debt obligations that have maturities of the same length as the weighted average principal maturity of the payment schedule under the contract (that yield determined by linear interpolation, if necessary);

(b) with respect to a variable-rate contract

(i) in which the interest rate is adjusted at intervals of less than or equal to one year, the interest rate under that contract must be compared with the interest rate issued by the federal government on debt obligations that have maturities closest in length to the interest rate adjustment period of the contract, and

(ii) in which the interest rate is adjusted at intervals of greater than one year, the interest rate under the contract must be compared with the interest rate issued by the federal government on debt obligations that have maturities of the same length as the weighted average principal maturity of the payment schedule under the contract (that yield determined by linear interpolation, if necessary); and

(c) with respect to a fixed-rate or variable-rate contract in which the weighted average principal maturity of the payment schedule under the contract is greater than the maturities offered on federal government debt obligations, the interest rate under the contract must be compared to the interest rate issued by the federal government on debt obligations that have maturities closest in length to the weighted average principal maturity of the payment schedule under the contract.

APPENDIX ''EXAMPLE'' ILLUSTRATING THE APPLICATION OF THE METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS IN THE CASE OF A FIXED-RATE CONTRACT

The following example is based on the figures set out in the table below and on the following assumptions:

(a) *A producer in a USMCA country borrows $1,000,000 from a person of the same USMCA country under a fixed-rate contract;*

(b) *under the terms of the contract, the loan is payable in 10 years with interest paid at the rate of 6 per cent per year on the declining principal balance;*

(c) *the payment schedule calculated by the lender based on the terms of the contract requires the producer to make annual payments of principal and interest of $135,867.36 over the life of the contract;*

(d) *there are no federal government debt obligations that have maturities equal to the 6-year weighted average principal maturity of the contract; and*

(e) *the federal government debt obligations that are nearest in maturity to the weighted average principal maturity of the contract are of 5- and 7-year maturities, and the yields on them are 4.7 per cent and 5.0 per cent, respectively.*

Years of loan	Principal balance [1]	Interest payment [2]	Principal payment [3]	Payment schedule	Weighted principal payment [4]
1	$924,132.04	$60,000.00	$75,867.96	$135,867.96	$75,867.96
2	843,712.00	55,447.92	80,420.04	135,867.96	160,840.08
3	758,466.76	50,622.72	85,245.24	135,867.96	255,735.72
4	668,106.81	45,508.01	90,359.95	135,867.96	361,439.82
5	572,325.26	40,086.41	95,781.55	135,867.96	478,907.76
6	470,796.81	34,339.52	101,528.44	135,867.96	609,170.67
7	363,176.66	28,247.81	107,620.15	135,867.96	753,341.06
8	249,099.30	21,790.60	114,077.36	135,867.96	912,618.88
9	128,177.30	14,945.96	120,922.00	135,867.96	1,088,298.02
10	(0.00)	7,690.66	128,177.32	135.867.96	1,281,773.22
					$5,977,993.19

[1] The principal balance represents the loan balance at the end of each full year the loan is in effect and is calculated by subtracting the current year's principal payment from the prior year's ending loan balance.

[2] Interest payments are calculated by multiplying the prior year's ending loan balance by the contract interest rate of 6 per cent.

[3] Principal payments are calculated by subtracting the current year's interest payments from the annual payment schedule amount.

[4] The weighted principal payment is determined by, for each year of the loan, multiplying that year's principal payment by the number of years the loan had been in effect at the end of that year.

[5] The weighted average principal maturity of the contract is calculated by dividing the sum of the weighted principal payments by the original loan amount and rounding the amount determined to the nearest decimal place.

Weighted Average Principal Maturity

$5,977,993.19/$1,000,000 = 5.977993 or 6 years[5]

By applying the above method,

(1) the weighted average principal maturity of the payment schedule under the 6 per cent contract is 6 years;

(2) the yields on the closest maturities for comparable federal government debt obligations of 5 years and 7 years are 4.7 per cent and 5.0 per cent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity equal to the weighted average principal maturity of the contract is 4.85 per cent. This number is calculated as follows:

$$4.7 + [((5.0 - 4.7) \times (6 - 5))/(7 - 5)]$$
$$= 4.7 + 0.15$$
$$= 4.85\%; \text{ and}$$

(3) the producer's contract interest rate of 6 per cent is within 700 basis points of the 4.85 per cent yield on the comparable federal government debt obligation; therefore, none of the producer's interest costs are considered to be non-

allowable interest costs for purposes of the definition non-allowable interest costs in subsection 1(1) of these Regulations.

''EXAMPLE'' ILLUSTRATING THE APPLICATION OF THE METHOD FOR CALCULATING NON-ALLOWABLE INTEREST COSTS IN THE CASE OF A VARIABLE-RATE CONTRACT

The following example is based on the figures set out in the tables below and on the following assumptions:

(a) *a producer in a USMCA country borrows $1,000,000 from a person of the same USMCA country under a variable-rate contract;*

(b) *under the terms of the contract, the loan is payable in 10 years with interest paid at the rate of 6 per cent per year for the first two years and 8 per cent per year for the next two years on the principal balance, with rates adjusted each two years after that;*

(c) *the payment schedule calculated by the lender based on the terms of the contract requires the producer to make annual payments of principal and interest of $135,867.96 for the first two years of the loan, and of $146,818.34 for the next two years of the loan;*

(d) *there are no federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the first two years of the contract;*

(e) *there are no federal government debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the third and fourth years of the contract; and*

(f) *the federal government debt obligations that are nearest in maturity to the weighted average principal maturity of the contract are 1- and 2-year maturities, and the yields on them are 3.0 per cent and 3.5 per cent respectively.*

Beginning of year	Principal balance	Interest rate (%)	Interest payment	Principal payment	Payment schedule	Weighted principal payment
1	$1,000,000.00	6.00	$60,000.00	$75,867.96	$135,867.96	$75,867.96
2	*924,132.04*	6.00	55,447.92	80,420.04	135,867.96	1,848,264.08
						$1,924,132.04

Weighted Average Principal Maturity

$1,924,132.04/$1,000,000 = 1.92413204 or 1.9 years

By applying the above method:

(1) The weighted average principal maturity of the payment schedule of the first two years of the contract is 1.9 years;

(2) the yield on the closest maturities of federal government debt obligations of 1 year and 2 years are 3.0 and 3.5 per cent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity equal to the weighted average principal maturity of the payment schedule of the first two years of the contract is 3.45 per cent. This amount is calculated as follows:

3.0 + [((3.5 − 3.0) × (1.9 − 1.0))/(2.0 − 1.0)];
= 3.0 + 0.45
= 3.45%; and

(3) the producer's contract rate of 6 per cent for the first two years of the loan is within 700 basis points of the 3.45 per cent interest rate issued by the federal government on debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the payment schedule of the first two years of the producer's loan contract; therefore, none of the producer's interest costs are considered to be non-allowable interest costs for purposes of the definition non-allowable interest costs in subsection 1(1) of these Regulations.

Beginning of year	Principal balance	Interest rate (%)	Interest payment	Principal payment	Payment schedule	Weighted principal payment
1	$1,000,000.00	6.00	$60,000.00	$75,867.96	$135,867.96	
2	924,132.04	6.00	55,447.92	80,420.04	135,867.96	
3	843,712.01	8.00	67,496.96	79,321.38	146,818.34	$79,321.38
4	764,390.62	8.00	61,151.25	85,667.09	146,818.34	1,528,781.24
						$1,608,102.62

Weighted Average Principal Maturity

$1,608,102.62/$843,712.01 = 1.905985 or 1.9 years

By applying the above method:

(1) The weighted average principal maturity of the payment schedule under the first two years of the contract is 1.9 years;

(2) the federal government debt obligations that are nearest in maturities to the weighted average principal maturity of the contract are 1- and 2-year maturities, and the yields on them are 3.0 and 3.5 per cent, respectively; therefore, using linear interpolation, the yield on a federal government debt obligation that has a maturity

equal to the weighted average principal maturity of the payment schedule of the first two years of the contract is 3.45 per cent. This amount is calculated as follows:

3.0 + [((3.5 − 3.0) × (1.9 − 1.0))/(2.0 − 1.0)];
= 3.0 + 0.45
= 3.45%

(3) the producer's contract interest rate, for the third and fourth years of the loan, of 8 per cent is within 700 basis points of the 3.45 per cent interest rate issued by the federal government on debt obligations that have maturities equal to the 1.9-year weighted average principal maturity of the payment schedule under the third and fourth years of the producer's loan contract; therefore, none of the producer's interest costs are considered to be non-allowable interest costs for purposes of the definition non-allowable interest costs in subsection 1(1) of these Regulations.

SCHEDULE X (GENERALLY ACCEPTED ACCOUNTING PRINCIPLES)

1. Generally Accepted Accounting Principles means the recognized consensus or substantial authoritative support in the territory of a USMCA country with respect to the recording of revenues, expenses, costs, assets and liabilities, disclosure of information and preparation of financial statements. These standards may be broad guidelines of general application as well as detailed standards, practices and procedures.

2. For purposes of Generally Accepted Accounting Principles, the recognized consensus or authoritative support are referred to or set out in the following publications:

(a) With respect to the territory of Canada, *The Chartered Professional Accountants of Canada Handbook*, as updated from time to time;

(b) with respect to the territory of Mexico, *Los Principios de Contabilidad Generalmente Aceptados*, issued by the *Instituto Mexicano de Contadores Públicos A.C. (IMCP)*, including the *boletines complementarios*, as updated from time to time; and

(c) with respect to the territory of the United States, Financial Accounting Standards Board (FASB) Accounting Standards Codification and any interpretive guidance recognized by the American Institute of Certified Public Accountants (AICPA).

PART 190—MODERNIZED DRAWBACK

Sec.

Subpart S—Drawback Compliance Program

AUTHORITY: 5 U.S.C. 301; 19 U.S.C. 66, 1202 (General Note 3(i), Harmonized Tariff Schedule of the United States), 1313, 1624;
§§ 190.2, 190.10, 190.15, 190.23, 190.38, 190.51 issued under 19 U.S.C. 1508;
§ 190.84 also issued under 19 U.S.C. 1514;
§§ 190.111, 190.112 also issued under 19 U.S.C. 1309;
§§ 190.151(a)(1), 190.153, 190.157, 190.159 also issued under 19 U.S.C. 1557;
§§ 190.182–190.186 also issued under 19 U.S.C. 81c;
§§ 190.191–190.195 also issued under 19 U.S.C. 1593a.

SOURCE: 83 FR 64997, Dec. 18, 2018, unless otherwise noted.

§ 190.0 Scope.

This part sets forth general provisions applicable to all drawback claims and specialized provisions applicable to specific types of drawback claims filed under 19 U.S.C. 1313, as amended. For drawback claims and specialized provisions applicable to specific types of drawback claims filed pursuant to 19 U.S.C. 1313, as it was in effect on or before February 24, 2016, please see part 191 of this chapter. Additional drawback provisions relating to the North American Free Trade Agreement (NAFTA) are contained in subpart E of part 181 of this chapter, and provisions relating to the Agreement Between the United States of America, the United Mexican States, and Canada (USMCA) are contained in subpart E of part 182 of this chapter.

[83 FR 64997, Dec. 18, 2018, as amended by CBP Dec. 21–10, 86 FR 35594, July 6, 2021]

§ 190.0a Claims filed under NAFTA and USMCA.

Claims for drawback filed under the provisions of part 181 or part 182 of this chapter must be filed separately from claims filed under the provisions of this part.

[83 FR 64997, Dec. 18, 2018, as amended by CBP Dec. 21–10, 86 FR 35594, July 6, 2021]

Subpart A—General Provisions

§ 190.1 Authority of the Commissioner of CBP.

Pursuant to DHS Delegation number 7010.3, the Commissioner of CBP has the authority to prescribe, and pursuant to Treasury Order No. 100–16 (set forth in the appendix to part 0 of this chapter), the Secretary of the Treasury has the sole authority to approve, rules and regulations regarding drawback.

§ 190.2 Definitions.

For the purposes of this part:

Abstract. *Abstract* means the summary of the actual production records of the manufacturer.

Act. *Act*, unless indicated otherwise, means the Tariff Act of 1930, as amended.

Bill of materials. *Bill of materials* refers to a record that identifies each component incorporated into a manufactured or produced article (and includes components used in the manufacturing or production process). This may include a record kept in the normal course of business.

Designated merchandise. *Designated merchandise* means either eligible imported duty-paid merchandise or drawback products selected by the drawback claimant as the basis for a drawback claim under 19 U.S.C. 1313(b) or (j)(2), as applicable, or qualified articles selected by the claimant as the basis for drawback under 19 U.S.C. 1313(p).

Destruction. Destruction means the destruction of articles or merchandise to the extent that they have no commercial value. For purposes of 19 U.S.C. 1313(a), (b), (c), and (j), *destruction* also includes a process by which materials are recovered from imported merchandise or from an article manufactured from imported merchandise, as provided for in 19 U.S.C. 1313(x).

Direct identification drawback. Direct identification drawback includes drawback authorized pursuant to section 313(j)(1) of the Act, as amended (19 U.S.C. 1313(j)(1)), on imported merchandise exported, or destroyed under CBP supervision, without having been used in the United States (*see* also sections 313(c), (e), (f), (g), (h), and (q)). Direct identification is involved in manufacturing drawback pursuant to section 313(a) of the Act, as amended (19 U.S.C. 1313(a)), on imported merchandise used to manufacture or produce an article which is either exported or destroyed. Merchandise or articles may be identified for purposes of direct identification drawback by use of the accounting methods provided for in §190.14.

Document. In this part, *document* has its normal meaning and includes information input into and contained within an electronic data field, and electronic versions of hard-copy documents.

Drawback. Drawback, as authorized for payment by CBP, means the refund, in whole or in part, of the duties, taxes, and/or fees paid on imported merchandise, which were imposed under Federal law upon entry or importation, and the refund of internal revenue taxes paid on domestic alcohol as prescribed in 19 U.S.C. 1313(d). More broadly, drawback also includes the refund or remission of other excise taxes pursuant to other provisions of law.

Drawback claim. Drawback claim, as authorized for payment by CBP, means the drawback entry and related documents required by regulation which together constitute the request for drawback payment. All drawback claims must be filed electronically through a CBP-authorized Electronic Data Interchange system. More broadly, drawback claim also includes claims for refund or remission of other excise taxes pursuant to other provisions of law.

Drawback entry. Drawback entry means the document containing a description of, and other required information concerning, the exported or destroyed article upon which a drawback claim is based and the designated imported merchandise for which drawback of the duties, taxes, and fees paid upon importation is claimed. Drawback entries must be filed electronically.

Drawback office. Drawback office means any of the locations where drawback claims and related applications or requests may be submitted. CBP may, in its discretion, transfer or share work between the different drawback offices even though the submission may have been to a particular office.

Drawback product. A *drawback product* means a finished or partially finished product manufactured in the United States under the procedures in this part for manufacturing drawback. A drawback product may be exported, or destroyed under CBP supervision with a claim for drawback, or it may be used in the further manufacture of other drawback products by manufacturers or producers operating under the procedures in this part for manufacturing drawback, in which case drawback may be claimed upon exportation or destruction of the ultimate product. Products manufactured or produced from substituted merchandise (imported or domestic) also become ''drawback products'' when applicable substitution requirements of the Act are met. For purposes of section 313(b) of the Act, as amended (19 U.S.C. 1313(b)), drawback products may be designated as the basis for drawback or deemed to be substituted merchandise (*see* 19 U.S.C. 1313(b)). For a drawback product to be designated as the basis for a drawback claim, any transfer of the product must be properly documented (*see* §190.24).

Exportation. Exportation means the severance of goods from the mass of goods belonging to this country, with the intention of uniting them with the mass of goods belonging to some foreign country. An exportation may be deemed to have occurred when goods subject to drawback are admitted into a foreign trade zone in zone-restricted status, or are laden upon qualifying aircraft or vessels as aircraft or vessel

supplies in accordance with section 309(b) of the Act, as amended (19 U.S.C. 1309(b)) (*see* §§10.59 through 10.65 of this chapter).

Exporter. *Exporter* means that person who, as the principal party in interest in the export transaction, has the power and responsibility for determining and controlling the sending of the items out of the United States. In the case of ''deemed exportations'' (*see* definition of *exportation* in this section), *exporter* means that person who, as the principal party in interest in the transaction deemed to be an exportation, has the power and responsibility for determining and controlling the transaction. In the case of aircraft or vessel supplies under 19 U.S.C. 1309(b), *exporter* means the party who has the power and responsibility for lading supplies on the qualifying aircraft or vessel.

Filing. *Filing* means the electronic delivery to CBP of any document or documentation, as provided for in this part.

Formula. *Formula* refers to records that identify the quantity of each element, material, chemical, mixture, or other substance incorporated into a manufactured article (and includes those used in the manufacturing or production process). This includes records kept in the normal course of business.

Fungible merchandise or articles. *Fungible merchandise or articles* means merchandise or articles which for commercial purposes are identical and interchangeable in all situations.

General manufacturing drawback ruling. A *general manufacturing drawback ruling* means a description of a manufacturing or production operation for drawback and the regulatory requirements and interpretations applicable to that operation (*see* §190.7).

Intermediate party. Intermediate party means any party in the chain of commerce leading to the exporter (or destroyer) from the importer and who has acquired, purchased, or possessed the imported or substituted merchandise (or any intermediate or finished article, in the case of manufacturing drawback) as allowed under the applicable regulations for the type of drawback claimed, which authorize the transfer of the imported or other drawback eligible merchandise by that intermediate party to another party.

Manufacture or production. *Manufacture or production* means a process, including, but not limited to, an assembly, by which merchandise is either made into a new and different article having a distinctive name, character or use; or is made fit for a particular use even though it is not made into a new and different article.

Multiple products. *Multiple products* mean two or more products produced concurrently by a manufacture or production operation or operations.

Per unit averaging. *Per unit averaging* means the equal apportionment of the amount of duties, taxes, and fees eligible for drawback for all units covered by a single line item on an entry summary to each unit of merchandise. This method of refund calculation is required for certain substitution drawback claims (*see* §190.51(b)(ii)), which may also be subject to additional limitations under the ''lesser of'' rules, if applicable (*see* §190.22(a)(1)(ii) and 190.32(b)).

Possession. *Possession*, for purposes of substitution unused merchandise drawback (19 U.S.C. 1313(j)(2)), means physical or operational control of the merchandise, including ownership while in bailment, in leased facilities, in transit to, or in any other manner under the operational control of, the party claiming drawback.

Records. *Records* include, but are not limited to, written or electronic business records, statements, declarations, documents and electronically generated or machine readable data which pertain to a drawback claim or to the information contained in the records required by Chapter 4 of Title 19, United States Code, in connection with the filing of a drawback claim and which may include records normally kept in the ordinary course of business (*see* 19 U.S.C. 1508).

Relative value. *Relative value* means, except for purposes of §190.51(b), the value of a product divided by the total value of all products which are necessarily manufactured or produced concurrently in the same operation. Relative value is based on the market value, or other value approved by CBP, of each such product determined as of

the time it is first separated in the manufacturing or production process. Market value is generally measured by the selling price, not including any packaging, transportation, or other identifiable costs, which accrue after the product itself is processed. Drawback must be apportioned to each such product based on its relative value at the time of separation.

Schedule. A *schedule* means a document filed by a drawback claimant, under section 313(a) or (b), as amended (19 U.S.C. 1313(a) or (b)), showing the quantity of imported or substituted merchandise used in or appearing in each article exported or destroyed that justifies a claim for drawback.

Schedule B. Schedule B means the Department of Commerce Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States.

Sought chemical element. A *sought chemical element*, under section 313(b), means an element listed in the Periodic Table of Elements that is imported into the United States or a chemical compound (a distinct substance formed by a chemical union of two or more elements in definite proportion by weight) consisting of those elements, either separately in elemental form or contained in source material.

Specific manufacturing drawback ruling. A *specific manufacturing drawback ruling* means a letter of approval (or its electronic equivalent) issued by CBP Headquarters in response to an application filed by a manufacturer or producer for a ruling on a specific manufacturing or production operation for drawback, as described in the format in Appendix B of this part. Specific manufacturing drawback rulings are subject to the provisions in part 177 of this chapter.

Substituted merchandise or articles. Substituted merchandise or articles means merchandise or articles that may be substituted as follows:

(1) For manufacturing drawback pursuant to section 1313(b), substituted merchandise must be classifiable under the same 8-digit HTSUS subheading number as the designated imported merchandise;

(2) For rejected merchandise drawback pursuant to section 1313(c)(2), substituted merchandise must be classifiable under the same 8-digit HTSUS subheading number and have the same specific product identifier (such as part number, SKU, or product code) as the designated imported merchandise;

(3) For unused merchandise drawback pursuant to section 1313(j)(2), substituted merchandise must be classifiable under the same 8-digit HTSUS subheading number as the designated imported merchandise except for wine which may also qualify pursuant to §190.32(d), but when the 8-digit HTSUS subheading number under which the imported merchandise is classified begins with the term ''other,'' then the other merchandise may be substituted for imported merchandise for drawback purposes if the other merchandise and such imported merchandise are classifiable under the same 10-digit HTSUS statistical reporting number and the article description for that 10-digit HTSUS statistical reporting number does not begin with the term ''other''; but when the first 8 digits of the 10-digit Schedule B number applicable to the exported merchandise are the same as the first 8 digits of the HTSUS subheading number under which the imported merchandise is classified, the merchandise may be substituted (without regard to whether the Schedule B number corresponds to more than one 8-digit HTSUS subheading number); and

(4) For substitution drawback of finished petroleum derivatives pursuant to section 1313(p), a substituted article must be of the same kind and quality as the qualified article for which it is substituted, that is, the articles must be commercially interchangeable or described in the same 8-digit HTSUS subheading number (*see* §190.172(b)).

Unused merchandise. Unused merchandise means, for purposes of unused merchandise drawback claims, imported merchandise or other merchandise upon which either no operations have been performed or upon which any operation or combination of operations has been performed (including, but not limited to, testing, cleaning, repacking, inspecting, sorting, refurbishing,

freezing, blending, repairing, reworking, cutting, slitting, adjusting, replacing components, relabeling, disassembling, and unpacking), but which does not amount to a manufacture or production for drawback purposes under 19 U.S.C. 1313(a) or (b).

Verification. *Verification* means the examination of any and all records, maintained by the claimant, or any party involved in the drawback process, which are required by the appropriate CBP officer to render a meaningful recommendation concerning the drawback claimant's conformity to the law and regulations and the determination of supportability, correctness, and validity of the specific claim or groups of claims being verified.

Wine. *Wine*, for purposes of substitution unused merchandise drawback under 19 U.S.C. 1313(j)(2) and pursuant to the alternative standard for substitution (*see* 19 CFR 190.32(d)), refers to table wine. Consistent with Alcohol and Tobacco Tax and Trade Bureau (TTB) regulations, table wine is a ''Class 1 grape wine'' that satisfies the requirements of 27 CFR 4.21(a)(1) and having an alcoholic content not in excess of 14 percent by volume pursuant to 27 CFR 4.21(a)(2)).

§ 190.3 Duties, taxes, and fees subject or not subject to drawback.

(a) Drawback is allowable pursuant to 19 U.S.C. 1313 on duties, taxes, and fees paid on imported merchandise which were imposed under Federal law upon entry or importation, including:

(1) Ordinary customs duties, including:

(i) Duties paid on an entry, or withdrawal from warehouse, for consumption for which liquidation has become final;

(ii) Estimated duties paid on an entry, or withdrawal from warehouse, for consumption, for which liquidation has not become final, subject to the conditions and requirements of § 190.81(b); and

(iii) Tenders of duties after liquidation of the entry, or withdrawal from warehouse, for consumption for which the duties are paid, subject to the conditions and requirements of § 190.81(c), including:

(A) Voluntary tenders (for purposes of this section, a ''voluntary tender'' is a payment of duties on imported merchandise in excess of duties included in the liquidation of the entry, or withdrawal from warehouse, for consumption, provided that the liquidation has become final and that the other conditions of this section and § 190.81 are met);

(B) Tenders of duties in connection with notices of prior disclosure under 19 U.S.C. 1592(c)(4); and

(C) Duties restored under 19 U.S.C. 1592(d).

(2) Marking duties assessed under section 304(c), Tariff Act of 1930, as amended (19 U.S.C. 1304(c));

(3) Internal revenue taxes which attach upon importation;

(4) Merchandise processing fees (*see* § 24.23 of this chapter); and

(5) Harbor maintenance taxes (*see* § 24.24 of this chapter).

(b) Drawback is not allowable on antidumping and countervailing duties which were imposed on any merchandise entered, or withdrawn from warehouse, for consumption (*see* 19 U.S.C. 1677h).

(c) Drawback is not allowed when the identified merchandise, the designated imported merchandise, or the substituted merchandise (when applicable), consists of an agricultural product which is duty-paid at the over-quota rate of duty established under a tariff-rate quota, except that:

(1) Agricultural products as described in this paragraph are eligible for drawback under 19 U.S.C. 1313(j)(1); and

(2) Tobacco otherwise meeting the description of agricultural products in this paragraph is eligible for drawback under 19 U.S.C. 1313(j)(1) or 19 U.S.C. 1313(a).

§ 190.4 Merchandise in which a U.S. Government interest exists.

(a) *Restricted meaning of Government*. A U.S. Government instrumentality operating with nonappropriated funds is considered a Government entity within the meaning of this section.

(b) *Allowance of drawback*. If the merchandise is sold to the U.S. Government, drawback will be available only to the:

(1) Department, branch, agency, or instrumentality of the U.S. Government which purchased it; or

(2) Supplier, or any of the parties specified in § 190.82, provided the claim is supported by documentation signed by a proper officer of the department, branch, agency, or instrumentality concerned certifying that the right to drawback was reserved by the supplier or other parties with the knowledge and consent of the department, branch, agency, or instrumentality.

(c) *Bond.* No bond will be required when a U.S. Government entity claims drawback.

§ 190.5 Guantanamo Bay, insular possessions, trust territories.

Guantanamo Bay Naval Station is considered foreign territory for drawback purposes and, accordingly, drawback may be permitted on articles shipped there from the customs territory of the United States. Drawback is not allowed, except on claims made under 19 U.S.C. 1313(j)(1), on articles shipped from the customs territory of the United States to the U.S. Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, Guam, Canton Island, Enderbury Island, Johnston Island, or Palmyra Island. *See* 19 U.S.C. 1313(y). Puerto Rico, which is part of the customs territory of the United States, is not considered foreign territory for drawback purposes and, accordingly, drawback may not be permitted on articles shipped there from elsewhere in the customs territory of the United States.

§ 190.6 Authority to sign or electronically certify drawback documents.

(a) Documents listed in paragraph (b) of this section must be signed or electronically certified only by one of the following:

(1) The president, a vice president, secretary, treasurer, or any other employee legally authorized to bind the corporation;

(2) A full partner of a partnership;

(3) The owner of a sole proprietorship;

(4) Any employee of the business entity with a power of attorney;

(5) An individual acting on his or her own behalf; or

(6) A licensed customs broker with a power of attorney to sign the applicable drawback document.

(b) The following documents require execution in accordance with paragraph (a) of this section:

(1) Drawback entries;

(2) Notices of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback;

(3) Certifications to assign the right to claim drawback (*see* §§ 190.28 and 190.82); and

(4) Abstracts, schedules and extracts from monthly abstracts, and bills of materials and formulas, if not included as part of a drawback claim.

(c) The following documents (*see* also part 177 of this chapter) may be executed by one of the persons described in paragraph (a) of this section or by any other individual legally authorized to bind the person (or entity) for whom the document is executed:

(1) A letter of notification of intent to operate under a general manufacturing drawback ruling under § 190.7;

(2) An application for a specific manufacturing drawback ruling under § 190.8;

(3) An application for waiver of prior notice under § 190.91 or a 1-time waiver of prior notice under § 190.36;

(4) An application for approval of accelerated payment of drawback under § 190.92; and

(5) An application for certification in the Drawback Compliance Program under § 190.193.

§ 190.7 General manufacturing drawback ruling.

(a) *Purpose; eligibility.* General manufacturing drawback rulings are designed to simplify drawback for certain common manufacturing operations but do not preclude or limit the use of applications for specific manufacturing drawback rulings (*see* § 190.8). A manufacturer or producer engaged in an operation that falls within a published general manufacturing drawback ruling may submit a letter of notification of intent to operate under that general ruling. Where a separately-incorporated subsidiary of a parent corporation is engaged in manufacture or production for drawback, the subsidiary is the proper party to submit the letter of

notification, and cannot operate under a letter of notification submitted by the parent corporation.

(b) *Procedures*—(1) *Publication*. General manufacturing drawback rulings are contained in Appendix A to this part. As deemed necessary by CBP, new general manufacturing drawback rulings will be issued as CBP Decisions and added to the appendix thereafter.

(2) *Submission*. Letters of notification of intent to operate under a general manufacturing drawback ruling must be submitted to any drawback office where drawback entries will be filed, concurrent with or prior to filing a claim, provided that the general manufacturing drawback ruling will be followed without variation. If there is any variation from the general manufacturing drawback ruling, the manufacturer or producer must apply for a specific manufacturing drawback ruling under §190.8.

(3) *Information required*. Each manufacturer or producer submitting a letter of notification of intent to operate under a general manufacturing drawback ruling under this section must provide the following specific detailed information:

(i) Name and address of manufacturer or producer (if the manufacturer or producer is a separately-incorporated subsidiary of a corporation, the subsidiary corporation must submit a letter of notification in its own name);

(ii) In the case of a business entity, the names of the persons listed in §190.6(a)(1) through (6) who will sign drawback documents;

(iii) Locations of the factories which will operate under the letter of notification;

(iv) Identity (by T.D. or CBP Decision number and title) of the general manufacturing drawback ruling under which the manufacturer or producer will operate;

(v) Description of the merchandise and articles, unless specifically described in the general manufacturing drawback ruling, and the applicable 8-digit HTSUS subheading number(s) for imported merchandise that will be designated as part of substitution manufacturing drawback claims;

(vi) Description of the manufacturing or production process, unless specifically described in the general manufacturing drawback ruling;

(vii) Basis of claim used for calculating drawback; and

(viii) IRS (Internal Revenue Service) number (with suffix) of the manufacturer or producer.

(c) *Review and action by CBP*. The drawback office to which the letter of notification of intent to operate under a general manufacturing drawback ruling was submitted will review the letter of notification of intent.

(1) *Acknowledgment*. The drawback office will promptly issue a letter acknowledging receipt of the letter of intent and authorizing the person to operate under the identified general manufacturing drawback ruling, subject to the requirements and conditions of that general manufacturing drawback ruling and the law and regulations, to the person who submitted the letter of notification if:

(i) The letter of notification is complete (*i.e.*, contains the information required in paragraph (b)(3) of this section);

(ii) The general manufacturing drawback ruling identified by the manufacturer or producer is applicable to the manufacturing or production process;

(iii) The general manufacturing drawback ruling identified by the manufacturer or producer will be followed without variation; and

(iv) The described manufacturing or production process is a manufacture or production as defined in §190.2.

(2) *Computer-generated number*. With the letter of acknowledgment the drawback office will include the unique computer-generated number assigned to the acknowledgment of the letter of notification of intent to operate. This number must be stated when the person files manufacturing drawback claims with CBP under the general manufacturing drawback ruling.

(3) *Non-conforming letters of notification of intent*. If the letter of notification of intent to operate does not meet the requirements of paragraph (c)(1) of this section in any respect, the drawback office will promptly and in writing specifically advise the person of this fact and why this is so. A letter of notification of intent to operate which

is not acknowledged may be resubmitted to the drawback office to which it was initially submitted with modifications and/or explanations addressing the reasons CBP may have given for non-acknowledgment, or the matter may be referred (by letter from the manufacturer or producer) to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade).

(d) *Procedure to modify a general manufacturing drawback ruling.* Modifications are allowed under the same procedure terms as provided for in §190.8(g) for specific manufacturing drawback rulings.

(e) *Duration.* Acknowledged letters of notification under this section will remain in effect under the same terms as provided for in §190.8(h) for specific manufacturing drawback rulings.

§ 190.8 Specific manufacturing drawback ruling.

(a) *Applicant.* Unless operating under a general manufacturing drawback ruling (*see* §190.7), each manufacturer or producer of articles intended to be claimed for drawback must apply for a specific manufacturing drawback ruling. Where a separately-incorporated subsidiary of a parent corporation is engaged in manufacture or production for drawback, the subsidiary is the proper party to apply for a specific manufacturing drawback ruling, and cannot operate under any specific manufacturing drawback ruling approved in favor of the parent corporation.

(b) *Sample application.* Sample formats for applications for specific manufacturing drawback rulings are contained in Appendix B to this part.

(c) *Content of application.* The application of each manufacturer or producer must include the following information as applicable:

(1) Name and address of the applicant;

(2) Internal Revenue Service (IRS) number (with suffix) of the applicant;

(3) Description of the type of business in which engaged;

(4) Description of the manufacturing or production process, which shows how the designated and substituted merchandise is used to make the article that is to be exported or destroyed;

(5) In the case of a business entity, the names of persons listed in §190.6(a)(1) through (6) who will sign drawback documents;

(6) Description of the imported merchandise including specifications and applicable 8-digit HTSUS subheading(s);

(7) Description of the exported article and applicable 8-digit HTSUS subheadings;

(8) How manufacturing drawback is calculated;

(9) Summary of the records kept to support claims for drawback; and

(10) Identity and address of the recordkeeper if other than the claimant.

(d) *Submission of application.* An application for a specific manufacturing drawback ruling must be submitted to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade). Applications may be physically delivered (in triplicate) or submitted via email. Claimants must indicate if drawback claims are to be filed under the ruling at more than one drawback office.

(e) *Review and action by CBP.* CBP Headquarters will review each application for a specific manufacturing drawback ruling.

(1) *Approval.* If the application is consistent with the drawback law and regulations, CBP Headquarters will issue a letter of approval to the applicant and will upload a copy of the application for the specific manufacturing drawback ruling to the Automated Commercial Environment (ACE) along with a copy of the letter of approval. Each specific manufacturing drawback ruling will be assigned a unique manufacturing number which will be included in the letter of approval to the applicant from CBP Headquarters, which must be used when filing manufacturing drawback claims.

(2) *Disapproval.* If the application is not consistent with the drawback law and regulations, CBP Headquarters will promptly and in writing inform the applicant that the application cannot be approved and will specifically advise the applicant why this is so. A disapproved application may be resubmitted with modifications and/or explanations addressing the reasons

given for disapproval; a disapproval may be appealed to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade).

(f) *Schedules and supplemental schedules.* When an application for a specific manufacturing drawback ruling states that drawback is to be based upon a schedule, as defined in §190.2, filed by the manufacturer or producer, the schedule will be reviewed by CBP Headquarters. The application may include a request for authorization for the filing of supplemental schedules with the drawback office where claims are filed.

(g) *Procedure to modify a specific manufacturing drawback ruling*—(1) *Supplemental application.* Except as provided for limited modifications in paragraph (g)(2) of this section, a manufacturer or producer desiring to modify an existing specific manufacturing drawback ruling may submit a supplemental application for such modification to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade). Such a supplemental application may, at the discretion of the manufacturer or producer, be in the form of the original application, or it may identify the specific manufacturing drawback ruling to be modified (by T.D. or CBP Decision number, if applicable, and unique computer-generated number) and include only those paragraphs of the application that are to be modified, with a statement that all other paragraphs are unchanged and are incorporated by reference in the supplemental application.

(2) *Limited modifications.* (i) A supplemental application for a specific manufacturing drawback ruling must be submitted to the drawback office where the original claim(s) was filed if the modifications are limited to:

(A) The location of a factory, or the addition of one or more factories where the methods followed and records maintained are the same as those at another factory operating under the existing specific manufacturing drawback ruling of the manufacturer or producer;

(B) The succession of a sole proprietorship, partnership or corporation to the operations of a manufacturer or producer;

(C) A change in name of the manufacturer or producer;

(D) A change in the persons who will sign drawback documents in the case of a business entity;

(E) A change in the basis of claim used for calculating drawback;

(F) A change in the decision to use or not to use an agent under §190.9, or a change in the identity of an agent under that section;

(G) A change in the drawback office where claims will be filed under the ruling (*see* paragraph (g)(2)(iii) of this section);

(H) An authorization to continue operating under a ruling approved under 19 CFR part 191 (*see* paragraph (g)(2)(iv) of this section); or

(I) Any combination of the foregoing changes.

(ii) A limited modification, as provided for in this paragraph (g)(2), must contain only the modifications to be made, in addition to identifying the specific manufacturing drawback ruling and being signed by an authorized person. To effect a limited modification, the manufacturer or producer must file with the drawback office(s) where claims were originally filed a letter stating the modifications to be made. The drawback office will promptly acknowledge acceptance of the limited modifications.

(iii) To transfer a claim to another drawback office, the manufacturer or producer must file with the second drawback office where claims will be filed, a written application to file claims at that office, with a copy of the application and approval letter under which claims are currently filed. The manufacturer or producer must provide a copy of the written application to file claims at the new drawback office to the drawback office where claims are currently filed.

(iv) To file a claim under this part based on a ruling approved under 19 CFR part 191, the manufacturer or producer must file a supplemental application for a limited modification no later than February 23, 2019, which provides the following:

(A) Revised parallel columns with the required annotations for the applicable 8-digit HTSUS subheading number(s);

(B) Revised bill of materials or formula with the required annotations for the applicable 8-digit HTSUS subheading number(s); and

(C) A certification of continued compliance, which states: ''The undersigned acknowledges the current statutory requirements under 19 U.S.C. 1313 and the regulatory requirements in 19 CFR part 190, and hereby certifies its continuing eligibility for operating under the manufacturing drawback ruling in compliance therewith.''

(h) *Duration.* Subject to 19 U.S.C. 1625 and part 177 of this chapter, a specific manufacturing drawback ruling under this section will remain in effect indefinitely unless:

(1) No drawback claim is filed under the ruling for a period of 5 years and notice of termination is published in the Customs Bulletin; or

(2) The manufacturer or producer to whom approval of the ruling was issued files a request to terminate the ruling, in writing, with CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade).

§ 190.9 Agency.

(a) *General.* An owner of the identified merchandise, the designated imported merchandise and/or the substituted merchandise that is used to produce the exported articles may employ another person to do part, or all, of the manufacture or production under 19 U.S.C. 1313(a) or (b) and as defined in § 190.2. For purposes of this section, such owner is the principal and such other person is the agent. Under 19 U.S.C. 1313(b), the principal will be treated as the manufacturer or producer of merchandise used in manufacture or production by the agent. The principal must be able to establish by its manufacturing records, the manufacturing records of its agent(s), or the manufacturing records of both (or all) parties, compliance with all requirements of this part (*see*, in particular, § 190.26).

(b) *Requirements*—(1) *Contract.* The manufacturer must establish that it is the principal in a contract between it and its agent who actually does the work on either the designated or substituted merchandise, or both, for the principal. The contract must include:

(i) Terms of compensation to show that the relationship is an agency rather than a sale;

(ii) How transfers of merchandise and articles will be recorded by the principal and its agent;

(iii) The work to be performed on the merchandise by the agent for the principal;

(iv) The degree of control that is to be exercised by the principal over the agent's performance of work;

(v) The party who is to bear the risk of loss on the merchandise while it is in the agent's custody; and

(vi) The period that the contract is in effect.

(2) *Ownership of the merchandise by the principal.* The records of the principal and/or the agent must establish that the principal had legal and equitable title to the merchandise before receipt by the agent. The right of the agent to assert a lien on the merchandise for work performed does not derogate the principal's ownership interest under this section.

(3) *Sales prohibited.* The relationship between the principal and agent must not be that of a seller and buyer. If the parties' records show that, with respect to the merchandise that is the subject of the principal-agent contract, the merchandise is sold to the agent by the principal, or the articles manufactured by the agent are sold to the principal by the agent, those records are inadequate to establish existence of a principal-agency relationship under this section.

(c) *Specific manufacturing drawback rulings; general manufacturing drawback rulings*—(1) *Owner.* An owner who intends to operate under the principal-agent procedures of this section must state that intent in any letter of notification of intent to operate under a general manufacturing drawback ruling filed under § 190.7 or in any application for a specific manufacturing drawback ruling filed under § 190.8.

(2) *Agent.* Each agent operating under this section must have filed a letter of notification of intent to operate under

a general manufacturing drawback ruling (*see* §190.7), for an agent, covering the articles manufactured or produced, or have obtained a specific manufacturing drawback ruling (*see* §190.8), as appropriate.

(d) *Certificate*—(1) *Contents of certificate*. The principal for whom processing is conducted under this section must file, with any drawback claim, a certificate, subject to the recordkeeping requirements of §§190.15 and 190.26, certifying that upon request by CBP it can establish the following:

(i) Quantity of merchandise transferred from the principal to the agent;

(ii) Date of transfer of the merchandise from the principal to the agent;

(iii) Date of manufacturing or production operations performed by the agent;

(iv) Total quantity, description, and 10-digit HTSUS classification of merchandise appearing in or used in manufacturing or production operations performed by the agent;

(v) Total quantity, description, and 10-digit HTSUS classification of articles produced in manufacturing or production operations performed by the agent;

(vi) Quantity and 10-digit HTSUS classification of articles transferred from the agent to the principal; and

(vii) Date of transfer of the articles from the agent to the principal.

(2) *Blanket certificate*. The certificate required under paragraph (d)(1) of this section may be a blanket certificate for a stated period.

§190.10 Transfer of merchandise.

(a) *Ability to transfer merchandise*. (1) A party may transfer drawback eligible merchandise or articles to another party, provided that the transferring party:

(i) Imports and pays duties, taxes, and/or fees on such imported merchandise;

(ii) Receives such imported merchandise;

(iii) In the case of 19 U.S.C. 1313(j)(2), receives such imported merchandise, substituted merchandise, or any combination of such imported and substituted merchandise; or

(iv) Receives an article manufactured or produced under 19 U.S.C. 1313(a) and/or (b).

(2) The transferring party must maintain records that:

(i) Document the transfer of that merchandise or article;

(ii) Identify such merchandise or article as being that to which a potential right to drawback exists; and

(iii) Assign such right to the transferee (*see* §190.82).

(b) *Required records*. The records that support the transfer must include the following information:

(1) The party to whom the merchandise or articles are delivered;

(2) Date of physical delivery;

(3) Import entry number and entry line item number;

(4) Quantity delivered and, for substitution claims, total quantity attributable to the relevant import entry line item number;

(5) Total duties, taxes, and fees paid on, or attributable to, the delivered merchandise, and, for substitution claims, total duties, taxes, and fees paid on, or attributable to, the relevant import entry line item number;

(6) Date of importation;

(7) Port where import entry filed;

(8) Person from whom received;

(9) Description of the merchandise delivered;

(10) The 10-digit HTSUS classification for the designated imported merchandise (such HTSUS number must be from the entry summary line item and other entry documentation for the merchandise); and

(11) If the merchandise transferred is substituted for the designated imported merchandise under 19 U.S.C. 1313(j)(2), the 10-digit HTSUS classification of the substituted merchandise (as if it had been imported).

(c) *Line item designation for partial transfers of merchandise*. Regardless of any agreement between the transferor and the transferee, the method used for the first filed claim relating to merchandise reported on that entry summary line item will be the exclusive basis for the calculation of refunds (either using per unit averaging or not) for any subsequent claims for any other merchandise reported on that

same entry summary line item. *See* § 190.51(a)(3).

(d) *Retention period.* The records listed in paragraph (b) of this section must be retained by the issuing party for 3 years from the date of liquidation of the related claim or longer period if required by law (*see* 19 U.S.C. 1508(c)(3)).

(e) *Submission to CBP.* If the records required under paragraph (b) of this section or additional records requested by CBP are not provided by the claimant upon request by CBP, the part of the drawback claim dependent on those records will be denied.

(f) *Warehouse transfer and withdrawals.* The person in whose name merchandise is withdrawn from a bonded warehouse will be considered the importer for drawback purposes. No records are required to document prior transfers of merchandise while in a bonded warehouse.

§ 190.11 Valuation of merchandise.

The values declared to CBP as part of a complete drawback claim pursuant to § 190.51 must be established as provided below. If the drawback eligible merchandise or articles are destroyed, then the value of the imported merchandise and any substituted merchandise must be reduced by the value of materials recovered during destruction in accordance with 19 U.S.C. 1313(x).

(a) *Designated imported merchandise.* The value of the imported merchandise is determined as follows:

(1) *Direct identification claims.* The value of the imported merchandise is the customs value of the imported merchandise upon entry into the United States (see subpart E of part 152 of this chapter); or, if the merchandise is identified pursuant to an approved accounting method, then the value of the imported merchandise is the customs value that is properly attributable to the imported merchandise as identified by the appropriate recordkeeping (see § 190.14, varies by accounting method).

(2) *Substitution claims.* The value of the designated imported merchandise is the per unit average value, which is the entered value for the applicable entry summary line item apportioned equally over each unit covered by the line item.

(b) *Exported merchandise or articles.* The value of the exported merchandise or articles eligible for drawback is the selling price as declared for the Electronic Export Information (EEI), including any adjustments and exclusions required by 15 CFR 30.6(a). If there is no selling price for the EEI, then the value is the other value as declared for the EEI including any adjustments and exclusions required by 15 CFR 30.6(a) (e.g., the market price, if the goods are shipped on consignment). (For special types of transactions where certain unusual conditions are involved, the value for the EEI is determined pursuant to 15 CFR part 30 subpart C.) If no EEI is required (*see*, 15 CFR part 30 subpart D for a complete list of exemptions), then the claimant must provide the value that would have been set forth on the EEI when the exportation took place, but for the exemption from the requirement for an EEI.

(c) *Destroyed merchandise or articles.* The value of the destroyed merchandise or articles eligible for drawback is the value at the time of destruction, determined as if the merchandise had been exported in its condition at the time of its destruction and an EEI had been required.

(d) *Substituted merchandise for manufacturing drawback claims.* The value of the substituted merchandise for manufacturing drawback claims pursuant to 19 U.S.C. 1313(b) is the cost of acquisition or production for the manufacturer or producer who used the substituted merchandise in manufacturing or production. These costs must be based on records kept in the ordinary course of business and may be determined on the basis of any of the inventory accounting methods recognized in the Generally Accepted Accounting Principles. Any inventory management method which is used by a manufacturer or producer for valuation of the substituted merchandise for manufacturing drawback claims under 19 U.S.C. 1313(b) must be used without variation with other methods for a period of at least 1 year.

§ 190.12 Claim filed under incorrect provision.

A drawback claim filed under this part and pursuant to any provision of section 313 of the Act, as amended (19 U.S.C. 1313), may be deemed filed pursuant to any other provision thereof should the drawback office determine that drawback is not allowable under the provision as originally filed, but that it is allowable under such other provision. To be allowable under such other provision, the claim must meet each of the requirements of such provision. The claimant may raise alternative provisions prior to liquidation and by protest (*see* part 174 of this chapter).

§ 190.13 Packaging materials.

(a) *Imported packaging material.* Drawback is provided for in section 313(q)(1) of the Act, as amended (19 U.S.C. 1313(q)(1)), on imported packaging material used to package or repackage merchandise or articles exported or destroyed pursuant to section 313(a), (b), (c), or (j) of the Act, as amended (19 U.S.C. 1313(a), (b), (c), or (j)). The amount of drawback payable on the packaging material is determined pursuant to the particular drawback provision to which the packaged goods themselves are subject. The packaging material must be separately identified on the claim, and all other information and documents required for the particular drawback provision under which the claim is made must be provided for the packaging material.

(b) *Packaging material manufactured in United States from imported materials.* Drawback is provided for in section 313(q)(2) of the Act, as amended (19 U.S.C. 1313(q)(2)), on packaging material that is manufactured or produced in the United States from imported materials and used to package or repackage articles that are exported or destroyed under section 313(a) or (b) of the Act, as amended (19 U.S.C. 1313(a) or (b)). The packaging material and the imported merchandise used in the manufacture or production of the packaging material must be separately identified on the claim, and all other information and documents required for the particular drawback provision under which the claim is made must be provided for the packaging material as well as the imported merchandise used in its manufacture or production, for purposes of determining the applicable drawback payable. Drawback under 19 U.S.C. 1313(q)(2) is allowed, regardless of whether or not any of the articles or merchandise the packaging contains are actually eligible for drawback.

§ 190.14 Identification of merchandise or articles by accounting method.

(a) *General.* This section provides for the identification of merchandise or articles for drawback purposes by the use of accounting methods. This section applies to identification of merchandise or articles in inventory or storage, as well as identification of merchandise used in manufacture or production, as defined in § 190.2. This section is not applicable to situations in which the drawback law authorizes substitution (substitution is allowed in specified situations under 19 U.S.C. 1313(b), 1313(j)(2), 1313(k), and 1313(p); this section does apply to situations in these subsections in which substitution is not allowed, as well as to the subsections of the drawback law under which no substitution is allowed). When substitution is authorized, merchandise or articles may be substituted without reference to this section, under the criteria and conditions specifically authorized in the statutory and regulatory provisions providing for the substitution.

(b) *Conditions and criteria for identification by accounting method.* Manufacturers, producers, claimants, or other appropriate persons may identify for drawback purposes lots of merchandise or articles under this section, subject to each of the following conditions and criteria:

(1) The lots of merchandise or articles to be so identified must be fungible as defined in § 190.2;

(2) The person using the identification method must be able to establish that inventory records (for example, material control records), prepared and used in the ordinary course of business, account for the lots of merchandise or articles to be identified as being received into and withdrawn from the same inventory. Even if merchandise or articles are received or withdrawn

at different geographical locations, if such inventory records treat receipts or withdrawals as being from the same inventory, those inventory records may be used to identify the merchandise or articles under this section, subject to the conditions of this section. If any such inventory records (that is, inventory records prepared and used in the ordinary course of business) treat receipts and withdrawals as being from different inventories, those inventory records must be used and receipts into or withdrawals from the different inventories may not be accounted for together. If units of merchandise or articles can be specifically identified (for example, by serial number), the merchandise or articles must be specifically identified and may not be identified by accounting method, unless it is established that inventory records, prepared and used in the ordinary course of business, treat the merchandise or articles to be identified as being received into and withdrawn from the same inventory (subject to the above conditions);

(3) Unless otherwise provided in this section or specifically approved by CBP (by a binding ruling under part 177 of this chapter), all receipts (or inputs) into and all withdrawals from the inventory must be recorded in the accounting record;

(4) The records which support any identification method under this section are subject to verification by CBP (*see* §190.61). If CBP requests such verification, the person using the identification method must be able to demonstrate how, under generally accepted accounting procedures, the records which support the identification method used account for all merchandise or articles in, and all receipts into and withdrawals from, the inventory, and the drawback per unit for each receipt and withdrawal; and

(5) Any accounting method which is used by a person for drawback purposes under this section must be used exclusively, without using other methods for a period of at least 1 year, unless approval is given by CBP for a shorter period.

(c) *Approved accounting methods.* The following accounting methods are approved for use in the identification of merchandise or articles for drawback purposes under this section. If a claim is eligible for the use of any accounting method, the claimant must indicate on the drawback entry whether an accounting method was used, and if so, which accounting method was used, to identify the merchandise as part of the complete claim (see §190.51).

(1) *First-in, first-out (FIFO)*—(i) *General.* The FIFO method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the first merchandise or articles received into the inventory. Under this method, withdrawals are from the oldest (first-in) merchandise or articles in the inventory at the time of withdrawal.

(ii) *Example.* If the beginning inventory is zero, 100 units with $1 drawback attributable per unit are received in inventory on the 2nd of the month, 50 units with no drawback attributable per unit are received into inventory on the 5th of the month, 75 units are withdrawn for domestic (non-export) shipment on the 10th of the month, 75 units with $2 drawback attributable per unit are received in inventory on the 15th of the month, 100 units are withdrawn for export on the 20th of the month, and no other receipts or withdrawals occurred in the month, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $75 (25 units from the receipt on the 2nd with $1 drawback attributable per unit, 50 units from the receipt on the 5th with no drawback attributable per unit, and 25 units from the receipt on the 15th with $2 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75 units ($1 drawback/unit) results in a balance of 75 units (25 with $1 drawback/unit and 50 with $0 drawback/unit); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (25 with $1 drawback/

unit, 50 with $0 drawback/unit, and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (25 with $1 drawback/unit, 50 with $0 drawback/unit, and 25 with $2 drawback unit) results in a balance of 50 units (all 50 with $2 drawback/unit).

(2) *Last-in, first out (LIFO)*—(i) *General.* The LIFO method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the last merchandise or articles received into the inventory. Under this method, withdrawals are from the newest (last-in) merchandise or articles in the inventory at the time of withdrawal.

(ii) *Example.* In the example in paragraph (c)(1)(ii) of this section, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $175 (75 units from the receipt on the 15th with $2 drawback attributable per unit and 25 units from the receipt on the 2nd with $1 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75 units (50 with $0 drawback/unit and 25 with $1 drawback/unit) results in a balance of 75 units (all with $1 drawback/unit); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (75 with $1 drawback/unit and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (75 with $2 drawback/unit and 25 with $1 drawback/unit) results in a balance of 50 units (all 50 with $1 drawback/unit).

(3) *Low-to-high*—(i) *General.* The low-to-high method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the lowest drawback amount per unit of the merchandise or articles in inventory. Merchandise or articles with no drawback attributable to them (for example, domestic merchandise or duty-free merchandise) must be accounted for and are treated as having the lowest drawback attributable to them. Under this method, withdrawals are from the merchandise or articles with the least amount of drawback attributable to them, then those with the next higher amount, and so forth. If the same amount of drawback is attributable to more than one lot of merchandise or articles, withdrawals are from the oldest (first-in) merchandise or articles among those lots with the same amount of drawback attributable. Drawback requirements are applicable to withdrawn merchandise or articles as identified (for example, if the merchandise or articles identified were attributable to an import more than 5 years before the claimed export, no drawback could be granted).

(ii) *Ordinary low-to-high*—(A) *Method.* Under the ordinary low-to-high method, all receipts into and all withdrawals from the inventory are recorded in the accounting record and accounted for so that each withdrawal, whether for export or domestic shipment, is identified by recordkeeping on the basis of the lowest drawback amount per unit of the merchandise or articles available in the inventory.

(B) *Example.* In this example, the beginning inventory is zero, and receipts into and withdrawals from the inventory are as follows:

Date	Receipt ($ per unit)	Withdrawals
Jan. 2	100 (zero)	
Jan. 5	50 ($1.00)	
Jan. 15		50 (export).
Jan. 20	50 ($1.01)	
Jan. 25	50 ($1.02)	
Jan. 28		50 (domestic).
Jan. 31	50 ($1.03)	
Feb. 5		100 (export).
Feb. 10	50 ($.95)	
Feb. 15		50 (export).
Feb. 20	50 (zero)	
Feb. 23		50 (domestic).
Feb. 25	50 ($1.05)	
Feb. 28		100 (export).
Mar. 5	50 ($1.06)	
Mar. 10	50 ($.85)	
Mar. 15		50 (export).
Mar. 21		50 (domestic).
Mar. 20	50 ($1.08)	
Mar. 25	50 ($.90)	
Mar. 31		100 (export).

NOTE TO PARAGRAPH (c)(3)(ii)(B): The drawback attributable to the January 15 withdrawal for export is zero (the available receipt with the lowest drawback amount per unit is the January 2 receipt), the drawback attributable to the January 28 withdrawal

for domestic shipment (no drawback) is zero (the remainder of the January 2 receipt), the drawback attributable to the February 5 withdrawal for export is $100.50 (the January 5 and January 20 receipts), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 23 withdrawal for domestic shipment (no drawback) is zero (the February 20 receipt), the drawback attributable to the February 28 withdrawal for export is $102.50 (the January 25 and January 31 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), the drawback attributable to the March 21 withdrawal for domestic shipment (no drawback) is $52.50 (the February 25 receipt), and the drawback attributable to the March 31 withdrawal for export is $98.00 (the March 25 and March 5 receipts). Remaining in inventory is the March 20 receipt of 50 units ($1.08 drawback/unit). Total drawback attributable to withdrawals for export in this example would be $391.00.

(iii) *Low-to-high method with established average inventory turn-over period*—(A) *Method.* Under the low-to-high method with established average inventory turn-over period, all receipts into and all withdrawals for export are recorded in the accounting record and accounted for so that each withdrawal is identified by recordkeeping on the basis of the lowest drawback amount per available unit of the merchandise or articles received into the inventory in the established average inventory turn-over period preceding the withdrawal.

(B) *Accounting for withdrawals (for domestic shipments and for export).* Under the low-to-high method with established average inventory turn-over period, domestic withdrawals (withdrawals for domestic shipment) are not accounted for and do not affect the available units of merchandise or articles. All withdrawals for export must be accounted for whether or not drawback is available or claimed on the withdrawals. Once a withdrawal for export is made and accounted for under this method, the merchandise or articles withdrawn are no longer available for identification.

(C) *Establishment of inventory turn-over period.* For purposes of the low-to-high method with established average inventory turn-over period, the average inventory turn-over period is based on the rate of withdrawal from inventory and represents the time in which all of the merchandise or articles in the inventory at a given time must have been withdrawn based on that rate. To establish an average of this time, at least 1 year, or 3 turn-over periods (if inventory turns over fewer than 3 times per year), must be averaged. The inventory turn-over period must be that for the merchandise or articles to be identified, except that if the person using the method has more than one kind of merchandise or articles with different inventory turn-over periods, the longest average turn-over period established under this section may be used (instead of using a different inventory turn-over period for each kind of merchandise or article).

(D) *Example.* In the example in paragraph (c)(3)(ii)(B) of this section (but, as required for this method, without accounting for domestic withdrawals, and with an established average inventory turn-over period of 30 days), the drawback attributable to the January 15 withdrawal for export is zero (the available receipt in the preceding 30 days with the lowest amount of drawback is the January 2 receipt, of which 50 units will remain after the withdrawal), the drawback attributable to the February 5 withdrawal for export is $101.50 (the January 20 and January 25 receipts), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 28 withdrawal for export is $51.50 (the February 20 and January 31 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), and the drawback attributable to the March 31 withdrawal for export is $98.00 (the March 25 and March 5 receipts). No drawback may be claimed on the basis of the January 5 receipt or the February 25 receipt because in the case of each, there were insufficient withdrawals for export within the established average inventory turn-over period; the 50 units remaining from the January 2 receipt after the January 15 withdrawal are

not identified for a withdrawal for export because there is no other withdrawal for export (other than the January 15 withdrawal) within the established average inventory turn-over period; the March 20 receipt (50 units at $1.08) is not yet attributed to withdrawals for export. Total drawback attributable to withdrawals for export in this example would be $341.00.

(iv) *Low-to-high blanket method*—(A) *Method.* Under the low-to-high blanket method, all receipts into and all withdrawals for export are recorded in the accounting record and accounted for. Each withdrawal is identified on the basis of the lowest drawback amount per available unit of the merchandise or articles received into inventory in the applicable statutory period for export preceding the withdrawal (e.g., 180 days under 19 U.S.C. 1313(p) and 5 years for other types of drawback claims pursuant to 19 U.S.C. 1313(r)). Drawback requirements are applicable to withdrawn merchandise or articles as identified (for example, no drawback could be granted generally if the merchandise or articles identified were attributable to an import made more than 5 years before the claimed export; and, for claims pursuant to 19 U.S.C. 1313(p), no drawback could be granted if the merchandise or articles identified were attributable to an import that was entered more than 180 days after the date of the claimed export or if the claimed export was more than 180 days after the close of the manufacturing period attributable to an import).

(B) *Accounting for withdrawals (for domestic shipments and for export).* Under the low-to-high blanket method, domestic withdrawals (withdrawals for domestic shipment) are not accounted for and do not affect the available units of merchandise or articles. All withdrawals for export must be accounted for whether or not drawback is available or claimed on the withdrawals. Once a withdrawal for export is made and accounted for under this method, the merchandise or articles withdrawn are no longer available for identification.

(C) *Example.* In the example in paragraph (c)(3)(ii)(B) of this section (but, as required for this method, without accounting for domestic withdrawals), the drawback attributable to the January 15 withdrawal for export is zero (the available receipt in the inventory with the lowest amount of drawback is the January 2 receipt, of which 50 units will remain after the withdrawal), the drawback attributable to the February 5 withdrawal for export is $50.00 (the remainder of the January 2 receipt and the January 5 receipt), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 28 withdrawal for export is $50.50 (the February 20 and January 20 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), and the drawback attributable to the March 31 withdrawal for export is $96.00 (the March 25 and January 25 receipts). Receipts not attributed to withdrawals for export are the January 31 (50 units at $1.03), February 25 (50 units at $1.05), March 5 (50 units at $1.06), and March 20 (50 units at $1.08) receipts. Total drawback attributable to withdrawals for export in this example would be $286.50.

(4) *Average*—(i) *General.* The average method is the method by which fungible merchandise or articles are identified on the basis of the calculation by recordkeeping of the amount of drawback that may be attributed to each unit of merchandise or articles in the inventory. In this method, the ratio of:

(A) The total units of a particular receipt of the fungible merchandise in the inventory at the time of a withdrawal to;

(B) The total units of all receipts of the fungible merchandise (including each receipt into inventory) at the time of the withdrawal;

(C) Is applied to the withdrawal, so that the withdrawal consists of a proportionate quantity of units from each particular receipt and each receipt is correspondingly decreased. Withdrawals and corresponding decreases to receipts are rounded to the nearest whole number.

(ii) *Example.* In the example in paragraph (c)(1)(ii) of this section, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $133 (50 units from the receipt

on the 15th with $2 drawback attributable per unit, 33 units from the receipt on the 2nd with $1 drawback attributable per unit, and 17 units from the receipt on the 5th with $0 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75 units (50 with $1 drawback/unit (applying the ratio of 100 units from the receipt on the 2nd to the total of 150 units at the time of withdrawal) and 25 with $0 drawback/unit (applying the ratio of 50 units from the receipt on the 5th to the total of 150 units at the time of withdrawal)) results in a balance of 75 units (with 50 with $1 drawback/unit and 25 with $0 drawback/unit, on the basis of the same ratios); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (50 with $1 drawback/unit, 25 with $0 drawback/unit, and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (50 with $2 drawback/unit (applying the ratio of the 75 units from the receipt on the 15th to the total of 150 units at the time of withdrawal), 33 with $1 drawback/unit (applying the ratio of the 50 units remaining from the receipt on the 2nd to the total of 150 units at the time of withdrawal, and 17 with $0 drawback/unit (applying the ratio of the 25 units remaining from the receipt on the 5th to the total of 150 units at the time of withdrawal)) results in a balance of 50 units (25 with $2 drawback/unit, 17 with $1 drawback/unit, and 8 with $0 drawback/unit, on the basis of the same ratios).

(5) *Inventory turn-over for limited purposes.* A properly established average inventory turn-over period, as provided for in paragraph (c)(3)(iii)(C) of this section, may be used to determine:

(i) The fact and date(s) of use in manufacture or production of the designated imported merchandise and other (substituted) merchandise (*see* 19 U.S.C. 1313(b)); or

(ii) The fact and date(s) of manufacture or production of the exported or destroyed articles (*see* 19 U.S.C. 1313(a) and (b)).

(d) *Approval of other accounting methods.* (1) Persons proposing to use an accounting method for identification of merchandise or articles for drawback purposes which has not been previously approved for such use (*see* paragraph (c) of this section), or which includes modifications from the methods listed in paragraph (c) of this section, may seek approval by CBP of the proposed accounting method under the provisions for obtaining an administrative ruling (*see* part 177 of this chapter). The conditions applied and the criteria used by CBP in approving such an alternative accounting method, or a modification of one of the approved accounting methods, will be the criteria in paragraph (b) of this section, as well as those in paragraph (d)(2) of this section.

(2) In order for a proposed accounting method to be approved by CBP for purposes of this section, it must meet the following criteria:

(i) For purposes of calculations of drawback, the proposed accounting method must be either revenue neutral or favorable to the Government; and

(ii) The proposed accounting method should be:

(A) Generally consistent with commercial accounting procedures, as applicable for purposes of drawback;

(B) Consistent with inventory or material control records used in the ordinary course of business by the person proposing the method; and

(C) Easily administered by CBP.

§ 190.15 Recordkeeping.

Pursuant to 19 U.S.C. 1508(c)(3), all records which pertain to the filing of a drawback claim or to the information contained in the records required by 19 U.S.C. 1313 in connection with the filing of a drawback claim must be retained for 3 years after liquidation of such claims or longer period if required by law (under 19 U.S.C. 1508, the same records may be subject to a different period for different purposes).

Subpart B—Manufacturing Drawback

§ 190.21 Direct identification manufacturing drawback.

Section 313(a) of the Act, as amended (19 U.S.C. 1313(a)), provides for drawback upon the exportation, or destruction under CBP supervision, of articles manufactured or produced in the United States with the use of imported merchandise, provided that those articles have not been used in the United States prior to such exportation or destruction. The amount of drawback allowable will not exceed 99 percent of the amount of duties, taxes, and fees paid with respect to the imported merchandise. However, duties may not be refunded upon the exportation or destruction of flour or by-products produced from imported wheat. Where two or more products result, drawback must be distributed among the products in accordance with their relative values, as defined in §190.2, at the time of separation. Merchandise may be identified for drawback purposes under 19 U.S.C. 1313(a) in the manner provided for and prescribed in §190.14.

§ 190.22 Substitution drawback.

(a)(1) *General*—(i) *Substitution standard.* If imported, duty-paid merchandise or merchandise classifiable under the same 8-digit HTSUS subheading number as the imported merchandise is used in the manufacture or production of articles within a period not to exceed 5 years from the date of importation of such imported merchandise, then upon the exportation, or destruction under CBP supervision, of any such articles, without their having been used in the United States prior to such exportation or destruction, drawback is provided for in section 313(b) of the Act, as amended (19 U.S.C. 1313(b)). Drawback is allowable even though none of the imported, duty-paid merchandise may actually have been used in the manufacture or production of the exported or destroyed articles. The amount of duties, taxes, and fees eligible for drawback is determined by per unit averaging, as defined in §190.2, for any drawback claim based on 19 U.S.C. 1313(b).

(ii) *Allowable refund*—(A) *Exportation.* In the case of an article that is exported, the amount of drawback allowable will not exceed 99 percent of the lesser of:

(*1*) The amount of duties, taxes, and fees paid with respect to the imported merchandise; or

(*2*) The amount of duties, taxes, and fees that would apply to the substituted merchandise if the substituted merchandise were imported.

(B) *Destruction.* In the case of an article that is destroyed, the amount of drawback allowable will not exceed 99 percent of the lesser of:

(*1*) The amount of duties, taxes, and fees paid with respect to the imported merchandise (after the value of the imported merchandise has been reduced by the value of materials recovered during destruction as provided in 19 U.S.C. 1313(x)); or

(*2*) The amount of duties, taxes, and fees that would apply to the substituted merchandise if the substituted merchandise were imported (after the value of the imported merchandise has been reduced by the value of materials recovered during destruction as provided in 19 U.S.C. 1313(x)).

(C) *Federal excise tax.* For purposes of drawback of internal revenue tax imposed under Chapters 32, 38 (with the exception of Subchapter A of Chapter 38), 51, and 52 of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export or destruction of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

(2) *Special rule for sought chemical elements*—(i) *Substitution standard.* A sought chemical element, as defined in §190.2, may be considered imported merchandise, or merchandise classifiable under the same 8-digit HTSUS subheading number as such imported merchandise, used in the manufacture or production of an article as described in paragraph (a)(1)(i) of this section, and it may be substituted for source material containing that sought chemical element, without regard to whether the sought chemical element and the source material are classifiable under the same 8-digit HTSUS subheading

number, and apportioned quantitatively, as appropriate (*see* §190.26(b)(4)).

(ii) *Allowable refund.* The amount of drawback allowable will be determined in accordance with paragraph (a)(1)(ii) of this section. The value of the substituted source material must be determined based on the quantity of the sought chemical element present in the source material, as calculated per §190.26(b)(4).

(b) *Use by same manufacturer or producer at different factory.* Duty-paid merchandise or drawback products used at one factory of a manufacturer or producer within 5 years after the date on which the material was imported may be designated as the basis for drawback on articles manufactured or produced in accordance with these regulations at other factories of the same manufacturer or producer.

(c) *Designation.* A manufacturer or producer may designate any eligible imported merchandise or drawback product which it has used in manufacture or production.

(d) *Designation by successor*—(1) *General rule.* Upon compliance with the requirements in this section and under 19 U.S.C. 1313(s), a drawback successor as defined in paragraph (d)(2) of this section may designate merchandise or drawback product used by a predecessor before the date of succession as the basis for drawback on articles manufactured or produced by the successor after the date of succession.

(2) *Drawback successor.* A ''drawback successor'' is a manufacturer or producer to whom another entity (predecessor) has transferred, by written agreement, merger, or corporate resolution:

(i) All or substantially all of the rights, privileges, immunities, powers, duties, and liabilities of the predecessor; or

(ii) The assets and other business interests of a division, plant, or other business unit of such predecessor, but only if in such transfer the value of the transferred realty, personalty, and intangibles (other than drawback rights, inchoate or otherwise) exceeds the value of all transferred drawback rights, inchoate or otherwise.

(3) *Certifications and required evidence*—(i) *Records of predecessor.* The predecessor or successor must certify that the successor is in possession of the predecessor's records which are necessary to establish the right to drawback under the law and regulations with respect to the merchandise or drawback product.

(ii) *Merchandise not otherwise designated.* The predecessor or successor must certify that the predecessor has not designated and will not designate, nor enable any other person to designate, such merchandise or product as the basis for drawback.

(iii) *Value of transferred property.* In instances in which assets and other business interests of a division, plant, or other business unit of a predecessor are transferred, the predecessor or successor must specify, and maintain supporting records to establish, the value of the drawback rights and the value of all other transferred property.

(iv) *Review by CBP.* The written agreement, merger, or corporate resolution, provided for in paragraph (d)(2) of this section, and the records and evidence provided for in paragraph (d)(3)(i) through (iii) of this section, must be retained by the appropriate party(s) for 3 years from the date of liquidation of the related claim and are subject to review by CBP upon request.

(e) *Multiple products*—(1) *General.* Where two or more products are produced concurrently in a substitution manufacturing operation, drawback will be distributed to each product in accordance with its relative value (*see* §190.2) at the time of separation.

(2) *Claims covering a manufacturing period.* Where the claim covers a manufacturing period rather than a manufacturing lot, the entire period covered by the claim is the time of separation of the products and the value per unit of product is the market value for the period (as provided for in the definition of relative value in §190.2). Manufacturing periods in excess of one month may not be used without specific approval of CBP.

(3) *Recordkeeping.* Records must be maintained showing the relative value of each product at the time of separation.

§ 190.23 Methods and requirements for claiming drawback.

Claims must be based on one or more of the methods specified in paragraph (a) of this section and comply with all other requirements specified in this section.

(a) *Method of claiming drawback.*—(1) *Used in.* Drawback may be paid based on the amount of the imported or substituted merchandise used in the manufacture of the exported article, where there is no waste or the waste is valueless or unrecoverable. This method must be used when multiple products also necessarily and concurrently result from the manufacturing process, and there is no valuable waste (*see* paragraph (a)(2) of this section).

(2) *Used in less valuable waste.* Drawback is allowable under this method based on the quantity of merchandise or drawback products used to manufacture the exported or destroyed article, reduced by an amount equal to the quantity of this merchandise that the value of the waste would replace. This method must be used when multiple products also necessarily and concurrently result from the manufacturing process, and there is valuable waste.

(3) *Relative value.* Drawback is also allowable under this method when two or more products result from manufacturing or production. The relative value method must be used when multiple products also necessarily and concurrently result from the manufacturing process, and drawback must be distributed among the products in accordance with their relative values (as defined in § 190.2) at the time of separation.

(4) *Appearing in.* Drawback is allowable under this method based only on the amount of imported or substituted merchandise that appears in (is contained in) the exported articles. The appearing in method may not be used if there are multiple products also necessarily and concurrently resulting from the manufacturing process.

(b) *Abstract or schedule.* A drawback claimant may use either the abstract or schedule method to show the quantity of material used or appearing in the exported or destroyed article. An abstract is the summary of records which shows the total quantity used in or appearing in all articles produced during the period covered by the abstract. A schedule shows the quantity of material actually used in producing, or appearing in, each unit of product. Manufacturers or producers submitting letters of notification of intent to operate under a general manufacturing drawback ruling (*see* § 190.7) and applicants for approval of specific manufacturing drawback rulings (*see* § 190.8) must state whether the abstract or schedule method is used; if no such statement is made, drawback claims must be based upon the abstract method.

(c) *Claim for waste.*—(1) *Valuable waste.* When the waste has a value and the drawback claim is not limited to the quantity of imported or substituted merchandise or drawback products appearing in the exported or destroyed articles claimed for drawback, the manufacturer or producer must keep records to show the market value of the merchandise or drawback products used to manufacture or produce the exported or destroyed articles, as well as the market value of the resulting waste, under the used in less valuable waste method (as provided for in the definition of relative value in § 190.2).

(2) *If claim for waste is waived.* If claim for waste is waived, only the ''appearing in'' basis may be used (*see* paragraph (a)(4) of this section). Waste records need not be kept unless required to establish the quantity of imported duty-paid merchandise or drawback products appearing in the exported or destroyed articles claimed for drawback.

§ 190.24 Transfer of merchandise.

Evidence of any transfers of merchandise (*see* § 190.10) must be evidenced by records, as defined in § 190.2.

§ 190.25 Destruction under CBP supervision.

A claimant may destroy merchandise and obtain drawback by complying with the procedures set forth in § 190.71 relating to destruction.

§ 190.26 Recordkeeping.

(a) *Direct identification.* (1) *Records required.* Each manufacturer or producer under 19 U.S.C. 1313(a) must keep

records to allow the verifying CBP official to trace all articles manufactured or produced for exportation or destruction with drawback, from importation, through manufacture or production, to exportation or destruction. To this end, these records must specifically establish:

(i) The date or inclusive dates of manufacture or production;

(ii) The quantity, identity, and 8-digit HTSUS subheading number(s) of the imported duty-paid merchandise or drawback products used in or appearing in (*see* §190.23) the articles manufactured or produced;

(iii) The quantity, if any, of the non-drawback merchandise used, when these records are necessary to determine the quantity of imported duty-paid merchandise or drawback product used in the manufacture or production of the exported or destroyed articles or appearing in them;

(iv) The quantity and description of the articles manufactured or produced;

(v) The quantity of waste incurred, if applicable; and

(vi) That the articles on which drawback is claimed were exported or destroyed within 5 years after the importation of the duty-paid merchandise, without having been used in the United States prior to such exportation or destruction. (If the articles were commingled after manufacture or production, their identity may be maintained in the manner prescribed in §190.14.)

(2) *Accounting.* The merchandise and articles to be exported or destroyed will be accounted for in a manner which will enable the manufacturer, producer, or claimant:

(i) To determine, and the CBP official to verify, the applicable import entry and any transfers of the merchandise associated with the claim; and

(ii) To identify with respect to that import entry, and any transfers of the merchandise, the imported merchandise or drawback products used in manufacture or production.

(b) *Substitution.* The records of the manufacturer or producer of articles manufactured or produced in accordance with 19 U.S.C. 1313(b) must establish the facts in paragraph (a)(1)(i), (iv) through (vi) of this section, and:

(1) The quantity, identity, and specifications of the merchandise designated (imported duty-paid, or drawback product);

(2) The quantity, identity, and specifications of the substituted merchandise before its use to manufacture or produce (or appearing in) the exported or destroyed articles;

(3) That, within 5 years after the date of importation of the imported duty-paid merchandise, the manufacturer or producer used the designated merchandise in manufacturing or production and that during the same5-year period it manufactured or produced the exported or destroyed articles; and

(4) If the designated merchandise is a sought chemical element, as defined in §190.2, that was contained in imported material and a substitution drawback claim is made based on that chemical element:

(i) The duties, taxes, and fees paid on the imported material must be apportioned among its constituent components. The claim on the chemical element that is the designated merchandise must be limited to the duty apportioned to that element on a unit-for-unit attribution using the unit of measure set forth in the HTSUS that is applicable to the imported material. If the material is a compound with other constituents, including impurities, and the purity of the compound in the imported material is shown by satisfactory analysis, that purity, converted to a decimal equivalent of the percentage, is multiplied against the entered amount of the material to establish the amount of pure compound. The amount of the element in the pure compound is to be determined by use of the atomic weights of the constituent elements and converting to the decimal equivalent of their respective percentages and multiplying that decimal equivalent against the above-determined amount of pure compound.

(ii) The amount claimed as drawback based on the sought chemical element must be deducted from the amounts paid on the imported material that may be claimed on any other drawback claim.

Example to paragraph (b)(4): Synthetic rutile that is shown by appropriate analysis in the entry papers to be 91.7%

pure titanium dioxide is imported and dutiable at a 5% ad valorem duty rate. The amount of imported synthetic rutile is 30,000 pounds with an entered value of $12,000. The total duty paid is $600. Titanium in the synthetic rutile is designated as the basis for a drawback claim under 19 U.S.C. 1313(b). The amount of titanium dioxide in the synthetic rutile is determined by converting the purity percentage (91.7%) to its decimal equivalent (.917) and multiplying the entered amount of synthetic rutile (30,000 pounds) by that decimal equivalent (.917 × 30,000 = 27,510 pounds of titanium dioxide contained in the 30,000 pounds of imported synthetic rutile). The titanium, based on atomic weight, represents 59.93% of the constituents in titanium dioxide. Multiplying that percentage, converted to its decimal equivalent, by the amount of titanium dioxide determines the titanium content of the imported synthetic rutile (.5993 × 27,510 pounds of titanium dioxide = 16,486.7 pounds of titanium contained in the imported synthetic rutile). Therefore, up to 16,486.7 pounds of titanium is available to be designated as the basis for drawback. As the per unit duty paid on the synthetic rutile is calculated by dividing the duty paid ($600) by the amount of imported synthetic rutile (30,000 pounds), the per unit duty is two cents of duty per pound of the imported synthetic rutile ($600 ÷ 30,000 = $0.02). The duty on the titanium is calculated by multiplying the amount of titanium contained in the imported synthetic rutile by two cents of duty per pound (16,486.7 × $0.02 = $329.73 duty apportioned to the titanium). The product is then multiplied by 99% to determine the maximum amount of drawback available ($329.73 × .99 = $326.44). If an exported titanium alloy ingot weighs 17,000 pounds, in which 16,000 pounds of titanium was used to make the ingot, drawback is determined by multiplying the duty per pound ($0.02) by the weight of the titanium contained in the ingot (16,000 pounds) to calculate the duty available for drawback ($0.02 × 16,000 = $320.00). Because only 99% of the duty can be claimed, drawback is determined by multiplying this available duty amount by 99% (.99 × $320.00 = $316.80). As the oxygen content of the titanium dioxide is 45% of the synthetic rutile, if oxygen is the designated merchandise on another drawback claim, 45% of the duty claimed on the synthetic rutile would be available for drawback based on the substitution of oxygen.

(c) *Valuable waste records.* When waste has a value and the manufacturer, producer, or claimant, has not limited the claims based on the quantity of imported or substituted merchandise appearing in the articles exported or destroyed, the manufacturer or producer must keep records to show the market value of the merchandise used to manufacture or produce the exported or destroyed article, as well as the quantity and market value of the waste incurred (as provided for in the definition of relative value in §190.2). In such records, the quantity of merchandise identified or designated for drawback, under 19 U.S.C. 1313(a) or 1313(b), respectively, must be based on the quantity of merchandise actually used to manufacture or produce the exported or destroyed articles. The waste replacement reduction will be determined by reducing from the quantity of merchandise actually used by the amount of merchandise which the value of the waste would replace.

(d) *Purchase of manufactured or produced articles for exportation or destruction.* Where the claimant purchases articles from the manufacturer or producer and exports or destroys them, the claimant must maintain records to document the transfer of articles received.

(e) *Multiple claimants*—(1) *General.* Multiple claimants may file for drawback with respect to the same export or destruction (for example, if an automobile is exported, where different parts of the automobile have been produced by different manufacturers under drawback conditions and the exporter waives the right to claim drawback and assigns such right to the manufacturers under §190.82).

(2) *Procedures*—(i) *Submission of letter.* Each drawback claimant must file a separate letter, as part of the claim, describing the component article to which each claim will relate. Each letter must show the name of the claimant and bear a statement that the

claim will be limited to its respective component article. The exporter or destroyer must endorse the letters, as required, to show the respective interests of the claimants.

(ii) *Blanket waivers and assignments of drawback rights.* Exporters may waive and assign their drawback rights for all, or any portion, of their exportations with respect to a particular commodity for a given period to a drawback claimant.

(f) *Retention of records.* Pursuant to 19 U.S.C. 1508(c)(3), all records required to be kept by the manufacturer, producer, or claimant with respect to drawback claims, and records kept by others to complement the records of the manufacturer, producer, or claimant with respect to drawback claims must be retained for 3 years after the date of liquidation of the related claims (under 19 U.S.C. 1508, the same records may be subject to a different retention period for different purposes).

§ 190.27 Time limitations for manufacturing drawback.

(a) *Direct identification.* Drawback will be allowed on imported merchandise used to manufacture or produce articles that are exported or destroyed under CBP supervision within 5 years after importation of the merchandise identified to support the claim.

(b) *Substitution.* Drawback will be allowed on the imported merchandise if the following conditions are met:

(1) The designated merchandise is used in manufacture or production within 5 years after importation;

(2) Within the 5-year period described in paragraph (b)(1) of this section, the exported or destroyed articles, or drawback products, were manufactured or produced; and

(3) The completed articles must be exported or destroyed under CBP supervision within 5 years of the date of importation of the designated merchandise, or within 5 years of the earliest date of importation associated with a drawback product.

(c) *Drawback claims filed before specific or general manufacturing drawback ruling approved or acknowledged.* Drawback claims may be filed before the letter of notification of intent to operate under a general manufacturing drawback ruling covering the claims is acknowledged (§ 190.7), or before the specific manufacturing drawback ruling covering the claims is approved (§ 190.8), but no drawback will be paid until such acknowledgement or approval, as appropriate.

§ 190.28 Person entitled to claim manufacturing drawback.

The exporter (or destroyer) will be entitled to claim drawback, unless the exporter (or destroyer), by means of a certification, assigns the right to claim drawback to the manufacturer, producer, importer, or intermediate party. Such certification must accompany each claim and also affirm that the exporter (or destroyer) has not claimed and will not itself claim drawback or assign the right to claim drawback on the particular exportation or destruction to any other party. The certification provided for under this section may be a blanket certification for a stated period. Drawback is paid to the claimant, who may be the manufacturer, producer, intermediate party, importer, or exporter (or destroyer).

§ 190.29 Certification of bill of materials or formula.

At the time of filing a claim under 19 U.S.C. 1313(a) or (b), the claimant must certify the following:

(a) The claimant is in possession of the applicable bill of materials or formula for the exported or destroyed article(s), which will be promptly provided upon request;

(b) The bill of materials or formula identifies the imported and/or substituted merchandise and the exported or destroyed article(s) by their 8-digit HTSUS subheading numbers; and

(c) The bill of materials or formula identifies the manufactured quantities of the imported and/or substituted merchandise and the exported or destroyed article(s).

Subpart C—Unused Merchandise Drawback

§ 190.31 Direct identification unused merchandise drawback.

(a) *General.* Section 313(j)(1) of the Act, as amended (19 U.S.C. 1313(j)(1)),

provides for drawback upon the exportation or destruction under CBP supervision of imported merchandise upon which was paid any duty, tax, or fee imposed under Federal law upon entry or importation, if the merchandise has not been used within the United States before such exportation or destruction. The total amount of drawback allowable will not exceed 99 percent of the amount of duties, taxes, and fees paid with respect to the imported merchandise.

(b) *Time of exportation or destruction.* Drawback will be allowable on imported merchandise if, before the close of the 5-year period beginning on the date of importation and before the drawback claim is filed, the merchandise is exported from the United States or destroyed under CBP supervision.

(c) *Operations performed on imported merchandise.* The performing of any operation or combination of operations, not amounting to manufacture or production under the provisions of the manufacturing drawback law as provided for in 19 U.S.C. 1313(j)(3), on imported merchandise is not a use of that merchandise for purposes of this section.

§ 190.32 Substitution unused merchandise drawback.

(a) *General.* Section 313(j)(2) of the Act, as amended (19 U.S.C. 1313(j)(2)), provides for drawback of duties, taxes, and fees paid on imported merchandise based on the export or destruction under CBP supervision of substituted merchandise (as defined in §190.2, pursuant to 19 U.S.C. 1313(j)(2)), before the close of the 5-year period beginning on the date of importation of the imported merchandise and before the drawback claim is filed, and before such exportation or destruction the substituted merchandise is not used in the United States (*see* paragraph (e) of this section) and is in the possession of the party claiming drawback. The amount of duties, taxes, and fees eligible for drawback is determined by per unit averaging, as defined in 19 CFR 190.2, for any drawback claim based on 19 U.S.C. 1313(j)(2).

(b) *Allowable refund*—(1) *Exportation.* In the case of an article that is exported, subject to paragraph (b)(3) of this section, the total amount of drawback allowable will not exceed 99 percent of the lesser of:

(i) The amount of duties, taxes, and fees paid with respect to the imported merchandise; or

(ii) The amount of duties, taxes, and fees that would apply to the exported article if the exported article were imported.

(2) *Destruction.* In the case of an article that is destroyed, subject to paragraph (b)(3) of this section, the total amount of drawback allowable will not exceed 99 percent of the lesser of:

(i) The amount of duties, taxes, and fees paid with respect to the imported merchandise (after the value of the imported merchandise has been reduced by the value of materials recovered during destruction as provided in 19 U.S.C. 1313(x)); or

(ii) The amount of duties, taxes, and fees that would apply to the destroyed article if the destroyed article had been imported (after the value of the imported merchandise has been reduced by the value of materials recovered during destruction as provided in 19 U.S.C. 1313(x)).

(3) *Federal excise tax.* For purposes of drawback of internal revenue tax imposed under Chapters 32, 38 (with the exception of Subchapter A of Chapter 38), 51, and 52 of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export or destruction of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

(c) *Determination of HTSUS classification for substituted merchandise.* Requests for binding rulings on the classification of imported, substituted, or exported merchandise may be submitted to CBP pursuant to the procedures set forth in part 177.

(d) *Claims for wine*—(1) *Alternative substitution standard.* In addition to the 8-digit HTSUS substitution standard in §190.2, drawback of duties, taxes, and fees, paid on imported wine as defined in §190.2 may be allowable under 19 U.S.C. 1313(j)(2) with respect to wine if the imported wine and the exported wine are of the same color and the price variation between the imported

wine and the exported wine does not exceed 50 percent.

(2) *Allowable refund.* For any drawback claim for wine (as defined in §190.2) based on 19 U.S.C. 1313(j)(2), the total amount of drawback allowable will not exceed 99 percent of the duties, taxes, and fees paid with respect to the imported merchandise, without regard to the limitations in paragraph (b)(1) or (b)(2) of this section.

(3) *Required certification.* When the basis for substitution for wine drawback claims under 19 U.S.C. 1313(j)(2) is the alternative substitution standard rule set forth in (d)(1), claims under this subpart may be paid and liquidated if:

(i) The claimant specifies on the drawback entry that the basis for substitution is the alternative substitution standard for wine; and

(ii) The claimant provides a certification, as part of the complete claim (*see* 190.51(a)), stating that:

(A) The imported wine and the exported wine are a Class 1 grape wine (as defined in 27 CFR 4.21(a)(1)) of the same color (*i.e.*, red, white, or rosé);

(B) The imported wine and the exported wine are table wines (as defined in 27 CFR 4.21(a)(2)) and the alcoholic content does not exceed 14 percent by volume; and

(C) The price variation between the imported wine and the exported wine does not exceed 50 percent.

(e) *Operations performed on substituted merchandise.* The performing of any operation or combination of operations, not amounting to manufacture or production as provided for in 19 U.S.C. 1313(j)(3)(B), on the substituted merchandise is not a use of that merchandise for purposes of this section.

(f) *Designation by successor; 19 U.S.C. 1313(s)*—(1) *General rule.* Upon compliance with the requirements of this section and under 19 U.S.C. 1313(s), a drawback successor as defined in paragraph (f)(2) of this section may designate either of the following as the basis for drawback on merchandise possessed by the successor after the date of succession:

(i) Imported merchandise which the predecessor, before the date of succession, imported; or

(ii) Imported and/or substituted merchandise that was transferred to the predecessor from the person who imported and paid duty on the imported merchandise.

(2) *Drawback successor.* A ''drawback successor'' is an entity to which another entity (predecessor) has transferred, by written agreement, merger, or corporate resolution:

(i) All or substantially all of the rights, privileges, immunities, powers, duties, and liabilities of the predecessor; or

(ii) The assets and other business interests of a division, plant, or other business unit of such predecessor, but only if in such transfer the value of the transferred realty, personalty, and intangibles (other than drawback rights, inchoate or otherwise) exceeds the value of all transferred drawback rights, inchoate or otherwise.

(3) *Certifications and required evidence*—(i) *Records of predecessor.* The predecessor or successor must certify that the successor is in possession of the predecessor's records which are necessary to establish the right to drawback under the law and regulations with respect to the imported and/or substituted merchandise.

(ii) *Merchandise not otherwise designated.* The predecessor or successor must certify that the predecessor has not designated and will not designate, nor enable any other person to designate, the imported and/or substituted merchandise as the basis for drawback.

(iii) *Value of transferred property.* In instances in which assets and other business interests of a division, plant, or other business unit of a predecessor are transferred, the predecessor or successor must specify, and maintain supporting records to establish, the value of the drawback rights and the value of all other transferred property.

(iv) *Review by CBP.* The written agreement, merger, or corporate resolution, provided for in paragraph (f)(2) of this section, and the records and evidence provided for in paragraph (f)(3)(i) through (iii) of this section, must be retained by the appropriate party(s) for 3 years from the date of liquidation of the related claim and are subject to review by CBP upon request.

§ 190.33 Person entitled to claim unused merchandise drawback.

(a) *Direct identification.* (1) Under 19 U.S.C. 1313(j)(1), as amended, the exporter or destroyer will be entitled to claim drawback.

(2) The exporter or destroyer may waive the right to claim drawback and assign such right to the importer or any intermediate party. A drawback claimant under 19 U.S.C. 1313(j)(1) other than the exporter or destroyer must secure and retain a certification signed by the exporter or destroyer waiving the right to claim drawback, and stating that it did not and will not authorize any other party to claim the exportation or destruction for drawback (*see* §190.82). The certification provided for under this section may be a blanket certification for a stated period. The claimant must file such certification with each claim.

(b) *Substitution.* (1) Under 19 U.S.C. 1313(j)(2), as amended, the following parties may claim drawback:

(i) In situations where the exporter or destroyer of the substituted merchandise is also the importer of the imported merchandise, that party will be entitled to claim drawback.

(ii) In situations where the person who imported and paid the duty on the imported merchandise transfers the imported merchandise, substituted merchandise, or any combination of imported and substituted merchandise to the person who exports or destroys that merchandise, the exporter or destroyer will be entitled to claim drawback. (Any such transferred merchandise, regardless of its origin, will be treated as imported merchandise for purposes of drawback under 19 U.S.C. 1313(j)(2), and any retained merchandise will be treated as domestic merchandise.)

(iii) In situations where the transferred merchandise described in paragraph (b)(1)(ii) of this section is the subject of further transfer(s), such transfer(s) must be documented by records, including records kept in the normal course of business, and the exporter or destroyer will be entitled to claim drawback (multiple substitutions are not permitted).

(2) The exporter or destroyer may waive the right to claim drawback and assign such right to the importer or to any intermediate party, provided that the claimant had possession of the substituted merchandise prior to its exportation or destruction. A drawback claimant under 19 U.S.C. 1313(j)(2) other than the exporter or destroyer must secure and retain a certification signed by the exporter or destroyer that such party waived the right to claim drawback, and stating that it did not and will not authorize any other party to claim the exportation or destruction for drawback (*see* §190.82). The certification provided for under this section may be a blanket certification for a stated period. The claimant must file such certification with each claim.

§ 190.34 Transfer of merchandise.

Any transfer of merchandise (*see* §190.10) must be recorded in records, which may include records kept in the normal course of business, as defined in §190.2.

§ 190.35 Notice of intent to export or destroy; examination of merchandise.

(a) *Notice.* A notice of intent to export or destroy merchandise which may be the subject of an unused merchandise drawback claim (19 U.S.C. 1313(j)) must be provided to CBP to give CBP the opportunity to examine the merchandise. The claimant or the exporter (for destruction under CBP supervision, see §190.71) must file at the port of intended examination a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553 at least 5 working days prior to the date of intended exportation unless CBP approves another filing period or the claimant has been granted a waiver of prior notice (*see* §190.91).

(b) *Required information.* The notice must certify that the merchandise has not been used in the United States before exportation or destruction. In addition, if applicable, the notice must provide the bill of lading number, if known, the name and telephone number, mailing address, and, if available, fax number and email address of a contact person, and the location of the merchandise.

(c) *Decision to examine or to waive examination.* Within 2 working days after receipt of the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback (*see* paragraph (a) of this section), CBP will notify the party designated on the Notice in writing of CBP's decision to either examine the merchandise to be exported, or to waive examination. If CBP timely notifies the designated party, in writing, of its decision to examine the merchandise (*see* paragraph (d) of this section), but the merchandise is exported without having been presented to CBP for examination, any drawback claim, or part thereof, based on the Notice will be denied. If CBP notifies the designated party, in writing, of its decision to waive examination of the merchandise, or, if timely notification of a decision by CBP to examine or to waive examination has not been received, the merchandise may be exported without delay.

(d) *Time and place of examination.* If CBP gives timely notice of its decision to examine the exported merchandise, the merchandise to be examined must be promptly presented to CBP. CBP must examine the merchandise within 5 working days after presentation of the merchandise. The merchandise may be exported without examination if CBP fails to timely examine the merchandise after presentation to CBP. If the examination is to be completed at a port other than the port of actual exportation or destruction, the merchandise must be transported in-bond to the port of exportation or destruction.

(e) *Extent of examination.* The appropriate CBP office may permit release of merchandise without examination, or may examine, to the extent determined to be necessary, the items to be exported or destroyed.

§ 190.36 Failure to file Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback.

(a) *General; application.* Merchandise which has been exported or destroyed without complying with the requirements of § 190.35(a), § 190.42(a), § 190.71(a), or § 190.91 may be eligible for unused merchandise drawback under 19 U.S.C. 1313(j) or under 19 U.S.C. 1313(c) subject to the following conditions:

(1) *Application.* The claimant must file a written application with the drawback office where the drawback claims will be filed. Such application must include the following:

(i) Required information.

(A) Name, address, and Internal Revenue Service (IRS) number (with suffix) of applicant;

(B) Name, address, and IRS number(s) (with suffix(es)) of exporter(s), if applicant is not the exporter;

(C) Export period covered by this application;

(D) Commodity/product lines of imported and exported merchandise covered in this application (and the applicable HTSUS numbers);

(E) The origin of the above merchandise;

(F) Estimated number of export transactions covered in this application;

(G) Estimated number of drawback claims and estimated time of filing those claims to be covered in this application;

(H) The port(s) of exportation;

(I) Estimated dollar value of potential drawback claims to be covered in this application;

(J) The relationship between the parties involved in the import and export transactions; and

(K) Provision(s) of drawback covered under the application;

(ii) Written declarations regarding:

(A) The reason(s) that CBP was not notified of the intent to export; and

(B) Whether the applicant, to the best of its knowledge, will have future exportations or destructions on which unused merchandise drawback might be claimed; and

(iii) A certification that the following documentary evidence will be made available for CBP to review upon request:

(A) For the purpose of establishing that the imported merchandise was not used in the United States (for purposes of drawback under 19 U.S.C. 1313(j)(1)) or that the exported or destroyed merchandise was not used in the United States and satisfied the requirements for substitution with the imported merchandise (for purposes of drawback under 19 U.S.C. 1313(j)(2)), and, as applicable:

(*1*) Records;

(*2*) Any laboratory records prepared in the ordinary course of business; and/or

(*3*) Inventory records prepared in the ordinary course of business tracing all relevant movements and storage of the imported merchandise, substituted merchandise, and/or exported merchandise; and

(B) Evidence establishing compliance with all other applicable drawback requirements.

(2) *One-time use.* The procedure provided for in this section may be used by a claimant only once, unless good cause is shown (for example, successorship).

(3) *Claims filed pending disposition of application.* Drawback claims may be filed under this section pending disposition of the application. However, those drawback claims will not be processed or paid until the application is approved by CBP.

(b) *CBP action.* In order for CBP to evaluate the application under this section, CBP may request, and the applicant must provide, any of the information listed in paragraph (a)(1)(iii)(A)(*1*) through (*3*) of this section. In making its decision to approve or deny the application under this section, CBP will consider factors such as, but not limited to, the following:

(1) Information provided by the claimant in the written application;

(2) Any of the information listed in paragraphs (a)(1)(iii)(A)(*1*) through (*3*) of this section and requested by CBP under paragraph (b); and

(3) The applicant's prior record with CBP.

(c) *Time for CBP action.* CBP will notify the applicant in writing within 90 days after receipt of the application of its decision to approve or deny the application, or of CBP's inability to approve, deny or act on the application and the reason therefor.

(d) *Appeal of denial of application.* If CBP denies the application, the applicant may file a written appeal with the drawback office which issued the denial, provided that the applicant files this appeal within 30 days of the date of denial. If CBP denies this initial appeal, the applicant may file a further written appeal with CBP Headquarters, Office of Trade, Trade Policy and Programs, provided that the applicant files this further appeal within 30 days of the denial date of the initial appeal. CBP may extend the 30-day period for appeal to the drawback office or to CBP Headquarters, for good cause, if the applicant applies in writing for such extension within the appropriate 30-day period above.

(e) *Future intent to export or destroy unused merchandise.* If an applicant states it will have future exportations or destructions on which unused merchandise drawback may be claimed (*see* paragraph (a)(1)(ii)(B) of this section), the applicant will be informed of the procedures for waiver of prior notice (*see* §190.91). If the applicant seeks waiver of prior notice under §190.91, any documentation submitted to CBP to comply with this section will be included in the request under §190.91. An applicant that states that it will have future exportations or destructions on which unused merchandise drawback may be claimed (*see* paragraph (a)(1)(ii)(B) of this section) and which does not obtain waiver of prior notice must notify CBP of its intent to export or destroy prior to each such exportation or destruction, in accordance with §190.35.

§190.37 Destruction under CBP supervision.

A claimant may destroy merchandise and obtain unused merchandise drawback by complying with the procedures set forth in §190.71 relating to destruction.

§190.38 Recordkeeping.

(a) *Maintained by claimant; by others.* Pursuant to 19 U.S.C. 1508(c)(3), all records which are necessary to be maintained by the claimant under this part with respect to drawback claims, and records kept by others to complement the records of the claimant, which are essential to establish compliance with the legal requirements of 19 U.S.C. 1313(j)(1) or (j)(2), as applicable, and this part with respect to drawback claims, must be retained for 3 years after liquidation of such claims (under 19 U.S.C. 1508, the same records may be subject to a different retention period for different purposes).

(b) *Accounting for the merchandise.* Merchandise subject to drawback under 19 U.S.C. 1313(j)(1) and (j)(2) must be accounted for in a manner which will enable the claimant:

(1) To determine, and CBP to verify, the applicable import entry or transfer(s) of drawback-eligible merchandise;

(2) To determine, and CBP to verify, the applicable exportation or destruction; and

(3) To identify, with respect to the import entry or any transfer(s) of drawback-eligible merchandise, the imported merchandise designated as the basis for the drawback claim.

Subpart D—Rejected Merchandise

§ 190.41 Rejected merchandise drawback.

Section 313(c) of the Act, as amended (19 U.S.C. 1313(c)), provides for drawback upon the exportation or destruction under CBP supervision of imported merchandise which has been entered, or withdrawn from warehouse, for consumption, duty-paid, and which: Does not conform to sample or specifications; has been shipped without the consent of the consignee; or has been determined to be defective as of the time of importation; or ultimately sold at retail by the importer or the person who received the merchandise from the importer, and for any reason returned to and accepted by the importer or the person who received the merchandise from the importer. The total amount of drawback allowable will be 99 percent of the amount of duties paid with respect to the imported, duty-paid merchandise. *See* subpart P of this part for drawback of internal revenue taxes for unmerchantable or nonconforming distilled spirits, wines, or beer.

§ 190.42 Procedures and supporting documentation.

(a) *Time limit for exportation or destruction.* Drawback will be denied on merchandise that is exported or destroyed after the statutory 5-year time period.

(b) *Required documentation.* The claimant must submit documentation to CBP as part of the complete drawback claim (*see* § 190.51) to establish that the merchandise did not conform to sample or specification, was shipped without the consent of the consignee, or was defective as of the time of importation (*see* § 190.45 for additional requirements for claims made on rejected retail merchandise under 19 U.S.C. 1313(c)(1)(C)(ii)). If the claimant was not the importer, the claimant must also:

(1) Submit a statement signed by the importer and every other person, other than the ultimate purchaser, that owned the goods, that no other claim for drawback was made on the goods by any other person; and

(2) Certify that records are available to support the statement required in paragraph (b)(1) of this section.

(c) *Notice.* A notice of intent to export or destroy merchandise which may be the subject of a rejected merchandise drawback claim (19 U.S.C. 1313(c)) must be provided to CBP to give CBP the opportunity to examine the merchandise. The claimant, or the exporter (for destruction under CBP supervision, see § 190.71), must file at the port of intended redelivery to CBP custody a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553 at least 5 working days prior to the date of intended return to CBP custody, unless the claimant has been granted a waiver of prior notice (*see* § 190.91) or complies with the procedures for 1-time waiver in § 190.36.

(d) *Required information.* The notice must provide the bill of lading number, if known, the name and telephone number, mailing address, and, if available, fax number and email address of a contact person, and the location of the merchandise.

(e) *Decision to waive examination.* Within 2 working days after receipt of the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback (*see* paragraph (c) of this section), CBP will notify, in writing, the party designated on the Notice of CBP's decision to either examine the merchandise to be exported or destroyed, or to waive examination. If CBP timely notifies the designated party, in writing, of its decision to examine the merchandise (*see* paragraph (f) of this section), but the merchandise

is exported or destroyed without having been presented to CBP for such examination, any drawback claim, or part thereof, based on the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback, must be denied. If CBP notifies the designated party, in writing, of its decision to waive examination of the merchandise, or, if timely notification of a decision by CBP to examine or to waive examination is absent, the merchandise may be exported or destroyed without delay and will be deemed to have been returned to CBP custody.

(f) *Time and place of examination.* If CBP gives timely notice of its decision to examine the merchandise to be exported or destroyed, the merchandise to be examined must be promptly presented to CBP. CBP must examine the merchandise within 5 working days after presentation of the merchandise. The merchandise may be exported or destroyed without examination if CBP fails to timely examine the merchandise after presentation to CBP, and in such case the merchandise will be deemed to have been returned to CBP custody. If the examination is to be completed at a port other than the port of actual exportation or destruction, the merchandise must be transported in-bond to the port of exportation or destruction.

(g) *Extent of examination.* The appropriate CBP office may permit release of merchandise without examination, or may examine, to the extent determined to be necessary, the items exported or destroyed.

(h) *Drawback claim.* When filing the drawback claim, the drawback claimant must correctly calculate the amount of drawback due (*see* § 190.51(b)). The procedures for restructuring a claim (*see* § 190.53) apply to rejected merchandise drawback if the claimant has an ongoing export program which qualifies for this type of drawback.

(i) *Exportation.* Claimants must provide documentary evidence of exportation (*see* subpart G of this part). The claimant may establish exportation by mail as set out in § 190.74.

§ 190.43 Unused merchandise drawback claim.

Rejected merchandise may be the subject of an unused merchandise drawback claim under 19 U.S.C. 1313(j)(1), in accordance with subpart C of this part, to the extent that the merchandise qualifies therefor.

§ 190.44 [Reserved]

§ 190.45 Returned retail merchandise.

(a) *Special rule for substitution.* Section 313(c)(1)(C)(ii) of the Tariff Act of 1930, as amended (19 U.S.C. 1313(c)(1)(C)(ii)), provides for drawback upon the exportation or destruction under CBP supervision of imported merchandise which has been entered, or withdrawn from warehouse, for consumption, duty-paid and ultimately sold at retail by the importer, or the person who received the merchandise from the importer, and for any reason returned to and accepted by the importer, or the person who received the merchandise from the importer.

(b) *Eligibility requirements.* (1) Drawback is allowable pursuant to compliance with all requirements set forth in this subpart; and

(2) The claimant must also show by evidence satisfactory to CBP that drawback may be claimed by—

(i) Designating an entry of merchandise that was imported within 1 year before the date of exportation or destruction of the merchandise described in paragraph (a) under CBP supervision.

(ii) Certifying that the same 8-digit HTSUS subheading number and specific product identifier (such as part number, SKU, or product code) apply to both the merchandise designated for drawback (in the import documentation) and the returned merchandise.

(c) *Allowable refund.* The total amount of drawback allowable will not exceed 99 percent of the amount of duties paid with respect to the imported merchandise.

(d) *Denial of claims.* No drawback will be refunded if CBP is not satisfied that the claimant has provided, upon request, the documentation necessary to support the certification required in paragraph (b)(2)(ii) of this section.

Subpart E—Completion of Drawback Claims

§ 190.51 Completion of drawback claims.

(a) *General*—(1) *Complete claim.* Unless otherwise specified, a complete drawback claim under this part will consist of the successful electronic transmission to CBP of the drawback entry (as described in paragraph (a)(2) of this section), applicable Notice(s) of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553, applicable import entry data, and evidence of exportation or destruction as provided for under subpart G of this part.

(2) *Drawback entry.* The drawback entry is to be filed through a CBP-authorized electronic system and must include the following:

(i) Claimant identification number;

(ii) Broker identification number (if applicable);

(iii) If requesting accelerated payment under § 190.92, surety code and bond type (and, for single transaction bonds, also the bond number and amount of bond);

(iv) Port code for the drawback office where the claim is being filed;

(v) Drawback entry number and provision(s) under which drawback is claimed;

(vi) Statement of eligibility for applicable privileges (as provided for in subpart I of this part);

(vii) Amount of refund claimed for each of relevant duties, taxes, and fees (calculated to two decimal places);

(viii) For each designated import entry line item, the entry number and the line item number designating the merchandise, a description of the merchandise, a unique import tracing identification number(s) (ITIN) (used to associate the imported merchandise and any substituted merchandise with any intermediate products (if applicable) and the drawback-eligible exported or destroyed merchandise or finished article(s)), as well as the following information for the merchandise designated as the basis for the drawback claim: The 10-digit HTSUS classification, amount of duties paid, applicable entered value (*see* 19 CFR 190.11(a)), quantity, and unit of measure (using the unit(s) of measure required under the HTSUS for substitution manufacturing and substitution unused merchandise drawback claims), as well as the types and amounts of any other duties, taxes, or fees for which a refund is requested;

(ix) For manufacturing claims under 19 U.S.C. 1313(a) or (b), each associated ruling number, along with the following information: Corresponding information for the factory location, the basis of the claim (as provided for in § 190.23), the date(s) of use of the imported and/or substituted merchandise in manufacturing or processing (or drawback product containing the imported or substituted merchandise), a description of and the 10-digit HTSUS classification for the drawback product or finished article that is manufactured or produced, the quantity and unit of measure for the drawback product or finished article that is manufactured or produced, the disposition of the drawback product or finished article that is manufactured or produced (transferred, exported, or destroyed), unique manufacture tracing identification number(s) (MTIN) (used to associate the manufactured merchandise, including any intermediate products, with the drawback-eligible exported or destroyed finished article(s)), and a certification from the claimant that provides as follows: ''The article(s) described above were manufactured or produced and disposed of as stated herein in accordance with the drawback ruling on file with CBP and in compliance with applicable laws and regulations.'';

(x) Indicate whether the designated imported merchandise, other substituted merchandise, or finished article (for manufacturing claims) was transferred to the drawback claimant prior to the exportation or destruction of the eligible merchandise, and for unused merchandise drawback claims under 19 U.S.C. 1313(j), provide a certification from the client that provides as follows: ''The undersigned hereby certifies that the exported or destroyed merchandise herein described is unused in the United States and further certifies that this merchandise was not

subjected to any process of manufacture or other operation except the allowable operations as provided for by regulation.'';

(xi) Indicate whether the eligible merchandise was exported or destroyed and provide the applicable 10-digit HTSUS or Department of Commerce Schedule B classification, quantity, and unit of measure (the unit of measure specified must be the same as that which was required under the HTSUS for the designated imported merchandise in paragraph (viii) for substitution unused merchandise drawback claims) and, for claims under 19 U.S.C. 1313(c), specify the basis as one of the following:

(A) Merchandise does not conform to sample or specifications;

(B) Merchandise was defective at time of importation;

(C) Merchandise was shipped without consent of the consignee; or

(D) Merchandise sold at retail and returned to the importer or the person who received the merchandise from the importer;

(xii) For eligible merchandise that was exported, the unique export identifier (the number used to associate the export transaction with the appropriate documentary evidence of exportation), export destination, name of exporter, the applicable comparative value pursuant to §190.11(b) (*see* §190.22(a)(1)(ii), §190.22(a)(2)(ii), or §190.32(b)) for substitution claims, and a certification from the claimant that provides as follows: ''I declare, to the best of my knowledge and belief, that all of the statements in this document are correct and that the exported article is not to be relanded in the United States or any of its possessions without paying duty.'';

(xiii) For eligible merchandise that was destroyed, the name of the destroyer and, if substituted, the applicable comparative value pursuant to §190.11(c) (*see* §190.22(a)(1)(ii), §190.22(a)(2)(ii), or §190.32(b)), and a certification from the claimant, if applicable, that provides as follows: ''The undersigned hereby certifies that, for the destroyed merchandise herein described, the value of recovered materials (including the value of any tax benefit or royalty payment) that accrues to the drawback claimant has been deducted from the value of the imported (or substituted) merchandise designated by the claimant, in accordance with 19 U.S.C. 1313(x).'';

(xiv) For substitution unused merchandise drawback claims under 19 U.S.C. 1313(j)(2), a certification from the claimant that provides as follows: ''The undersigned hereby certifies that the substituted merchandise is unused in the United States and that the substituted merchandise was in our possession prior to exportation or destruction.'';

(xv) For NAFTA and USMCA drawback claims provided for in subpart E of parts 181 and 182, the foreign entry number and date of entry, the HTSUS classification for the foreign entry, the amount of duties paid for the foreign entry and the applicable exchange rate, and, if applicable, a certification from the claimant that provides as follows: ''Same condition—The undersigned certifies that the merchandise herein described is in the same condition as when it was imported under the above import entry(s) and further certifies that this merchandise was not subjected to any process of manufacture or other operation except the allowable operations as provided for by regulation.''; and

(xvi) All certifications required in this part and as otherwise deemed necessary by CBP to establish compliance with the applicable laws and regulations, as well as the following declaration: ''The undersigned acknowledges statutory requirements that all records supporting the information on this document are to be retained by the issuing party for a period of 3 years from the date of liquidation of the drawback claim. All required documentation that must be uploaded in accordance with 19 CFR 190.51 will be provided to CBP within 24 hours of the filing of the drawback claim. The undersigned acknowledges that a false certification of the foregoing renders the drawback claim incomplete and subject to denial. The undersigned is fully aware of the sanctions provided in 18 U.S.C. 1001, and 18 U.S.C. 550, and 19 U.S.C. 1593a.''

(3) *Election of line item designation for imported merchandise.* Merchandise on a specific line on an entry summary may

be designated for either direct identification or substitution claims but a single line on an entry summary may not be split for purposes of claiming drawback under both direct identification and substitution claims. The first complete drawback claim accepted by CBP which designates merchandise on a line on an entry summary establishes this designation for any remaining merchandise on that same line.

(4) *Limitation on line item eligibility for imported merchandise.* Claimants filing substitution drawback claims under part 190 for imported merchandise associated with a line item on an entry summary if any other merchandise covered on that entry summary has been designated as the basis of a claim under part 191 must provide additional information enabling CBP to verify the availability of drawback for the indicated merchandise and associated line item within 30 days of claim submission. The information to be provided will include, but is not limited to: summary document specifying the lines used and unused on the import entry; the import entry summary, corresponding commercial invoices, and copies of all drawback claims that previously designated the import entry summary; and post summary/liquidation changes (for imports or drawback claims, if applicable).

(b) *Drawback due*—(1) *Claimant required to calculate drawback.* Drawback claimants are required to correctly calculate the amount of drawback due. The amount of drawback requested on the drawback entry is generally to be 99 percent of the duties, taxes, and fees eligible for drawback. (For example, if $1,000 in import duties are eligible for drawback less 1 percent ($10), the amount claimed on the drawback entry should be for $990.) Claims exceeding 99 percent (or 100% when 100% of the duty is available for drawback) will not be paid until the calculations have been corrected by the claimant. Claims for less than 99 percent (or 100% when 100% of the duty is available for drawback) will be paid as filed, unless the claimant amends the claim in accordance with §190.52(c). The amount of duties, taxes, and fees eligible for drawback is determined by whether a claim is based upon direct identification or substitution, as provided for below:

(i) *Direct identification.* The amounts eligible for drawback for a unit of merchandise consists of those duties, taxes, and fees that were paid for that unit of the designated imported merchandise. This may be the amount of duties, taxes, and fees actually tendered on that unit or those attributable to that unit, if identified pursuant to an approved accounting method (*see* 19 CFR 190.14).

(ii) *Substitution.* The amount of duties, taxes, and fees eligible for drawback pursuant to 19 U.S.C. 1313(b) or 19 U.S.C. 1313(j)(2) is determined by per unit averaging, as defined in §190.2. The amount that may be refunded is also subject to the limitations set forth in §190.22(a)(1)(ii) (manufacturing claims) and §190.32(b) (unused merchandise claims), as applicable.

(2) *Merchandise processing fee apportionment calculation.* Where a drawback claimant requests a refund of a merchandise processing fee paid pursuant to 19 U.S.C. 58c(a)(9)(A), the claimant is required to correctly apportion the fee to that imported merchandise for which drawback is claimed when calculating the amount of drawback requested on the drawback entry. This is determined as follows:

(i) Relative value ratio for each line item. The value of each line item of entered merchandise subject to a merchandise processing fee is calculated (to four decimal places) by dividing the value of the line item subject to the fee by the total value of entered merchandise subject to the fee. The result is the relative value ratio.

(ii) Merchandise processing fee apportioned to each line item. To apportion the merchandise processing fee to each line item, the relative value ratio for each line item is multiplied by the merchandise processing fee paid.

(iii) Amount of merchandise processing fee eligible for drawback per line item. The amount of merchandise processing fee apportioned to each line item is multiplied by 99 percent to calculate that portion of the fee attributable to each line item that is eligible for drawback.

(iv) Amount of merchandise processing fee eligible for drawback per

unit of merchandise. To calculate the amount of a merchandise processing fee eligible for drawback per unit of merchandise, the line item amount that is eligible for drawback is divided by the number of units covered by that line item (to two decimal places).

(v) Limitation on amount of merchandise processing fee eligible for drawback for substitution claims. The amount of a merchandise processing fee eligible for drawback per unit of merchandise for drawback claims based upon substitution is subject to the limitations set forth in §§190.22(a)(1)(ii) (manufacturing claims) and 190.32(b) (unused merchandise claims), as applicable.

Example 1:

Line item 1—5,000 articles valued at $10 each total $50,000
Line item 2—6,000 articles valued at $15 each total $90,000
Line item 3—10,000 articles valued at $20 each total $200,000
Total units = 21,000
Total value = $340,000
Merchandise processing fee = $485 (for purposes of this example, the fee cap of $485 is assumed; see 19 CFR 24.23 for the current amount consistent with 19 U.S.C. 58c(a)(9)(B)(i)).

Line item relative value ratios. The relative value ratio for line item 1 is calculated by dividing the value of that line item by the total value ($50,000 ÷ 340,000 = .1471). The relative value ratio for line item 2 is .2647. The relative value ratio for line item 3 is .5882.

Merchandise processing fee apportioned to each line item. The amount of fee attributable to each line item is calculated by multiplying $485 by the applicable relative value ratio. The amount of the $485 fee attributable to line item 1 is $71.3435 (.1471 × $485 = $71.3435). The amount of the fee attributable to line item 2 is $128.3795 (.2647 × $485 = $128.3795). The amount of the fee attributable to line item 3 is $285.2770 (.5882 × $485 = $285.2770).

Amount of merchandise processing fee eligible for drawback per line item. The amount of merchandise processing fee eligible for drawback for line item 1 is $70.6301 (.99 × $71.3435). The amount of fee eligible for drawback for line item 2 is $127.0957 (.99 × $128.3795). The amount of fee eligible for drawback for line item 3 is $282.4242 (.99 × $285.2770).

Amount of merchandise processing fee eligible for drawback per unit of merchandise. The amount of merchandise processing fee eligible for drawback per unit of merchandise is calculated by dividing the amount of fee eligible for drawback for the line item by the number of units in the line item. For line item 1, the amount of merchandise processing fee eligible for drawback per unit is $.0141 ($70.6301 ÷ 5,000 = $.0141). If 1,000 widgets form the basis of a claim for drawback under 19 U.S.C. 1313(j), the total amount of drawback attributable to the merchandise processing fee is $14.10 (1,000 × .0141 = $14.10). For line item 2, the amount of fee eligible for drawback per unit is $.0212 ($127.0957 ÷ 6,000 = $.0212). For line item 3, the amount of fee eligible for drawback per unit is $.0282 ($282.4242 ÷ 10,000 = $.0282).

Example 2. This example illustrates the treatment of dutiable merchandise that is exempt from the merchandise processing fee and duty-free merchandise that is subject to the merchandise processing fee.

Line item 1—700 meters of printed cloth valued at $10 per meter (total value $7,000) that is exempt from the merchandise processing fee under 19 U.S.C. 58c(b)(8)(B)(iii)
Line item 2—15,000 articles valued at $100 each (total value $1,500,000)
Line item 3—10,000 duty-free articles valued at $50 each (total value $500,000)

The relative value ratios are calculated using line items 2 and 3 only, as there is no merchandise processing fee imposed by reason of importation on line item 1.

Line item 2—1,500,000 ÷ 2,000,000 = .75 (line items 2 and 3 form the total value of the merchandise subject to the merchandise processing fee).
Line item 3—500,000 ÷ 2,000,000 = .25.

If the total merchandise processing fee paid was $485, the amount of the fee attributable to line item 2 is $363.75 (.75 × $485 = $363.75). The amount of the fee attributable to line item 3 is $121.25 (.25 × $485 = $121.25).

The amount of merchandise processing fee eligible for drawback for line item 2 is $360.1125 (.99 × $363.75). The amount of fee eligible for line item 3 is $120.0375 (.99 × $121.25).

The amount of drawback on the merchandise processing fee attributable to each unit of line item 2 is $.0240 ($360.1125 ÷ 15,000 = $.0240). The amount of drawback on the merchandise processing fee attributable to each unit of line item 3 is $.0120 ($120.0375 ÷ 10,000 = $.0120).

If 1,000 units of line item 2 were exported, the drawback attributable to the merchandise processing fee is $24.00 ($.0240 × 1,000 = $24.00).

(3) *Calculations for all other duties, taxes, and fees*—(i) *General.* Where a drawback claimant requests a refund of any other duties, taxes, and fees allowable in accordance with §190.3, the claimant is required to accurately calculate (including apportionment using

per unit averaging or inventory management methods, as appropriate) the duties, taxes, and fees attributable to the designated imported merchandise for which drawback is being claimed when calculating the amount of drawback requested on the drawback entry (generally 99% of the duties, taxes, and fees paid on the imported merchandise).

(ii) *Examples.* As illustrated in the examples in this paragraph, in the case of customs duties, the type of calculation required to determine the amount of duties available for refund (generally 99% of the duties paid on the imported merchandise) will vary depending on whether the duty involved is ad valorem, specific, or compound.

Example 1: Ad valorem duty rate. Apportionment of the duties paid (and available for refund) will be based on the application of the duty rates to the per unit values of the imported merchandise. The per unit values are based on the invoice values unless the method of refund calculation is per unit averaging, which would require equal apportionment of the duties paid over the quantity of imported merchandise covered by the line item upon which the imported merchandise was reported on the import entry summary. As a result, the amount of duties available for refund will vary depending on the method used to calculate refunds.

Example 2: Specific duty rate. No apportionment of the duties paid is required to determine the amount available for refund. A fixed duty rate is applicable to each unit of the imported merchandise based on quantity. This fixed rate will not vary based on the per unit values of the imported merchandise and, as a result, there is no impact on the amount of duties available for refunds (regardless of whether the refunds are calculated based on invoice values or per unit averaging).

Example 3: Compound duty rate. A compound duty rate is a combination of an ad valorem duty rate and a specific duty rate, with both rates applied to the same imported merchandise. As a result, a combination of the calculations discussed in paragraphs (a) and (b) of this section will apply when calculating the amount of duties paid that are available for refund.

(4) *Limitation.* The amount of duties, taxes, and fees eligible for drawback per unit of merchandise for drawback claims based upon substituted merchandise is subject to the limitations set forth in §190.22(a)(1)(ii) (manufacturing claims) and §190.32(b) (unused merchandise claims), as applicable.

(c) *HTSUS classification or Schedule B commodity number(s)*—(1) *General.* Drawback claimants are required to provide, on all drawback claims they submit, the 10-digit HTSUS classification or the Schedule B commodity number(s), for the following:

(i) *Designated imported merchandise.* For imported merchandise designated on drawback claims, the HTSUS classification applicable at the time of entry (e.g., as required to be reported on the applicable entry summary(s) and other entry documentation).

(ii) *Substituted merchandise on manufacturing claims.* For merchandise substituted on manufacturing drawback claims, and consistent with the applicable general manufacturing drawback ruling or the specific manufacturing drawback ruling, the applicable HTSUS classification numbers must be the same as either—

(A) If the substituted merchandise was imported, the HTSUS classification applicable at the time of entry (e.g., as required to be reported on the applicable entry summary(s) and other entry documentation); or,

(B) If the substituted merchandise was not imported, the HTSUS classification that would have been reported to CBP for the applicable entry summary(s) and other entry documentation, for the domestically produced substituted merchandise, at the time of entry of the designated imported merchandise.

(iii) *Exported merchandise or articles.* For exported merchandise or articles, the HTSUS classification or Schedule B commodity number(s) must be from the Electronic Export Information (EEI), when required. If no EEI is required (*see*, 15 CFR part 30 subpart D for a complete list of exemptions), then the claimant must provide the Schedule B commodity number(s) or HTSUS number(s) that the exporter would have set forth on the EEI when the exportation took place, but for the exemption from the requirement for an EEI.

(iv) *Destroyed merchandise or articles.* For destroyed merchandise or articles, the HTSUS classification or Schedule B commodity number(s) must be reported, subject to the following:

(A) if the HTSUS classification is reported, then it must be the HTSUS classification that would have been applicable to the destroyed merchandise or articles if they had been entered for consumption at the time of destruction; or

(B) if the Schedule B commodity number is reported, then it must be the Schedule B commodity number that would have been reported for the destroyed merchandise or articles if the EEI had been required for an exportation at the time of destruction.

(2) *Changes to classification.* If the 10-digit HTSUS classification or the Schedule B commodity number(s) reported to CBP for the drawback claim are determined to be incorrect or otherwise in controversy after the filing of the drawback entry, then the claimant must notify the drawback office where the drawback claim was filed of the correct HTSUS classification or Schedule B commodity number or the nature of the controversy before the liquidation of the drawback entry.

(d) *Method of filing.* All drawback claims must be submitted through a CBP-authorized system.

(e) *Time of filing*—(1) *General.* A complete drawback claim is timely filed if it is successfully transmitted not later than 5 years after the date on which the merchandise designated as the basis for the drawback claim was imported and in compliance with all other applicable deadlines under this part.

(i) *Official date of filing.* The official date of filing is the date upon which CBP receives a complete claim, as provided in paragraph (a) of this section, via transmission through a CBP-authorized system, including the uploading of all required supporting documentation.

(ii) *Abandonment.* Claims not completed within the 5-year period after the date on which the merchandise designated as the basis for the drawback claim was imported will be considered abandoned. Except as provided in paragraph (e)(2) of this section, no extension will be granted unless it is established that CBP was responsible for the untimely filing.

(iii) *Special timeframes.* For substitution claims, the exportation or destruction of merchandise shall not have preceded the date of importation of the designated imported merchandise, and/or the exportation or destruction of merchandise shall not otherwise be outside of the timeframes specified in 19 U.S.C. 1313(c)(2)(C) and 19 U.S.C. 1313(p)(2), if applicable.

(2) *Major disaster.* The 5-year period for filing a complete drawback claim provided for in paragraph (e)(1) of this section may be extended for a period not to exceed 18 months if:

(i) The claimant establishes to the satisfaction of CBP that the claimant was unable to file the drawback claim because of an event declared by the President to be a major disaster, within the meaning given to that term in 42 U.S.C. 5122(2), on or after January 1, 1994; and

(ii) The claimant files a request for such extension with CBP no later than 1 year from the last day of the 5-year period referred to in paragraph (e)(1) of this section.

(3) *Record retention.* If an extension is granted with respect to a request filed under paragraph (e)(2)(ii) of this section, the periods of time for retaining records under 19 U.S.C. 1508(c)(3) will be extended for an additional 18 months.

[83 FR 64997, Dec. 18, 2018, as amended by CBP Dec. 21–10, 86 FR 35594, July 6, 2021]

§ 190.52 Rejecting, perfecting or amending claims.

(a) *Rejecting the claim.* Upon review of a drawback claim when transmitted in ACE, if the claim is determined to be incomplete (*see* § 190.51(a)(1)) or untimely (*see* § 190.51(e)), the claim will be rejected and CBP will notify the filer. The filer will then have the opportunity to complete the claim subject to the requirement for filing a complete claim within 5 years of the date of importation of the merchandise designated as the basis for the drawback claim (or within 3 years after the date of exportation of the articles upon which drawback is claimed for drawback pursuant to 19 U.S.C. 1313(d)). If it is later determined by CBP, subsequent to acceptance of the claim and upon further review, that the claim was incomplete or untimely, then it may be denied.

(b) *Perfecting the claim; additional evidence required.* If CBP determines that

the claim is complete according to the requirements of §190.51(a)(1), but that additional evidence or information is required, CBP will notify the filer. The claimant must furnish, or have the appropriate party furnish, the evidence or information requested within 30 days of the date of notification by CBP. CBP may extend this 30-day period if the claimant files a written request for such extension within the 30-day period and provides good cause. The evidence or information required under this paragraph may be filed more than 5 years after the date of importation of the merchandise designated as the basis for the drawback claim (or within 3 years after the date of exportation of the articles upon which drawback is claimed for drawback pursuant to 19 U.S.C. 1313(d)). Such additional evidence or information may include, but is not limited to:

(1) Records or other documentary evidence of exportation, as provided for in §190.72, which shows that the articles were shipped by the person filing the drawback entry, or a letter of endorsement from the exporter which must be attached to such records or other documentary evidence, showing that the party filing the entry is authorized to claim drawback and receive payment (the claimant must have on file and make available to CBP upon request, the endorsement from the exporter assigning the right to claim drawback);

(2) A copy of the import entry and invoice annotated for the merchandise identified or designated;

(3) A copy of the export invoice annotated to indicate the items on which drawback is being claimed; and

(4) Records documenting the transfer of the merchandise including records kept in the normal course of business upon which the claim is based (*see* §190.10).

(c) *Amending the claim; supplemental filing*. Amendments to claims for which the drawback entries have not been liquidated must be made within 5 years of the date of importation of the merchandise designated as the basis for the drawback claim. Liquidated drawback entries may not be amended; however, they may be protested as provided for in §190.84 and part 174 of this chapter.

§190.53 Restructuring of claims.

(a) *General*. CBP may require claimants to restructure their drawback claims in such a manner as to foster administrative efficiency. In making this determination, CBP will consider the following factors:

(1) The number of transactions of the claimant (imports and exports);

(2) The value of the claims;

(3) The frequency of claims;

(4) The product or products being claimed; and

(5) For 19 U.S.C. 1313(a) and 1313(b) claims, the provisions, as applicable, of the general manufacturing drawback ruling or the specific manufacturing drawback ruling.

(b) *Exemption from restructuring; criteria*. In order to be exempt from a restructuring, a claimant must demonstrate an inability or impracticability in restructuring its claims as required by CBP and must provide a mutually acceptable alternative. Criteria used in such determination will include a demonstration by the claimant of one or more of the following:

(1) Complexities caused by multiple commodities or the applicable general manufacturing drawback ruling or the specific manufacturing drawback ruling;

(2) Variable and conflicting manufacturing and inventory periods (for example, financial, accounting and manufacturing records maintained are significantly different);

(3) Complexities caused by multiple manufacturing locations;

(4) Complexities caused by difficulty in adjusting accounting and inventory records (for example, records maintained—financial or accounting—are significantly different); and/or

(5) Complexities caused by significantly different methods of operation.

Subpart F—Verification of Claims

§190.61 Verification of drawback claims.

(a) *Authority*. All claims are subject to verification by CBP.

(b) *Method*. CBP personnel will verify compliance with the law and this part, the accuracy of the related general manufacturing drawback ruling or specific manufacturing drawback ruling

(as applicable), and the selected drawback claims. Verification may include an examination of all records relating to the transaction(s).

(c) *Liquidation.* When a claim has been selected for verification, liquidation will be postponed only on the drawback entry for the claim selected for verification. Postponement will continue in effect until the verification has been completed and a report is issued, subject to the limitation in 19 CFR 159.12(f). In the event that a substantial error is revealed during the verification, CBP may postpone liquidation of all related product line claims, or, in CBP's discretion, all claims made by that claimant.

(d) *Errors in specific or general manufacturing drawback rulings*—(1) *Specific manufacturing drawback ruling; action by CBP.* If verification of a drawback claim filed under a specific manufacturing drawback ruling (*see* §190.8) reveals errors or deficiencies in the drawback ruling or application therefor, the verifying CBP official will promptly inform CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade).

(2) *General manufacturing drawback ruling.* If verification of a drawback claim filed under a general manufacturing drawback ruling (*see* §190.7) reveals errors or deficiencies in a general manufacturing drawback ruling, the letter of notification of intent to operate under the general manufacturing drawback ruling, or the acknowledgment of the letter of notification of intent, the verifying CBP official will promptly inform CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of Trade).

(3) *Action by CBP Headquarters.* CBP Headquarters will review the stated errors or deficiencies and take appropriate action (*see* 19 U.S.C. 1625; 19 CFR part 177).

§ 190.62 Penalties.

(a) *Criminal penalty.* Any person who knowingly and willfully files any false or fraudulent entry or claim for the payment of drawback upon the exportation or destruction of merchandise or knowingly or willfully makes or files any false document for the purpose of securing the payment to himself or others of any drawback on the exportation or destruction of merchandise greater than that legally due, will be subject to the criminal provisions of 18 U.S.C. 550, 1001, or any other appropriate criminal sanctions.

(b) *Civil penalty.* Any person who seeks, induces or affects the payment of drawback, by fraud or negligence, or attempts to do so, is subject to civil penalties, as provided under 19 U.S.C. 1593a. A fraudulent violation is subject to a maximum administrative penalty of 3 times the total actual or potential loss of revenue. Repetitive negligent violations are subject to a maximum penalty equal to the actual or potential loss of revenue.

§ 190.63 Liability for drawback claims.

(a) *Liability of claimants.* Any person making a claim for drawback will be liable for the full amount of the drawback claimed.

(b) *Liability of importers.* An importer will be liable for any drawback claim made by another person with respect to merchandise imported by the importer in an amount equal to the lesser of:

(1) The amount of duties, taxes, and fees that the person claimed with respect to the imported merchandise; or

(2) The amount of duties, taxes, and fees that the importer authorized the other person to claim with respect to the imported merchandise.

(c) *Joint and several liability.* Persons described in paragraphs (a) and (b) of this section will be jointly and severally liable for the amount described in paragraph (b).

Subpart G—Exportation and Destruction

§ 190.71 Drawback on articles destroyed under CBP supervision.

(a) *Procedure.* At least 7 working days before the intended date of destruction of merchandise or articles upon which drawback is intended to be claimed, a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553 must be filed by the claimant with the CBP port where the destruction is to take place, giving notification of the date

and specific location where the destruction is to occur. Within 4 working days after receipt of the CBP Form 7553, CBP will advise the filer in writing of its determination to witness or not to witness the destruction. If the filer of the notice is not so notified within 4 working days, the merchandise may be destroyed without delay and will be deemed to have been destroyed under CBP supervision. Unless CBP determines to witness the destruction, the destruction of the articles following timely notification on CBP Form 7553 will be deemed to have occurred under CBP supervision. If CBP attends the destruction, CBP will certify on CBP Form 7553.

(b) *Evidence of destruction.* When CBP does not attend the destruction, the claimant must submit evidence that destruction took place in accordance with the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553. The evidence must be issued by a disinterested third party (for example, a landfill operator). The type of evidence depends on the method and place of destruction, but must establish that the merchandise was, in fact, destroyed within the meaning of ''destruction'' in §190.2.

(c) *Completion of drawback entry.* After destruction, the claimant must provide CBP Form 7553, certified by the CBP official witnessing the destruction in accordance with paragraph (a) of this section, to CBP as part of the complete drawback claim based on the destruction (*see* §190.51(a)). If CBP has not attended the destruction, the claimant must provide the evidence that destruction took place in accordance with the approved CBP Form 7553, as provided for in paragraph (b) of this section, as part of the complete drawback claim based on the destruction (*see* §190.51(a)).

(d) *Deduction for value of recovered materials.* Under 19 U.S.C. 1313(x), a destruction may include a process by which materials are recovered from imported merchandise or from an article manufactured from imported merchandise for drawback claims made pursuant to 19 U.S.C. 1313(a), (b), (c), and (j). In determining the amount of duties to be refunded as drawback to a claimant, the value of recovered materials (including the value of any tax benefit or royalty payment) that accrues to the drawback claimant must be deducted from the value of the imported merchandise that is destroyed, or from the value of the merchandise used, or designated as used, in the manufacture of the article.

§190.72 Proof of exportation.

(a) *Required export data.* Proof of exportation of articles for drawback purposes must establish fully the date and fact of exportation and the identity of the exporter by providing the following summary data as part of a complete claim (*see* §190.51) (in addition to providing prior notice of intent to export if applicable):

(1) Date of export;
(2) Name of exporter;
(3) Description of the goods;
(4) Quantity and unit of measure;
(5) Schedule B number or HTSUS number; and
(6) Country of ultimate destination.

(b) *Supporting documentary evidence.* The documents for establishing exportation (which may be records kept in the normal course of business) include, but are not limited to:

(1) Records or other documentary evidence of exportation (originals or copies) issued by the exporting carrier, such as a bill of lading, air waybill, freight waybill, Canadian Customs manifest, and/or cargo manifest;

(2) Records from a CBP-approved electronic export system of the United States Government (§190.73);

(3) Official postal records (originals or copies) which evidence exportation by mail (§190.74);

(4) Notice of lading for supplies on certain vessels or aircraft (§190.112); or

(5) Notice of transfer for articles manufactured or produced in the United States which are transferred to a foreign trade zone (§190.183).

§190.73 Electronic proof of exportation.

Records kept through an electronic export system of the United States Government may be presented as actual proof of exportation only if CBP has officially approved the use of that electronic export system as proof of

compliance for drawback claims. Official approval will be published as a general notice in the Customs Bulletin.

§ 190.74 Exportation by mail.

If the merchandise on which drawback is to be claimed is exported by mail or parcel post, the official postal records (original or copies) which describe the mail shipment will be sufficient to prove exportation. The postal record must be identified on the drawback entry, and must be retained by the claimant in their records and made available to CBP upon request (*see* § 190.51(a)).

§ 190.75 Exportation by the Government.

(a) *Claim by U.S. Government.* When a department, branch, agency, or instrumentality of the U.S. Government exports products with the intention of claiming drawback, it may establish the exportation in the manner provided in § 190.72 (*see* § 190.4).

(b) *Claim by supplier.* When a supplier of merchandise to the Government or any of the parties specified in § 190.82 claims drawback, exportation must be established under § 190.72.

§ 190.76 [Reserved]

Subpart H—Liquidation and Protest of Drawback Entries

§ 190.81 Liquidation.

(a) *Time of liquidation.* Drawback entries may be liquidated after:

(1) Liquidation of the designated import entry or entries becomes final pursuant to paragraph (e) of this section; or

(2) Deposit of estimated duties on the imported merchandise and before liquidation of the designated import entry or entries.

(b) *Claims based on estimated duties.* (1) Drawback may be paid upon liquidation of a claim based on estimated duties if one or more of the designated import entries have not been liquidated, or the liquidation has not become final (because of a protest being filed) (*see* also § 173.4(c) of this chapter), only if the drawback claimant and any other party responsible for the payment of liquidated import duties each files a written request for payment of each drawback claim, waiving any right to payment or refund under other provisions of law, to the extent that the estimated duties on the unliquidated import entry are included in the drawback claim for which drawback on estimated duties is requested under this paragraph. The drawback claimant must, to the best of its knowledge, identify each import entry that has been protested and that is included in the drawback claim. A drawback entry, once finally liquidated on the basis of estimated duties pursuant to paragraph (e)(2) of this section, will not be adjusted by reason of a subsequent final liquidation of the import entry.

(2) However, if final liquidation of the import entry discloses that the total amount of import duty is different from the total estimated duties deposited, except in those cases when drawback is 100% of the duty, the party responsible for the payment of liquidated duties, as applicable, will:

(i) Be liable for 1 percent of all increased duties found to be due on that portion of merchandise recorded on the drawback entry; or

(ii) Be entitled to a refund of 1 percent of all excess duties found to have been paid as estimated duties on that portion of the merchandise recorded on the drawback entry.

(c) *Claims based on voluntary tenders or other payments of duties*—(1) *General.* Subject to the requirements in paragraph (2) of this section, drawback may be paid upon liquidation of a claim based on voluntary tenders of the unpaid amount of lawful ordinary customs duties or any other payment of lawful ordinary customs duties for an entry, or withdrawal from warehouse, for consumption (*see* § 190.3(a)(1)(iii)), provided that:

(i) The tender or payment is specifically identified as duty on a specifically identified entry, or withdrawal from warehouse, for consumption;

(ii) Liquidation of the specifically identified entry, or withdrawal from warehouse, for consumption became final prior to such tender or payment; and

(iii) Liquidation of the drawback entry in which that specifically identified import entry, or withdrawal from

warehouse, for consumption is designated has not become final.

(2) *Written request and waiver.* Drawback may be paid on claims based on voluntary tenders or other payments of duties under this subsection only if the drawback claimant and any other party responsible for the payment of the voluntary tenders or other payments of duties each files a written request for payment of each drawback claim based on such voluntary tenders or other payments of duties, waiving any claim to payment or refund under other provisions of law, to the extent that the voluntary tenders or other payment of duties under this paragraph are included in the drawback claim for which drawback on the voluntary tenders or other payment of duties is requested under this paragraph.

(d) *Claims based on liquidated duties.* Drawback will be based on the final liquidated duties paid that have been made final by operation of law (except in the case of the written request for payment of drawback on the basis of estimated duties, voluntary tender of duties, and other payments of duty, and waiver, provided for in paragraphs (b) and (c) of this section).

(e) *Liquidation procedure.* (1) *General.* When the drawback claim has been completed by the filing of the entry and other required documents, and exportation (or destruction) of the merchandise or articles has been established, CBP will determine drawback due on the basis of the complete drawback claim, the applicable general manufacturing drawback ruling or specific manufacturing drawback ruling, and any other relevant evidence or information. Notice of liquidation will be given electronically as provided in §§ 159.9 and 159.10(c)(3) of this chapter.

(2) *Liquidation by operation of law.* (i) *Liquidated import entries.* A drawback claim that satisfies the requirements of paragraph (d) that is not liquidated within 1 year from the date of the drawback claim (*see* § 190.51(e)(1)(i)) will be deemed liquidated for the purpose of the drawback claim at the drawback amount asserted by the claimant or claim, unless the time for liquidation is extended in accordance with § 159.12 or if liquidation is suspended as required by statute or court order.

(ii) *Unliquidated import entries.* A drawback claim that satisfies the requirements of paragraphs (b) or (c) of this section will be deemed liquidated upon the deposit of estimated duties on the unliquidated imported merchandise (*see* § 190.81(b)).

(f) *Relative value; multiple products*—(1) *Distribution.* Where two or more products result from the manufacture or production of merchandise, drawback will be distributed to the several products in accordance with their relative values at the time of separation.

(2) *Values.* The values to be used in computing the distribution of drawback where two or more products result from the manufacture or production of merchandise under drawback conditions must be the market value (as provided for in the definition of relative value in § 190.2), unless other values are approved by CBP.

(g) *Payment.* CBP will authorize the amount of the refund due as drawback to the claimant.

§ 190.82 Person entitled to claim drawback.

Unless otherwise provided in this part (*see* §§ 190.42(b), 190.162, 190.175(a), 190.186), the exporter (or destroyer) will be entitled to claim drawback, unless the exporter (or destroyer), by means of a certification, waives the right to claim drawback and assigns such right to the manufacturer, producer, importer, or intermediate party (in the case of drawback under 19 U.S.C. 1313(j)(1) and (2), see § 190.33(a) and (b)). Such certification must also affirm that the exporter (or destroyer) has not assigned and will not assign the right to claim drawback on the particular exportation or destruction to any other party. The certification provided for in this section may be a blanket certification for a stated period.

§ 190.83 Person entitled to receive payment.

Drawback is paid to the claimant (*see* § 190.82).

§ 190.84 Protests.

Procedures to protest the denial, in whole or in part, of a drawback entry must be in accordance with part 174 of this chapter (19 CFR part 174).

Subpart I—Waiver of Prior Notice of Intent To Export or Destroy; Accelerated Payment of Drawback

§ 190.91 Waiver of prior notice of intent to export or destroy.

(a) *General*—(1) *Scope.* The requirement in §190.35 for prior notice of intent to export or destroy merchandise which may be the subject of an unused merchandise drawback claim under section 313(j) of the Act, as amended (19 U.S.C. 1313(j)), or a rejected merchandise drawback claim under section 313(c), as amended (19 U.S.C. 1313(c)), may be waived under the provisions of this section.

(2) *Effective date for claimants with existing approval.* For claimants approved for waiver of prior notice before February 24, 2019, and under 19 CFR part 191, such approval of waiver of prior notice will remain in effect, but only if the claimant provides the following certification as part of each complete claim filed on or after that date, pursuant to §190.51(a)(2)(xvi): ''The undersigned acknowledges the current statutory requirements under 19 U.S.C. 1313 and the regulatory requirements in 19 CFR part 190, and hereby certifies continuing eligibility for the waiver of prior notice (granted prior to February 24, 2019) in compliance therewith.'' This certification may only be made for waiver of prior notice for the specific type of drawback claim for which the application was previously approved under 19 CFR 191, except that applications approved under 19 U.S.C. 1313(j)(1) will also be applicable to claims for the same type of merchandise if made under 19 U.S.C. 1313(j)(2).

(3) *Limited successorship for waiver of prior notice.* When a claimant (predecessor) is approved for waiver of prior notice under this section and all of the rights, privileges, immunities, powers, duties and liabilities of the claimant are transferred by written agreement, merger, or corporate resolution to a successor, such approval of waiver of prior notice will remain in effect for a period of 1 year after such transfer. The approval of waiver of prior notice will terminate at the end of such 1-year period unless the successor applies for waiver of prior notice under this section. If such successor applies for waiver of prior notice under this section within such 1-year period, the successor may continue to operate under the predecessor's waiver of prior notice until CBP approves or denies the successor's application for waiver of prior notice under this section, subject to the provisions in this section (*see*, in particular, paragraphs (d) and (e) of this section).

(b) *Application*—(1) *Who may apply.* A claimant for unused merchandise drawback under 19 U.S.C. 1313(j) or rejected merchandise drawback under 19 U.S.C. 1313(c) may apply for a waiver of prior notice of intent to export or destroy merchandise under this section.

(2) *Contents of application.* An applicant for a waiver of prior notice under this section must file a written application (which may be physically delivered or delivered via email) with the drawback office where the claims will be filed. Such application must include the following:

(i) Required information:

(A) Name, address, and Internal Revenue Service (IRS) number (with suffix) of applicant;

(B) Name, address, and Internal Revenue Service (IRS) number (with suffix) of current exporter(s) or destroyer(s) (if more than 3 exporters or destroyers, such information is required only for the 3 most frequently used exporters or destroyers), if applicant is not the exporter or destroyer;

(C) Export or destruction period covered by this application;

(D) Commodity/product lines of imported and exported or destroyed merchandise covered by this application;

(E) Origin of merchandise covered by this application;

(F) Estimated number of export transactions or destructions during the next calendar year covered by this application;

(G) Port(s) of exportation or location of destruction facilities to be used during the next calendar year covered by this application;

(H) Estimated dollar value of potential drawback during the next calendar year covered by this application;

(I) The relationship between the parties involved in the import and export transactions or destructions; and

(J) Provision(s) of drawback covered by the application.

(ii) A written declaration whether or not the applicant has previously been denied a waiver request, or had an approval of a waiver revoked, by any other drawback office, and whether the applicant has previously requested a 1-time waiver of prior notice under §190.36, and whether such request was approved or denied; and

(iii) A certification that the following documentary evidence will be made available for CBP review upon request:

(A) For the purpose of establishing that the imported merchandise was not used in the United States (for purposes of drawback under 19 U.S.C. 1313(j)(1)) or that the exported or destroyed merchandise was not used in the United States and satisfies the requirements for substitution with the imported merchandise (for purposes of drawback under 19 U.S.C. 1313(j)(2)) or that the rejected merchandise that was exported or destroyed satisfies the relevant requirements (for purposes of drawback under 19 U.S.C. 1313(c)), and, as applicable:

(1) Records;

(2) Laboratory records prepared in the ordinary course of business; and/or

(3) Inventory records prepared in the ordinary course of business tracing all relevant movements and storage of the imported merchandise, substituted merchandise, and/or exported or destroyed merchandise; and

(B) Any other evidence establishing compliance with other applicable drawback requirements, upon CBP's request under paragraph (b)(2)(iii) of this section.

(3) *Samples of records to accompany application.* To expedite the processing of applications under this section, the application should contain at least one sample of each of the records to be used to establish compliance with the applicable requirements (that is, sample of import document (for example, CBP Form 7501, or its electronic equivalent), sample of export document (for example, bill of lading) or sample of evidence of destruction, and samples of business, laboratory, and inventory records certified, under paragraph (b)(2)(iii)(A)(1) through (3) of this section, to be available to CBP upon request).

(c) *Action on application*—(1) *CBP review.* The drawback office will review and verify the information submitted on and with the application. CBP will notify the applicant in writing within 90 days of receipt of the application of its decision to approve or deny the application, or of CBP's inability to approve, deny, or act on the application and the reason therefor. In order for CBP to evaluate the application, CBP may request any of the information listed in paragraph (b)(2)(iii)(A)(*1*) through (*3*) of this section. Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with CBP, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with CBP include, but are not limited to:

(i) The presence or absence of unresolved CBP charges (duties, taxes, or other debts owed CBP);

(ii) The accuracy of the claimant's past drawback claims;

(iii) Whether waiver of prior notice was previously revoked or suspended; and

(iv) The presence or absence of any failure to present merchandise to CBP for examination after CBP had timely notified the party filing a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553 of CBP's intent to examine the merchandise (*see* §190.35).

(2) *Approval.* The approval of an application for waiver of prior notice of intent to export or destroy, under this section, will operate prospectively, applying only to those export shipments or destructions occurring after the date of the waiver. It will be subject to a stay, as provided in paragraph (d) of this section.

(3) *Denial.* If an application for waiver of prior notice of intent to export or destroy, under this section, is denied, the applicant will be given written notice, specifying the grounds therefor, together with what corrective action may be taken, and informing the applicant that the denial may be appealed in the manner prescribed in paragraph

(g) of this section. The applicant may not reapply for a waiver until the reason for the denial is resolved.

(d) *Stay.* An approval of waiver of prior notice may be stayed, for a specified reasonable period, should CBP desire for any reason to examine the merchandise being exported or destroyed with drawback prior to its exportation or destruction for purposes of verification. CBP will provide written notice, by registered or certified mail, of such a stay to the person for whom waiver of prior notice was approved. CBP will specify the reason(s) for the stay in such written notice. The stay will take effect 2 working days after the date the person signs the return post office receipt for the registered or certified mail. The stay will remain in effect for the period specified in the written notice, or until such earlier date as CBP notifies the person for whom waiver of prior notice was approved in writing that the reason for the stay has been satisfied. After the stay is lifted, operation under the waiver of prior notice procedure may resume for exports on or after the date the stay is lifted.

(e) *Proposed revocation.* CBP may propose to revoke the approval of an application for waiver of prior notice of intent to export or destroy, under this section, for good cause (such as, noncompliance with the drawback law and/or regulations). CBP will give written notice of the proposed revocation of a waiver of prior notice of intent to export or destroy. The notice will specify the reasons for CBP's proposed action and provide information regarding the procedures for challenging CBP's proposed revocation action as prescribed in paragraph (g) of this section. The written notice of proposed revocation may be included with a notice of stay of approval of waiver of prior notice as provided under paragraph (d) of this section. The revocation of the approval of waiver of prior notice will take effect 30 days after the date of the proposed revocation if not timely challenged under paragraph (g) of this section. If timely challenged, the revocation will take effect after completion of the challenge procedures in paragraph (g) of this section unless the challenge is successful.

(f) *Action by drawback office controlling.* Action by the drawback office to approve, deny, stay, or revoke waiver of prior notice of intent to export or destroy, unless reversed by CBP Headquarters, will govern the applicant's eligibility for this procedure in all CBP drawback offices. If the application for waiver of prior notice of intent to export or destroy is approved, the claimant must refer to such approval in the first drawback claim filed after such approval in the drawback office approving waiver of prior notice and must submit a copy of the approval letter with the first drawback claim filed in any drawback office other than the approving office, when the export or destruction upon which the claim is based was without prior notice, under this section.

(g) *Appeal of denial or challenge to proposed revocation.* An appeal of a denial of an application under this section, or challenge to the proposed revocation of an approved application under this section, may be made by letter to the drawback office issuing the denial or proposed revocation and must be filed within 30 days of the date of denial or proposed revocation. A denial of an appeal or challenge made to the drawback office may itself be appealed to CBP Headquarters, Office of Trade, Trade Policy and Programs, and must be filed within 30 days of the denial date of the initial appeal or challenge. The 30-day period for appeal or challenge to the drawback office or to CBP Headquarters may be extended for good cause, upon written request by the applicant or holder for such extension filed with the appropriate office within the 30-day period.

§ 190.92 Accelerated payment.

(a) *General*—(1) *Scope.* Accelerated payment of drawback is available under this section on drawback claims under this part, unless specifically excepted from such accelerated payment. Accelerated payment of drawback consists of the payment of estimated drawback before liquidation of the drawback entry. Accelerated payment of drawback is only available when CBP's review of the request for accelerated payment of drawback does not find omissions from, or inconsistencies with

the requirements of the drawback law and part 190 (*see*, especially, subpart E of this part). Accelerated payment of a drawback claim does not constitute liquidation of the drawback entry.

(2) *Effective date for claimants with existing approval.* For claimants approved for accelerated payment of drawback before February 24, 2019, and under 19 CFR part 191, such approval of accelerated payment will remain in effect, but only if the claimant provides the following certification as part of each complete claim filed after that date, pursuant to §190.51(a)(2)(xvi): ''The undersigned acknowledges the current statutory requirements under 19 U.S.C. 1313 and the regulatory requirements in 19 CFR part 190, and hereby certifies continuing eligibility for accelerated payment (granted prior to February 24, 2019) in compliance therewith.'' This certification may only be made for accelerated payment for the specific type of drawback claim for which the application was previously approved under 19 CFR 191, except that applications approved under 19 U.S.C. 1313(j)(1) will also be applicable to claims for the same type of merchandise if made under 19 U.S.C. 1313(j)(2).

(3) *Limited successorship for approval of accelerated payment.* When a claimant (predecessor) is approved for accelerated payment of drawback under this section and all of the rights, privileges, immunities, powers, duties and liabilities of the claimant are transferred by written agreement, merger, or corporate resolution to a successor, such approval of accelerated payment will remain in effect for a period of 1 year after such transfer. The approval of accelerated payment of drawback will terminate at the end of such 1-year period unless the successor applies for accelerated payment of drawback under this section. If such successor applies for accelerated payment of drawback under this section within such 1-year period, the successor may continue to operate under the predecessor's approval of accelerated payment until CBP approves or denies the successor's application for accelerated payment under this section, subject to the provisions in this section (*see*, in particular, paragraph (f) of this section).

(b) *Application for approval; contents.* A person who wishes to apply for accelerated payment of drawback must file a written application (which may be physically delivered or delivered via email) with the drawback office where claims will be filed.

(1) *Required information.* The application must contain:

(i) Company name and address;

(ii) Internal Revenue Service (IRS) number (with suffix);

(iii) Identity (by name and title) of the person in claimant's organization who will be responsible for the drawback program;

(iv) Description of the bond coverage the applicant intends to use to cover accelerated payments of drawback (*see* paragraph (d) of this section), including:

(A) Identity of the surety to be used;

(B) Dollar amount of bond coverage for the first year under the accelerated payment procedure; and

(C) Procedures to ensure that bond coverage remains adequate (that is, procedures to alert the applicant when and if its accelerated payment potential liability exceeds its bond coverage);

(v) Description of merchandise and/or articles covered by the application;

(vi) Provision(s) of drawback covered by the application; and

(vii) Estimated dollar value of potential drawback during the next 12-month period covered by the application.

(2) *Previous applications.* In the application, the applicant must state whether or not the applicant has previously been denied an application for accelerated payment of drawback, or had an approval of such an application revoked by any drawback office.

(3) *Certification of compliance.* In or with the application, the applicant must also submit a certification, signed by the applicant, that all applicable statutory and regulatory requirements for drawback will be met.

(4) *Description of claimant's drawback program.* With the application, the applicant must submit a description (with sample documents) of how the applicant will ensure compliance with its certification that the statutory and regulatory drawback requirements will

be met. This description may be in the form of a booklet. The detail contained in this description should vary depending on the size and complexity of the applicant's accelerated drawback program (for example, if the dollar amount is great and there are several kinds of drawback involved, with differing inventory, manufacturing, and shipping methods, greater detail in the description will be required). The description must include at least:

(i) The name of the official in the claimant's organization who is responsible for oversight of the claimant's drawback program;

(ii) The procedures and controls demonstrating compliance with the statutory and regulatory drawback requirements;

(iii) The parameters of claimant's drawback recordkeeping program, including the retention period and method (for example, paper, electronic, etc.);

(iv) A list of the records that will be maintained, including at least sample import documents, sample export documents or evidence of destruction, sample inventory and transportation documents (if applicable), sample laboratory or other documents establishing the qualification of merchandise or articles for substitution under the drawback law (if applicable), and sample manufacturing documents (if applicable);

(v) The procedures that will be used to notify CBP of changes to the claimant's drawback program, variances from the procedures described in this application, and violations of the statutory and regulatory drawback requirements; and

(vi) The procedures for an annual review by the claimant to ensure that its drawback program complies with the statutory and regulatory drawback requirements and that CBP is notified of any modifications from the procedures described in this application.

(c) *Sample application.* The drawback office, upon request, will provide applicants for accelerated payment with a sample letter format to assist them in preparing their submissions.

(d) *Bond required.* If approved for accelerated payment, the claimant must furnish a properly executed bond in an amount sufficient to cover the estimated amount of drawback to be claimed during the term of the bond. If outstanding accelerated drawback claims exceed the amount of the bond, the drawback office will require additional bond coverage as necessary before additional accelerated payments are made.

(e) *Action on application*—(1) *CBP review.* The drawback office will review and verify the information submitted in and with the application. In order for CBP to evaluate the application, CBP may request additional information (including additional sample documents) and/or explanations of any of the information provided for in paragraph (b)(4) of this section. Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with CBP, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with CBP include, but are not limited to (as applicable):

(i) The presence or absence of unresolved CBP charges (duties, taxes, fees, or other debts owed CBP);

(ii) The accuracy of the claimant's past drawback claims; and

(iii) Whether accelerated payment of drawback or waiver of prior notice of intent to export was previously revoked or suspended.

(2) *Notification to applicant.* CBP will notify the applicant in writing within 90 days of receipt of the application of its decision to approve or deny the application, or of CBP's inability to approve, deny, or act on the application and the reason therefor.

(3) *Approval.* The approval of an application for accelerated payment, under this section, will be effective as of the date of CBP's written notification of approval under paragraph (e)(2) of this section. Accelerated payment of drawback will be available under this section to unliquidated drawback claims filed before and after such date. For claims filed before such date, accelerated payment of drawback will be paid only if the claimant furnishes a properly executed bond covering the claim, in an amount sufficient to cover

the amount of accelerated drawback to be paid on the claim.

(4) *Denial.* If an application for accelerated payment of drawback under this section is denied, the applicant will be given written notice, specifying the grounds therefor, together with what corrective action may be taken, and informing the applicant that the denial may be appealed in the manner prescribed in paragraph (i) of this section. The applicant may not reapply for accelerated payment of drawback until the reason for the denial is resolved.

(f) *Revocation.* CBP may propose to revoke the approval of an application for accelerated payment of drawback under this section, for good cause (such as, noncompliance with the drawback law and/or regulations). In case of such proposed revocation, CBP will give written notice, by registered or certified mail, of the proposed revocation of the approval of accelerated payment. The notice will specify the reasons for CBP's proposed action and the procedures for challenging CBP's proposed revocation action as prescribed in paragraph (h) of this section. The revocation will take effect 30 days after the date of the proposed revocation if not timely challenged under paragraph (h) of this section. If timely challenged, the revocation will take effect after completion of the challenge procedures in paragraph (h) of this section unless the challenge is successful.

(g) *Action by drawback office controlling.* Action by the drawback office to approve, deny, or revoke accelerated payment of drawback will govern the applicant's eligibility for this procedure in all CBP drawback offices. If the application for accelerated payment of drawback is approved, the claimant must refer to such approval in the first drawback claim filed after such approval in the drawback office approving accelerated payment of drawback and must submit a copy of the approval letter with the first drawback claim filed in a drawback office other than the approving office.

(h) *Appeal of denial or challenge to proposed revocation.* An appeal of a denial of an application under this section, or challenge to the proposed revocation of an approved application under this section, may be made in writing to the drawback office issuing the denial or proposed revocation and must be filed within 30 days of the date of denial or proposed revocation. A denial of an appeal or challenge made to the drawback office may itself be appealed to CBP Headquarters, Office of Trade, Trade Policy and Programs, and must be filed within 30 days. The 30-day period for appeal or challenge to the drawback office or to CBP Headquarters may be extended for good cause, upon written request by the applicant or holder for such extension filed with the appropriate office within the 30-day period.

(i) *Payment.* The drawback office approving a drawback claim in which accelerated payment of drawback was requested will certify the drawback claim for payment. After liquidation, the drawback office will certify the claim for payment of any amount due or demand a refund of any excess amount paid. Any excess amount of duty the subject of accelerated payment that is not repaid to CBP within 30 days after the date of liquidation of the related drawback entry will be considered delinquent (*see* §§ 24.3a and 113.65(b) of this chapter).

§ 190.93 Combined applications.

An applicant for the procedures provided for in §§ 190.91 and 190.92 may apply for only one procedure, both procedures separately, or both procedures in one application package (*see* also § 190.195 regarding combined applications for certification in the drawback compliance program and waiver of prior notice and/or approval of accelerated payment of drawback). In the latter instance, the intent to apply for both procedures must be clearly stated. In all instances, all of the requirements for the procedure(s) applied for must be met (for example, in a combined application for both procedures, all of the information required for each procedure, all required sample documents for each procedure, and all required certifications must be included in and with the application).

Subpart J—Internal Revenue Tax on Flavoring Extracts and Medicinal or Toilet Preparations (Including Perfumery) Manufactured From Domestic Tax-Paid Alcohol

§ 190.101 Drawback allowance.

(a) *Drawback.* Section 313(d) of the Act, as amended (19 U.S.C. 1313(d)), provides for drawback of internal revenue tax upon the exportation of flavoring extracts and medicinal or toilet preparations (including perfumery) manufactured or produced in the United States in part from domestic tax-paid alcohol.

(b) *Shipment to Puerto Rico, the Virgin Islands, Guam, and American Samoa.* Drawback of internal revenue tax on articles manufactured or produced under this subpart and shipped to Puerto Rico, the Virgin Islands, Guam, or American Samoa will be allowed in accordance with section 7653(c) of the Internal Revenue Code (26 U.S.C. 7653(c)). However, there is no authority of law for the allowance of drawback of internal revenue tax on flavoring extracts or medicinal or toilet preparations (including perfumery) manufactured or produced in the United States and shipped to Wake Island, Midway Islands, Kingman Reef, Canton Island, Enderbury Island, Johnston Island, or Palmyra Island.

§ 190.102 Procedure.

(a) *General.* Other provisions of this part relating to direct identification drawback (*see* subpart B of this part) will apply to claims for drawback filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

(b) *Manufacturing record.* The manufacturer of flavoring extracts or medicinal or toilet preparations on which drawback is claimed will record the products manufactured, the quantity of waste, if any, and a full description of the alcohol. These records must be available at all times for inspection by CBP officers.

(c) *Additional information required on the manufacturer's application for a specific manufacturing drawback ruling.* The manufacturer's application for a specific manufacturing drawback ruling, under § 190.8, must state the quantity of domestic tax-paid alcohol contained in each product on which drawback is claimed.

(d) *Variance in alcohol content*—(1) *Variance of more than 5 percent.* If the percentage of alcohol contained in an exported medicinal preparation, flavoring extract or toilet preparation varies by more than 5 percent from the percentage of alcohol in the total volume of the product as stated in a previously approved application for a specific manufacturing drawback ruling, the manufacturer must apply for a new specific manufacturing drawback ruling pursuant to § 190.8. If the variation differs from a previously filed schedule, the manufacturer must file a new schedule incorporating the change.

(2) *Variance of 5 percent or less.* Variances of 5 percent or less of the volume of the product must be reported to the drawback office where the drawback entries are liquidated. In such cases, the drawback office may allow drawback without specific authorization from CBP Headquarters.

(e) *Time period for completing claims.* Drawback claims under this subpart must be completed within 3 years after the date of exportation of the articles upon which drawback is claimed.

(f) *Filing of drawback entries on duty-paid imported merchandise and tax-paid alcohol.* When the drawback claim covers duty-paid imported merchandise in addition to tax-paid alcohol, the claimant must file one set of entries for drawback of customs duty and another set for drawback of internal revenue tax.

(g) *Description of the alcohol.* The description of the alcohol that is the subject of the drawback entry may be obtained from the description on the package containing the tax-paid alcohol.

§ 190.103 Additional requirements.

(a) *Manufacturer claims domestic drawback.* In the case of medicinal preparations and flavoring extracts, the claimant must file with the drawback entry, a declaration of the manufacturer stating whether a claim has been or will be

filed by the manufacturer with the Alcohol and Tobacco Tax and Trade Bureau (TTB) for domestic drawback on alcohol under sections 5111, 5112, 5113, and 5114, Internal Revenue Code, as amended (26 U.S.C. 5111, 5112, 5113, and 5114).

(b) *Manufacturer does not claim domestic drawback*—(1) *Submission of statement.* If no claim has been or will be filed with TTB for domestic drawback on medicinal preparations or flavoring extracts, the manufacturer must submit a statement, in duplicate, setting forth that fact to the Director, National Revenue Center, TTB.

(2) *Contents of the statement.* The statement must show the:

(i) Quantity and description of the exported products;

(ii) Identity of the alcohol used by serial number of package or tank car;

(iii) Name and registry number of the distilled spirits plant from which the alcohol was withdrawn;

(iv) Date of withdrawal;

(v) Serial number of the applicable record of tax determination (*see* 27 CFR 17.163(a) and 27 CFR 19.626(c)(7)); and

(vi) Drawback office where the claim will be filed.

(3) *Verification of receipt of the statement.* The Director, National Revenue Center, TTB, will verify receipt of this statement, and transmit a verification of receipt of the statement with a copy of that document to the drawback office designated.

§ 190.104 Alcohol and Tobacco Tax and Trade Bureau (TTB) certificates.

(a) *Request.* The drawback claimant or manufacturer must request that the Director, National Revenue Center, TTB, provide the CBP office where the drawback claim will be processed with a tax-paid certificate on TTB Form 5100.4 (Certificate of Tax-Paid Alcohol).

(b) *Contents.* The request must state the:

(1) Quantity of alcohol in proof gallons;

(2) Serial number of each package;

(3) Amount of tax paid on the alcohol;

(4) Name, registry number, and location of the distilled spirits plant;

(5) Date of withdrawal;

(6) Name of the manufacturer using the alcohol in producing the exported articles;

(7) Address of the manufacturer and its manufacturing plant; and

(8) Customs drawback office where the drawback claim will be processed.

(c) *Extract of TTB certificate.* If a certification of any portion of the alcohol described in the TTB Form 5100.4 is required for liquidation of drawback entries processed in another drawback office, the drawback office, on written application of the person who requested its issuance, will transmit a copy of the extract from the certificate for use at that drawback office. The drawback office will note that the copy of the extract was prepared and transmitted.

§ 190.105 Liquidation.

The drawback office will ascertain the final amount of drawback due by reference to the specific manufacturing drawback ruling under which the drawback claimed is allowable.

§ 190.106 Amount of drawback.

(a) *Claim filed with TTB.* If the declaration required by § 190.103(a) shows that a claim has been or will be filed with TTB for domestic drawback, drawback under § 313(d) of the Act, as amended (19 U.S.C. 1313(d)), will be limited to the difference between the amount of tax paid and the amount of domestic drawback claimed.

(b) *Claim not filed with TTB.* If the declaration and statement required by § 190.103(a) and (b) show that no claim has been or will be filed by the manufacturer with TTB for domestic drawback, the drawback will be the full amount of the tax on the alcohol used. Drawback under this provision may not be granted absent receipt from TTB of a copy of TTB Form 5100.4 (Certificate of Tax-Paid Alcohol) indicating that taxes have been paid on the exported product for which drawback is claimed.

(c) *No deduction of 1 percent.* No deduction of 1 percent may be made in drawback claims under § 313(d) of the Act, as amended (19 U.S.C. 1313(d)).

(d) *Payment.* The drawback due will be paid in accordance with § 190.81(f).

Subpart K—Supplies for Certain Vessels and Aircraft

§ 190.111 Drawback allowance.

Section 309 of the Act, as amended (19 U.S.C. 1309), provides for drawback on articles laden as supplies on certain vessels or aircraft of the United States or as supplies including equipment upon, or used in the maintenance or repair of, certain foreign vessels or aircraft.

§ 190.112 Procedure.

(a) *General.* The provisions of this subpart will override conflicting provisions of this part, such as the export procedures in § 190.72.

(b) *Notice of lading.* The drawback claimant must file with the drawback office a notice of lading.

(c) *Notice of lading.* In the case of drawback in connection with 19 U.S.C. 1309(b), the notice of lading must be filed within 5 years after the date of importation of the imported merchandise.

(d) *Contents of notice.* The notice of lading must show:

(1) The name of the vessel or identity of the aircraft on which articles were or are to be laden;

(2) The number and kind of packages and their marks and numbers;

(3) A description of the articles and their weight (net), gauge, measure, or number; and

(4) The name of the exporter.

(e) *Declaration of Master or other officer*—(1) *Requirement.* The master or an authorized representative of the vessel or aircraft having knowledge of the facts must provide the following declaration on the notice of lading ''I declare that the information given above is true and correct to the best of my knowledge and belief; that I have knowledge of the facts set forth herein; that the articles described in this notice of lading were received in the quantities stated, from the person, and on the date, indicated above; that said articles were laden on the vessel (or aircraft) named above for use on said vessel (or aircraft) as supplies (or equipment), except as noted below; and that at the time of lading of the articles, the said vessel (or aircraft) was engaged in the business or trade checked below: (It is not necessary for a foreign vessel to show its class of trade.).''

(2) *Filing.* The drawback claimant must file with the drawback office both the drawback entry and the notice of lading or separate document containing the declaration of the master or other officer or representative.

(f) *Information concerning class or trade.* Information about the class of business or trade of a vessel or aircraft is required to be furnished in support of the drawback entry if the vessel or aircraft is American.

(g) *Articles laden or installed on aircraft as equipment or used in the maintenance or repair of aircraft.* The drawback office where the drawback claim is filed will require a declaration or other evidence showing to its satisfaction that articles have been laden or installed on aircraft as equipment or used in the maintenance or repair of aircraft.

(h) *Fuel laden on vessels or aircraft as supplies*—(1) *Composite notice of lading.* In the case of fuel laden on vessels or aircraft as supplies, the drawback claimant may file with the drawback office a composite notice of lading for each calendar month. The composite notice of lading must describe all of the drawback claimant's deliveries of fuel supplies during the one calendar month at a single port or airport to all vessels or airplanes of one vessel owner or operator or airline. This includes fuel laden for flights or voyages between the contiguous United States and Hawaii, Alaska, or any U.S. possessions (*see* § 10.59 of this chapter).

(2) *Contents of composite notice.* Composite notice must show for each voyage or flight:

(i) The identity of the vessel or aircraft;

(ii) A description of the fuel supplies laden;

(iii) The quantity laden; and

(iv) The date of lading.

(3) *Declaration of owner or operator.* An authorized vessel or airline representative having knowledge of the facts must complete the ''Declaration of Master or other officer'' (see paragraph (e) of this section).

(i) *Desire to land articles covered by notice of lading.* The master of the vessel

or commander of the aircraft desiring to land in the United States articles covered by a notice of lading must apply for a permit to land those articles under CBP supervision. All articles landed, except those transferred under the original notice of lading to another vessel or aircraft entitled to drawback, will be considered imported merchandise for the purpose of §309(c) of the Act, as amended (19 U.S.C. 1309(c)).

Subpart L—Meats Cured With Imported Salt

§ 190.121 Drawback allowance.

Section 313(f) of the Act, as amended (19 U.S.C. 1313(f)), provides for the allowance of drawback upon the exportation of meats cured with imported salt.

§ 190.122 Procedure.

Other provisions of this part relating to direct identification manufacturing drawback will apply to claims for drawback under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

§ 190.123 Refund of duties.

Drawback allowed under this subpart will be refunded in aggregate amounts of not less than $100 and will not be subject to the retention of 1 percent of duties paid.

Subpart M—Materials for Construction and Equipment of Vessels and Aircraft Built for Foreign Account and Ownership

§ 190.131 Drawback allowance.

Section 313(g) of the Act, as amended (19 U.S.C. 1313(g)), provides for drawback on imported materials used in the construction and equipment of vessels and aircraft built for foreign account and ownership, or for the government of any foreign country, notwithstanding that these vessels or aircraft may not be exported within the strict meaning of the term.

§ 190.132 Procedure.

Other provisions of this part relating to direct identification manufacturing drawback will apply to claims for drawback filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

§ 190.133 Explanation of terms.

(a) *Materials.* Section 313(g) of the Act, as amended (19 U.S.C. 1313(g)), applies only to materials used in the original construction and equipment of vessels and aircraft, or to materials used in a ''major conversion,'' as defined in this section, of a vessel or aircraft. Section 313(g) does not apply to materials used for alteration or repair, or to materials not required for safe operation of the vessel or aircraft.

(b) *Foreign account and ownership.* Foreign account and ownership, as used in section 313(g) of the Act, as amended (19 U.S.C. 1313(g)), means only vessels or aircraft built or equipped for the account of an owner or owners residing in a foreign country and having a bona fide intention that the vessel or aircraft, when completed, will be owned and operated under the flag of a foreign country.

(c) *Major conversion.* For purposes of this subpart, a ''major conversion'' means a conversion that substantially changes the dimensions or carrying capacity of the vessel or aircraft, changes the type of the vessel or aircraft, substantially prolongs the life of the vessel or aircraft, or otherwise so changes the vessel or aircraft that it is essentially a new vessel or aircraft, as determined by CBP (*see* 46 U.S.C. 2101(14a)).

Subpart N—Foreign-Built Jet Aircraft Engines Processed in the United States

§ 190.141 Drawback allowance.

Section 313(h) of the Act, as amended (19 U.S.C. 1313(h)), provides for drawback on the exportation of jet aircraft engines manufactured or produced abroad that have been overhauled, repaired, rebuilt, or reconditioned in the United States with the use of imported merchandise, including parts.

§ 190.142 Procedure.

Other provisions of this part will apply to claims for drawback filed

under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

§ 190.143 Drawback entry.

(a) *Filing of entry.* Drawback entries covering these foreign-built jet aircraft engines must show that the entry covers jet aircraft engines processed under section 313(h) of the Act, as amended (19 U.S.C. 1313(h)).

(b) *Contents of entry.* The drawback entry must indicate the country in which each engine was manufactured and describe the processing performed thereon in the United States.

§ 190.144 Refund of duties.

Drawback allowed under this subpart will be refunded in aggregate amounts of not less than $100, and will not be subject to the deduction of 1 percent of duties paid.

Subpart O—Merchandise Exported From Continuous CBP Custody

§ 190.151 Drawback allowance.

(a) *Eligibility of entered or withdrawn merchandise*—(1) *Under 19 U.S.C. 1557(a).* Section 557(a) of the Act, as amended (19 U.S.C. 1557(a)), provides for drawback on the exportation to a foreign country, or the shipment to the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, Johnston Island, or Guam, of merchandise upon which duties have been paid which has remained continuously in bonded warehouse or otherwise in CBP custody for a period not to exceed 5 years from the date of importation.

(2) *Under 19 U.S.C. 1313.* Imported merchandise that has not been regularly entered or withdrawn for consumption, will not satisfy any requirement for use, importation, exportation or destruction, and will not be available for drawback, under section 313 of the Act, as amended (19 U.S.C. 1313) (*see* 19 U.S.C. 1313(u)).

(b) *Guantanamo Bay.* Guantanamo Bay Naval Station will be considered foreign territory for drawback purposes under this subpart and merchandise shipped there is eligible for drawback. Imported merchandise which has remained continuously in bonded warehouse or otherwise in CBP custody since importation is not entitled to drawback of duty when shipped to Puerto Rico, Canton Island, Enderbury Island, or Palmyra Island.

§ 190.152 Merchandise released from CBP custody.

No remission, refund, abatement, or drawback of duty will be allowed under this subpart because of the exportation or destruction of any merchandise after its release from Government custody, except in the following cases:

(a) When articles are exported or destroyed on which drawback is expressly provided for by law;

(b) When prohibited articles have been regularly entered in good faith and are subsequently exported or destroyed pursuant to statute and regulations prescribed by the Secretary of the Treasury; or

(c) When articles entered under bond are destroyed within the bonded period, as provided in 19 U.S.C. 1557(c), or destroyed within the bonded period by death, accidental fire, or other casualty, and satisfactory evidence of destruction is furnished to CBP (*see* § 190.71), in which case any accrued duties will be remitted or refunded and any condition in the bond that the articles must be exported will be deemed satisfied (*see* 19 U.S.C. 1558).

§ 190.153 Continuous CBP custody.

(a) *Merchandise released under an importer's bond and returned.* Merchandise released to an importer under a bond prescribed by § 142.4 of this chapter and later returned to the public stores upon requisition of the appropriate CBP office will not be deemed to be in the continuous custody of CBP officers.

(b) *Merchandise released under Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS).* Merchandise released as provided for in Chapter 98, Subchapter XIII, HTSUS (19 U.S.C. 1202), will not be deemed to be in the continuous custody of CBP officers.

(c) *Merchandise released from warehouse.* For the purpose of this subpart, in the case of merchandise entered for warehouse, CBP custody will be deemed to cease when estimated duty

has been deposited and the appropriate CBP office has authorized the withdrawal of the merchandise.

(d) *Merchandise not warehoused, examined elsewhere than in public stores*—(1) *General rule.* Except as stated in paragraph (d)(2) of this section, merchandise examined elsewhere than at the public stores, in accordance with the provisions of § 151.7 of this chapter, will be considered released from CBP custody upon completion of final examination for appraisement.

(2) *Merchandise upon the wharf.* Merchandise which remains on the wharf by permission of the appropriate CBP office will be considered to be in CBP custody, but this custody will be deemed to cease when the CBP officer in charge accepts the permit and has no other duties to perform relating to the merchandise, such as measuring, weighing, or gauging.

§ 190.154 Filing the entry.

(a) *Direct export.* At least 6 working hours before lading the merchandise on which drawback is claimed under this subpart, the importer or the agent designated by him or her in writing must file a direct export drawback entry.

(b) *Merchandise transported to another port for exportation.* The importer of merchandise to be transported to another port for exportation must file an entry naming the transporting conveyance, route, and port of exit. The drawback office will certify one copy and forward it to the CBP office at the port of exit. A bonded carrier must transport the merchandise in accordance with the applicable regulations. Manifests must be prepared and filed in the manner prescribed in § 144.37 of this chapter.

§ 190.155 Merchandise withdrawn from warehouse for exportation.

The regulations in part 18 of this chapter concerning the supervision of lading and certification of exportation of merchandise withdrawn from warehouse for exportation without payment of duty will be followed to the extent applicable.

§ 190.156 Bill of lading.

(a) *Filing.* In order to complete the claim for drawback under this subpart, a bill of lading covering the merchandise described in the drawback entry must be filed within 2 years after the merchandise is exported.

(b) *Contents.* The bill of lading must either show that the merchandise was shipped by the person making the claim or bear an endorsement of the person in whose name the merchandise was shipped showing that the person making the claim is authorized to do so.

(c) *Limitation of the bill of lading.* The terms of the bill of lading may limit and define its use by stating that it is for customs purposes only and not negotiable.

(d) *Inability to produce bill of lading.* When a required bill of lading cannot be produced, the person making the drawback entry may request the drawback office, within the time required for the filing of the bill of lading, to accept a statement setting forth the cause of failure to produce the bill of lading and such evidence of exportation and of that person's right to make the drawback entry as may be available. The request will be granted if the drawback office is satisfied by the evidence submitted that the failure to produce the bill of lading is justified, that the merchandise has been exported, and that the person making the drawback entry has the right to do so. If the drawback office is not so satisfied, such office will transmit the request and its accompanying evidence to the Office of Trade, CBP Headquarters, for final determination.

(e) *Extracts of bills of lading.* Drawback offices may issue extracts of bills of lading filed with drawback claims.

§ 190.157 [Reserved]

§ 190.158 Procedures.

When the drawback claim has been completed and the bill of lading filed, the reports of inspection and lading made, and the clearance of the exporting conveyance established by the record of clearance in the case of direct exportation or by certificate in the case of transportation and exportation, the drawback office will verify the importation by referring to the import records to ascertain the amount of duty paid on the merchandise exported.

To the extent appropriate and not inconsistent with the provisions of this subpart, drawback entries will be liquidated in accordance with the provisions of §190.81.

§ 190.159 Amount of drawback.

Drawback due under this subpart will not be subject to the deduction of 1 percent.

Subpart P—Distilled Spirits, Wines, or Beer Which Are Unmerchantable or Do Not Conform to Sample or Specifications

§ 190.161 Refund of taxes.

Section 5062(c), Internal Revenue Code, as amended (26 U.S.C. 5062(c)), provides for the refund, remission, abatement or credit to the importer of internal revenue taxes paid or determined incident to importation, upon the exportation, or destruction under CBP supervision, of imported distilled spirits, wines, or beer found after entry to be unmerchantable or not to conform to sample or specifications and which are returned to CBP custody.

§ 190.162 Procedure.

The export procedure will be the same as that provided in §190.42 for rejected merchandise, except that the claimant must be the importer and must comply with all other provisions in this subpart.

§ 190.163 Documentation.

(a) *Entry*. A drawback entry must be filed to claim drawback under this subpart.

(b) *Documentation*. The drawback entry for unmerchantable merchandise must be accompanied by a certificate of the importer setting forth in detail the facts which cause the merchandise to be unmerchantable and any additional evidence that the drawback office requires to establish that the merchandise is unmerchantable.

§ 190.164 Return to CBP custody.

There is no time limit for the return to CBP custody of distilled spirits, wine, or beer subject to refund of taxes under the provisions of this subpart. The claimant must return the merchandise to CBP custody prior to exportation or destruction and claims are subject to the filing deadline set forth in 19 U.S.C. 1313(r)(1).

§ 190.165 No exportation by mail.

Merchandise covered by this subpart must not be exported by mail.

§ 190.166 Destruction of merchandise.

(a) *Action by the importer*. A drawback claimant who proposes to destroy rather than export the distilled spirits, wine, or beer must state that fact on the drawback entry.

(b) *Action by CBP*. Distilled spirits, wine, or beer returned to CBP custody at the place approved by the drawback office where the drawback entry was filed must be destroyed under the supervision of the CBP officer who will certify the destruction on CBP Form 7553.

§ 190.167 Liquidation.

No deduction of 1 percent of the internal revenue taxes paid or determined will be made in allowing entries under section 5062(c), Internal Revenue Code, as amended (26 U.S.C. 5062(c)).

§ 190.168 [Reserved]

Subpart Q—Substitution of Finished Petroleum Derivatives

§ 190.171 General; drawback allowance.

(a) *General*. Section 313(p) of the Act, as amended (19 U.S.C. 1313(p)), provides for drawback for duties, taxes, and fees paid on qualified articles (see definition below) which consist of either petroleum derivatives that are imported, duty-paid, and qualified for drawback under the unused merchandise drawback law (19 U.S.C. 1313(j)(1)), or petroleum derivatives that are manufactured or produced in the United States, and qualified for drawback under the manufacturing drawback law (19 U.S.C. 1313(a) or (b)).

(b) *Allowance of drawback*. Drawback may be granted under 19 U.S.C. 1313(p):

(1) In cases where there is no manufacture, upon exportation of the imported article, an article of the same

kind and quality, or any combination thereof; or

(2) In cases where there is a manufacture or production, upon exportation of the manufactured or produced article, an article of the same kind and quality, or any combination thereof.

(c) *Calculation of drawback.* For drawback of finished petroleum derivatives pursuant to section 1313(p), the claimant is required to calculate the total amount of drawback due, for purposes of §190.51(b), which will not exceed 99 percent of the allowable duties, taxes, and fees, subject to the following:

(1) *Per unit averaging calculation.* The amount of duties, taxes, and fees eligible for drawback is determined by per unit averaging, as defined in §190.2, for any drawback claim based on 19 U.S.C. 1313(p) pursuant to the standards set forth in §190.172(b) and without respect to the limitations set forth in subparagraphs (B) and (C) of 19 U.S.C. 1313(l).

(2) *Limitations.* The amount of duties, taxes, and fees eligible for drawback is not subject to the limitations set out in 19 U.S.C. 1313(p)(4) for unused merchandise claims (no manufacture) and manufacturing claims (see 190.173(e) and 190.174(f)).

(3) *Federal excise tax.* For purposes of drawback of internal revenue tax imposed under Chapters 32 and 38 (with the exception of Subchapter A of Chapter 38) of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

§190.172 Definitions.

The following are definitions for purposes of this subpart only:

(a) *Qualified article. Qualified article* means an article described in headings 2707, 2708, 2709.00, 2710, 2711, 2712, 2713, 2714, 2715, 2901, and 2902, and subheadings 2903.21.00, 2909.19.14, 2917.36, 2917.39.04, 2917.39.15, 2926.10.00, 3811.21.00, and 3811.90.00, or 3901 through 3914 of the Harmonized Tariff Schedule of the United States (HTSUS). In the case of an article described in headings 3901 through 3914, the definition covers the article in its primary forms as provided in Note 6 to chapter 39 of the HTSUS.

(b) *Same kind and quality article. Same kind and quality article* means an article which is referred to under the same 8-digit classification of the HTSUS as the article to which it is compared.

(c) *Exported article. Exported article* means an article which has been exported and is a qualified article, an article of the same kind and quality as the qualified article, or any combination thereof.

§190.173 Imported duty-paid derivatives (no manufacture).

When the basis for drawback under 19 U.S.C. 1313(p) is imported duty-paid petroleum derivatives (that is, not articles manufactured under 19 U.S.C. 1313(a) or (b)), the requirements for drawback are as follows:

(a) *Imported duty-paid merchandise.* The imported duty-paid merchandise designated for drawback must be a ''qualified article'' as defined in §190.172(a);

(b) *Exported article.* The exported article on which drawback is claimed must be an ''exported article'' as defined in §190.172(c);

(c) *Exporter.* The exporter of the exported article must have either:

(1) Imported the qualified article in at least the quantity of the exported article; or

(2) Purchased or exchanged (directly or indirectly) from an importer an imported qualified article in at least the quantity of the exported article;

(d) *Time of export.* The exported article must be exported within 180 days after the date of entry of the designated imported duty-paid merchandise; and

(e) *Amount of drawback.* The amount of drawback payable may not exceed the amount of drawback which would be attributable to the imported qualified article under 19 U.S.C. 1313(j)(1) which serves as the basis for drawback.

§190.174 Derivatives manufactured under 19 U.S.C. 1313(a) or (b).

When the exported article which is the basis for a drawback claim under 19 U.S.C. 1313(p) is petroleum derivatives which were manufactured or produced in the United States and qualify for drawback under the manufacturing drawback law (19 U.S.C. 1313(a) or (b)),

the requirements for drawback are as follows:

(a) *Merchandise.* The merchandise which is the basis for drawback under 19 U.S.C. 1313(p) must:

(1) Have been manufactured or produced as described in 19 U.S.C. 1313(a) or (b) from crude petroleum or a petroleum derivative; and

(2) Be a ''qualified article'' as defined in § 190.172(a);

(b) *Exported article.* The exported article on which drawback is claimed must be an ''exported article'' as defined in § 190.172(c);

(c) *Exporter.* The exporter of the exported article must have either:

(1) Manufactured or produced the qualified article in at least the quantity of the exported article; or

(2) Purchased or exchanged (directly or indirectly) from a manufacturer or producer described in 19 U.S.C. 1313(a) or (b) the qualified article in at least the quantity of the exported article;

(d) *Manufacture in specific facility.* The qualified article must have been manufactured or produced in a specific petroleum refinery or production facility which must be identified;

(e) *Time of export.* The exported article must be exported either:

(1) During the period provided for in the manufacturer's or producer's specific manufacturing drawback ruling (*see* § 190.8) in which the qualified article is manufactured or produced; or

(2) Within 180 days after the close of the period in which the qualified article is manufactured or produced; and

(f) *Amount of drawback.* The amount of drawback payable may not exceed the amount of drawback which would be attributable to the article manufactured or produced under 19 U.S.C. 1313(a) or (b) which serves as the basis for drawback.

§ 190.175 Drawback claimant; maintenance of records.

(a) *Drawback claimant.* A drawback claimant under 19 U.S.C. 1313(p) must be the exporter of the exported article, or the refiner, producer, or importer of either the qualified article or the exported article. Any of these persons may designate another person to file the drawback claim.

(b) *Transfer of merchandise*—(1) *General.* A drawback claimant under 19 U.S.C. 1313(p) must maintain records (which may be records kept in the normal cause of business) to support the receipt of transferred merchandise and the party transferring the merchandise must maintain records to demonstrate the transfer.

(2) *Article substituted for the qualified article.* (i) Subject to paragraph (b)(2)(iii) of this section, the manufacturer, producer, or importer of a qualified article may transfer to the exporter an article of the same kind and quality as the qualified article in a quantity not greater than the quantity of the qualified article.

(ii) Subject to paragraph (b)(2)(iii) of this section, any intermediate party in the chain of commerce leading to the exporter from the manufacturer, producer, or importer of a qualified article may also transfer to the exporter or to another intermediate party an article of the same kind and quality as the article purchased or exchanged from the prior transferor (whether the manufacturer, producer, importer, or another intermediate transferor) in a quantity not greater than the quantity of the article purchased or exchanged.

(iii) Under either paragraph (b)(2)(i) or (b)(2)(ii) of this section, the article transferred, regardless of its origin (imported, manufactured, substituted, or any combination thereof), will be the qualified article eligible for drawback for purposes of section 1313(p).

(c) *Maintenance of records.* The manufacturer, producer, importer, transferor, exporter and drawback claimant of the qualified article and the exported article must all maintain their appropriate records required by this part.

§ 190.176 Procedures for claims filed under 19 U.S.C. 1313(p).

(a) *Applicability.* The general procedures for filing drawback claims will be applicable to claims filed under 19 U.S.C. 1313(p) unless otherwise specifically provided for in this section.

(b) *Administrative efficiency, frequency of claims, and restructuring of claims.* The procedures regarding administrative efficiency, frequency of claims,

and restructuring of claims (as applicable, see §190.53) will apply to claims filed under this subpart.

(c) *Imported duty-paid derivatives (no manufacture).* When the basis for drawback under 19 U.S.C. 1313(p) is imported duty-paid petroleum (not articles manufactured under 19 U.S.C. 1313(a) or (b)), claims under this subpart may be paid and liquidated if:

(1) The claim is filed on the drawback entry; and

(2) The claimant provides a certification stating the basis (such as company records, or customer's written certification), for the information contained therein and certifying that:

(i) The exported merchandise was exported within 180 days of entry of the designated, imported merchandise;

(ii) The qualified article and the exported article are commercially interchangeable or both articles are subject to the same 8-digit HTSUS subheading number;

(iii) To the best of the claimant's knowledge, the designated imported merchandise, the qualified article and the exported article have not served and will not serve as the basis of any other drawback claim;

(iv) Evidence in support of the certification will be retained by the person providing the certification for 3 years after liquidation of the claim; and

(v) Such evidence will be available for verification by CBP.

(d) *Derivatives manufactured under 19 U.S.C. 1313(a) or (b).* When the basis for a claim for drawback under 19 U.S.C. 1313(p) is articles manufactured under 19 U.S.C. 1313(a) or (b), claims under this section may be paid and liquidated if:

(1) The claim is filed on the drawback entry;

(2) All documents required to be filed with a manufacturing claim under 19 U.S.C. 1313(a) or (b) are filed with the claim;

(3) The claim identifies the specific refinery or production facility at which the derivatives were manufactured or produced;

(4) The claim states the period of manufacture for the derivatives; and

(5) The claimant provides a certification stating the basis (such as company records or a customer's written certification), for the information contained therein and certifying that:

(i) The exported merchandise was exported during the manufacturing period for the qualified article or within 180 days after the close of that period;

(ii) The qualified article and the exported article are commercially interchangeable or both articles are classifiable under the same 8-digit HTSUS subheading number;

(iii) To the best of the claimant's knowledge, the designated imported merchandise, the qualified article and the exported article have not served and will not serve as the basis of any other drawback claim;

(iv) Evidence in support of the certification will be retained by the person providing the certification for 3 years after liquidation of the claim; and

(v) Such evidence will be available for verification by CBP.

Subpart R—Merchandise Transferred to a Foreign Trade Zone From Customs Territory

§ 190.181 Drawback allowance.

The fourth proviso of section 3 of the Foreign Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81c), provides that merchandise transferred to a foreign trade zone for the sole purpose of exportation, storage or destruction (except destruction of distilled spirits, wines, and fermented malt liquors), will be considered to be exported for the purpose of drawback, provided there is compliance with the regulations of this subpart.

§ 190.182 Zone-restricted merchandise.

Merchandise in a foreign trade zone for the purposes specified in §190.181 will be given status as zone-restricted merchandise on proper application (*see* §146.44 of this chapter).

§ 190.183 Articles manufactured or produced in the United States.

(a) *Procedure for filing documents.* Except as otherwise provided, the drawback procedures prescribed in this part must be followed when claiming drawback under this subpart on articles manufactured or produced in the

United States with the use of imported or substituted merchandise, and on flavoring extracts or medicinal or toilet preparations (including perfumery) manufactured or produced with the use of domestic tax-paid alcohol.

(b) *Notice of transfer*—(1) *Evidence of export.* The notice of zone transfer on CBP Form 214 (Application for Foreign-Trade Zone Admission and/or Status Designation) or its electronic equivalent will be in place of the documents under subpart G of this part to establish the exportation.

(2) *Filing procedures.* The notice of transfer (CBP Form 214) will be filed not later than 3 years after the transfer of the articles to the zone. A notice filed after the transfer will state the foreign trade zone lot number.

(3) *Contents of notice.* Each notice of transfer must show the:

(i) Number and location of the foreign trade zone;

(ii) Number and kind of packages and their marks and numbers;

(iii) Description of the articles, including weight (gross and net), gauge, measure, or number; and

(iv) Name of the transferor.

(c) *Action of foreign trade zone operator.* After articles have been received in the zone, the zone operator must certify on a copy of the notice of transfer (CBP Form 214) the receipt of the articles (*see* §190.184(d)(2)) and forward the notice to the transferor or the person designated by the transferor. The transferor must verify that the notice has been certified before filing it with the drawback claim.

(d) *Drawback entries.* Drawback entries must indicate that the merchandise was transferred to a foreign trade zone. The ''Declaration of Exportation'' must be modified as follows:

Declaration of Transfer to a Foreign Trade Zone

I,_____ _____(member of firm, officer representing corporation, agent, or attorney), of _____, declare that, to the best of my knowledge and belief, the particulars of transfer stated in this entry, the notices of transfer, and receipts are correct, and that the merchandise was transferred to a foreign trade zone for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption.

Dated: _____

Transferor or agent

§190.184 Merchandise transferred from continuous CBP custody.

(a) *Procedure for filing claims.* The procedure described in subpart O of this part will be followed as applicable, for drawback on merchandise transferred to a foreign trade zone from continuous CBP custody.

(b) *Drawback entry.* Before the transfer of merchandise from continuous CBP custody to a foreign trade zone, the importer or a person designated in writing by the importer for that purpose must file with the drawback office a direct export drawback entry. CBP will notify the zone operator at the zone.

(c) *Certification by zone operator.* After the merchandise has been received in the zone, the zone operator must certify the receipt of the merchandise (*see* paragraph (d)(2) of this section) and notify the transferor or the person designated by the transferor. After executing the declaration provided for in paragraph (d)(3) of this section, the transferor must resubmit the drawback entry to the drawback office in place of the bill of lading required by §190.156.

(d) *Modification of drawback entry*—(1) *Indication of transfer.* The drawback entry must include a certification to indicate that the merchandise is to be transferred to a foreign trade zone.

(2) *Endorsement.* The transferor or person designated by the transferor and the foreign trade zone operator must certify transfer to the foreign trade zone, with respect to the drawback entry, as follows:

Certification by Foreign Trade Zone Operator

The merchandise described in the entry was received from _____ on _____, 20____ in Foreign Trade Zone No. ____, (City and State)

Exceptions _____

(Name and title)

By _____

(Name of operator)

(3) *Transferor's declaration.* The transferor must declare, with respect to the drawback entry, as follows:

Transferor's Declaration

I, _____ _____, of the firm of _____, declare that the merchandise described in this entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it was transferred to Foreign Trade Zone No. ____, located at ____, (City and State) for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption. I further declare that to the best of my knowledge and belief, this merchandise is in the same quantity, quality, value, and package, unavoidable wastage and damage excepted, as it was at the time of importation; that no allowance nor reduction of duties has been made for damage or other cause except as specified in this entry; and that no part of the duties paid has been refunded by drawback or otherwise.

Dated: _____

Transferor

§ 190.185 Unused merchandise drawback and merchandise not conforming to sample or specification, shipped without consent of the consignee, found to be defective as of the time of importation, or returned after retail sale.

(a) *Procedure for filing claims.* The procedures described in subpart C of this part relating to unused merchandise drawback, and in subpart D of this part relating to rejected merchandise, must be followed with respect to drawback under this subpart for unused merchandise drawback and merchandise that does not conform to sample or specification, is shipped without consent of the consignee, or is found to be defective as of the time of importation.

(b) *Drawback entry.* Before transfer of the merchandise to a foreign trade zone, the importer or a person designated in writing by the importer for that purpose must file the drawback entry. CBP will notify the zone operator at the zone.

(c) *Certification by zone operator.* After the merchandise has been received in the zone, the zone operator at the zone must certify, with respect to the drawback entry, the receipt of the merchandise and notify the transferor or the person designated by the transferor. After executing the declaration provided for in paragraph (d)(3) of this section, the transferor must resubmit the drawback entry in place of the bill of lading required by § 190.156.

(d) *Modification of drawback entry*—(1) *Indication of transfer.* The drawback entry must indicate that the merchandise is to be transferred to a foreign trade zone.

(2) *Endorsement.* The transferor or person designated by the transferor and the foreign trade zone operator must certify transfer to the foreign trade zone, with respect to the drawback entry, as follows:

Certification by Foreign Trade Zone Operator

The merchandise described in this entry was received from _____ on _____, 20 ____, in Foreign Trade Zone No. ____, ____ (City and State).

Exceptions: _____

_____

(Name of operator)

By _____

(Name and title)

(3) *Transferor's declaration.* The transferor must certify, with respect to the drawback entry, as follows:

Transferor's Declaration

I, _____ of the firm of _____, declare that the merchandise described in the within entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it was transferred to Foreign Trade Zone No. ____, located at _____ (City and State) for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption. I further declare that to the best of my knowledge and belief, said merchandise is the same in quantity, quality, value, and package as specified in this entry; that no allowance nor reduction in duties has been made; and that no part of the duties paid has been refunded by drawback or otherwise.

Dated: _____

Transferor

§ 190.186 Person entitled to claim drawback.

The person named in the foreign trade zone operator's certification on the notice of transfer or the drawback entry, as applicable, will be considered to be the transferor. Drawback may be claimed by, and paid to, the transferor.

Subpart S—Drawback Compliance Program

§ 190.191 Purpose.

This subpart sets forth the requirements for the drawback compliance program in which claimants and other parties in interest, including customs brokers, may participate after being certified by CBP. Participation in the program is voluntary. Under the program, CBP is required to inform potential drawback claimants and related parties clearly about their rights and obligations under the drawback law and regulations. Reduced penalties and/or warning letters may be issued once a party has been certified for the program, and is in general compliance with the appropriate procedures and requirements thereof.

§ 190.192 Certification for compliance program.

(a) *General.* A party may be certified as a participant in the drawback compliance program after meeting the core requirements established under the program, or after negotiating an alternative drawback compliance program suited to the needs of both the party and CBP. Certification requirements will take into account the size and nature of the party's drawback program, the type of drawback claims filed, and the volume of claims filed. Whether the party is a drawback claimant, a broker, or one that provides data and documentation on which a drawback claim is based, will also be considered.

(b) *Core requirements of program.* In order to be certified as a participant in the drawback compliance program or negotiated alternative drawback compliance program, the party must demonstrate that it:

(1) Understands the legal requirements for filing claims, including the nature of the records that are required to be maintained and produced and the time periods involved;

(2) Has in place procedures that explain the CBP requirements to those employees involved in the preparation of claims, and the maintenance and production of required records;

(3) Has in place procedures regarding the preparation of claims and maintenance of required records, and the production of such records to CBP;

(4) Has designated a dependable individual or individuals who will be responsible for compliance under the program, and maintenance and production of required records;

(5) Has in place a record maintenance program approved by CBP regarding original records, or if approved by CBP, alternative records or recordkeeping formats for other than the original records; and

(6) Has procedures for notifying CBP of variances in, or violations of, the drawback compliance program or other alternative negotiated drawback compliance program, and for taking corrective action when notified by CBP of violations and problems regarding such program.

(c) *Broker certification.* A customs broker may be certified as a participant in the drawback compliance program only on behalf of a given claimant (*see* § 190.194(b)). To do so, a customs broker who assists a claimant in filing for drawback must be able to demonstrate, for and on behalf of such claimant, conformity with the core requirements of the drawback compliance program as set forth in paragraph (b) of this section. The broker must ensure that the claimant has the necessary documentation and records to support the drawback compliance program established on its behalf, and that claims to be filed under the program are reviewed by the broker for accuracy and completeness.

§ 190.193 Application procedure for compliance program.

(a) *Who may apply.* Claimants and other parties in interest may apply for participation in the drawback compliance program. This includes any person, corporation or business entity that provides supporting information or documentation to one who files drawback claims, as well as customs brokers who assist claimants in filing for drawback. Program participants may further consist of importers, manufacturers or producers, agent-manufacturers, complementary recordkeepers, subcontractors, intermediate parties, and exporters.

(b) *Place of filing.* An application in letter format containing the information as prescribed in paragraphs (c) and (d) of this section may be submitted to any drawback office.

(c) *Letter of application; contents.* A party requesting certification to become a participant in the drawback compliance program must file with the drawback office a written application, signed by an authorized individual (*see* § 190.6(c)). The detail required in the application must take into account the size and nature of the applicant's drawback program, the type of drawback claims filed, and the dollar value and volume of claims filed. However, the application must contain at least the following information:

(1) Name of applicant, address, IRS number (with suffix), and the type of business in which engaged, as well as the name(s) of the individual(s) designated by the applicant to be responsible for compliance under the program;

(2) A description of the nature of the applicant's drawback program, including the type of drawback in which involved (such as, manufacturing, or unused or rejected merchandise), and the applicant's particular role(s) in the drawback claims process (such as claimant and/or importer, manufacturer or producer, agent-manufacturer, complementary recordkeeper, subcontractor, intermediate party (possessor or purchaser), or exporter (or destroyer)); and

(3) Size of applicant's drawback program. For example, if the applicant is a claimant, the number of claims filed over the previous 12-month period should be included, along with the number estimated to be filed over the next 12-month period, and the estimated amount of drawback to be claimed annually. Other parties should describe the extent to which they are involved in drawback activity, based upon their particular role(s) in the drawback process; for example, manufacturers should explain how much manufacturing they are engaged in for drawback, such as the quantity of drawback product produced on an annual basis.

(d) *Application package.* Along with the letter of application as prescribed in paragraph (c) of this section, the application package must include a description of how the applicant will ensure compliance with statutory and regulatory drawback requirements. This description may be in the form of a booklet or set forth otherwise. The description must include at least the following:

(1) The name and title of the official in the applicant's organization who is responsible for oversight of the applicant's drawback program, and the name and title, with mailing address and, if available, fax number and email address, of the person(s) in the applicant's organization responsible for the actual maintenance of the applicant's drawback program;

(2) If the applicant is a manufacturer and the drawback involved is manufacturing drawback, a copy of the letter of notification of intent to operate under a general manufacturing drawback ruling or the application for a specific manufacturing drawback ruling (*see* §§ 190.7 and 190.8), as appropriate;

(3) A description of the applicant's drawback recordkeeping program, including the retention period and method (for example, paper, and electronic);

(4) A list of the records that will be maintained, including at least sample import documents, sample export or destruction documents, sample inventory and transportation documents (if applicable), sample laboratory or other documents establishing the qualification of merchandise or articles for substitution under the drawback law (if applicable), and sample manufacturing documents (if applicable);

(5) A description of the applicant's specific procedures for:

(i) How drawback claims are prepared (if the applicant is a claimant); and

(ii) How the applicant will fulfill any requirements under the drawback law and regulations applicable to its role in the drawback program;

(6) A description of the applicant's procedures for notifying CBP of variances in, or violations of, its drawback compliance program or negotiated alternative drawback compliance program, and procedures for taking corrective action when notified by CBP of violations or other problems in such program; and

(7) A description of the applicant's procedures for annual review to ensure that its drawback compliance program meets the statutory and regulatory drawback requirements and that CBP is notified of any modifications from the procedures described in this application.

§ 190.194 Action on application to participate in compliance program.

(a) *Review by drawback office*—(1) *General.* It is the responsibility of the drawback office to coordinate its decision making on the package with CBP Headquarters and other CBP offices as appropriate. CBP processing of the package will consist of the review of the information contained therein as well as any additional information requested (*see* paragraph (a)(2) of this section).

(2) *Criteria for CBP review.* The drawback office will review and verify the information submitted in and with the application. In order for CBP to evaluate the application, CBP may request additional information (including additional sample documents) and/or explanations of any of the information provided for in § 190.193(c) and (d). Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with CBP, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with CBP will include (as applicable):

(i) The presence or absence of unresolved customs charges (duties, taxes, fees, or other debts owed CBP);

(ii) The accuracy of the claimant's past drawback claims; and

(iii) Whether accelerated payment of drawback or waiver of prior notice of intent to export was previously revoked or suspended.

(b) *Approval.* Certification as a participant in the drawback compliance program will be given to applicants whose applications are approved under the criteria in paragraph (a)(2) of this section. The drawback office will give written notification to an applicant of its certification as a participant in the drawback compliance program. A customs broker obtaining certification for a drawback claimant will be sent written notification on behalf of such claimant, with a copy of the notification also being sent to the claimant.

(c) *Benefits of participation in program.* When a party that has been certified as a participant in the drawback compliance program and is generally in compliance with the appropriate procedures and requirements of the program commits a violation of 19 U.S.C. 1593a(a) (*see* § 190.62(b)), CBP will, in the absence of fraud or repeated violations, and in lieu of a monetary penalty as otherwise provided under section 1593a, issue a written notice of the violation to the party. Repeated violations by a participant, including a customs broker, may result in the issuance of penalties and the removal of certification under the program until corrective action, satisfactory to CBP, is taken.

(d) *Denial.* If certification as a participant in the drawback compliance program is denied, the applicant will be given written notice by the drawback office, specifying the grounds for such denial, together with any action that may be taken to correct the perceived deficiencies, and informing the applicant that such denial may be appealed to the drawback office that issued the notice of denial and then appealed to CBP Headquarters.

(e) *Certification removal*—(1) *Grounds for removal.* The certification for participation in the drawback compliance program by a party may be removed when any of the following conditions are discovered:

(i) The certification privilege was obtained through fraud or mistake of fact;

(ii) The program participant is no longer in compliance with the customs laws and CBP regulations, including the requirements set forth in § 190.192;

(iii) The program participant has repeatedly filed false drawback claims or false or misleading documentation or other information relating to such claims; or

(iv) The program participant is convicted of any felony or has committed acts which would constitute a misdemeanor or felony involving theft, smuggling, or any theft-connected crime.

(2) *Removal procedure.* If CBP determines that the certification of a program participant should be removed, the drawback office will send the program participant a written notice of the removal. Such notice will inform the program participant of the grounds for the removal and will advise the program participant of its right to file an appeal of the removal in accordance with paragraph (f) of this section.

(3) *Effect of removal.* The removal of certification will be effective immediately in cases of willfulness on the part of the program participant or when required by public health, interest, or safety. In all other cases, the removal of certification will be effective when the program participant has received notice under paragraph (e)(2) of this section and either no appeal has been filed within the time limit prescribed in paragraph (f)(2) of this section or all appeal procedures have been concluded by a decision that upholds the removal action. Removal of certification may subject the affected person to penalties.

(f) *Appeal of certification denial or removal*—(1) *Appeal of certification denial.* A party may challenge a denial of an application for certification as a participant in the drawback compliance program by filing a written appeal, within 30 days of issuance of the notice of denial, with the drawback office. A denial of an appeal may itself be appealed to CBP Headquarters, Trade Policy and Programs, Office of Trade, within 30 days after issuance of the drawback office's appeal decision. This office will review the appeal and will respond with a written decision within 30 days after receipt of the appeal unless circumstances require a delay in issuance of the decision. If the decision cannot be issued within the 30-day period, the office will advise the appellant of the reasons for the delay and of any further actions which will be carried out to complete the appeal review and of the anticipated date for issuance of the appeal decision.

(2) *Appeal of certification removal.* A party who has received a CBP notice of removal of certification for participation in the drawback compliance program may challenge the removal by filing a written appeal, within 30 days after issuance of the notice of removal, with the drawback office. A denial of an appeal may itself be appealed to CBP Headquarters, Trade Policy and Programs, Office of Trade, within 30 days after issuance of the drawback office's appeal decision. This office will consider the allegations upon which the removal was based and the responses made to those allegations by the appellant and will render a written decision on the appeal within 30 days after receipt of the appeal.

§ 190.195 Combined application for certification in drawback compliance program and waiver of prior notice and/or approval of accelerated payment of drawback.

An applicant for certification in the drawback compliance program may also, in the same application, apply for waiver of prior notice of intent to export or destroy and accelerated payment of drawback, under subpart I of this part. Alternatively, an applicant may separately apply for certification in the drawback compliance program and either or both waiver of prior notice and accelerated payment of drawback. In the former instance, the intent to apply for certification and waiver of prior notice and/or approval of accelerated payment of drawback must be clearly stated. In all instances, all of the requirements for certification and the procedure applied for must be met (for example, in a combined application for certification in the drawback compliance program and both procedures, all of the information required for certification and each procedure, all required sample documents for certification and each procedure, and all required certifications must be included with the application).

APPENDIX A TO PART 190—GENERAL MANUFACTURING DRAWBACK RULINGS

TABLE OF CONTENTS

V. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Component Parts (T.D. 81–300)
VI. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Flaxseed (T.D. 83–80)
VII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Fur Skins or Fur Skin Articles (T.D. 83–77)
VIII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Orange Juice (T.D. 85–110)
IX. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives (T.D. 84–49)
X. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Piece Goods (T.D. 83–73)
XI. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Raw Sugar (T.D. 83–59)
XII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Steel (T.D. 81–74)
XIII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Sugar (T.D. 81–92)
XIV. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Woven Piece Goods (T.D. 83–84)

I. General Instructions

A. There follow various general manufacturing drawback rulings which have been designed to simplify drawback procedures. Any person that can comply with the conditions of any one of these rulings may notify a CBP drawback office of its intention to operate under the ruling (*see* §190.7). The letter of notification must be sent, electronically, to the drawback offices at the below listed email accounts:

NewYorkDrawback@cbp.dhs.gov
SanFranciscoDrawback@cbp.dhs.gov
HoustonDrawback@cbp.dhs.gov
ChicagoDrawback@cbp.dhs.gov.

Such letter of notification must include the following information:

1. Name and address of manufacturer or producer;
2. IRS (Internal Revenue Service) number (with suffix) of manufacturer or producer;
3. Location[s] of factory[ies] which will operate under the general ruling;
4. If a business entity, names of persons who will sign drawback documents (*see* §190.6);
5. Identity (by T.D. number and title, as stated in this Appendix) of general manufacturing drawback ruling under which the manufacturer or producer intends to operate;
6. Description of the merchandise and articles, unless specifically described in the general manufacturing drawback ruling, and 8-digit HTSUS subheading number, and the quantity of the merchandise;
7. Only for General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives, the name of each article to be exported or, if the identity of the product is not clearly evident by its name, what the product is, and the abstract period to be used for each refinery (monthly or other specified period (not to exceed 1 year)), subject to the conditions in the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives, I. Procedures and Records Maintained, 4(a) or (b);
8. Basis of claim used for calculating drawback; and
9. Description of the manufacturing or production process, unless specifically described in the general manufacturing drawback ruling.

For the General Manufacturing Drawback Ruling under §1313(a), the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Component Parts, and the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) or 1313(b) for Agents, if the drawback office has doubts as to whether there is a manufacture or production, as defined in §190.2, the manufacturer or producer will be asked to provide details of the operation purported to be a manufacture or production.

10. For the General Manufacturing Drawback Ruling where substituted merchandise will be used, include the bill of materials, and/or formulas annotated with the 8-digit HTSUS classifications.

B. These general manufacturing drawback rulings supersede general ''contracts'' previously published under the following Treasury Decisions (T.D.s): 81–74, 81–92, 81–181, 81–234, 81–300, 83–53, 83–59, 83–73, 83–77, 83–80, 83–84, 83–123, 84–49, and 85–110.

Anyone currently operating under any of the above-listed Treasury Decisions will automatically be covered by the superseding general ruling, including all privileges of the previous ''contract''.

II. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) (T.D. 81–234; T.D. 83–123)

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products are used in the manufacture of the exported articles upon which drawback claims will be based.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed must be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §190.2.

E. Multiple Products

1. Relative Values

Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. If multiple products are produced records, which may include records kept in the normal course of business, will be maintained of the market value of each product at the time it is first separated in the manufacturing process.

2. Appearing-In Method

The appearing-in basis may not be used if multiple products are produced.

F. Loss or Gain

Records, which may include records kept in the normal course of business, will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. [Reserved]

H. Stock in Process

Stock in process does not result; or if it does result, details will be given in claims as filed, and it will not be included in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.

I. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

J. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise, and

2. The quantity of imported merchandise[2] used in producing the exported articles.

(To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements must be available for audit by CBP during business hours. Drawback is not payable without proof of compliance).

K. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 190 of the CBP Regulations will be met, as discussed under the heading Procedures and Records Maintained. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

L. Basis of Claim for Drawback

Drawback will be claimed on the full quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. A drawback claim may be based on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles less the amount of that merchandise which the value of the waste would replace.

M. General Requirements

The manufacturer or producer must:

1. Comply fully with the terms of this general ruling when claiming drawback;

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

III. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(A) OR 1313(B) FOR AGENTS (T.D. 81–181)

Manufacturers or producers operating under this general manufacturing drawback ruling must comply with T.D.s 55027(2) and 55207(1), and 19 U.S.C. 1313(b), if applicable, as well as 19 CFR part 190 (*see* particularly, §190.9).

A. Name and Address of Principal

B. Process of Manufacture or Production

The imported merchandise or drawback products or other substituted merchandise will be used to manufacture or produce articles in accordance with §190.2.

C. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. Quantity, identity, and 8-digit HTSUS subheading number of merchandise transferred from the principal to the agent;

2. Date of transfer of the merchandise from the principal to the agent;

3. Date of manufacturing or production operations performed by the agent;

4. Total quantity and description of merchandise (including 8-digit HTSUS subheading number) appearing in or used in manufacturing or production operations performed by the agent;

5. Total quantity and description of articles (including 8-digit HTSUS subheading number) produced in manufacturing or production operations performed by the agent;

6. Quantity, identity, and 8-digit HTSUS subheading number of articles transferred from the agent to the principal; and

7. Date of transfer of the articles from the agent to the principal.

D. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when manufacturing or producing articles for account of the principal under the principal's general manufacturing drawback ruling or specific manufacturing drawback ruling, as appropriate;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates the claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to help ensure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

IV. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(A) FOR BURLAP OR OTHER TEXTILE MATERIAL (T.D. 83–53)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of bags or meat wrappers manufactured with the use of imported burlap or other textile material, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (burlap or other textile material) are used in the manufacture of the exported articles upon which drawback claims will be based.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed must be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another, or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §190.2.

E. Multiple Products

Not applicable.

F. Loss or Gain

Not applicable.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback, the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

[2]If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

I. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish compliance with all legal requirements, drawback cannot be paid. Each lot of imported material received by a manufacturer or producer must be given a lot number and kept separate from other lots until used. The records of the manufacturer or producer must show, as to each manufacturing lot or period of manufacture, the 8-digit HTSUS classification, the quantity of material used from each imported lot, and the number of each kind and size of bags or meat wrappers obtained.

All bags or meat wrappers manufactured or produced for the account of the same exporter during a specified period may be designated as one manufacturing lot. All exported bags or meat wrappers must be identified by the exporter.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation, and records are kept which establish the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace.

K. General Requirements

The manufacturer or producer must:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate

name, or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to help ensure proper compliance with 19, United States Code, §1313, part 190 of the CBP Regulations and this general ruling.

V. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR COMPONENT PARTS (T.D. 81–300)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free, or domestic merchandise classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
Component parts identified by individual part numbers and 8-digit HTSUS subheading number.	Component parts classifiable under the same 8-digit HTSUS subheading number and identified with the same individual part numbers as those in the column immediately to the left.

The designated components must be manufactured in accordance with the same specifications and from the same materials, and must be identified by the same 8-digit HTSUS classification and part number as the substituted components. Further, the designated and substituted components are used interchangeably in the manufacture of the exported articles upon which drawback will be claimed. Specifications or drawings will be maintained and made available for review by CBP Officials.

B. Exported Articles on Which Drawback Will Be Claimed

The exported articles will have been manufactured in the United States using components described in the Parallel Columns above.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The components described in the Parallel Columns will be used to manufacture or produce articles in accordance with §190.2.

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of components appearing in the exported articles, records will be maintained to establish the value (or the lack of value), quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

G. [Reserved]

H. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity and 8-digit HTSUS classification of the designated merchandise;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise[2] used to produce the exported articles;

3. That, within 5 years after the date of importation of the designated merchandise, the

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

manufacturer or producer used the merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced[3] the exported articles. To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of eligible components used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible components that appear in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible components used to produce the exported articles less the amount of those components which the value of the waste would replace.

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;
2. Open its factory and records for examination at all reasonable hours by authorized Government officers;
3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;
4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;
5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and
6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

VI. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(A) FOR FLAXSEED (T.D. 83–80)

Drawback may be allowed under the provision of 19 U.S.C. 1313(a) upon the exportation of linseed oil, linseed oil cake, and linseed oil meal, manufactured or produced with the use of imported flaxseed, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (flaxseed) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed must be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §190.2.

E. Multiple Products

Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. If multiple products are produced records will be maintained of the market value of each product at the time it is first separated in the manufacturing process

[3] The date of production is the date an article is completed.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

(when a claim covers a manufacturing period, the entire period covered by the claim is the time of separation of the products and the value per unit of product is the market value for the period (*see* §§190.2, 190.22(e)). The ''appearing in'' basis may not be used if multiple products are produced.

F. Loss or Gain

Records will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and
2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

The inventory records of the manufacturer or producer will show: The inclusive dates of manufacture; the quantity, identity, value, and 8-digit HTSUS classification of the imported flaxseed or screenings, scalpings, chaff, or scourings used; the quantity by actual weight and value, if any, of the material removed from the foregoing by screening prior to crushing; the quantity and kind of domestic merchandise added, if any; the quantity by actual weight or gauge and value of the oil, cake, and meal obtained; and the quantity and value, if any, of the waste incurred. The quantity of imported flaxseed, screenings, scalpings, chaff, or scourings used or of material removed will not be estimated nor computed on the basis of the quantity of finished products obtained, but will be determined by actually weighing the said flaxseed, screenings, scalpings, chaff, scourings, or other material; or, at the option of the crusher, the quantities of imported materials used may be determined from CBP weights, as shown by the import entry covering such imported materials, and the Government weight certificate of analysis issued at the time of entry. The entire period covered by an abstract will be deemed the time of separation of the oil and cake covered thereby.

If the records of the manufacturer or producer do not show the quantity of oil cake used in the manufacture or production of the exported oil meal, and the quantity of oil meal obtained, the net weight of the oil meal exported will be regarded as the weight of the oil cake used in the manufacture thereof.

If various tanks are used for the storage of imported flaxseed, the mill records must establish the tank or tanks in which each lot or cargo is stored. If raw or processed oil manufactured or produced during different periods of manufacture is intermixed in storage, a record must be maintained showing the quantity, identity, and 8-digit HTSUS classification of oil so intermixed. The identity of the merchandise or articles in either instance must be in accordance with §190.14.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace.

K. General Requirements

The manufacturer or producer will:

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 190 of the CBP Regulations and this general ruling.

VII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Fur Skins or Fur Skin Articles (T.D. 83–77)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of dressed, redressed, dyed, redyed, bleached, blended, or striped fur skins or fur skin articles manufactured or produced by any one, or a combination, of the foregoing processes, with the use of fur skins or fur skin articles, such as plates, mats, sacs, strips, and crosses, imported in a raw, dressed, or dyed condition, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (fur skins or fur skin articles) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed must be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §190.2.

Drawback will not be allowed under this general manufacturing drawback ruling when the process performed results only in the restoration of the merchandise to its condition at the time of importation.

E. Multiple Products

Not applicable.

F. Loss or Gain

Records will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

I. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

The records of the manufacturer or producer must show, as to each lot of fur skins and/or fur skin articles used in the manufacture or production of articles for exportation with benefit of drawback, the lot number and date or inclusive dates of manufacture or production, the quantity, identity, description, and 8-digit HTSUS classification of the imported merchandise used, the condition in which imported, the process or processes applied thereto, the quantity, description, and 8-digit HTSUS classification of the finished articles obtained, and the quantity of imported pieces rejected, if any, or spoiled in manufacture or production.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace. (If rejects and/or spoilage are incurred, the quantity of imported merchandise used will be determined by deducting from the quantity of fur skins or fur skin articles put into manufacture or production the quantity of such rejects and/or spoilage.)

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 190 of the CBP Regulations and this general ruling.

VIII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR ORANGE JUICE (T.D. 85–110)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free, or domestic merchandise, classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
Concentrated orange juice for manufacturing (of not less than 55° Brix), as defined in the standard of identity of the Food and Drug Administration (21 CFR 146.53), which meets the Grade A standard of the U.S. Dept. of Agriculture (7 CFR 52.1557, Table IV).	Concentrated orange juice for manufacturing as described in the left-hand parallel column.

The imported merchandise designated on drawback claims must be classifiable under the same 8-digit HTSUS classification as the merchandise used in producing the exported articles on which drawback is claimed.

B. Exported Articles on Which Drawback Will Be Claimed

1. Orange juice from concentrate (reconstituted juice).
2. Frozen concentrated orange juice.
3. Bulk concentrated orange juice.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

1. Orange juice from concentrate (reconstituted juice). Concentrated orange juice for manufacturing is reduced to a desired 11.8° Brix by a blending process to produce orange juice from concentrate. The following optional blending processes may be used:
i. The concentrate is blended with fresh orange juice (single strength juice); or
ii. The concentrate is blended with essential oils, flavoring components, and water; or
iii. The concentrate is blended with water and is heat treated to reduce the enzymatic activity and the number of viable microorganisms.
2. Frozen concentrated orange juice. Concentrated orange juice for manufacturing is reduced to a desired degree Brix of not less than 41.8° Brix by the following optional blending processes:
i. The concentrate is blended with fresh orange juice (single strength juice); or
ii. The concentrate is blended with essential oils and flavoring components and water.
3. Bulk concentrated orange juice. Concentrated orange juice for manufacturing is blended with essential oils and flavoring components which would enable another processor such as a dairy to prepare finished frozen concentrated orange juice or orange juice from concentrate by merely adding water to the (intermediate) bulk concentrated orange juice.

E. Multiple Products, Waste, Loss or Gain

Not applicable.

F. [Reserved]

G. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:
1. The 8-digit HTSUS classification and identity of the designated merchandise;
2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise[2] used to produce the exported articles;
3. That, within 5 years after the date of importation of the designated merchandise, the manufacturer or producer used the designated merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback it must be established that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements must be available for audit by CBP during business hours. No drawback is payable without proof of compliance.

H. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained'', and will show what components were blended with the concentrated orange juice for manufacturing. If those records do not establish satisfaction of all legal requirements drawback cannot be paid.

I. Basis of Claim for Drawback

The basis of claim for drawback will be the quantity of concentrated orange juice for manufacturing used in the production of the exported articles. It is understood that when fresh orange juice is used as ''cutback'', it will not be included in the ''pound solids'' when computing the drawback due.

J. General Requirements

The manufacturer or producer will:

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

IX. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR PETROLEUM OR PETROLEUM DERIVATIVES (T.D. 84–49)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free, or domestic merchandise, classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.

B. Exported Articles Produced From Fractionation

1. Motor Gasoline
2. Aviation Gasoline
3. Special Naphthas
4. Jet Fuel
5. Kerosene & Range Oils
6. Distillate Oils
7. Residual Oils
8. Lubricating Oils
9. Paraffin Wax
10. Petroleum Coke
11. Asphalt
12. Road Oil
13. Still Gas
14. Liquified Petroleum Gas
15. Petrochemical Synthetic Rubber
16. Petrochemical Plastics & Resins
17. All Other Petrochemical Products

C. Exported Articles on Which Drawback Will Be Claimed

See the General Instructions, I.A.7., for this general drawback ruling. Each article to be exported must be named. When the identity of the product is not clearly evident by its name, there must be a statement as to what the product is, e.g., a herbicide.

D. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

E. Process of Manufacture or Production

Heated crude oil is charged to an atmospheric distillation tower where it is subjected to fractionation. The charge to the distillation tower consists of a single crude oil, or of commingled crudes which are fed to the tower simultaneously or after blending in a tank. During fractionation, components of different boiling ranges are separated.

F. Multiple Products

1. Relative Values

Fractionation results in 17 products. In order to insure proper distribution of drawback to each of these products, the manufacturer or producer agrees to record the relative values at the time of separation. The entire period covered by an abstract is to be treated as the time of separation. The value per unit of each product will be the average market value for the abstract period.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

2. Producibility

The manufacturer or producer can vary the proportionate quantity of each product. The manufacturer or producer understands that drawback is payable on exported products only to the extent that these products could have been produced from the designated merchandise. The records of the manufacturer or producer must show that all of the products exported, for which drawback will be claimed under this general manufacturing drawback ruling could, have been produced concurrently on a practical operating basis from the designated merchandise.

The manufacturer or producer agrees to establish the amount to be designated by reference to the Industry Standards of Potential Production published in T.D. 66–16.[2]

There are no valuable wastes as a result of the processing.

G. Loss or Gain

Because the manufacturer or producer keeps records on a volume basis rather than a weight basis, it is anticipated that the material balance will show a volume gain. For the same reason, it is possible that occasionally the material balance will show a volume loss. Fluctuations in type of crude used, together with the type of finished product desired make an estimate of an average volume gain meaningless. However, records will be kept to show the amount of loss or gain with respect to the production of export products.

H. Exchange

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the Parallel Columns of this general ruling shall be treated as use of the imported merchandise.

I. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity, and 8-digit HTSUS classification of the merchandise designated;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise used to produce the exported articles.

3. That, within 5 years after importation, the manufacturer or producer used the designated merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced the exported articles.

4(a). The manufacturer or producer agrees to use a 28–31 day period (monthly) abstract period for each refinery covered by this general manufacturing drawback ruling, or

(b). The manufacturer or producer agrees to use an abstract period (not to exceed 1 year) for each refinery covered by this general manufacturing drawback ruling. The manufacturer or producer certifies that if it were to file abstracts covering each manufacturing period, of not less than 28 days and not more than 31 days (monthly) within the longer period, in no such monthly abstract would the quantity of designated merchandise exceed the material introduced into the manufacturing process during that monthly period. (Select (a) or (b), and state which is selected in the application, and, if (b) is selected, specify the length of the particular abstract period chosen (not to exceed 1 year (*see* General Instruction I.A.7.)).)

5. On each abstract of production the manufacturer or producer agrees to show the value per barrel to five decimal places.

6. The manufacturer or producer agrees to file claims in the format set forth in exhibits A through F which are attached to this general manufacturing drawback ruling. The manufacturer or producer realizes that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. It is understood that drawback is not payable without proof of compliance. Records will be kept in accordance with T.D. 84–49, as amended by T.D. 95–61.

J. Residual Rights

It is understood that the refiner can reserve as the basis for future payment the right to drawback only on the number of barrels of raw material computed by subtracting from Line E the larger of Lines A or B, of a given Exhibit E. It is further understood that this right to future payment can be claimed only against products concurrently producible with the products listed in Column 21, in the quantities shown in Column 22 of such Exhibit E. Such residual right can be transferred to another refinery of the same refiner only when Line B of Exhibit E is larger than Line A. Unless the number of residual barrels is specifically computed, and rights thereto are expressly reserved on Exhibit E, such residual rights will be deemed waived. The procedure the manufacturer or producer must follow in preparing drawback entries claiming this residual right is illustrated in the attached sample Exhibit E–1. It is understood that claims involving residual rights must be

[2] A manufacturer who proposes to use standards other than those in T.D. 66–16 must state the proposed standards and provide sufficient information to CBP in order for those proposed standards to be verified in accordance with T.D. 84–49.

filed only at the port where the Exhibit E reserving such right was filed.

K. Inventory Procedures

The manufacturer or producer realizes that inventory control is of major importance. In accordance with the normal accounting procedures of the manufacturer or producer, each refinery prepares a monthly stock and yield report, which accounts for inventories, production, and disposals, from time of receipt to time of disposition. This provides an audit trail of all products.

The above-noted records will provide the required audit trail from the initial source documents to the drawback claims of the manufacturer or producer and will support adherence with the requirements discussed under the heading Procedures and Records Maintained.

L. Basis of Claim for Drawback

The amount of raw material on which drawback may be based will be computed by multiplying the quantity of each product exported by the drawback factor for that product. The amount of raw material which may be designated as the basis for drawback on the exported products produced at a given refinery and covered by a drawback entry must not exceed the quantity of such raw material used at the refinery during the abstract period or periods from which the exported products were produced. The quantity of raw material to be designated as the basis for drawback on exported products must be at least as great as the quantity of raw material which would be required to produce the exported products in the quantities exported.

M. Agreements

The manufacturer or producer specifically agrees that it will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its refinery and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

[1] Exports.

[2] Drawback deliveries.

A—Crude allowed (column 20: 107,636 bbls. (106,594 for export, plus 1,042 for drawback deliveries)).

B—Total quantity exported (including drawback deliveries) (column 22): 146,996.

C—Largest quantity of raw material needed to produce an individual exported product (*see* column 24): 151,347.

D—The excess of raw material over the largest of lines A, B, or C, required to produce concurrently on a practical operating basis, using the most efficient processing equipment existing within the domestic industry, the exported articles (including drawback deliveries) in the quantities exported (or delivered): None.

E—Minimum quantity of raw material required to be designated (which is A, B, or C, whichever is largest, plus D, if applicable): 151,347 bbs.

I hereby certify that all the above drawback deliveries and products exported by the Beaumont refinery of ABC Oil Co., Inc. during the period from January 1, 2019 to January 31, 2019, could have been produced concurrently on a practical operating basis from 151,347 barrels of imported Class III crude against which drawback is claimed.

The attached sample, **EXHIBIT E (COMBINATION)**, illustrates the procedures to be followed when two classes or types of raw material are designated on a given abstract. For purposes of illustration it is assumed that the refiner has only 100,000 barrels of Class III crude to designate, but adequate supplies of Class II to designate.

In addition, please note that the computation of drawback on **EXHIBIT D** will be as follows:

Duty paid on raw material selected for designation:

$.1050 per barrel (Class III crude)
$.0525 per barrel (Class II crude)

Amount of drawback claimed- gross: 81,638 x .1050=$8,571.99
24,956 x .0525= $1,310.19
$9,882.18
(Rounded off) 9,882
Less 1% -99
Amount of drawback claimed- net: $9,783

EXHIBIT F—DESIGNATIONS FOR DRAWBACK CLAIM, ABC OIL CO., INC.; BEAUMONT, TEXAS REFINERY

[Period from January 1, 2019 to January 31, 2019]

Entry No.	Date of importation	Kind of materials	Quantity of materials in barrels	Date received	Date consumed	Rate of duty

X. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR PIECE GOODS (T.D. 83–73)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free or domestic merchandise classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
Piece goods.	Piece goods.

The piece goods used in manufacture will be classifiable under the same 8-digit HTSUS classification as the piece goods designated as the basis of claim for drawback, and are used interchangeably without change in manufacturing processes or resultant products (including, if applicable, multiple products), or wastes. Some tolerances between imported-designated piece goods and the used-exported piece goods will be permitted to accommodate variations which are normally found in piece goods. These tolerances are no greater than the tolerances generally allowed in the industry for piece goods classifiable under the same 8-digit HTSUS classification as follows:

1. A 4% weight tolerance so that the piece goods used in manufacture will be not more than 4% lighter or heavier than the imported piece goods which will be designated;

2. A tolerance of 4% in the aggregate thread count per square inch so that the piece goods used in manufacture will have an aggregate thread count within 4%, more or less of the aggregate thread count of the imported piece goods which will be designated. In each case, the average yarn number of the domestic piece goods will be the same or greater than the average yarn number of the imported piece goods designated, and in each case, the substitution and tolerance will be employed only within the same family of fabrics, *i.e.,* print cloth for print cloth, gingham for gingham, greige for greige, dyed for dyed, bleached for bleached, etc. The piece goods used in manufacture of the exported articles will be designated as containing the identical percentage of identical fibers as the piece goods designated as the basis for allowance of drawback; for example, piece goods containing 65% cotton and 35% dacron will be designated against the use of piece goods shown to contain 65% cotton and 35% dacron. The actual fiber composition may vary slightly from that described on the invoice or other acceptance of the fabric as having the composition described on documents in accordance with trade practices.

B. Exported Articles on Which Drawback Will Be Claimed

Finished piece goods.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s. 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

Piece goods are subject to any one of the following finishing productions:

1. Bleaching,
2. Mercerizing,
3. Dyeing,
4. Printing,
5. A combination of the above, or
6. Any additional finishing processes.

E. Multiple Products

Not applicable.

F. Waste

Rag waste may be incurred. No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer must show the quantity of rag waste, if any, and its value. In instances where rag waste occurs and it is impractical

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under 19 U.S.C. 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

to account for the actual quantity of rag waste incurred, it may be assumed that such rag waste constituted 2% of the piece goods put into the finishing processes. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such waste records must also be kept.

G. Shrinkage, Gain, and Spoilage

Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer must show the yardage lost by shrinkage or gained by stretching during manufacture or production, and the quantity of remnants resulting and of spoilage incurred, if any. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such records for shrinkage, gain and spoilage will also be kept.

H. [Reserved]

I. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity and 8-digit HTSUS classification of the designated merchandise;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise[2] used to produce the exported articles;

3. That, within 5 years after the date of importation of the designated merchandise, the manufacturer or producer used the merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of eligible piece goods used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible piece goods that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste from each lot of piece goods, drawback may be claimed on the quantity of eligible piece goods used to produce the exported articles less the amount of piece goods which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

XI. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR RAW SUGAR (T.D. 83–59)

Drawback may be allowed under 19 U.S.C. 1313(b) upon the exportation of hard or soft refined sugars and sirups manufactured from raw sugar, subject to the following special requirements:

A. The drawback allowance must not exceed an amount calculated pursuant to regulations prescribed by the Secretary of the Treasury, of the duties, taxes, and fees paid on a quantity of raw sugar designated by the

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

refiner which contains a quantity of sucrose not in excess of the quantity required to manufacture the exported sugar or sirup, ascertained as provided in this general rule.

B. The refined sugars and sirups must have been manufactured with the use of duty-paid, duty-free, or domestic sugar, or combinations thereof, within 5 years after the date of importation, and must have been exported within 5 years from the date of importation of the designated sugar.

C. All granulated sugar testing by the polariscope 99.5 [degrees] and over will be deemed hard refined sugar. All refined sugar testing by the polariscope less than 99.5 [degrees] will be deemed soft refined sugar. All ''blackstrap,'' ''unfiltered sirup,'' and ''final molasses'' will be deemed sirup.

D. The imported duty-paid sugar selected by the refiner as the basis for the drawback claim (designated sugar) must be classifiable under the same 8-digit HTSUS classification as that used in the manufacture of the exported refined sugar or sirup and must have been used within 5 years after the date of importation. Duty-paid sugar which has been used at a plant of a refiner within 5 years after the date on which it was imported by such refiner may be designated as the basis for the allowance of drawback on refined sugars or sirups manufactured at another plant of the same refiner.

E. For the purpose of distributing the drawback, relative values must be established between hard refined (granulated) sugar, soft refined (various grades) sugar, and sirups at the time of separation. The entire period covered by an abstract will be deemed the time of separation of the sugars and sirups covered by such abstract.

F. The sucrose allowance per pound on hard refined (granulated) sugar established by an abstract, as provided for in this general ruling, will be applied to hard refined sugar commercially known as loaf, cut loaf, cube, pressed, crushed, or powdered sugar manufactured from the granulated sugar covered by the abstract.

G. The sucrose allowance per gallon on sirup established by an abstract, as provided for in this general ruling, will be applied to sirup further advanced in value by filtration or otherwise, unless such sirup is the subject of a special manufacturing drawback ruling.

H. As to each lot of imported or domestic sugar used in the manufacture of refined sugar or sirup on which drawback is to be claimed, the raw stock records must show the refiner's raw lot number, the number and character of the packages, the settlement weight in pounds, the settlement polarization, and the 8-digit HTSUS classification. Such records covering imported sugar must show, in addition to the foregoing, the import entry number, date of importation, name of importing carrier, country of origin, the Government weight, and the Government polarization.

I. The melt records must show the date of melting, the number of pounds of each lot of raw sugar melted, and the full analysis at melting.

J. There must be kept a daily record of final products boiled showing the date of the melt, the date of boiling, the magma filling serial number, the number of the vacuum pan or crystallizer filling, the date worked off, and the sirup filling serial number.

K. The sirup manufacture records must show the date of boiling, the period of the melt, the sirup filling serial number, the number of barrels in the filling, the magma filling serial number, the quantity of sirup, its disposition in tanks or barrels and the refinery serial manufacture number.

L. The refined sugar stock records must show the refinery serial manufacture number, the period of the melt, the date of manufacture, the grade of sugar produced, its polarization, the number and kind of packages, and the net weight. When soft sugars are manufactured, the commercial grade number and quantity of each must be shown.

M. Each lot of hard or soft refined sugar and each lot of sirup manufactured, regardless of the character of the containers or vessels in which it is packed or stored, must be marked immediately with the date of manufacture and the refinery manufacture number applied to it in the refinery records provided for and shown in the abstract, as provided for in this general ruling, from such records. If all the sugar or sirup contained in any lot manufactured is not intended for exportation, only such of the packages as are intended for exportation need be marked as prescribed above, provided there is filed with the drawback office immediately after such marking a statement showing the date of manufacture, the refinery manufacture number, the number of packages marked, and the quantity of sugar or sirup contained therein. No drawback will be allowed in such case on any sugar or sirup in excess of the quantity shown on the statement as having been marked. If any packages of sugar or sirup so marked are repacked into other containers, the new containers must be marked with the marks which appeared on the original containers and a revised statement covering such repacking and remarking must be filed with the drawback office. If sirups from more than one lot are stored in the same tank, the refinery records must show the refinery manufacture number and the quantity of sirup from each lot contained in such tank.

N. An abstract from the foregoing records covering manufacturing periods of not less than 1 month nor more than 3 months, unless a different period will have been authorized, must be filed when drawback is to be claimed on any part of the refined sugar or sirup manufactured during such period. Such

abstract must be filed by each refiner with the drawback office where drawback claims are filed on the basis of this general ruling. Such abstract must consist of: (1) A raw stock record (accounting for Refiner's raw lot No., Import entry No., Packages No. and kind, Pounds, Polarization, By whom imported or withdrawn, Date of importation, Date of receipt by refiner, Date of melt, Importing carrier, Country of origin); (2) A melt record [number of pounds in each lot melted] (accounting for Lot No. Pounds, and Polarization degrees and pounds sucrose); (3) Sirup stock records (accounting for Date of boiling, Refinery serial manufacture No., Quantity of sirup in gallons, and Pounds sucrose contained therein); (4) Refined sugar stock record (accounting for Refinery serial production No., Date of manufacture, Hard or soft refined, Polarization and No., Net weight in pounds); (5) Recapitulation (consisting of (in pounds): (a) Sucrose in process at beginning of period, (b) sucrose melted during period, (c) sucrose in process at end of period, (d) sucrose used in manufacture, and (e) sucrose contained in manufacture, in which item (a) plus item (b), minus item (c), should equal item (d)); and (6) A statement as follows:

I, _____, the _____ refiner at the _____ refinery of _____, located at _____, do solemnly and truly declare that each of the statements contained in the foregoing abstract is true to the best of my knowledge and belief and can be verified by the refinery records, which have been kept in accordance with Treasury Decision 83–59 and Appendix A of 19 CFR part 190 and which are at all times open to the inspection of CBP.

Date _____

Signature _____

O. The refiner must file with each abstract a statement, showing the average market values of the products specified in the abstract and including a statement as follows: I, _____, (Official capacity) of the _____ (Refinery), do solemnly and truly declare that the values shown above are true to the best of my knowledge and belief, and can be verified by our records.

Date _____

Signature _____

P. At the end of each calendar month the refiner must furnish to the drawback office a statement showing the actual sales of sirup and the average market values of refined sugars for the calendar month.

Q. The sucrose allowance to be applied to the various products based on the abstract and statement provided for in this general ruling will be in accordance with the example set forth in Treasury Decision 83–59.

R. [Reserved]

S. Drawback entries under this general ruling must state the polarization in degrees and the sucrose in pounds for the designated imported sugar. Drawback claims under this general ruling must include a statement as follows:

I, _____, the _____ of _____, located at _____ declare that the sugar (or sirup) described in this entry, was manufactured by said company at its refinery at _____ and is part of the sugar (or sirup) covered by abstract No. ____, filed at the port of _____; that, subject to 19 U.S.C. 1508 and 1313(t), the refinery and other records of the company verifying the statements contained in said abstract are now and at all times hereafter will be open to inspection by CBP. I further declare that the above-designated imported sugar (upon which the duties have been paid) was received by said company on _____ and was used in the manufacture of sugar and sirup during the period covered by abstract No. ____, CBP No. ____, on file with the port director at _____. I further declare that the sugar or sirup specified therein was exported as stated in the entry.

Date _____

Signature _____

T. General Statement. The refiner manufactures or produces for its own account. The refiner may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the refiner's account under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

U. Waste. No drawback is payable on any waste which results from the manufacturing operation. Unless drawback claims are based on the ''appearing in'' method, records will be maintained to establish the value (or the lack of value), quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

V. Loss or Gain. The refiner will maintain records showing the extent of any loss or gain in net weight or measurement of the sugar caused by atmospheric conditions, chemical reactions, or other factors.

W. [Reserved]

X. Procedures and Records Maintained.

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity and 8-digit HTSUS classification of the designated merchandise;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise[1] used to produce the exported articles; and

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence

Continued

3. That, within 5 years of the date of importation of the designated merchandise, the refiner used the designated merchandise to produce articles. During the same 5-year period, the refiner produced[2] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

Y. General requirements. The refiner will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

XII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR STEEL (T.D. 81–74)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free or domestic merchandise classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
Steel of one general class, e.g., an ingot, falling within on SAE, AISI, or ASTM[2] specification and, if the specification contains one or more grades, falling within one grade of the specification.	Steel of the same general class, specification, and grade as the steel in the column immediately to the left hereof.

1. The duty-paid, duty-free, or domestic steel used instead of the imported, duty-paid steel (or drawback products) will be interchangeable for manufacturing purposes with the duty-paid steel. To be interchangeable a steel must be able to be used in place of the substituted steel without any additional processing step in the manufacture of the article on which drawback is to be claimed.

2. Because the duty-paid steel (or drawback products) that is to be designated as the basis for drawback is dutiable according to its value, the amount of duty can vary with its size (gauge, width, or length) or composition (e.g., chrome content). If such variances occur, designation will be by ''price extra,'' and in no case will drawback be claimed in a greater amount than that which would have accrued to that steel used in manufacture of or appearing in the exported articles. Price extra is not available for coated or plated steel, covered in paragraph 4, infra, insofar as the coating or plating is concerned.

3. If the steel is coated or plated with a base metal, in addition to meeting the requirements for uncoated or unplated steel set forth in the Parallel Columns, the base-metal coating or plating on the duty-paid,

should read ''appearing in the exported articles produced.''

[2]The date of production is the date an article is completed.

[1]Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

[2]Standards set by the Society of Automotive Engineers (SAE), the American Iron and Steel Institute (AISI), or the American Society for Testing and Materials (ASTM).

duty-free, or domestic steel used in place of the duty-paid steel (or drawback products) will have the same composition and thickness as the coating or plating on the duty-paid steel. If the coated or plated duty-paid steel is within an SAE, AISI, ASTM specification, then any duty-paid, duty-free, or domestic coated or plated steel must be covered by the same specification and grade (if two or more grades are in the specification).

B. Exported Articles on Which Drawback Will Be Claimed

The exported articles will have been manufactured in the United States using steels described in the Parallel Columns above.

C. General Statement

The manufacturer or producer manufactures or produces for its own account.

The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The steel described in the Parallel Columns will be used to manufacture or produce articles in accordance with §190.2.

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of steel appearing in the exported articles, records will be maintained to establish the value (or the lack of value), quantity, and disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

G. Loss or Gain

The manufacturer or producer will maintain records showing the extent of any loss or gain in net weight or measurement of the steel caused by atmospheric conditions, chemical reactions, or other factors.

H. [Reserved]

I. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity and 8-digit HTSUS classification of the designated merchandise;

2. The quantity of merchandise of the designated merchandise[3] used to produce the exported articles;

3. That, within 5 years of the date of importation of the designated merchandise, the manufacturer or producer used the merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced[4] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained.'' If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of steel used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible steel that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste from each lot of steel, drawback may be claimed on the quantity of eligible steel used to produce the exported articles less the amount of that steel which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;

[3] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[4] The date of production is the date an article is completed.

4. Keep its letter of notification to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

XIII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B) FOR SUGAR (T.D. 81–92)

A. Same 8-Digit HTSUS Classification (Parallel Columns)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free or domestic merchandise classifiable under the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
1. Granulated or liquid sugar for manufacturing, containing sugar solids of not less than 99.5 sugar degrees.	1. Granulated or liquid sugar for manufacturing, containing sugar solids of less than 99.5 sugar degrees.
2. Granulated or liquid sugar for manufacturing, containing sugar solids of not less than 99.5 sugar degrees.	2. Granulated or liquid sugar for manufacturing, containing sugar solids of less than 99.5 sugar degrees.

The sugars listed above test within three-tenths of a degree on the polariscope. Sugars in each column are completely interchangeable with the sugars directly opposite and designation will be made on this basis only. The designated sugar on which claims for drawback will be based will be classifiable under the same 8-digit HTSUS classification.

B. Exported Articles on Which Drawback Will Be Claimed

Edible substances (including confectionery) and/or beverages and/or ingredients therefor.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The sugars are subjected to one or more of the following operations to form the desired product(s):

1. Mixing with other substances,
2. Cooking with other substances,
3. Boiling with other substances,
4. Baking with other substances,
5. Additional similar processes.

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of sugar appearing in the exported articles, records will be maintained to establish the value (or the lack of value), quantity, disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

G. Loss or Gain

The manufacturer or producer will maintain records showing the extent of any loss or gain in net weight or measurement of the sugar caused by atmospheric conditions, chemical reactions, or other factors.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

H. [Reserved]

I. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. The identity and 8-digit HTSUS classification of the designated merchandise;
2. The quantity of merchandise classifiable under the same 8-digit HTSUS classification as the designated merchandise[2] used to produce the exported articles;
3. That, within 5 years of the date of importation of the designated merchandise, the manufacturer or producer used the merchandise to produce articles. During the same 5-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer, will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained.'' If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of sugar used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible sugar that appears in the exported articles regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles less the amount of that sugar which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;
2. Open its factory and records for examination at all reasonable hours by authorized Government officers;
3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;
4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation;
5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and
6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this general ruling.

XIV. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(A) FOR WOVEN PIECE GOODS (T.D. 83–84)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of bleached, mercerized, printed, dyed, or redyed piece goods manufactured or produced by any one or a combination of the foregoing processes with the use of imported woven piece goods, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (woven piece goods) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed must be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (*see* §190.9).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §190.2.

The piece goods used in manufacture or production under this general manufacturing drawback ruling may also be subjected to one or more finishing processes. Drawback will not be allowed under this general manufacturing drawback ruling when the process performed results only in the restoration of the merchandise to its condition at the time of importation.

E. Multiple Products

Not applicable.

F. Waste

Rag waste may be incurred. No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer must show the quantity of rag waste, if any, its value, and its disposition. If no waste results, records will be maintained to establish that fact. In instances where rag waste occurs and it is impractical to account for the actual quantity of rag waste incurred, it may be assumed that such rag waste constituted 2% of the woven piece goods put into process. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such waste records will also be kept.

G. Shrinkage, Gain, and Spoilage

Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer must show the yardage lost by shrinkage or gained by stretching during manufacture, and the quantity of remnants resulting and of spoilage incurred, if any. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such records for shrinkage, gain, and spoilage will also be kept.

H. Procedures and Records Maintained

Records, which may include records kept in the normal course of business, will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by CBP during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer must show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 190 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of all legal requirements, drawback cannot be paid.

The records of the manufacturer or producer must show, as to each lot of piece goods manufactured or produced for exportation with benefit of drawback, the lot number and the date or inclusive dates of manufacture or production, the quantity, identity, value, and 8-digit HTSUS classification of the imported (or drawback product) piece goods used, the condition in which imported or received (whether in the gray, bleached, dyed, or mercerized), the working allowance specified in the contract under which they are received, the process or processes applied thereto, and the quantity and description of the piece goods obtained. The records must also show the yardage lost by shrinkage or gained by stretching during manufacture or production, and the quantity of remnants resulting and of spoilage incurred.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace. (If remnants and/or

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

spoilage occur during manufacture or production, the quantity of imported merchandise used will be determined by deducting from the quantity of piece goods received and put into manufacture or production the quantity of such remnants and/or spoilage. The remaining quantity will be reduced by the quantity thereof which the value of the rag waste, if any, would replace.)

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;
2. Open its factory and records for examination at all reasonable hours by authorized Government officers;
3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this general ruling;
4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix (I. General Instructions, 1 through 10), the corporate name, or corporate organization by succession or reincorporation.
5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and
6. Issue instructions to insure proper compliance with 19 U.S.C. 1313, part 190 of the CBP Regulations and this general ruling.

APPENDIX B TO PART 190—SAMPLE FORMATS FOR APPLICATIONS FOR SPECIFIC MANUFACTURING DRAWBACK RULINGS

TABLE OF CONTENTS

I. GENERAL

Applications for specific manufacturing drawback rulings using these sample formats must be submitted to, reviewed, and approved by CBP Headquarters. *See* 19 CFR 190.8(d). Applications must be submitted electronically to *HQDrawback@cbp.dhs.gov*. In these application formats, remarks in parentheses and footnotes are for explanatory purposes only and should not be copied. Other material should be quoted directly in the applications.

II. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(A) AND 1313(B) (COMBINATION).

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Entry Process and Duty Refunds, Regulations and Rulings, Office of Trade, 90 K Street NE—10th Floor (Mail Stop 1177), Washington, DC 20229–1177.

Dear Sir or Madam: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, §§1313(a) & (b), and part 190 of the CBP Regulations. We request that CBP authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 190.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback must apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §190.7 of the CBP Regulations. CBP will not approve an application which shows an unincorporated division or company as the applicant (*see* §190.8(a)).)

LOCATION OF FACTORY

(Provide the address of the factory(s) where the process of manufacture or production will take place. Indicate if the factory is a different legal entity from the applicant, and indicate if operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 190.6 of the CBP Regulations permits only the president, vice president, secretary, treasurer, and any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a customs power of attorney for the company may sign. A customs power of attorney may also be given to a licensed customs broker. This heading should be changed to Names of Partners or Proprietor in the case of a partnership or sole proprietorship, respectively (*see*

footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

GENERAL STATEMENT

(The following questions must be answered:)

1. Who will be the importer of the designated merchandise?

(If the applicant will not always be the importer of the designated merchandise, specify that the applicant understand its obligations to maintain records to support the transfer under §190.10, and its liability under §190.63.)

2. Will an agent be used to process the designated or the substituted merchandise into articles?

(If an agent is to be used, the applicant must state it will comply with T.D.s 55027(2) and 55207(1) and §190.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (*see* §190.7 and Appendix A) or an application for a specific manufacturing drawback ruling (*see* §190.8 and this Appendix B).)

3. Will the applicant be the exporter? (If the applicant will not be the exporter in every case, but will be the claimant, the manufacturer must state that it will reserve the right to claim drawback with the knowledge and written consent of the exporter (19 CFR 190.82).)

PROCEDURES UNDER SECTION 1313(b) (PARALLEL COLUMNS—SAME 8-DIGIT CLASSIFICATION)

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free, or domestic merchandise, of the same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
1.	1.
2.	2.
3.	3.

(Following the items listed in the Parallel Columns, the applicant must make a statement affirming the same 8-digit HTSUS classification of the merchandise. This statement should be included in the application exactly as it is stated below:)

The imported merchandise designated in our claims will be classifiable under the same 8-digit HTSUS classification as the merchandise used in producing the exported articles on which we claim drawback.

(In order to successfully claim drawback it is necessary to prove that the duty-paid, duty-free, or domestic merchandise, which is to be substituted for the imported merchandise, is classifiable under the same 8-digit HTSUS classification. To enable CBP to rule on the same 8-digit HTSUS classification, the application must include a detailed description of the designated imported merchandise and of the substituted duty-paid, duty-free, or domestic merchandise to be used to produce the exported articles. The application must also include the Bill of Materials and/or formulas annotated with the HTSUS classifications.)

(It is essential that all the characteristics which determine the identity of the merchandise are specified in the application in order to substantiate that the merchandise meets the the same 8-digit HTSUS classification statutory requirement. These characteristics should clearly distinguish merchandise of different identities.)

(The descriptions should be sufficient to classify the merchandise in the same 8-digit HTSUS subheading number included in the Parallel Columns. The left-hand column will consist of the name and the 8-digit HTSUS subheading number of the imported merchandise. The right-hand column will consist of the name and the 8-digit HTSUS subheading number for the duty-paid, duty-free, or domestic designated merchandise. Amendments to rulings will be required if any changes to the HTSUS classifications occur.)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name, state what the product is (e.g., a herbicide). There must be a match between each article described under the

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

PROCESS OF MANUFACTURE OR PRODUCTION section below and each article listed here.)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(b) is not allowable except where a manufacture or production exists. Manufacture or production is defined, for drawback purposes, in §190.2. In order to obtain drawback under §1313(b), it is essential for the applicant to show use in manufacture or production by providing a thorough description of the manufacturing process. This description should include the name and exact condition of the merchandise listed in the Parallel Columns, a complete explanation of the processes to which it is subjected in this country, the effect of such processes, the name and exact description of the finished article, and the use for which the finished article is intended. When applicable, include equations of any chemical reactions. Including a flow chart in the description of the manufacturing process is an excellent means of illustrating how a manufacture or production occurs. Flow charts can clearly illustrate if and at what point during the manufacturing process by-products and wastes are generated.)

(This section should contain a description of the process by which each item of merchandise listed in the Parallel Columns above is used to make or produce every article that is to be exported.)

MULTIPLE PRODUCTS

1. Relative Values

(Some processes result in the separation of the merchandise into two or more products. If applicable, list all of the products. State that you will record the market value of each product at the time it is first separated in the manufacturing process. If this section is not applicable to you, then state so.)

(Drawback law mandates the assignment of relative values when two or more products are necessarily produced in the same operation. For instance, the refining of flaxseed necessarily produces linseed oil and linseed husks (animal feed), and drawback must be distributed to each product in accordance with its relative value. However, the voluntary election of a steel fabricator, for instance, to use part of a lot of imported steel to produce automobile doors, and part of the lot to produce automobile fenders, does not call for relative value distribution.)

(The relative value of a product is its value divided by the total value of all products, whether or not exported. For example, 100 gallons of drawback merchandise are used to produce 100 gallons of products, including 60 gallons of product A, 20 gallons of product B, and 20 gallons of product C. At the time of separation, the unit values of products A, B, and C are $5, $10, and $50 respectively. The relative value of product A is $300 divided by $1,500 or 1/5. The relative value of B is 3/15 and of product C is 2/3, calculated in the same manner. This means that 1/5 of the drawback product payments will be distributed to product A, 3/15 to product B, and 2/3 to product C.)

(Drawback is allowable on exports of any of multiple products, but is not permitted on exports of valuable waste. In making this distinction between a product and valuable waste, the applicant should address the following significant elements: (1) The nature of the material of which the residue is composed; (2) the value of the residue as compared to the value of the principal manufactured product and the raw material; (3) the use to which it is put; (4) its status under the tariff laws, if imported; (5) whether it is a commodity recognized in commerce; (6) whether it must be subjected to some process to make it saleable.)

2. Producibility

(Some processes result in the separation of fixed proportions of each product, while other processes afford the opportunity to increase or decrease the proportion of each product. An example of the latter is petroleum refining, where the refiner has the option to increase or decrease the production of one or more products relative to the others. State under this heading whether you can or cannot vary the proportionate quantity of each product.)

(The MULTIPLE PRODUCTS section consists of two sub-sections: Relative Values and Producibility. If multiple products do not result from your operation state ''Not Applicable'' for the entire section. If multiple products do result from your operation Relative Values will always apply. However, Producibility may or may not apply. If Producibility does not apply to your multiple product operation state ''Not Applicable'' for this sub-section.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a statement to that effect.)

(If waste occurs, state: (1) Whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based

on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what basis you are using.)

(If you recover valuable waste and you choose to claim on the basis of the quantity of merchandise used in producing the exported articles (less any valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. *See* ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in'' or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that merchandise is considered to be used in manufacture at the time it was originally processed, so that the stock in process will not be included twice in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. If applicable, state the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured by weight unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. The identity and 8-digit HTSUS subheading number of the merchandise we designate;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS subheading number as the designated merchandise[2] we used to produce the exported articles;

3. That, within 5 years after the date of importation, we used the designated merchandise to produce articles. During the same 5-year period, we produced[3] the exported articles.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by CBP during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations as discussed under the heading ''PROCEDURES AND RECORDS MAINTAINED''. To insure compliance the following areas, as applicable, should be included in your discussion:)

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

[3] The date of production is the date an article is completed.

RECEIPT AND STORAGE OF DESIGNATED MERCHANDISE

RECORDS OF USE OF DESIGNATED MERCHANDISE

BILLS OF MATERIALS

MANUFACTURING RECORDS

WASTE RECORDS

RECORDS OF USE OF DUTY-PAID, DUTY-FREE OR DOMESTIC MERCHANDISE OF THE REQUIRED SAME 8-DIGIT HTSUS SUBHEADING NUMBER WITHIN 5 YEARS AFTER THE DATE OF IMPORTATION

FINISHED STOCK STORAGE RECORDS

SHIPPING RECORDS

(Proof of time frames may be specific or inclusive, e.g., within 120 days, but specific proof is preferable. Separate storage and identification of each article or lot of merchandise usually will permit specific proof of exact dates. Proof of inclusive dates of use, production or export may be acceptable, but in such cases it is best to describe very specifically the data you intend to use to establish each legal requirement, thereby avoiding misunderstandings at the time of audit.) (If you do not describe the inventory records that you will use, you must state: ''All legal requirements will be met by our inventory procedures.'' However, it should be noted that without a detailed description of the inventory procedures set forth in the application, a judgment as to the adequacy of such a statement cannot be made until a drawback claim is verified. Approval of this application for a specific manufacturing drawback ruling merely constitutes approval of the ruling application as submitted; it does not constitute approval of the applicant's recordkeeping procedures if those procedures are solely described as meeting the legal requirements, without specifically stating how the requirements will be met. Drawback is not payable without proof of compliance.)

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) appearing in; and (3) used in less valuable waste.)

(The ''used in'' basis may be employed only if there is either no waste, or the waste is valueless or unrecovered. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''used in'' basis. Drawback is payable in the amount of 99 percent of the duties, taxes, and fees, paid on the quantity of imported material designated as the basis for the allowance of drawback on the exported articles. The designated quantity may not exceed the quantity of material actually used in the manufacture of the exported articles.) (For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duties, taxes, and fees paid on the 100 pounds of designated material used to produce the exported articles.)

(The ''appearing in'' basis may be used regardless of whether there is waste. If the ''appearing in'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''appearing in'' basis. Drawback is payable on 99 percent of the duties, taxes, and fees paid on the quantity of material designated, which may not exceed the quantity of eligible material that appears in the exported articles. ''Appearing in'' may not be used if multiple products are involved.)

(Based on the previous example, drawback would be payable on the 90 pounds of merchandise which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)

(The ''used in less valuable waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''used in less valuable waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duties, taxes, and fees, paid on the quantity of merchandise used in the manufacture, as reduced by the quantity of such merchandise which the value of the waste would replace. In such a case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 190.26(c) of the CBP Regulations.)

(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the designated material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duties, taxes, and fees paid on the 95 pounds of imported material designated as the basis for the allowance of drawback on the exported article rather than on the 100 pounds ''used in'' or the 90 pounds ''appearing in'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount of material that is needed to produce a unit of product before the material is actually used in production.)

(An ''abstract'' is the summary of the records which shows the total quantity of merchandise used in producing all articles during the period covered by the abstract. The abstract looks at a period of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back at how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate a ''schedule'' choice must base its claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by Schedule follows:)

We will claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 190.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''appearing in'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

PROCEDURES UNDER SECTION 1313(a)

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS USED UNDER 1313(a)

(List the imported merchandise or drawback products.)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name state what the product is, e.g., a herbicide. There must be a match between each article described under the PROCESS OF MANUFACTURE AND PRODUCTION section below and each article listed here.)

(If the merchandise used under §1313(a) is not also used under §1313(b), the sections entitled PROCESS OF MANUFACTURE OR PRODUCTION, BY-PRODUCTS, LOSS OR GAIN, and STOCK IN PROCESS should be included here to cover merchandise used under §1313(a). However, if the merchandise used under §1313(a) is also used under §1313(b) these sections need not be repeated unless they differ in some way from the §1313(b) descriptions.)

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise, and

2. The quantity of imported merchandise[4] we used in producing the exported articles.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(This section must be completed separately from that set forth under the §1313(b) portion of your application. The legal requirements under §1313(a) differ from those under §1313(b).) (Describe your inventory procedures and state how you will identify the imported merchandise from date of importation until it is incorporated in the articles to be exported. Also describe how you will identify the finished articles from the time of manufacture until shipment.)

BASIS OF CLAIM FOR DRAWBACK

(*See* section with this title for procedures under §1313(b). Either repeat the same basis of claim or use a different basis of claim, as described above, specifically for drawback claimed under §1313(a).)

AGREEMENTS

The Applicant specifically agrees that it will:

[4] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles we produce.''

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §190.9 or the identity of an agent under that section, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to CBP Headquarters all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by CBP Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this ____ day of _____ 20____, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[5] _____

(Signature and Title)

_____

(Print Name)

III. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(B)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Entry Process and Duty Refunds Branch, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of Trade, 90 K Street NE—10th Floor (Mail Stop 1177), Washington, DC 20229–1177.

Dear Sir or Madam: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(b), and part 190 of the CBP Regulations. We request that CBP authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 190.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback will apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §190.7 of the CBP Regulations. CBP will not approve an application which shows an unincorporated division or company as the applicant (*see* §190.8(a)).)

LOCATION OF FACTORY

(Provide the address of the factory(s) where the process of manufacture or production will take place. Indicate if the factory is a different legal entity from the applicant, and indicate if the applicant is operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 190.6 of the CBP Regulations permits only the president, vice president, secretary, treasurer, and any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a customs power of attorney for the company may sign. A customs power of attorney may also be given to a licensed customs broker. This heading should be changed to NAMES OF

[5] Section 190.6(a) requires that applications for specific manufacturing drawback rulings be signed or electronically certified by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, an individual acting on his or her own behalf, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney may sign such an application, as may a licensed customs broker with a customs power of attorney.

PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (*see* footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

GENERAL STATEMENT

(The following questions must be answered:)

1. Who will be the importer of the designated merchandise?

(If the applicant will not always be the importer of the designated merchandise, specify that the applicant understand its obligations to maintain records to support the transfer under §190.10, and its liability under §190.63.)

2. Will an agent be used to process the designated or the substituted merchandise into articles?

(If an agent is to be used, the applicant must state it will comply with T.D.s 55027(2) and 55207(1), and §190.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (*see* §190.7 and Appendix A), or an application for a specific manufacturing drawback ruling (*see* §190.8 and this Appendix B).)

3. Will the applicant be the exporter?

(If the applicant will not be the exporter in every case, but will be the claimant, the manufacturer must state that it will reserve the right to claim drawback with the knowledge and written consent of the exporter (19 CFR 190.82).)

PARALLEL COLUMNS—''SAME 8-DIGIT HTSUS CLASSIFICATION''

Imported merchandise or drawback products[1] to be designated as the basis for drawback on the exported products.	Duty-paid, duty-free or domestic merchandise of the Same 8-digit HTSUS subheading number as that designated which will be used in the production of the exported products.
1.	1.
2.	2.
3.	3.

(Following the items listed in the Parallel Columns, the applicant must make a statement affirming the same 8-digit HTSUS subheading numberof the merchandise. This statement should be included in the application exactly as it is stated below:)

The imported merchandise designated in our claims will be classifiable under the same 8-digit HTSUS subheading number as the merchandise used in producing the exported articles on which we claim drawback, such that the merchandise used would, if imported, be subject to the same rate of duty as the designated merchandise.

(In order to successfully claim drawback it is necessary to prove that the duty-paid, duty-free, or domestic merchandise, which is to be substituted for the imported merchandise, is ''classifiable under the same 8-digit HTSUS subheading number.'' To enable CBP to rule on the proper ''same 8-digit HTSUS subheading number,'' the application must include a detailed description of the designated imported merchandise, and of the substituted duty-paid, duty-free, or domestic merchandise used to produce the exported articles. The application must also include the Bill of Materials and/or formulas annotated with the HTSUS classification.)

(It is essential that all the characteristics which determine the identity of the merchandise are provided in the application in order to substantiate that the merchandise meets the ''same 8-digit HTSUS subheading number'' statutory requirement. These characteristics should clearly distinguish merchandise of different identities.

(The descriptions of the ''same 8-digit HTSUS subheading number'' merchandise should be included in the Parallel Columns. The left-hand column will consist of the name and 8-digit HTSUS subheading number of the imported merchandise. The right-hand column will consist of the name and 8-digit HTSUS subheading number for the duty-paid, duty-free, or domestic designated merchandise. Amendments to the ruling will be required if any changes to the HTSUS classifications occur.)

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name state what the product is, e.g., a herbicide. There must be a match between each article described under the PROCESS OF MANUFACTURE AND PRODUCTION section below and each article listed here.)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(b) is not allowable except where a manufacture or production exists. Manufacture or production is defined, for drawback purposes, in §190.2. In order to obtain drawback under §1313(b), it is essential for the applicant to show use in manufacture or production by providing a thorough description of the manufacturing process. This description should include the name and exact condition of the merchandise listed in the Parallel Columns, a complete explanation of the processes to which it is subjected in this country, the effect of such processes, the name and exact description of the finished article, and the use for which the finished article is intended. When applicable, include equations of any chemical reactions. Including a flow chart in the description of the manufacturing process is an excellent means of illustrating how manufacture or production occurs. Flow charts can clearly illustrate if and at what point during the manufacturing process by-products and wastes are generated.)

(This section should contain a description of the process by which each item of merchandise listed in the Parallel Columns above is used to make or produce every article that is to be exported.)

MULTIPLE PRODUCTS

1. Relative Values

(Some processes result in the separation of the merchandise into two or more products. If applicable, list all of the products. State that you will record the market value of each product or by-product at the time it is first separated in the manufacturing process. If this section is not applicable to you, then state so.)

(Drawback law mandates the assignment of relative values when two or more products are necessarily produced in the same operation. For instance, the refining of flaxseed necessarily produces linseed oil and linseed husks (animal feed), and drawback must be distributed to each product in accordance with its relative value. However, the voluntary election of a steel fabricator, for instance, to use part of a lot of imported steel to produce automobile doors, and part of the lot to produce automobile fenders, does not call for relative value distribution.)

(The relative value of a product is its value divided by the total value of all products, whether or not exported. For example, 100 gallons of drawback merchandise are used to produce 100 gallons of products, including 60 gallons of product A, 20 gallons of product B, and 20 gallons of product C. At the time of separation, the unit values of products A, B, and C are $5, $10, and $50 respectively. The relative value of product A is $300 divided by $1,500 or 1/5. The relative value of B is 3/15 and of product C is 2/3, calculated in the same manner. This means that 1/5 of the drawback product payments will be distributed to product A, 3/15 to product B, and 2/3 to product C.)

(Drawback is allowable on exports of any of multiple products, but is not permitted on exports of valuable waste. In making this distinction between a product and valuable waste, the applicant should address the following significant elements: (1) The nature of the material of which the residue is composed; (2) the value of the residue as compared to the value of the principal manufactured product and the raw material; (3) the use to which it is put; (4) its status under the tariff laws, if imported; (5) whether it is a commodity recognized in commerce; (6) whether it must be subjected to some process to make it saleable.)

2. Producibility

(Some processes result in the separation of fixed proportions of each product, while other processes afford the opportunity to increase or decrease the proportion of each product. An example of the latter is petroleum refining, where the refiner has the option to increase or decrease the production of one or more products relative to the others. State under this heading whether you can or cannot vary the proportionate quantity of each product.)

(The MULTIPLE PRODUCTS section consists of two sub-sections: Relative Values and Producibility. If multiple products do not result from your operation state ''Not Applicable'' for the entire section. If multiple products do result from your operation Relative Values will always apply. However, Producibility may or may not apply. If Producibility does not apply to your multiple product operation, then state ''Not Applicable'' for this sub-section.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as waste. Describe any residue materials which you believe should be so treated. If no waste results, include a statement to that effect.)

(If waste occurs, state: (1) Whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis, and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered, but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what basis you are using.)

(If you recover valuable waste and if you choose to claim on the basis of the quantity of merchandise used in producing the exported articles less any valuable waste, state that you will keep records to establish the quantity and value of the waste recovered. *See* ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in'' or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that merchandise is considered to be used in manufacture at the time it was originally processed, so that the stock in process will not be included twice in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. If applicable, state the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. The identity and 8-digit HTSUS subheading number of the merchandise we designate;

2. The quantity of merchandise classifiable under the same 8-digit HTSUS subheading number as the designated merchandise[2] we used to produce the exported articles;

3. That, within 5 years after the date of importation, we used the designated merchandise to produce articles. During the same 5-year period, we produced[3] the exported articles;

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by CBP during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

[3] The date of production is the date an article is completed.

recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 190 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To help ensure compliance the following areas, as applicable, should be included in your discussion:)

RECEIPT AND STORAGE OF DESIGNATED MERCHANDISE

RECORDS OF USE OF DESIGNATED MERCHANDISE

BILLS OF MATERIALS

MANUFACTURING RECORDS

WASTE RECORDS

RECORDS OF USE OF DUTY-PAID, DUTY-FREE OR DOMESTIC MERCHANDISE OF THE REQUIRED SAME 8-DIGIT HTSUS SUBHEADING WITHIN 5 YEARS AFTER IMPORTATION OF THE DESIGNATED MERCHANDISE

FINISHED STOCK STORAGE RECORDS

SHIPPING RECORDS

(Proof of time frames may be specific or inclusive, e.g., within 120 days, but specific proof is preferable. Separate storage and identification of each article or lot of merchandise usually will permit specific proof of exact dates. Proof of inclusive dates of use, production or export may be acceptable, but in such cases it is better to describe very specifically the data you intend to use to establish each legal requirement, thereby avoiding misunderstandings at the time of audit.)

(If you do not describe the inventory records that you will use, you must state: ''All legal requirements will be met by our inventory procedures.'' However, it should be noted that without a detailed description of the inventory procedures set forth in the application, a judgment as to the adequacy of such a statement cannot be made until a drawback claim is verified. Approval of this application for a specific manufacturing drawback ruling merely constitutes approval of the ruling application as submitted; it does not constitute approval of the applicant's recordkeeping procedures if those procedures are solely described as meeting the legal requirements, without specifically stating how the requirements will be met. Drawback is not payable without proof of compliance.)

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) appearing in; and (3) used in less valuable waste.)

(The ''used in'' basis may be employed only if there is either no waste, or the waste is valueless or unrecovered. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''used in'' basis. Drawback is payable in the amount of 99 percent of the duties, taxes, and fees, paid on the quantity of imported material designated as the basis for the allowance of drawback on the exported articles. The designated quantity may not exceed the quantity of material actually used in the manufacture of the exported articles.)

(For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duties, taxes, and fees, paid on the 100 pounds of designated material used to produce the exported articles.)

(The ''appearing in'' basis may be used regardless of whether there is waste. If the ''appearing in'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''appearing in'' basis. Drawback is payable on 99 percent of the duties, taxes, and fees paid on the quantity of material designated, which may not exceed the quantity of eligible material that appears in the exported articles. ''Appearing in'' may not be used if multiple products are involved.)

(Based on the previous example, drawback would be payable on the 90 pounds of merchandise which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)

(The ''used in less valuable waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''used in less valuable waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duties, taxes, and fees paid on the quantity of merchandise used in the manufacture, as reduced by the quantity of such merchandise which the value of the waste would replace. In such a case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 190.26(c) of the CBP Regulations.)

(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the designated material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duties, taxes, and fees paid on the 95 pounds of imported material designated as the basis for the allowance of drawback on the exported article rather than on the 100 pounds ''used in'' or the 90 pounds ''appearing in'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages, or by actual weights and measurements. A schedule determines the amount of material that is needed to produce a unit of product, before the material is actually used in production.)

(An ''abstract'' is the summary of the records which shows the total quantity of merchandise used in producing all articles during the period covered by the abstract. The abstract looks at a period of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back at how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base its claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by Schedule would read:)

We will claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 190.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''appearing in'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §190.9 or the identity of an agent under that section, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to CBP Headquarters, all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by CBP Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this application and letter of approval.

Declaration of Official

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this ____ day of _____ 20 ___, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By [4] _____

[4] Section 190.6(a) requires that applications for specific manufacturing drawback rulings be signed or electronically certified by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship,

(Signature and Title)

(Print Name)

IV. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(D)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Entry Process and Duty Refunds Branch, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of Trade, 90 K Street NE—10th Floor (Mail Stop 1177), Washington, DC 20229–1177.

Dear Sir or Madam: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(d), and part 190 of the CBP Regulations. We request that CBP authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 190.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback must apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §190.7 of the CBP Regulations. CBP will not approve an application which shows an unincorporated division or company as the applicant (*see* §190.8(a)).)

LOCATION OF FACTORY

(Provide the address of the factory(s) where the process of manufacture or production will take place. Indicate if the factory is a different legal entity from the applicant, and indicate if the applicant is operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 190.6 of the CBP Regulations permits only the president, vice president, secretary, treasurer, and any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a customs power of attorney for the company may sign. A customs power of attorney may also be given to a licensed customs broker. This heading should be changed to NAMES OF PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (*see* footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

GENERAL STATEMENT

(The exact material placed under this heading in individual cases will vary, but it should include such information as the type of business in which the manufacturer is engaged, whether the manufacturer is manufacturing for its own account or is performing the operation on a toll basis (including commission or conversion basis) for the account of others, whether the manufacturer is a direct exporter of its products or sells or delivers them to others for export, and whether drawback will be claimed by the manufacturer or by others.)

(If an agent is to be used, the applicant must state it will comply with T.D.s 55027(2) and 55207(1), and §190.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (*see* §190.7 and Appendix A), or an application for a specific manufacturing drawback ruling (*see* §190.8 and this Appendix B).)

(Regarding drawback operations conducted under §1313(d), the data may describe the flavoring extracts, medicinal, or toilet preparations (including perfumery) manufactured with the use of domestic tax-paid alcohol; and where such alcohol is obtained or purchased.)

TAX-PAID MATERIAL USED UNDER SECTION 1313(d)

(Describe or list the tax-paid material)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(d) is not allowable except where a manufacture or production exists. ''Manufacture or production'' is defined, for drawback purposes, in §190.2. In order to obtain drawback under §1313(d), it is essential for the applicant to show use in manufacture or production by providing a thorough description of the manufacturing process. Describe how the tax-paid material is processed into the export article.)

a full partner in a partnership, an individual acting on his or her own behalf, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney filed may sign such an application, as may a licensed customs broker with a customs power of attorney.

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a statement to that effect.)

(If waste occurs, state: (1) Whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered, but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of domestic tax-paid alcohol used in manufacturing. If the claim is based upon the quantity of domestic tax-paid alcohol appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation, does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what basis you are using.)

(If you recover valuable waste and if you choose to claim on the basis of the quantity of domestic tax-paid alcohol used in producing the exported articles (less any valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. *See* ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in'' or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that the domestic tax-paid alcohol is considered to be used in manufacture at the time it was originally processed, so that the stock in process will not be included twice in the computation of the domestic tax-paid alcohol used to manufacture the finished articles on which drawback is claimed.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. If applicable, state the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported articles on which drawback is claimed were produced with the use of a particular lot (or lots) of domestic tax-paid alcohol, and

2. The quantity of domestic tax-paid alcohol[1] we used in producing the exported articles.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the tax has been paid on the domestic alcohol. Our records establishing our compliance with these requirements will be available for audit by CBP during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

U.S.C. 1313(d) and part 190 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To help ensure compliance the following areas should be included in your discussion:)

RECEIPT AND RAW STOCK STORAGE RECORDS

MANUFACTURING RECORDS

FINISHED STOCK STORAGE RECORDS

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) appearing in; and (3) used in less valuable waste.)

(The ''used in'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''used in'' basis. Drawback is payable in the amount of 100% of the tax paid on the quantity of domestic alcohol used in the manufacture of flavoring extracts and medicinal or toilet preparation (including perfumery).)

(For example, if 100 gallons of alcohol, valued at $1.00 per gallon, were used in manufacture resulting in 10 gallons of irrecoverable or valueless waste, the 10 gallons of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 100% of the tax paid on the 100 gallons of domestic alcohol used to produce the exported articles.)

The ''appearing in'' basis may be used regardless of whether there is waste. If the ''appearing in'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''appearing in'' basis. Drawback is payable on 100% of the tax paid on the quantity of domestic alcohol which appears in the exported articles.

(Based on the previous example, drawback would be payable on the 90 gallons of domestic alcohol which actually went into the exported product (appearing in) rather than the 100 gallons used in as set forth previously.)

(The ''used in less valuable waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of domestic tax-paid alcohol. The value of the waste reduces the amount of drawback when claims are based on the ''used in less valuable waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the quantity of tax-paid alcohol used to manufacture the exported articles, as reduced by the quantity of such alcohol which the value of the waste would replace.)

(Based on the previous examples, if the 10 gallons of waste had a value of $.50 per gallon, then the 10 gallons of waste, having a total value of $5.00, would be equivalent in value to 5 gallons of the tax-paid alcohol. Thus the value of the waste would replace 5 gallons of the alcohol used, and drawback is payable on 100% of the tax paid on 95 gallons of alcohol rather than on the 100 gallons ''used in'' or the 90 gallons ''appearing in'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount that will be needed to produce a unit of product before the material is actually used in production.)

(An ''abstract'' is the summary of the records which shows the total quantity used in producing all products during the period covered by the abstract. The abstract looks at a period of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back at how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base its claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by schedule follows:)

We will claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 190.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''appearing in'' basis nor the ''schedule'' method for claiming drawback

may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §190.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to CBP Headquarters, all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by CBP Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this ____ day of _____ 20 ____, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[2] _____

(Signature and Title)

_____

(Print Name)

V. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(G).

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Entry Process and Duty Refunds Branch, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of Trade, 90 K Street NE—10th Floor (Mail Stop 1177), Washington, DC 20229–1177.

Dear Sir or Madam: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(g), and part 190 of the CBP Regulations. We request that CBP authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 190.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback must apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §190.7 of the CBP Regulations. CBP will not approve an application which shows an unincorporated division or company as the applicant (*see* §190.8(a)).)

LOCATION OF FACTORY OR SHIPYARD

(Provide the address of the factory(s) or shipyard(s) at which the construction and equipment will take place. Indicate if the factory or shipyard is a different legal entity from the applicant, and indicate if the applicant is operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 190.6 of the CBP Regulations permits only the president, vice president,

[2] Section 190.6(a) requires that applications for specific manufacturing drawback rulings be signed or electronically certified by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, an individual acting on his or her own behalf, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney may sign such an application, as may a licensed customs broker with a customs power of attorney.

secretary, treasurer, and any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a customs power of attorney for the company may sign. A customs power of attorney may also be given to a licensed customs broker. This heading should be changed to NAMES OF PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (*see* footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

GENERAL STATEMENT

(The following questions must be answered:)

1. Who will be the importer of the merchandise? (If the applicant will not always be the importer, specify that the applicant understands its obligations to maintain records to support the transfer under 19 CFR 190.10, and its liability under 19 CFR 190.63.)

2. Who is the manufacturer?

(Is the applicant constructing and equipping for his own account or merely performing the operation on a toll basis for others?)

(If an agent is to be used, the applicant must state it will comply with T.D.s 55027(2) and 55207(1), and §190.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (*see* §190.7 and Appendix A), or an application for a specific manufacturing drawback ruling (*see* §190.8 and this Appendix B).)

3. Will the applicant be the drawback claimant? (State how the vessel will qualify for drawback under 19 U.S.C. 1313(g). Who is the foreign person or government for whom the vessel is being made or equipped?) (There must be included under this heading the following statement:

We are particularly aware of the terms of §190.76(a)(1), and subpart M of part 190 of the CBP Regulations, and will comply with these sections where appropriate.)

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS USED

(Describe the imported merchandise or drawback products.)

ARTICLES CONSTRUCTED AND EQUIPPED FOR EXPORT

(Name the vessel or vessels to be made with imported merchandise or drawback products.)

PROCESS OF CONSTRUCTION AND EQUIPMENT

(Provide a clear and concise description of the process of construction and equipment involved. The description should trace the flow of materials through the manufacturing process for the purpose of establishing physical identification of the imported merchandise or drawback products and of the articles resulting from the processing.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a statement to that effect.)

(If waste occurs, state: (1) Whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered, but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what basis you are using.)

(If you recover valuable waste, and you choose to claim on the basis of the quantity of merchandise used in producing the exported articles (less any valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. *See* ''Basis of Claim for Drawback'' section below.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. If applicable, state the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does

not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported article on which drawback is claimed was constructed and equipped with the use of a particular lot (or lots) of imported material; and

2. The quantity of imported merchandise[1] we used in producing the exported article.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by CBP during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313 and part 190 of the CBP Regulations as discussed under the heading ''PROCEDURES AND RECORDS MAINTAINED''. To help ensure compliance the following should be included in your discussion:)

RECEIPT AND RAW STOCK STORAGE RECORDS

CONSTRUCTION AND EQUIPMENT RECORDS

FINISHED STOCK STORAGE RECORDS

SHIPPING RECORDS

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) appearing in; and (3) used in less valuable waste.)

(The ''used in'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''used in'' basis. Drawback is payable in the amount of 99 percent of the duties, taxes, and fees, paid on the quantity of imported material used to construct and equip the exported article.)

(For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duties, taxes, and fees, paid on the 100 pounds of imported material used in constructing and equipping the exported articles.)

(The ''appearing in'' basis may be used regardless of whether there is waste. If the ''appearing in'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''appearing in'' basis. Drawback is payable on 99 percent of the duties, taxes, and fees, paid on the quantity of imported material which appears in the exported articles. ''Appearing in'' may not be used if multiple products are involved.)

(Based on the previous example, drawback would be payable on the 90 pounds of imported material which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)

(The ''used in less valuable waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''used in less valuable waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duties, taxes, and fees, paid on the quantity of imported material used to construct and equip the exported product, as reduced by the quantity of such material which the value of the waste would replace. In such a case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 190.26(c) of the CBP Regulations.)

(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the imported material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duties, taxes, and fees, paid on the 95 pounds of imported material rather than on the 100 pounds ''used in'' or the 90 pounds ''appearing in'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount of material that is needed to produce a unit of product before the material is actually used in production.)

(An ''abstract' is the summary of the records which shows the total quantity of merchandise used in producing all articles during the period covered by the abstract. The abstract looks at a period of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back at how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base its claims on the ''abstract' method. State which Basis and Method you will use. An example of Used In by Schedule would read:)

We will claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 190.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''appearing in'' basis nor the ''schedule method for claiming drawback may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of liquidation of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §190.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to CBP Headquarters, all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by CBP Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to help ensure proper compliance with title 19, United States Code, section 1313, part 190 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this _____ day of _____ 20 ____, makes this application binding on

(Signature and Title)

PART 191—DRAWBACK

Sec.

[2] Section 190.6(a) requires that applications for specific manufacturing drawback rulings be signed or electronically certified by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, an individual acting on his or her own behalf, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney may sign such an application, as may a licensed customs broker with a customs power of attorney.

Subpart A—General Provisions

Subpart B—Manufacturing Drawback

Subpart C—Unused Merchandise Drawback

Subpart D—Rejected Merchandise

Subpart E—Completion of Drawback Claims

Subpart F—Verification of Claims

Subpart G—Exportation and Destruction

Subpart H—Liquidation and Protest of Drawback Entries

Subpart I—Waiver of Prior Notice of Intent To Export; Accelerated Payment of Drawback

Subpart J—Internal Revenue Tax on Flavoring Extracts and Medicinal or Toilet Preparations (Including Perfumery) Manufactured From Domestic Tax-Paid Alcohol

Subpart K—Supplies for Certain Vessels and Aircraft

Subpart L—Meats Cured With Imported Salt

AUTHORITY: 5 U.S.C. 301; 19 U.S.C. 66, 1202 (General Note 3(i), Harmonized Tariff Schedule of the United States), 1313, 1624;
§ 191.84 also issued under 19 U.S.C. 1514;
§§ 191.111, 191.112 also issued under 19 U.S.C. 1309;

§§ 191.182–191.186 also issued under 19 U.S.C. 81c;
§§ 191.191–191.195 also issued under 19 U.S.C. 1593a.

SOURCE: T.D. 98–16, 63 FR 11006, Mar. 5, 1998, unless otherwise noted.

§ 191.0 Scope.

This part sets forth general provisions applicable to drawback claims and specialized provisions applicable to specific types of drawback claims filed under 19 U.S.C. 1313, prior to the February 24, 2016, amendments to the U.S. drawback law. Drawback claims may not be filed under this part after February 23, 2019. For drawback claims filed under 19 U.S.C. 1313, as amended, see part 190. Additional drawback provisions relating to the North American Free Trade Agreement (NAFTA) are contained in subpart E of part 181 of this chapter.

[USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.0a Claims filed under NAFTA.

Claims for drawback filed under the provisions of part 181 of this chapter shall be filed separately from claims filed under the provisions of this part.

Subpart A—General Provisions

§ 191.1 Authority of the Commissioner of CBP.

Pursuant to DHS Delegation number 7010.3, the Commissioner of CBP has the authority to prescribe, and pursuant to Treasury Department Order No. 100–16 (set forth in the appendix to part 0 of this chapter), the Secretary of the Treasury has the sole authority to approve, rules and regulations regarding drawback.

[USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.2 Definitions.

For the purposes of this part:

(a) *Abstract*. *Abstract* means the summary of the actual production records of the manufacturer.

(b) *Act*. *Act,* unless indicated otherwise, means the Tariff Act of 1930, as amended.

(c) *Certificate of delivery*. *Certificate of delivery* (see §191.10 of this part) means Customs Form 7552, or its electronic equivalent, Delivery Certificate for Purposes of Drawback, summarizing information contained in original documents, establishing:

(1) The transfer from one party (transferor) to another (transferee) of:

(i) Imported merchandise;

(ii) Substituted merchandise under 19 U.S.C. 1313(j)(2);

(iii) A qualified article under 19 U.S.C. 1313(p)(2)(A)(ii) from the manufacturer or producer to the exporter or under 1313(p)(2)(A)(iv) from the importer to the exporter; or

(iv) Drawback product;

(2) The identity of such merchandise or article as being that to which a potential right to drawback exists; and

(3) The assignment of drawback rights for the merchandise or article transferred from the transferor to the transferee.

(d) *Certificate of manufacture and delivery*. *Certificate of manufacture and delivery* (see §191.24 of this part) means Customs Form 7552, or its electronic equivalent, Delivery Certificate for Purposes of Drawback, summarizing information contained in original documents, establishing:

(1) The transfer of an article manufactured or processed under 19 U.S.C. 1313(a) or 1313(b) from one party (transferor) to another (transferee);

(2) The identity of such article as being that to which a potential right to drawback exists; and

(3) The assignment of drawback rights for the article transferred from the transferor to the transferee.

(e) *Commercially interchangeable merchandise*. *Commercially interchangeable merchandise* means merchandise which may be substituted under the substitution unused merchandise drawback law, §313(j)(2) of the Act, as amended (19 U.S.C. 1313(j)(2)) (see §191.32(b)(2) and (c) of this part), or under the provision for the substitution of finished petroleum derivatives, §313(p), as amended (19 U.S.C. 1313(p)).

(f) *Designated merchandise*. *Designated merchandise* means either eligible imported duty-paid merchandise or drawback products selected by the drawback claimant as the basis for a drawback claim under 19 U.S.C. 1313(b) or (j)(2), as applicable, or qualified articles selected by the claimant as the basis for drawback under 19 U.S.C. 1313(p).

(g) *Destruction*. *Destruction* means the complete destruction of articles or merchandise to the extent that they have no commercial value.

(h) *Direct identification drawback*. *Direct identification drawback* means drawback authorized either under §313(a) of the Act, as amended (19 U.S.C. 1313(a)), on imported merchandise used to manufacture or produce an article which is either exported or destroyed, or under §313(j)(1) of the Act, as amended (19 U.S.C. 1313(j)(1)), on imported merchandise exported, or destroyed under Customs supervision, without having been used in the United States (see also §§313(c), (e), (f), (g), (h), and (q)). Merchandise or articles may be identified for purposes of direct identification drawback by use of the accounting methods provided for in §191.14 of this subpart.

(i) *Drawback*. *Drawback* means the refund or remission, in whole or in part,

of a customs duty, fee or internal revenue tax which was imposed on imported merchandise under Federal law because of its importation, and the refund of internal revenue taxes paid on domestic alcohol as prescribed in 19 U.S.C. 1313(d) (see also §191.3 of this subpart).

(j) *Drawback claim. Drawback claim* means the drawback entry and related documents required by regulation which together constitute the request for drawback payment.

(k) *Drawback entry. Drawback entry* means the document containing a description of, and other required information concerning, the exported or destroyed article on which drawback is claimed. Drawback entries are filed on Customs Form 7551.

(l) *Drawback product.* A *drawback product* means a finished or partially finished product manufactured in the United States under the procedures in this part for manufacturing drawback. A drawback product may be exported, or destroyed under Customs supervision with a claim for drawback, or it may be used in the further manufacture of other drawback products by manufacturers or producers operating under the procedures in this part for manufacturing drawback, in which case drawback would be claimed upon exportation or destruction of the ultimate product. Products manufactured or produced from substituted merchandise (imported or domestic) also become ''drawback products'' when applicable substitution provisions of the Act are met. For purposes of §313(b) of the Act, as amended (19 U.S.C. 1313(b)), drawback products may be designated as the basis for drawback or deemed to be substituted merchandise (see §1313(b)). For a drawback product to be designated as the basis for drawback, the product must be associated with a certificate of manufacture and delivery (see §191.24 of this part).

(m) *Exportation; exporter*—(1) *Exportation. Exportation* means the severance of goods from the mass of goods belonging to this country, with the intention of uniting them with the mass of goods belonging to some foreign country. An exportation may be deemed to have occurred when goods subject to drawback are admitted into a foreign trade zone in zone-restricted status, or are laden upon qualifying aircraft or vessels as aircraft or vessel supplies in accordance with §309(b) of the Act, as amended (19 U.S.C. 1309(b)) (see §§10.59 through 10.65 of this chapter).

(2) *Exporter. Exporter* means that person who, as the principal party in interest in the export transaction, has the power and responsibility for determining and controlling the sending of the items out of the United States. In the case of ''deemed exportations'' (see paragraph (m)(1) of this section), the exporter means that person who, as the principal party in interest in the transaction deemed to be an exportation, has the power and responsibility for determining and controlling the transaction (in the case of aircraft or vessel supplies under 19 U.S.C. 1309(b), the party who has the power and responsibility for lading the vessel supplies on the qualifying aircraft or vessel).

(n) *Filing. Filing* means the delivery to Customs of any document or documentation, as provided for in this part, and includes electronic delivery of any such document or documentation.

(o) *Fungible merchandise or articles. Fungible merchandise or articles* means merchandise or articles which for commercial purposes are identical and interchangeable in all situations.

(p) *General manufacturing drawback ruling.* A *general manufacturing drawback ruling* means a description of a manufacturing or production operation for drawback and the regulatory requirements and interpretations applicable to that operation (see §191.7 of this subpart).

(q) *Manufacture or production. Manufacture or production* means:

(1) A process, including, but not limited to, an assembly, by which merchandise is made into a new and different article having a distinctive ''name, character or use''; or

(2) A process, including, but not limited to, an assembly, by which merchandise is made fit for a particular use even though it does not meet the requirements of paragraph (q)(1) of this section.

(r) *Multiple products. Multiple products* mean two or more products produced concurrently by a manufacture or production operation or operations.

(s) *Possession. Possession,* for purposes of substitution unused merchandise drawback (19 U.S.C. 1313(j)(2)), means physical or operational control of the merchandise, including ownership while in bailment, in leased facilities, in transit to, or in any other manner under the operational control of, the party claiming drawback.

(t) *Records. Records* include, but are not limited to, statements, declarations, documents and electronically generated or machine readable data which pertain to the filing of a drawback claim or to the information contained in the records required by Chapter 4 of Title 19, United States Code, in connection with the filing of a drawback claim and which are normally kept in the ordinary course of business (see 19 U.S.C. 1508).

(u) *Relative value. Relative value* means, except for purposes of §191.51(b), the value of a product divided by the total value of all products which are necessarily manufactured or produced concurrently in the same operation. Relative value is based on the market value, or other value approved by Customs, of each such product determined as of the time it is first separated in the manufacturing or production process. Market value is generally measured by the selling price, not including any packaging, transportation, or other identifiable costs, which accrue after the product itself is processed. Drawback law requires the apportionment of drawback to each such product based on its relative value at the time of separation.

(v) *Schedule.* A *schedule* means a document filed by a drawback claimant, under §313(a) or (b), as amended (19 U.S.C. 1313(a) or (b)), showing the quantity of imported or substituted merchandise used in or appearing in each article exported or destroyed for drawback.

(w) *Specific manufacturing drawback ruling.* A *specific manufacturing drawback ruling* means a letter of approval issued by Customs Headquarters in response to an application, by a manufacturer or producer for a ruling on a specific manufacturing or production operation for drawback, as described in the format used. Synopses of approved specific manufacturing drawback rulings are published in the Customs Bulletin with each synopsis being published under an identifying Treasury Decision. Specific manufacturing drawback rulings are subject to the provisions in part 177 of this chapter.

(x) *Substituted merchandise or articles. Substituted merchandise or articles* means merchandise or articles that may be substituted under 19 U.S.C. 1313(b), 1313(j)(2), or 1313(p) as follows:

(1) Under §1313(b), substituted merchandise must be of the same kind and quality as the imported designated merchandise or drawback product, that is, the imported designated merchandise or drawback products and the substituted merchandise must be capable of being used interchangeably in the manufacture or production of the exported or destroyed articles with no substantial change in the manufacturing or production process;

(2) Under §1313(j)(2), substituted merchandise must be commercially interchangeable with the imported designated merchandise; and

(3) Under §1313(p), a substituted article must be of the same kind and quality as the qualified article for which it is substituted, that is, the articles must be commercially interchangeable or described in the same 8-digit HTSUS tariff classification.

(y) *Verification. Verification* means the examination of any and all records, maintained by the claimant, or any party involved in the drawback process, which are required by the appropriate Customs officer to render a meaningful recommendation concerning the drawback claimant's conformity to the law and regulations and the determination of supportability, correctness, and validity of the specific claim or groups of claims being verified.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998, as amended by T.D. 01–18, 66 FR 9649, Feb. 9, 2001; CBP Dec. 15–14, 80 FR 61292, Oct. 13, 2015]]

§191.3 Duties, taxes, and fees subject or not subject to drawback.

(a) Duties and fees subject to drawback include:

(1) All ordinary Customs duties, including:

(i) Duties paid on an entry, or withdrawal from warehouse, for consumption for which liquidation has become final;

(ii) Estimated duties paid on an entry, or withdrawal from warehouse, for consumption, for which liquidation has not become final, subject to the conditions and requirements of § 191.81(b) of this subpart; and

(iii) Tenders of duties after liquidation of the entry, or withdrawal from warehouse, for consumption for which the duties are paid, subject to the conditions and requirements of § 191.81(c) of this part, including:

(A) Voluntary tenders (for purposes of this section, a ''voluntary tender'' is a payment of duties on imported merchandise in excess of duties included in the liquidation of the entry, or withdrawal from warehouse, for consumption, provided that the liquidation has become final and that the other conditions of this section and § 191.81 of this part are met);

(B) Tenders of duties in connection with notices of prior disclosure under 19 U.S.C. 1592(c)(4); and

(C) Duties restored under 19 U.S.C. 1592(d).

(2) Marking duties assessed under § 304(c), Tariff Act of 1930, as amended (19 U.S.C. 1304(c));

(3) Internal revenue taxes which attach upon importation (see § 101.1 of this chapter);

(4) Merchandise processing fees (see § 24.23 of this chapter) for unused merchandise drawback pursuant to 19 U.S.C. 1313(j), and drawback for substitution of finished petroleum derivatives pursuant to 19 U.S.C. 1313(p)(2)(A)(iii) or (iv); and

(5) Harbor maintenance taxes (*see* § 24.24 of this chapter) for unused merchandise drawback pursuant to 19 U.S.C. 1313(j), and drawback for substitution of finished petroleum derivatives pursuant to 19 U.S.C. 1313(p)(2)(A)(iii) or (iv).

(b) Duties and fees not subject to drawback include:

(1) Harbor maintenance taxes (*see* § 24.24 of this chapter) except where unused merchandise drawback pursuant to 19 U.S.C. 1313(j) or drawback for substitution of finished petroleum derivatives pursuant to 19 U.S.C. 1313(p)(2)(A)(iii) or (iv) is claimed;

(2) Merchandise processing fees (*see* § 24.23 of this chapter), except where unused merchandise drawback pursuant to 19 U.S.C. 1313(j) or drawback for substitution of finished petroleum derivatives pursuant to 19 U.S.C. 1313(p)(2)(A)(iii) or (iv) is claimed; and

(3) Antidumping and countervailing duties on merchandise entered, or withdrawn from warehouse, for consumption on or after August 23, 1988.

(c) No drawback shall be allowed when the identified merchandise, the designated imported merchandise, or the substituted other merchandise (when applicable), consists of an agricultural product which is duty-paid at the over-quota rate of duty established under a tariff-rate quota, except that:

(1) Agricultural products as described in this paragraph are eligible for drawback under 19 U.S.C. 1313(j)(1); and

(2) Tobacco otherwise meeting the description of agricultural products in this paragraph is eligible for drawback under 19 U.S.C. 1313(j)(1) or 19 U.S.C. 1313(a).

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 27489, May 19, 1998, as amended by T.D. 01–18, 66 FR 9649, Feb. 9, 2001; CBP Dec. 04–33, 69 FR 60083, Oct. 7, 2004; USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.4 Merchandise in which a U.S. Government interest exists.

(a) *Restricted meaning of Government.* A U.S. Government instrumentality operating with nonappropriated funds is considered a Government entity within the meaning of this section.

(b) *Allowance of drawback.* If the merchandise is sold to the U.S. Government, drawback shall be available only to the:

(1) Department, branch, agency, or instrumentality of the U.S. Government which purchased it; or

(2) Supplier, or any of the parties specified in § 191.82 of this part, provided the claim is supported by documentation signed by a proper officer of the department, branch, agency, or instrumentality concerned certifying that the right to drawback was reserved by the supplier or other parties with the knowledge and consent of the

department, branch, agency, or instrumentality.

(c) *Bond.* No bond shall be required when a United States Government entity claims drawback.

§ 191.5 Guantanamo Bay, insular possessions, trust territories.

Guantanamo Bay Naval Station is considered foreign territory for drawback purposes and, accordingly, drawback may be permitted on articles shipped there. Drawback is not allowed, except on claims made under 19 U.S.C. 1313(j)(1), on articles shipped to the U.S. Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, Guam, Canton Island, Enderbury Island, Johnston Island, or Palmyra Island. Puerto Rico is not considered foreign territory for drawback purposes and, accordingly, drawback may not be permitted on articles shipped there from elsewhere in the customs territory of the United States.

[USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.6 Authority to sign drawback documents.

(a) Documents listed in paragraph (b) of this section shall be signed only by one of the following:

(1) The president, a vice-president, secretary, treasurer, or any other employee legally authorized to bind the corporation;

(2) A full partner of a partnership;

(3) The owner of a sole proprietorship;

(4) Any employee of the business entity with a power of attorney;

(5) An individual acting on his or her own behalf; or

(6) A licensed Customs broker with a power of attorney.

(b) The following documents require execution in accordance with paragraph (a) of this section:

(1) Drawback entries;

(2) Certificates of delivery;

(3) Certificates of manufacture and delivery;

(4) Notices of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback;

(5) Certifications of exporters on bills of lading or evidence of exportation (see §§ 191.28 and 191.82 of this part); and

(6) Abstracts, schedules and extracts from monthly abstracts if not included as part of a drawback claim.

(c) The following documents (see also part 177 of this chapter) may be executed by one of the persons described in paragraph (a) of this section or by any other individual legally authorized to bind the person (or entity) for whom the document is executed:

(1) A letter of notification of intent to operate under a general manufacturing drawback ruling under § 191.7 of this part;

(2) An application for a specific manufacturing drawback ruling under § 191.8 of this part;

(3) A request for a nonbinding predetermination of commercial interchangeability under § 191.32(c) of this part;

(4) An application for waiver of prior notice under § 191.91 of this part;

(5) An application for approval of accelerated payment of drawback under § 191.92 of this part; and

(6) An application for certification in the Drawback Compliance Program under § 191.193 of this part.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998; 63 FR 27489, May 19, 1998]

§ 191.7 General manufacturing drawback ruling.

(a) *Purpose; eligibility.* General manufacturing drawback rulings are designed to simplify drawback for certain common manufacturing operations but do not preclude or limit the use of applications for specific manufacturing drawback rulings (see § 191.8). A manufacturer or producer engaged in an operation that falls within a published general manufacturing drawback ruling may submit a letter of notification of intent to operate under that general ruling. Where a separately-incorporated subsidiary of a parent corporation is engaged in manufacture or production for drawback, the subsidiary is the proper party to submit the letter of notification, and cannot operate under a letter of notification submitted by the parent corporation.

(b) *Procedures*—(1) *Publication.* General manufacturing drawback rulings are contained in appendix A to this part. As deemed necessary by Customs, new general manufacturing drawback

rulings will be issued as Treasury Decisions and added to the appendix thereafter.

(2) *Submission*—(i) *Where filed.* Letters of notification of intent to operate under a general manufacturing drawback ruling shall be submitted to any drawback office where drawback entries will be filed and liquidated, provided that the general manufacturing drawback ruling will be followed without variation. If there is any variation in the general manufacturing drawback ruling, the manufacturer or producer shall apply for a specific manufacturing drawback ruling under § 191.8 of this subpart.

(ii) *Copies.* Letters of notification of intent shall be submitted in duplicate unless claims are to be filed at more than one drawback office, in which case one additional copy of the letter of notification shall be filed for each additional office. Upon issuance of a letter of acknowledgment (paragraph (c)(1) of this section), the drawback office with which the letter of notification is submitted shall forward the additional copy to such additional office(s), with a copy of the letter of acknowledgment.

(3) *Information required.* Each manufacturer or producer submitting a letter of notification of intent to operate under a general manufacturing drawback ruling under this section must provide the following specific detailed information:

(i) Name and address of manufacturer or producer (if the manufacturer or producer is a separately-incorporated subsidiary of a corporation, the subsidiary corporation must submit a letter of notification in its own name);

(ii) In the case of a business entity, the names of the persons listed in § 191.6(a)(1) through (6) who will sign drawback documents;

(iii) Locations of the factories which will operate under the letter of notification;

(iv) Identity (by T.D. number and title) of the general manufacturing drawback ruling under which the manufacturer or producer will operate;

(v) Description of the merchandise and articles, unless specifically described in the general manufacturing drawback ruling;

(vi) Description of the manufacturing or production process, unless specifically described in the general manufacturing drawback ruling;

(vii) Basis of claim used for calculating drawback; and

(viii) IRS (Internal Revenue Service) number (with suffix) of the manufacturer or producer.

(c) *Review and action by CBP.* The drawback office to which the letter of notification of intent to operate under a general manufacturing drawback ruling was submitted shall review the letter of notification of intent.

(1) *Acknowledgment.* The drawback office shall promptly issue a letter of acknowledgment, acknowledging receipt of the letter of intent and authorizing the person to operate under the identified general manufacturing drawback ruling, subject to the requirements and conditions of that general manufacturing drawback ruling and the law and regulations, to the person who submitted the letter of notification if:

(i) The letter of notification is complete (*i.e.*, containing the information required in paragraph (b)(3) of this section);

(ii) The general manufacturing drawback ruling identified by the manufacturer or producer is applicable to the manufacturing or production process;

(iii) The general manufacturing drawback ruling identified by the manufacturer or producer is followed without variation; and

(iv) The described manufacturing or production process is a manufacture or production under § 191.2(q) of this subpart.

(2) *Computer-generated number.* With the letter of acknowledgment the drawback office shall include the unique computer-generated number assigned to the acknowledgment of the letter of notification of intent to operate. This number must be stated when the person files manufacturing drawback claims with Customs under the general manufacturing drawback ruling.

(3) *Non-conforming letters of notification of intent.* If the letter of notification of intent to operate does not meet the requirements of paragraph (c)(1) of

this section in any respect, the drawback office shall promptly and in writing specifically advise the person of this fact and why this is so. A letter of notification of intent to operate which is not acknowledged may be resubmitted to the drawback office with which it was initially submitted with modifications and/or explanations addressing the reasons given for non-acknowledgment, or the matter may be referred (by letter from the manufacturer or producer) to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade).

(d) *Duration.* Acknowledged letters of notification under this section shall remain in effect under the same terms as provided for in §191.8(h) for specific manufacturing drawback rulings.

§ 191.8 Specific manufacturing drawback ruling.

(a) *Applicant.* Unless operating under a general manufacturing drawback ruling (see §191.7), each manufacturer or producer of articles intended to be claimed for drawback shall apply for a specific manufacturing drawback ruling. Where a separately-incorporated subsidiary of a parent corporation is engaged in manufacture or production for drawback, the subsidiary is the proper party to apply for a specific manufacturing drawback ruling, and cannot operate under any specific manufacturing drawback ruling approved in favor of the parent corporation.

(b) *Sample application.* Sample formats for applications for specific manufacturing drawback rulings are contained in appendix B to this part.

(c) *Content of application.* The application of each manufacturer or producer shall include the following information as applicable:

(1) Name and address of the applicant;

(2) Internal Revenue Service (IRS) number (with suffix) of the applicant;

(3) Description of the type of business in which engaged;

(4) Description of the manufacturing or production process, which shows how the designated and substituted merchandise are used to make the article that is to be exported or destroyed;

(5) In the case of a business entity, the names of persons listed in §191.6(a)(1) through (6) who will sign drawback documents;

(6) Description of the imported merchandise including specifications;

(7) Description of the exported article;

(8) Basis of claim for calculating manufacturing drawback;

(9) Summary of the records kept to support claims for drawback; and

(10) Identity and address of the recordkeeper if other than the claimant.

(d) *Submission.* An application for a specific manufacturing drawback ruling shall be submitted, in triplicate, to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade). If drawback claims are to be filed under the ruling at more than one drawback office, one additional copy of the application shall be filed with CBP Headquarters for each additional office.

(e) *Review and action by CBP.* CBP Headquarters shall review the application for a specific manufacturing drawback ruling.

(1) *Approval.* If consistent with the drawback law and regulations, Customs Headquarters shall issue a letter of approval to the applicant and shall forward 1 copy of the application for the specific manufacturing drawback ruling to the appropriate drawback office(s) with a copy of the letter of approval. Synopses of approved specific manufacturing drawback rulings shall be published in the weekly Customs Bulletin with each synopsis being published under an identifying Treasury Decision (T.D.). Each specific manufacturing drawback ruling shall be assigned a unique computer-generated manufacturing number which shall be included in the letter of approval to the applicant from Customs Headquarters, shall appear in the published synopsis, and must be used when filing manufacturing drawback claims with Customs.

(2) *Disapproval.* If not consistent with the drawback law and regulations, CBP Headquarters shall promptly and in writing inform the applicant that the application cannot be approved and shall specifically advise the applicant

why this is so. A disapproved application may be resubmitted with modifications and/or explanations addressing the reasons given for disapproval, or the disapproval may be appealed to CBP Headquarters (Attention: Director, Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade).

(f) *Schedules and supplemental schedules.* When an application for a specific manufacturing drawback ruling states that drawback is to be based upon a schedule filed by the manufacturer or producer, the schedule will be reviewed by Customs Headquarters. The application may include a request for authorization for the filing of supplemental schedules with the drawback office where claims are filed.

(g) *Procedure to modify a specific manufacturing drawback ruling*—(1) *Supplemental application.* Except as provided for limited modifications in paragraph (g)(2) of this section, a manufacturer or producer desiring to modify an existing specific manufacturing drawback ruling shall submit a supplemental application for such a ruling to CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade). Such a supplemental application may, at the discretion of the manufacturer or producer, be in the form of the original application, or it may identify the specific manufacturing drawback ruling to be modified (by T.D. number and unique computer-generated number) and include only those paragraphs of the application to be modified, with a statement that all other paragraphs are unchanged and are incorporated by reference in the supplemental application.

(2) *Limited modifications.* (i) A supplemental application for a specific manufacturing drawback ruling shall be submitted to the drawback office(s) where claims are filed if the modifications are limited to:

(A) The location of a factory, or the addition of one or more factories where the methods followed and records maintained are the same as those at another factory operating under the existing specific manufacturing drawback ruling of the manufacturer or producer;

(B) The succession of a sole proprietorship, partnership or corporation to the operations of a manufacturer or producer;

(C) A change in name of the manufacturer or producer;

(D) A change in the persons who will sign drawback documents in the case of a business entity;

(E) A change in the basis of claim used for calculating drawback;

(F) A change in the decision to use or not to use an agent under §191.9 of this chapter, or a change in the identity of an agent under that section;

(G) A change in the drawback office where claims will be filed under the ruling (see paragraph (g)(2)(iii) of this section); or

(H) Any combination of the foregoing changes.

(ii) A limited modification, as provided for in this paragraph, shall contain only the modifications to be made, in addition to identifying the specific manufacturing drawback ruling and being signed by an authorized person. To effect a limited modification, the manufacturer or producer shall file with the drawback office(s) where claims are filed (with a copy to CBP Headquarters, Attention, Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade) a letter stating the modifications to be made. The drawback office shall promptly acknowledge, in writing, acceptance of the limited modifications, with a copy to CBP Headquarters, Attention, Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade.

(iii) To effect a change in the drawback office where claims will be filed, the manufacturer or producer shall file with the new drawback office where claims will be filed, a written application to file claims at that office, with a copy of the application and approval letter under which claims are currently filed. The manufacturer or producer shall provide a copy of the written application to file claims at the new drawback office to the drawback office where claims are currently filed.

(h) *Duration.* Subject to 19 U.S.C. 1625 and part 177 of this chapter, a specific manufacturing drawback ruling under

this section shall remain in effect indefinitely unless:

(1) No drawback claim or certificate of manufacture and delivery is filed under the ruling for a period of 5 years and notice of termination is published in the Customs Bulletin; or

(2) The manufacturer or producer to whom approval of the ruling was issued files a request to terminate the ruling, in writing, with Customs Headquarters.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.9 Agency.

(a) *General.* An owner of the identified merchandise, the designated imported merchandise and/or the substituted other merchandise that is used to produce the exported articles may employ another person to do part, or all, of the manufacture or production under 19 U.S.C. 1313(a) or (b) and §191.2(q) of this subpart. For purposes of this section, such owner is the principal and such other person is the agent. Under 19 U.S.C. 1313(b), the principal shall be treated as the manufacturer or producer of merchandise used in manufacture or production by the agent. The principal must be able to establish by its manufacturing records, the manufacturing records of its agent(s), or the manufacturing records of both (or all) parties, compliance with all requirements of this part (see, in particular, §191.26 of this part).

(b) *Requirements*—(1) *Contract.* The manufacturer must establish that it is the principal in a contract between it and its agent who actually does the work on either the designated or substituted merchandise, or both, for the principal. The contract must include:

(i) Terms of compensation to show that the relationship is an agency rather than a sale;

(ii) How transfers of merchandise and articles will be recorded by the principal and its agent;

(iii) The work to be performed on the merchandise by the agent for the principal;

(iv) The degree of control that is to be exercised by the principal over the agent's performance of work;

(v) The party who is to bear the risk of loss on the merchandise while it is in the agent's custody; and

(vi) The period that the contract is in effect.

(2) *Ownership of the merchandise by the principal.* The records of the principal and/or the agent must establish that the principal had legal and equitable title to the merchandise before receipt by the agent. The right of the agent to assert a lien on the merchandise for work performed does not derogate the principal's ownership interest under this section.

(3) *Sales prohibited.* The relationship between the principal and agent must not be that of a seller and buyer. If the parties' records show that, with respect to the merchandise that is the subject of the principal-agent contract, the merchandise is sold to the agent by the principal, or the articles manufactured by the agent are sold to the principal by the agent, those records are inadequate to establish existence of a principal-agency relationship under this section.

(c) *Specific manufacturing drawback rulings; general manufacturing drawback rulings*—(1) *Owner.* An owner who intends to operate under the principal-agent procedures of this section must state that intent in any letter of notification of intent to operate under a general manufacturing drawback ruling filed under §191.7 of this subpart or in any application for a specific manufacturing drawback ruling filed under §191.8 of this subpart.

(2) *Agent.* Each agent operating under this section must have filed a letter of notification of intent to operate under a general manufacturing drawback ruling (see §191.7), for an agent, covering the articles manufactured or produced, or have obtained a specific manufacturing drawback ruling (see §191.8), as appropriate.

(d) *Certificate; Drawback entry; Certificate of manufacture and delivery*—(1) *Contents of certificate; when filing not required.* Principals and agents operating under this section are not required to file a certificate of delivery (for the merchandise transferred from the principal to the agent) or a certificate of manufacture and delivery (for the articles transferred from the agent to the principal). The principal for whom processing is conducted under this section shall file, with any drawback

claim or certificate of manufacture and delivery based on an article manufactured or produced under the principal-agent procedures in this section, a certificate, subject to the recordkeeping requirements of §§ 191.15 of this subpart and 191.26 of this part, certifying that upon request by Customs it can establish the following:

(i) Quantity, kind and quality of merchandise transferred from the principal to the agent;

(ii) Date of transfer of the merchandise from the principal to the agent;

(iii) Date of manufacturing or production operations performed by the agent;

(iv) Total quantity and description of merchandise appearing in or used in manufacturing or production operations performed by the agent;

(v) Total quantity and description of articles produced in manufacturing or production operations performed by the agent;

(vi) Quantity, kind and quality of articles transferred from the agent to the principal; and

(vii) Date of transfer of the articles from the agent to the principal.

(2) *Blanket certificate.* The certificate required under paragraph (d)(1) of this section may be a blanket certificate for a particular kind and quality of merchandise for a stated period.

§ 191.10 Certificate of delivery.

(a) *Purpose; when required.* A party who: imports and pays duty on imported merchandise; receives imported merchandise; in the case of 19 U.S.C. 1313(j)(2), receives imported merchandise, commercially interchangeable merchandise, or any combination of imported and commercially interchangeable merchandise; or receives an article manufactured or produced under 19 U.S.C. 1313(a) and/or (b): may transfer such merchandise or manufactured article to another party. The party shall record this transfer by preparing and issuing in favor of such other party a certificate of delivery, certified by the importer or other party through whose possession the merchandise or manufactured article passed (see paragraph (c) of this section). A certificate of delivery issued with respect to the delivered merchandise or article:

(1) Documents the transfer of that merchandise or article;

(2) Identifies such merchandise or article as being that to which a potential right to drawback exists; and

(3) Assigns such right to the transferee (see § 191.82 of this part).

(b) *Required information.* The certificate of delivery must include the following information:

(1) The party to whom the merchandise or articles are delivered;

(2) Date of delivery;

(3) Import entry number;

(4) Quantity delivered;

(5) Total duty paid on, or attributable to, the delivered merchandise;

(6) Date certificate was issued;

(7) Date of importation;

(8) Port where import entry filed;

(9) Person from whom received;

(10) Description of the merchandise delivered;

(11) The HTSUS number with a minimum of 6 digits, for the designated imported merchandise (such HTSUS number shall be from the entry summary and other entry documentation for the merchandise unless the issuer of the certificate of delivery received the merchandise under another certificate of delivery, or a certificate of manufacture and delivery, in which case such HTSUS number shall be from the other certificate); and

(12) If the merchandise transferred is substituted for the designated imported merchandise under 19 U.S.C. 1313(j)(2), the HTSUS or Schedule B commodity number, with a minimum of 6 digits.

(c) *Intermediate transfer*—(1) *Imported merchandise.* If the imported merchandise was not delivered directly from the importer to the manufacturer, or from the importer to the exporter (or destroyer), each intermediate transfer of the imported merchandise shall be documented by means of a certificate of delivery issued in favor of the receiving party, and certified by the person through whose possession the merchandise passed.

(2) *Manufactured article.* If the article manufactured or produced under 19 U.S.C. 1313 (a) or (b) is not delivered directly from the manufacturer to the

exporter (or destroyer), each transfer after the transfer from the manufacturer (which shall be documented by means of a certificate of manufacture and delivery) shall be documented by means of a certificate of delivery, issued in favor of the receiving party, and certified by the person through whose possession the article passed.

(d) *Retention period; supporting records.* Records supporting the information required on the certificate(s) of delivery, as listed in paragraph (b) of this section, must be retained by the issuing party for 3 years from the date of payment of the related claim or longer period if required by law (see 19 U.S.C. 1508(c)(3)).

(e) *Retention; submission to Customs.* The certificate of delivery shall be retained by the party to whom the merchandise or article covered by the certificate was delivered. Customs may request the certificate from the claimant for the drawback claim based upon the certificate (see §§ 191.51, 191.52). If the certificate is requested by Customs, but is not provided by the claimant, the part of the drawback claim dependent on that certificate will be denied.

(f) *Warehouse transfer and withdrawals.* The person in whose name merchandise is withdrawn from a bonded warehouse shall be considered the importer for drawback purposes. No certificate of delivery is required covering prior transfers of merchandise while in a bonded warehouse.

§ 191.11 Tradeoff.

(a) *Exchanged merchandise.* To comply with §§ 191.21 and 191.22 of this part, the use of domestic merchandise taken in exchange for imported merchandise of the same kind and quality (as defined in § 191.2(x)(1) of this part for purposes of 19 U.S.C. 1313(b)) shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the transfer of the imported merchandise. This provision shall be known as tradeoff and is authorized by § 313(k) of the Act, as amended (19 U.S.C. 1313(k)).

(b) *Requirements.* Tradeoff must occur between two separate legal entities but it is not necessary that the entity exchanging the imported merchandise be the importer thereof. In addition, tradeoff must consist of an exchange of same kind and quality merchandise and nothing else (the exchange may be of different quantities of same kind and quality merchandise, but may not involve the payment or receipt of cash payments or other than same kind and quality merchandise). If the quantities of merchandise exchanged are different, the lesser quantity shall be the quantity available for drawback. If the quantity of domestic merchandise received is greater than the quantity of imported merchandise exchanged, the merchandise identified for drawback shall be the portion of the domestic merchandise equal to the quantity of imported merchandise which is first received.

(c) *Application.* Each would-be user of tradeoff, except those operating under an approved specific manufacturing drawback ruling covering substitution, must apply to the Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade, CBP Headquarters, for a determination of whether the imported and domestic merchandise are of the same kind and quality. For those users manufacturing under substitution drawback, this request should be contained in the application for a specific manufacturing drawback ruling (§ 191.8). For those users manufacturing under a general manufacturing drawback ruling (§ 191.7), the request should be made by a separate letter.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.12 Claim filed under incorrect provision.

A drawback claim filed pursuant to any provision of § 313 of the Act, as amended (19 U.S.C. 1313) may be deemed filed pursuant to any other provision thereof should the drawback office determine that drawback is not allowable under the provision as originally filed, but that it is allowable under such other provision. To be allowable under such other provision, the claim must meet each of the requirements of such provision. The claimant may raise alternative provisions prior to liquidation or by protest.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.13 Packaging materials.

(a) *Imported packaging material.* Drawback of duties is provided in § 313(q)(1) of the Act, as amended (19 U.S.C. 1313(q)(1)), on imported packaging material when used to package or repackage merchandise or articles exported or destroyed pursuant to § 313(a), (b), (c), or (j) of the Act, as amended (19 U.S.C. 1313(a), (b), (c), or (j)). Drawback is payable on the packaging material pursuant to the particular drawback provision to which the packaged goods themselves are subject. The drawback will be based on the duty, tax or fee paid on the importation of the packaging material. The packaging material must be separately identified on the claim, and all other information and documents required for the particular drawback provision under which the claim is made shall be provided for the packaging material.

(b) *Packaging material manufactured in United States from imported materials.* Drawback of duties is provided in § 313(q)(2) of the Act, as amended (19 U.S.C. 1313(q)(2)), on packaging material that is manufactured or produced in the United States from imported materials and used to package or repackage articles that are exported or destroyed under § 313(a) or (b) of the Act, as amended (19 U.S.C. 1313(a) or (b)). Drawback is payable on the packaging material under the particular manufacturing drawback provision to which the packaged articles themselves are subject, either 19 U.S.C. 1313(a) or (b), as applicable. The drawback will be based on the duty, tax, or fee that is paid on the imported merchandise used to manufacture or produce the packaging material. The packaging material and the imported merchandise used in its manufacture or production must be separately identified on the claim, and all other information and documents required for the particular drawback provision under which the claim is made must be provided for the packaging material as well as the imported merchandise used in its manufacture or production, for purposes of determining the applicable drawback payable.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–16, 67 FR 16637, Apr. 8, 2002]

§ 191.14 Identification of merchandise or articles by accounting method.

(a) *General.* This section provides for the identification of merchandise or articles for drawback purposes by the use of accounting methods. This section applies to identification of merchandise or articles in inventory or storage, as well as identification of merchandise used in manufacture or production (see § 191.2(h) of this subpart). This section is not applicable to situations in which the drawback law authorizes substitution (substitution is allowed in specified situations under 19 U.S.C. 1313(b), 1313(j)(2), 1313(k), and 1313(p); this section does apply to situations in these subsections in which substitution is not allowed, as well as to the subsections of the drawback law under which no substitution is allowed). When substitution is authorized, merchandise or articles may be substituted without reference to this section, under the criteria and conditions specifically authorized in the statutory and regulatory provisions providing for the substitution.

(b) *Conditions and criteria for identification by accounting method.* Manufacturers, producers, claimants, or other appropriate persons may identify for drawback purposes lots of merchandise or articles under this section, subject to each of the following conditions and criteria:

(1) The lots of merchandise or articles to be so identified must be fungible (see § 191.2(o) of this part);

(2) The person using the identification method must be able to establish that inventory records (for example, material control records), prepared and used in the ordinary course of business, account for the lots of merchandise or articles to be identified as being received into and withdrawn from the same inventory. Even if merchandise or articles are received or withdrawn at different geographical locations, if such inventory records treat receipts or withdrawals as being from the same inventory, those inventory records may be used to identify the merchandise or articles under this section, subject to the conditions of this section. If any such inventory records (that is, inventory records prepared and used in the ordinary course of business) treat

receipts and withdrawals as being from different inventories, those inventory records must be used and receipts into or withdrawals from the different inventories may not be accounted for together. If units of merchandise or articles can be specifically identified (for example, by serial number), the merchandise or articles must be specifically identified and may not be identified by accounting method, unless it is established that inventory records, prepared and used in the ordinary course of business, treat the merchandise or articles to be identified as being received into and withdrawn from the same inventory (subject to the above conditions);

(3) Unless otherwise provided in this section or specifically approved by Customs (by a binding ruling under part 177 of this chapter), all receipts (or inputs) into and all withdrawals from the inventory must be recorded in the accounting record;

(4) The records which support any identification method under this section are subject to verification by Customs (see § 191.61 of this part). If Customs requests such verification, the person using the identification method must be able to demonstrate how, under generally accepted accounting procedures, the records which support the identification method used account for all merchandise or articles in, and all receipts into and withdrawals from, the inventory, and the drawback per unit for each receipt and withdrawal; and

(5) Any accounting method which is used by a person for drawback purposes under this section must be used without variation with other methods for a period of at least one year, unless approval is given by Customs for a shorter period.

(c) *Approved accounting methods.* The following accounting methods are approved for use in the identification of merchandise or articles for drawback purposes under this section.

(1) *First-in, first-out (FIFO)*—(i) *General.* The FIFO method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the first merchandise or articles received into the inventory. Under this method, withdrawals are from the oldest (first-in) merchandise or articles in the inventory at the time of withdrawal.

(ii) *Example.* If the beginning inventory is zero, 100 units with $1 drawback attributable per unit are received in inventory on the 2nd of the month, 50 units with no drawback attributable per unit are received into inventory on the 5th of the month, 75 units are withdrawn for domestic (non-export) shipment on the 10th of the month, 75 units with $2 drawback attributable per unit are received in inventory on the 15th of the month, 100 units are withdrawn for export on the 20th of the month, and no other receipts or withdrawals occurred in the month, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $75 (25 units from the receipt on the 2nd with $1 drawback attributable per unit, 50 units from the receipt on the 5th with no drawback attributable per unit, and 25 units from the receipt on the 15th with $2 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75 units ($1 drawback/unit) results in a balance of 75 units (25 with $1 drawback/unit and 50 with $0 drawback/unit); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (25 with $1 drawback/unit, 50 with $0 drawback/unit, and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (25 with $1 drawback/unit, 50 with $0 drawback/unit, and 25 with $2 drawback unit) results in a balance of 50 units (all 50 with $2 drawback/unit).

(2) *Last-in, first out (LIFO)*—(i) *General.* The LIFO method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the last merchandise or articles received into the inventory. Under this method, withdrawals are from the newest (last-in) merchandise

or articles in the inventory at the time of withdrawal.

(ii) *Example.* In the example in paragraph (c)(1)(ii) of this section, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $175 (75 units from the receipt on the 15th with $2 drawback attributable per unit and 25 units from the receipt on the 2nd with $1 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75 units (50 with $0 drawback/unit and 25 with $1 drawback/unit) results in a balance of 75 units (all with $1 drawback/unit); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (75 with $1 drawback/unit and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (75 with $2 drawback/unit and 25 with $1 drawback/unit) results in a balance of 50 units (all 50 with $1 drawback/unit).

(3) *Low-to-high*—(i) *General.* The low-to-high method is the method by which fungible merchandise or articles are identified by recordkeeping on the basis of the lowest drawback amount per unit of the merchandise or articles in inventory. Merchandise or articles with no drawback attributable to them (for example, domestic merchandise or duty-free merchandise) must be accounted for and are treated as having the lowest drawback attributable to them. Under this method, withdrawals are from the merchandise or articles with the least amount of drawback attributable to them, then those with the next higher amount, and so forth. If the same amount of drawback is attributable to more than one lot of merchandise or articles, withdrawals are from the oldest (first-in) merchandise or articles among those lots with the same amount of drawback attributable. Drawback requirements are applicable to withdrawn merchandise or articles as identified (for example, if the merchandise or articles identified were attributable to an import more than 5 years (more than 3 years for unused merchandise drawback) before the claimed export, no drawback could be granted).

(ii) *Ordinary*—(A) *Method.* Under the ordinary low-to-high method, all receipts into and all withdrawals from the inventory are recorded in the accounting record and accounted for so that each withdrawal, whether for export or domestic shipment, is identified by recordkeeping on the basis of the lowest drawback amount per unit of the merchandise or articles available in the inventory.

(B) *Example.* In this example, the beginning inventory is zero, and receipts into and withdrawals from the inventory are as follows:

Date	Receipt ($ per unit)	Withdrawals
Jan. 2	100 (zero).	
Jan. 5	50 ($1.00).	
Jan. 15		50 (export).
Jan. 20	50 ($1.01).	
Jan. 25	50 ($1.02).	
Jan. 28		50 (domestic).
Jan. 31	50 ($1.03).	
Feb. 5		100 (export).
Feb. 10	50 ($.95).	
Feb. 15		50 (export).
Feb. 20	50 (zero).	
Feb. 23		50 (domestic).
Feb. 25	50 ($1.05).	
Feb. 28		100 (export).
Mar. 5	50 ($1.06).	
Mar. 10	50 ($.85).	
Mar. 15		50 (export).
Mar. 21		50 (domestic).
Mar. 20	50 ($1.08).	
Mar. 25	50 ($.90).	
Mar. 31		100 (export).

The drawback attributable to the January 15 withdrawal for export is zero (the available receipt with the lowest drawback amount per unit is the January 2 receipt), the drawback attributable to the January 28 withdrawal for domestic shipment (no drawback) is zero (the remainder of the January 2 receipt), the drawback attributable to the February 5 withdrawal for export is $100.50 (the January 5 and January 20 receipts), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 23 withdrawal for domestic shipment (no

drawback) is zero (the February 20 receipt), the drawback attributable to the February 28 withdrawal for export is $102.50 (the January 25 and January 31 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), the drawback attributable to the March 21 withdrawal for domestic shipment (no drawback) is $52.50 (the February 25 receipt), and the drawback attributable to the March 31 withdrawal for export is $98.00 (the March 25 and March 5 receipts). Remaining in inventory is the March 20 receipt of 50 units ($1.08 drawback/unit). Total drawback attributable to withdrawals for export in this example would be $391.00.

(iii) *Low-to-high method with established average inventory turn-over period*—(A) *Method.* Under the low-to-high method with established average inventory turn-over period, all receipts into and all withdrawals for export are recorded in the accounting record and accounted for so that each withdrawal is identified by recordkeeping on the basis of the lowest drawback amount per available unit of the merchandise or articles received into the inventory in the established average inventory turn-over period preceding the withdrawal.

(B) *Accounting for withdrawals (for domestic shipments and for export).* Under this method, domestic withdrawals (withdrawals for domestic shipment) are not accounted for and do not affect the available units of merchandise or articles. All withdrawals for export must be accounted for whether or not drawback is available or claimed on the withdrawals. Once a withdrawal for export is made and accounted for under this method, the merchandise or articles withdrawn are no longer available for identification.

(C) *Establishment of inventory turn-over period.* For purposes of this section, average inventory turn-over period is based on the rate of withdrawal from inventory and represents the time in which all of the merchandise or articles in the inventory at a given time must have been withdrawn. To establish an average of this time, at least 1 year, or three (3) turn-over periods (if inventory turns over less than 3 times per year), must be averaged. The inventory turn-over period must be that for the merchandise or articles to be identified, except that if the person using the method has more than one kind of merchandise or articles with different inventory turn-over periods, the longest average turn-over period established under this section may be used (instead of using a different inventory turn-over period for each kind of merchandise or article).

(D) *Example.* In the example in paragraph (c)(3)(ii)(B) of this section (but, as required for this method, without accounting for domestic withdrawals, and with an established average inventory turn-over period of 30 days), the drawback attributable to the January 15 withdrawal for export is zero (the available receipt in the preceding 30 days with the lowest amount of drawback is the January 2 receipt, of which 50 units will remain after the withdrawal), the drawback attributable to the February 5 withdrawal for export is $101.50 (the January 20 and January 25 receipts), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 28 withdrawal for export is $51.50 (the February 20 and January 31 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), and the drawback attributable to the March 31 withdrawal for export is $98.00 (the March 25 and March 5 receipts). No drawback may be claimed on the basis of the January 5 receipt or the February 25 receipt because in the case of each, there were insufficient withdrawals for export within the established average inventory turn-over period; the 50 units remaining from the January 2 receipt after the January 15 withdrawal are not identified for a withdrawal for export because there is no other withdrawal for export (other than the January 15 withdrawal) within the established average inventory turn-over period; the March 20 receipt (50 units at $1.08) is not yet attributed to withdrawals for export. Total drawback attributable to withdrawals for export in this example would be $341.00.

(iv) *Low-to-high blanket method*—(A) *Method.* Under the low-to-high blanket

method, all receipts into and all withdrawals for export are recorded in the accounting record and accounted for so that each withdrawal is identified by recordkeeping on the basis of the lowest drawback amount per available unit of the merchandise or articles received into inventory in the period preceding the withdrawal equal to the statutory period for export under the kind of drawback involved (e.g., 180 days under 19 U.S.C. 1313(p), 3 years under 19 U.S.C. 1313(c) and 1313(j), and 5 years otherwise under 19 U.S.C. 1313(i)). Drawback requirements are applicable to withdrawn merchandise or articles as identified (for example, if the merchandise or articles identified were attributable to an import more than 5 years (more than 3 years for 19 U.S.C. 1313(j); more than 180 days after the date of import or after the close of the manufacturing period for 19 U.S.C. 1313(p)) before the claimed export, no drawback could be granted).

(B) *Accounting for withdrawals (for domestic shipments and for export).* Under this method, domestic withdrawals (withdrawals for domestic shipment) are not accounted for and do not affect the available units of merchandise or articles. All withdrawals for export must be accounted for whether or not drawback is available or claimed on the withdrawals. Once a withdrawal for export is made and accounted for under this method, the merchandise or articles withdrawn are no longer available for identification.

(C) *Example.* In the example in paragraph (c)(3)(ii)(B) of this section (but, as required for this method, without accounting for domestic withdrawals), the drawback attributable to the January 15 withdrawal for export is zero (the available receipt in the inventory with the lowest amount of drawback is the January 2 receipt, of which 50 units will remain after the withdrawal), the drawback attributable to the February 5 withdrawal for export is $50.00 (the remainder of the January 2 receipt and the January 5 receipt), the drawback attributable to the February 15 withdrawal for export is $47.50 (the February 10 receipt), the drawback attributable to the February 28 withdrawal for export is $50.50 (the February 20 and January 20 receipts), the drawback attributable to the March 15 withdrawal for export is $42.50 (the March 10 receipt), and the drawback attributable to the March 31 withdrawal for export is $96.00 (the March 25 and January 25 receipts). Receipts not attributed to withdrawals for export are the January 31 (50 units at $1.03), February 25 (50 units at $1.05), March 5 (50 units at $1.06), and March 20 (50 units at $1.08) receipts. Total drawback attributable to withdrawals for export in this example would be $286.50.

(4) *Average*—(i) *General.* The average method is the method by which fungible merchandise or articles are identified on the basis of the calculation by recordkeeping of the amount of drawback that may be attributed to each unit of merchandise or articles in the inventory. In this method, the ratio of:

(A) The total units of a particular receipt of the fungible merchandise in the inventory at the time of a withdrawal to;

(B) The total units of all receipts of the fungible merchandise (including each receipt into inventory) at the time of the withdrawal;

(C) Is applied to the withdrawal, so that the withdrawal consists of a proportionate quantity of units from each particular receipt and each receipt is correspondingly decreased. Withdrawals and corresponding decreases to receipts are rounded to the nearest whole number.

(ii) *Example.* In the example in paragraph (c)(1)(ii) of this section, the drawback attributable to the 100 units withdrawn for export on the 20th is a total of $133 (50 units from the receipt on the 15th with $2 drawback attributable per unit, 33 units from the receipt on the 2nd with $1 drawback attributable per unit, and 17 units from the receipt on the 5th with $0 drawback attributable per unit). The basis of the foregoing and the effects on the inventory of the receipts and withdrawals, and balance in the inventory thereafter are as follows: On the 2nd of the month the receipt of 100 units ($1 drawback/unit) results in a balance of that amount; the receipt of 50 units ($0 drawback/unit) on the 5th results in a balance of 150 units (100 with $1 drawback/unit and 50 with $0 drawback/unit); the withdrawal on the 10th of 75

units (50 with $1 drawback/unit (applying the ratio of 100 units from the receipt on the 2nd to the total of 150 units at the time of withdrawal) and 25 with $0 drawback/unit (applying the ratio of 50 units from the receipt on the 5th to the total of 150 units at the time of withdrawal)) results in a balance of 75 units (with 50 with $1 drawback/unit and 25 with $0 drawback/unit, on the basis of the same ratios); the receipt of 75 units ($2 drawback/unit) on the 15th results in a balance of 150 units (50 with $1 drawback/unit, 25 with $0 drawback/unit, and 75 with $2 drawback/unit); the withdrawal on the 20th of 100 units (50 with $2 drawback/unit (applying the ratio of the 75 units from the receipt on the 15th to the total of 150 units at the time of withdrawal), 33 with $1 drawback/unit (applying the ratio of the 50 units remaining from the receipt on the 2nd to the total of 150 units at the time of withdrawal, and 17 with $0 drawback/unit (applying the ratio of the 25 units remaining from the receipt on the 5th to the total of 150 units at the time of withdrawal)) results in a balance of 50 units (25 with $2 drawback/unit, 17 with $1 drawback/unit, and 8 with $0 drawback/unit, on the basis of the same ratios).

(5) *Inventory turn-over for limited purposes.* A properly established average inventory turn-over period, as provided for in paragraph (c)(3)(iii)(C) of this section, may be used to determine:

(i) The fact and date(s) of use in manufacture or production of the imported designated merchandise and other (substituted) merchandise (see 19 U.S.C. 1313(b)); or

(ii) The fact and date(s) of manufacture or production of the finished articles (see 19 U.S.C. 1313(a) and (b)).

(d) *Approval of other accounting methods.* (1) Persons proposing to use an accounting method for identification of merchandise or articles for drawback purposes which has not been previously approved for such use (see paragraph (c) of this section), or which includes modifications from the methods listed in paragraph (c) of this section, may seek approval by Customs of the proposed accounting method under the provisions for obtaining an administrative ruling (see part 177 of this chapter). The conditions applied and the criteria used by Customs in approving such an alternative accounting method, or a modification of one of the approved accounting methods, will be the criteria in paragraph (b) of this section, as well as those in paragraph (d)(2) of this section.

(2) In order for a proposed accounting method to be approved by Customs for purposes of this section, it shall meet the following criteria:

(i) For purposes of calculations of drawback, the proposed accounting method must be either revenue neutral or favorable to the Government; and

(ii) The proposed accounting method should be:

(A) Generally consistent with commercial accounting procedures, as applicable for purposes of drawback;

(B) Consistent with inventory or material control records used in the ordinary course of business by the person proposing the method; and

(C) Easily administered by both Customs and the person proposing the method.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998; 63 FR 27489, May 19, 1998]

§ 191.15 Recordkeeping.

Pursuant to 19 U.S.C. 1508(c)(3), all records which pertain to the filing of a drawback claim or to the information contained in the records required by 19 U.S.C. 1313 in connection with the filing of a drawback claim shall be retained for 3 years after payment of such claims or longer period if required by law (under 19 U.S.C. 1508, the same records may be subject to a different period for different purposes).

Subpart B—Manufacturing Drawback

§ 191.21 Direct identification drawback.

Section 313(a) of the Act, as amended (19 U.S.C. 1313(a)), provides for drawback upon the exportation, or destruction under Customs supervision, of articles which are not used in the United States prior to their exportation or destruction, and which are manufactured or produced in the United States wholly or in part with the use of particular imported, duty-paid merchandise and/

or drawback product(s). Where two or more products result, drawback shall be distributed among the products in accordance with their relative value (see §191.2(u)) at the time of separation. Merchandise may be identified for drawback purposes under 19 U.S.C. 1313(a) in the manner provided for and prescribed in §191.14 of this part.

§191.22 Substitution drawback.

(a) *General.* If imported, duty-paid, merchandise and any other merchandise (whether imported or domestic) of the same kind and quality are used in the manufacture or production of articles within a period not to exceed 3 years from the receipt of the imported merchandise by the manufacturer or producer of the articles, then upon the exportation, or destruction under Customs supervision, of any such articles, without their having been used in the United States prior to such exportation or destruction, drawback is provided for in §313(b) of the Act, as amended (19 U.S.C. 1313(b)), even though none of the imported, duty-paid merchandise may have been used in the manufacture or production of the exported or destroyed articles. The amount of drawback allowable cannot exceed that which would have been allowable had the merchandise used therein been the imported, duty-paid merchandise. For purposes of drawback of internal revenue tax imposed under Chapters 32, 38, 51, and 52 of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export or destruction of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

(b) *Use by same manufacturer or producer at different factory.* Duty-paid merchandise or drawback products used at one factory of a manufacturer or producer within 3 years after the date on which the material was received by the manufacturer or producer may be designated as the basis for drawback on articles manufactured or produced in accordance with these regulations at other factories of the same manufacturer or producer.

(c) *Designation.* A manufacturer or producer may designate any eligible imported merchandise or drawback product which it has used in manufacture or production.

(d) *Designation by successor; 19 U.S.C. 1313(s)*—(1) *General rule.* Upon compliance with the requirements in this section and under 19 U.S.C. 1313(s), a drawback successor as defined in paragraph (d)(2) of this section may designate merchandise or drawback product used by a predecessor before the date of succession as the basis for drawback on articles manufactured or produced by the successor after the date of succession.

(2) *Drawback successor.* A ''drawback successor'' is a manufacturer or producer to whom another entity (predecessor) has transferred, by written agreement, merger, or corporate resolution:

(i) All or substantially all of the rights, privileges, immunities, powers, duties, and liabilities of the predecessor; or

(ii) The assets and other business interests of a division, plant, or other business unit of such predecessor, provided that the value of the transferred assets and interests (realty, personalty, and intangibles, exclusive of the drawback rights) exceeds the value of such drawback rights, whether vested or contingent.

(3) *Certifications and required evidence*—(i) *Records of predecessor.* The predecessor or successor must certify that the successor is in possession of the predecessor's records which are necessary to establish the right to drawback under the law and regulations with respect to the merchandise or drawback product.

(ii) *Merchandise not otherwise designated.* The predecessor or successor must certify in an attachment to the claim, that the predecessor has not designated and will not designate, nor enable any other person to designate, such merchandise or product as the basis for drawback.

(iii) *Value of transferred property.* In instances in which assets and other business interests of a division, plant, or other business unit of a predecessor are transferred, the predecessor or successor must specify, and maintain supporting records to establish, the value of the drawback rights and the value of all other transferred property.

(iv) *Review by Customs.* The written agreement, merger, or corporate resolution, provided for in paragraph (d)(2) of this section, and the records and evidence provided for in paragraph (d)(3)(i) through (iii) of this section, must be retained by the appropriate party(s) for 3 years from the date of payment of the related claim and are subject to review by Customs upon request.

(e) *Multiple products*—(1) *General.* Where two or more products are produced concurrently in a substitution manufacturing operation, drawback shall be distributed to each product in accordance with its relative value (see §191.2(u)) at the time of separation.

(2) *Claims covering a manufacturing period.* Where the claim covers a manufacturing period rather than a manufacturing lot, the entire period covered by the claim is the time of separation of the products and the value per unit of product is the market value for the period (see §191.2(u) of this part). Manufacturing periods in excess of one month may not be used without specific approval of Customs.

(3) *Recordkeeping.* Records shall be maintained showing the relative value of each product at the time of separation.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§191.23 Methods of claiming drawback.

(a) *Used in.* Drawback may be paid based on the amount of the imported or substituted merchandise used in the manufacture of the exported article, where there is no waste or the waste is valueless or unrecoverable. This method must be used when multiple products also necessarily and concurrently result from the manufacturing process, and there is no valuable waste (see paragraph (c) of this section).

(b) *Appearing in.* Drawback is allowable under this method based only on the amount of imported or substituted merchandise that appears in (is contained in) the exported articles. This method may not be used if there are multiple products also necessarily and concurrently resulting from the manufacturing process.

(c) *Used in less valuable waste.* Drawback is allowable under this method based on the quantity of merchandise or drawback products used to manufacture the exported or destroyed article, reduced by an amount equal to the quantity of this merchandise that the value of the waste would replace. This method must be used when multiple products also necessarily and concurrently result from the manufacturing process, and there is valuable waste.

(d) *Abstract or schedule.* A drawback claimant may use either the abstract or schedule method to show the quantity of material used or appearing in the exported or destroyed article. An abstract is the summary of records which shows the total quantity used in or appearing in all articles produced during the period covered by the abstract. A schedule shows the quantity of material used in producing, or appearing in, each unit of product. Manufacturers or producers submitting letters of notification of intent to operate under a general manufacturing drawback ruling (see §191.7) and applicants for approval of specific manufacturing drawback rulings (see §191.8) shall state whether the abstract or schedule method is used; if no such statement is made, drawback claims must be based upon the abstract method.

(e) *Recordkeeping*—(1) *Valuable waste.* When the waste has a value and the drawback claim is not limited to the quantity of imported or substituted merchandise or drawback products appearing in the exported or destroyed articles claimed for drawback, the manufacturer or producer shall keep records to show the market value of the merchandise or drawback products used to manufacture or produce the exported or destroyed articles, as well as the market value of the resulting waste, under the used in less valuable waste method (see §191.2(u) of this part).

(2) *If claim for waste is waived.* If claim for waste is waived, only the ''appearing in'' basis may be used (see paragraph (b) of this section). Waste

records need not be kept unless required to establish the quantity of imported duty-paid merchandise or drawback products appearing in the exported or destroyed articles claimed for drawback.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.24 Certificate of manufacture and delivery.

(a) *When required.* When an article or drawback product manufactured or produced under a general manufacturing drawback ruling or a specific manufacturing drawback ruling is transferred from the manufacturer or producer to another party, a certificate of manufacture and delivery shall be prepared and certified by the manufacturer.

(b) *Information required on certificate.* The following information shall be required on the certificate of manufacture and delivery executed by the manufacturer or producer:

(1) The person to whom the article or drawback product is delivered;

(2) If the article or drawback product was manufactured or produced under a general manufacturing drawback ruling, the unique computer-generated number assigned to the letter of acknowledgment for that ruling, and if the article or drawback product was manufactured or produced under a specific manufacturing drawback ruling, either the unique computer number or the T.D. number for that ruling;

(3) The quantity, kind and quality of imported, duty-paid merchandise or drawback product designated;

(4) Import entry numbers, HTSUS number for the imported merchandise to at least the 6th digit (such HTSUS number shall be from the entry summary and other entry documentation for the imported, duty-paid merchandise unless the issuer of the certificate of manufacture and delivery received the merchandise under another certificate (either of delivery or of manufacture and delivery), in which case such HTSUS number shall be from the other certificate), and applicable duty amounts;

(5) Date received at factory;

(6) Date used in manufacture;

(7) Value at factory, if applicable;

(8) Quantity of waste, if any, if applicable;

(9) Market value of any waste, if applicable;

(10) Total quantity and description of merchandise appearing in or used;

(11) Total quantity and description of articles produced;

(12) Date of manufacture or production of the articles;

(13) The quantity of articles transferred; and

(14) The person from whom the article or drawback product is delivered.

(c) *Filing of certificate.* The certificate of manufacture and delivery shall be filed with the drawback claim it supports (unless previously filed) (see § 191.51 of this part).

(d) *Effect of certificate.* A certificate of manufacture and delivery documents the delivery of articles from the manufacturer or producer to another party, identifies such articles as being those to which a potential right to drawback exists, and assigns such potential rights to the transferee (see also § 191.82 of this part).

§ 191.25 Destruction under Customs supervision.

A claimant may destroy merchandise and obtain manufacturing drawback by complying with the procedures set forth in § 191.71 of this part relating to destruction.

§ 191.26 Recordkeeping for manufacturing drawback.

(a) *Direct identification manufacturing*—(1) *Records required.* Each manufacturer or producer under 19 U.S.C. 1313(a) shall keep records to allow the verifying Customs official to trace all articles manufactured or produced for exportation or destruction with drawback, from importation, through production, to exportation or destruction. To this end, these records shall specifically establish:

(i) The date or inclusive dates of manufacture or production;

(ii) The quantity and identity of the imported duty-paid merchandise or drawback products used in or appearing in (see § 191.23) the articles manufactured or produced;

(iii) The quantity, if any, of the non-drawback merchandise used, when

these records are necessary to determine the quantity of imported duty-paid merchandise or drawback product used in the manufacture or production of the exported or destroyed articles or appearing in them;

(iv) The quantity and description of the articles manufactured or produced;

(v) The quantity of waste incurred, if applicable; and

(vi) That the finished articles on which drawback is claimed were exported or destroyed within 5 years after the importation of the duty-paid merchandise, without having been used in the United States prior to such exportation or destruction. (If the completed articles were commingled after manufacture, their identity may be maintained in the manner prescribed in §191.14 of this part.)

(2) *Accounting.* The merchandise and articles to be exported or destroyed shall be accounted for in a manner which will enable the manufacturer, producer, or claimant:

(i) To determine, and the Customs official to verify, the applicable import entry, certificate of delivery, and/or certificate of manufacture and delivery associated with the claim; and

(ii) To identify with respect to that import entry, certificate of delivery, and/or certificate of manufacture and delivery, the imported duty-paid merchandise or drawback products used in manufacture or production.

(b) *Substitution manufacturing.* The records of the manufacturer or producer of articles manufactured or produced in accordance with 19 U.S.C. 1313(b) shall establish the facts in paragraph (a)(1)(i), (iv) through (vi) of this section, and:

(1) The quantity, identity, and specifications of the merchandise designated (imported duty-paid, or drawback product);

(2) The quantity, identity, and specifications of merchandise of the same kind and quality as the designated merchandise before its use to manufacture or produce (or appearing in) the exported or destroyed articles;

(3) That, within 3 years after receiving the designated merchandise at its plant, the manufacturer or producer used it in manufacturing or production and that during the same 3-year period it manufactured or produced the exported or destroyed articles; and

(4) If the designated merchandise is a chemical element that was contained in imported material that was subject to an *ad valorem* rate of duty, and a substitution drawback claim is made based on that chemical element:

(i) The duty paid on the imported material must be apportioned among its constituent components. The claim on the chemical element that is the designated merchandise must be limited to the duty apportioned to that element on a unit-for-unit attribution using the unit of measure set forth in the Harmonized Tariff Schedule of the United States (HTSUS) that is applicable to the imported material. If the material is a compound with other constituents, including impurities, and the purity of the compound in the imported material is shown by satisfactory analysis, that purity, converted to a decimal equivalent of the percentage, is multiplied against the entered amount of the material to establish the amount of pure compound. The amount of the element in the pure compound is to be determined by use of the atomic weights of the constituent elements and converting to the decimal equivalent of their respective percentages and multiplying that decimal equivalent against the above-determined amount of pure compound.

(ii) The amount claimed as drawback based on the chemical element must be deducted from the duty paid on the imported material that may be claimed on any other drawback claim.

Example to paragraph (b)(4): Synthetic rutile that is shown by appropriate analysis in the entry papers to be 91.7% pure titanium dioxide is imported and dutiable at a 5% *ad valorem* duty rate. The amount of imported synthetic rutile is 30,000 pounds with an entered value of $12,000. The total duty paid is $600. Titanium in the synthetic rutile is designated as the basis for a drawback claim under 19 U.S.C. 1313(b). The amount of titanium dioxide in the synthetic rutile is determined by converting the purity percentage (91.7%) to its decimal equivalent (.917) and multiplying the entered amount of synthetic rutile (30,000 pounds) by that decimal equivalent (.917 × 30,000 = 27,510 pounds of titanium dioxide contained in the 30,000 pounds of imported synthetic rutile). The titanium, based on atomic weight, represents 59.93% of the

constituents in titanium dioxide. Multiplying that percentage, converted to its decimal equivalent, by the amount of titanium dioxide determines the titanium content of the imported synthetic rutile (.5993 × 27,510 pounds of titanium dioxide = 16,486.7 pounds of titanium contained in the imported synthetic rutile). Therefore, up to 16,486.7 pounds of titanium is available to be designated as the basis for drawback. As the per-unit duty paid on the synthetic rutile is calculated by dividing the duty paid ($600) by the amount of imported synthetic rutile (30,000 pounds), the per-unit duty is two cents of duty per pound of the imported synthetic rutile ($600 ÷ 30,000 = $0.02). The duty on the titanium is calculated by multiplying the amount of titanium contained in the imported synthetic rutile by two cents of duty per pound (16,486.7 × $0.02 = $329.73 duty apportioned to the titanium). The product is then multiplied by 99% to determine the maximum amount of drawback available ($329.73 × .99 = $326.44). If an exported titanium alloy ingot weighs 17,000 pounds, in which 16,000 pounds of titanium was used to make the ingot, drawback is determined by multiplying the duty per pound ($0.02) by the weight of the titanium contained in the ingot (16,000 pounds) to calculate the duty available for drawback ($0.02 × 16,000 = $320.00). Because only 99% of the duty can be claimed, drawback is determined by multiplying this available duty amount by 99% (.99 × $320.00 = $316.80). As the oxygen content of the titanium dioxide is 45% of the synthetic rutile, if oxygen is the designated merchandise on another drawback claim, 45% of the duty claimed on the synthetic rutile would be available for drawback based on the substitution of oxygen.

(c) *Valuable waste records.* When waste has a value and the manufacturer, producer, or claimant, has not limited the claims based on the quantity of imported or substituted merchandise appearing in the articles exported or destroyed, the manufacturer or producer shall keep records to show the market value of the merchandise used to manufacture or produce the exported or destroyed article, as well as the quantity and market value of the waste incurred (see §191.2(u) of this part). In such records, the quantity of merchandise identified or designated for drawback, under 19 U.S.C. 1313(a) or 1313(b), respectively, shall be based on the quantity of merchandise actually used to manufacture or produce the exported or destroyed articles. The waste replacement reduction will be determined by reducing from the quantity of merchandise actually used the amount of merchandise which the value of the waste would replace.

(d) *Purchase of manufactured articles for exportation.* Where the claimant purchases articles from the manufacturer and exports them, the claimant shall file the related certificate of manufacture and delivery as part of the claim (see §191.51(a)(1) of this part).

(e) *Multiple claimants*—(1) *General.* Multiple claimants may file for drawback with respect to the same export (for example, if an automobile is exported, where different parts of the automobile have been produced by different manufacturers under drawback conditions and the exporter waives the right to claim drawback and assigns such right to the manufacturers under §191.82 of this part).

(2) *Procedures*—(i) *Submission of letter.* Each drawback claimant shall file a separate letter, as part of the claim, describing the component article on the export bill of lading to which each claim will relate. Each letter shall show the name of the claimant and bear a statement that the claim shall be limited to its respective component article. The exporter shall endorse the letters, as required, to show the respective interests of the claimants.

(ii) *Blanket waivers and assignments of drawback rights.* Exporters may waive and assign their drawback rights for all, or any portion, of their exportations with respect to a particular commodity for a given period to a drawback claimant.

(iii) *Use of export summary procedure.* If the parties elect to use the export summary procedure (§191.73 of this part) each drawback claimant shall complete a chronological summary of exports for the respective component product to which each claim will relate. Each claimant shall identify in the chronological summary the name of the other claimant(s) and the component product for which each will independently claim drawback, if known at the time the drawback claim is filed. The exporter shall endorse the summaries, as required, to show the respective interests of the claimants. Each claimant shall have on file and

make available to Customs upon request, the endorsement from the exporter assigning the right to claim drawback.

(f) *Retention of records.* Pursuant to 19 U.S.C. 1508(c)(3), all records required to be kept by the manufacturer, producer, or claimant with respect to drawback claims, and records kept by others to complement the records of the manufacturer, producer, or claimant with respect to drawback claims shall be retained for 3 years after the date of payment of the related claims (under 19 U.S.C. 1508, the same records may be subject to a different retention period for different purposes).

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–38, 67 FR 48370, July 24, 2002; CBP Dec. 03–23, 68 FR 50703, Aug. 22, 2003]

§ 191.27 Time limitations.

(a) *Direct identification manufacturing.* Drawback shall be allowed on imported merchandise used to manufacture or produce articles that are exported or destroyed under Customs supervision within 5 years after importation of the merchandise identified to support the claim.

(b) *Substitution manufacturing.* Drawback shall be allowed on the imported merchandise if the following conditions are met:

(1) The designated merchandise is used in manufacture or production within 3 years after receipt by the manufacturer or producer at its factory;

(2) Within the 3-year period described in paragraph (b)(1) of this section, the exported or destroyed articles, or drawback products, were manufactured or produced; and

(3) The completed articles must be exported or destroyed under Customs supervision within 5 years of the date of importation of the designated merchandise, or within 5 years of the earliest date of importation associated with a drawback product.

(c) *Drawback claims filed before specific or general manufacturing drawback ruling approved or acknowledged.* Drawback claims may be filed before the letter of notification of intent to operate under a general manufacturing drawback ruling covering the claims is acknowledged (§ 191.7), or before the specific manufacturing drawback ruling covering the claims is approved (§ 191.8), but no drawback shall be paid until such acknowledgement or approval, as appropriate.

§ 191.28 Person entitled to claim drawback.

The exporter (or destroyer) shall be entitled to claim drawback, unless the exporter (or destroyer), by means of a certification, assigns the right to claim drawback to the manufacturer, producer, importer, or intermediate party. Such certification shall also affirm that the exporter (or destroyer) has not and will not itself claim drawback or assign the right to claim drawback on the particular exportation or destruction to any other party. The certification provided for under this section may be a blanket certification for a stated period. Drawback is paid to the claimant, who may be the manufacturer, producer, intermediate party, importer, or exporter (destroyer).

Subpart C—Unused Merchandise Drawback

§ 191.31 Direct identification.

(a) *General.* Section 313(j)(1) of the Act, as amended (19 U.S.C. 1313(j)(1)), provides for drawback upon the exportation or destruction under Customs supervision of imported merchandise upon which was paid any duty, tax, or fee imposed under Federal law because of its importation, if the merchandise has not been used within the United States before such exportation or destruction.

(b) *Time of exportation or destruction.* Drawback shall be allowed on imported merchandise if, before the close of the 3-year period beginning on the date of importation, the merchandise is exported from the United States or destroyed under Customs supervision.

(c) *Operations performed on imported merchandise.* In cases in which an operation or operations is or are performed on the imported merchandise, the performing of any operation or combination of operations, not amounting to manufacture or production under the provisions of the manufacturing drawback law, on the imported merchandise

is not a use of that merchandise for purposes of this section.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.32 Substitution drawback.

(a) *General.* Section 313(j)(2) of the Act, as amended (19 U.S.C. 1313(j)(2)), provides for drawback on merchandise which is commercially interchangeable with imported merchandise if the commercially interchangeable merchandise is exported, or destroyed under Customs supervision, before the close of the 3-year period beginning on the date of importation of the imported merchandise, and before such exportation or destruction, the commercially interchangeable merchandise is not used in the United States (see paragraph (e) of this section) and is in the possession of the party claiming drawback.

(b) *Requirements.* (1) The claimant must have possessed the substituted merchandise that was exported or destroyed, as provided in paragraph (d)(1) of this section;

(2) The substituted merchandise must be commercially interchangeable with the imported merchandise that is designated for drawback;

(3) The substituted merchandise exported or destroyed must not have been used in the United States before its exportation or destruction (see paragraph (e) of this section); and

(4) For purposes of drawback of internal revenue tax imposed under Chapters 32, 38 (with the exception of Subchapter A of Chapter 38), 51, and 52 of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export or destruction of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

(c) *Determination of commercial interchangeability.* In determining commercial interchangeability, Customs shall evaluate the critical properties of the substituted merchandise and in that evaluation factors to be considered include, but are not limited to, Governmental and recognized industrial standards, part numbers, tariff classification and value. A party may seek a nonbinding predetermination of commercial interchangeability directly from the appropriate drawback office. A determination of commercial interchangeability can be obtained in one of two ways:

(1) A formal ruling from the Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade; or

(2) A submission of all the required documentation necessary to make a commercial interchangeability determination with each individual drawback claim filed.

(d) *Time limitations.* For substitution unused merchandise drawback:

(1) The claimant must have had possession of the exported or destroyed merchandise at some time during the 3-year period following the date of importation of the imported designated merchandise; and

(2) The merchandise to be exported or destroyed to qualify for drawback must be exported, or destroyed under Customs supervision, before the close of the 3-year period beginning on the date of importation of the imported designated merchandise.

(e) *Operations performed on substituted merchandise.* In cases in which an operation or operations is or are performed on the substituted merchandise, the performing of any operation or combination of operations, not amounting to manufacture or production under the provisions of the manufacturing drawback law, on the commercially interchangeable substituted merchandise is not a use of that merchandise for purposes of this section.

(f) *Designation by successor; 19 U.S.C. 1313(s)*—(1) *General rule.* Upon compliance with the requirements of this section and under 19 U.S.C. 1313(s), a drawback successor as defined in paragraph (f)(2) of this section may designate either of the following as the basis for drawback on merchandise possessed by the successor after the date of succession:

(i) Imported merchandise which the predecessor, before the date of succession, imported; or

(ii) Imported and/or commercially interchangeable merchandise which was transferred to the predecessor and for which the predecessor received, before the date of succession, a certificate of delivery from the person who

imported and paid duty on the imported merchandise.

(2) *Drawback successor*. A ''drawback successor'' is an entity to which another entity (predecessor) has transferred, by written agreement, merger, or corporate resolution:

(i) All or substantially all of the rights, privileges, immunities, powers, duties, and liabilities of the predecessor; or

(ii) The assets and other business interests of a division, plant, or other business unit of such predecessor, provided that the value of the transferred assets and interests (realty, personality, and intangibles, exclusive of the drawback rights) exceeds the value of such drawback rights, whether vested or contingent.

(3) *Certifications and required evidence*—(i) *Records of predecessor*. The predecessor or successor must certify in an attachment to the drawback claim that the successor is in possession of the predecessor's records which are necessary to establish the right to drawback under the law and regulations with respect to the imported and/or commercially interchangeable merchandise.

(ii) *Merchandise not otherwise designated*. The predecessor or successor must certify in an attachment to the drawback claim, that the predecessor has not and will not designate, nor enable any other person to designate, the imported and/or commercially interchangeable merchandise as the basis for drawback.

(iii) *Value of transferred property*. In instances in which assets and other business interests of a division, plant, or other business unit of a predecessor are transferred, the predecessor or successor must specify, and maintain supporting records to establish, the value of the drawback rights and the value of all other transferred property.

(iv) *Review by Customs*. The written agreement, merger, or corporate resolution, provided for in paragraph (f)(2) of this section, and the records and evidence provided for in paragraph (f)(3)(i) through (iii) of this section, must be retained by the appropriate party(ies) for 3 years from the date of payment of the related claim and are subject to review by Customs upon request.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998, as amended by USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.33 Person entitled to claim drawback.

(a) *Direct identification*. (1) Under 19 U.S.C. 1313(j)(1), the exporter (or destroyer) shall be entitled to claim drawback.

(2) The exporter or destroyer may waive the right to claim drawback and assign such right to the importer or any intermediate party. A drawback claimant under 19 U.S.C. 1313(j)(1) other than the exporter or destroyer shall secure and retain a certification signed by the exporter or destroyer that such party waived the right to claim drawback, and did not and will not authorize any other party to claim the exportation or destruction for drawback (see §191.82 of this part). The certification provided for under this section may be a blanket certification for a stated period. The claimant shall file such certification at the time of, or prior to, the filing of the claim(s) covered by the certification.

(b) *Substitution*. (1) Under 19 U.S.C. 1313(j)(2), the following parties may claim drawback:

(i) In situations where the exporter or destroyer of the substituted merchandise is also the importer of the imported merchandise, that party shall be entitled to claim drawback.

(ii) In situations where the exporter or destroyer receives from the person who imported and paid the duty on the imported merchandise a certificate of delivery documenting the transfer of imported merchandise, commercially interchangeable merchandise, or any combination of imported and commercially interchangeable merchandise, and exports or destroys such transferred merchandise, that exporter or destroyer shall be entitled to claim drawback. (Any such transferred merchandise, regardless of its origin, will be treated as imported merchandise for purposes of drawback under §1313(j)(2), and any retained merchandise will be treated as domestic merchandise.)

(iii) In situations where the transferred merchandise described in paragraph (b)(1)(ii) of this section is the subject of further transfer(s), such transfer(s) shall be documented by certificate(s) of delivery, and the exporter or destroyer shall be entitled to claim drawback (multiple substitutions are not permitted).

(2) The exporter or destroyer may waive the right to claim drawback and assign such right to the importer or to any intermediate party, provided that the claimant had possession of the substituted merchandise prior to its exportation or destruction. A drawback claimant under 19 U.S.C. 1313(j)(2) other than the exporter or destroyer shall secure and retain a certification signed by the exporter or destroyer that such party waived the right to claim drawback, and did not and will not authorize any other party to claim the exportation or destruction for drawback (see §191.82 of this part). The certification provided for under this section may be a blanket certification for a stated period. The claimant shall file such certification at the time of, or prior to, the filing of the claim(s) covered by the certification.

§191.34 Certificate of delivery required.

(a) *Direct identification; purpose; when required.* If the exported or destroyed merchandise claimed for drawback under 19 U.S.C. 1313(j)(1) was not imported by the exporter or destroyer, a properly executed certificate of delivery must be prepared by the importer and each intermediate party. Each such transfer of the merchandise must be documented by its own certificate of delivery.

(1) *Completion.* The certificate of delivery shall be completed as provided in §191.10 of this part. Each party must also certify on the certificate of delivery that the party did not use the transferred merchandise (see §191.31(c) of this part).

(2) *Retention; submission to Customs.* The certificate of delivery shall be retained by the party to whom the merchandise or article covered by the certificate was delivered. Customs may request the certificate from the claimant for the drawback claim based upon the certificate (see §§191.51, 191.52). If the certificate is requested by Customs, but is not provided by the claimant, the part of the drawback claim dependent on that certificate will be denied.

(b) *Substitution.* For purposes of substitution unused merchandise drawback, 19 U.S.C. 1313(j)(2), if the importer, or a party who received imported merchandise and a certificate of delivery for that imported merchandise, directly or indirectly, from the importer, transfers to another party imported merchandise, duty-paid merchandise, commercially interchangeable merchandise, or any combination thereof, the transferor shall prepare and issue in favor of such party a certificate of delivery covering the transferred merchandise. The certificate of delivery must expressly state that it is prepared pursuant to 19 U.S.C. 1313(j)(2). Merchandise so transferred for which drawback is allowed under 19 U.S.C. 1313(j)(2) may not be designated for any other drawback purposes. Each transfer, whether of the imported merchandise or of imported merchandise, duty-paid merchandise, commercially interchangeable merchandise, or any combination thereof, must be documented by its own certificate of delivery. Certificates of delivery under this paragraph are subject to the provisions for completion and retention of certificates of delivery in paragraphs (a)(1) and (a)(2) of this section.

(c) *Warehouse transfer and withdrawals.* The person in whose name merchandise is withdrawn from a bonded warehouse shall be considered the importer for drawback purposes. No certificate of delivery need be prepared covering prior transfers of merchandise while in a bonded warehouse, because such transfers will be recorded in the warehouse entry (see §144.22 of this chapter).

§191.35 Notice of intent to export; examination of merchandise.

(a) *Notice.* A notice of intent to export merchandise which may be the subject of an unused merchandise drawback claim (19 U.S.C. 1313(j)) must be provided to the Customs Service to give Customs the opportunity to examine the merchandise. The claimant, or the exporter, must file at the port of

intended examination a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on Customs Form 7553 at least 2 working days prior to the date of intended exportation unless Customs approves another filing period or the claimant has been granted a waiver of prior notice (see §191.91 of this part).

(b) *Required Information.* The notice shall certify that the merchandise has not been used in the United States before exportation. In addition, the notice shall provide the bill of lading number, if known, the name and telephone number, mailing address, and, if available, fax number and e-mail address of a contact person, and the location of the merchandise.

(c) *Decision to examine or to waive examination.* Within two (2) working days after receipt of the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback (see paragraph (a) of this section), Customs will notify the party designated on the Notice in writing of Customs decision to either examine the merchandise to be exported, or to waive examination. If Customs timely notifies the designated party, in writing, of its decision to examine the merchandise (see paragraph (d) of this section), but the merchandise is exported without having been presented to Customs for examination, any drawback claim, or part thereof, based on the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback shall be denied. If Customs notifies the designated party, in writing, of its decision to waive examination of the merchandise, or, if timely notification of a decision by Customs to examine or to waive examination is absent, the merchandise may be exported without delay.

(d) *Time and place of examination.* If Customs gives timely notice of its decision to examine the export merchandise, the merchandise to be examined shall be promptly presented to Customs. Customs shall examine the merchandise within five (5) working days after presentation of the merchandise. The merchandise may be exported without examination if Customs fails to timely examine the merchandise after presentation to Customs. If the examination is completed at a port other than the port of actual exportation, the merchandise shall be transported in-bond to the port of exportation.

(e) *Extent of examination.* The appropriate Customs office may permit release of merchandise without examination, or may examine routinely (to the extent determined to be necessary) the items exported.

§191.36 Failure to file Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback.

(a) *General; application.* Merchandise which has been exported without complying with the requirements of §191.35(a) or §191.91 of this part may be eligible for unused merchandise drawback under 19 U.S.C. 1313(j) subject to the following conditions:

(1) *Application.* The claimant must file a written application with the drawback office where the drawback claims will be filed. Such application shall include the following:

(i) Required information.

(A) Name, address, and Internal Revenue Service (IRS) number (with suffix) of applicant;

(B) Name, address, and Internal Revenue Service (IRS) number(s) (with suffix) of exporter(s), if applicant is not the exporter;

(C) Export period covered by this application;

(D) Commodity/product lines of imported and exported merchandise covered in this application;

(E) The origin of the above merchandise;

(F) Estimated number of export transactions covered in this application;

(G) Estimated number of drawback claims and estimated time of filing those claims to be covered in this application;

(H) The port(s) of exportation;

(I) Estimated dollar value of potential drawback to be covered in this application; and

(J) The relationship between the parties involved in the import and export transactions;

(ii) Written declarations regarding:

(A) The reason(s) that Customs was not notified of the intent to export; and

(B) Whether the applicant, to the best of its knowledge, will have future exportations on which unused merchandise drawback might be claimed; and

(iii) A certification that the following documentary evidence will be made available for Customs review upon request:

(A) For the purpose of establishing that the imported merchandise was not used in the United States (for purposes of drawback under 19 U.S.C. 1313(j)(1)) or that the exported merchandise was not used in the United States and was commercially interchangeable with the imported merchandise (for purposes of drawback under 19 U.S.C. 1313(j)(2)), and, as applicable:

(*1*) Business records prepared in the ordinary course of business;

(*2*) Laboratory records prepared in the ordinary course of business; and/or

(*3*) Inventory records prepared in the ordinary course of business tracing all relevant movements and storage of the imported merchandise, substituted merchandise, and/or exported merchandise; and

(B) Evidence establishing compliance with all other applicable drawback requirements.

(2) *One-Time Use.* The procedure provided for in this section may be used by a claimant only once, unless good cause is shown (for example, successorship).

(3) *Claims filed pending disposition of application.* Drawback claims may be filed under this section pending disposition of the application. However, those drawback claims will not be processed or paid until the application is approved by Customs.

(b) *Customs action.* In order for Customs to evaluate the application under this section, Customs may request, and the applicant shall provide, any of the information listed in paragraph (a)(1)(iii)(A)(*1*) through (*3*) of this section. In making its decision to approve or deny the application under this section, Customs will consider factors such as, but not limited to, the following:

(1) Information provided by the claimant in the written application;

(2) Any of the information listed in paragraph (a)(1)(iii)(A)(*1*) through (*3*) of this section and requested by Customs under this paragraph; and

(3) The applicant's prior record with Customs.

(c) *Time for Customs action.* Customs will notify the applicant in writing within 90 days after receipt of the application of its decision to approve or deny the application, or of Customs inability to approve, deny or act on the application and the reason therefor.

(d) *Appeal of denial of application.* If CBP denies the application, the applicant may file a written appeal with the drawback office which issued the denial, provided that the applicant files this appeal within 30 days of the date of denial. If CBP denies this initial appeal, the applicant may file a further written appeal with CBP Headquarters, Office of International Trade, Trade Policy and Programs, provided that the applicant files this further appeal within 30 days of the denial date of the initial appeal. CBP may extend the 30 day period for appeal to the drawback office or to CBP Headquarters, for good cause, if the applicant applies in writing for such extension within the appropriate 30 day period above.

(e) *Future intent to export unused merchandise.* If an applicant states it will have future exportations on which unused merchandise drawback may be claimed (see paragraph (a)(1)(ii)(B) of this section), the applicant will be informed of the procedures for waiver of prior notice (see § 191.91 of this part). If the applicant seeks waiver of prior notice under § 191.91, any documentation submitted to Customs to comply with this section will be included in the request under § 191.91. An applicant which states that it will have future exportations on which unused merchandise drawback may be claimed (see paragraph (a)(1)(ii)(B) of this section) and which does not obtain waiver of prior notice shall notify Customs of its intent to export prior to each such exportation, in accordance with § 191.35.

§ 191.37 Destruction under Customs supervision.

A claimant may destroy merchandise and obtain unused merchandise drawback by complying with the procedures set forth in § 191.71 of this part relating to destruction.

§ 191.38 Records.

(a) *Maintained by claimant; by others.* Pursuant to 19 U.S.C. 1508(c)(3), all records which are necessary to be maintained by the claimant under this part with respect to drawback claims, and records kept by others to complement the records of the claimant, which are essential to establish compliance with the legal requirements of 19 U.S.C. 1313(j)(1) or (j)(2), as applicable, and this part with respect to drawback claims, shall be retained for 3 years after payment of such claims (under 19 U.S.C. 1508, the same records may be subject to a different retention period for different purposes).

(b) *Accounting for the merchandise.* Merchandise subject to drawback under 19 U.S.C. 1313(j)(1) and (j)(2) shall be accounted for in a manner which will enable the claimant:

(1) To determine, and Customs to verify, the applicable import entry or certificate of delivery;

(2) To determine, and Customs to verify, the applicable exportation or destruction; and

(3) To identify with respect to the import entry or certificate of delivery, the imported duty-paid merchandise.

Subpart D—Rejected Merchandise

§ 191.41 Rejected merchandise drawback.

Section 313(c) of the Act, as amended (19 U.S.C. 1313(c)), provides for drawback upon the exportation or destruction under Customs supervision of imported merchandise which has been entered, or withdrawn from warehouse, for consumption, duty-paid; and which does not conform to sample or specifications; has been shipped without the consent of the consignee; or has been determined to be defective as of the time of importation. The claimant must show by evidence satisfactory to Customs that the exported or destroyed merchandise was defective at the time of importation, or was not in accordance with sample or specifications, or was shipped without the consent of the consignee (see subpart P for drawback of internal-revenue taxes for unmerchantable or nonconforming distilled spirits, wines, or beer).

§ 191.42 Procedures and supporting documentation.

(a) *Time limit for exportation or destruction.* Drawback will be denied on merchandise that is exported or destroyed after the statutory 3-year time period.

(b) *Required documentation.* The claimant must submit documentation to CBP as part of the complete drawback claim (*see* § 191.51) to establish that the merchandise did not conform to sample or specification, was shipped without the consent of the consignee, or was defective as of the time of importation (*see* § 191.45 for additional requirements for claims made with respect to rejected retail merchandise under 19 U.S.C. 1313(c)(1)(C)(ii)). If the claimant was not the importer, the claimant must also:

(1) Submit a statement signed by the importer and every other person, other than the ultimate purchaser, that owned the goods that no other claim for drawback was made on the goods by any other person; and

(2) Certify that records are available to support the statement required in paragraph (b)(1) of this section.

(c) *Notice.* A notice of intent to export or destroy merchandise which may be the subject of a rejected merchandise drawback claim (19 U.S.C. 1313(c)) must be provided to CBP to give CBP the opportunity to examine the merchandise. The claimant, or the exporter (for destruction under CBP supervision, see § 191.71), must file at the port of intended redelivery to CBP custody a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on CBP Form 7553 at least 5 working days prior to the date of intended return to CBP custody.

(d) *Required information.* The notice must provide the bill of lading number, if known, the name and telephone number, mailing address, and, if available,

fax number and email address of a contact person, and the location of the merchandise.

(e) *Decision to waive examination.* Within 2 working days after receipt of the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback (*see* paragraph (c) of this section), CBP will notify, in writing, the party designated on the Notice of CBP's decision to either examine the merchandise to be exported or destroyed, or to waive examination. If CBP timely notifies the designated party, in writing, of its decision to examine the merchandise (*see* paragraph (f) of this section), but the merchandise is exported or destroyed without having been presented to CBP for such examination, any drawback claim, or part thereof, based on the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback, must be denied. If CBP notifies the designated party, in writing, of its decision to waive examination of the merchandise, or, if timely notification of a decision by CBP to examine or to waive examination is absent, the merchandise may be exported or destroyed without delay and will be deemed to have been returned to CBP custody.

(f) *Time and place of examination.* If CBP gives timely notice of its decision to examine the merchandise to be exported or destroyed, the merchandise to be examined must be promptly presented to CBP. CBP must examine the merchandise within 5 working days after presentation of the merchandise. The merchandise may be exported or destroyed without examination if CBP fails to timely examine the merchandise after presentation to CBP, and in such case the merchandise will be deemed to have been returned to CBP custody. If the examination is to be completed at a port other than the port of actual exportation or destruction, the merchandise must be transported in-bond to the port of exportation or destruction.

(g) *Extent of examination.* The appropriate CBP office may permit release of merchandise without examination, or may examine, to the extent determined to be necessary, the items exported or destroyed.

(h) *Drawback claim.* When filing the drawback claim, the drawback claimant must correctly calculate the amount of drawback due (*see* § 191.51(b)). The procedures for restructuring a claim (*see* § 191.53) apply to rejected merchandise drawback if the claimant has an ongoing export program which qualifies for this type of drawback.

(i) *Exportation.* Claimants must provide documentary evidence of exportation (*see* subpart G of this part). The claimant may establish exportation by mail as set out in § 191.74.

[USCBP–2018–0029, 83 FR 65064, Dec. 18, 2018]

§ 191.43 Unused merchandise claim.

Rejected merchandise may be the subject of an unused merchandise drawback claim under 19 U.S.C. 1313(j)(1), in accordance with subpart C of this part, to the extent that the merchandise qualifies therefor.

§ 191.44 Destruction under Customs supervision.

A claimant may destroy merchandise and obtain rejected merchandise drawback by complying with the procedures set forth in § 191.71 of this part relating to destruction.

§ 191.45 Returned retail merchandise.

(a) *Special rule for substitution.* Section 313(c)(1)(C)(ii) of the Tariff Act of 1930, as amended (19 U.S.C. 1313(c)(1)(C)(ii)), provides for drawback upon the exportation or destruction under CBP supervision of imported merchandise which has been entered, or withdrawn from warehouse, for consumption, duty-paid and ultimately sold at retail by the importer, or the person who received the merchandise from the importer, and for any reason returned to and accepted by the importer, or the person who received the merchandise from the importer.

(b) *Eligibility requirements.* (1) Drawback is allowable, subject to compliance with all requirements set forth in this subpart; and

(2) The claimant must also show by evidence satisfactory to CBP that drawback may be claimed by—

(i) Designating an entry of merchandise that was imported within 1 year

before the date of exportation or destruction of the merchandise described in paragraph (a) of this section under CBP supervision.

(ii) Certifying that the same 8-digit HTSUS subheading number and specific product identifier (such as part number, SKU, or product code) apply to both the merchandise designated for drawback (in the import documentation) and the returned merchandise.

(c) *Allowable refund.* The amount of drawback allowable will not exceed 99 percent of the amount of duties, taxes, and fees paid with respect to the imported merchandise.

(d) *Denial of claims.* No drawback will be refunded if CBP is not satisfied that the claimant has provided, upon request, the documentation necessary to support the certification required in paragraph (b)(2)(ii) of this section.

[USCBP–2018–0029, 83 FR 65065, Dec. 18, 2018]

Subpart E—Completion of Drawback Claims

§ 191.51 Completion of drawback claims.

(a) *General*—(1) *Complete claim.* Unless otherwise specified, a complete drawback claim under this part shall consist of the drawback entry on Customs Form 7551, applicable certificate(s) of manufacture and delivery, applicable Notice(s) of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback, applicable import entry number(s), coding sheet unless the data is filed electronically, and evidence of exportation or destruction under subpart G of this part.

(2) *Certificates.* Additionally, at the time of the filing of the claim, the associated certificate(s) of delivery must be in the possession of the party to whom the merchandise or article covered by the certificate was delivered. Any required certificate(s) of manufacture and delivery, if not previously filed with Customs, must be filed with the claim. Previously filed certificates of manufacture and delivery, if required, shall be referenced in the claim.

(3) *Limitation on eligibility for imported merchandise.* Claimants filing any drawback claims under this part for imported merchandise associated with an entry summary if any other merchandise covered on that entry summary has been designated as the basis of a drawback substitution claim under part 190 of this chapter must provide additional information enabling CBP to verify the availability of drawback for the indicated merchandise and associated line item within 30 days of claim submission. The information to be provided will include, but is not limited to: Summary document specifying the lines used and unused on the import entry; the import entry summary, corresponding commercial invoices, and copies of all drawback claims that previously designated the import entry summary; and post summary/liquidation changes (for imports or drawback claims, if applicable).

(b) *Drawback due*—(1) *Claimant required to calculate drawback.* Drawback claimants are required to correctly calculate the amount of drawback due. The amount of drawback requested on the drawback entry is generally to be 99 percent of the import duties eligible for drawback. (For example, if $1,000 in import duties are eligible for drawback less 1 percent ($10), the amount claimed on the drawback entry should be for $990.) Claims exceeding 99 percent (or 100% when 100% of the duty is available for drawback) will not be paid until the calculations have been corrected by the claimant. Claims for less than 99 percent (or 100% when 100% of the duty is available for drawback) will be paid as filed, unless the claimant amends the claim in accordance with § 191.52(c).

(2) *Merchandise processing fee apportionment calculation.* Where a drawback claimant seeks unused merchandise drawback pursuant to 19 U.S.C. 1313(j), or drawback for substitution of finished petroleum derivatives pursuant to 19 U.S.C. 1313(p)(2)(A)(iii) or (iv), for a merchandise processing fee paid pursuant to 19 U.S.C. 58c(a)(9)(A), the claimant is required to correctly apportion the fee to that merchandise that provides the basis for drawback when calculating the amount of drawback requested on the drawback entry. This is determined as follows:

(i) *Relative value ratio for each line item.* The value of each line item of entered merchandise subject to a merchandise processing fee is calculated (to four decimal places) by dividing the value of the line item subject to the fee by the total value of entered merchandise subject to the fee. The resulting value forms the relative value ratio.

(ii) *Merchandise processing fee apportioned to each line item.* To apportion the merchandise processing fee to each line item, the relative value ratio for each line item is multiplied by the merchandise processing fee paid.

(iii) *Amount of merchandise processing fee eligible for drawback per line item.* The amount of merchandise processing fee apportioned to each line item is multiplied by 99 percent to calculate that portion of the fee attributable to each line item that is eligible for drawback.

(iv) *Amount of merchandise processing fee eligible for drawback per unit of merchandise.* To calculate the amount of a merchandise processing fee eligible for drawback per unit of merchandise, the line item amount that is eligible for drawback is divided by the number of units covered by that line item (to two decimal places).

Example 1:

Line item 1—5,000 articles valued at $10 each total $50,000

Line item 2—6,000 articles valued at $15 each total $90,000

Line item 3—10,000 articles valued at $20 each total $200,000

Total units = 21,000

Total value = $340,000

Merchandise processing fee = $485 (for purposes of this example, the fee cap of $485, as per 19 U.S.C. 58c(a)(9)(B)(i), is applicable)

Line item relative value ratios. The relative value ratio for line item 1 is calculated by dividing the value of that line item by the total value ($50,000 ÷ 340,000 = .1470). The relative value ratio for line item 2 is .2647. The relative value ratio for line item 3 is .5882.

Merchandise processing fee apportioned to each line item. The amount of fee attributable to each line item is calculated by multiplying $485 by the applicable relative value ratio. The amount of the $485 fee attributable to line item 1 is $71.295 (.1470 × $485 = $71.295). The amount of the fee attributable to line item 2 is $128.3795 (.2647 × $485 = $128.3795). The amount of the fee attributable to line item 3 is $285.277 (.5882 × $485 = $285.277).

Amount of merchandise processing fee eligible for drawback per line item. The amount of merchandise processing fee eligible for drawback for line item 1 is $70.5821 ÷ (.99 × $71.295). The amount of fee eligible for drawback for line item 2 is $127.0957 (.99 × $128.3795). The amount of fee eligible for drawback for line item 3 is $282.4242 (.99 × $285.277).

Amount of merchandise processing fee eligible for drawback per unit of merchandise. The amount of merchandise processing fee eligible for drawback per unit of merchandise is calculated by dividing the amount of fee eligible for drawback for the line item by the number of units in the line item. For line item 1, the amount of merchandise processing fee eligible for drawback per unit is $.0141 ($70.5821 ÷ 5,000 = $.0141). If 1,000 widgets form the basis of a claim for drawback under 19 U.S.C. 1313(j), the total amount of drawback attributable to the merchandise processing fee is $14.10 (1,000 × .0141 = $14.10). For line item 2, the amount of fee eligible for drawback per unit is $.0212 ($127.0957 ÷ 6,000 = $.0212). For line item 3, the amount of fee eligible for drawback per unit is $.0282 ($282.4242 ÷ 10,000 = $.0282).

Example 2: This example illustrates the treatment of dutiable merchandise that is exempt from the merchandise processing fee and duty-free merchandise that is subject to the merchandise processing fee.

Line item 1—700 meters of printed cloth valued at $10 per meter (total value $7,000) that is exempt from the merchandise processing fee under 19 U.S.C. 58c(b)(8)(B)(iii)

Line item 2—15,000 articles valued at $100 each (total value $1,500,000)

Line item 3—10,000 duty-free articles valued at $50 each (total value $500,000)

The relative value ratios are calculated using line items 2 and 3 only, as there is no merchandise processing fee imposed by reason of importation on line item 1.

Line item 2—1,500,000 ÷ 2,000,000 = .75 (line items 2 and 3 form the total value of the merchandise subject to the merchandise processing fee).

Line item 3—500,000 ÷ 2,000,000 = .25.

If the total merchandise processing fee paid was $485, the amount of the fee attributable to line item 2 is $363.75 (.75 × $485 = $363.75). The amount of the fee attributable to line item 3 is $121.25 (.25 × $485 = $121.25).

The amount of merchandise processing fee eligible for drawback for line item 2 is $360.1125 (.99 × $363.75). The amount of fee eligible for line item 3 is $120.0375 (.99 × $121.25).

The amount of drawback on the merchandise processing fee attributable to each unit of line item 2 is $.0240 ($360.1125 ÷ 15,000 = $.0240). The amount of drawback on the merchandise processing fee attributable to each unit of line item 3 is $.0120 ($120.0375 ÷ 10,000 = $.0120).

If 1,000 units of line item 2 were exported, the drawback attributable to the merchandise processing fee is $24.00 ($.0240 × 1,000 = $24.00).

(c) *HTSUS number(s) or Schedule B commodity number(s) of imports and exports*—(1) *General.* Drawback claimants are required to provide, on all drawback claims they submit, the Harmonized Tariff Schedule of the United States (HTSUS) number(s) for the designated imported merchandise and the HTSUS number(s) or the Schedule B commodity number(s) for the exported article or articles.

(2) *Imports.* For imports, HTSUS numbers shall be provided from the entry summary(s) and other entry documentation, when the claimant is the importer of record, or from the certificate of delivery and/or the certificate of manufacture and delivery, otherwise. Manufacturing drawback claimants filing drawback claims based on certificate(s) of manufacture and delivery filed with the claims or previously filed with Customs (see paragraph (a) of this section), may meet this requirement with the HTSUS number(s) for the designated imported merchandise on such certificate(s).

(3) *Exports.* For exports, the HTSUSA number(s) or Schedule B commodity classification number(s) must be from the Electronic Export Information (EEI), when required. If no EEI is required (see, e.g., 15 CFR 30.58), the claimant must provide the Schedule B commodity classification number(s) or HTSUSA number(s) that the exporter would have set forth in the EEI, but for the exemption from the requirement to file EEI.

(4) *6-digit level for HTSUS and Schedule B commodity numbers.* The HTSUS numbers and Schedule B commodity numbers shall be stated to at least 6 digits.

(5) *Effective date.* For imports, HTSUS numbers are required for merchandise entered, or withdrawn from warehouse, for consumption on or after April 6, 1998. For exports, HTSUS numbers or Schedule B commodity numbers are required for exported merchandise or articles exported on or after the date 1 year after April 6, 1998.

(d) *Place of filing.* For manufacturing drawback, the claimant shall file the drawback claim with the drawback office listed, as appropriate, in the general manufacturing drawback ruling or the specific manufacturing drawback ruling (see §§191.7 and 191.8 of this part). For other kinds of drawback, the claimant shall file the claim with any drawback office.

(e) *Time of filing*—(1) *General.* A completed drawback claim, with all required documents, shall be filed within 3 years after the date of exportation or destruction of the merchandise or articles which are the subject of the claim. Except for landing certificates (see §191.76 of this part), or unless this time is extended as provided in paragraph (e)(2) of this section, claims not completed within the 3-year period shall be considered abandoned. Except as provided in paragraph (e)(2) of this section, no extension will be granted unless it is established that Customs was responsible for the untimely filing.

(2) *Major disaster.* The 3-year period for filing a completed drawback claim provided for in paragraph (e)(1) of this section may be extended for a period not to exceed 18 months if:

(i) The claimant establishes to the satisfaction of Customs that the claimant was unable to file the drawback claim because of an event declared by the President to be a major disaster, within the meaning given to that term in 42 U.S.C. 5122(2), on or after January 1, 1994; and

(ii) The claimant files a request for such extension with Customs within 1 year from the last day of the 3-year period referred to in paragraph (e)(1) of this section.

(3) *Record retention.* If an extension is granted with respect to a request filed under paragraph (e)(2)(ii) of this section, the periods of time for retaining records under 19 U.S.C. 1508(c)(3) shall be extended for an additional 18 months.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 01–14, 66 FR 8767, Feb. 2, 2001; T.D. 01–18, 66 FR 9649, Feb. 9, 2001; T.D. 02–39, 67 FR 48548, July 25, 2002; CBP Dec. 04–33, 69 FR 60083, Oct. 7, 2004; CBP Dec. 17–06, 82 FR 32239, July 13, 2017; USCBP–2018–0029, 83 FR 65065, Dec. 18, 2018]

§ 191.52 Rejecting, perfecting or amending claims.

(a) *Rejecting the claim.* Upon review of a drawback claim, if the claim is determined to be incomplete (see § 191.51(a)(1)), the claim will be rejected and Customs will notify the filer in writing. The filer shall then have the opportunity to complete the claim subject to the requirement for filing a complete claim within 3 years.

(b) *Perfecting the claim; additional evidence required.* If Customs determines that the claim is complete according to the requirements of § 191.51(a)(1), but that additional evidence or information is required, Customs will notify the filer in writing. The claimant shall furnish, or have the appropriate party furnish, the evidence or information requested within 30 days of the date of notification by Customs. Customs may extend this 30 day period for good cause if the claimant files a written request for such extension within the 30 day period. The evidence or information required under this paragraph may be filed more than 3 years after the date of exportation or destruction of the articles which are the subject of the claim. Such additional evidence or information may include, but is not limited to:

(1) The export bill of lading or other actual evidence of exportation, as provided for in § 191.72(a) of this part, which shall show that the articles were shipped by the person filing the drawback entry, or a letter of endorsement from the party in whose name the articles were shipped which shall be attached to such bill of lading, showing that the party filing the entry is authorized to claim drawback and receive payment (the claimant shall have on file and make available to Customs upon request, the endorsement from the exporter assigning the right to claim drawback);

(2) A copy of the import entry and invoice annotated for the merchandise identified or designated;

(3) A copy of the export invoice annotated to indicate the items on which drawback is being claimed; and

(4) Certificate(s) of delivery upon which the claim is based (see § 191.10(e) of this part).

(c) *Amending the claim; supplemental filing.* Amendments to claims for which the drawback entries have not been liquidated must be made within three (3) years after the date of exportation or destruction of the articles which are the subject of the original drawback claim. Liquidated drawback entries may not be amended; however, they may be protested as provided for in § 191.84 of this part and part 174 of this chapter.

§ 191.53 Restructuring of claims.

(a) *General.* Customs may require claimants to restructure their drawback claims in such a manner as to foster Customs administrative efficiency. In making this determination, Customs will consider the following factors:

(1) The number of transactions of the claimant (imports and exports);

(2) The value of the claims;

(3) The frequency of claims;

(4) The product or products being claimed; and

(5) For 19 U.S.C. 1313(a) and 1313(b) claims, the provisions, as applicable, of the general manufacturing drawback ruling or the specific manufacturing drawback ruling.

(b) *Exemption from restructuring; criteria.* In order to be exempt from a restructuring, a claimant must demonstrate an inability or impracticability in restructuring its claims as required by Customs and must provide a mutually acceptable alternative. Criteria used in such determination will include a demonstration by the claimant of one or more of the following:

(1) Complexities caused by multiple commodities or the applicable general manufacturing drawback ruling or the specific manufacturing drawback ruling;

(2) Variable and conflicting manufacturing and inventory periods (for example, financial, accounting and manufacturing records maintained are significantly different);

(3) Complexities caused by multiple manufacturing locations;

(4) Complexities caused by difficulty in adjusting accounting and inventory records (for example, records maintained—financial or accounting—are significantly different); and/or

(5) Complexities caused by significantly different methods of operation.

Subpart F—Verification of Claims

§ 191.61 Verification of drawback claims.

(a) *Authority*—(1) *Drawback office.* All claims shall be subject to verification by the port director where the claim is filed.

(2) *Two or more locations.* The port director selecting the claim for verification may forward copies of the claim and, as applicable, letters of notification and acknowledgement for the general manufacturing drawback ruling or application and letter of approval for a specific manufacturing drawback ruling, and request for verification, to other drawback offices when deemed necessary.

(b) *Method.* The verifying office shall verify compliance with the law and this part, the accuracy of the related general manufacturing drawback ruling or specific manufacturing drawback ruling (as applicable), and the selected drawback claims. Verification may include an examination of all records relating to the transaction(s).

(c) *Liquidation.* When a claim has been selected for verification, liquidation will be postponed only on the drawback entries for those claims selected for verification. Postponement will continue in effect until the verification has been completed and the appropriate port director issues a report. In the event that a substantial error is revealed during the verification, Customs may postpone liquidation of all related product line claims, or, in Customs discretion, all claims for that claimant.

(d) *Errors in specific or general manufacturing drawback rulings*—(1) *Specific manufacturing drawback ruling; action by port director.* If verification of a drawback claim filed under a specific manufacturing drawback ruling (see §191.8 of this part) reveals errors of deficiencies in the drawback ruling or application therefor, the port director shall promptly inform CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade).

(2) *General manufacturing drawback ruling.* If verification of a drawback claim filed under a general manufacturing drawback ruling (see §191.7 of this part) reveals errors or deficiencies in a general manufacturing drawback ruling, the letter of notification of intent to operate under the general manufacturing drawback ruling, or the acknowledgment of the letter of notification of intent, the port director shall promptly inform CBP Headquarters (Attention: Entry Process and Duty Refunds Branch, Regulations and Rulings, Office of International Trade).

(3) *Action by CBP Headquarters.* CBP Headquarters shall review the stated errors or deficiencies and take appropriate action (see 19 U.S.C. 1625; 19 CFR part 177).

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15288, Mar. 31, 1998]

§ 191.62 Penalties.

(a) *Criminal penalty.* Any person who knowingly and willfully files any false or fraudulent entry or claim for the payment of drawback upon the exportation of merchandise or knowingly or willfully makes or files any false document for the purpose of securing the payment to himself or others of any drawback on the exportation of merchandise greater than that legally due, shall be subject to the criminal provisions of 18 U.S.C. 550, 1001 or any other appropriate criminal sanctions.

(b) *Civil penalty.* Any person who seeks, induces or affects the payment of drawback, by fraud or negligence, or attempts to do so, is subject to civil penalties, as provided under 19 U.S.C. 1593a. A fraudulent violation is subject to a maximum administrative penalty of 3 times the total actual or potential loss of revenue. Repetitive negligent violations are subject to a maximum penalty equal to the actual or potential loss of revenue.

Subpart G—Exportation and Destruction

§ 191.71 Drawback on articles destroyed under Customs supervision.

(a) *Procedure.* At least 7 working days before the intended date of destruction of merchandise or articles upon which

drawback is intended to be claimed, a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback on Customs Form 7553 shall be filed by the claimant with the Customs port where the destruction is to take place, giving notification of the date and specific location where the destruction is to occur. Within 4 working days after receipt of the Customs Form 7553, Customs shall advise the filer in writing of its determination to witness or not to witness the destruction. If the filer of the notice is not so notified within 4 working days, the merchandise may be destroyed without delay and will be deemed to have been destroyed under Customs supervision. Unless Customs determines to witness the destruction, the destruction of the articles following timely notification on Customs Form 7553 shall be deemed to have occurred under Customs supervision. If Customs attends the destruction, it must certify the Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback.

(b) *Evidence of destruction.* When Customs does not attend the destruction, the claimant must submit evidence that destruction took place in accordance with the approved Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback. The evidence must be issued by a disinterested third party (for example, a landfill operator). The type of evidence depends on the method and place of destruction, but must establish that the merchandise was, in fact, destroyed within the meaning of ''destruction'' in §191.2(g) (*i.e.*, that no articles of commercial value remained after destruction).

(c) *Completion of drawback entry.* After destruction, the claimant must provide the Customs Form 7553, certified by the Customs official witnessing the destruction in accordance with paragraph (a) of this section, to Customs as part of the completed drawback claim based on the destruction (see §191.51(a) of this part). If Customs has not attended the destruction, the claimant must provide the evidence that destruction took place in accordance with the approved Customs Form 7553, as provided for in paragraph (b) of this section, as part of the completed drawback claim based on the destruction (see §191.51(a) of this part).

§191.72 Exportation procedures.

Exportation of articles for drawback purposes must be established by complying with one of the procedures provided for in this section (in addition to providing prior notice of intent to export if applicable (see §§191.35, 191.36, 191.42, and 191.91 of this part)). Supporting documentary evidence must establish fully the date and fact of exportation and the identity of the exporter. The procedures for establishing exportation outlined by this section include, but are not limited to:

(a) Documentary evidence of exportation (originals or copies) issued by the exporting carrier, such as a bill of lading, air waybill, freight waybill, Canadian Customs manifest, and/or cargo manifest;''.

(b) Export summary (§191.73);

(c) Official postal records (originals or copies) which evidence exportation by mail (§191.74);

(d) Notice of lading for supplies on certain vessels or aircraft (§191.112); or

(e) Notice of transfer for articles manufactured or produced in the U.S. which are transferred to a foreign trade zone (§191.183).

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by CBP Dec. 15–11, 80 FR 47407, Aug. 7, 2015]

§191.73 Export summary procedure.

(a) *General.* The export summary procedure consists of a Chronological Summary of Exports used to support a drawback claim. It may be submitted as part of the claim in lieu of actual documentary evidence of exportation. It may be used by any claimant for manufacturing drawback, and for unused or rejected merchandise drawback, as well as for drawback involving the substitution of finished petroleum derivatives (19 U.S.C. 1313(a), (b), (c), (j), or (p)). It is intended to improve administrative efficiency.

(b) *Format of Chronological Summary of Exports.* The Chronological Summary of Exports shall contain the data provided for in the following sample:

CHRONOLOGICAL SUMMARY OF EXPORTS

Drawback entry No. _____.

Claimant _____; Exporter _____ (if different from claimant) Period from _____ to _____.

Date of export	Exporter if not claimant	Unique export identifier [1]	Description	Net quantity	Sched. B com. # or HTSUS #	Destination
(1)	(2)	(3)	(4)	(5)	(6)	(7)

[1] This number is to be used to associate the export transaction presented on the Chronological Summary of Exports to the appropriate documentary evidence of exportation (for example, Bill of Lading, Manifest no., invoice, identification of vessel or aircraft and voyage or aircraft number (see subpart K), etc.).

(c) *Documentary evidence*—(1) *Records.* The claimant, whether or not the exporter, shall maintain the Chronological Summary of Exports and such additional evidence of exportation required by Customs to establish fully the identity of the exported articles and the fact of exportation. Actual evidence of exportation, as described in §191.72(a) of this subpart, is the primary evidence of export for drawback purposes.

(2) *Maintenance of records.* The claimant shall submit as part of the claim the Chronological Summary of Exports (see §191.51). The claimant shall retain records supporting the Chronological Summary of Exports for 3 years after payment of the related claim, and such records are subject to review by Customs.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15289, Mar. 31, 1998]

§191.74 Exportation by mail.

If the merchandise on which drawback is to be claimed is exported by mail or parcel post, the official postal records (original or copies) which describe the mail shipment shall be sufficient to prove exportation. The postal record shall be identified on the drawback entry, and shall be retained by the claimant and submitted as part of the drawback claim (see §191.51(a)).

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15289, Mar. 31, 1998, as amended by CBP Dec. 15–11, 80 FR 47407, Aug. 7, 2015]

§191.75 Exportation by the Government.

(a) *Claim by U.S. Government.* When a department, branch, agency, or instrumentality of the United States Government exports products with the intention of claiming drawback, it may establish the exportation in the manner provided in §§191.72 and 191.73 of this subpart (see §191.4 of this part).

(b) *Claim by supplier.* When a supplier of merchandise to the Government or any of the parties specified in §191.82 of this part claims drawback, exportation shall be established under §§191.72 and 191.73 of this subpart.

§191.76 Landing certificate.

(a) *Requirement.* Prior to the liquidation of the drawback entry, Customs may require a landing certificate for every aircraft departing from the United States under its own power if drawback is claimed on the aircraft or a part thereof, except for the exportation of supplies under §309 of the Act, as amended (19 U.S.C. 1309). The certificate shall show the exact time of landing in the foreign destination and describe the aircraft or parts subject to drawback in sufficient detail to enable Customs officers to identify them with the documentation of exportation.

(b) *Written notice of requirement and time for filing.* A landing certificate shall be filed within one year from the written Customs request, unless Customs Headquarters grants an extension.

(c) *Signature.* A landing certificate shall be signed by a revenue officer of the foreign country of the export's destination, unless the embassy of that country certifies in writing that there is no Customs administration in that country, in which case the landing certificate may be signed by the consignee or the carrier's agent at the place of unlading.

(d) *Inability to produce landing certificates.* A landing certificate shall be waived by the requiring Customs authority if the claimant demonstrates inability to obtain a certificate and offers other satisfactory evidence of export.

Subpart H—Liquidation and Protest of Drawback Entries

§ 191.81 Liquidation.

(a) *Time of liquidation.* Drawback entries may be liquidated after:

(1) Liquidation of the designated import entry or entries becomes final pursuant to paragraph (e) of this section; or

(2) Deposit of estimated duties on the imported merchandise and before liquidation of the designated import entry or entries.

(b) *Claims based on estimated duties.* (1) Drawback may be paid upon liquidation of a claim based on estimated duties if one or more of the designated import entries have not been liquidated, or the liquidation has not become final (because of a protest being filed) (*see* also § 173.4(c) of this chapter), only if the drawback claimant and any other party responsible for the payment of liquidated import duties each files a written request for payment of each drawback claim, waiving any right to payment or refund under other provisions of law, to the extent that the estimated duties on the unliquidated import entry are included in the drawback claim for which drawback on estimated duties is requested under this paragraph. The drawback claimant must, to the best of its knowledge, identify each import entry that has been protested and that is included in the drawback claim. A drawback entry, once finally liquidated on the basis of estimated duties pursuant to paragraph (e)(2) of this section, will not be adjusted by reason of a subsequent final liquidation of the import entry.

(2) However, if final liquidation of the import entry discloses that the total amount of import duty is different from the total estimated duties deposited, except in those cases when drawback is 100% of the duty, the party responsible for the payment of liquidated duties, as applicable, will:

(i) Be liable for 1 percent of all increased duties found to be due on that portion of merchandise recorded on the drawback entry; or

(ii) Be entitled to a refund of 1 percent of all excess duties found to have been paid as estimated duties on that portion of the merchandise recorded on the drawback entry.

(c) *Claims based on voluntary tenders or other payments of duties*—(1) *General.* Subject to the requirements in paragraph (c)(2) of this section, drawback may be paid upon liquidation of a claim based on voluntary tenders of the unpaid amount of lawful ordinary customs duties or any other payment of lawful ordinary customs duties for an entry, or withdrawal from warehouse, for consumption (*see* § 191.3(a)(1)(iii)), provided that:

(i) The tender or payment is specifically identified as duty on a specifically identified entry, or withdrawal from warehouse, for consumption;

(ii) Liquidation of the specifically identified entry, or withdrawal from warehouse, for consumption became final prior to such tender or payment; and

(iii) Liquidation of the drawback entry in which that specifically identified import entry, or withdrawal from warehouse, for consumption is designated has not become final.

(2) *Written request and waiver.* Drawback may be paid on claims based on voluntary tenders or other payments of duties under this subsection only if the drawback claimant and any other party responsible for the payment of the voluntary tenders or other payments of duties each files a written request for payment of each drawback claim based on such voluntary tenders or other payments of duties, waiving any claim to payment or refund under other provisions of law, to the extent that the voluntary tenders or other payment of duties under this paragraph are included in the drawback claim for which drawback on the voluntary tenders or other payment of duties is requested under this paragraph.

(d) *Claims based on liquidated duties.* Drawback will be based on the final liquidated duties paid that have been made final by operation of law (except in the case of the written request for payment of drawback on the basis of estimated duties, voluntary tender of duties, and other payments of duty, and waiver, provided for in paragraphs (b) and (c) of this section).

(e) *Liquidation procedure.* (1) *General.* When the drawback claim has been

completed by the filing of the entry and other required documents, and exportation (or destruction) of the merchandise or articles has been established, CBP will determine drawback due on the basis of the complete drawback claim, the applicable general manufacturing drawback ruling or specific manufacturing drawback ruling, and any other relevant evidence or information. Notice of liquidation will be given electronically as provided in §§ 159.9 and 159.10(c)(3) of this chapter.

(2) *Liquidation by operation of law.* (i) *Liquidated import entries.* A drawback claim that satisfies the requirements of paragraph (d) that is not liquidated within 1 year from the date of the drawback claim (*see* § 190.51(e)(1)(i) of this chapter) will be deemed liquidated for the purposes of the drawback claim at the drawback amount asserted by the claimant or claim, unless the time for liquidation is extended in accordance with § 159.12 of this chapter or if liquidation is suspended as required by statute or court order.

(ii) *Unliquidated import entries.* A drawback claim that satisfies the requirements of paragraphs (b) or (c) of this section will be deemed liquidated upon the deposit of estimated duties on the unliquidated imported merchandise (*see* paragraph (b) of this section).

(iii) *Applicability.* The provisions of paragraphs (e)(2)(i) of this section will apply to drawback entries made on or after December 3, 2004. An entry or claim for drawback filed before December 3, 2004, the liquidation of which was not final as of December 3, 2004, will be deemed liquidated on the date that is 1 year after December 3, 2004, at the drawback amount asserted by the claimant at the time of the entry or claim.

(f) *Relative value; multiple products*—(1) *Distribution.* Where two or more products result from the manufacture or production of merchandise, drawback will be distributed to the several products in accordance with their relative values at the time of separation.

(2) *Values.* The values to be used in computing the distribution of drawback where two or more products result from the manufacture or production of merchandise under drawback conditions must be the market value (as provided for in the definition of relative value in § 191.2(u)), unless other values are approved by CBP.

(g) *Payment.* CBP will authorize payment of the amount of the refund due as drawback to the claimant.

[USCBP–2018–0029, 83 FR 65065, Dec. 18, 2018]]

§ 191.82 Person entitled to claim drawback.

Unless otherwise provided in this part (see §§ 191.42(b), 191.162, 191.175(a), 191.186), the exporter (or destroyer) shall be entitled to claim drawback, unless the exporter (or destroyer), by means of a certification, waives the right to claim drawback and assigns such right to the manufacturer, producer, importer, or intermediate party (in the case of drawback under 19 U.S.C. 1313(j)(1) and (2), see § 191.33(a) and (b)). Such certification shall also affirm that the exporter (or destroyer) has not and will not assign the right to claim drawback on the particular exportation or destruction to any other party. The certification provided for in this section may be a blanket certification for a stated period.

§ 191.83 Person entitled to receive payment.

Drawback is paid to the claimant (see § 191.82).

§ 191.84 Protests.

Procedures to protest the denial, in whole or in part, of a drawback entry shall be in accordance with part 174 of this chapter (19 CFR part 174).

Subpart I—Waiver of Prior Notice of Intent To Export; Accelerated Payment of Drawback

§ 191.91 Waiver of prior notice of intent to export.

(a) *General*—(1) *Scope.* The requirement in § 191.35 of this part for prior notice of intent to export merchandise which may be the subject of an unused merchandise drawback claim under § 313(j) of the Act, as amended (19 U.S.C. 1313(j)), may be waived under the provisions of this section.

(2) *Effective date for claimants with existing approval.* For claimants approved for waiver of prior notice as of April 6,

1998, such approval of waiver of prior notice shall remain in effect, under the Customs Regulations in effect as of the time of the approval of waiver of prior notice, for a period of 1 year after April 6, 1998. The previously approved waiver of prior notice shall terminate at the end of such 1-year period unless the claimant applies for waiver of prior notice under this section. If a claimant approved for waiver of prior notice as of April 6, 1998 applies for waiver of prior notice under this section within such 1-year period, the claimant may continue to operate under its existing waiver of prior notice until Customs approves or denies the application for waiver of prior notice under this section, subject to the provisions in this section (see, in particular, paragraphs (d) and (e) of this section).

(3) *Limited successorship for waiver of prior notice.* When a claimant (predecessor) is approved for waiver of prior notice under this section and all of the rights, privileges, immunities, powers, duties and liabilities of the claimant are transferred by written agreement, merger, or corporate resolution to a successor, such approval of waiver of prior notice shall remain in effect for a period of 1 year after such transfer. The approval of waiver of prior notice shall terminate at the end of such 1-year period unless the successor applies for waiver of prior notice under this section. If such successor applies for waiver of prior notice under this section within such 1-year period, the successor may continue to operate under the predecessor's waiver of prior notice until Customs approves or denies the successor's application for waiver of prior notice under this section, subject to the provisions in this section (see, in particular, paragraphs (d) and (e) of this section).

(b) *Application*—(1) *Who may apply.* A claimant for unused merchandise drawback under 19 U.S.C. 1313(j) may apply for a waiver of prior notice of intent to export merchandise under this section.

(2) *Contents of application.* An applicant for a waiver of prior notice under this section must file a written application with the drawback office where the claims will be filed. Such application shall include the following:

(i) Required information:

(A) Name, address, and Internal Revenue Service (IRS) number (with suffix) of applicant;

(B) Name, address, and Internal Revenue Service (IRS) number (with suffix) of current exporter(s) (if more than 3 exporters, such information is required only for the 3 most frequently used exporters), if applicant is not the exporter;

(C) Export period covered by this application;

(D) Commodity/product lines of imported and exported merchandise covered by this application;

(E) Origin of merchandise covered by this application;

(F) Estimated number of export transactions during the next calendar year covered by this application;

(G) Port(s) of exportation to be used during the next calendar year covered by this application;

(H) Estimated dollar value of potential drawback during the next calendar year covered by this application; and

(I) The relationship between the parties involved in the import and export transactions;

(ii) A written declaration whether or not the applicant has previously been denied a waiver request, or had an approval of a waiver revoked, by any other drawback office, and whether the applicant has previously requested a 1-time waiver of prior notice under §191.36, and whether such request was approved or denied; and

(iii) A certification that the following documentary evidence will be made available for Customs review upon request:

(A) For the purpose of establishing that the imported merchandise was not used in the United States (for purposes of drawback under 19 U.S.C. 1313(j)(1)) or that the exported merchandise was not used in the United States and was commercially interchangeable with the imported merchandise (for purposes of drawback under 19 U.S.C. 1313(j)(2)), and, as applicable:

(*1*) Business records prepared in the ordinary course of business;

(*2*) Laboratory records prepared in the ordinary course of business; and/or

(*3*) Inventory records prepared in the ordinary course of business tracing all relevant movements and storage of the

imported merchandise, substituted merchandise, and/or exported merchandise; and

(B) Any other evidence establishing compliance with other applicable drawback requirements, upon Customs request under paragraph (b)(2)(iii) of this section.

(3) *Samples of records to accompany application.* To expedite the processing of applications under this section, the application should contain at least one sample of each of the records to be used to establish compliance with the applicable requirements (that is, sample of import document (for example, Customs Form 7501, or its electronic equivalent), sample of export document (for example, bill of lading), and samples of business, laboratory, and inventory records certified, under paragraph (b)(2)(iii)(A)(*1*) through (*3*) of this section, to be available to Customs upon request).

(c) *Action on application*—(1) *Customs review.* The drawback office shall review and verify the information submitted on and with the application. Customs will notify the applicant in writing within 90 days of receipt of the application of its decision to approve or deny the application, or of Customs inability to approve, deny, or act on the application and the reason therefor. In order for Customs to evaluate the application, Customs may request any of the information listed in paragraph (b)(2)(iii)(A)(*1*) through (*3*) of this section. Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with Customs, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with Customs include, but are not limited to (as applicable):

(i) The presence or absence of unresolved Customs charges (duties, taxes, or other debts owed Customs);

(ii) The accuracy of the claimant's past drawback claims;

(iii) Whether waiver of prior notice was previously revoked or suspended; and

(iv) The presence or absence of any failure to present merchandise to Customs for examination after Customs had timely notified the party filing a Notice of Intent to Export, Destroy, or Return Merchandise for Purposes of Drawback of Customs intent to examine the merchandise (see § 191.35 of this part).

(2) *Approval.* The approval of an application for waiver of prior notice of intent to export, under this section, shall operate prospectively, applying only to those export shipments occurring after the date of the waiver. It shall be subject to a stay, as provided in paragraph (d) of this section.

(3) *Denial.* If an application for waiver of prior notice of intent to export, under this section, is denied, the applicant shall be given written notice, specifying the grounds therefor, together with what corrective action may be taken, and informing the applicant that the denial may be appealed in the manner prescribed in paragraph (g) of this section. The applicant may not reapply for a waiver until the reason for the denial is resolved.

(d) *Stay.* An approval of waiver of prior notice may be stayed, for a specified reasonable period, should Customs desire for any reason to examine the merchandise being exported with drawback prior to its exportation for purposes of verification. Customs shall provide written notice, by registered or certified mail, of such a stay to the person for whom waiver of prior notice was approved. Customs shall specify the reason(s) for the stay in such written notice. The stay shall take effect 2 working days after the date the person signs the return post office receipt for the registered or certified mail. The stay shall remain in effect for the period specified in the written notice, or until such earlier date as Customs notifies the person for whom waiver of prior notice was approved in writing that the reason for the stay has been satisfied. After the stay is lifted, operation under the waiver of prior notice procedure may resume for exports on or after the date the stay is lifted.

(e) *Proposed revocation.* Customs may propose to revoke the approval of an application for waiver of prior notice of intent to export, under this section, for good cause (noncompliance with the drawback law and/or regulations). Customs shall give written notice of the

proposed revocation of a waiver of prior notice of intent to export. The notice shall specify the reasons for Customs proposed action and provide information regarding the procedures for challenging Customs proposed revocation action as prescribed in paragraph (g) of this section. The written notice of proposed revocation may be included with a notice of stay of approval of waiver of prior notice as provided under paragraph (d) of this section. The revocation of the approval of waiver of prior notice shall take effect 30 days after the date of the proposed revocation if not timely challenged under paragraph (g) of this section. If timely challenged, the revocation will take effect after completion of the challenge procedures in paragraph (g) of this section unless the challenge is successful.

(f) *Action by drawback office controlling.* Action by the appropriate drawback office to approve, deny, stay, or revoke waiver of prior notice of intent to export, unless reversed by Customs Headquarters, will govern the applicant's eligibility for this procedure in all Customs drawback offices. If the application for waiver of prior notice of intent to export is approved, the claimant shall refer to such approval in the first drawback claim filed after such approval in the drawback office approving waiver of prior notice and shall submit a copy of the approval letter with the first drawback claim filed in any drawback office other than the approving office, when the export upon which the claim is based was without prior notice, under this section.

(g) *Appeal of denial or challenge to proposed revocation.* An appeal of a denial of an application under this section, or challenge to the proposed revocation of an approved application under this section, may be made by letter to the drawback office issuing the denial or proposed revocation and must be filed within 30 days of the date of denial or proposed revocation. A denial of an appeal or challenge made to the drawback office may itself be appealed to CBP Headquarters, Office of International Trade, Trade Policy and Programs, and must be filed within 30 days of the denial date of the initial appeal or challenge. The 30-day period for appeal or challenge to the drawback office or to CBP Headquarters may be extended for good cause, upon written request by the applicant or holder for such extension filed with the appropriate office within the 30-day period.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by CBP Dec. 15–14, 80 FR 61292, Oct. 13, 2015]

§ 191.92 Accelerated payment.

(a) *General*—(1) *Scope.* Accelerated payment of drawback is available under this section on drawback claims under this part, unless specifically excepted from such accelerated payment. Accelerated payment of drawback consists of the payment of estimated drawback before liquidation of the drawback entry. Accelerated payment of drawback is only available when Customs review of the request for accelerated payment of drawback does not find omissions from, or inconsistencies with the requirements of the drawback law and part 191 (see, especially, subpart E of this part). Accelerated payment of a drawback claim does not constitute liquidation of the drawback entry.

(2) *Effective date for claimants with existing approval.* For claimants approved for accelerated payment of drawback as of April 6, 1998, such approval of accelerated payment shall remain in effect, under the Customs Regulations in effect as of the time of the approval of accelerated payment, for a period of 1 year after April 6, 1998. The previously approved accelerated payment of drawback shall terminate at the end of such 1-year period unless the claimant applies for accelerated payment under this section. If a claimant approved for accelerated payment of drawback as of April 6, 1998 applies for accelerated payment under this section within such 1-year period, the claimant may continue to operate under its existing approval of accelerated payment until Customs approves or denies the application for accelerated payment under this section, subject to the provisions in this section (see, in particular, paragraph (f) of this section).

(3) *Limited successorship for approval of accelerated payment.* When a claimant (predecessor) is approved for accelerated payment of drawback under this

section and all of the rights, privileges, immunities, powers, duties and liabilities of the claimant are transferred by written agreement, merger, or corporate resolution to a successor, such approval of accelerated payment shall remain in effect for a period of 1 year after such transfer. The approval of accelerated payment of drawback shall terminate at the end of such 1-year period unless the successor applies for accelerated payment of drawback under this section. If such successor applies for accelerated payment of drawback under this section within such 1-year period, the successor may continue to operate under the predecessor's approval of accelerated payment until Customs approves or denies the successor's application for accelerated payment under this section, subject to the provisions in this section (see, in particular, paragraph (f) of this section).

(b) *Application for approval; contents.* A person who wishes to apply for accelerated payment of drawback must file a written application with the drawback office where claims will be filed.

(1) *Required information.* The application must contain:

(i) Company name and address;

(ii) Internal Revenue Service (IRS) number (with suffix);

(iii) Identity (by name and title) of the person in claimant's organization who will be responsible for the drawback program;

(iv) Description of the bond coverage the applicant intends to use to cover accelerated payments of drawback (see paragraph (d) of this section), including:

(A) Identity of the surety to be used;

(B) Dollar amount of bond coverage for the first year under the accelerated payment procedure; and

(C) Procedures to ensure that bond coverage remains adequate (that is, procedures to alert the applicant when and if its accelerated payment potential liability exceeds its bond coverage);

(v) Description of merchandise and/or articles covered by the application;

(vi) Type(s) of drawback covered by the application; and

(vii) Estimated dollar value of potential drawback during the next 12-month period covered by the application.

(2) *Previous applications.* In the application, the applicant must state whether or not the applicant has previously been denied an application for accelerated payment of drawback, or had an approval of such an application revoked by any drawback office.

(3) *Certification of compliance.* In or with the application, the applicant must also submit a certification, signed by the applicant, that all applicable statutory and regulatory requirements for drawback will be met.

(4) *Description of claimant's drawback program.* With the application, the applicant must submit a description (with sample documents) of how the applicant will ensure compliance with its certification that the statutory and regulatory drawback requirements will be met. This description may be in the form of a booklet. The detail contained in this description should vary depending on the size and complexity of the applicant's accelerated drawback program (for example, if the dollar amount is great and there are several kinds of drawback involved, with differing inventory, manufacturing, and shipping methods, greater detail in the description will be required). The description must include at least:

(i) The name of the official in the claimant's organization who is responsible for oversight of the claimant's drawback program;

(ii) The procedures and controls demonstrating compliance with the statutory and regulatory drawback requirements;

(iii) The parameters of claimant's drawback record-keeping program, including the retention period and method (for example, paper, electronic, etc.);

(iv) A list of the records that will be maintained, including at least sample import documents, sample export documents, sample inventory and transportation documents (if applicable), sample laboratory or other documents establishing the qualification of merchandise or articles for substitution under the drawback law (if applicable), and sample manufacturing documents (if applicable);

(v) The procedures that will be used to notify Customs of changes to the claimant's drawback program, variances from the procedures described in this application, and violations of the statutory and regulatory drawback requirements; and

(vi) The procedures for an annual review by the claimant to ensure that its drawback program complies with the statutory and regulatory drawback requirements and that Customs is notified of any modifications from the procedures described in this application.

(c) *Sample application.* The drawback office, upon request, shall provide applicants for accelerated payment with a sample letter format to assist them in preparing their submissions.

(d) *Bond required.* If approved for accelerated payment, the claimant must furnish a properly executed bond in an amount sufficient to cover the estimated amount of drawback to be claimed during the term of the bond. If outstanding accelerated drawback claims exceed the amount of the bond, the drawback office will require additional bond coverage as necessary before additional accelerated payments are made.

(e) *Action on application*—(1) *Customs review.* The drawback office shall review and verify the information submitted in and with the application. In order for Customs to evaluate the application, Customs may request additional information (including additional sample documents) and/or explanations of any of the information provided for in paragraph (b)(4) of this section. Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with Customs, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with Customs include, but are not limited to (as applicable):

(i) The presence or absence of unresolved Customs charges (duties, taxes, or other debts owed Customs);

(ii) The accuracy of the claimant's past drawback claims; and

(iii) Whether accelerated payment of drawback or waiver of prior notice of intent to export was previously revoked or suspended.

(2) *Notification to applicant.* Customs will notify the applicant in writing within 90 days of receipt of the application of its decision to approve or deny the application, or of Customs inability to approve, deny, or act on the application and the reason therefor.

(3) *Approval.* The approval of an application for accelerated payment, under this section, shall be effective as of the date of Customs written notification of approval under paragraph (e)(2) of this section. Accelerated payment of drawback shall be available under this section to unliquidated drawback claims filed before and after such date. For claims filed before such date, accelerated payment of drawback shall be paid only if the claimant furnishes a properly executed single transaction bond covering the claim, in an amount sufficient to cover the amount of accelerated drawback to be paid on the claim.

(4) *Denial.* If an application for accelerated payment of drawback under this section is denied, the applicant shall be given written notice, specifying the grounds therefor, together with what corrective action may be taken, and informing the applicant that the denial may be appealed in the manner prescribed in paragraph (i) of this section. The applicant may not reapply for accelerated payment of drawback until the reason for the denial is resolved.

(f) *Revocation.* Customs may propose to revoke the approval of an application for accelerated payment of drawback under this section, for good cause (that is, noncompliance with the drawback law and/or regulations). In case of such proposed revocation, Customs shall give written notice, by registered or certified mail, of the proposed revocation of the approval of accelerated payment. The notice shall specify the reasons for Customs proposed action and the procedures for challenging Customs proposed revocation action as prescribed in paragraph (h) of this section. The revocation shall take effect 30 days after the date of the proposed revocation if not timely challenged under paragraph (h) of this section. If timely challenged, the revocation will take effect after completion of the

challenge procedures in paragraph (h) of this section unless the challenge is successful.

(g) *Action by drawback office controlling.* Action by the appropriate drawback office to approve, deny, or revoke accelerated payment of drawback will govern the applicant's eligibility for this procedure in all Customs drawback offices. If the application for accelerated payment of drawback is approved, the claimant shall refer to such approval in the first drawback claim filed after such approval in the drawback office approving accelerated payment of drawback and shall submit a copy of the approval letter with the first drawback claim filed in a drawback office other than the approving office.

(h) *Appeal of denial or challenge to proposed revocation.* An appeal of a denial of an application under this section, or challenge to the proposed revocation of an approved application under this section, may be made in writing to the drawback office issuing the denial or proposed revocation and must be filed within 30 days of the date of denial or proposed revocation. A denial of an appeal or challenge made to the drawback office may itself be appealed to CBP Headquarters, Office of International Trade, Trade Policy and Programs, and must be filed within 30 days. The 30-day period for appeal or challenge to the drawback office or to CBP Headquarters may be extended for good cause, upon written request by the applicant or holder for such extension filed with the appropriate office within the 30-day period.

(i) *Payment.* The drawback office approving a drawback claim in which accelerated payment of drawback was requested shall certify the drawback claim for payment within 3 weeks after filing, if a component for electronic filing of drawback claims, records, or entries which has been implemented under the National Customs Automation Program (NCAP) (19 U.S.C. 1411–1414) is used, and within 3 months after filing, if the claim is filed manually. After liquidation, the drawback office shall certify payment of any amount due or demand a refund of any excess amount paid. Any excess amount of duty the subject of accelerated payment that is not refunded within 30 days after the date of liquidation of the related drawback entry shall be considered delinquent (see §§ 24.3a and 113.65(b) of this chapter.)

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 27489, May 19, 1998]

§ 191.93 Combined applications.

An applicant for the procedures provided for in §§ 191.91 and 191.92 of this subpart may apply for only one procedure, both procedures separately, or both procedures in one application package (see also § 191.195 of this part regarding combined applications for certification in the drawback compliance program and waiver of prior notice and/or approval of accelerated payment of drawback). In the latter instance, the intent to apply for both procedures must be clearly stated. In all instances, all of the requirements for the procedure(s) applied for must be met (for example, in a combined application for both procedures, all of the information required for each procedure, all required sample documents for each procedure, and all required certifications must be included in and with the application).

Subpart J—Internal Revenue Tax on Flavoring Extracts and Medicinal or Toilet Preparations (Including Perfumery) Manufactured From Domestic Tax-Paid Alcohol

§ 191.101 Drawback allowance.

(a) *Drawback.* Section 313(d) of the Act, as amended (19 U.S.C. 1313(d)), provides for drawback of internal revenue tax upon the exportation of flavoring extracts and medicinal or toilet preparations (including perfumery) manufactured or produced in the United States in part from the domestic tax-paid alcohol.

(b) *Shipment to Puerto Rico, the Virgin Islands, Guam, and American Samoa.* Drawback of internal revenue tax on articles manufactured or produced under this subpart and shipped to Puerto Rico, the Virgin Islands, Guam, or American Samoa shall be allowed in accordance with § 7653(c) of the Internal Revenue Code (26 U.S.C. 7653(c)). However, there is no authority of law for

the allowance of drawback of internal-revenue tax on flavoring extracts or medicinal or toilet preparations (including perfumery) manufactured or produced in the United States and shipped to Wake Island, Midway Islands, Kingman Reef, Canton Island, Enderbury Island, Johnston Island, or Palmyra Island.

§ 191.102 Procedure.

(a) *General.* Other provisions of this part relating to direct identification drawback (see subpart B of this part) shall apply to claims for drawback filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

(b) *Manufacturing record.* The manufacturer of flavoring extracts or medicinal or toilet preparations on which drawback is claimed shall record the products manufactured, the quantity of waste, if any, and a full description of the alcohol. These records shall be available at all times for inspection by Customs officers.

(c) *Additional information required on the manufacturer's application for a specific manufacturing drawback ruling.* The manufacturer's application for a specific manufacturing drawback ruling, under § 191.8 of this part, shall state the quantity of domestic tax-paid alcohol contained in each product on which drawback is claimed.

(d) *Variance in alcohol content*—(1) *Variance of more than 5 percent.* If the percentage of alcohol contained in a medicinal preparation, flavoring extract or toilet preparation varies by more than 5 percent from the percentage of alcohol in the total volume of the exported product as stated in a previously approved application for a specific manufacturing drawback ruling, the manufacturer shall apply for a new specific manufacturing drawback ruling pursuant to § 191.8 of this part. If the variation differs from a previously filed schedule, the manufacturer shall file a new schedule incorporating the change.

(2) *Variance of 5 percent or less.* Variances of 5 percent or less of the volume of the product shall be reported to the appropriate drawback office where the drawback entries are liquidated. In such cases, the drawback office may allow drawback without specific authorization from Customs Headquarters.

(e) *Time period for completing claims.* The 3-year period for the completion of drawback claims prescribed in 19 U.S.C. 1313(r)(1) shall be applicable to claims for drawback under this subpart.

(f) *Filing of drawback entries on duty-paid imported merchandise and tax-paid alcohol.* When the drawback claim covers duty-paid imported merchandise in addition to tax-paid alcohol, the claimant shall file one set of entries for drawback of Customs duty and another set for drawback of internal revenue tax.

(g) *Description of the alcohol.* The description of the alcohol stated in the drawback entry may be obtained from the description on the package containing the tax-paid alcohol.

§ 191.103 Additional requirements.

(a) *Manufacturer claims domestic drawback.* In the case of medicinal preparations and flavoring extracts, the claimant must file with the drawback entry, a declaration of the manufacturer showing whether a claim has been or will be filed by the manufacturer with the Alcohol and Tobacco Tax and Trade Bureau (TTB) for domestic drawback on alcohol under sections 5111, 5112, 5113, and 5114, Internal Revenue Code, as amended (26 U.S.C. 5111, 5112, 5113, and 5114).

(b) *Manufacturer does not claim domestic drawback*—(1) *Submission of statement.* If no claim has been or will be filed with TTB for domestic drawback on medicinal preparations or flavoring extracts, the manufacturer must submit a statement setting forth that fact to the Director, National Revenue Center, TTB.

(2) *Contents of the statement.* The statement must show the:

(i) Quantity and description of the exported products;

(ii) Identity of the alcohol used by serial number of package or tank car;

(iii) Name and registry number of the distilled spirits plant from which the alcohol was withdrawn;

(iv) Date of withdrawal;

(v) Serial number of the applicable record of tax determination (*see* 27 CFR 17.163(a) and 27 CFR 19.626(c)(7)); and

(vi) CBP office where the claim will be filed.

(3) *Verification of the statement.* The Director, National Revenue Center, TTB, will verify receipt of this statement, forward the original of the document to the drawback office designated, and retain the copy.

[USCBP–2018–0029, 83 FR 65066, Dec. 18, 2018]]

§ 191.104 Alcohol and Tobacco Tax and Trade Bureau (TTB) certificates.

(a) *Request.* The drawback claimant or manufacturer must request that the Director, National Revenue Center, TTB, provide the CBP office where the drawback claim will be processed with a tax-paid certificate on TTB Form 5100.4 (Certificate of Tax-Paid Alcohol).

(b) *Contents.* The request must state the:

(1) Quantity of alcohol in proof gallons;

(2) Serial number of each package;

(3) Amount of tax paid on the alcohol;

(4) Name, registry number, and location of the distilled spirits plant;

(5) Date of withdrawal;

(6) Name of the manufacturer using the alcohol in producing the exported articles;

(7) Address of the manufacturer and its manufacturing plant; and

(8) CBP drawback office where the drawback claim will be processed.

(c) *Extract of TTB certificate.* If a certification of any portion of the alcohol described in the TTB Form 5100.4 is required for liquidation of drawback entries processed in another drawback office, the drawback office, on written application of the person who requested its issuance, will transmit a copy of the extract from the certificate for use at that drawback office. The drawback office will note that the copy of the extract was prepared and transmitted.

[USCBP–2018–0029, 83 FR 65066, Dec. 18, 2018]]

§ 191.105 Liquidation.

The drawback office shall ascertain the final amount of drawback due by reference to the certificate of manufacture and delivery and the specific manufacturing drawback ruling under which the drawback claimed is allowable.

§ 191.106 Amount of drawback.

(a) *Claim filed with TTB.* If the declaration required by § 191.103 shows that a claim has been or will be filed with TTB for domestic drawback, drawback under section 313(d) of the Act, as amended (19 U.S.C. 1313(d)), will be limited to the difference between the amount of tax paid and the amount of domestic drawback claimed.

(b) *Claim not filed with TTB.* If the declaration and verified statement required by § 191.103 show that no claim has been or will be filed by the manufacturer with TTB for domestic drawback, the drawback will be the full amount of the tax on the alcohol used. Drawback under this provision may not be granted absent receipt from TTB of a copy of TTB Form 5100.4 (Certificate of Tax-Paid Alcohol) indicating that taxes have been paid on the exported product for which drawback is claimed.

(c) *No deduction of 1 percent.* No deduction of 1 percent will be made in drawback claims under section 313(d) of the Act, as amended (19 U.S.C. 1313(d)).

(d) *Payment.* The drawback due will be paid in accordance with § 191.81(f).

[USCBP–2018–0029, 83 FR 65067, Dec. 18, 2018]

Subpart K—Supplies for Certain Vessels and Aircraft

§ 191.111 Drawback allowance.

Section 309 of the Act, as amended (19 U.S.C. 1309), provides for drawback on articles laden as supplies on certain vessels or aircraft of the United States or as supplies including equipment upon, or used in the maintenance or repair of, certain foreign vessels or aircraft.

§ 191.112 Procedure.

(a) *General.* The provisions of this subpart shall override other conflicting provisions of this part.

(b) *Customs forms.* The drawback claimant shall file with the drawback office the drawback entry on Customs Form 7551 annotated for 19 U.S.C. 1309, and attach thereto a notice of lading

on Customs Form 7514, in quadruplicate, unless the export summary procedure, provided for in §191.73, is used. If the export summary procedure is used, the requirements in §191.73 shall be complied with, as applicable, and the requirements in paragraphs (d)(1) and (f)(1) of this section shall also be complied with.

(c) *Time of filing notice of lading.* In the case of drawback in connection with 19 U.S.C. 1309(b), the drawback notice of lading on Customs Form 7514 may be filed either before or after the lading of the articles. If filed after lading, the notice shall be filed within 3 years after exportation of the articles.

(d) *Contents of notice.* The notice of lading shall show:

(1) The name of the vessel or identity of the aircraft on which articles were or are to be laden;

(2) The number and kind of packages and their marks and numbers;

(3) A description of the articles and their weight (net), gauge, measure, or number; and

(4) The name of the exporter.

(e) *Assignment of numbers and return of one copy.* The drawback office shall assign a number to each notice of lading and return one copy to the exporter for delivery to the master or authorized officer of the vessel or aircraft.

(f) *Declaration*—(1) *Requirement.* The master or an authorized representative of the vessel or aircraft having knowledge of the facts shall complete the section of the notice entitled ''Declaration of Master or Other Officer''.

(2) *Procedure if notice filed before lading.* If the notice is filed before lading of the articles, the declaration must be completed on the copy of the numbered drawback notice that was filed with the drawback office and returned to the exporter for this purpose.

(3) *Procedure if notice filed after lading.* If the drawback notice is filed after lading of the articles, the drawback claimant may file a separate document containing the declaration required on the Drawback Notice, Customs Form 7514.

(4) *Filing.* The drawback claimant shall file with the drawback office both the drawback entry and the drawback notice or separate document containing the declaration of the master or other officer or representative.

(g) *Information concerning class or trade.* Information about the class of business or trade of a vessel or aircraft is required to be furnished in support of the drawback entry if the vessel or aircraft is American.

(h) *Vessel or aircraft not required to clear or obtain a permit to proceed.* If the vessel or aircraft is not required to clear or obtain a permit to proceed to another port, the drawback office shall return to the exporter or the person designated by the exporter two copies of the notice, noting the absence of a requirement for clearance or permit to proceed, for subsequent filing with the drawback claim. The claimant shall file with the claim an itinerary of the vessel or aircraft for the immediate voyage or flight showing that the vessel or aircraft is engaged in a class of business or trade which makes it eligible for drawback.

(i) *Articles laden or installed on aircraft as equipment or used in the maintenance or repair of aircraft.* The drawback office where the drawback claim is filed shall require a declaration or other evidence showing to its satisfaction that articles have been laden or installed on aircraft as equipment or used in the maintenance or repair of aircraft.

(j) *Fuel laden on vessels or aircraft as supplies*—(1) *Composite notice of lading.* In the case of fuel laden on vessels or aircraft as supplies, the drawback claimant may file with the drawback office a composite notice of lading on the reverse side of Customs Form 7514, for each calendar month. The composite notice of lading shall describe all of the drawback claimant's deliveries of fuel supplies during the one calendar month at a single port or airport to all vessels or airplanes of one vessel owner or operator or airline. This includes fuel laden for flights or voyages between the contiguous U.S. and Hawaii, Alaska, or any U.S. possessions (see §10.59 of this chapter).

(2) *Contents of composite notice.*omposite notice shall show for each voyage or flight, either on the reverse side of Customs Form 7514 or on a continuation sheet:

(i) The identity of the vessel or aircraft;

(ii) A description of the fuel supplies laden;

(iii) The quantity laden; and

(iv) The date of lading.

(3) *Declaration of owner or operator.* An authorized vessel or airline representative having knowledge of the facts shall complete the section ''Declaration of Master or Other Officer'' on Customs Form 7514.

(k) *Desire to land articles covered by notice of lading.* The master of the vessel or commander of the aircraft desiring to land in the United States articles covered by a notice of lading shall apply for a permit to land those articles under Customs supervision. All articles landed, except those transferred under the original notice of lading to another vessel or aircraft entitled to drawback, shall be considered imported merchandise for the purpose of §309(c) of the Act, as amended (19 U.S.C. 1309(c)).

Subpart L—Meats Cured With Imported Salt

§ 191.121 Drawback allowance.

Section 313(f) of the Act, as amended (19 U.S.C. 1313(f)), provides for the allowance of drawback upon the exportation of meats cured with imported salt.

§ 191.122 Procedure.

(a) *General.* Other provisions of this part relating to direct identification manufacturing drawback shall apply to claims for drawback under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

(b) *Customs form.* The forms used for other drawback claims shall be used and modified to show that the claim is being made for refund of duties paid on salt used in curing meats.

§ 191.123 Refund of duties.

Drawback shall be refunded in aggregate amounts of not less than $100 and shall not be subject to the retention of 1 percent of duties paid.

Subpart M—Materials for Construction and Equipment of Vessels and Aircraft Built for Foreign Ownership and Account

§ 191.131 Drawback allowance.

Section 313(g) of the Act, as amended (19 U.S.C. 1313(g)), provides for drawback on imported materials used in the construction and equipment of vessels and aircraft built for foreign account and ownership, or for the government of any foreign country, notwithstanding that these vessels or aircraft may not be exported within the strict meaning of the term.

§ 191.132 Procedure.

Other provisions of this part relating to direct identification manufacturing drawback shall apply to claims for drawback filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

§ 191.133 Explanation of terms.

(a) *Materials.* Section 313(g) of the Act, as amended (19 U.S.C. 1313(g)), applies only to materials used in the original construction and equipment of vessels and aircraft, or to materials used in a ''major conversion'', as defined in this section, of a vessel or aircraft. Section 313(g) does not apply to materials used for alteration or repair, or to materials not required for safe operation of the vessel or aircraft.

(b) *Foreign account and ownership.* Foreign account and ownership, as used in §313(g) of the Act, as amended (19 U.S.C. 1313(g)), means only vessels or aircraft built or equipped for the account of an owner or owners residing in a foreign country and having a bona fide intention that the vessel or aircraft, when completed, shall be owned and operated under the flag of a foreign country.

(c) *Major conversion.* For purposes of this subpart, a ''major conversion'' means a conversion that substantially changes the dimensions or carrying capacity of the vessel or aircraft, changes the type of the vessel or aircraft, substantially prolongs the life of the vessel or aircraft, or otherwise so changes

the vessel or aircraft that it is essentially a new vessel or aircraft, as determined by Customs (see 46 U.S.C. 2101(14a)).

Subpart N—Foreign-Built Jet Aircraft Engines Processed in the United States

§ 191.141 Drawback allowance.

Section 313(h) of the Act, as amended (19 U.S.C. 1313(h)), provides for drawback on the exportation of jet aircraft engines manufactured or produced abroad that have been overhauled, repaired, rebuilt, or reconditioned in the United States with the use of imported merchandise, including parts.

§ 191.142 Procedure.

Other provisions of this part shall apply to claims for drawback filed under this subpart insofar as applicable to and not inconsistent with the provisions of this subpart.

§ 191.143 Drawback entry.

(a) *Filing of entry*. Drawback entries covering these foreign-built jet aircraft engines shall be filed on Customs Form 7551, modified to show that the entry covers jet aircraft engines processed under §313(h) of the Act, as amended (19 U.S.C. 1313(h)).

(b) *Contents of entry*. The entry shall show the country in which each engine was manufactured and describe the processing performed thereon in the United States.

§ 191.144 Refund of duties.

Drawback shall be refunded in aggregate amounts of not less than $100, and shall not be subject to the deduction of 1 percent of duties paid.

Subpart O—Merchandise Exported From Continuous Customs Custody

§ 191.151 Drawback allowance.

(a) *Eligibility of entered or withdrawn merchandise*—(1) *Under 19 U.S.C. 1557(a)*. Section 557(a) of the Act, as amended (19 U.S.C. 1557(a)), provides for drawback on the exportation to a foreign country, or the shipment to the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, Johnston Island, or Guam, of merchandise upon which duties have been paid which has remained continuously in bonded warehouse or otherwise in Customs custody for a period not to exceed 5 years from the date of importation.

(2) *Under 19 U.S.C. 1313*. Imported merchandise that has not been regularly entered or withdrawn for consumption, shall not satisfy any requirement for use, importation, exportation or destruction, and shall not be available for drawback, under §313 of the Act, as amended (19 U.S.C. 1313) (see 19 U.S.C. 1313(u)).

(b) *Guantanamo Bay*. Guantanamo Bay Naval Station shall be considered foreign territory for drawback purposes under this subpart and merchandise shipped there is eligible for drawback. Imported merchandise which has remained continuously in bonded warehouse or otherwise in Customs custody since importation is not entitled to drawback of duty when shipped to Puerto Rico, Canton Island, Enderbury Island, or Palmyra Island.

§ 191.152 Merchandise released from Customs custody.

No remission, refund, abatement, or drawback of duty shall be allowed under this subpart because of the exportation or destruction of any merchandise after its release from Government custody, except in the following cases:

(a) When articles are exported or destroyed on which drawback is expressly provided for by law;

(b) When prohibited articles have been regularly entered in good faith and are subsequently exported or destroyed pursuant to statute and regulations prescribed by the Secretary of the Treasury; or

(c) When articles entered under bond are destroyed within the bonded period, as provided in §557(c) of the Act, as amended (19 U.S.C. 1557(c)), or destroyed within the bonded period by death, accidental fire, or other casualty, and satisfactory evidence of destruction is furnished to Customs (see §191.71), in which case any accrued duties shall be remitted or refunded and any condition in the bond that the articles shall be exported shall be deemed

to have been satisfied (see 19 U.S.C. 1558).

§ 191.153 Continuous Customs custody.

(a) *Merchandise released under an importer's bond and returned.* Merchandise released to an importer under a bond prescribed by § 142.4 of this chapter and later returned to the public stores upon requisition of the appropriate Customs office shall not be deemed to be in the continuous custody of Customs officers.

(b) *Merchandise released under Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS).* Merchandise released as provided for in Chapter 98, Subchapter XIII, HTSUS (19 U.S.C. 1202), shall not be deemed to be in the continuous custody of Customs officers.

(c) *Merchandise released from warehouse.* For the purpose of this subpart, in the case of merchandise entered for warehouse, Customs custody shall be deemed to cease when estimated duty has been deposited and the appropriate Customs office has authorized the withdrawal of the merchandise.

(d) *Merchandise not warehoused, examined elsewhere than in public stores*—(1) *General rule.* Except as stated in paragraph (d)(2) of this section, merchandise examined elsewhere than at the public stores, in accordance with the provisions of § 151.7 of this chapter, shall be considered released from Customs custody upon completion of final examination for appraisement.

(2) *Merchandise upon the wharf.* Merchandise which remains on the wharf by permission of the appropriate Customs office shall be considered to be in Customs custody, but this custody shall be deemed to cease when the Customs officer in charge accepts the permit and has no other duties to perform relating to the merchandise, such as measuring, weighing, or gauging.

§ 191.154 Filing the entry.

(a) *Direct export.* At least 6 working hours before lading the merchandise on which drawback is claimed under this subpart, the importer or the agent designated by him in writing shall file with the drawback office a direct export drawback entry on Customs Form 7551 in duplicate.

(b) *Merchandise transported to another port for exportation.* The importer of merchandise to be transported to another port for exportation shall file in triplicate with the drawback office an entry naming the transporting conveyance, route, and port of exit. The drawback office shall certify one copy and forward it to the Customs office at the port of exit. A bonded carrier shall transport the merchandise in accordance with the applicable regulations. Manifests shall be prepared and filed in the manner prescribed in § 144.37 of this chapter.

§ 191.155 Merchandise withdrawn from warehouse for exportation.

The regulations in part 18 of this chapter concerning the supervision of lading and certification of exportation of merchandise withdrawn from warehouse for exportation without payment of duty shall be followed to the extent applicable.

§ 191.156 Bill of lading.

(a) *Filing.* In order to complete the claim for drawback under this subpart, a bill of lading covering the merchandise described in the drawback entry (Customs Form 7551) shall be filed within 2 years after the merchandise is exported.

(b) *Contents.* The bill of lading shall either show that the merchandise was shipped by the person making the claim or bear an endorsement of the person in whose name the merchandise was shipped showing that the person making the claim is authorized to do so.

(c) *Limitation of the bill of lading.* The terms of the bill of lading may limit and define its use by stating that it is for Customs purposes only and not negotiable.

(d) *Inability to produce bill of lading.* When a required bill of lading cannot be produced, the person making the drawback entry may request the drawback office, within the time required for the filing of the bill of lading, to accept a statement setting forth the cause of failure to produce the bill of lading and such evidence of exportation and of his right to make the drawback entry as may be available. The request shall be granted if the drawback office

is satisfied by the evidence submitted that the failure to produce the bill of lading is justified, that the merchandise has been exported, and that the person making the drawback entry has the right to do so. If the drawback office is not so satisfied, such office shall transmit the request and its accompanying evidence to the Office of International Trade, CBP Headquarters, for final determination.

(e) *Extracts of bills of lading.* Drawback offices may issue extracts of bills of lading filed with drawback claims.

§ 191.157 Landing certificates.

When required, a landing certificate shall be filed within the time prescribed in § 191.76 of this part.

§ 191.158 Procedures.

When the drawback claim has been completed and the bill of lading filed, together with the landing certificate, if required, the reports of inspection and lading made, and the clearance of the exporting conveyance established by the record of clearance in the case of direct exportation or by certificate in the case of transportation and exportation, the drawback office shall verify the importation by referring to the import records to ascertain the amount of duty paid on the merchandise exported. To the extent appropriate and not inconsistent with the provisions of this subpart, drawback entries shall be liquidated in accordance with the provisions of § 191.81 of this part.

§ 191.159 Amount of drawback.

Drawback due under this subpart shall not be subject to the deduction of 1 percent.

Subpart P—Distilled Spirits, Wines, or Beer Which Are Unmerchantable or Do Not Conform to Sample or Specifications

§ 191.161 Refund of taxes.

Section 5062(c), Internal Revenue Code, as amended (26 U.S.C. 5062(c)), provides for the refund, remission, abatement or credit to the importer of internal-revenue taxes paid or determined incident to importation, upon the exportation, or destruction under Customs supervision, of imported distilled spirits, wines, or beer found after entry to be unmerchantable or not to conform to sample or specifications and which are returned to Customs custody.

§ 191.162 Procedure.

The export procedure shall be the same as that provided in § 191.42 except that the claimant must be the importer and as otherwise provided in this subpart.

§ 191.163 Documentation.

(a) *Entry.* Customs Form 7551 shall be used to claim drawback under this subpart.

(b) *Documentation.* The drawback entry for unmerchantable merchandise shall be accompanied by a certificate of the importer setting forth in detail the facts which cause the merchandise to be unmerchantable and any additional evidence that the drawback office requires to establish that the merchandise is unmerchantable.

§ 191.164 Return to Customs custody.

There is no time limit for the return to Customs custody of distilled spirits, wine, or beer subject to refund of taxes under the provisions of this subpart.

§ 191.165 No exportation by mail.

Merchandise covered by this subpart shall not be exported by mail.

§ 191.166 Destruction of merchandise.

(a) *Action by the importer.* A drawback claimant who proposes to destroy rather than export the distilled spirits, wine, or beer shall state that fact on Customs Form 7551.

(b) *Action by Customs.* Distilled spirits, wine, or beer returned to Customs custody at the place approved by the drawback office where the drawback entry was filed shall be destroyed under the supervision of the Customs officer who shall certify the destruction on Customs Form 7553.

§ 191.167 Liquidation.

No deduction of 1 percent of the internal revenue taxes paid or determined shall be made in allowing entries under § 5062(c), Internal Revenue Code, as amended (26 U.S.C. 5062(c)).

§ 191.168 Time limit for exportation or destruction.

Merchandise not exported or destroyed within 90 days from the date of notification of acceptance of the drawback entry shall be considered unclaimed, unless upon written request by the importer, prior to the expiration of the 90-day period, the drawback office grants an extension of not more than 90 days.

Subpart Q—Substitution of Finished Petroleum Derivatives

§ 191.171 General; drawback allowance.

(a) *General.* Section 313(p) of the Act, as amended (19 U.S.C. 1313(p)), provides for drawback on the basis of qualified articles which consist of either petroleum derivatives that are imported, duty-paid, and qualified for drawback under the unused merchandise drawback law (19 U.S.C. 1313(j)(1)), or petroleum derivatives that are manufactured or produced in the United States, and qualified for drawback under the manufacturing drawback law (19 U.S.C. 1313(a) or (b)).

(b) *Allowance of drawback.* Drawback may be granted under 19 U.S.C. 1313(p):

(1) In cases where there is no manufacture, upon exportation of the imported article, an article of the same kind and quality, or any combination thereof; or

(2) In cases where there is a manufacture or production, upon exportation of the manufactured or produced article, an article of the same kind and quality, or any combination thereof.

(c) *Merchandise processing fees.* In cases where the requirements of paragraph (b)(1) of this section have been met, merchandise processing fees will be eligible for drawback.

(d) *Federal excise tax.* For purposes of drawback of internal revenue tax imposed under Chapters 32 and 38 (with the exception of Subchapter A of Chapter 38) of the Internal Revenue Code of 1986, as amended (IRC), drawback granted on the export of substituted merchandise will be limited to the amount of taxes paid (and not returned by refund, credit, or drawback) on the substituted merchandise.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–16, 67 FR 16637, Apr. 8, 2002; CBP Dec. 04–33, 69 FR 60083, Oct. 7, 2004; USCBP–2018–0029, 83 FR 65067, Dec. 18, 2018]

§ 191.172 Definitions.

The following are definitions for purposes of this subpart only:

(a) *Qualified article.* ''Qualified article'' means an article described in headings 2707, 2708, 2710 through 2715, 2901, 2902, 2909.19.14, or 3901 through 3914 of the Harmonized Tariff Schedule of the United States (HTSUS). In the case of an article described in headings 3901 through 3914, the definition covers the article in its primary forms as provided in Note 6 to chapter 39 of the HTSUS.

(b) *Same kind and quality article.* ''Same kind and quality article'' means an article which is commercially interchangeable with, or which is referred to under the same 8-digit classification of the HTSUS as, the article to which it is compared. (For example, unleaded gasoline and jet fuel (naphtha or kerosene-type), both falling under the same HTSUS classification (2710.00.15) would be considered same kind and quality articles because they fall under the same 8 digit HTSUS classification, even though they are not ''commercially interchangeable''.)

(c) *Exported article.* ''Exported article'' means an article which has been exported and is the qualified article, an article of the same kind and quality as the qualified article, or any combination thereof.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–16, 67 FR 16637, Apr. 8, 2002]

§ 191.173 Imported duty-paid derivatives (no manufacture).

When the basis for drawback under 19 U.S.C. 1313(p) is imported duty-paid petroleum derivatives (that is, not articles manufactured under 19 U.S.C. 1313(a) or (b)), the requirements for drawback are as follows:

(a) *Imported duty-paid merchandise.* The imported duty-paid merchandise designated for drawback must be a ''qualified article'' as defined in § 191.172(a) of this subpart;

(b) *Exported article.* The exported article on which drawback is claimed must be an ''exported article'' as defined in § 191.172(c) of this subpart;

(c) *Exporter.* The exporter of the exported article must have either:

(1) Imported the qualified article in at least the quantity of the exported article; or

(2) Purchased or exchanged (directly or indirectly) from an importer an imported qualified article in at least the quantity of the exported article;

(d) *Time of export.* The exported article must be exported within 180 days after the date of entry of the designated imported duty-paid merchandise; and

(e) *Amount of drawback.* The amount of drawback payable may not exceed the amount of drawback which would be attributable to the imported qualified article under 19 U.S.C. 1313(j)(1) which serves as the basis for drawback.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–16, 67 FR 16637, Apr. 8, 2002]

§ 191.174 Derivatives manufactured under 19 U.S.C. 1313(a) or (b).

When the basis for drawback under 19 U.S.C. 1313(p) is petroleum derivatives which were manufactured or produced in the United States and qualify for drawback under the manufacturing drawback law (19 U.S.C. 1313(a) or (b)), the requirements for drawback are as follows:

(a) *Merchandise.* The merchandise which is the basis for drawback under 19 U.S.C. 1313(p) must:

(1) Have been manufactured or produced as described in 19 U.S.C. 1313(a) or (b) from crude petroleum or a petroleum derivative; and

(2) Be a ''qualified article'' as defined in § 191.172(a) of this subpart;

(b) *Exported article.* The exported article on which drawback is claimed must be an ''exported article'' as defined in § 191.172(c) of this subpart;

(c) *Exporter.* The exporter of the exported article must have either:

(1) Manufactured or produced the qualified article in at least the quantity of the exported article; or

(2) Purchased or exchanged (directly or indirectly) from a manufacturer or producer described in 19 U.S.C. 1313(a) or (b) the qualified article in at least the quantity of the exported article;

(d) *Manufacture in specific facility.* The qualified article must have been manufactured or produced in a specific petroleum refinery or production facility which must be identified;

(e) *Time of export.* The exported article must be exported either:

(1) During the period provided for in the manufacturer's or producer's specific manufacturing drawback ruling (see § 191.8 of this part) in which the qualified article is manufactured or produced; or

(2) Within 180 days after the close of the period in which the qualified article is manufactured or produced; and

(f) *Amount of drawback.* The amount of drawback payable may not exceed the amount of drawback which would be attributable to the article manufactured or produced under 19 U.S.C. 1313(a) or (b) which serves as the basis for drawback.

§ 191.175 Drawback claimant; maintenance of records.

(a) *Drawback claimant.* A drawback claimant under 19 U.S.C. 1313(p) must be the exporter of the exported article, or the refiner, producer, or importer of either the qualified article or the exported article. Any of these persons may designate another person to file the drawback claim.

(b) *Certificate of manufacture and delivery or delivery*—(1) *General.* A drawback claimant under 19 U.S.C. 1313(p) must provide a certificate of manufacture and delivery or a certificate of delivery, as applicable, establishing the drawback eligibility of the articles for which drawback is claimed.

(2) *Article substituted for the qualified article.* (i) Subject to paragraph (b)(2)(iii) of this section, the manufacturer, producer, or importer of a qualified article may transfer to the exporter an article of the same kind and quality as the qualified article, as so certified, respectively, in a certificate

of manufacture and delivery or a certificate of delivery, in a quantity not greater than the quantity of the qualified article.

(ii) Subject to paragraph (b)(2)(iii) of this section, any intermediate party in the chain of commerce leading to the exporter from the manufacturer, producer, or importer of a qualified article may also transfer to the exporter or to another intermediate party an article of the same kind and quality as the article purchased or exchanged from the prior transferor (whether the manufacturer, producer, importer, or another intermediate transferor), as so certified in a certificate of delivery, in a quantity not greater than the quantity of the article purchased or exchanged.

(iii) Under either paragraph (b)(2)(i) or (b)(2)(ii) of this section, the article transferred, regardless of its origin (imported, manufactured, substituted, or any combination thereof), so designated on a certificate of delivery or, in the case of the manufacturer or producer of a qualified article under 19 U.S.C. 1313(a) or (b), on a certificate of manufacture and delivery, will be the qualified article eligible for drawback for purposes of section 1313(p), provided that the following conditions are met:

(A) The party who issues the applicable certificate for the transferred article must expressly state on the certificate that the certificate is prepared pursuant to 19 U.S.C. 1313(p) (the article may not be designated for any other drawback purposes);

(B) The party must certify to the Commissioner of Customs on the certificate or an attachment that it has not, and will not, designate on that certificate and on any other such certificates issued a quantity of the article greater than the amount eligible for drawback; and

(C) The party must certify to the Commissioner of Customs on the applicable certificate or on an attachment that it will maintain appropriate records which establish that it has not designated on any such certificates issued a greater quantity than the amount eligible for drawback.

(c) *Maintenance of records.* The manufacturer, producer, importer, transferor, exporter and drawback claimant of the qualified article and the exported article must all maintain their appropriate records required by this part.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 02–16, 67 FR 16637, Apr. 8, 2002]

§ 191.176 Procedures for claims filed under 19 U.S.C. 1313(p).

(a) *Applicability.* The general procedures for filing drawback claims shall be applicable to claims filed under 19 U.S.C. 1313(p) unless otherwise specifically provided for in this section.

(b) *Administrative efficiency, frequency of claims, and restructuring of claims.* The procedures regarding administrative efficiency, frequency of claims, and restructuring of claims (as applicable, see § 191.53 of this part) shall apply to claims filed under this subpart.

(c) *Imported duty-paid derivatives (no manufacture).* When the basis for drawback under 19 U.S.C. 1313(p) is imported duty-paid petroleum (not articles manufactured under 19 U.S.C. 1313(a) or (b)), claims under this subpart may be paid and liquidated if:

(1) The claim is filed on Customs Form 7551; and

(2) The claimant provides a certification stating the basis (such as company records, or customer's written certification), for the information contained therein and certifying that:

(i) The exported merchandise was exported within 180 days of entry of the designated, imported merchandise;

(ii) The qualified article and the exported article are commercially interchangeable or both articles are subject to the same 8-digit HTSUS tariff classification;

(iii) To the best of the claimant's knowledge, the designated imported merchandise, the qualified article and the exported article have not and will not serve as the basis of any other drawback claim;

(iv) Evidence in support of the certification will be retained by the person providing the certification for 3 years after payment of the claim; and

(v) Such evidence will be available for verification by Customs.

(d) *Derivatives manufactured under 19 U.S.C. 1313(a) or (b).* When the basis for drawback under 19 U.S.C. 1313(p) is articles manufactured under 19 U.S.C.

1313(a) or (b), claims under this section may be paid and liquidated if:

(1) The claim is filed on Customs Form 7551;

(2) All documents required to be filed with a manufacturing claim under 19 U.S.C. 1313(a) or (b) are filed with the claim;

(3) The claim identifies the specific refinery or production facility at which the derivatives were manufactured or produced;

(4) The claim states the period of manufacture for the derivatives; and

(5) The claimant provides a certification stating the basis (such as company records or a customer's written certification), for the information contained therein and certifying that:

(i) The exported merchandise was exported during the manufacturing period for the qualified article or within 180 days after the close of that period;

(ii) The qualified article and the exported article are commercially interchangeable or both articles are subject to the same 8-digit HTSUS tariff classification;

(iii) To the best of the claimant's knowledge, the designated imported merchandise, the qualified article and the exported article have not and will not serve as the basis of any other drawback claim;

(iv) Evidence in support of the certification will be retained by the person providing the certification for 3 years after payment of the claim; and

(v) Such evidence will be available for verification by Customs.

Subpart R—Merchandise Transferred to a Foreign Trade Zone From Customs Territory

§ 191.181 Drawback allowance.

The fourth proviso of § 3 of the Foreign Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81c), provides for drawback on merchandise transferred to a foreign trade zone for the sole purpose of exportation, storage or destruction (except destruction of distilled spirits, wines, and fermented malt liquors), provided there is compliance with the regulations of this subpart.

§ 191.182 Zone-restricted merchandise.

Merchandise in a foreign trade zone for the purposes specified in § 191.181 shall be given status as zone-restricted merchandise on proper application (see § 146.44 of this chapter).

§ 191.183 Articles manufactured or produced in the United States.

(a) *Procedure for filing documents.* Except as otherwise provided, the drawback procedures prescribed in this part shall be followed as applicable to drawback under this subpart on articles manufactured or produced in the United States with the use of imported or substituted merchandise, and on flavoring extracts or medicinal or toilet preparations (including perfumery) manufactured or produced with the use of domestic tax-paid alcohol.

(b) *Notice of transfer*—(1) *Evidence of export.* The notice of zone transfer on Customs Form 214 shall be in place of the documents under subpart G of this part to establish the exportation.

(2) *Filing procedures.* The notice of transfer, in triplicate, shall be filed with the drawback office where the foreign trade zone is located prior to the transfer of the articles to the zone, or within 3 years after the transfer of the articles to the zone. A notice filed after the transfer shall state the foreign trade zone lot number.

(3) *Contents of notice.* Each notice of transfer shall show the:

(i) Number and location of the foreign trade zone;

(ii) Number and kind of packages and their marks and numbers;

(iii) Description of the articles, including weight (gross and net), gauge, measure, or number; and

(iv) Name of the transferor.

(c) *Action of foreign trade zone operator.* After articles have been received in the zone, the zone operator shall certify on a copy of the notice of transfer the receipt of the articles (see § 191.184(d)(2)) and forward the notice to the transferor or the person designated by the transferor, unless the export summary procedure, provided for in § 191.73, is used. If the export summary procedure is used, the requirements in § 191.73 shall be complied with, as applicable. The transferor shall verify that

the notice has been certified before filing it with the drawback claim.

(d) *Drawback entries.* Drawback entries shall be filed on Customs Form 7551 to indicate that the merchandise was transferred to a foreign trade zone. The ''Declaration of Exportation'' shall be modified as follows:

Declaration of Transfer to a Foreign Trade Zone

I,_____ _____
(member of firm, officer representing corporation, agent, or attorney), of _____, declare that, to the best of my knowledge and belief, the particulars of transfer stated in this entry, the notices of transfer, and receipts are correct, and that the merchandise was transferred to a foreign trade zone for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption.

Dated: _____

_____
Transferor or agent

§ 191.184 Merchandise transferred from continuous Customs custody.

(a) *Procedure for filing claims.* The procedure described in subpart O of this part shall be followed as applicable, for drawback on merchandise transferred to a foreign trade zone from continuous Customs custody.

(b) *Drawback entry.* Before the transfer of merchandise from continuous Customs custody to a foreign trade zone, the importer or a person designated in writing by the importer for that purpose shall file with the drawback office a direct export drawback entry on Customs Form 7551 in duplicate. The drawback office shall forward one copy of Customs Form 7551 to the zone operator at the zone.

(c) *Certification by zone operator.* After the merchandise has been received in the zone, the zone operator shall certify on the copy of Customs Form 7551 the receipt of the merchandise (see paragraph (d)(2) of this section) and forward the form to the transferor or the person designated by the transferor, unless the export summary procedure, provided for in §191.73, is used. If the export summary procedure is used, the requirements in §191.73 shall be complied with, as applicable. After executing the declaration provided for in paragraph (d)(3) of this section, the transferor shall resubmit Customs Form 7551 to the drawback office in place of the bill of lading required by §191.156.

(d) *Modification of drawback entry*—(1) *Indication of transfer.* Customs Form 7551 shall indicate that the merchandise is to be transferred to a foreign trade zone.

(2) *Endorsement.* The transferor or person designated by the transferor shall endorse Customs Form 7551 as follows, for execution by the foreign trade zone operator:

Certification of Foreign Trade Zone Operator

The merchandise described in the entry was received from _____ on _____, 19___; in Foreign Trade Zone No._____,
(City and State)
Exceptions _____ _____
(Name and title)
By _____ _____
(Name of operator)

(3) *Transferor's declaration.* The transferor shall declare on Customs Form 7551 as follows:

Transferor's Declaration

I, _____ _____
of the firm of_____, declare that the merchandise described in this entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it was transferred to Foreign Trade Zone No. _____, located at _____, (City and State) for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption. I further declare that to the best of my knowledge and belief, this merchandise is in the same quantity, quality, value, and package, unavoidable wastage and damage excepted, as it was at the time of importation; that no allowance nor reduction of duties has been made for damage or other cause except as specified in this entry; and that no part of the duties paid has been refunded by drawback or otherwise.

Dated: _____
(Transferor)

§ 191.185 Unused merchandise drawback and merchandise not conforming to sample or specification, shipped without consent of the consignee, or found to be defective as of the time of importation.

(a) *Procedure for filing claims.* The procedures described in subpart C of this

part relating to unused merchandise drawback, and in subpart D of this part relating to rejected merchandise, shall be followed as applicable to drawback under this subpart for unused merchandise drawback and merchandise that does not conform to sample or specification, is shipped without consent of the consignee, or is found to be defective as of the time of importation.

(b) *Drawback entry*. Before transfer of the merchandise to a foreign trade zone, the importer or a person designated in writing by the importer for that purpose shall file with the drawback office an entry on Customs Form 7551 in duplicate. The drawback office shall forward one copy of Customs Form 7551 to the zone operator at the zone.

(c) *Certification by zone operator*. After the merchandise has been received in the zone, the zone operator at the zone shall certify on the copy of Customs Form 7551 the receipt of the merchandise and forward the form to the transferor or the person designated by the transferor, unless the export summary procedure, provided for in §191.73, is used. If the export summary procedure is used, the requirements in §191.73 shall be complied with, as applicable. After executing the declaration provided for in paragraph (d)(3) of this section, the transferor shall resubmit Customs Form 7551 to the drawback office in place of the bill of lading required by §191.156.

(d) *Modification of drawback entry*—(1) *Indication of transfer*. Customs Form 7551 shall indicate that the merchandise is to be transferred to a foreign trade zone.

(2) *Endorsement*. The transferor or person designated by the transferor shall endorse Customs Form 7551 as follows, for execution by the foreign trade zone operator:

Certification of Foreign Trade Zone Operator

The merchandise described in this entry was received from _____ on _____, 19 ___, in Foreign Trade Zone No. _____, _____ (City and State).
Exceptions: _____

_____

_____

(Name of operator)
By _____
(Name and title)

(3) *Transferor's declaration*. The transferor shall declare on Customs Form 7551 as follows:

Transferor's Declaration

I, _____ _____
of the firm of _____, declare that the merchandise described in the within entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it was transferred to Foreign Trade Zone No. _____, located at_____ (City and State) for the sole purpose of exportation, destruction, or storage, not to be removed from the foreign trade zone for domestic consumption. I further declare that to the best of my knowledge and belief, said merchandise is the same in quantity, quality, value, and package as specified in this entry; that no allowance nor reduction in duties has been made; and that no part of the duties paid has been refunded by drawback or otherwise.
Dated: _____
Transferor

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15289, Mar. 31, 1998]

§191.186 Person entitled to claim drawback.

The person named in the foreign trade zone operator's certification on the notice of transfer or the drawback entry, as applicable, shall be considered to be the transferor. Drawback may be claimed by, and paid to, the transferor.

Subpart S—Drawback Compliance Program

§191.191 Purpose.

This subpart sets forth the requirements for the Customs drawback compliance program in which claimants and other parties in interest, including Customs brokers, may participate after being certified by Customs. Participation in the program is voluntary. Under the program, Customs is required to inform potential drawback claimants and related parties clearly about their rights and obligations under the drawback law and regulations. Reduced penalties and/or warning letters may be issued once a party has been certified for the program, and is in general compliance with the appropriate procedures and requirements thereof.

§ 191.192 Certification for compliance program.

(a) *General.* A party may be certified as a participant in the drawback compliance program after meeting the core requirements established under the program, or after negotiating an alternative drawback compliance program suited to the needs of both the party and Customs. Certification requirements shall take into account the size and nature of the party's drawback program, the type of drawback claims filed, and the volume of claims filed. Whether the party is a drawback claimant, a broker, or one that provides data and documentation on which a drawback claim is based, will also be considered.

(b) *Core requirements of program.* In order to be certified as a participant in the drawback compliance program or negotiated alternative drawback compliance program, the party must be able to demonstrate that it:

(1) Understands the legal requirements for filing claims, including the nature of the records that are required to be maintained and produced and the time periods involved;

(2) Has in place procedures that explain the Customs requirements to those employees involved in the preparation of claims, and the maintenance and production of required records;

(3) Has in place procedures regarding the preparation of claims and maintenance of required records, and the production of such records to Customs;

(4) Has designated a dependable individual or individuals who will be responsible for compliance under the program, and maintenance and production of required records;

(5) Has in place a record maintenance program approved by Customs regarding original records, or if approved by Customs, alternative records or recordkeeping formats for other than the original records; and

(6) Has procedures for notifying Customs of variances in, or violations of, the drawback compliance or other alternative negotiated drawback compliance program, and for taking corrective action when notified by Customs of violations and problems regarding such program.

(c) *Broker certification.* A Customs broker may be certified as a participant in the drawback compliance program only on behalf of a given claimant (see § 191.194(b)). To do so, a Customs broker who is employed to assist a claimant in filing for drawback must be able to demonstrate, for and on behalf of such claimant, conformity with the core requirements of the drawback compliance program as set forth in paragraph (b) of this section. The broker shall ensure that the claimant has the necessary documentation and records to support the drawback compliance program established on its behalf, and that claims to be filed under the program are reviewed by the broker for accuracy and completeness.

§ 191.193 Application procedure for compliance program.

(a) *Who may apply.* Claimants and other parties in interest may apply for participation in the drawback compliance program. This includes any person, corporation or business entity that provides supporting information or documentation to one who files drawback claims, as well as Customs brokers who assist claimants in filing for drawback. Program participants may further consist of importers, manufacturers or producers, agent-manufacturers, complementary recordkeepers, subcontractors, intermediate parties, and exporters.

(b) *Place of filing.* An application in letter format containing the information as prescribed in paragraphs (c) and (d) of this section shall be submitted to any drawback office. However, in the event the applicant is a claimant for drawback, the application shall be submitted to the drawback office where the claims will be filed.

(c) *Letter of application; contents.* A party requesting certification to become a participant in the drawback compliance program shall file with the applicable drawback office a written application in letter format, signed by an authorized individual (see § 191.6(c) of this part). The detail required in the application shall take into account the size and nature of the applicant's drawback program, the type of drawback claims filed, and the dollar value and volume of claims filed. However, the

application shall contain at least the following information:

(1) Name of applicant, address, IRS number (with suffix), and the type of business in which engaged, as well as the name(s) of the individual(s) designated by the applicant to be responsible for compliance under the program;

(2) A description of the nature of the applicant's drawback program, including the type of drawback in which involved (such as, manufacturing, or unused or rejected merchandise), and the applicant's particular role(s) in the drawback claims process (such as claimant and/or importer, manufacturer or producer, agent-manufacturer, complementary recordkeeper, subcontractor, intermediate party (possessor or purchaser), or exporter (destroyer)); and

(3) Size of applicant's drawback program. (For example, if the applicant is a claimant, the number of claims filed over the previous 12-month period should be included, along with the number estimated to be filed over the next 12-month period, and the estimated amount of drawback to be claimed annually. Other parties should describe the extent to which they are involved in drawback activity, based upon their particular role(s) in the drawback process; for example, manufacturers should explain how much manufacturing they are engaged in for drawback, such as the quantity of drawback product produced on an annual basis, as established by the certificates of manufacture and delivery they have executed.)

(d) *Application package.* Along with the letter of application as prescribed in paragraph (c) of this section, the application package must include a description of how the applicant will ensure compliance with statutory and regulatory drawback requirements. This description may be in the form of a booklet or set forth otherwise. The description must include at least the following:

(1) The name and title of the official in the applicant's organization who is responsible for oversight of the applicant's drawback program, and the name and title, with mailing address and, if available, fax number and e-mail address, of the person[s] in the applicant's organization responsible for the actual maintenance of the applicant's drawback program;

(2) If the applicant is a manufacturer and the drawback involved is manufacturing drawback, a copy of the letter of notification of intent to operate under a general manufacturing drawback ruling or the application for a specific manufacturing drawback ruling (see §§ 191.7 and 191.8 of this part), as appropriate;

(3) A description of the applicant's drawback record-keeping program, including the retention period and method (for example, paper, electronic, etc.);

(4) A list of the records that will be maintained, including at least sample import documents, sample export documents, sample inventory and transportation documents (if applicable), sample laboratory or other documents establishing the qualification of merchandise or articles for substitution under the drawback law (if applicable), and sample manufacturing documents (if applicable);

(5) A description of the applicant's specific procedures for:

(i) How drawback claims are prepared (if the applicant is a claimant); and

(ii) How the applicant will fulfill any requirements under the drawback law and regulations applicable to its role in the drawback program;

(6) A description of the applicant's procedures for notifying Customs of variances in, or violations of, its drawback compliance program or negotiated alternative drawback compliance program, and procedures for taking corrective action when notified by Customs of violations or other problems in such program; and

(7) A description of the applicant's procedures for annual review to ensure that its drawback compliance program meets the statutory and regulatory drawback requirements and that Customs is notified of any modifications from the procedures described in this application.

§ 191.194 Action on application to participate in compliance program.

(a) *Review by applicable drawback office*—(1) *General.* It is the responsibility

of the drawback office where the drawback compliance application package is filed to coordinate its decision making on the package both with CBP Headquarters and with the other field drawback offices as appropriate. CBP processing of the package will consist of the review of the information contained therein as well as any additional information requested (see paragraph (a)(2) of this section).

(2) *Criteria for CBP review.* The drawback office shall review and verify the information submitted in and with the application. In order for CBP to evaluate the application, CBP may request additional information (including additional sample documents) and/or explanations of any of the information provided for in §191.193(c) and (d) of this subpart. Based on the information submitted on and with the application and any information so requested, and based on the applicant's record of transactions with CBP, the drawback office will approve or deny the application. The criteria to be considered in reviewing the applicant's record with CBP shall include (as applicable):

(i) The presence or absence of unresolved customs charges (duties, taxes, or other debts owed CBP);

(ii) The accuracy of the claimant's past drawback claims; and

(iii) Whether accelerated payment of drawback or waiver of prior notice of intent to export was previously revoked or suspended.

(b) *Approval.* Certification as a participant in the drawback compliance program will be given to applicants whose applications are approved under the criteria in paragraph (a)(2) of this section. The applicable drawback office will give written notification to an applicant of its certification as a participant in the drawback compliance program. A Customs broker obtaining certification for a drawback claimant will be sent written notification on behalf of such claimant, with a copy of the notification also being sent to the claimant.

(c) *Benefits of participation in program.* When a party that has been certified as a participant in the drawback compliance program and is generally in compliance with the appropriate procedures and requirements of the program commits a violation of 19 U.S.C. 1593a(a) (see §191.62(b) of this part), CBP shall, in the absence of fraud or repeated violations, and in lieu of a monetary penalty as otherwise provided under §1593a, issue a written notice of the violation to the party. Repeated violations by a participant, including a CBP broker, may result in the issuance of penalties and the removal of certification under the program until corrective action, satisfactory to CBP, is taken.

(d) *Denial.* If certification as a participant in the drawback compliance program is denied to an applicant, the applicant shall be given written notice by the applicable drawback office, specifying the grounds for such denial, together with any action that may be taken to correct the perceived deficiencies, and informing the applicant that such denial may be appealed to the appropriate drawback office and then appealed to CBP Headquarters.

(e) *Certification removal*—(1) *Grounds for removal.* The certification for participation in the drawback compliance program by a party may be removed when any of the following conditions are discovered:

(i) The certification privilege was obtained through fraud or mistake of fact;

(ii) The program participant is no longer in compliance with the customs laws and CBP regulations, including the requirements set forth in §191.192;

(iii) The program participant repeatedly files false drawback claims or false or misleading documentation or other information relating to such claims; or

(iv) The program participant is convicted of any felony or has committed acts which would constitute a misdemeanor or felony involving theft, smuggling, or any theft-connected crime.

(2) *Removal procedure.* If CBP determines that the certification of a program participant should be removed, the applicable drawback office will serve the program participant with written notice of the removal. Such notice will inform the program participant of the grounds for the removal and will advise the program participant of its right to file an appeal of the

removal in accordance with paragraph (f) of this section.

(3) *Effect of removal.* The removal of certification will be effective immediately in cases of willfulness on the part of the program participant or when required by public health, interest, or safety. In all other cases, the removal of certification will be effective when the program participant has received notice under paragraph (e)(2) of this section and either no appeal has been filed within the time limit prescribed in paragraph (f)(2) of this section or all appeal procedures have been concluded by a decision that upholds the removal action. Removal of certification may subject the affected person to penalties.

(f) *Appeal of certification denial or removal*—(1) *Appeal of certification denial.* A party may challenge a denial of an application for certification as a participant in the drawback compliance program by filing a written appeal, within 30 days of issuance of the notice of denial, with the applicable drawback office. A denial of an appeal may itself be appealed to CBP Headquarters, Trade Policy and Programs, Office of International Trade, within 30 days after issuance of the applicable drawback office's appeal decision. CBP Headquarters will review the appeal and will respond with a written decision within 30 days after receipt of the appeal unless circumstances require a delay in issuance of the decision. If the decision cannot be issued within the 30-day period, CBP Headquarters will advise the appellant of the reasons for the delay and of any further actions which will be carried out to complete the appeal review and of the anticipated date for issuance of the appeal decision.

(2) *Appeal of certification removal.* A party who has received a CBP notice of removal of certification for participation in the drawback compliance program may challenge the removal by filing a written appeal, within 30 days after issuance of the notice of removal, with the applicable drawback office. A denial of an appeal may itself be appealed to CBP Headquarters, Trade Policy and Programs, Office of International Trade, within 30 days after issuance of the applicable drawback office's appeal decision. CBP Headquarters will consider the allegations upon which the removal was based and the responses made to those allegations by the appellant and will render a written decision on the appeal within 30 days after receipt of the appeal.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998, as amended by T.D. 00–5, 65 FR 3812, Jan. 25, 2000]

§ 191.195 Combined application for certification in drawback compliance program and waiver of prior notice and/or approval of accelerated payment of drawback.

An applicant for certification in the drawback compliance program may also, in the same application, apply for waiver of prior notice of intent to export and accelerated payment of drawback, under subpart I of this part. Alternatively, an applicant may separately apply for certification in the drawback compliance program and either or both waiver of prior notice and accelerated payment of drawback. In the former instance, the intent to apply for certification and waiver of prior notice and/or approval of accelerated payment of drawback must be clearly stated. In all instances, all of the requirements for certification and the procedure applied for must be met (for example, in a combined application for certification in the drawback compliance program and both procedures, all of the information required for certification and each procedure, all required sample documents for certification and each procedure, and all required certifications must be included in and with the application).

APPENDIX A TO PART 191—GENERAL MANUFACTURING DRAWBACK RULINGS

TABLE OF CONTENTS

V. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Component Parts (T.D. 81–300)
VI. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Flaxseed (T.D. 83–80)
VII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Fur Skins or Fur Skin Articles (T.D. 83–77)
VIII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Orange Juice (T.D. 85–110)
IX. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives (T.D. 84–49)
X. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Piece Goods (T.D. 83–73)
XI. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Raw Sugar (T.D. 83–59)
XII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Steel (T.D. 81–74)
XIII. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Sugar (T.D. 81–92)
XIV. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Woven Piece Goods (T.D. 83–84)

I. General Instructions

A. There follow various general manufacturing drawback rulings which have been designed to simplify drawback procedures. Any person who can comply with the conditions of any one of these rulings may notify a Customs drawback office in writing of its intention to operate under the ruling (see §191.7 of this part). Such a letter of notification shall include the following information:

1. Name and address of manufacturer or producer;
2. IRS (Internal Revenue Service) number (with suffix) of manufacturer or producer;
3. Location[s] of factory[ies] which will operate under the general ruling;
4. If a business entity, names of persons who will sign drawback documents (see §191.6 of this part);
5. Identity (by T.D. number and title, as stated in this Appendix) of general manufacturing drawback ruling under which the manufacturer or producer intends to operate;
6. Description of the merchandise and articles, unless specifically described in the general manufacturing drawback ruling;
7. Only for General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives, the name of each article to be exported or, if the identity of the product is not clearly evident by its name, what the product is, and the abstract period to be used for each refinery (monthly or other specified period (not to exceed 1 year)), subject to the conditions in the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Petroleum or Petroleum Derivatives, I. Procedures and Records Maintained, 4(a) or (b);
8. Basis of claim used for calculating drawback; and
9. Description of the manufacturing or production process, unless specifically described in the general manufacturing drawback ruling.

For the General Manufacturing Drawback Ruling under §1313(a), the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(b) for Component Parts, and the General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) or 1313(b) for Agents, if the drawback office has doubts as to whether there is a manufacture or production, as defined in §191.2(q) of this part, the manufacturer or producer will be asked to provide details of the operation purported to be a manufacture or production.

B. These general manufacturing drawback rulings supersede general ''contracts'' previously published under the following Treasury Decisions (T.D.'s): 81–74, 81–92, 81–181, 81–234, 81–300, 83–53, 83–59, 83–73, 83–77, 83–80, 83–84, 83–123, 84–49, and 85–110.

Anyone currently operating under any of the above-listed Treasury Decisions will automatically be covered by the superseding general ruling, including all privileges of the previous ''contract''.

II. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) (T.D. 81–234; T.D. 83–123)

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on which Drawback will be Claimed

Exported articles on which drawback will be claimed will be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (see §191.9 of this part).

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

D. Process Of Manufacture Or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

E. Multiple Products

1. Relative Values

Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. If multiple products are produced records will be maintained of the market value of each product at the time it is first separated in the manufacturing process.

2. Appearing-in method

The appearing in basis may not be used if multiple products are produced.

F. Loss or Gain

Records will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that is of the same kind and quality as the imported merchandise, meeting specifications set forth in the application by the manufacturer or producer for a determination of same kind and quality (see §191.11(c)), shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings (see 19 CFR 191.11).

H. Stock In Process

Stock in process does not result; or if it does result, details will be given in claims as filed, and it will not be included in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.

I. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

J. Procedures And Records Maintained

Records will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise, and

2. The quantity of imported merchandise[2] used in producing the exported articles.

(To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance).

K. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

L. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles less the amount of that merchandise which the value of the waste would replace.

M. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

III. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(a) OR 1313(b) FOR AGENTS (T.D. 81–181)

Manufacturers or producers operating under this general manufacturing drawback ruling must comply with T.D.s 55027(2), 55207(1), and 19 U.S.C. 1313(b), if applicable, as well as 19 CFR part 191 (see particularly, §191.9).

A. Name and Address of Principal

B. Process of Manufacture or Production

The imported merchandise or drawback products or other substituted merchandise will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

C. Procedures and Records Maintained

Records will be maintained to establish:

1. Quantity, kind and quality of merchandise transferred from the principal to the agent;

2. Date of transfer of the merchandise from the principal to the agent;

3. Date of manufacturing or production operations performed by the agent;

4. Total quantity and description of merchandise appearing in or used in manufacturing or production operations performed by the agent;

5. Total quantity and description of articles produced in manufacturing or production operations performed by the agent;

6. Quantity, kind and quality of articles transferred from the agent to the principal; and

7. Date of transfer of the articles from the agent to the principal.

D. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when manufacturing or producing articles for account of the principal under the principal's general manufacturing drawback ruling or specific manufacturing drawback ruling, as appropriate;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates the claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

IV. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(a) FOR BURLAP OR OTHER TEXTILE MATERIAL (T.D. 83–53)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of bags or meat wrappers manufactured with the use of imported burlap or other textile material, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (burlap or other textile material) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed will be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (see §191.9 of this part).

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

E. Multiple Products

Not applicable.

F. Loss or Gain

Not applicable.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

Each lot of imported material received by a manufacturer or producer shall be given a lot number and kept separate from other lots until used. The records of the manufacturer or producer shall show, as to each manufacturing lot or period of manufacture, the quantity of material used from each import lot and the number of each kind and size of bags or meat wrappers obtained. If applicable, a certificate of manufacture and delivery shall be filed covering each manufacturing lot or period of manufacture.

All bags or meat wrappers manufactured or produced for the account of the same exporter during a specified period may be designated as one manufacturing lot and, as applicable, covered by one certificate of manufacture and delivery. All exported bags or meat wrappers shall be identified by the exporter with the certificate of manufacture and delivery covering their manufacture, if applicable.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace.

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 191 of the CBP Regulations and this general ruling.

V. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR COMPONENT PARTS (T.D. 81–300)

A. SAME KIND AND QUALITY (PARALLEL COLUMNS)

Imported Merchandise or Drawback Products[1] to be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as that Designated which will be Used in the Production of the Exported Products.
Component parts identified by individual part numbers.	Component parts identified with the same individual part numbers as those in the column immediately to the left hereof.

[1]Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

The designated[2] components will have been manufactured in accordance with the same specifications and from the same materials, and identified by the same part number as the substituted components. Further, the designated and substituted components are used interchangeably in the manufacture of the exported articles upon which drawback will be claimed. Specifications or drawings will be maintained and made available for Customs officers. The imported merchandise designated on drawback claims will be so similar to the merchandise used in producing the exported articles on which drawback is claimed that the merchandise used would, if imported, be subject to the same rate of duty as the imported designated merchandise. Fluctuations in market value resulting from factors other than quality will not affect the drawback.

B. Exported Articles on Which Drawback Will Be Claimed

The exported articles will have been manufactured in the United States using components described in the parallel columns above.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The components described in the parallel columns will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

[2]If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of components appearing in the exported articles, records will be maintained to establish the value (or the lack of value), the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

G. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

H. Procedures and Records Maintained

Records will be maintained to establish:

1. The identity and specifications of the designated merchandise;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] used to produce the exported articles;

3. That, within 3 years after receiving the designated merchandise at its factory, the manufacturer or producer used the merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced[3] the exported articles. To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported

[2]If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3]The date of production is the date an article is completed.

merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of eligible components used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible components that appear in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible components used to produce the exported articles less the amount of those components which the value of the waste would replace.

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;
2. Open its factory and records for examination at all reasonable hours by authorized Government officers;
3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;
4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;
5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and
6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

VI. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Flaxseed (T.D. 83–80)

Drawback may be allowed under the provision of 19 U.S.C. 1313(a) upon the exportation of linseed oil, linseed oil cake, and linseed oil meal, manufactured or produced with the use of imported flaxseed, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (flaxseed) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed will be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

E. Multiple Products

Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. If multiple products are produced records will be maintained of the market value of each product at the time it is first separated in the manufacturing process (when a claim covers a manufacturing period, the entire period covered by the claim is the time of separation of the products and the value per unit of product is the market value for the period (see §§191.2(u), 191.22(e)). The ''appearing in'' basis may not be used if multiple products are produced.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

F. Loss or Gain

Records will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

The inventory records of the manufacturer or producer shall show the inclusive dates of manufacture; the quantity, identity, and value of the imported flaxseed or screenings, scalpings, chaff, or scourings used; the quantity by actual weight and value, if any, of the material removed from the foregoing by screening prior to crushing; the quantity and kind of domestic merchandise added, if any; the quantity by actual weight or gauge and value of the oil, cake, and meal obtained; and the quantity and value, if any, of the waste incurred. The quantity of imported flaxseed, screenings, scalpings, chaff, or scourings used or of material removed shall not be estimated nor computed on the basis of the quantity of finished products obtained, but shall be determined by actually weighing the said flaxseed, screenings, scalpings, chaff, scourings, or other material; or, at the option of the crusher, the quantities of imported materials used may be determined from Customs weights, as shown by the import entry covering such imported materials, and the Government weight certificate of analysis issued at the time of entry. The entire period covered by an abstract shall be deemed the time of separation of the oil and cake covered thereby.

If the records of the manufacturer or producer do not show the quantity of oil cake used in the manufacture or production of the exported oil meal and the quantity of oil meal obtained, the net weight of the oil meal exported shall be regarded as the weight of the oil cake used in the manufacture thereof.

If various tanks are used for the storage of imported flaxseed, the mill records shall establish the tank or tanks in which each lot or cargo is stored. If raw or processed oil manufactured or produced during different periods of manufacture is intermixed in storage, a record shall be maintained showing the quantity, identity, and kind of oil so intermixed. Identity of merchandise or articles in either instance shall be in accordance with §191.14 of this part.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace.

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 191 of the CBP Regulations and this general ruling.

VII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(a) FOR FUR SKINS OR FUR SKIN ARTICLES (T.D. 83–77)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of dressed, redressed, dyed, redyed, bleached, blended, or striped fur skins or fur skin articles manufactured or produced by any one or a combination of the foregoing processes with the use of fur skins or fur skin articles, such as plates, mats, sacs, strips, and crosses, imported in a raw, dressed, or dyed condition, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (fur skins or fur skin articles) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed will be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

Drawback shall not be allowed under this general manufacturing drawback ruling when the process performed results only in the restoration of the merchandise to its condition at the time of importation.

E. Multiple Products

Not applicable.

F. Loss or Gain

Records will be maintained showing the extent of any loss or gain in net weight or measurement of the imported merchandise, caused by atmospheric conditions, chemical reactions, or other factors.

G. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, records will be maintained to establish the value, the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records will be maintained to establish that fact.

H. Procedures and Records Maintained

Records will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

I. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

The records of the manufacturer or producer shall show, as to each lot of fur skins and/or fur skin articles used in the manufacture or production of articles for exportation

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

[2] If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

with benefit of drawback, the lot number and date or inclusive dates of manufacture or production, the quantity, identity, and description of the imported merchandise used, the condition in which imported, the process or processes applied thereto, the quantity and description of the finished articles obtained, and the quantity of imported pieces rejected, if any, or spoiled in manufacture or production.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace. (If rejects and/or spoilage are incurred, the quantity of imported merchandise used shall be determined by deducting from the quantity of fur skins or fur skin articles put into manufacture or production the quantity of such rejects and/or spoilage.)

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 191 of the CBP Regulations and this general ruling.

VIII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR ORANGE JUICE (T.D. 85–110)

A. SAME KIND AND QUALITY (PARALLEL COLUMNS)

Imported Merchandise or Drawback Products[1] To Be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as That Designated Which Will Be Used in the Production of the Exported Products
Concentrated orange juice for manufacturing (of not less than 55° Brix) as defined in the standard of identity of the Food and Drug Administration (21 CFR 146.53) which meets the Grade A standard of the U.S. Dept. of Agriculture (7 CFR 52.1557, Table IV).	Concentrated orange juice for manufacturing as described in the left-hand parallel column.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

The imported merchandise designated on drawback claims will be so similar in quality to the merchandise used in producing the exported articles on which drawback is claimed that the merchandise used would, if imported, be subject to the same rate of duty as the imported designated merchandise. Fluctuations in the market value resulting from factors other than quality will not affect the drawback.

B. Exported Articles on Which Drawback Will Be Claimed

1. Orange juice from concentrate (reconstituted juice).

2. Frozen concentrated orange juice.

3. Bulk concentrated orange juice.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account

of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

1. Orange juice from concentrate (reconstituted juice). Concentrated orange juice for manufacturing is reduced to a desired 11.8° Brix by a blending process to produce orange juice from concentrate. The following optional blending processes may be used:

i. The concentrate is blended with fresh orange juice (single strength juice); or

ii. The concentrate is blended with essential oils, flavoring components, and water; or

iii. The concentrate is blended with water and is heat treated to reduce the enzymatic activity and the number of viable microorganisms.

2. Frozen concentrated orange juice. Concentrated orange juice for manufacturing is reduced to a desired degree Brix of not less than 41.8° Brix by the following optional blending processes:

i. The concentrate is blended with fresh orange juice (single strength juice); or

ii. The concentrate is blended with essential oils and flavoring components and water.

3. Bulk concentrated orange juice. Concentrated orange juice for manufacturing is blended with essential oils and flavoring components which would enable another processor such as a dairy to prepare finished frozen concentrated orange juice or orange juice from concentrate by merely adding water to the (intermediate) bulk concentrated orange juice.

E. Multiple Products, Waste, Loss or Gain

Not applicable.

F. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

G. Procedures and Records Maintained

Records will be maintained to establish:

1. The identity and specifications of the designated merchandise;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] used to produce the exported articles;

3. That, within 3 years after receiving the designated merchandise at its factory, the manufacturer or producer used the designated merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback it must be established that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. No drawback is payable without proof of compliance.

H. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained'', and will show what components were blended with the concentrated orange juice for manufacturing. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

I. Basis of Claim for Drawback

The basis of claim for drawback will be the quantity of concentrated orange juice for manufacturing used in the production of the exported articles. It is understood that when fresh orange juice is used as ''cutback'', it will not be included in the ''pound solids'' when computing the drawback due.

J. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

IX. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR PETROLEUM OR PETROLEUM DERIVATIVES (T.D. 84–49)

A. PARALLEL COLUMNS—"SAME KIND AND QUALITY"

Imported Merchandise or Drawback Products[1] To Be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as That Designated Which Will Be Used in the Production of the Exported Products.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have "dual status" under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

The manufacturer or producer will substitute crude petroleum for crude petroleum and a petroleum derivative for the same petroleum derivative on a class-for-class basis only.

Class Designations:

Class I—API Gravity 0—11.9
Class II—API Gravity 12.0—24.9
Class III—API Gravity 25.0—44.9
Class IV—API Gravity 45—up

The imported merchandise which the manufacturer or producer will designate on its claims will be so similar in quality to the merchandise used in producing the exported articles on which drawback is claimed that the merchandise used would, if imported, be subject to the same rate of duty as the imported designated merchandise.

B. Exported Articles Produced From Fractionation

1. Motor Gasoline
2. Aviation Gasoline
3. Special Naphthas
4. Jet Fuel
5. Kerosene & Range Oils
6. Distillate Oils
7. Residual Oils
8. Lubricating Oils
9. Paraffin Wax
10. Petroleum Coke
11. Asphalt
12. Road Oil
13. Still Gas
14. Liquified Petroleum Gas
15. Petrochemical Synthetic Rubber
16. Petrochemical Plastics & Resins
17. All Other Petrochemical Products

C. Exported Articles on Which Drawback Will Be Claimed

See the General Instructions, I.A.7., for this general drawback ruling. Each article to be exported must be named. When the identity of the product is not clearly evident by its name, there must be a statement as to what the product is, e.g., a herbicide.

D. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (see §191.9 of this part).

E. Process of Manufacture or Production

Heated crude oil is charged to an atmospheric distillation tower where it is subjected to fractionation. The charge to the distillation tower consists of a single crude oil, or of commingled crudes which are fed to the tower simultaneously or after blending in a tank. During fractionation, components of different boiling ranges are separated.

F. Multiple Products

1. Relative Values

Fractionation results in 17 products. In order to insure proper distribution of drawback to each of these products, the manufacturer or producer agrees to record the relative values as the time of separation. The entire period covered by an abstract is to be treated at the time of separation. The value per unit of each product shall be the average market value for the abstract period.

2. Producibility

The manufacturer or producer can vary the proportionate quantity of each product. The manufacturer or producer understands that drawback is payable on exported products only to the extent that these products could have been produced from the designated merchandise. The records of the manufacturer or producer will show that all of the products exported for which drawback will be claimed under this general manufacturing drawback

ruling could have been produced concurrently on a practical operating basis from the designated merchandise.

The manufacturer or producer agrees to establish the amount to be designated by reference to the Industry Standards of Potential Production published in T.D. 66–16.[2]

There are no valuable wastes as a result of the processing.

G. Loss or Gain

Because the manufacturer or producer keeps records on a volume basis rather than a weight basis, it is anticipated that the material balance will show a volume gain. For the same reason, it is possible that occasionally the material balance will show a volume loss. Fluctuations in type of crude used, together with the type of finished product desired make an estimate of an average volume gain meaningless. However, records will be kept to show the amount of loss or gain with respect to the production of export products.

H. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

I. Procedures and Records Maintained

Records will be maintained to establish:

1. The identity and specifications of the merchandise designated;

2. The quantity of merchandise of the same kind and quality as the designated merchandise used to produce the exported articles.

3. That, within 3 years after receiving it at its refinery, the manufacturer or producer used the designated merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced the exported articles.

4(a). The manufacturer or producer agrees to use a 28–31 day period (monthly) abstract period for each refinery covered by this general manufacturing drawback ruling, or

(b). The manufacturer or producer agrees to use an abstract period (not to exceed 1 year) for each refinery covered by this general manufacturing drawback ruling. The manufacturer or producer certifies that if it were to file abstracts covering each manufacturing period of not less than 28 days and not more than 31 days (monthly) within the longer period, in no such monthly abstract would the quantity of designated merchandise exceed, for the same class of designated merchandise, the material introduced into the manufacturing process during that monthly period. (Select (a) or (b), and state which is selected in the application, and, if (b) is selected, specify the length of the particular abstract period chosen (not to exceed 1 year (see General Instruction I.A.7.)).)

5. On each abstract of production the manufacturer or producer agrees to show the value per barrel to five decimal places.

6. The manufacturer or producer agrees to file claims in the format set forth in exhibits A through F which are attached to this general manufacturing drawback ruling. The manufacturer or producer realizes that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. It is understood that drawback is not payable without proof of compliance. Records will be kept in accordance with T.D. 84–49, as amended by T.D. 95–61.

J. Residual Rights

It is understood that the refiner can reserve as the basis for future payment the right to drawback only on the number of barrels of raw material computed by subtracting from Line E the larger of Lines A or B, of a given Exhibit E. It is further understood that this right to future payment can be claimed only against products concurrently producible with the products listed in Column 21, in the quantities shown in Column 22 of such Exhibit E. Such residual right can be transferred to another refinery of the same refiner only when Line B of Exhibit E is larger than Line A. Unless the number of residual barrels is specifically computed and rights thereto are expressly reserved on Exhibit E, such residual rights shall be deemed waived. The procedure the manufacturer or producer shall follow in preparing drawback entries claiming this residual right is illustrated in the attached sample Exhibit E–1. It is understood that claims involving residual rights shall be filed only at the port where the Exhibit E reserving such right was filed.

K. Inventory Procedures

The manufacturer or producer realizes that inventory control is of major importance. In accordance with the normal accounting procedures of the manufacturer or producer, each refinery prepares a monthly stock and yield report, which accounts for inventories,

[2] A manufacturer who proposes to use standards other than those in T.D. 66–16 must state the proposed standards and provide sufficient information to the Customs Service in order for those proposed standards to be verified in accordance with T.D. 84–49.

production and disposals from time of receipt to time of disposition. This provides an audit trail of all products.

The above-noted records will provide the required audit trail from the initial source documents to the drawback claims of the manufacturer or producer and will support adherence with the requirements discussed under the heading PROCEDURES AND RECORDS MAINTAINED.

L. Basis of Claim for Drawback

The amount of raw material on which drawback may be based shall be computed by multiplying the quantity of each product exported by the drawback factor for that product. The amount of any one type and class of raw material which may be designated as the basis for drawback on the exported products produced at a given refinery and covered by a drawback entry shall not exceed the quantity of such raw material used at the refinery during the abstract period or periods from which the exported products were produced. The quantity of raw material to be designated as the basis for drawback on exported products must be at least as great as the quantity of raw material of the same type and class which would be required to produce the exported products in the quantities exported.

M. Agreements

The manufacturer or producer specifically agrees that it will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its refinery and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

[1] Exports.

[2] Drawback deliveries.

A—Crude allowed (column 20: 107,636 bbls. (106,594 for export, plus 1,042 for drawback deliveries)).

B—Total quantity exported (including drawback deliveries) (column 22): 146,996.

C—Largest quantity of raw material needed to produce an individual exported product (see column 24): 151,347.

D—The excess of raw material over the largest of lines A, B, or C, required to produce concurrently on a practical operating basis, using the most efficient processing equipment existing within the domestic industry, the exported articles (including drawback deliveries) in the quantities exported (or delivered): None.

E—Minimum quantity of raw material required to be designated (which is A, B, or C, whichever is largest, plus D, if applicable): 151,347 bbs.

I hereby certify that all the above drawback deliveries and products exported by the Beaumont refinery of ABC Oil Co., Inc. during the period from January 1, 1995 to January 31, 1995, could have been produced concurrently on a practical operating basis from 151,347 barrels of imported Class III crude against which drawback is claimed.

The attached sample, **EXHIBIT E (COMBINATION)**, illustrates the procedures to be followed when two classes or types of raw material are designated on a given abstract. For purposes of illustration it is assumed that the refiner has only 100,000 barrels of Class III crude to designate, but adequate supplies of Class II to designate.

In addition, please note that the computation of drawback on **EXHIBIT D** will be as follows:

Duty paid on raw material selected for designation:

$.1050 per barrel (Class III crude)
$.0525 per barrel (Class II crude)

Amount of drawback claimed-	gross:	81,638 x .1050=	$8,571.99
		24,956 x .0525=	$1,310.19
			$9,882.18
		(Rounded Off)	9,882
		Less 1%	-99
Amount of drawback claimed-	net:		$9,783

X. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR PIECE GOODS (T.D. 83–73)

A. SAME KIND AND QUALITY (PARALLEL COLUMNS)

Imported Merchandise or Drawback Products[1] to be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as that Designated which will be Used in the Production of the Exported Products.
Piece goods	Piece goods.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under 19 U.S.C. 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

The piece goods used in manufacture will be the same kind and quality as the piece goods designated as the basis of claim for drawback, and are used interchangeably without change in manufacturing processes or resultant products (including, if applicable, multiple products), or wastes. Some tolerances between imported-designated piece goods and the used-exported piece goods will be permitted to accommodate variations which are normally found in piece goods. These tolerances are no greater than the tolerances generally allowed in the industry for piece goods of the same kind and quality as follows:

1. A 4% weight tolerance so that the piece goods used in manufacture will be not more than 4% lighter or heavier than the imported piece goods which will be designated;

2. A tolerance of 4% in the aggregate thread count per square inch so that the piece goods used in manufacture will have an aggregate thread count within 4%, more or less of the aggregate thread count of the imported piece goods which will be designated. In each case, the average yarn number of the domestic piece goods will be the same or greater than the average yarn number of the imported piece goods designated, and in each case, the substitution and tolerance will be employed only within the same family of fabrics, *i.e.,* print cloth for print cloth, gingham for gingham, greige for greige, dyed for dyed, bleached for bleached, etc. The piece goods used in manufacture of the exported articles will be designated as containing the identical percentage of identical fibers as the piece goods designated as the basis for allowance of drawback; for example, piece goods containing 65% cotton and 35% dacron will be designated against the use of piece goods shown to contain 65% cotton and 35% dacron. The actual fiber composition may vary slightly from that described on the invoice or other acceptance of the fabric as having the composition described on documents in accordance with trade practices. The substituted piece goods used in the manufacture of articles for exportation with drawback will be so similar in quality to the imported piece goods designated for the basis of allowance of drawback, that the piece goods used, if imported, would have been subject to the same or greater amount of duty as was paid on the imported designated piece goods. Differences in value resulting from factors other than quality, as for example, price fluctuations, will not preclude an allowance of drawback.

B. Exported Articles on Which Drawback Will Be Claimed

Finished piece goods.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s. 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

Piece goods are subject to any one of the following finishing productions:

1. Bleaching,
2. Mercerizing,
3. Dyeing,
4. Printing,

5. A combination of the above, or
6. Any additional finishing processes.

E. Multiple Products

Not applicable.

F. Waste

Rag waste may be incurred. No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer will show the quantity of rag waste, if any, and its value. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such waste records will also be kept. In instances where rag waste occurs and it is impractical to account for the actual quantity of rag waste incurred, it may be assumed that such rag waste constituted 2% of the piece goods put into the finishing processes.

G. Shrinkage, Gain, and Spoilage

Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer will show the yardage lost by shrinkage or gained by stretching during manufacture or production, and the quantity of remnants resulting and of spoilage incurred, if any. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such records for shrinkage, gain and spoilage will also be kept.

H. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

I. Procedures and Records Maintained

Records will be maintained to establish:
1. The identity and specifications of the designated merchandise;
2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] used to produce the exported articles;
3. That, within 3 years after receiving the designated merchandise at its factory, the manufacturer or producer used the merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of eligible piece goods used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible piece goods that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste from each lot of piece goods, drawback may be claimed on the quantity of eligible piece goods used to produce the exported articles less the amount of piece goods which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:
1. Comply fully with the terms of this general ruling when claiming drawback;
2. Open its factory and records for examination at all reasonable hours by authorized Government officers;
3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;
4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9)

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

XI. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR RAW SUGAR (T.D. 83–59)

Drawback may be allowed under 19 U.S.C. 1313(b) upon the exportation of hard or soft refined sugars and sirups manufactured from raw sugar, subject to the following special requirements:

A. The drawback allowance shall not exceed 99 percent of the duty paid on a quantity of raw sugar designated by the refiner which contains a quantity of sucrose not in excess of the quantity required to manufacture the exported sugar or sirup, ascertained as provided in this general rule.

B. The refined sugars and sirups shall have been manufactured with the use of duty-paid, duty-free, or domestic sugar, or combinations thereof, within 3 years after the date on which designated sugar was received by the refiner, and shall have been exported within 5 years from the date of importation of the designated sugar.

C. All granulated sugar testing by the polariscope 99.5° and over shall be deemed hard refined sugar. All refined sugar testing by the polariscope less than 99.5° shall be deemed soft refined sugar. All ''blackstrap,'' ''unfiltered sirup,'' and ''final molasses'' shall be deemed sirup.

D. The imported duty-paid sugar selected by the refiner as the basis for the drawback claim (designated sugar) shall be of the same kind and quality as that used in the manufacture of the exported refined sugar or sirup and shall have been used within 3 years after the date on which it was received by the refiner. Duty-paid sugar which has been used at a plant of a refiner within 3 years after the date on which it was received by such refiner may be designated as the basis for the allowance of drawback on refined sugars or sirups manufactured at another plant of the same refiner.

E. For the purpose of distributing the drawback, relative values shall be established between hard refined (granulated) sugar, soft refined (various grades) sugar, and sirups at the time of separation. The entire period covered by an abstract shall be deemed the time of separation of the sugars and sirups covered by such abstract.

F. The sucrose allowance per pound on hard refined (granulated) sugar established by an abstract, as provided for in this general ruling, shall be applied to hard refined sugar commercially known as loaf, cut loaf, cube, pressed, crushed, or powdered sugar manufactured from the granulated sugar covered by the abstract.

G. The sucrose allowance per gallon on sirup established by an abstract, as provided for in this general ruling, shall be applied to sirup further advanced in value by filtration or otherwise, unless such sirup is the subject of a special manufacturing drawback ruling.

H. As to each lot of imported or domestic sugar used in the manufacture of refined sugar or sirup on which drawback is to be claimed, the raw stock records shall show the refiner's raw lot number, the number and character of the packages, the settlement weight in pounds, and the settlement polarization. Such records covering imported sugar shall show, in addition to the foregoing, the import entry number, date of importation, name of importing carrier, country of origin, the Government weight, and the Government polarization.

I. The melt records shall show the date of melting, the number of pounds of each lot of raw sugar melted, and the full analysis at melting.

J. There shall be kept a daily record of final products boiled showing the date of the melt, the date of boiling, the magma filling serial number, the number of the vacuum pan or crystallizer filling, the date worked off, and the sirup filling serial number.

K. The sirup manufacture records shall show the date of boiling, the period of the melt, the sirup filling serial number, the number of barrels in the filling, the magma filling serial number, the quantity of sirup, its disposition in tanks or barrels and the refinery serial manufacture number.

L. The refined sugar stock records shall show the refinery serial manufacture number, the period of the melt, the date of manufacture, the grade of sugar produced, its polarization, the number and kind of packages, and the net weight. When soft sugars are manufactured, the commercial grade number and quantity of each shall be shown.

M. Each lot of hard or soft refined sugar and each lot of sirup manufactured, regardless of the character of the containers or vessels in which it is packed or stored, shall be marked immediately with the date of manufacture and the refinery manufacture number applied to it in the refinery records provided for and shown in the abstract, as provided for in this general ruling, from such records. If all the sugar or sirup contained in any lot manufactured is not intended for exportation, only such of the packages as are intended for exportation need be marked as prescribed above, provided there is filed with the drawback office immediately after such marking a statement showing the date of

manufacture, the refinery manufacture number, the number of packages marked, and the quantity of sugar or sirup contained therein. No drawback shall be allowed in such case on any sugar or sirup in excess of the quantity shown on the statement as having been marked. If any packages of sugar or sirup so marked are repacked into other containers, the new containers shall be marked with the marks which appeared on the original containers and a revised statement covering such repacking and remarking shall be filed with the drawback office. If sirups from more than one lot are stored in the same tank, the refinery records shall show the refinery manufacture number and the quantity of sirup from each lot contained in such tank.

N. An abstract from the foregoing records covering manufacturing periods of not less than 1 month nor more than 3 months, unless a different period shall have been authorized, shall be filed when drawback is to be claimed on any part of the refined sugar or sirup manufactured during such period. Such abstract shall be filed by each refiner with the drawback office where drawback claims are filed on the basis of this general ruling. Such abstract shall consist of: (1) A raw stock record (accounting for Refiner's raw lot No., Import entry No., Packages No. and kind, Pounds, Polarization, By whom imported or withdrawn, Date of importation, Date of receipt by refiner, Date of melt, Importing carrier, Country of origin); (2) A melt record [number of pounds in each lot melted] (accounting for Lot No. Pounds, and Polarization degrees and pounds sucrose); (3) Sirup stock records (accounting for Date of boiling, Refinery serial manufacture No., Quantity of sirup in gallons, and Pounds sucrose contained therein); (4) Refined sugar stock record (accounting for Refinery serial production No., Date of manufacture, Hard or soft refined, Polarization and No., Net weight in pounds); (5) Recapitulation (consisting of (in pounds): (a) sucrose in process at beginning of period, (b) sucrose melted during period, (c) sucrose in process at end of period, (d) sucrose used in manufacture, and (e) sucrose contained in manufacture, in which item (a) plus item (b), minus item (c), should equal item (d)); and (6) A statement as follows:

I, _____, the _____ refiner at the _____ refinery of _____, located at _____, do solemnly and truly declare that each of the statements contained in the foregoing abstract is true to the best of my knowledge and belief and can be verified by the refinery records, which have been kept in accordance with Treasury Decision 83–59 and Appendix A of 19 CFR Part 191 and which are at all times open to the inspection of Customs.

. Date _____

. Signature _____

O. The refiner shall file with each abstract a statement, showing the average market values of the products specified in the abstract and including a statement as follows:

I, _____, (Official capacity) of the _____ (Refinery), do solemnly and truly declare that the values shown above are true to the best of my knowledge and belief, and can be verified by our records.

Date _____

Signature _____

P. At the end of each calendar month the refiner shall furnish to the drawback office a statement showing the actual sales of sirup and the average market values of refined sugars for the calendar month.

Q. The sucrose allowance to be applied to the various products based on the abstract and statement provided for in this general ruling shall be in accordance with the example set forth in Treasury Decision 83–59.

R. Certificates of manufacture and delivery under this general ruling shall be in the following form:

Certificate of manufacture and delivery—Sugar and Sirup No. _____

Certificate of manufacture and delivery of _____ manufactured by _____ under abstract No. _____ filed at the port of _____.

Description	Quantity	Polarization

DESIGNATION OF IMPORTED SUGAR

Import entry No.	By whom imported or withdrawn from warehouse	Name of importing carrier	When imported	Where imported	Quantity of raw sugar (pounds)	Polarization	Sucrose (pounds)

I, _____, the _____ of _____, located at _____, declare that the sugar (or sirup) described in the within certificate of manufacture and delivery was manufactured by said company at its refinery at _____ and is part of the sugar (or sirup) covered by abstract No. _____, filed at the port of _____ and was delivered to _____ on or about _____, _____, and that no other certificate of manufacture and delivery has been issued covering the above merchandise; that, subject to 19 U.S.C. 1508 and 1313(t), the refinery and other records of the company verifying the statements contained in said abstract are now and at all times hereafter will be open to inspection by Customs.

I further declare that the above-designated imported sugar (upon which the duties have been paid) was received by said company on _____ and was used in the manufacture of sugar and sirup on _____.

. Date _____

. Signature _____

S. Drawback entries under this general ruling shall be on Customs Form 7551 and, in addition to the information required thereon, shall state the polarization in degrees and the sucrose in pounds for the designated imported sugar. Drawback claims under this general ruling shall include a statement as follows:

I, _____, the _____ of _____, located at _____ declare that the sugar (or sirup) described in this entry, was manufactured by said company at its refinery at _____ [or, if the claim is based on a certificate of manufacture and delivery, was manufactured by _____ at its refinery at _____ for which the accompanying certificate of manufacture and delivery was received by this company] and is part of the sugar (or sirup) covered by abstract No. _____, filed at the port of _____; that, subject to 19 U.S.C. 1508 and 1313(t), the refinery and other records of the company verifying the statements contained in said abstract are now and at all times hereafter will be open to inspection by Customs. I further declare that the above-designated imported sugar (upon which the duties have been paid) was received by said company on _____ and was used in the manufacture of sugar and sirup during the period covered by abstract No. _____, Customs No. _____, on file with the port director at _____.

I further declare that the sugar or sirup specified therein was exported as stated in the entry.

. Date _____

. Signature _____

T. General Statement. The refiner manufactures or produces for its own account. The refiner may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the refiner's account under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

U. Waste. No drawback is payable on any waste which results from the manufacturing operation. Unless drawback claims are based on the ''appearing in'' method, records will be maintained to establish the value (or the lack of value), the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

V. Loss or Gain. The refiner will maintain records showing the extent of any loss or gain in net weight or measurement of the sugar caused by atmospheric conditions, chemical reactions, or other factors.

W. Tradeoff. The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality requirements provided for in this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

X. Procedures And Records Maintained. Records will be maintained to establish:

1. The identity and specifications of the designated merchandise;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[1] used to produce the exported articles; and

3. That, within 3 years after receiving the designated merchandise at its factory, the refiner used the designated merchandise to produce articles. During the same 3-year period, the refiner produced[2] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

Y. General requirements. The refiner will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[2] The date of production is the date an article is completed.

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

XII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR STEEL (T.D. 81–74)

A. SAME KIND AND QUALITY (PARALLEL COLUMNS)

Imported Merchandise or Drawback Products[1] to be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as that Designated which will be Used in the Production of the Exported Products.
Steel of one general class, e.g., an ingot, falling within one SAE, AISI, or ASTM[2] specification and, if the specification contains one or more grades, falling within one grade of the specification.	Steel of the same general class, specification, and grade as the steel in the column immediately to the left hereof.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

[2] Standards set by the Society of Automotive Engineers (SAE), the American Iron and Steel Institute (AISI), or the American Society for Testing and Materials (ASTM).

1. The duty-paid, duty-free, or domestic steel used instead of the imported, duty-paid steel (or drawback products) will be interchangeable for manufacturing purposes with the duty-paid steel. To be interchangeable a steel must be able to be used in place of the substituted steel without any additional processing step in the manufacture of the article on which drawback is to be claimed.

2. Because the duty-paid steel (or drawback products) that is to be designated as the basis for drawback is dutiable according to its value, the amount of duty can vary with its size (gauge, width, or length) or composition (e.g., chrome content). If such variances occur, designation will be by ''price extra'', and in no case will drawback be claimed in a greater amount than that which would have accrued to that steel used in manufacture of or appearing in the exported articles. Price extra is not available for coated or plated steel, covered in paragraph 5, *infra*, insofar as the coating or plating is concerned.

3. The duty-paid steel (or drawback products) will be so similar in quality to the steel used to manufacture the articles on which drawback will be claimed that the steel so used, if imported, would be classifiable in the same tariff subheading number and at the same rate of duty as the duty-paid imported steel.

4. Any fluctuation in market value caused by a factor other than quality does not affect drawback.

5. If the steel is coated or plated with a base metal, in addition to meeting the requirements for uncoated or unplated steel set forth in the parallel columns, the base-metal coating or plating on the duty-paid, duty-free, or domestic steel used in place of the duty-paid steel (or drawback products) will have the same composition and thickness as the coating or plating on the duty-paid steel. If the coated or plated duty-paid steel is within a SAE, AISI, ASTM specification, any duty-paid, duty-free, or domestic coated or plated steel covered by the same specification and grade (if two or more grades are in the specification) is considered to meet this criterion for ''same kind and quality.''

B. Exported Articles on Which Drawback Will Be Claimed

The exported articles will have been manufactured in the United States using steels described in the parallel columns above.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The steel described in the parallel columns will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of steel appearing in the exported articles, records will be maintained to establish the value (or the lack of value), the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

G. Loss or Gain

The manufacturer or producer will maintain records showing the extent of any loss or gain in net weight or measurement of the steel caused by atmospheric conditions, chemical reactions, or other factors.

H. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

I. Procedures and Records Maintained

Records will be maintained to establish:

1. The identity and specifications of the designated merchandise;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[3] used to produce the exported articles;

3. That, within 3 years after receiving the designated merchandise at its factory, the manufacturer or producer used the merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced[4] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of steel used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible steel that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste from each lot of steel, drawback may be claimed on the quantity of eligible steel used to produce the exported articles less the amount of that steel which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code,

[3] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles produced.''

[4] The date of production is the date an article is completed.

section 1313, part 191 of the CBP Regulations and this general ruling.

XIII. GENERAL MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b) FOR SUGAR (T.D. 81–92)

A. SAME KIND AND QUALITY (PARALLEL COLUMNS)

Imported Merchandise or Drawback Products[1] to be Designated as the Basis for Drawback on the Exported Products.	Duty-Paid, Duty-Free or Domestic Merchandise of the Same Kind and Quality as that Designated which will be Used in the Production of the Exported Products.
1. Granulated or liquid sugar for manufacturing, containing sugar solids of not less than 99.5 sugar degrees.	1. Granulated or liquid sugar for manufacturing, containing sugar solids of not less than 99.5 sugar degrees.
2. Granulated or liquid sugar for manufacturing, containing sugar solids of less than 99.5 sugar degrees.	2. Granulated or liquid sugar for manufacturing, containing sugar solids of less than 99.5 sugar degrees.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

The sugars listed above test within three-tenths of a degree on the polariscope. Sugars in each column are completely interchangeable with the sugars directly opposite and designation will be made on this basis only. The designated sugar on which claims for drawback will be based will be so similar in quality to the sugar used in manufacture of the products exported with drawback that the sugar used in manufacture would, if imported, be subject to the same amount of duty paid on a like quantity of designated sugar. Differences in value resulting from factors other than quality, such as market fluctuation, will not affect the allowance of drawback.

B. Exported Articles on Which Drawback Will Be Claimed

Edible substances (including confectionery) and/or beverages and/or ingredients therefor.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.'s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The sugars are subjected to one or more of the following operations to form the desired product(s):

1. Mixing with other substances,
2. Cooking with other substances
3. Boiling with other substances,
4. Baking with other substances,
5. Additional similar processes

E. Multiple Products

Not applicable.

F. Waste

No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of sugar appearing in the exported articles, records will be maintained to establish the value (or the lack of value), the quantity, and the disposition of any waste that results from manufacturing the exported articles. If no waste results, records to establish that fact will be maintained.

G. Loss or Gain

The manufacturer or producer will maintain records showing the extent of any loss or gain in net weight or measurement of the sugar caused by atmospheric conditions, chemical reactions, or other factors.

H. Tradeoff

The use of any domestic merchandise acquired in exchange for imported merchandise that meets the same kind and quality specifications contained in the parallel columns of this general ruling shall be treated as use of the imported merchandise if no certificate of delivery is issued covering the imported merchandise (19 U.S.C. 1313(k)) upon compliance with the applicable regulations and rulings.

I. Procedures And Records Maintained

Records will be maintained to establish:

1. The identity and specifications of the designated merchandise;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] used to produce the exported articles;

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence

3. That, within 3 years after receiving the designated merchandise at its factory, the manufacturer or producer used the merchandise to produce articles. During the same 3-year period, the manufacturer or producer produced[3] the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

J. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures And Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

K. Basis of Claim for Drawback

Drawback will be claimed on the quantity of sugar used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible sugar that appears in the exported articles regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles less the amount of that sugar which the value of the waste would replace.

L. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation;

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this general ruling.

XIV. General Manufacturing Drawback Ruling Under 19 U.S.C. 1313(a) for Woven Piece Goods (T.D. 83–84)

Drawback may be allowed under 19 U.S.C. 1313(a) upon the exportation of bleached, mercerized, printed, dyed, or redyed piece goods manufactured or produced by any one or a combination of the foregoing processes with the use of imported woven piece goods, subject to the following special requirements:

A. Imported Merchandise or Drawback Products[1] Used

Imported merchandise or drawback products (woven piece goods) are used in the manufacture of the exported articles upon which drawback claims will be based.

B. Exported Articles on Which Drawback Will Be Claimed

Exported articles on which drawback will be claimed will be manufactured in the United States using imported merchandise or drawback products.

C. General Statement

The manufacturer or producer manufactures or produces for its own account. The manufacturer or producer may manufacture or produce articles for the account of another or another manufacturer or producer may manufacture or produce for the account of the manufacturer or producer under contract within the principal and agency relationship outlined in T.D.s 55027(2) and 55207(1) (see §191.9 of this part).

D. Process of Manufacture or Production

The imported merchandise or drawback products will be used to manufacture or produce articles in accordance with §191.2(q) of this part.

The piece goods used in manufacture or production under this general manufacturing drawback ruling may also be subjected to one or more finishing processes. Drawback

should read ''appearing in the exported articles produced.''

[3] The date of production is the date an article is completed.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations.

shall not be allowed under this general manufacturing drawback ruling when the process performed results only in the restoration of the merchandise to its condition at the time of importation.

E. Multiple Products

Not applicable.

F. Waste

Rag waste may be incurred. No drawback is payable on any waste which results from the manufacturing operation. Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer will show the quantity of rag waste, if any, its value, and its disposition. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such waste records will also be kept. If no waste results, records will be maintained to establish that fact. In instances where rag waste occurs and it is impractical to account for the actual quantity of rag waste incurred, it may be assumed that such rag waste constituted 2% of the woven piece goods put into process.

G. Shrinkage, Gain, and Spoilage

Unless the claim for drawback is based on the quantity of merchandise appearing in the exported articles, the records of the manufacturer or producer will show the yardage lost by shrinkage or gained by stretching during manufacture, and the quantity of remnants resulting and of spoilage incurred, if any. If necessary to establish the quantity of merchandise (eligible piece goods) appearing in the exported articles, such records for shrinkage, gain, and spoilage will also be kept.

H. Procedures and Records Maintained

Records will be maintained to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise; and

2. The quantity of imported merchandise[2] used in producing the exported articles.

To obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. Records establishing compliance with these requirements will be available for audit by Customs during business hours. Drawback is not payable without proof of compliance.

[2]If claims are to be made on an ''appearing in'' basis, the remainder of the sentence should read ''appearing in the exported articles.''

I. Inventory Procedures

The inventory records of the manufacturer or producer will show how the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(a) and part 191 of the CBP Regulations will be met, as discussed under the heading ''Procedures and Records Maintained''. If those records do not establish satisfaction of those legal requirements, drawback cannot be paid.

The records of the manufacturer or producer shall show, as to each lot of piece goods manufactured or produced for exportation with benefit of drawback, the lot number and the date or inclusive dates of manufacture or production, the quantity, identity, and value of the imported (or drawback product) piece goods used, the condition in which imported or received (whether in the gray, bleached, dyed, or mercerized), the working allowance specified in the contract under which they are received, the process or processes applied thereto, and the quantity and description of the piece goods obtained. The records shall also show the yardage lost by shrinkage or gained by stretching during manufacture or production, and the quantity of remnants resulting and of spoilage incurred.

J. Basis of Claim for Drawback

Drawback will be claimed on the quantity of merchandise used in producing the exported articles only if there is no waste or valueless or unrecovered waste in the manufacturing operation. Drawback may be claimed on the quantity of eligible merchandise that appears in the exported articles, regardless of whether there is waste, and no records of waste need be maintained. If there is valuable waste recovered from the manufacturing operation and records are kept which show the quantity and value of the waste, drawback may be claimed on the quantity of eligible material used to produce the exported articles, less the amount of that merchandise which the value of the waste would replace. (If remnants and/or spoilage occur during manufacture or production, the quantity of imported merchandise used shall be determined by deducting from the quantity of piece goods received and put into manufacture or production the quantity of such remnants and/or spoilage. The remaining quantity shall be reduced by the quantity thereof which the value of the rag waste, if any, would replace.)

K. General Requirements

The manufacturer or producer will:

1. Comply fully with the terms of this general ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this general ruling;

4. Keep its letter of notification of intent to operate under this general ruling current by reporting promptly to the drawback office which liquidates its claims any changes in the information required by the General Instructions of this Appendix to be included therein (I. General Instructions, 1 through 9) or the corporate name or corporate organization by succession or reincorporation.

5. Keep a copy of this general ruling on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this general ruling; and

6. Issue instructions to insure proper compliance with 19, United States Code, §1313, part 191 of the CBP Regulations and this general ruling.

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 13105, Mar. 17, 1998; 63 FR 15291, Mar. 31, 1998; 63 FR 65060, Nov. 25, 1998; T.D. 02–16, 67 FR 16638, Apr. 8, 2002]

APPENDIX B TO PART 191—SAMPLE FORMATS FOR APPLICATIONS FOR SPECIFIC MANUFACTURING DRAWBACK RULINGS

TABLE OF CONTENTS

I. GENERAL

These sample formats for applications for specific manufacturing drawback rulings must be submitted to and reviewed and approved by CBP Headquarters. A specific manufacturing drawback ruling consists of the letter of approval that CBP issues to the applicant, a synopsis of which is published in the Customs Bulletin, as provided in 19 CFR 191.8. In these application formats, remarks in parentheses and footnotes are for explanatory purposes only and should not be copied. Other material should be quoted directly in the applications.

II. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(a) AND 1313(b) (COMBINATION)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Entry Process and Duty Refunds, Regulations and Rulings, Office of International Trade, 1300 Pennsylvania Avenue, N.W., Washington, D.C. 20229.

Dear Sir: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, §§1313 (a) & (b), and part 191 of the CBP Regulations. We request that the Customs Service authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 191.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback shall apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §191.7 of the CBP Regulations. Customs will not approve an application which shows an unincorporated division or company as the applicant (see §191.8(a)).)

LOCATION OF FACTORY

(Give the address of the factory(s) where the process of manufacture or production will take place. If the factory is a different legal entity from the applicant, so state and indicate if operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 191.6 of the CBP Regulations permits only the president, vice-president, secretary, treasurer, or any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a Customs power of attorney for the company may sign. A Customs power of attorney may also be given to a licensed Customs broker. This heading should be changed to Names of Partners or Proprietor in the case of a partnership or sole proprietorship, respectively (see footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

CBP OFFICE WHERE DRAWBACK CLAIMS WILL BE FILED

(The four offices where drawback claims can be filed are located at: New York, NY; Houston, TX; Chicago, IL; San Francisco, CA)

(An original application and two copies must be filed. If the applicant intends to file drawback claims at more than one drawback office, one additional copy of the application must be furnished for each additional office indicated.)

GENERAL STATEMENT

(The following questions must be answered:)

1. Who will be the importer of the designated merchandise?

(If the applicant will not always be the importer of the designated merchandise, does the applicant understand its obligations to obtain the appropriate certificates of delivery (19 CFR 191.10), certificates of manufacture and delivery (19 CFR 191.24), or both?)

2. Will an agent be used to process the designated or the substituted merchandise into articles?

(If an agent is to be used, the applicant must state it will comply with T.D.'s 55027(2) and 55207(1) and §191.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (see §191.7 and Appendix A) or an application for a specific manufacturing drawback ruling (see §191.8 and this Appendix B).)

3. Will the applicant be the exporter?

(If the applicant will not be the exporter in every case but will be the claimant, the manufacturer must state that it will reserve the right to claim drawback with the knowledge and written consent of the exporter (19 CFR 191.82).)

(Since the permission to grant use of the accelerated payment procedure rests with the Customs office with which claims will be filed, do not include any reference to that procedure in this application.)

PROCEDURES UNDER SECTION 1313(b) (PARALLEL COLUMNS—"SAME KIND AND QUALITY")

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS[1] TO BE DESIGNATED AS THE BASIS FOR DRAWBACK ON THE EXPORTED PRODUCTS	DUTY-PAID, DUTY-FREE OR DOMESTIC MERCHANDISE OF THE SAME KIND AND QUALITY AS THAT DESIGNATED WHICH WILL BE USED IN THE PRODUCTION OF THE EXPORTED PRODUCTS.
1.	1.
2.	2.
3.	3.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have "dual status" under section 1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.)

(Following the items listed in the parallel columns, a statement will be made, by the applicant, that affirms the "same kind and quality" of the merchandise. This statement should be included in the application exactly as it is stated below:)

The imported merchandise which we will designate on our claims will be so similar in quality to the merchandise used in producing the exported articles on which we claim drawback that the merchandise used would, if imported, be subject to the same rate of duty as the imported designated merchandise.

Fluctuations in the market value resulting from factors other than quality will not affect the drawback.

(In order to successfully claim drawback it is necessary to prove that the duty-paid, duty-free or domestic merchandise which is to be substituted for the imported merchandise is the "same kind and quality". "Same kind and quality" does not necessarily mean that the merchandise is identical. It does mean that the merchandise is of the same nature or character ("same kind") and that the merchandise to be substituted is interchangeable with the imported merchandise with little or no change in the manufacturing process to produce the same exported article ("same quality"). In order to enable Customs to rule on "same kind and quality", the application must include a detailed description of the designated imported merchandise and of the substituted duty-paid, duty-free or domestic merchandise to be used to produce the exported articles.)

(It is essential that all the characteristics which determine the quality of the merchandise are provided in the application in order to substantiate that the merchandise meets the "same kind and quality" statutory requirement. These characteristics should clearly distinguish merchandise of different qualities. For example, USDA standards; FDA standards; industry standards, e.g., ASTM; concentration; specific gravity; purity; luster; melting point, boiling point; odor; color; grade; type; hardness; brittleness; etc. Note that these are only a few examples of characteristics and that each kind

of merchandise has its own set of specifications that characterizes its quality. If specifications are given with a minimum value, be sure to include a maximum value. The converse is also true. Often characteristics are given to Customs on attached specification sheets. These specifications should not include Material Safety Data sheets or other descriptions of the merchandise that do not contribute to the ''same kind and quality'' determination. When the merchandise is a chemical, state the chemical's generic name as well as its trade name plus any generally recognized identifying number, e.g., CAS number; Color Index Number, etc.)

(In order to expedite the specific manufacturing drawback ruling process, it will be helpful if you provide copies of technical standards/specifications (particularly industry standards such as ASTM standards) referred to in your application.)

(The descriptions of the ''same kind and quality'' merchandise should be formatted in the parallel columns. The left-hand column will consist of the name and specifications of the designated imported merchandise under the heading set forth above. The right-hand column will consist of the name and specifications for the duty-paid, duty-free or domestic merchandise under the heading set forth above.)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name state what the product is, e.g., a herbicide. There must be a match between each article described under the PROCESS OF MANUFACTURE OR PRODUCTION section below and each article listed here.)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(b) is not allowable except where a manufacture or production exists. Manufacture or production is defined, for drawback purposes, in §191.2(q). In order to obtain drawback under §1313(b), it is essential for the applicant to show use in manufacture or production by giving a thorough description of the manufacturing process. This description should include the name and exact condition of the merchandise listed in the Parallel Columns, a complete explanation of the processes to which it is subjected in this country, the effect of such processes, the name and exact description of the finished article, and the use for which the finished article is intended. When applicable, give equations of the chemical reactions. The attachment of a flow chart in addition to the description showing the manufacturing process is an excellent means of illustrating whether or not a manufacture or production has occurred. Flow charts can clearly illustrate if and at what point during the manufacturing process by-products and wastes are generated.)

(This section should contain a description of the process by which each item of merchandise listed in the parallel columns above is used to make or produce every article that is to be exported.)

MULTIPLE PRODUCTS

1. Relative Values

(Some processes result in the separation of the merchandise used in the same operation into two or more products. List all of the products. State that you will record the market value of each product at the time it is first separated in the manufacturing process. If this section is not applicable to you, then state so.)

Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. For instance, the refining of flaxseed necessarily produces linseed oil and linseed husks (animal feed), and drawback must be distributed to each product in accordance with its relative value. However, the voluntary election of a steel fabricator, for instance, to use part of a lot of imported steel to produce automobile doors and part of the lot to produce automobile fenders does not call for relative value distribution.)

(The relative value of a product is its value divided by the total value of all products, whether or not exported. For example, 100 gallons of drawback merchandise are used to produce 100 gallons of products, including 60 gallons of product A, 20 gallons of product B, and 20 gallons of product C. At the time of separation, the unit values of products A, B, and C are $5, $10, and $50 respectively. The relative value of product A is $300 divided by $1500 or 1/5. The relative value of B is 2/15 and of product C is 2/3, calculated in the same manner. This means that 1/5 of the drawback product payments will be distributed to product A, 2/15 to product B, and 2/3 to product C.)

(Drawback is allowable on exports of any of multiple products, but is not allowable on exports of valuable waste. In making this distinction between a product and valuable waste, the applicant should address the following significant elements: (1) the nature of the material of which the residue is composed; (2) the value of the residue as compared to the value of the principal manufactured product and the raw material; (3) the use to which it is put; (4) its status under the tariff laws, if imported; (5) whether it is a commodity recognized in commerce; (6) whether it must be subjected to some process to make it saleable.)

2. Producibility

(Some processes result in the separation of fixed proportions of each product, while other processes afford the opportunity to increase or decrease the proportion of each product. An example of the latter is petroleum refining, where the refiner has the option to increase or decrease the production of one or more products relative to the others. State under this heading whether you can or cannot vary the proportionate quantity of each product.)

(The MULTIPLE PRODUCTS section consists of two sub-sections: Relative Values and Producibility. If multiple products do not result from your operation state ''Not Applicable'' for the entire section. If multiple products do result from your operation Relative Values will always apply. However, Producibility may or may not apply. If Producibility does not apply to your multiple product operation state ''Not Applicable'' for this sub-section.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a positive statement to that effect under this heading.)

(If waste occurs, state: (1) whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what ''Basis'' you are using.)

(If you recover valuable waste and if you choose to claim on the basis of the quantity of imported or substituted merchandise used in producing the exported articles (less valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. See ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in'' or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that merchandise is considered to be used in manufacture at the time it was originally processed so that the stock in process will not be included twice in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.)

TRADEOFF

(If an applicant proposes to use tradeoff (19 CFR 191.11), the applicant should so state and the applicant should describe the contractual arrangement between the applicant and its partner for tradeoff. The person claiming drawback under the tradeoff provision has the burden of establishing compliance with the law and regulations. In this regard, the terms of a written contract are always easier to establish than those of an oral contract.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. State the approximate usual percentage or

quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. The identity and specifications of the merchandise we designate;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] we used to produce the exported articles;

3. That, within 3 years after receiving it at our factory, we used the designated merchandise to produce articles. During the same 3-year period, we produced[3] the exported articles.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by Customs during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To insure compliance the following areas, as applicable, should be included in your discussion:)

RECEIPT AND STORAGE OF DESIGNATED MERCHANDISE

RECORDS OF USE OF DESIGNATED MERCHANDISE

BILLS OF MATERIALS

MANUFACTURING RECORDS

WASTE RECORDS

RECORDS OF USE OF DUTY-PAID, DUTY-FREE OR DOMESTIC MERCHANDISE OF THE REQUIRED SAME KIND AND QUALITY WITHIN 3 YEARS AFTER THE RECEIPT OF THE DESIGNATED MERCHANDISE

FINISHED STOCK STORAGE RECORDS

SHIPPING RECORDS

(Proof of time frames may be specific or inclusive, e.g. within 120 days, but specific proof is preferable. Separate storage and identification of each article or lot of merchandise usually will permit specific proof of exact dates. Proof of inclusive dates of use, production or export may be acceptable, but in such cases it is well to describe very specifically the data you intend to use to establish each legal requirement, thereby avoiding misunderstandings at the time of audit.)

(If you do not describe the inventory records that you will use, a statement that the legal requirements will be met by your inventory procedures is acceptable. However, it should be noted that without a detailed description of the inventory procedures set forth in the application a judgement as to the adequacy of such a statement cannot be made until a drawback claim is verified. Approval of this application for a specific manufacturing drawback ruling merely constitutes approval of the ruling application as submitted; it does not constitute approval of the applicant's record keeping procedures if, for example, those procedures are merely described as meeting the legal requirements, without specifically stating how the requirements will be met. Drawback is not payable without proof of compliance.)

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) Appearing In; and (3) Used less Valuable Waste.)

(The ''Used In'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''Used In'' basis. Drawback is payable in the amount of 99 percent of the duty paid on the quantity of imported material designated as the basis for the allowance of drawback on the exported articles. The designated quantity may not exceed the quantity of material actually used in the manufacture of the exported articles.)

(For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duty paid on the 100 pounds of designated material used to produce the exported articles.)

(The ''Appearing In'' basis may be used regardless of whether there is waste. If the ''Appearing in'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''Appearing In'' basis. Drawback is payable on 99 percent of the duty paid on the quantity of material designated,

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

[3] The date of production is the date an article is completed.

which may not exceed the quantity of eligible material that appears in the exported articles. ''Appearing In'' may not be used if multiple products are involved.)

(Based on the previous example, drawback would be payable on the 90 pounds of merchandise which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)

(The ''Used Less Valuable Waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''Used Less Valuable Waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duty paid on the quantity of merchandise used in the manufacture, reduced by the quantity of such merchandise which the value of the waste would replace. Thus in this case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 191.26(c) of the CBP Regulations.)

(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the designated material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duty paid on the 95 pounds of imported material designated as the basis for the allowance of drawback on the exported article rather than on the 100 pounds ''Used In'' or the 90 pounds ''Appearing In'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount that will be needed to produce a unit of product before the material is actually used in production;)

(An ''abstract'' is the summary of the records (which may be set forth on Customs Form 7551) which shows the total quantity used in producing all products during the period covered by the abstract. The abstract looks at a duration of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back on how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base his claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by Schedule follows:)

We shall claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 191.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''Appearing In'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

PROCEDURES UNDER SECTION 1313(a)

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS USED UNDER 1313(a)

(List the imported merchandise or drawback products)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name state what the product is, e.g., a herbicide. There must be a match between each article described under the PROCESS OF MANUFACTURE AND PRODUCTION section below and each article listed here.)

(If the merchandise used under §1313(a) is not also used under §1313(b), the sections entitled PROCESS OF MANUFACTURE OR PRODUCTION, BY-PRODUCTS, LOSS OR GAIN, and STOCK IN PROCESS should be included here to cover merchandise used under §1313(a). However, if the merchandise used under §1313(a) is also used under §1313(b) these sections need not be repeated unless they differ in some way from the §1313(b) descriptions.)

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported articles on which drawback is claimed were produced with the use of the imported merchandise, and

2. The quantity of imported merchandise[4] we used in producing the exported articles

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after importation of the imported merchandise. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(This section must be completed separately from that set forth under the §1313(b) portion of your application. The legal requirements under §1313(a) differ from those under §1313(b).) (Describe your inventory procedures and state how you will identify the imported merchandise from the time it is received at your factory until it is incorporated in the articles to be exported. Also describe how you will identify the finished articles from the time of manufacture until shipment.)

BASIS OF CLAIM FOR DRAWBACK

(See section with this title for procedures under §1313(b). Either repeat the same basis of claim or use a different basis of claim, as described above, specifically for drawback claimed under §1313(a).)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §191.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to the Headquarters, U.S. Customs Service all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by Customs Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this _____ day of _____ 19____, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[5] _____

(Signature and Title)

_____

(Print Name)

III. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(b)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of International Trade, 1300 Pennsylvania Avenue, N.W., Washington, D.C. 20229.

Dear Sir: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(b), and part 191 of the Customs

[4] If claims are to be made on an ''appearing In'' basis, the remainder of the sentence should read ''appearing in the exported articles we produce.''

[5] Section 191.6(a) requires that applications for specific manufacturing drawback rulings be signed by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney filed with the Customs port for the drawback office which will liquidate your drawback claims may sign such an application, as may a licensed Customs broker with a Customs power of attorney. You should state in which Customs port your Customs power(s) of attorney is/are filed.

Regulations. We request that the Customs Service authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 191.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback shall apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §191.7 of the CBP Regulations. Customs will not approve an application which shows an unincorporated division or company as the applicant (see §191.8(a)).)

LOCATION OF FACTORY

(Give the address of the factory(ies) where the process of manufacture or production will take place. If the factory is a different legal entity from the applicant, so state and indicate if operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 191.6 of the CBP Regulations permits only the president, vice-president, secretary, treasurer, or any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a Customs power of attorney for the company may sign. A Customs power of attorney may also be given to a licensed Customs broker. This heading should be changed to NAMES OF PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (see footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

CBP OFFICE WHERE DRAWBACK CLAIMS WILL BE FILED

(The four offices where drawback claims can be filed are located at: New York, NY; Houston, TX; Chicago, IL; San Francisco, CA)
(An original application and two copies must be filed. If the applicant intends to file drawback claims at more than one drawback office, one additional copy of the application must be furnished for each additional office indicated.)

GENERAL STATEMENT

(The following questions must be answered:
1. Who will be the importer of the designated merchandise?
(If the applicant will not always be the importer of the designated merchandise, does the applicant understand its obligations to obtain the appropriate certificates of delivery (19 CFR 191.10), certificates of manufacture and delivery (19 CFR 191.24), or both?)
2. Will an agent be used to process the designated or the substituted merchandise into articles?
(If an agent is to be used, the applicant must state it will comply with T.D.'s 55027(2) and 55207(1), and §191.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (see §191.7 and Appendix A), or an application for a specific manufacturing drawback ruling (see §191.8 and this Appendix B).)
3. Will the applicant be the exporter?
(If the applicant will not be the exporter in every case but will be the claimant, the manufacturer must state that it will reserve the right to claim drawback with the knowledge and written consent of the exporter (19 CFR 191.82).)
(Since the permission to grant use of the accelerated payment procedure rests with the Drawback office with which claims will be filed, do not include any reference to that procedure in this application.)

(PARALLEL COLUMNS—"SAME KIND AND QUALITY")

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS[1] TO BE DESIGNATED AS THE BASIS FOR DRAWBACK ON THE EXPORTED PRODUCTS.	DUTY-PAID, DUTY-FREE OR DOMESTIC MERCHANDISE OF THE SAME KIND AND QUALITY AS THAT DESIGNATED WHICH WILL BE USED IN THE PRODUCTION OF THE EXPORTED PRODUCTS.
1.	1.
2.	2.
3.	3.

[1] Drawback products are those produced in the United States in accordance with the drawback law and regulations. Such products have ''dual status'' under §1313(b). They may be designated as the basis for drawback and also may be deemed to be domestic merchandise.

(Following the items listed in the parallel columns, a statement will be made, by the applicant, that affirms the ''same kind and quality'' of the merchandise. This statement should be included in the application exactly as it is stated below:)

The imported merchandise which we will designate on our claims will be so similar in

quality to the merchandise used in producing the exported articles on which we claim drawback that the merchandise used would, if imported, be subject to the same rate of duty as the imported designated merchandise.

Fluctuations in the market value resulting from factors other than quality will not affect the drawback.

(In order to successfully claim drawback it is necessary to prove that the duty-paid, duty-free or domestic merchandise which is to be substituted for the imported merchandise is the ''same kind and quality''. ''Same kind and quality'' does not necessarily mean that the merchandise is identical. It does mean that the merchandise is of the same nature or character (''same kind'') and that the merchandise to be substituted is interchangeable with the imported merchandise with little or no change in the manufacturing process to produce the same exported article (''same quality''). In order to enable Customs to rule on ''same kind and quality'', the application must include a detailed description of the designated imported merchandise and of the substituted duty-paid, duty-free or domestic merchandise to be used to produce the exported articles.)

(It is essential that all the characteristics which determine the quality of the merchandise are provided in the application in order to substantiate that the merchandise meets the ''same kind and quality'' statutory requirement. These characteristics should clearly distinguish merchandise of different qualities. For example, USDA standards; FDA standards; industry standards, e.g., ASTM; concentration; specific gravity; purity; luster; melting point, boiling point; odor; color; grade; type; hardness; brittleness; etc. Note that these are only a few examples of characteristics and that each kind of merchandise has its own set of specifications that characterizes its quality. If specifications are given with a minimum value, be sure to include a maximum value. The converse is also true. Often characteristics are given to Customs on attached specification sheets. These specifications should not include Material Safety Data sheets or other descriptions of the merchandise that do not contribute to the ''same kind and quality'' determination. When the merchandise is a chemical, state the chemical's generic name as well as its trade name plus any generally recognized identifying number, e.g., CAS number; Color Index Number, etc.)

(In order to expedite the specific manufacturing drawback ruling review process, it will be helpful if you provide copies of technical standards/specifications (particularly industry standards such as ASTM standards) referred to in your application.)

(The descriptions of the ''same kind and quality'' merchandise should be formatted in the parallel columns. The left-hand column will consist of the name and specifications of the designated imported merchandise under the heading set forth above. The right-hand column will consist of the name and specifications for the duty-paid, duty-free or domestic merchandise under the heading set forth above.)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported. When the identity of the product is not clearly evident by its name state what the product is, e.g., a herbicide. There must be a match between each article described under the PROCESS OF MANUFACTURE AND PRODUCTION section below and each article listed here.)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(b) is not allowable except where a manufacture or production exists. Manufacture or production is defined, for drawback purposes, in §191.2(q). In order to obtain drawback under §1313(b), it is essential for the applicant to show use in manufacture or production by giving a thorough description of the manufacturing process. This description should include the name and exact condition of the merchandise listed in the Parallel Columns, a complete explanation of the processes to which it is subjected in this country, the effect of such processes, the name and exact description of the finished article, and the use for which the finished article is intended. When applicable, give equations of the chemical reactions. The attachment of a flow chart in addition to the description showing the manufacturing process is an excellent means of illustrating whether or not a manufacture or production has occurred. Flow charts can clearly illustrate if and at what point during the manufacturing process by-products and wastes are generated.)

(This section should contain a description of the process by which each item of merchandise listed in the parallel columns above is used to make or produce every article that is to be exported.)

MULTIPLE PRODUCTS

1. Relative Values

(Some processes result in the separation of the merchandise used in the same operation into two or more products. List all of the products. State that you will record the market value of each product or by-product at the time it is first separated in the manufacturing process. If this section is not applicable to you, then state so.)

(Drawback law mandates the assignment of relative values when two or more products necessarily are produced concurrently in the same operation. For instance, the refining of

flaxseed necessarily produces linseed oil and linseed husks (animal feed), and drawback must be distributed to each product in accordance with its relative value. However, the voluntary election of a steel fabricator, for instance, to use part of a lot of imported steel to produce automobile doors and part of the lot to produce automobile fenders does not call for relative value distribution.)

(The relative value of a product is its value divided by the total value of all products, whether or not exported. For example, 100 gallons of drawback merchandise are used to produce 100 gallons of products, including 60 gallons of product A, 20 gallons of product B, and 20 gallons of product C. At the time of separation, the unit values of products A, B, and C are $5, $10, and $50 respectively. The relative value of product A is $300 divided by $1500 or 1/5. The relative value of B is 2/15 and of product C is 2/3, calculated in the same manner. This means that 1/5 of the drawback product payments will be distributed to product A, 2/15 to product B, and 2/3 to product C.)

(Drawback is allowable on exports of any of multiple products, but is not allowable on exports of valuable waste. In making this distinction between a product and valuable waste, the applicant should address the following significant elements: (1) the nature of the material of which the residue is composed; (2) the value of the residue as compared to the value of the principal manufactured product and the raw material; (3) the use to which it is put; (4) its status under the tariff laws, if imported; (5) whether it is a commodity recognized in commerce; (6) whether it must be subjected to some process to make it saleable.)

2. Producibility

(Some processes result in the separation of fixed proportions of each product, while other processes afford the opportunity to increase or decrease the proportion of each product. An example of the latter is petroleum refining, where the refiner has the option to increase or decrease the production of one or more products relative to the others. State under this heading whether you can or cannot vary the proportionate quantity of each product.)

(The MULTIPLE PRODUCTS section consists of two sub-sections: Relative Values and Producibility. If multiple products do not result from your operation state ''Not Applicable'' for the entire section. If multiple products do result from your operation Relative Values will always apply. However, Producibility may or may not apply. If Producibility does not apply to your multiple product operation state ''Not Applicable'' for this sub-section.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a positive statement to that effect under this heading.)

(If waste occurs, state: (1) whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)

(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)

(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what ''Basis'' you are using.)

(If you recover valuable waste and if you choose to claim on the basis of the quantity of imported or substituted merchandise used in producing the exported articles less valuable waste, state that you will keep records to establish the quantity and value of the waste recovered. See ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in''

or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that merchandise is considered to be used in manufacture at the time it was originally processed so that the stock in process will not be included twice in the computation of the merchandise used to manufacture the finished articles on which drawback is claimed.)

TRADEOFF

(If an applicant proposes to use tradeoff (19 CFR 191.11), the applicant should so state and the applicant should describe the contractual arrangement between the applicant and its partner for tradeoff. The person claiming drawback under the tradeoff provisions has the burden of establishing compliance with the law and regulations. In this regard, the terms of a written contract are always easier to establish than those of an oral contract.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. State the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. The identity and specifications of the merchandise we designate;

2. The quantity of merchandise of the same kind and quality as the designated merchandise[2] we used to produce the exported articles;

3. That, within 3 years after receiving it at our factory, we used the designated merchandise to produce articles. During the same 3-year period, we produced[3] the exported articles;

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by Customs during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(b) and part 191 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To insure compliance the following areas, as applicable, should be included in your discussion:)

RECEIPT AND STORAGE OF DESIGNATED MERCHANDISE

RECORDS OF USE OF DESIGNATED MERCHANDISE

BILLS OF MATERIALS

MANUFACTURING RECORDS

WASTE RECORDS

RECORDS OF USE OF DUTY-PAID, DUTY-FREE OR DOMESTIC

MERCHANDISE OF THE REQUIRED SAME KIND AND QUALITY

WITHIN 3 YEARS AFTER THE RECEIPT OF THE DESIGNATED MERCHANDISE

FINISHED STOCK STORAGE RECORDS

SHIPPING RECORDS

(Proof of time frames may be specific or inclusive, e.g., within 120 days, but specific proof is preferable. Separate storage and identification of each article or lot of merchandise usually will permit specific proof of exact dates. Proof of inclusive dates of use, production or export may be acceptable, but in such cases it is well to describe very specifically the data you intend to use to establish each legal requirement, thereby avoiding misunderstandings at the time of audit.)

(If you do not describe the inventory records that you will use, a statement that the legal requirements will be met by your inventory procedures is acceptable. However, it should be noted that without a detailed description of the inventory procedures set forth in the application a judgement as to the adequacy of such a statement cannot be made until a drawback claim is verified. Approval of this application for a specific manufacturing drawback ruling merely constitutes approval of the ruling application as submitted; it

[2] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

[3] The date of production is the date an article is completed.

does not constitute approval of the applicant's record keeping procedures if, for example, those procedures are merely described as meeting the legal requirements, without specifically stating how the requirements will be met. Drawback is not payable without proof of compliance.)

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) Appearing In; and (3) Used less Valuable Waste.)

(The ''Used In'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''Used In'' basis. Drawback is payable in the amount of 99 percent of the duty paid on the quantity of imported material designated as the basis for the allowance of drawback on the exported articles. The designated quantity may not exceed the quantity of material actually used in the manufacture of the exported articles.)

(For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duty paid on the 100 pounds of designated material used to produce the exported articles.)

(The ''Appearing In'' basis may be used regardless of whether there is waste. If the ''Appearing In'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''Appearing In'' basis. Drawback is payable on 99 percent of the duty paid on the quantity of material designated, which may not exceed the quantity of eligible material that appears in the exported articles. ''Appearing In'' may not be used if multiple products are involved.)

(Based on the previous example, drawback would be payable on the 90 pounds of merchandise which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)

(The ''Used Less Valuable Waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''Used Less Valuable Waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duty paid on the quantity of merchandise used in the manufacture, reduced by the quantity of such merchandise which the value of the waste would replace. Thus in this case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 191.26(c) of the CBP Regulations.)

(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the designated material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duty paid on the 95 pounds of imported material designated as the basis for the allowance of drawback on the exported article rather than on the 100 pounds ''Used In'' or the 90 pounds ''Appearing In'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount that will be needed to produce a unit of product before the material is actually used in production;)

(An ''abstract'' is the summary of the records (which may be set forth on Customs Form 7551) which shows the total quantity used in producing all products during the period covered by the abstract. The abstract looks at a duration of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back on how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base his claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by Schedule would read:)

We shall claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 191.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to

file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''Appearing In'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §191.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to the Headquarters, U.S. Customs Service all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by Customs Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this application and letter of approval.

Declaration of Official

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this _____ day of _____ 19____, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[4] _____

(Signature and Title)

_____

(Print Name)

IV. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(d)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of International Trade, 1300 Pennsylvania Avenue, N.W., Washington, D.C. 20229.

Dear Sir: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(d), and part 191 of the Customs Regulations. We request that the Customs Service authorize drawback on the basis of this application.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 191.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback shall apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §191.7 of the CBP Regulations. Customs will not approve an application which shows an unincorporated division or company as the applicant (see §191.8(a)).)

LOCATION OF FACTORY

(Give the address of the factory(s) where the process of manufacture or production will take place. If the factory is a different legal

[4] Section 191.6(a) requires that applications for specific manufacturing drawback rulings be signed by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney filed with the Customs port for the drawback office which will liquidate your drawback claims may sign such an application, as may a licensed Customs broker with a Customs power of attorney. You should state in which Customs port your Customs power(s) of attorney is/are filed.

entity from the applicant, so state and indicate if operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 191.6 of the CBP Regulations permits only the president, vice-president, secretary, treasurer, or any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a Customs power of attorney for the company may sign. A Customs power of attorney may also be given to a licensed Customs broker. This heading should be changed to NAMES OF PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (see footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).

CBP OFFICE WHERE DRAWBACK CLAIMS WILL BE FILED

(The four offices where drawback claims can be filed are located at: New York, NY; Houston, TX; Chicago, IL; San Francisco, CA)
(An original application and two copies must be filed. If the applicant intends to file drawback claims at more than one drawback office, one additional copy of the application must be furnished for each additional office indicated.)

GENERAL STATEMENT

(The exact material placed under this heading in individual cases will vary, but it should include such information as the type of business in which the manufacturer is engaged, whether the manufacturer is manufacturing for his own account or is performing the operation on a toll basis (including commission or conversion basis) for the account of others, whether the manufacturer is a direct exporter of his products or sells or delivers them to others for export, and whether drawback will be claimed by the manufacturer or by others.)
(If an agent is to be used, the applicant must state it will comply with T.D.'s 55027(2) and 55207(1), and §191.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (see §191.7 and Appendix A), or an application for a specific manufacturing drawback ruling (see §191.8 and this Appendix B).)
(Regarding drawback operations conducted under §1313(d), the data may describe the flavoring extracts, medicinal, or toilet preparations (including perfumery) manufactured with the use of domestic tax-paid alcohol; and where such alcohol is obtained or purchased.)
(Since the permission to grant use of the accelerated payment procedure rests with the Drawback office with which claims will be filed, do not include any reference to that procedure in this application.)

TAX-PAID MATERIAL USED UNDER SECTION 1313(d)

(Describe or list the tax-paid material)

EXPORTED ARTICLES ON WHICH DRAWBACK WILL BE CLAIMED

(Name each article to be exported)

PROCESS OF MANUFACTURE OR PRODUCTION

(Drawback under §1313(d) is not allowable except where a manufacture or production exists. ''Manufacture or production'' is defined, for drawback purposes, in §191.2(q). In order to obtain drawback under §1313(d), it is essential for the applicant to show use in manufacture or production by giving a thorough description of the manufacturing process. Describe how the tax-paid material is processed into the export article.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a positive statement to that effect under this heading.) (If waste occurs, state: (1) whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)
(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of domestic tax-paid alcohol used in manufacturing. If the claim is based upon the quantity of domestic tax-paid alcohol appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)
(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation, does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what ''Basis'' you are using.)

(If you recover valuable waste and if you choose to claim on the basis of the quantity of domestic tax-paid alcohol used in producing the exported articles (less valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. See ''Basis of Claim for Drawback'' section below.)

STOCK IN PROCESS

(Some processes result in another type of residual material, namely, stock in process, which affects the allowance of drawback. Stock in process may exist when residual material resulting from a manufacturing or processing operation is reintroduced into a subsequent manufacturing or processing operation; e.g., trim pieces from a cast article. The effect of stock in process on a drawback claim is that the amount of drawback for the period in which the stock in process was withdrawn from the manufacturing or processing operation (or the manufactured article, if manufacturing or processing periods are not used) is reduced by the quantity of merchandise or drawback products used to produce the stock in process if the ''used in'' or ''used in less valuable waste'' methods are used (if the ''appearing in'' method is used, there will be no effect on the amount of drawback), and the quantity of merchandise or drawback products used to produce the stock in process is added to the merchandise or drawback products used in the subsequent manufacturing or production period (or the subsequently produced article)).

(If stock in process occurs and claims are to be based on stock in process, the application must include a statement to that effect. The application must also include a statement that the domestic tax-paid alcohol is considered to be used in manufacture at the time it was originally processed so that the stock in process will not be included twice in the computation of the domestic tax-paid alcohol used to manufacture the finished articles on which drawback is claimed.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. State the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported articles on which drawback is claimed were produced with the use of a particular lot (or lots) of domestic tax-paid alcohol, and

2. The quantity of domestic tax-paid alcohol[1] we used in producing the exported articles.

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the tax has been paid on the domestic alcohol. Our records establishing our compliance with these requirements will be available for audit by Customs during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313(d) and part 191 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To insure compliance the following areas should be included in your discussion:)

RECEIPT AND RAW STOCK STORAGE RECORDS

MANUFACTURING RECORDS

FINISHED STOCK STORAGE RECORDS

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) Appearing In; and (3) Used less Valuable Waste.)

(The ''Used In'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''Used In'' basis. Drawback is payable in the amount of 100% of the tax paid on the quantity of domestic alcohol used in the manufacture of flavoring extracts and medicinal or toilet preparation (including perfumery).)

(For example, if 100 gallons of alcohol, valued at $1.00 per gallon, were used in manufacture resulting in 10 gallons of irrecoverable or valueless waste, the 10 gallons of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 100% of the tax paid on the 100 gallons of domestic alcohol used to produce the exported articles.)

The ''Appearing In'' basis may be used regardless of whether there is waste. If the

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

''Appearing In'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''Appearing In'' basis. Drawback is payable on 100% of the tax paid on the quantity of domestic alcohol which appears in the exported articles.

(Based on the previous example, drawback would be payable on the 90 gallons of domestic alcohol which actually went into the exported product (appearing in) rather than the 100 gallons used in as set forth previously.)

(The ''Used Less Valuable Waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of domestic tax-paid alcohol. The value of the waste reduces the amount of drawback when claims are based on the ''Used Less Valuable Waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the quantity of tax-paid alcohol used to manufacture the exported articles, reduced by the quantity of such alcohol which the value of the waste would replace.)

(Based on the previous examples, if the 10 gallons of waste had a value of $.50 per gallon, then the 10 gallons of waste, having a total value of $5.00, would be equivalent in value to 5 gallons of the tax-paid alcohol. Thus the value of the waste would replace 5 gallons of the alcohol used, and drawback is payable on 100% of the tax paid on 95 gallons of alcohol rather than on the 100 gallons ''Used In'' or the 90 gallons ''Appearing In'' as set forth in the above examples.)

(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)

(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount that will be needed to produce a unit of product before the material is actually used in production;)

(An ''abstract'' is the summary of the records (which may be set forth on Customs Form 7551) which shows the total quantity used in producing all products during the period covered by the abstract. The abstract looks at a duration of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back on how much material was actually used after a production period has been completed.)

(An applicant who fails to indicate the ''schedule'' choice must base his claims on the ''abstract'' method. State which Basis and Method you will use. An example of Used In by schedule follows:)

We shall claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 191.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''Appearing In'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §191.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to the Headquarters, U.S. Customs Service all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by Customs Headquarters on file for ready reference by employees and

require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this _____ day of _____ 19___, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[2] _____

(Signature and Title)

(Print Name)

V. FORMAT FOR APPLICATION FOR SPECIFIC MANUFACTURING DRAWBACK RULING UNDER 19 U.S.C. 1313(g)

COMPANY LETTERHEAD (Optional)

U.S. Customs and Border Protection, Commercial and Trade Facilitation Division, Regulations and Rulings, Office of International Trade, 1300 Pennsylvania Avenue, N.W., Washington, D.C. 20229.

Dear Sir: We, (Applicant's Name), a (State, e.g., Delaware) corporation (or other described entity) submit this application for a specific manufacturing drawback ruling that our manufacturing operations qualify for drawback under title 19, United States Code, section 1313(g), and part 191 of the Customs Regulations. We request that the Customs Service authorize drawback on the basis of this application.

[2]Section 191.6(a) requires that applications for specific manufacturing drawback rulings be signed by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a customs power of attorney filed with the Customs port for the drawback office which will liquidate your drawback claims may sign such an application, as may a licensed Customs broker with a Customs power of attorney. You should state in which Customs port your Customs power(s) of attorney is/are filed.

NAME AND ADDRESS AND IRS NUMBER (WITH SUFFIX) OF APPLICANT

(Section 191.8(a) of the CBP Regulations provides that each manufacturer or producer of articles intended for exportation with the benefit of drawback shall apply for a specific manufacturing drawback ruling, unless operating under a general manufacturing drawback ruling under §191.7 of the CBP Regulations. Customs will not approve an application which shows an unincorporated division or company as the applicant (see §191.8(a).)

LOCATION OF FACTORY OR SHIPYARD

(Give the address of the factory(s) or shipyard(s) at which the construction and equipment will take place. If the factory or shipyard is a different legal entity from the applicant, so state and indicate if operating under an Agent's general manufacturing drawback ruling.)

PERSONS WHO WILL SIGN DRAWBACK DOCUMENTS

(List persons legally authorized to bind the corporation who will sign drawback documents. Section 191.6 of the CBP Regulations permits only the president, vice-president, secretary, treasurer, or any employee legally authorized to bind the corporation to sign for a corporation. In addition, a person within a business entity with a Customs power of attorney for the company may sign. A Customs power of attorney may also be given to a licensed Customs broker. This heading should be changed to NAMES OF PARTNERS or PROPRIETOR in the case of a partnership or sole proprietorship, respectively (see footnote at end of this sample format for persons who may sign applications for specific manufacturing drawback rulings).)

CBP OFFICE WHERE DRAWBACK CLAIMS WILL BE FILED

(The four offices where drawback claims can be filed are located at: New York, NY; Houston, TX; Chicago, IL; San Francisco, CA)
(An original application and two copies must be filed. If the applicant intends to file drawback claims at more than one drawback office, one additional copy of the application must be furnished for each additional office indicated.)

GENERAL STATEMENT

(The following questions must be answered:
1. Who will be the importer of the merchandise?
(If the applicant will not always be the importer, does the applicant understand its obligations to obtain the appropriate certificates of delivery (19 CFR 191.10), certificates of manufacture and delivery (19 CFR 191.24), or both?)
2. Who is the manufacturer?

(Is the applicant constructing and equipping for his own account or merely performing the operation on a toll basis for others?)
(If an agent is to be used, the applicant must state it will comply with T.D.s 55027(2) and 55207(1), and §191.9, as applicable, and that its agent will submit a letter of notification of intent to operate under the general manufacturing drawback ruling for agents (see §191.7 and Appendix A), or an application for a specific manufacturing drawback ruling (see §191.8 and this Appendix B).)

3. Will the applicant be the drawback claimant?
(State how the vessel will qualify for drawback under 19 U.S.C. 1313(g). Who is the foreign person or government for whom the vessel is being made or equipped?)
(There shall be included under this heading the following statement:

We are particularly aware of the terms of §191.76(a)(1) of and subpart M of part 191 of the Customs Regulations, and shall comply with these sections where appropriate.)
(Since the permission to grant use of the accelerated payment procedure rests with the Drawback office with which claims will be filed, do not include any reference to that procedure in this application.)

IMPORTED MERCHANDISE OR DRAWBACK PRODUCTS USED

(Describe the imported merchandise or drawback products)

ARTICLES CONSTRUCTED AND EQUIPPED FOR EXPORT

(Name the vessel or vessels to be made with imported merchandise or drawback products)

PROCESS OF CONSTRUCTION AND EQUIPMENT

(What is required here is a clear, concise description of the process of construction and equipment involved. The description should also trace the flow of materials through the manufacturing process for the purpose of establishing physical identification of the imported merchandise or drawback products and of the articles resulting from the processing.)

WASTE

(Many processes result in residue materials which, for drawback purposes, are treated as wastes. Describe any residue materials which you believe should be so treated. If no waste results, include a positive statement to that effect under this heading.)
(If waste occurs, state: (1) whether or not it is recovered, (2) whether or not it is valueless, and (3) what you do with it. This information is required whether claims are made on a ''used in'' or ''appearing in'' basis and regardless of the amount of waste incurred.)
(Irrecoverable wastes are those consisting of materials which are lost in the process. Valueless wastes are those which may be recovered but have no value. These irrecoverable and valueless wastes do not reduce the drawback claim provided the claim is based on the quantity of imported material used in manufacturing. If the claim is based upon the quantity of imported merchandise appearing in the exported article, irrecoverable and valueless waste will cause a reduction in the amount of drawback.)
(Valuable wastes are those recovered wastes which have a value either for sale or for use in a different manufacturing process. However, it should be noted that this standard applies to the entire industry and is not a selection on your part. An option by you not to choose to sell or use the waste in some different operation does not make it valueless if another manufacturer can use the waste. State what you do with the waste. If you have to pay someone to get rid of it, or if you have buyers for the waste, you must state so in your application regardless of what ''Basis'' you are using.)
(If you recover valuable waste and if you choose to claim on the basis of the quantity of imported or substituted merchandise used in producing the exported articles (less valuable waste), state that you will keep records to establish the quantity and value of the waste recovered. See ''Basis of Claim for Drawback'' section below.)

LOSS OR GAIN (Separate and distinct from WASTE)

(Some manufacturing processes result in an intangible loss or gain of the net weight or measurement of the merchandise used. This loss or gain is caused by atmospheric conditions, chemical reactions, or other factors. State the approximate usual percentage or quantity of such loss or gain. Note that percentage values will be considered to be measured ''by weight'' unless otherwise specified. Loss or gain does not occur during all manufacturing processes. If loss or gain does not apply to your manufacturing process, state ''Not Applicable.'')

PROCEDURES AND RECORDS MAINTAINED

We will maintain records to establish:

1. That the exported article on which drawback is claimed was constructed and equipped with the use of a particular lot (or lots) of imported material; and

2. The quantity of imported merchandise[1] we used in producing the exported article.

[1] If claims are to be made on an ''appearing in'' basis, the remainder of this sentence should read ''appearing in the exported articles we produce.''

We realize that to obtain drawback the claimant must establish that the completed articles were exported within 5 years after the importation of the imported merchandise. Our records establishing our compliance with these requirements will be available for audit by Customs during business hours. We understand that drawback is not payable without proof of compliance.

INVENTORY PROCEDURES

(Describe your inventory records and state how those records will meet the drawback recordkeeping requirements set forth in 19 U.S.C. 1313 and part 191 of the CBP Regulations as discussed under the heading PROCEDURES AND RECORDS MAINTAINED. To insure compliance the following should be included in your discussion:)

RECEIPT AND RAW STOCK STORAGE RECORDS
CONSTRUCTION AND EQUIPMENT RECORDS
FINISHED STOCK STORAGE RECORDS
SHIPPING RECORDS

BASIS OF CLAIM FOR DRAWBACK

(There are three different bases that may be used to claim drawback: (1) Used in; (2) Appearing In; and (3) Used less Valuable Waste.)
(The ''Used In'' basis may be employed only if there is either no waste or valueless or unrecovered waste in the operation. Irrecoverable or valueless waste does not reduce the amount of drawback when claims are based on the ''Used In'' basis. Drawback is payable in the amount of 99 percent of the duty paid on the quantity of imported material used to construct and equip the exported article.)
(For example, if 100 pounds of material, valued at $1.00 per pound, were used in manufacture resulting in 10 pounds of irrecoverable or valueless waste, the 10 pounds of irrecoverable or valueless waste would not reduce the drawback. In this case drawback would be payable on 99% of the duty paid on the 100 pounds of imported material used in constructing and equipping the exported articles.)
(The ''Appearing In'' basis may be used regardless of whether there is waste. If the ''Appearing In'' basis is used, the claimant does not need to keep records of waste and its value. However, the manufacturer must establish the identity and quantity of the merchandise appearing in the exported product and provide this information. Waste reduces the amount of drawback when claims are made on the ''Appearing In'' basis. Drawback is payable on 99 percent of the duty paid on the quantity of imported material which appears in the exported articles. ''Appearing In'' may not be used if multiple products are involved.)
(Based on the previous example, drawback would be payable on the 90 pounds of imported material which actually went into the exported product (appearing in) rather than the 100 pounds used in as set forth previously.)
(The ''Used Less Valuable Waste'' basis may be employed when the manufacturer recovers valuable waste, and keeps records of the quantity and value of waste from each lot of merchandise. The value of the waste reduces the amount of drawback when claims are based on the ''Used Less Valuable Waste'' basis. When valuable waste is incurred, the drawback allowance on the exported article is based on the duty paid on the quantity of imported material used to construct and equip the exported product, reduced by the quantity of such material which the value of the waste would replace. Thus in this case, drawback is claimed on the quantity of eligible material actually used to produce the exported product, less the amount of such material which the value of the waste would replace. Note section 191.26(c) of the CBP Regulations.)
(Based on the previous examples, if the 10 pounds of waste had a value of $.50 per pound, then the 10 pounds of waste, having a total value of $5.00, would be equivalent in value to 5 pounds of the imported material. Thus the value of the waste would replace 5 pounds of the merchandise used, and drawback is payable on 99 percent of the duty paid on the 95 pounds of imported material rather than on the 100 pounds ''Used In'' or the 90 pounds ''Appearing In'' as set forth in the above examples.)
(Two methods exist for the manufacturer to show the quantity of material used or appearing in the exported article: (1) Schedule or (2) Abstract.)
(A ''schedule'' shows the quantity of material used in producing each unit of product. The schedule method is usually employed when a standard line of merchandise is being produced according to fixed formulas. Some schedules will show the quantity of merchandise used to manufacture or produce each article and others will show the quantity appearing in each finished article. Schedules may be prepared to show the quantity of merchandise either on the basis of percentages or by actual weights and measurements. A schedule determines the amount that will be needed to produce a unit of product before the material is actually used in production;)
(An ''abstract'' is the summary of the records (which may be set forth on Customs Form 7551) which shows the total quantity used in producing all products during the period covered by the abstract. The abstract looks at a duration of time, for instance 3 months, in which the quantity of material has been used. An abstract looks back on how much material was actually used after a production period has been completed.)
(An applicant who fails to indicate the ''schedule'' choice must base his claims on

the ''abstract'' method. State which Basis and Method you will use. An example of Used In by Schedule would read:)

We shall claim drawback on the quantity of (specify material) used in manufacturing (exported article) according to the schedule set forth below.

(Section 191.8(f) of the CBP Regulations requires submission of the schedule with the application for a specific manufacturing drawback ruling. An applicant who desires to file supplemental schedules with the drawback office whenever there is a change in the quantity or material used should state:)

We request permission to file supplemental schedules with the drawback office covering changes in the quantities of material used to produce the exported articles, or different styles or capacities of containers of such exported merchandise.

(Neither the ''Appearing In'' basis nor the ''schedule'' method for claiming drawback may be used where the relative value procedure is required.)

AGREEMENTS

The Applicant specifically agrees that it will:

1. Operate in full conformance with the terms of this application for a specific manufacturing drawback ruling when claiming drawback;

2. Open its factory and records for examination at all reasonable hours by authorized Government officers;

3. Keep its drawback related records and supporting data for at least 3 years from the date of payment of any drawback claim predicated in whole or in part upon this application;

4. Keep this application current by reporting promptly to the drawback office which liquidates its claims any changes in the number or locations of its offices or factories, the corporate name, the persons who will sign drawback documents, the basis of claim used for calculating drawback, the decision to use or not to use an agent under §191.9 or the identity of an agent under that section, the drawback office where claims will be filed under the ruling, or the corporate organization by succession or reincorporation;

5. Keep this application current by reporting promptly to the Headquarters, U.S. Customs Service all other changes affecting information contained in this application;

6. Keep a copy of this application and the letter of approval by Customs Headquarters on file for ready reference by employees and require all officials and employees concerned to familiarize themselves with the provisions of this application and that letter of approval; and

7. Issue instructions to insure proper compliance with title 19, United States Code, section 1313, part 191 of the CBP Regulations and this application and letter of approval.

DECLARATION OF OFFICIAL

I declare that I have read this application for a specific manufacturing drawback ruling; that I know the averments and agreements contained herein are true and correct; and that my signature on this _____ day of _____ 19____, makes this application binding on

_____

(Name of Applicant Corporation, Partnership, or Sole Proprietorship)

By[2] _____

(Signature and Title)

[T.D. 98–16, 63 FR 11006, Mar. 5, 1998; 63 FR 15291, Mar. 31, 1998; 63 FR 65060, Nov. 25, 1998; CBP Dec. 15–11, 80 FR 47407, Aug. 7, 2015]

PART 192—EXPORT CONTROL

Sec.

[2] Section 191.6(a) requires that applications for specific manufacturing drawback rulings be signed by any individual legally authorized to bind the person (or entity) for whom the application is signed or the owner of a sole proprietorship, a full partner in a partnership, or, if a corporation, the president, a vice president, secretary, treasurer or employee legally authorized to bind the corporation. In addition, any employee of a business entity with a Customs power of attorney filed with the Customs port for the drawback office which will liquidate your drawback claims may sign such an application, as may a licensed Customs broker with a Customs power of attorney. You should state in which Customs port your Customs power(s) of attorney is/are filed.

§ 192.0 Scope.

This part sets forth regulations pertaining to procedures for the lawful exportation of used self-propelled vehicles, vessels and aircraft, and the penalties and liabilities incurred for failure to comply with any of the procedures. This part also sets forth regulations concerning controls exercised by CBP with respect to the exportation of certain merchandise. This part also makes provision for the Automated Export System (AES), implemented by the Foreign Trade Regulations (FTR) of the Census Bureau, U.S. Department of Commerce, at part 30, subpart A (15 CFR part 30, subpart A), and provides the grounds under which CBP, as one of the reviewing agencies of the government's export partnership, may deny an application for post-departure filing status or revoke a participant's privilege to use such filing option, and provides for the appeal procedures to challenge such action by CBP.

[T.D. 89–46, 54 FR 15403, Apr. 18, 1989, as amended by T.D. 99–57, 64 FR 40987, July 28, 1999; CBP Dec. 17–06, 82 FR 32240, July 13, 2017]

Subpart A—Exportation of Used Self-Propelled Vehicles, Vessels, and Aircraft

§ 192.1 Definitions.

The following are general definitions for the purposes of this subpart A.

Certified. ''Certified'' when used with reference to a copy means a document issued by a government authority that includes on it a signed statement by the authority that the copy is an authentic copy of the original.

Copy. ''Copy'' refers to a duplicate or photocopy of an original document. Where there is any writing on the backside of an original document, a ''complete copy'' means that both sides of the document are copied.

Export. ''Export'' refers to the transportation of merchandise out of the U.S. for the purpose of being entered into the commerce of a foreign country.

Self-propelled vehicle. ''Self-propelled vehicle'' includes any automobile, truck, tractor, bus, motorcycle, motor home, self-propelled agricultural machinery, self-propelled construction equipment, self-propelled special use equipment, and any other self-propelled vehicle used or designed for running on land but not on rail.

Ultimate purchaser. ''Ultimate purchaser'' means the first person, other than a dealer purchasing in his capacity as a dealer, who in good faith purchases a self-propelled vehicle for purposes other than resale.

Used. ''Used'' refers to any self-propelled vehicle the equitable or legal title to which has been transferred by a manufacturer, distributor, or dealer to an ultimate purchaser.

[T.D. 89–46, 54 FR 15403, Apr. 18, 1989, as amended by T.D. 99–34, 64 FR 16639, Apr. 6, 1999]

§ 192.2 Requirements for exportation.

(a) *Basic requirements*. A person attempting to export a used self-propelled vehicle shall present to Customs, at the port of exportation, both the vehicle and the required documentation describing the vehicle, which includes the Vehicle Identification Number or, if the vehicle does not have a Vehicle Identification Number, the product identification number. Exportation of a vehicle will be permitted only upon compliance with these requirements, unless the vehicle was entered into the United States under an in-bond procedure, or under a carnet or Temporary Importation Bond; a vehicle entered under an in-bond procedure, or under a carnet or Temporary Importation Bond is exempt from these requirements. The person attempting to export the vehicle may employ an agent for the exportation of the vehicle.

(b) *Documentation required*—(1) *For U.S.-titled vehicles*—(i) *Vehicles issued an original certificate of title*. For used, self-propelled vehicles issued, by any jurisdiction in the United States, a Certificate of Title or a Salvage Title that remains in force, the owner must provide

to Customs, at the time and place specified in this section, the original Certificate of Title or a certified copy of the Certificate of Title and two complete copies of the original Certificate of Title or certified copy of the original.

(ii) *Where title evidences third-party ownership/claims.* If the used, self-propelled vehicle is leased or a recorded lien exists in the U.S., in addition to complying with paragraph (b)(1)(i) of this section, the provisional owner must provide to Customs a separate writing from the third-party-in-interest which expressly provides that the subject vehicle may be exported. This writing must be on the third-party's letterhead paper, and contain a complete description of the vehicle including the Vehicle Identification Number (VIN), the name of the owner or lienholder of the leased vehicle, and the telephone numbers at which that owner or lienholder may be contacted. The writing must bear an original signature of the third-party and state the date it was signed.

(iii) *Where U.S. Government employees are involved.* If the used, self-propelled vehicle is owned by a U.S. government employee and is being exported in conjunction with that employee's reassignment abroad pursuant to official travel orders, then, in lieu of complying with paragraph (b)(1)(i) of this section, the employee may be required to establish that he has complied with the sponsoring agency's internal travel department procedures for vehicle export.

(2) *For foreign-titled vehicles.* For used, self-propelled vehicles that are registered or titled abroad, the owner must provide to Customs, at the time and place specified in this section, the original document that provides satisfactory proof of ownership (with an English translation of the text if the original language is not in English), and two complete copies of that document (and translation, if necessary).

(3) *For untitled vehicles*—(i) *Newly-manufactured vehicles issued an MSO.* For newly-manufactured, self-propelled vehicles that are purchased from a U.S. manufacturer, distributor, or dealer that become used, as defined in this subpart, and are issued a Manufacturer's Statement of Origin (MSO), but not issued a Certificate of Title by any jurisdiction of the United States, the owner must provide to Customs, at the time and place specified in this section, the original MSO and two complete copies of the original MSO.

(ii) *Newly-manufactured vehicles not issued an MSO.* For newly-manufactured, self-propelled vehicles purchased from a U.S. manufacturer, distributor, or dealer that become used, as defined in this subpart, and not issued an MSO or a Certificate of Title by any jurisdiction of the United States, the owner must establish that the jurisdiction from where the vehicle comes does not have any ownership documentation requirements regarding such vehicles and provide to Customs, at the time and place specified in this section, an original document that proves ownership, such as a dealer's invoice, and two complete copies of such original documentation.

(iii) *Vehicles issued a junk or scrap certificate.* For used, self-propelled vehicles for which a junk or scrap certificate issued, by any jurisdiction of the United States, remains in force, the owner must provide to Customs, at the time and place specified in this section, the original certificate or a certified copy of the original document and two complete copies of the original document or certified copy of the original.

(iv) *Vehicles issued a title or certificate that is not in force or are otherwise not registered.* For used, self-propelled vehicles that were issued, by any jurisdiction of the United States, a title or certificate that is no longer in force, or that are not required to be titled or registered, and for which an MSO was not issued, the owner must establish that the jurisdiction from where the vehicle comes does not have any ownership documentation requirements regarding such vehicles and provide to Customs, at the time and place specified in this section, the original document that shows his basis for ownership or right of possession, such as a bill of sale, and two complete copies of that original document. Further, the owner must certify in writing to Customs that the procurement of the vehicle was a bona fide transaction, and

that the vehicle presented for export is not stolen.

(c) *When presented*—(1) *Exportation by vessel or aircraft.* For those vehicles exported by vessel or aircraft, the required documentation and the vehicle must be presented to Customs at least 72 hours prior to export.

(2) *Exportation at land border crossing points.* For those vehicles exported by rail, highway, or under their own power:

(i) The required documentation must be submitted to Customs at least 72 hours prior to export; and

(ii) The vehicle must be presented to Customs at the time of exportation.

(d) *Where presented.* Port directors will establish locations at which exporters must present the required documentation and the vehicles for inspection. Port directors will publicize these locations, including their hours of operation.

(e) *Authentication of documentation.* Customs will determine the authenticity of the documents submitted. Once the authenticity of the documents is established, Customs will mark the documents. In most cases the original document(s) will be returned to the exporter. In those cases where the original title document was presented to and retained by Customs and cannot be found prior to the vehicle's export, the exporter's authenticated copy of the original documentation serves as evidence of compliance with the reporting requirements.

[T.D. 89–46, 54 FR 15403, Apr. 18, 1989, as amended by T.D. 90–71, 55 FR 37708, Sept. 13, 1990; T.D. 99–34, 64 FR 16639, Apr. 6, 1999]

§ 192.3 Penalties.

(a) A $500 penalty shall be assessed against an exporter attempting to export a vehicle without complying with the requirements set forth in this part of the regulations.

(b) A $500 penalty shall be assessed against an exporter who has exported a vehicle without complying with the requirements set forth in this part of the regulations.

(c) A penalty not to exceed $10,000 may be assessed against an importer or exporter who knowingly imports, exports or attempts to import or export:

(1) Any stolen self-propelled vehicle, vessel, aircraft or part of a self-propelled vehicle, vessel or aircraft; or

(2) Any self-propelled vehicle or part of a self-propelled vehicle from which the identification number has been removed, obliterated, tampered with, or altered.

(d) Any stolen self-propelled vehicle, vessel or aircraft or part thereof or any self-propelled vehicle or part of a self-propelled vehicle from which the identification number has been removed, obliterated, tampered with or altered may be subject to seizure and foreiture pursuant to 19 U.S.C. 1627a.

§ 192.4 Liability of carriers.

Under the provisions of 19 U.S.C. 1436, the vessel master is charged with the responsibility for presenting a true manifest. If used vehicles are not included on the manifest or are inaccurately described thereon, a liability for penalties may be incurred.

[T.D. 89–46, 54 FR 15403, Apr. 18, 1989, as amended by T.D. 98–74, 63 FR 51290, Sept. 25, 1998]

Subpart B—Filing of Export Information Through the Automated Export System (AES)

SOURCE: T.D. 99–57, 64 FR 40987, July 28, 1999, unless otherwise noted.

§ 192.11 Description of the AES.

The Automated Export System (AES) is the information system for collecting Electronic Export Information (EEI) from persons exporting goods from the United States, Puerto Rico, or the U.S. Virgin Islands; between Puerto Rico and the United States; and to the U.S. Virgin Islands from the United States or Puerto Rico. Pursuant to the Census Bureau's Foreign Trade Regulations (FTR), all commodity export information for which EEI is required must be filed through the AES. This system is the CBP-approved electronic data interchange system used for purposes of filing EEI as required by § 192.14. AES is also the system by which certain sea carriers may report required outbound vessel information electronically (*see*, §§ 4.63, 4.75, and 4.76

of this chapter). Eligibility and application procedures are found in the General Requirements section of the FTR, codified at 15 CFR part 30, subpart A. The Census Bureau's FTR (15 CFR part 30, subpart A) provides that exporters may choose to submit export information through AES by any one of three electronic filing options available. Only Option 4, the complete post-departure submission of export information, requires prior approval by participating agencies before it can be used by AES participants.

[CBP Dec. 17–06, 82 FR 32240, July 13, 2017]

§ 192.12 Criteria for denial of applications requesting AES post-departure (Option 4) filing status; appeal procedures.

(a) *Approval process.* Applications for the option of filing export commodity information electronically through AES after the vessel has departed (Option 4 filing status) must be unanimously approved by Customs, Census and other participating government agencies. Disapproval by one of the participating agencies will cause rejection of the application.

(b) *Grounds for denial.* Customs may deny a participant's application for any of the following reasons:

(1) The applicant is not an exporter, as defined in the Census Regulations (15 CFR 30.7(d));

(2) The applicant has a history of non-compliance with export regulations (e.g., exporter has a history of late electronic submission of commodity records or a record of non-submission of required export documentation);

(3) The applicant has been indicted, convicted, or is currently under an investigation, wherein Customs has developed probable cause, for a felony involving any Customs law or any export law administered by another government agency; or

(4) The applicant has made or caused to be made in the ''Letter of Intent'', a false or misleading statement or omission with respect to any material fact.

(c) *Notice of denial; appeal procedures.* Applicants will be notified of approval or denial in writing by Census. (Applicants whose applications are denied by other agencies must contact those agencies for their specific appeal procedures.) Applicants whose applications are denied by Customs will be provided with the specific reason(s) for non-selection. Applicants may challenge Customs decision by following the appeal procedure provided at § 192.13(b).

§ 192.13 Revocation of participants' AES post-departure (Option 4) filing privileges; appeal procedures.

(a) *Reasons for revocation.* Customs may revoke Option 4 privileges of participants for the following reasons:

(1) The exporter has made or caused to be made in the ''Letter of Intent'', a false or misleading statement or omission with respect to any material fact;

(2) The exporter submitting the ''Letter of Intent'' is indicted, convicted, or is currently under an investigation, wherein Customs has developed probable cause, for a felony involving any Customs law or any export law administered by another government agency;

(3) The exporter fails to substantially comply with export regulations; or

(4) Continued participation in AES as an Option 4 filer would pose a threat to national security, such that continued participation in Option 4 should be terminated.

(b) *Notice of revocation; appeal procedures.* When Customs has decided to revoke a participant's Option 4 filing privileges, the participant will be notified in writing of the reason(s) for the decision. The participant may challenge Customs decision by filing an appeal within thirty (30) calendar days of receipt of the notice of decision. Except as stated elsewhere in this paragraph, the revocation will become effective when the participant has either exhausted all appeal proceedings or thirty (30) calendar days after receipt of the notice of revocation if no appeal is filed. However, in cases of intentional violations of any Customs law on the part of the program participant or when required by the national security, revocations will become effective immediately upon notification. Appeals should be addressed to the Director, Outbound Programs, U.S. Customs, Ronald Reagan Building, 1300 Pennsylvania Ave, NW, Room 5.4c, Washington, DC 20229. Customs will issue a written

decision or notice of extension to the participant within thirty (30) calendar days of receipt of the appeal. If a notice of extension is forwarded, the applicant will be provided with the reason(s) for extension of this time period and an expected date of decision. Participants who have had their Option 4 filing privileges revoked and applicants not selected to participate in Option 4 of AES may not reapply for this filing status for one year following written notification of rejection or revocation.

§ 192.14 Electronic information for outward cargo required in advance of departure.

(a) *General requirement.* Pursuant to section 343(a), Trade Act of 2002, as amended (19 U.S.C. 2071 note), for any commercial cargo that is to be exported from the United States by vessel, aircraft, rail, or truck, unless exempted under paragraph (d) of this section, the U.S. Principal Party in Interest (USPPI), the USPPI's authorized agent, or the authorized filing agent of the Foreign Principal Party in Interest (FPPI) must electronically transmit for receipt by CBP, no later than the time period specified in paragraph (b) of this section, certain Electronic Export Information (EEI), as enumerated in paragraph (c) of this section. Specifically, to effect the advance electronic transmission of the required cargo information to CBP, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must use a CBP-approved electronic data interchange system (currently, the Automated Export System (AES)).

(b) *Transmission of data*—(1) *Time for transmission of EEI.* The USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must electronically transmit the EEI required by §30.6 of the Census Bureau's FTR (15 CFR 30.6) and have received the AES Internal Transaction Number (ITN) (see paragraph (b)(3) of this section) for outbound cargo no later than the time period specified as follows:

(i) For vessel cargo, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must provide the EEI filing citation (the ITN), exclusion, and/or exemption legend to the exporting carrier no later than 24 hours prior to loading cargo on the vessel at the U.S. port of lading;

(ii) For air cargo, including cargo being transported by air express couriers, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must provide the EEI filing citation (the ITN), exclusion, and/or exemption legend to the exporting carrier no later than 2 hours prior to the scheduled departure time of the aircraft from the U.S. port of export;

(iii) For truck cargo, including cargo departing by express consignment courier, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must provide the EEI filing citation (the ITN), exclusion, and/or exemption legend to the exporting carrier no later than 1 hour prior to the arrival of the truck at the border;

(iv) For rail cargo, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must provide the EEI filing citation (the ITN), exclusion, and/or exemption legend to the exporting carrier no later than 2 hours prior to the arrival of the train at the border;

(v) For shipments of used self-propelled vehicles as defined in §192.1, the USPPI's authorized agent, or the FPPI's authorized filing agent must provide the EEI filing citation (the ITN), exclusion, and/or exemption legend to the exporting carrier at least 72 hours prior to export; and

(vi) For cargo shipped by pipeline, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent should refer to §30.4 of the Census Bureau's FTR (15 CFR 30.4, 30.46) for applicable time frames for the transmission of EEI.

(2) *Applicability of time frames.* The time periods in paragraph (b)(1) of this section for reporting required EEI to CBP for outward vessel, air, truck, or rail cargo only apply to shipments without an export license, license exemption, or license exception that require full predeparture reporting of shipment data, in order to comply with the advance cargo information filing requirements under section 343(a), Trade Act of 2002, as amended. Requirements placed on exports controlled by other government agencies will remain in force unless changed by the agency

having the regulatory authority to do so. CBP will also continue to require 72-hour advance notice for used vehicle exports pursuant to §192.2(c)(1) and (c)(2)(i). The USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent should refer to the relevant titles of the Code of Federal Regulations (CFR) for pre-filing requirements of other government agencies. In particular, for the advance reporting requirements for exports of U.S. Munitions List items, see the U.S. Department of State's International Traffic in Arms Regulations (ITAR) (22 CFR parts 120 through 130).

(3) *System verification of data acceptance or rejection*. Once the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent has transmitted the EEI required under paragraphs (c)(1) and (c)(2) of this section, and AES has received and accepted this data, AES will generate and transmit to the party that filed the EEI a confirmation number, the Internal Transaction Number (ITN), assigned to that shipment confirming acceptance of the EEI transmission. When the submission is not accepted, a rejection message will be transmitted to the filer.

(c) *EEI required*—(1) *Commodity data*. The commodity data elements that are required to be reported electronically through the approved system are found in §30.6 of the Census Bureau's FTR (15 CFR 30.6).

(2) *Transportation data*. The following transportation data elements are also required to be reported electronically through the approved system. These data elements are also found in §30.6 of the Census Bureau's FTR (30 CFR 30.6):

(i) Method of transportation (the method of transportation is defined as that by which the goods are exported or shipped (vessel, air, rail, or truck));

(ii) Carrier identification (for vessel, rail and truck shipments, the unique carrier identifier is the 4-character Standard Carrier Alpha Code (SCAC); for aircraft, the carrier identifier is the 2- or 3-character International Air Transport Association (IATA) code);

(iii) Conveyance name (the conveyance name is the name of the carrier; for sea carriers, this is the name of the vessel; for others, the carrier name);

(iv) Country of ultimate destination (this is the country as known to the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent at the time of exportation, where the cargo is to be consumed or further processed or manufactured; this country would be identified by the 2-character International Standards Organization (ISO) code for the country of ultimate destination);

(v) Date of export (the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must report the date the cargo is scheduled to leave the United States for all modes of transportation; if the actual date is not known, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must report the best estimate as to the time of departure); and

(vi) Port of export (the port where the outbound cargo departs from the United States is designated by its unique code, as set forth in Annex C, Harmonized Tariff Schedule of the United States (HTSUS); the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must report the port of exportation as known when the USPPI, USPPI's authorized agent, or the FPPI's authorized filing agent tenders the cargo to the outbound carrier; should the carrier export the cargo from a different port and the carrier so informs the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent, the port of exportation must be corrected by the filer in AES.).

(3) *Proof of electronic filing; exemption from filing*. The USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must furnish to the exporting carrier a proof of EEI filing citation (the ITN), post-departure filing citation, AES downtime filing citation (when allowed), and the exclusion, and/or exemption legends (see paragraph (d) of this section) for annotation on the carrier's outward manifest, waybill, or other export documentation covering the cargo to be shipped. The proof of EEI filing citation (the ITN), post-departure filing citation, AES downtime filing citation, exclusion, and/or exemption legend must conform

to the approved EEI filing citation, exclusion, and/or exemption legend formats in Appendix B to the Census Bureau's FTR (15 CFR part 30, Appendix B).

(4) *Carrier responsibility*—(i) *Loading of cargo*. The carrier may not load cargo without first receiving from the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent either the related electronic filing citation as prescribed under paragraph (c)(3) of this section, or an appropriate exemption legend for the cargo as specified in paragraph (d) of this section.

(ii) *High-risk cargo*. For cargo that CBP has identified as potentially high-risk, the carrier, after being duly notified by CBP, will be responsible for delivering the cargo for inspection/examination. When cargo identified as high risk has already been exported, CBP may demand that the export carrier redeliver the cargo in accordance with the terms of its international carrier bond (see §113.64(m)(2) of this chapter).

(5) *USPPI receipt of information believed to be accurate*. When the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent electronically presenting the cargo information required in paragraphs (c)(1) and (c)(2) of this section receives any of this information from another party, CBP will take into consideration how, in accordance with ordinary commercial practices, the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent acquired this information, and whether and how the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent is able to verify this information. When the USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent is not reasonably able to verify any information received, CBP will permit this party to electronically present the information on the basis of what it reasonably believes to be true.

(d) *Exemptions from reporting; Census exemptions or exclusions applicable*. The USPPI, the USPPI's authorized agent, or the FPPI's authorized filing agent must furnish to the outbound carrier an appropriate exemption or exclusion legend for any export shipment laden that is not subject to predeparture electronic information filing under this section. The exemption or exclusion legend must conform to the proper format approved by the Census Bureau (see 15 CFR part 30, Appendix B). Any exemptions or exclusions from reporting requirements for export cargo are enumerated in §§30.2 and 30.35 through 30.40 of the Census Bureau's FTR (15 CFR 30.2 and 30.35 through 30.40). These exemptions or exclusions under §§30.2 and 30.35 through 30.40 of the Census Bureau's FTR are equally applicable under this section.

[CBP Dec. 17–06, 82 FR 32240, July 13, 2017, as amended by CBP Dec. 18–05, 83 FR 27407, June 12, 2018]

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations (CFR) that were made by documents published in the FEDERAL REGISTER since January 1, 2017 are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to FEDERAL REGISTER pages. The user should consult the entries for chapters, parts and subparts as well as sections for revisions.

For changes to this volume of the CFR prior to this listing, consult the annual edition of the monthly List of CFR Sections Affected (LSA). The LSA is available at *www.govinfo.gov*. For changes to this volume of the CFR prior to 2001, see the ''List of CFR Sections Affected, 1949–1963, 1964–1972, 1973–1985, and 1986–2000'' published in 11 separate volumes. The ''List of CFR Sections Affected 1986–2000'' is available at *www.govinfo.gov*.

CODE OF FEDERAL REGULATIONS

Title 19
Customs Duties

Part 200 to End

Revised as of April 1, 2023

Containing a codification of documents
of general applicability and future effect

As of April 1, 2023

Published by the Office of the Federal Register
National Archives and Records Administration
as a Special Edition of the Federal Register

U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0–16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Table of Contents

Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 19 CFR 200.735–101 *refers to title 19, part 200, section 735–101.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....as of January 1
Title 17 through Title 27.....as of April 1
Title 28 through Title 41.....as of July 1
Title 42 through Title 50.....as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, April 1, 2023), consult the ''List of CFR Sections Affected (LSA),'' which is issued monthly, and the ''Cumulative List of Parts Affected,'' which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a ''List of CFR Sections Affected'' is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

''[RESERVED]'' TERMINOLOGY

The term ''[Reserved]'' is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a ''[Reserved]'' location at any time. Occasionally ''[Reserved]'' is used editorially to indicate that a portion of the CFR was left vacant and not dropped in error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of ''Title 3—The President'' is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the ''Contents'' entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency's name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202–741–6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail *fedreg.info@nara.gov*.

SALES

The Government Publishing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Publishing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via *www.govinfo.gov*. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, *ContactCenter@gpo.gov*.

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) website for public law numbers, Federal Register finding aids, and related information. Connect to NARA's website at *www.archives.gov/federal-register*.

The eCFR is a regularly updated, unofficial editorial compilation of CFR material and Federal Register amendments, produced by the Office of the Federal Register and the Government Publishing Office. It is available at *www.ecfr.gov*.

OLIVER A. POTTS,
Director,
Office of the Federal Register
April 1, 2023

THIS TITLE

Title 19—CUSTOMS DUTIES is composed of three volumes. The first two volumes, parts 0—140 and parts 141—199 contain the regulations in Chapter I—U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury. The third volume, part 200 to end, contains the regulations in Chapter II—United States International Trade Commission; Chapter III—International Trade Administration, Department of Commerce; and Chapter IV—U.S. Immigration and Customs Enforcement, Department of Homeland Security. The contents of these volumes represent all current regulations issued under this title of the CFR as of April 1, 2023.

A Subject Index to Chapter I—U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury appears in the Finding Aids section of the first two volumes.

For this volume, Robert J. Sheehan, III was Chief Editor. The Code of Federal Regulations publication program is under the direction of John Hyrum Martinez, assisted by Stephen J. Frattini.

Title 19—Customs Duties

(This book contains part 200 to end)

CHAPTER II—UNITED STATES INTERNATIONAL TRADE COMMISSION

PART 200—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Subpart A—General Provisions

Subpart B—Provisions Governing Ethical and Other Conduct and Responsibilities of Employees

Subpart C—Provisions Governing Statements of Employment and Financial Interests

Subpart D—Provisions for Administrative Enforcement of Postemployment Conflict of Interest Restrictions

AUTHORITY: E.O. 11222, 30 FR 6469, 3 CFR, 1965 Supp.; 5 CFR 735.101 *et seq.*, 5 CFR 2638.101 *et seq.*, unless otherwise noted.

SOURCE: 31 FR 2593, Feb. 10, 1966, unless otherwise noted.

Subpart A—General Provisions

§ 200.735–101 Purpose.

The purpose of the regulations in this part is to maintain the highest standards of honesty, integrity, impartiality, and conduct on the part of all employees of the U.S. International Trade Commission and to maintain public confidence that the business of the Commission is being conducted in accordance with such standards.

[31 FR 2593, Feb. 10, 1966, as amended at 46 FR 17542, Mar. 19, 1981]

§ 200.735–102 Definitions.

In this part:

(a) *Commission* means the U.S. International Trade Commission.

(b) *Commissioner* means a Commissioner of the U.S. International Trade Commission.

(c) *Employee* means a Commissioner, employee, or special Government employee of the Commission.

(d) *Executive order* means Executive Order 11222 of May 8, 1965.

(e) *Person* means an individual, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other organization or institution.

(f) *Special Government employee* means a ''special Government employee'' as defined in section 202 of Title 18 of the United States Code who is employed by the Commission.

[31 FR 2593, Feb. 10, 1966, as amended at 44 FR 23823, Apr. 23, 1979; 46 FR 17542, Mar. 19, 1981; 56 FR 36726, Aug. 1, 1991]

§ 200.735–103 Counseling service.

(a) The Chairman shall appoint a Designated Agency Ethics Official (DAEO) who serves as liaison to the Office of Government Ethics and who is responsible for carrying out the Commission's ethics program. The program shall be designed to implement titles II, IV, and V of the Ethics in Government Act of 1978, Executive Order No. 11222, the regulations in this part, and

other statutes and regulations applicable to agency ethics matters. The DAEO will be a senior Commission employee with experience demonstrating the ability to review financial disclosure reports and counsel employees with regard to resolving conflicts of interest, review the financial disclosures of Presidential nominees to the Commission prior to confirmation hearings, counsel employees with regard to ethics standards, assist supervisors in implementing the Commission's ethics program, and periodically evaluate the ethics program.

(b) The Chairman shall select an Alternate Agency Ethics Official who will serve as Deputy DAEO to whom any of the DAEO's statutory and regulatory duties may be delegated.

(c) The DAEO shall coordinate and manage the agency's ethics program. The DAEO duties shall consist of:

(1) Liaison with the Office of Government Ethics;

(2) Review of financial disclosure reports, including reports filed by Presidential nominees to the Commission;

(3) Initiation and maintenance of ethics education and training programs;

(4) Monitoring administrative actions and sanctions; and

(5) Implementation of the specific program elements listed in Office of Government Ethics regulations, 5 CFR 738.203(b).

[46 FR 17542, Mar. 19, 1981, as amended at 56 FR 36726, Aug. 1, 1991]

§ 200.735–104 Disciplinary and other remedial action.

(a) An employee who violates any of the regulations in this part may be disciplined. The disciplinary action may be in addition to any other penalty prescribed by law for the violation. In addition to, or in lieu of, disciplinary action, remedial action to end conflicts or appearance of conflicts of interest may include, but is not limited to:

(1) Changes in assigned duties;

(2) Divestment by the employee of his conflicting interest; or

(3) Disqualification for a particular assignment.

(b) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

Subpart B—Provisions Governing Ethical and Other Conduct and Responsibilities of Employees

§ 200.735–104a Proscribed actions.

An employee shall avoid any action, whether or not specifically prohibited by this subpart, which might result in, or create the appearance of:

(a) Using public office for private gain;

(b) Giving preferential treatment to any person;

(c) Impeding Government efficiency or economy;

(d) Losing complete independence or impartiality;

(e) Making a Government decision outside official channels; or

(f) Affecting adversely the confidence of the public in the integrity of the Government.

[32 FR 16210, Nov. 28, 1967]

§ 200.735–105 Gifts, entertainment, and favors.

(a) Except as provided in paragraph (b) of this section, no employee may solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value from any person who:

(1) Has, or is seeking to obtain, contractual or other business or financial relations with the Commission;

(2) Conducts operations or activities that are being investigated by the Commission; or

(3) Has interests that may be substantially affected by the performance or nonperformance of the employee's official duty.

(b) The prohibitions set forth under paragraph (a) of this section shall not apply to:

(1) Solicitations or acceptances based on obvious family or personal relationships (such as those between parents, children, or spouse of the employee and the employee) when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;

(2) The acceptance of food and refreshments of nominal value on infrequent occasions in the ordinary course

of a luncheon or dinner meeting or other meeting or on a field trip, and of ground transportation of nominal value in the course of a field trip, where an employee may properly be in attendance.

(3) The acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans; and

(4) The acceptance of unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal value.

(c) An employee shall not solicit a contribution from another employee for a gift to an official superior, make a donation as a gift to an official superior, or accept a gift from an employee receiving less pay than himself (5 U.S.C. 7351). However, this paragraph does not prohibit a voluntary gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(d) An employee shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 7342.

(e) Neither this section nor § 200.735–106 precludes an employee from receipt of bona fide reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this part for which no Government payment or reimbursement is made. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under agency orders when reimbursement is proscribed by Decision B–128527 of the Comptroller General dated March 7, 1967.

[32 FR 16210, Nov. 28, 1967, as amended at 46 FR 41036, Aug. 14, 1981]

§ 200.735–106 Outside employment and other activities.

(a) An employee may engage in outside employment or other outside activity not incompatible with the full and proper discharge of the duties and responsibilities of his Government employment: *Provided,* That no Commissioner shall actively engage in any other business, vocation, or employment than that of serving as a Commissioner (19 U.S.C. 1330(c)). Incompatible activities include but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, conflicts of interest; or

(2) Outside employment tending to impair the employee's capacity to perform his Government duties and responsibilities in an acceptable manner.

(b) An employee (except a special Government employee) shall not receive any salary or anything of monetary value from a private source as compensation for his services to the Government (18 U.S.C. 209).

(c) Employees are encouraged to engage in teaching, lecturing, and writing that is not prohibited by law, the Executive order, or this part. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service, that is dependent on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the Commission gives authorization for the use of nonpublic information (other than information received in confidence) on the basis that the use is in the public interest and would not be in violation of law. In addition, Commissioners shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance the subject matter of which is devoted substantially to the responsibilities, programs, or operations of the Commission, or which draws substantially on official data or

ideas which have not become part of the body of public information.

(d) This section does not preclude an employee from:

(1) Participation in the activities of national or State political parties not proscribed by law.

(2) Participation in the affairs of, or acceptance of, an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit educational and recreational, public service, or civic organization.

[33 FR 8447, June 7, 1968]

§ 200.735–107 Financial interests.

(a) An employee shall not:

(1) Have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his Government duties or responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of, or primarily relying on, information obtained through his Government employment.

(b) This section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, the Executive order, or this part.

(c) Pursuant to the authority contained in 18 U.S.C. 208(b), the following types of financial interests are considered too remote or inconsequential to affect a Commission employee's integrity or services and do not constitute a conflict of interest under 18 U.S.C. 208(a):

(1) In widely-held, diversified mutual funds or regulated investment companies, regardless of their value; and

(2) In state or local government bonds, or other noncorporate bonds, regardless of their value.

[31 FR 2593, Feb. 10, 1966, as amended at 44 FR 23823, Apr. 23, 1979]

§ 200.735–108 Use of Government property.

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property, including equipment, supplies, and other property issued to him.

§ 200.735–109 Misuse of information.

For the purpose of furthering a private interest, an employee shall not, except as provided in § 200.735–106(c), directly or indirectly use, or allow the use of, official information obtained through or in connection with his Government employment which has not been made available to the general public.

§ 200.735–110 Indebtedness.

An employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State or local taxes. For the purpose of this section a *just financial obligation* means one acknowledged by the employee or reduced to judgment by a court, and *in a proper and timely manner* means in a manner which the Commission determines does not, under the circumstances, reflect adversely on the Government as his employer. In the event of a dispute between an employee and an alleged creditor, the Commission shall make no determination of the validity or amount of the disputed debt.

§ 200.735–111 Gambling, betting, and lotteries.

An employee shall not participate, while on Government-owned or leased property or while on duty for the Government, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket. However, this section does not preclude activities:

(a) Necessitated by an employee's law enforcement duties; or

(b) Under section 3 of Executive Order 10927 and similar Commission-approved activities.

§ 200.735–112 General conduct prejudicial to the Government.

An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Government.

§ 200.735–113 Miscellaneous statutory provisions.

Each employee shall familiarize himself with each statute that relates to his ethical and other conduct as a Government employee, including the following statutes:

(a) House Concurrent Resolution 175, 85th Congress, 2d Session, 72 Stat. B12, the ''Code of Ethics for Government Service.''

(b) Chapter 11 of Title 18, United States Code, relating to bribery, graft, and conflicts of interest.

(c) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(d) The prohibitions against disloyalty and striking (5 U.S.C. 7311, 18 U.S.C. 1918).

(e) The prohibition against the employment of a member of a Communist organization (50 U.S.C. 784).

(f) The prohibitions against (1) the disclosure of classified information (18 U.S.C. 798, 50 U.S.C. 783); and (2) the disclosure of confidential information (18 U.S.C. 1905).

(g) The provision relating to the habitual use of intoxicants to excess (5 U.S.C. 7352).

(h) The prohibition against the misuse of a Government vehicle (31 U.S.C. 638a(c)).

(i) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(j) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(k) The prohibition against fraud or false statements in a Government matter (18 U.S.C. 1001).

(l) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(m) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(n) The prohibitions against—

(1) Embezzlement of Government money or property (18 U.S.C. 641);

(2) Failing to account for public money (18 U.S.C. 643); and

(3) Embezzlement of the money or property of another person in the possession of an employee by reason of his employment (18 U.S.C. 654).

(o) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(p) The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code and 18 U.S.C. 602, 603, 607, and 608.

(q) The prohibition against an employee acting as an agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).

[31 FR 2593, Feb. 10, 1966, as amended at 32 FR 16210, Nov. 28, 1967]

Subpart C—Provisions Governing Statements of Employment and Financial Interests

§ 200.735–114 Employees required to submit statements.

Except as provided in § 200.735–114a, the following employees shall submit confidential statements of employment and financial interests:

(a)(1) Employees in grade GS–13 or above under section 5332 of title 5, United States Code, or in comparable or higher positions not subject to that section, other than those employees who are required to file public financial disclosure reports by title II of the Ethics in Government Act of 1978.

(2) The Director of Personnel shall list all such positions, shall include the listing in the chapter of the Commission's Policy Manual pertaining to the filing of confidential statements of employment and financial interests, and shall furnish copies thereof to the Deputy DAEO and to affected employees.

(3) The Director of Personnel shall update the listing required by paragraph (a)(2) of this section and shall take all other steps required by paragraph (a)(2) as of January 1 and July 1 of each year.

(b)(1) Employees classified below GS–13 under section 5332 of title 5, United States Code, or at a comparable pay

level under other authority, other than those employees who are required to file public financial disclosure reports by title II of the Ethics in Government Act of 1978, who are: (i) Responsible for making a decision or taking an action in regard to Commission contracting or procurement, (ii) responsible for conducting investigative and research activities where the decision to be made or action to be taken could have an economic impact on any non-Federal enterprise, or (iii) responsible for exercising the authority of any supervisory or investigative employee in the absence of such employee.

(2) The Director of Personnel, upon obtaining the advice of the General Counsel, shall be responsible for determining which positions below GS–13 meet the criteria of paragraph (b)(1) of this section. The Director of Personnel shall justify his or her determination in writing and shall submit it to the Office of Personnel Management for its approval. Upon obtaining the approval of the Office of Personnel Management, the Director of Personnel shall include the listing of these positions in the chapter of the Commission's Policy Manual pertaining to the filing of confidential statements of employment and financial interests and shall furnish copies thereof to the Deputy DAEO and to affected employees.

(3) The Director of Personnel shall evaluate the determination under paragraph (b)(2) of this section as of January 1 and July 1 of each year. When organizational changes or personnel actions indicate that positions should be either added to or taken from the list of positions which the Director of Personnel has determined meet the criteria of paragraph (b)(1) of this section, the Director of Personnel shall make a new determination under paragraph (b)(2) of this section and shall take all other steps required by paragraph (b)(2) immediately upon the implementation of said organizational changes or personnel actions.

[46 FR 17543, Mar. 19, 1981, as amended at 56 FR 36726, Aug. 1, 1991]

§ 200.735–114a Employees not required to submit statements.

(a) Employees in positions that meet the criteria in paragraphs (b)(1) or (c)(1) of § 200.735–114 of this subpart may be exempted from the reporting requirement of § 200.735–114 if the Director of Personnel, upon obtaining the advice of the General Counsel, determines that:

(1) The duties of a position are such that the likelihood of the incumbent's involvement in a conflict-of-interest situation is remote;

(2) The duties of a position are at such a level of responsibility that the submission of a statement of employment and financial interests is not necessary because of the degree of supervision and review over the incumbent or the inconsequential effect on the integrity of the Government.

(b) All determinations made pursuant to paragraph (a) shall be documented in a writing which shall be annexed to the listings required by paragraphs (b)(2) and (c)(2) of § 200.735–114 of this subpart. The factual bases and reasons for determinations under paragraphs (a)(1) and (a)(2) of this section shall be specified by the Director of Personnel in said writing. Said writing shall refer to the *position* only and shall not include the name, or other identifying particular, of the incumbent occupying the position.

(c) A statement of employment and financial interests from commissioners is not required by this subpart. Such employees are subject to separate reporting requirements under section 401 of Executive Order 11222 (3 CFR 306 (1964–1965 Comp.)).

[42 FR 59958, Nov. 23, 1977]

§ 200.735–114b Employee complaints on filing requirements.

Any employee who believes that his position has been improperly included under the reporting requirements of § 200.735–114 may obtain a review thereof through the Commission's grievance procedures.

[42 FR 59958, Nov. 23, 1977]

§ 200.735–114c Voluntary submission by employees.

Any employee not required to submit a statement of employment and financial interests under the criteria established by § 200.735–114 may submit such a statement to the Deputy Counselor

in the manner specified in § 200.735–116 if he or she so desires.

[42 FR 59958, Nov. 23, 1977]

§ 200.735–115 Forms—Interests not to be reported.

(a) Statements required to be submitted by the provisions of this subpart shall be prepared on forms (the format of which is prescribed by the Office of Government Ethics, Office of Personnel Management) available from the Deputy DAEO.

(b) Employees, GS–15 and below, who are required to file a statement of employment and financial interests under § 200.735–114 of this part, need not report to the Deputy DAEO those financial interests specified in § 200.735–107(c) (1) and (2) of this part. Commissioners and Commission employees, GS–16 and above, are required to report the financial interests specified in § 200.735–107(c) (1) and (2) of this part under section 202(a) of the Ethics in Government Act of 1978.

[44 FR 23823, Apr. 23, 1979, as amended at 56 FR 36726, Aug. 1, 1991]

§ 200.735–116 Time and place for submission of employees' statements.

(a) An employee required to submit such a statement shall submit it not later than:

(1) Ninety days after the effective date of the regulations in this part, if employed on or before that effective date; or

(2) Thirty days after his entrance on duty, but not earlier than ninety days after the effective date, if appointed after the effective date.

(b) Each such statement shall be submitted to the Office of the General Counsel of the Commission and shall be marked ''Submitted in Confidence to the Deputy DAEO.'': *Provided*, That the statement of the Deputy DAEO shall be submitted directly to the DAEO.

[31 FR 2593, Feb. 10, 1966, as amended at 56 FR 36726, Aug. 1, 1991]

§ 200.735–117 Supplementary statements.

Changes in, or additions to, the information contained in an employee's statement of employment and financial interests shall be reported in a supplementary statement as of June 30 each year. If no changes or additions occur, a negative report is required. Notwithstanding the filing of the annual report under this section, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts of interest provisions of section 208 of title 18, United States Code, or the regulations in this part.

[32 FR 16211, Nov. 28, 1967]

§ 200.735–118 Interests of employees' relatives.

The interest of a spouse, minor child or other member of an employee's immediate household is considered to be an interest of the employee. For the purpose of this section, *member of an employee's immediate household* means those blood relations who are residents of the employee's household.

§ 200.735–119 Information not known by employees.

If any information required to be included in a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information on his behalf.

§ 200.735–120 Information prohibited.

An employee is not required to submit in a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or similar organization not conducted as a business enterprise. For the purpose of this section, educational and other institutions doing research and development or related work involving grants of money from, or contracts with, the Government are deemed *business enterprises* and are required to be included in an employee's statement of employment and financial interests.

§ 200.735–121 Confidentiality of employees' statements.

Each statement of employment and financial interests, and each supplementary statement, shall be held in confidence. To ensure this confidentiality, the Deputy DAEO is authorized to review and retain the statements. He shall be responsible for maintaining the statements in confidence and shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this part. The Deputy DAEO may not disclose information from the statement except as the Civil Service Commission or the Chairman of the Tariff Commission may determine for good cause shown.

[32 FR 16211, Nov. 28, 1967, as amended at 56 FR 36726, Aug. 1, 1991]

§ 200.735–122 Special Government employees.

(a) Except as provided in paragraph (b) of this section, each special Government employee shall submit a statement of employment and financial interests which reports:

(1) All of his employment; and

(2) The financial interests of the special Government employee which the Commission determines are relevant in the light of the duties he is to perform.

(b) The Commission may waive the requirement in paragraph (a) of this section for the submission of a statement of employment and financial interests in the case of a special Government employee who is not a consultant or an expert when the Commission finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purpose of this paragraph, *consultant* and *expert* have the meanings given those terms by Chapter 304 of the Federal Personnel Manual.

(c) A statement of employment and financial interests required to be submitted under this section shall be submitted as provided for employees in § 200.735–116. Each special Government employee shall keep his statement current throughout his employment with the Commission by the submission of supplementary statements.

[31 FR 2593, Feb. 10, 1966, as amended at 32 FR 16211, Nov. 28, 1967]

§ 200.735–123 Effect of employees' and special Government employees' statements on other requirements.

The statements of employment and financial interests and supplementary statements required of employees and special Government employees are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee or special Government employee does not permit him or any other person to participate in a matter which his or the other person's participation in is prohibited by law, order, or regulation.

Subpart D—Provisions for Administrative Enforcement of Postemployment Conflict of Interest Restrictions

AUTHORITY: Ethics in Government Act of 1978, Pub. L. 95–521, 92 Stat. 1864 (18 U.S.C. 207), as amended by Pub. L. 96–28, 93 Stat. 76 (1979); 45 FR 7402, (1979) (5 CFR part 737).

SOURCE: 45 FR 31988, May 15, 1980, unless otherwise noted.

§ 200.735–124 General.

The procedures in this subpart are established pursuant to subsection 207(j) of title 18, United States Code, for the administrative enforcement of the restrictions on postemployment activities in Title V of the Ethics in Government Act of 1978 (18 U.S.C. 207 (a), (b), and (c)) and implementing regulations published by the Office of Government Ethics (5 CFR part 737). Subsections 207 (a), (b), and (c) of Title 18, United States Code, prohibit certain forms of representational activity or communications by former Commission employees.

§ 200.735–125 Exemption from restrictions.

(a) *Scientific and technological information solicited by the Commission.* Communications of a former Commission employee solely for the purpose of furnishing scientific or technological information solicited by the Commission in the course of its statutory investigations are exempted from the restrictions on postemployment practices.

(b) *Exemption for persons with special qualifications in a technical discipline*—(1) *Applicability.* A former Commission employee may be exempted from the restrictions on postemployment practices if the Chairman, in consultation with the Director, Office of Government Ethics (the Director), executes a certification published in the FEDERAL REGISTER that the former Commission employee has outstanding qualifications in a scientific, technological, or other technical discipline; that the former Commission employee is acting with respect to a particular matter which requires such qualifications; and that the national interest would be served by the former Commission employee's participation.

(2) *Certification authority.* Certification shall be by the Chairman, or in the absence thereof, by the acting head of the Commission. Consultation with the Director shall precede any certification. The exemption is effective upon the execution of the certification. The Secretary shall immediately transmit the certification to the FEDERAL REGISTER for publication.

(c) *Testimony and statement under oath are subject to penalty of perjury*—(1) *Applicability.* A former Commission employee may testify before any court, board, commission, or legislative body with respect to matters of fact within the personal knowledge of the former Commission employee. This provision does not, however, allow a former Commission employee, otherwise barred under 18 U.S.C. 207 (a), (b), or (c), to testify on behalf of another as an expert witness except (i) to the extent that the former employee may testify from personal knowledge as to occurrences which are relevant to the issues in the proceeding, including those in which the Commission employee participated, utilizing his or her expertise, or (ii) in any proceeding where it is determined that another expert in the field cannot practically be obtained, that it is impracticable for the facts or opinions on the same subject to be obtained by other means, and that the former Commission employee's testimony is required in the interest of justice.

(2) *Statements under penalty of perjury.* A former Commission employee may make any statements required to be made under penalty of perjury, such as those required in registration statements for securities, tax returns, or security clearances. The exception does not, however, permit a former employee to submit pleadings, applications, or other documents in a representational capacity on behalf of another merely because the attorney or other representative must sign the documents under oath or penalty of perjury.

§ 200.735–126 Administrative enforcement proceedings.

The following are basic guidelines for administrative enforcement of restrictions on postemployment activities:

(a) *Initiation of administrative disciplinary hearing.* (1) On receipt of information regarding a possible violation of 18 U.S.C. 207, and after determining that such information does not appear to be frivolous, the Chairman shall expeditiously provide such information, along with any comments or agency regulations, to the Director and to the Criminal Division, Department of Justice. Any investigation or administrative action will be coordinated with the Department of Justice to avoid prejudicing criminal proceedings, unless the Department of Justice informs the Commission that it does not intend to initiate criminal prosecution.

(2) Whenever the Chairman has determined after appropriate review that there is reasonable cause to believe that a former Commission employee has violated 18 U.S.C. 207 (a), (b), or (c) or implementing regulations of the Office of Government Ethics (5 CFR part 737), he or she shall initiate an administrative disciplinary proceeding by providing the former Commission employee with notice as defined in paragraph (b).

(3) The Chairman shall take all necessary steps to protect the privacy of former employees prior to a determination of sufficient cause to initiate an administrative disciplinary hearing.

(b) *Notice.* (1) The Chairman shall provide the former Commission employee with notice of an administrative disciplinary proceeding and an opportunity for a hearing.

(2) Notice to the former Commission employee must include—

(i) A statement of allegations and the basis thereof in detail sufficient to enable the former Commission employee to prepare an adequate defense;

(ii) Notification of the right to a hearing;

(iii) An explanation of the method by which a hearing may be requested; and

(iv) A copy of this subpart.

(c) *Examiner.* (1) The presiding official at proceedings under this subpart shall be an individual to whom the Chairman has delegated authority to make a recommended determination (hereinafter referred to as examiner).

(2) An examiner shall be an experienced government attorney of high moral character and sound judgment.

(3) An examiner shall be impartial. No individual who has participated in any manner in the decision to initiate the proceedings may serve as an examiner in those proceedings.

(d) *Scheduling of hearing.* In setting a hearing date, the examiner shall give due regard to the former Commission employee's need for—

(1) Adequate time to prepare a defense properly, and

(2) An expeditious resolution of allegations that may be damaging to his or her reputation.

(e) *Hearing rights.* A hearing shall include, at a minimum, the following rights:

(1) To be represented by counsel,

(2) To introduce and examine witnesses and to submit physical evidence,

(3) To confront and cross-examine adverse witnesses,

(4) To present oral argument; and

(5) To obtain a transcript or recording of the proceeding on request.

(f) *Burden of proof.* In any hearing under this subpart the Commission has the burden of proof and must establish a violation by clear and convincing evidence. The case of the Commission shall be presented by the Office of the General Counsel.

(g) *Recommended determination.* (1) The examiner shall make a recommended determination exclusively on matters of record in the proceeding and shall set forth therein all findings of fact and conclusions of law relevant to the matters at issue. The recommended determination shall be delivered to the parties.

(2) Within ten (10) days of the date of receipt of the recommended determination either party may submit to the Chairman exceptions to the recommended determination and alternative findings of fact and conclusions of law.

(h) *Final administrative decision.* (1) Within forty (40) days of the date of the recommended determination, the Chairman shall make a final administrative decision based solely on the record of the proceedings.

(2) In the event that no hearing is requested, the Chairman shall make a final administrative decision within forty (40) days of the date notice is provided to the former employee and the record of the proceedings shall consist of the statement of allegations as defined in paragraph (b)(2)(i) and whatever written response the former employee shall provide.

(3) The Chairman shall specify in the final administrative decision the findings of fact and conclusions of law that differ from the recommended determination of the hearing examiner.

(i) *Administrative sanctions.* The Chairman may take appropriate action in the case of any individual who is found in violation of 18 U.S.C. 207(a), (b), or (c) or implementing regulations of the Office of Government Ethics (5 CFR part 737) after a final administrative decision by—

(1) Prohibiting the individual from making, on behalf of any other person (except the United States), any formal or informal appearance before, or, with the intent to influence, any oral or written communication to, the Commission on any matter of business for a period not to exceed five (5) years. This prohibition may be enforced by directing Commission employees to refuse to

participate in any such appearance or to accept any such communication;

(2) Taking other appropriate disciplinary action.

(j) *Judicial review.* Any person found to have participated in a violation of 18 U.S.C. 207(a), (b), or (c) or these regulations may seek judicial review of the administrative determination. Review shall be before the appropriate United States district court.

SUBCHAPTER A—GENERAL

PART 201—RULES OF GENERAL APPLICATION

Subpart H—Debt Collection

AUTHORITY: 19 U.S.C. 1335; 19 U.S.C. 2482, unless otherwise noted.

SOURCE: 27 FR 12118, Dec. 7, 1962, unless otherwise noted.

§ 201.0 Seal.

(a) Pursuant to section 331(g) of the Tariff Act of 1930, as amended (19 U.S.C. 1331(g)), the United States International Trade Commission has adopted an official seal, the depiction of which follows:

(b) Custody and certification obligations. The Secretary shall have custody of the seal of the United States International Trade Commission and he, or the Acting Secretary, may execute under seal any certification required to authenticate any books, records, papers, or other documents as true copies of official records of the United States International Trade Commission.

(Sec. 331(g), Tariff Act of 1930, as amended (19 U.S.C. 1331(g)))

[40 FR 53384, Nov. 18, 1975; 40 FR 55838, Dec. 2, 1975]

§ 201.1 Applicability of part.

This part relates generally to functions and activities of the Commission under various statutes and other legal authority. Rules having special application appear separately in parts 202 through 207, inclusive, and parts 210, 212 and 213, of this chapter. In case of inconsistency between a rule of general application and a rule of special application, the latter is controlling.

[68 FR 32973, June 3, 2003]

Subpart A—Miscellaneous

§ 201.2 Definitions.

As used in this chapter—

(a) *Commission* means the United States International Trade Commission;

(b) *Inspector General* means the Inspector General of the Commission;

(c) *Tariff Act* means the Tariff Act of 1930, 19 U.S.C. 1202–1677j, 1677m–n;

(d) *Trade Expansion Act* means the Trade Expansion Act of 1962, 19 U.S.C. 1801–1991;

(e) *Trade Act* means the Trade Act of 1974, 19 U.S.C. 2101–2487;

(f) *Trade Agreements Act* means the Trade Agreements Act of 1979, Public Law 96–39, 93 Stat. 144;

(g) *Rule* means a section of the Commission Rules of Practice and Procedure (19 CFR chapter II);

(h) *Secretary* means the Secretary of the Commission.

(i) Except for adjudicative investigations under subchapter C of this chapter, *party* means any person who has filed a complaint or petition on the basis of which an investigation has been instituted, or any person whose entry of appearance has been accepted pursuant to § 201.11 (a) or (c). Mere participation in an investigation without an accepted entry of appearance does not confer party status.

(j) *Person* means an individual, partnership, corporation, association, or public or private organization.

[56 FR 11922, Mar. 21, 1991, as amended at 60 FR 37336, July 20, 1995; 68 FR 32973, June 3, 2003]

§ 201.3 Commission offices, mailing address, and hours.

(a) *Offices.* The Commission's offices are located in the United States International Trade Commission Building on 500 E Street SW., Washington, DC.

(b) *Mailing address.* All communications to the Commission should be addressed to the ''Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436.''

(c) *Hours.* The business hours of the Commission are from 8:45 a.m. to 5:15 p.m., eastern standard or daylight savings time, whichever is in effect in Washington, DC. Any document filed with the Secretary of the Commission after 5:15 p.m. will be considered filed the next business day. If filing on that day would be untimely, the filing may not be accepted unless a request is made for acceptance of a late filing for good cause shown pursuant to 201.14(b)(2).

[45 FR 80276, Dec. 4, 1980, as amended at 68 FR 32973, June 3, 2003]

§ 201.3a Missing children information.

(a) Pursuant to 39 U.S.C. 3220, penalty mail sent by the Commission may be used to assist in the location and recovery of missing children. This section establishes procedures for such use and is applicable on a Commission-wide basis. The Commission's Office of Facilities Management, telephone 202–205–2741, shall be the point of contact for matters related to the implementation of this section.

(b) Missing children information shall be inserted in or affixed to such mailings of Commission monthly calendars, notices, press releases, and other documents as the Commission may direct. Such missing children information shall be obtained exclusively from the National Center for Missing and Exploited Children.

(c) The procedure established in subsection (b) above will result in missing childern information being inserted in an estimated 25 percent of the Commission's penalty mail and will cost an estimated $1,500 for the first year of implementation. The Director of Administration shall make such changes in the procedure as he deems appropriate to maximize the use of missing children information in the Commission's mail.

[51 FR 25195, July 11, 1986, as amended at 68 FR 32974, June 3, 2003]

§ 201.4 Performance of functions.

(a) *Conduct of business.* A majority of the members of the Commission constitutes a quorum. The Commission may meet and exercise its powers at any place, and may, by one or more of its members, or by such agents as it may designate, prosecute any inquiry necessary to its duties in any part of the United States or in any foreign country.

(b) *Alteration or waiver of rules.* Rules in this chapter may be amended, waived, suspended, or revoked by the Commission only. A rule may be waived or suspended only when in the judgment of the Commission there is good and sufficient reason therefor, provided the rule is not a matter of procedure required by law.

(c) *Authority to make decisions.* Authority to interpret the Commission's rules and the laws applying to the Commission, and to make findings, determinations, or other decisions not relating to matters of internal management, is retained in the Commission itself and is not delegated.

(d) Presentation of matter that may come within the purview of other laws. Whenever any party or person, including the Commission staff, has reason to believe that (1) a matter under investigation pursuant to section 337 of the Tariff Act of 1930, or (2) a matter under an investigation pursuant to section 202 of the Trade Act of 1974 (19 U.S.C. 2252), which is causing increased imports may come within the purview of another remedial provision of law not the basis of such investigation, including but not limited to the antidumping provisions (19 U.S.C. 1673 *et seq.*) or the countervailing duty provisions (19 U.S.C. 1671 *et seq.*) of the Tariff Act of 1930, then the party or person may file a suggestion of notification with the Commission that the appropriate agency be notified of such matter or circumstances, together with such information as the party or person has available. The Secretary shall promptly thereafter publish notice of the filing of such suggestion and information, and make them available for inspection and copying to the extent permitted by law. Any person may comment on the suggestion within 10 days after the publication of said notice.

Thereafter, the Commission shall determine whether notification is appropriate under the law and, if so, shall notify the appropriate agency of such matters or circumstances. The Commission may at any time make such notification in the absence of a suggestion under this rule when the Commission has reason to believe, on the basis of information before it, that notification is appropriate under law.

[27 FR 12118, Dec. 7, 1962, as amended at 45 FR 80276, Dec. 4, 1980; 68 FR 32974, June 3, 2003]

§ 201.5 Attendance fees and mileage.

(a) *Deponents and witnesses.* Any person compelled to appear in person to depose or testify in response to a subpoena shall be paid the same fees and mileage as are paid witnesses in the courts of the United States: Provided, that salaried employees of the United States summoned to depose or testify as to matters related to their public employment, irrespective of at whose instance they are summoned, shall be paid in accordance with applicable Government regulations.

(b) *Responsibility.* The fees and mileage referred to in this section shall be paid by the party at whose instance deponents or witnesses appear: Provided, that when it is the Commission, one or more Commissioners, or one of its employees at whose instance deponents or witnesses appear, such fees and mileage shall be paid by the Commission.

[41 FR 17710, Apr. 27, 1976]

§ 201.6 Confidential business information.

(a) *Definitions*—(1) *Confidential business information* is information which concerns or relates to the trade secrets, processes, operations, style of works, or apparatus, or to the production, sales, shipments, purchases, transfers, identification of customers, inventories, or amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation, or other organization, or other information of commercial value, the disclosure of which is likely to have the effect of either impairing the Commission's ability to obtain such information as is necessary to perform its statutory functions, or causing substantial harm to the competitive position of the person, firm, partnership, corporation, or other organization from which the information was obtained, unless the Commission is required by law to disclose such information. The term ''confidential business information'' includes ''proprietary information'' within the meaning of section 777(b) of the Tariff Act of 1930 (19 U.S.C. 1677f(b)). Nonnumerical characterizations of numerical confidential business information (e.g., discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

(2) *Nondisclosable confidential business information* is privileged information, classified information, or specific information (*e.g.,* trade secrets) of a type for which there is a clear and compelling need to withhold from disclosure. Special rules for the handling of such information are set out in § 206.17 and § 207.7 of this chapter.

(b) *Procedure for submitting business information in confidence.* (1) A request for confidential treatment of business information shall be addressed to the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall indicate clearly on the envelope that it is a request for confidential treatment.

(2) In the absence of good cause shown, any request relating to material to be submitted during the course of a hearing shall be submitted at least three (3) working days prior to the commencement of such hearing.

(3) With each submission of, or offer to submit, business information which a submitter desires to be treated as confidential business information, under paragraph (a) of this section, the submitter shall provide the following, which may be disclosed to the public:

(i) A written description of the nature of the subject information;

(ii) A justification for the request for its confidential treatment;

(iii) A certification in writing under oath that substantially identical information is not available to the public;

(iv) A copy of the document

(A) Clearly marked on its cover as to the pages on which confidential information can be found;

(B) With information for which confidential treatment is requested clearly identified by means of brackets; and

(C) With information for which nondisclosable confidential treatment is requested clearly identified by means of triple brackets (except when submission of such document is withheld in accord with paragraph (b)(4) of this section); and

(v) A nonconfidential copy of the documents as required by § 201.8(d).

(4) The submission of the documents itemized in paragraph (b)(3) of this section will provide the basis for rulings on the confidentiality of submissions, including rulings on the confidentiality of submissions offered to the Commission which have not yet been placed under the possession, control, or custody of the Commission. The submitter has the option of providing the business information for which confidential treatment is sought at the time the documents itemized in paragraph (b)(3) of this section are provided or of withholding them until a ruling on their confidentiality has been issued.

(c) *Identification of business information submitted in confidence.* Business information which a submitter desires to be treated as confidential shall be clearly labeled ''confidential business information'' when submitted, and shall be segregated from other material being submitted.

(d) *Approval or denial of requests for confidential treatment.* Approval or denial of requests shall be made only by the Secretary or Acting Secretary. An approval or a denial of a request for confidential treatment shall be in writing. A denial shall specify the reason therefor, and shall advise the submitter of the right to appeal to the Commission.

(e) *Appeals from denial of confidential treatment.* (1) For good cause shown, the Commission may grant an appeal from a denial by the Secretary of a request for confidential treatment of a submission. Any appeal filed shall be addressed to the Chairman, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall clearly indicate that it is a confidential submission appeal. An appeal may be made within twenty (20) days of a denial or whenever the approval or denial has not been forthcoming within ten (10) days (excepting Saturdays, Sundays, and Federal legal holidays) of the receipt of a confidential treatment request, unless an extension notice in writing with the reasons therefor has been provided the person requesting confidential treatment.

(2) An appeal will be decided within twenty (20) days of its receipt (excepting Saturdays, Sundays, and Federal legal holidays) unless an extension notice in writing with the reasons therefor, has been provided the person making the appeal.

(3) The justification submitted to the Commission in connection with an appeal shall be limited to that presented to the Secretary with the original or amended request. When the Secretary or Acting Secretary has denied a request on the ground that the submitter failed to provide adequate justification, any such additional justification shall be submitted to the Secretary for consideration as part of an amended request. For purposes of paragraph (e)(1) of this section, the twenty (20) day period for filing an appeal shall be tolled on the filing of an amended request and a new twenty (20) day period shall begin once the Secretary or Acting Secretary has denied the amended request, or the approval or denial has not been forthcoming within ten (10) days of the filing of the amended request. A denial of a request by the Secretary on the ground of inadequate justification shall not obligate a requester to furnish additional justification and shall not preclude a requester from filing an appeal with the Commission based on the justification earlier submitted to the Secretary.

(f) *Appeals from approval of confidential treatment.* (1) For good cause shown, the Commission may grant an appeal from an approval by the Secretary of a request for confidential treatment of a submission. Any appeal filed shall be addressed to the Chairman, United States International Trade Commission, 500 E Street, SW., Washington, DC 20436, shall show that a copy thereof has been served upon the submitter, and shall clearly indicate that it is a

confidential submission appeal. An appeal may be made within twenty (20) days of the approval by the Secretary of a request for confidential treatment or whenever the approval or denial has not been forthcoming within ten (10) days (excepting Saturdays, Sundays, and Federal legal holidays) of the receipt of a confidential treatment request, unless an extension notice in writing with the reasons therefor has been provided the person requesting confidential treatment.

(2) An appeal will be decided within twenty (20) days of its receipt (excepting Saturdays, Sundays, and Federal legal holidays) unless an extension notice, in writing with the reasons therefor, has been provided the person making the appeal.

(g) *Granting confidential status to business information*. Any business information submitted in confidence and determined to be entitled to confidential treatment shall be maintained in confidence by the Commission and not disclosed except as required by law. In the event that any business information submitted to the Commission is not entitled to confidential treatment, the submitter will be permitted to withdraw the tender within five days of its denial of confidential treatment unless it is the subject of a request under the Freedom of Information Act or of judicial discovery proceedings. After such five day period, the business information deemed not entitled to confidential treatment, and not withdrawn, will be treated as public information.

(h) *Scope of provisions*. The provisions of §§ 201.6(b) and 201.6 (d) through (g) shall not apply to adjudicative investigations under subchapter C, part 210, of the Commission's rules of practice and procedure.

[41 FR 28951, July 14, 1976, as amended at 49 FR 32571, Aug. 15, 1984; 54 FR 13678, Apr. 5, 1989; 61 FR 37827, July 22, 1996; 68 FR 32974, June 3, 2003]

Subpart B—Initiation and Conduct of Investigations

§ 201.7 Investigative authority and initiation of investigations.

(a) *Investigative authority*. In order to expedite the performance of its functions, the Commission may engage in investigative activities preliminary to and in aid of any authorized investigation, consolidate proceedings before it, and determine the scope and manner of its proceedings;

(b) *Initiation of investigations*. Investigations may be initiated by the Commission on the Commission's own motion, upon request of the President or the United States Trade Representative, upon resolution of the Committee on Ways and Means of the House of Representatives or the Committee of Finance of the Senate, upon resolution of either branch of Congress, or upon application, petition, complaint, or request of private parties, as required or provided for in the pertinent statute, Presidential proclamation, Executive Order, or in this chapter.

[44 FR 76476, Dec. 26, 1979, as amended at 63 FR 29351, May 29, 1998]

§ 201.8 Filing of documents.

(a) *Applicability; where to file; date of filing*. This section applies to all Commission proceedings except, notwithstanding any other section of this chapter, those conducted under 19 U.S.C. 1337, which are covered by requirements set out in part 210 of this chapter. Documents shall be filed at the office of the Secretary of the Commission in Washington, DC. Such documents, if properly filed within the hours of operation specified in § 201.3(c), will be deemed to be filed on the date on which they are actually received in the Commission.

(b) *Conformity with rules*. Each document filed with the Commission for the purpose of initiating any investigation shall be considered properly filed if it conforms with the pertinent rules prescribed in this chapter. Substantial compliance with the pertinent rules may be accepted by the Commission provided good and sufficient reason is stated in the document for inability to comply fully with the pertinent rules.

(c) *Specifications for documents*. Each document filed under this chapter shall be signed, double-spaced, clear and legible, except that a document of two pages or less in length need not be double-spaced. All submissions shall be in letter-sized format (8.5 × 11 inches), except copies of documents prepared for

another agency or a court (e.g. pleadings papers), and single sided. The name of the person signing the original shall be typewritten or otherwise reproduced on each copy.

(d) *Filing.* (1) Except as provided in paragraphs (d)(2) through (6) and (f) of this section, all documents filed with the Commission shall be filed electronically. Completion of filing requires the submission of paper copies by 12 noon, Eastern time, on the next business day. A paper copy provided for in this section must be a true copy of the electronic version of the document, *i.e.*, a copy that is identical in all possible respects. All paper copies of electronic submissions exceeding fifty (50) pages in length must have a divider page and an identifying tab preceding each exhibit and/or attachment. The divider page and/or tab must be labeled with a letter or number that corresponds to a more fully descriptive index. All filings shall comply with the procedures set forth in the Commission's Electronic Document Information System Web site at *https://edis.usitc.gov*. Failure to comply with the requirements of this chapter and the Handbook on Filing Procedures that apply to the filing of a document may result in the rejection of the document as improperly filed.

(2) Briefs, statements, responses, comments, and requests filed pursuant to § 201.12, § 201.14, § 206.8, § 207.15, § 207.23, § 207.25, § 207.28, § 207.30, § 207.61, § 207.62, § 207.65, § 207.67, or § 207.68 of this chapter shall be filed electronically and the requisite number of true paper copies of these documents shall be submitted to the Commission in accordance with the provisions of the applicable section.

(3) Petitions and requests filed under § 206.2 or § 207.10 of this chapter shall be filed in paper form and exhibits, appendices, and attachments to the documents shall be filed in electronic form on CD–ROM, DVD or other portable electronic media approved by the Secretary in accordance with the provisions of the applicable section. Submitted media will be retained by the Commission, except that media may be returned to the submitter if a document is not accepted for filing.

(4) Supplementary material and witness testimony provided for under § 201.13, § 207.15, or § 207.24 of this chapter shall be filed in paper form in accordance with the provisions of the applicable section.

(5) Certain documents filed under § 201.4 of this chapter and applications for administrative protective orders filed under §§ 206.17 and 207.7 of this chapter shall only be filed electronically; no paper copies will be required.

(6) The Secretary may provide for exceptions and modifications to the filing requirements set out in this chapter. A person seeking an exception should consult the Handbook on Filing Procedures.

(7) During any period in which the Commission is closed, deadlines for filing documents electronically and by other means are extended so that documents are due on the first business day after the end of the closure.

(e) *Identification of party filing document.* Each document filed with the Commission for the purpose of initiating any investigation shall show on the first page thereof the name, address, and telephone number of the party or parties by whom or on whose behalf the document is filed and shall be signed by the party filing the document or by a duly authorized officer, attorney, or agent of such party. (Also, any attorney or agent filing the document shall give his address and telephone number.) The signature of the person signing such a document constitutes a certification that he had read the document, that to the best of his knowledge and belief the statements contained therein are true, and that the person signing the document was duly authorized to sign it.

(f) *Nonconfidential copies.* In the event that confidential treatment of a document is requested under § 201.6(b), a nonconfidential version of the document shall be filed, in which the confidential business information shall have been deleted and which shall have been conspicuously marked ''nonconfidential'' or ''public inspection.''' The nonconfidential version shall be filed electronically, and two (2) true paper copies shall be submitted on the same business day as this electronic filing, except as provided in § 206.8 or § 207.3 of

this chapter. In the event that confidential treatment is not requested for a document under §201.6(b), the document shall be conspicuously marked ''No confidential version filed,'' and the document shall be filed in accordance with paragraph (d) of this section. The name of the person signing the original shall be typewritten or otherwise reproduced on each copy.

(g) *Cover sheet.* When making a paper filing, parties must complete the cover sheet on-line at *http://edis.usitc.gov* and print out the cover sheet for submission to the Office of the Secretary with the paper filing. For documents that are filed electronically, parties must complete the cover sheet for such filing on-line at *http://edis.usitc.gov* at the time of the electronic filing. The party submitting the cover sheet is responsible for the accuracy of all information contained in the cover sheet, including, but not limited to, the security status and the investigation number, and must comply with applicable limitations on disclosure of business proprietary information or confidential information under §201.6 and §§206.8, 206.17, 207.3, and 207.7 of this chapter.

[41 FR 17710, Apr. 27, 1976, as amended at 49 FR 32571, Aug. 15, 1984; 56 FR 11922, Mar. 21, 1991; 67 FR 68037, Nov. 8, 2002; 68 FR 32974, June 3, 2003; 76 FR 61941, Oct. 6, 2011; 79 FR 35924, June 25, 2014]

§201.9 Methods employed in obtaining information.

In obtaining information necessary to carry out its functions and duties, the Commission may employ any means authorized by law. In general, the Commission obtains pertinent information from its own files, from other agencies of the Government, through questionnaires and correspondence, through field work by members of the Commission's staff, and from testimony and other information presented at the hearings.

[27 FR 12118, Dec. 7, 1962, as amended at 44 FR 76476, Dec. 26, 1979]

§201.10 Public notices.

As appropriate, notice of the receipt of documents properly filed, of the institution of investigations, of public hearings, and of other formal actions of the Commission will be given by publication in the FEDERAL REGISTER. In addition to such publication, a copy of each notice will be posted at the Office of the Secretary to the Commission in Washington, DC, and, as appropriate, copies will be sent to press associations, trade and similar organizations of producers and importers, and others known to have an interest in the subject matter.

[63 FR 29347, May 29, 1998]

§201.11 Appearance in an investigation as a party.

(a) *Who may appear as a party.* Any person may apply to appear in an investigation as a party, either in person or by representative, by filing an entry of appearance with the Secretary. Each entry of appearance shall state briefly the nature of the person's reason for participating in the investigation and state the person's intent to file briefs with the Commission regarding the subject matter of the investigation. The Secretary shall promptly determine whether the person submitting the entry of appearance has a proper reason for participating in the investigation. In any investigation conducted under part 207 of this chapter, industrial users, and if the merchandise under investigation is sold at the retail level, representative consumer organizations, will be deemed to have a proper reason for participating in the investigation. If it is found that a person does not have a proper reason for participating in the investigation, that person shall be so notified by the Secretary and shall not be entitled to appear in the investigation as a party. A person found to have a proper reason for participating in the investigation shall be permitted to appear in the investigation as a party, and acceptance of such person's entry of appearance shall be signified by the Secretary's inclusion of such person on the service list established pursuant to paragraph (d) of this section.

(b) *Time for filing.* (1) Except in the case of investigations conducted under part 207 of this chapter, each entry of appearance shall be filed with the Secretary not later than twenty-one (21) days after publication of the Commission's notice of investigation in the FEDERAL REGISTER.

(2) In the case of investigations conducted under subpart B of part 207 of this chapter, each entry of appearance shall be filed with the Secretary not later than seven (7) days after publication of the Commission's notice of investigation in the FEDERAL REGISTER. A party that files a notice of appearance during such time need not file an additional notice of appearance during the portion of the investigation conducted under subpart C of part 207 of this chapter.

(3) Notwithstanding paragraph (b)(2) of this section, a party may file an entry of appearance during the final phase of an investigation conducted under part 207 of this chapter no later than twenty-one (21) days prior to the hearing date listed in the FEDERAL REGISTER notice published pursuant to § 207.24(b) of this chapter.

(4) In the case of reviews conducted under subpart F of part 207 of this chapter, each entry of appearance shall be filed with the Secretary not later than twenty-one (21) days after publication in the FEDERAL REGISTER of the notice of institution described in § 207.60(d) of this chapter.

(5) Notwithstanding paragraph (b)(4) of this section, a party may file an entry of appearance in a review conducted under subpart F of part 207 of this chapter within the period specified in the notice issued under § 207.62(c) of this chapter. This period shall be at least 45 days.

(c) *Late filing.* Any entry of appearance filed with the Secretary after the filing date established in paragraph (b) of this section shall be referred to the Chairman, or other person designated to conduct the investigation, who shall promptly determine whether to accept such entry for good cause shown by the person desiring to file the notice. The Secretary shall promptly notify the submitter of a decision to deny the entry, or if the entry is accepted, include such person on the service list established pursuant to paragraph (d) of this section.

(d) *Service list.* Upon the expiration of the time for filing notices of appearance established in paragraph (b) of this section, the Secretary shall prepare a service list. The service list shall contain the names and addresses of all persons, or their representatives, who are parties to the investigation pursuant to § 201.2(h) and paragraph (a) of this section. Upon the acceptance of a late entry of appearance pursuant to paragraph (c) of this section, the Secretary shall amend the service list to include the name and address of the person whose notice has been accepted and shall promptly forward such notice to all parties to the investigation.

[56 FR 11922, Mar. 21, 1991, as amended at 61 FR 37828, July 22, 1996; 63 FR 30607, June 5, 1998]

§ 201.12 Requests.

Any party to a nonadjudicative investigation may request the Commission to take particular action with respect to that investigation. Such requests shall be made by letter addressed to the Secretary, shall be placed by him in the record, and shall be served on all other parties. Such request shall be filed electronically and two (2) true paper copies shall be submitted on the same business day. The Commission shall take such action or make such response as it deems appropriate.

[76 FR 61941, Oct. 6, 2011]

§ 201.13 Conduct of nonadjudicative hearings.

(a) *In general.* Public hearings are held by the Commission when required by law or, if not required by law, when in the judgment of the Commission there is good and sufficient reason therefor. Public hearings will be held at the time and place specified in notices issued under § 201.10. Public hearings are ordinarily held in the Hearing Room of the International Trade Commission Building, in Washington, DC, but may be held elsewhere at the Commission's discretion.

(b) *Presiding officials*—(1) *Who presides.* Public hearings or conferences in nonadjudicative investigations will be conducted by the Commission or by one or more Commissioners. When the Commission deems it necessary, such hearings will be conducted by one or more designated employees. In all cases the transcript of the testimony at a hearing will be presented for the consideration of the Commission.

(2) *Powers and duties.* The Commission, one or more of the Commissioners, or one or more designated employees shall have all the powers to conduct fair and impartial hearings, to take necessary action to avoid delay in the disposition of proceedings, including the prescription of time allocated to testimony, argument, and questioning, to regulate the course of hearings and the conduct of the parties and their counsel therein, and to maintain order.

(c) *Participation in a hearing*—(1) *Who may participate.* A party may participate in the hearing, either in person or by representative. A nonparty who has testimony or arguments that may aid the Commission's deliberations may also participate, under such conditions as may be established by the presiding officials at the hearing.

(2) *Notices of participation.* Notices of participation in a hearing shall be filed with the Secretary at least three (3) days in advance of the date set for the hearing or two (2) days in advance of the date set in the notice of investigation for a prehearing conference, whichever shall first occur, except that the presiding officials may waive this requirement for good cause. Witnesses on behalf of persons filing notices of participation need not file separate notices.

(d) *Witness list.* Each person who files a notice of participation pursuant to paragraph (c) of this section shall simultaneously file with the Secretary a list of the witnesses he intends to call at the hearing.

(e) *Order of the testimony.* Unless otherwise ordered by the presiding officials, witnesses will give testimony in the order designated by the Secretary to the Commission. Each witness, after being duly sworn, will be permitted to proceed with his or her testimony without interruption except by presiding officials.

(f) *Supplementary material.* A party to the investigation may file with the Secretary supplementary material, other than remarks read into the record, for acceptance into the record. The party shall file any such material with the Secretary at the hearing. Supplementary materials must be marked with the name of the organization submitting it. As used herein, the term *supplementary material* refers to (1) additional graphic material such as charts and diagrams used to illuminate an argument or clarify a position and (2) information not available to a party at the time its prehearing brief was filed.

(g) *Questioning of witnesses.* After completing testimony, a witness may be questioned by any member of the Commission or by its staff. Any participant may, with the permission of the presiding officials, direct questions to the witness, but only for the purpose of assisting the Commission in obtaining relevant and material facts with respect to the subject matter of the investigation.

(h) *Oral argument.* When, in the opinion of the presiding officials, time permits and the nature of the proceedings and the complexity or importance of the questions of fact or law involved warrant, the presiding officials may allow oral argument after conclusion of the testimony in a hearing. The presiding officials will determine in each instance the time to be allowed for argument and the allocation thereof.

(i) *Briefs*—(1) *Parties.* Briefs of the information produced at the hearing and arguments thereon may be presented to the Commission by parties to the investigation. Time to be allowed for submission of briefs will be set after conclusion of testimony and oral argument, if any.

(2) *Nonparties.* Any person who is not a party to an investigation may submit a short statement for the record regarding the subject matter of an investigation.

(j) *Verification of testimony.* Oral or written information submitted at hearings will, upon order of the Commission, be subject to verification from books, papers, and records of the persons submitting the information and from any other available sources.

(k) *Hearing transcripts.* A verbatim transcript of all hearings will be taken. The Commission does not distribute transcripts of the records of such hearings. Any person may inspect the transcript of a hearing at the Commission's office in Washington, DC, or purchase it from the official reporter.

(l) To facilitate the conduct of hearings, parties intending to use easels, audio visual, and similar equipment in the course of hearing presentations should advise the Secretary of their intent to use such equipment at least three (3) working days before the hearing.

(m) *Closed sessions.* (1) Upon a request filed by a party to the investigation no later than seven (7) days prior to the date of the hearing (or three (3) days prior to the date of a conference conducted under § 207.15 of this chapter) that

(i) Identifies the subjects to be discussed;

(ii) Specifies the amount of time requested; and

(iii) Justifies the need for a closed session with respect to each subject to be discussed, the Commission (or the Director, as defined in § 207.2(c) of this chapter, for a conference under § 207.15 of this chapter) may close a portion of a hearing (or conference under § 207.15 of this chapter) held in any investigation in order to allow such party to address confidential business information, as defined in § 201.6, during the course of its presentation.

(2) In addition, during each hearing held in an investigation conducted under section 202 of the Trade Act, as amended, or in an investigation under title VII of the Tariff Act as provided in § 207.24 of this chapter, following the public presentation of the petitioner(s) and that of each panel of respondents, the Commission will, if it deems it appropriate, close the hearing in order to allow Commissioners to question parties and/or their representatives concerning matters involving confidential business information.

[47 FR 6189, Feb. 10, 1982, as amended at 47 FR 33682, Aug. 4, 1982; 54 FR 13678, Apr. 5, 1989; 59 FR 66722, Dec. 28, 1994; 61 FR 37829, July 22, 1996; 68 FR 32975, June 3, 2003]

§ 201.14 Computation of time, additional hearings, postponements, continuances, and extensions of time.

(a) *Computation of time.* Computation of any period of time prescribed or allowed by the rules in this chapter, by order of the Commission, or by order of the presiding officer under part 210 of this chapter shall begin with the first business day following the day on which the act or event initiating such period of time shall have occurred. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or Federal legal holiday, in which event the period runs until the end of the next business day. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and Federal legal holidays shall be excluded from the computation. As used in this rule, a Federal legal holiday refers to any full calendar day designated as a legal holiday by the President or the Congress of the United States. In the event of an early or all-day closing of the Commission on a business day, the Secretary is authorized to accept on the next full business day filings due the day of the early or all-day closing, without requiring the granting of an extension of time by the Chairman of the Commission, or such other person designated to conduct the investigation.

(b) *Additional hearings, postponements, continuances, and extensions of time.* (1) Prior to its final determination in any investigation, the Commission may in its discretion for good cause shown grant additional hearings, postponements, or continuances of hearings.

(2) The Chairman of the Commission or such other person as is designated to conduct the investigation shall determine whether to grant for good cause shown extensions of time for performing any act required by or pursuant to the rules contained in this chapter.

(3) A request that the Commission take any of the actions described in this section shall be filed with the Secretary and served on all parties to the investigation. Such request shall be filed electronically and two (2) true paper copies shall be submitted on the same business day.

[41 FR 17710, Apr. 27, 1976, as amended at 56 FR 11923, Mar. 21, 1991; 68 FR 32975, June 3, 2003; 76 FR 61941, Oct. 6, 2011]

§ 201.15 Attorneys or agents.

(a) *In general.* No register of attorneys or agents who may practice before the Commission is maintained. No application for admission to practice is

required. Any person desiring to appear as attorney or agent before the Commission may be required to show to the satisfaction of the Commission his acceptability in that capacity. Any attorney or agent practicing before the Commission, or desiring so to practice, may for good cause shown be suspended or barred from practicing before the Commission, or have imposed on him such lesser sanctions as the Commission deems appropriate, but only after he has been accorded an opportunity to present his views in the matter.

(b) *Former officers or employees.* No former officer or employee of the Commission who personally and substantially participated in a matter which was pending in any manner or form in the Commission during his employment shall be eligible to appear before the Commission as attorney or agent in connection with such matter. No former officer or employee of the Commission shall be eligible to appear as attorney or agent before the Commission in connection with any matter which was pending in any manner or form in the Commission during his employment, unless he first obtains written consent from the Commission.

[27 FR 12118, Dec. 7, 1962, as amended at 56 FR 11923, Mar. 21, 1991]

§ 201.16 Service of process and other documents.

(a) *By the Commission.* Except when service by another method shall be specifically ordered by the Commission, the service of a process or other document of the Commission shall be served by anyone duly authorized by the Commission and be effected—

(1) By mailing, delivering, or serving by electronic means a copy of the document to the person to be served, to a member of the partnership to be served, to the president, secretary, other executive officer, or member of the board of directors of the corporation, association, or other organization to be served, or, if an attorney represents any of the above before the Commission, by mailing, delivering, or serving by electronic means a copy to such attorney; or

(2) By leaving a copy thereof at the principal office of such person, partnership, corporation, association, or other organization, or, if an attorney represents any of the above before the Commission, by leaving a copy at the office of such attorney.

(3) By using an express delivery service to send a copy of the document to the principal office of such person, partnership, corporation, association, or other organization, or, if an attorney represents any of the above before the Commission, by serving the attorney by express delivery.

(4) When service is by mail, it is complete upon mailing of the document. When service is by an express service, service is complete upon submitting the document to the express delivery service or depositing it in the appropriate container for pick-up by the express delivery service. When service is by electronic means, service is complete upon transmission of a notification that the document has been placed in an appropriate repository for retrieval by the person, organization, representative, or attorney being served, unless the Commission is notified that the notification was not received by the party served.

(b) *By a party other than the Commission.* Except when service by another method shall be specifically ordered by the Commission, the service of a document of a party shall be effected:

(1) By mailing or delivering a copy of a nonconfidential version of the document to each party, or, if the party is represented by an attorney before the Commission, by mailing or delivering a nonconfidential version thereof to such attorney; or

(2) By leaving a copy thereof at the principal office of each other party, or, if a party is represented by an attorney before the Commission, by leaving a copy at the office of such attorney.

(3) When service is by mail, it is complete upon mailing of the document.

(4) When service is by mail, it shall be by first class mail, postage prepaid. In the event the addressee is outside the United States, service shall be by first class airmail, postage prepaid.

(c) *Proof of service; certificate.* (1) Each document filed with the Secretary to the Commission by a party in the course of an investigation (as provided in § 201.8 of this part) shall be served on each other party to the investigation

(as provided in § 210.4(i) of this chapter for investigations under 19 U.S.C. 1337).

(2) Each document served by a party shall include a certificate of service, setting forth the manner and date of such service. The certificate of service shall be deemed proof of service of the document. In the event a document is not accompanied by a certificate of service, the Secretary shall not accept such document for filing and shall promptly notify the submitter.

(d) *Additional time after service by mail.* Whenever a party or Federal agency or department has the right or is required to perform some act or take some action within a prescribed period after the service of a document upon it and the document is served upon it by mail, three (3) calendar days shall be added to the prescribed period, except that when mailing is to a person located in a foreign country, ten (10) calendar days shall be added to the prescribed period.

(e) *Additional time after service by express delivery.* Whenever a party or Federal agency or department has the right or is required to perform some act or take some action within a prescribed period after the service of a document upon it and the document is served by express delivery, one (1) day shall be added to the prescribed period if the service is to a destination in the United States, and five (5) days shall be added to the prescribed period if the service is to a destination outside the United States. ''Service by express delivery'' refers to a method that would provide delivery by the next business day within the United States and refers to the equivalent express delivery service when the delivery is to a foreign location.

(f) *Electronic service by parties.* Parties may serve documents by electronic means in all matters before the Commission. Parties may effect such service on any party, unless that party has, upon notice to the Secretary and to all parties, stated that it does not consent to electronic service. If electronic service is used, no additional time is added to the prescribed period. However, any dispute that arises among parties regarding electronic service must be resolved by the parties themselves, without the Commission's involvement. When a document served by electronic means contains confidential business information or business proprietary information subject to an administrative protective order, the document must be securely stored and transmitted by the serving party in a manner, including by means ordered by the presiding administrative law judge, that prevents unauthorized access and/or receipt by individuals or organizations not authorized to view the specified confidential business information.

Subpart C—Availability of Information to the Public Pursuant to 5 U.S.C. 552

AUTHORITY: 19 U.S.C. 1335, 5 U.S.C. 552.

SOURCE: 40 FR 8328, Feb. 27, 1975, unless otherwise noted.

§ 201.17 Procedures for requesting access to records.

(a) *Requests for records.* (1) A request for any information or record shall be addressed to the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436 and shall indicate clearly in the request, and if the request is in paper form on the envelope, that it is a ''Freedom of Information Act Request.'' A written request may be made either (1) in paper form, or (2) electronically by contacting the Commission at *http://www.usitc.gov/foia.htm.*

(2) Any request shall reasonably describe the requested record to facilitate location of the record. If the request pertains to a record that is part of the Commission's file in an investigation, the request should identify the investigation by number and name. A clear description of the requested record(s) should reduce the time required by the Commission to locate and disclose releasable responsive record(s) and minimize any applicable search and copying charges.

(3) Except as provided in paragraph (b) of this section, requests will be processed in the order in which they are filed.

(4) Requests for transcripts of hearings should be addressed to the official hearing reporter, the name and address of which can be obtained from the Secretary. A copy of such request shall at the same time be forwarded to the Secretary.

(5) Copies of public Commission reports and other publications are available online at *http://www.usitc.gov/publications/by_type.htm*, or can be requested by calling or writing the Office of the Secretary. Certain Commission publications are sold by the Superintendent of Documents, U.S. Government Printing Office, and are available from that agency at the price set by that agency.

(6) A day-to-day, composite record will be kept by the Secretary of each request with the disposition thereof.

(b) *Expedited processing.* (1) Requests for records under paragraph (a)(1) of this section will be taken out of order and given expedited treatment whenever it is determined that they involve:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

(ii) An urgency to inform the public about an actual or alleged federal government activity, if made by a person primarily engaged in disseminating information;

(iii) The loss of substantial due process rights; or

(iv) A matter of widespread and exceptional media interest in which there exist possible questions about the government's integrity which affect public confidence.

(2) A request for expedited processing may be made at the time of the initial request for records or at any later time.

(3) A requester who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person's knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, a requester within paragraph (b)(1)(ii) of this section, if not a full-time member of the news media, must establish that he or she is a person whose main professional activity or occupation is information dissemination, though it need not be his or her sole occupation. A requester within paragraph (b)(1)(ii) of this section also must establish a particular urgency to inform the public about the government activity involved in the request, beyond the public's right to know about government activity generally. The formality of certification may be waived as a matter of administrative discretion.

(4) Within ten calendar days of receipt of a request for expedited processing, the Secretary will decide whether to grant it and will notify the requester of the decision. If a request for expedited treatment is granted, the request will be given priority and will be processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision will be acted on expeditiously.

(c) *Public reading room.* The Commission maintains a public reading room in the Office of the Secretary for access to the records that the FOIA requires to be made regularly available for public inspection and copying. Reading room records created by the Commission on or after November 1, 1996, are available electronically. This includes a current subject-matter index of reading room records, which will indicate which records are available electronically.

(d) *Acknowledgment.* The Secretary will provide to a requester an acknowledgment of the receipt of a request and an individualized tracking number for each request. The requester may obtain information about the status of the request and/or contact the Commission's FOIA Public Liaison by telephone (202–205–2595) or email (*foia.se.se@usitc.gov*). The FOIA Public Liaison is responsible for assisting in reducing delays, increasing transparency and understanding of the status of requests, and assisting in the resolution of disputes.

(e) *First-party requests.* The FOIA applies to third-party requests for documents concerning the general activities of the government and of the Commission in particular. When a U.S. citizen or an alien lawfully admitted for permanent residence requests access to

his or her own records, *i.e.*, makes a first-party request, it is considered a Privacy Act request. Although requests are considered either FOIA requests or Privacy Act requests, the Commission processes first-party requests in accordance with both laws, which provides the greatest degree of lawful access while safeguarding an individual's personal privacy.

(f) *Referrals.* If the Secretary refers a request or a portion thereof to another agency, the Secretary will notify the requester of the referral and the part of the request that has been referred. If feasible, the Secretary will provide the requester with a point of contact within the receiving agency regarding the referral.

(g) *Records management.* (1) The Secretary shall preserve all correspondence pertaining to requests received as well as copies of all requested records, until disposition or destruction is authorized by a General Records Schedule of the National Archives and Records Administration (NARA) or other NARA-approved records schedule.

(2) Materials that are identified as responsive to a FOIA request will not be disposed of or destroyed while the request or a related appeal or lawsuit is pending. This is true even if they would otherwise be authorized for disposition under a General Records Schedule or other NARA-approved records schedule.

[63 FR 29347, May 29, 1998, as amended at 68 FR 32975, June 3, 2003; 80 FR 39379, July 9, 2015]

§ 201.18 Denial of requests, appeals from denial.

(a) Written requests for inspection or copying of records shall be denied only by the Secretary or Acting Secretary, or, for records maintained by the Office of Inspector General, the Inspector General. A denial shall be in writing and shall provide information on the exemptions that justify withholding and the amount of information withheld. The denial also shall advise the person requesting of the right to appeal to the Commission.

(b) An appeal from a denial of a request must be received within ninety days of the date of the letter of denial and shall be made to the Commission and addressed to the Chairman, United States International Trade Commission, 500 E Street SW., Washington, DC 20436. Any such appeal shall be in writing, and shall indicate clearly in the appeal, and if the appeal is in paper form on the envelope, that it is a ''Freedom of Information Act Appeal.'' An appeal may be made either in paper form, or electronically by contacting the Commission at *http://www.usitc.gov/foia.htm.*

(c) Except when expedited treatment is requested and granted, appeals will be decided in the order in which they are filed, but in any case within twenty days (excepting Saturdays, Sundays, and legal holidays) unless an extension, noticed in writing with the reasons therefor, has been provided to the person making the request. Notice of the decision on appeal and the reasons therefor will be made promptly after a decision. Requests for expedited treatment should conform with the requirements in § 201.17(c) of this part.

(d) The extensions of time mentioned in paragraph (c) of this section shall be made only for one or more of the following reasons:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are requested in a single communication; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having a substantial subject-matter interest therein.

(e) The extensions of time mentioned in paragraph (c) of this section shall not exceed ten working days in the aggregate.

(f) A response to an appeal will advise the requester that the Commission's FOIA Public Liaison officer and the Office of Government Information Services both offer mediation services to

resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. The requester may contact the Commission's FOIA Public Liaison officer by telephone (202–205–2595) or email (*foia.se.se@usitc.gov*) or the Office of Government Information Services at National Archives and Records Administration, 8601 Adelphi Road—OGIS, College Park, Maryland 20740–6001.

[40 FR 8328, Feb. 27, 1975, as amended at 54 FR 13678, Apr. 5, 1989; 60 FR 37336, July 20, 1995; 63 FR 29348, May 29, 1998; 68 FR 32975, June 3, 2003; 80 FR 39379, July 9, 2015; 81 FR 86576, Dec. 1, 2016]

§ 201.19 Notification regarding requests for confidential business information.

(a) *In general.* Business information provided to the Commission by a business submitter which the Commission has designated as ''confidential business information'' will not be disclosed pursuant to a Freedom of Information Act (FOIA) request except in accordance with this section.

(b) *Definitions.* The following definitions are to be used in reference to this section:

Confidential business information means commercial or financial information that has been designated as confidential business information by the Commission under § 201.6 of this part.

Submitter means any person or entity who provides confidential business information, directly or indirectly, to the Commission. The term includes, but is not limited to, corporations, producers, importers, and state and federal governments, as well as others who have an administrative relationship with the Commission such as contractors, bidders and vendors.

(c) *Notice to submitters.* Except as provided for in paragraph (e) of this section, the Commission will, to the extent permitted by law, provide a submitter with prompt written notice of a FOIA request or administrative appeal encompassing its confidential business information whenever required under paragraph (d) of this section, in order to afford the submitter an opportunity to object to disclosure pursuant to paragraph (f) of this section. Such written notice will describe the nature of the confidential business information requested. The requester will also be notified that notice and opportunity to object to are being provided to a submitter.

(d) *When notice is required.* Notice will be given to a submitter in writing at submitter's last known address whenever:

(1) The information the subject of the FOIA request or appeal has been designated by the Commission as confidential business information; and

(2) The Commission has reason to believe that the information may not be protected from disclosure under FOIA Exemptions 3 or 4.

(e) *Exceptions to notice requirment.* The notice requirements of paragraph (c) of this section will not apply if:

(1) The Commission determines that the information should not be disclosed;

(2) The information lawfully has been published or has been officially made available to the public; or

(3) Disclosure of the information is required by law (other than 5 U.S.C. 552).

(f) *Opportunity to object to disclosure.* Through the notice described in paragraph (c) of this section, the Commission will afford a submitter an opportunity, within the period afforded to the Commission to make its decision in response to the FOIA request, to provide the Commission with a detailed written statement of any objection to disclosure. Such statement shall be filed by a deadline set by the Secretary, and it shall specify all grounds for withholding any of the information under any exemption of FOIA. In the case of FOIA Exemptions 3 or 4, it shall demonstrate why the information should continue to be considered confidential business information within the meaning of § 201.6 of this part and should not be disclosed. The submitter's claim of continued confidentiality should be supported by a certification by an officer or authorized representative of the submitter. Information provided by a submitter pursuant to this paragraph may itself be subject to disclosure under FOIA.

(g) *Notice of intent to disclose.* The Commission will consider carefully a

submitter's objections and specific grounds for nondisclosure prior to determining whether to disclose the information. Whenever the Commission decides to disclose such information over the objection of a submitter, the Commission will forward to the submitter a written notice which will include:

(1) A statement of the reasons for which the submitter's disclosure objections were not sustained;

(2) A description of the information to be disclosed; and

(3) A specified disclosure date.

Such notice of intent to disclose will be forwarded to the submitter a reasonable number of days prior to the specified disclosure date and the requester will be notified likewise.

(h) *Notice of FOIA lawsuit.* Whenever a requester brings suit seeking to compel disclosure of information that the Commission has designated as confidential business information, the Commission will promptly notify the submitter at its last known address. For the purpose of this paragraph, the Secretary may assume such address to be that given on the submission.

[54 FR 13678, Apr. 5, 1989, as amended at 68 FR 32975, June 3, 2003; 80 FR 39379, July 9, 2015]

§ 201.20 Fees.

(a) *In general.* Fees pursuant to 5 U.S.C. 552 shall be assessed according to the schedule contained in paragraph (b) of this section for services rendered by agency personnel in responding to and processing requests for records under this subpart. All fees so assessed shall be charged to the requester, except where the charging of fees is limited under paragraph (c) of this section or where a waiver or reduction of fees is granted under paragraph (d) of this section. The Secretary will collect all applicable fees. Requesters shall pay fees by check or money order made payable to the Treasury of the United States.

(b) *Charges.* In responding to requests under this subpart, the following fees shall be assessed, unless a waiver or reduction of fees has been granted pursuant to paragraph (d) of this section:

(1) *Search.* (i) No search fee shall be assessed with respect to requests by educational institutions, noncommercial scientific institutions, and representatives of the news media as defined in paragraphs (j) (6), (7), and (8) of this section, respectively. Search fees shall be assessed with respect to all other requests, subject to the limitations of paragraph (c) of this section. The secretary may assess fees for time spent searching even if agency personnel fail to locate any respective record or where records located are subsequently determined to be entirely exempt from disclosure.

(ii) For each quarter hour spent by agency personnel in salary grades GS–2 through GS–10 in searching for and retrieving a requested record, the fee shall be $4.00. When the time of agency personnel in salary grades GS–11 and above is required, the fee shall be $6.50 for each quarter hour of search and retrieval time spent by such personnel.

(iii) For computer searches of records, which may be undertaken through the use of existing programming, requester shall be charged the actual direct costs of conducting the search, although certain requesters (as defined in paragraph (c)(2) of this section) shall be entitled to the cost equivalent of two hours of manual search time without charge. These direct costs shall include the cost of operating a central processing unit for that portion of operating time that is directly attributable to searching for records responsive to a request, as well as the costs of operator/programmer salary apportionable to the search (at no more than $6.50 per quarter hour of time so spent).

(2) *Duplication.* Duplication fees shall be assessed with respect to all requesters, subject to the limitations of paragraph (c) of this section. For a paper photocopy of a record (no more than one copy of which need be supplied), the fee shall be $0.10 per page. For copies produced by computer, such as tapes or printouts, the Secretary shall charge the actual direct costs, including operator time, of producing the copy. For other methods of duplication, the Secretary shall charge the actual direct costs of duplicating a record.

(3) *Review*. (i) Review fees shall be assessed with respect to only those requesters who seek records for a commercial use, as defined in paragraph (j)(5) of this section. For each quarter hour spent by agency personnel in reviewing a requested record for possible disclosure, the fee shall be $6.50.

(ii) Review fees shall be assessed only for the initial record review, i.e., all of the review undertaken when a component analyzes the applicability of a particular exemption to a particular record or record portion at the initial request level. No charge shall be assessed for review at the administrative appeal level of an exemption already applied. However, records or record portions withheld pursuant to an exemption that is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs of such a subsequent review are properly assessable, particularly where that review is made necessary by a change of circumstances.

(c) *Limitations on charging fees*. (1) No search or review fee shall be charged for a quarter-hour period unless more than half of that period is required for search or review.

(2) Except for requesters seeking records for a commercial use (as defined in paragraph (j)(5) of this section), the Secretary shall provide without charge—

(i) The first 100 pages of duplication (or its cost equivalent), and

(ii) The first two hours of search (or its cost equivalent).

(3) Whenever a total fee calculated under paragraph (b) of this section is $25.00 or less, no fee shall be charged.

(4) The provisions of paragraphs (c)(2) and (3) of this section work together. For requesters other than those seeking records for a commercial use, no fee shall be charged unless the cost of search is in excess of two hours plus the cost of duplication in excess of 100 pages exceeds $25.00.

(5) The Commission will not charge fees if it fails to comply with any time limit under the FOIA or these regulations, and if it has not timely notified the requester, in writing, that an unusual circumstance exists. If an unusual circumstance exists, and timely written notice is given to the requester, the Commission will have an additional 10 working days to respond to the request before fees are automatically waived under this paragraph.

(6) If the Commission determines that unusual circumstances apply and that more than 5,000 pages are necessary to respond to a request, it may charge fees if it has provided a timely written notice to the requester and discusses with the requester via mail, Email, or telephone how the requester could effectively limit the scope of the request (or make at least three good faith attempts to do so).

(7) If a court has determined that exceptional circumstances exist, a failure to comply with time limits imposed by these regulations or FOIA shall be excused for the length of time provided by court order.

(d) *Waiver or reduction of fees*. (1) Records responsive to a request under 5 U.S.C. 552 shall be furnished without charge or at a charge reduced below that established under paragraph (b) of this section where the Secretary determines, based upon information provided by a requester in support of a fee waiver request or otherwise made known to the Secretary that disclosure of the requested information is in the public interest, because it is likely to contribute significantly to public understanding of the operations or activities of the Government and is not primarily in the commercial interest of the requester. Requests for a waiver or reduction of fees shall be considered on a case-by-case basis.

(2) In order to determine whether the first fee waiver requirement is met—i.e., that disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government—the Secretary shall consider the following four factors in sequence:

(i) *The subject of the request: Whether the subject of the requested records concerns ''the operations or activities of the government.''* The subject matter of the requested records, in the context of the request, must specifically concern identifiable operations or activities of

the federal government—with a connection that is direct and clear, not remote or attenuated. Furthermore, the records must be sought for their informative value with respect to those government operations or activities; a request for access to records for their intrinsic informational content alone will not satisfy this threshold consideration.

(ii) *The informative value of the information to be disclosed: Whether the disclosure is ''likely to contribute'' to an understanding of government operations or activities.* The disclosable portions of the requested records must be meaningfully informative on specific government operations or activities in order to hold potential for contributing to increased public understanding of those operations and activities. The disclosure of information that already is in the public domain, in either a duplicative or a substantially identical form, would not be likely to contribute to such understanding, as nothing new would be added to the public record.

(iii) *The contribution of an understanding of the subject by the public likely to result from disclosure: Whether disclosure of the requested information will contribute to ''public understanding.''* The disclosure must contribute to the understanding of the public at large, as opposed to the individual understanding of the requester or a narrow segment of interested persons. A requester's identity and qualifications—e.g., expertise in the subject area and ability and intention to effectively convey information to the general public—shall be considered. It will be presumed that a representative of the news media (as defined in paragraph (j)(8) of this section) who has access to the means of public dissemination readily will be able to satisfy this consideration. Requests from libraries or other record repositories (or requesters who intend merely to disseminate information to such institutions) shall be analyzed, like those of other requesters, to identify a particular person who represents that he actually will use the requested information in scholarly or other analytic work and then disseminate it to the general public.

(iv) *The significance of the contribution to public understanding: Whether the disclosure is likely to contribute ''significantly'' to public understanding of government operations or activities.* The public's understanding of the subject matter in question, as compared to the level of public understanding existing prior to the disclosure, must be likely to be enhanced by the disclosure to a significant extent. The Secretary shall not make separate judgments as to whether information, even though it in fact would contribute significantly to public understanding of the operations or activities of the government, is ''important'' enough to be made public.

(3) In order to determine whether the second fee waiver requirement is met—i.e., that disclosure of the requested information is not primarily in the commercial interest of the requester—the Secretary shall consider the following two factors in sequence:

(i) *The existence and magnitude of a commercial interest: Whether the requester has a commercial interest that would be furthered by the requested disclosure.* The Secretary shall consider all commercial interests of the requester (with reference to the definition of *commercial use* in paragraph (j)(5) of this section), or any person on whose behalf the requester may be acting, but shall consider only those interests which would be furthered by the requested disclosure. In assessing the magnitude of identified commercial interests, consideration shall be given to the role that such FOIA-disclosed information plays with respect to those commercial interests, as well as to the extent to which FOIA disclosures serve those interests overall. Requesters shall be given a reasonable opportunity in the administrative process to provide information bearing upon this consideration.

(ii) *The primary interest in disclosure: Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is ''primarily in the commercial interest of the requester.''* A fee waiver or reduction is warranted only where, once the ''public interest'' standard set out in paragraph (d)(2) of this section is satisfied, that public interest can fairly be regarded as greater in magnitude

than that of the requester's commercial interest in disclosure. The Secretary shall ordinarily presume that, where a news media requester has satisfied the ''public interest'' standard, that will be the interest primarily served by disclosure to that requester. Disclosure to data brokers or others who compile and market government information for direct economic return shall not be presumed to primarily serve the ''public interest.''

(4) Where only a portion of the requested records satisfies both of the requirements for a waiver or reduction of fees under this paragraph, a waiver or reduction shall be granted only as to that portion.

(5) Requests for the waiver or reduction of fees shall address each of the factors listed in paragraphs (d) (2) and (3) of this section, as they apply to each record request.

(e) *Notice of anticipated fees in excess of $25.00.* Where the Secretary determines or estimates that the fees to be assessed under this section may amount to more than $25.00, he shall notify the requester as soon as practicable of the actual or estimated amount of the fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. (If only a portion of the fee can be estimated readily, the Secretary shall advise the requester that the estimated fee may be only a portion of the total fee.) In cases where a requester has been notified that actual or estimated fees may amount to more than $25.00, the request will be deemed not to have been received until the requester has agreed to pay the anticipated total fee. A notice of the requester pursuant to this paragraph shall offer him the opportunity to confer with agency personnel in order to reformulate his request to meet his needs at a lower cost.

(f) *Aggregating requests.* Where the Secretary reasonably believes that a requester or a group of requesters acting in concert is attempting to divide a request into a series of requests for the purpose of evading the assessment of fees, the Secretary may aggregate any such requests and charge accordingly. The Secretary may presume that multiple requests of such type made within a 30-day period have been made in order to evade fees. Where requests are separated by a longer period, the Secretary shall aggregate them only where there exists a reasonable basis for determining that said aggregation is warranted, e.g., where the requests involve clearly related matters. Multiple requests involving unrelated matters shall not be aggregated

(g) *Advance payments.* (1) Where the Secretary estimates that a total fee to be assessed under this section is likely to exceed $250.00, the Secretary may require the requester to make an advance payment of an amount up to the entire estimated fee before beginning to process the request, except where the Secretary receives a satisfactory assurance of full payment from a requester with a history of prompt payment.

(2) Where a requester has previously failed to pay a records access fee within 30 days of the date of billing, the Secretary may require the requester to pay the full amount owed, plus any applicable interest (as provided for in paragraph (h) of this section), and to make an advance payment of the full amount of any estimated fee before he begins to process a new request or continues to process a pending request from that requester.

(3) For requests other than those described in paragraphs (g) (1) and (2) of this section, the Secretary shall not require the requester to make an advance payment, i.e., a payment made before work is commenced or continued on a request. Payment owed on work already completed is not an advance payment.

(4) Where the Secretary acts under paragraph (g) (1) or (2) of this section, the administrative time limits described in subsection (a)(6) of the FOIA for the processing of an initial request or an appeal, plus permissible extensions of these time limits, shall be deemed not to begin to run until the Secretary has received payment of the assessed fee.

(h) *Charging interest.* The Secretary may assess interest charges on an unpaid bill starting on the 31st day following the day on which the bill was

sent to the requester. Once a fee payment has been received by the Secretary, even if not processed, the accrual of interest shall be stayed. Interest charges shall be assessed at the rate prescribed in section 3717 of title 31 U.S.C. and shall accrue from the date of the billing. The Secretary shall follow the provisions of the Debt Collection Act of 1982, Pub. L. 97–265 (Oct. 25, 1982), and its implementing procedures, including the use of consumer reporting agencies, collection agencies, and offset.

(i) *Other statutes specifically providing for fees.* (1) The fee schedule of this section does not apply with respect to the charging of fees under a statute specifically providing for setting the level of fees for particular types of records—i.e., any statute that specifically requires a government entity such as the Government Printing Office or the National Technical Information Service, to set and collect fees for particular types of records—in order to:

(i) Serve both the general public and private sector organizations by conveniently making available government information;

(ii) Ensure that groups and individuals pay the cost of publications and other services that are for their special use so that these costs are not borne by the general taxpaying public;

(iii) Operate an information-dissemination activity on a self-sustaining basis to the maximum extent possible; or

(iv) Return revenue to the Treasury for defraying, wholly or in part, appropriate funds used to pay the costs of disseminating government information.

(2) Where records responsive to requests are maintained for distribution by agencies operating statutorily based fee schedule programs, the Secretary shall inform requesters of the steps necessary to obtain records from those sources.

(j) *Definitions.* For the purpose of this section:

(1) The term *direct costs* means those expenditures which the agency actually incurs in searching for and duplicating (and, in the case of commercial use requesters, reviewing) records to respond to a FOIA request. Direct costs include, for example the salary of the employee performing the work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space and heating or lighting of the facility in which the records are stored.

(2) The term *search* includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. The Secretary shall ensure, however, that searches are undertaken in the most efficient and least expensive manner reasonably possible; thus, for example, the Secretary shall not engage in line-by-line search where merely duplicating an entire document would be quicker and less expensive.

(3) The term *duplication* refers to the process of making a copy of a record necessary to respond to a FOIA request. Such copies can take the form of paper copy, microform, audio-visual materials, or machine-readable documentation (e.g., magnetic tape or disk), among others. The copy provided shall be in a form that is reasonably usable by requesters.

(4) The term *review* refers to the process of examining a record located in response to a request in order to determine whether any portion of it is permitted to be withheld. It also includes processing any record for disclosure, e.g., doing all that is necessary to excise it and otherwise prepare it for release, although review costs shall be recoverable even where there ultimately is no disclosure of a record. Review time does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(5) The term *commercial use* in the context of a request refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made,

which can include furthering those interests through litigation. The Secretary shall determine, as well as reasonably possible, the use to which a requester will put the records requested. Where the circumstances of a request suggest that the requester will put the records sought to a commercial use, either because of the nature of the request itself or because the Secretary otherwise has reasonable cause to doubt a requester's stated use, the Secretary shall provide the requester a reasonable opportunity to submit further clarification.

(6) The term *educational institution* refers to a preschool, a public or private elementary or secondary school, an institution of undergraduate higher education, an institution of graduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research. To be eligible for inclusion in this category, a requester must show that the request is being made as authorized by and under the auspices of a qualifying institution and that the records are not sought for a commercial use but are sought in furtherance of scholarly research.

(7) The term *noncommercial scientific institution* refers to an institution that is not operated on a ''commercial'' basis as that term is referenced in paragraph (j)(5) of this section, and which is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry. To be eligible for inclusion in this category, a requester must show that the request is being made as authorized by and under the auspices of a qualifying institution and that the records are not sought for a commercial use but are sought in furtherance of scientific research.

(8) The term *representative of the news media* refers to any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. The term 'news' means information that is about current events or that would be of current interest to the public. Examples of news-media entities are television or radio stations broadcasting to the public at large and publishers of periodicals (but only if such entities qualify as disseminators of 'news') who make their products available for purchase by or subscription by or free distribution to the general public. These examples are not all-inclusive. Moreover, as methods of news delivery evolve (for example, the adoption of the electronic dissemination of newspapers through telecommunications services), such alternative media shall be considered to be news-media entities. A freelance journalist shall be regarded as working for a news-media entity if the journalist can demonstrate a solid basis for expecting publication through that entity, whether or not the journalist is actually employed by the entity. A publication contract would present a solid basis for such an expectation; the Government may also consider the past publication record of the requester in making such a determination.

(9) The term *requester category* means one of the three categories that requesters are placed in for the purpose of determining whether a requester will be charged fees for search, review and duplication, including commercial requesters; non-commercial scientific or educational institutions or news media requesters, and all other requesters.

(10) The term *fee waiver* means the waiver or reduction of processing fees if a requester can demonstrate that certain statutory standards are satisfied including that the information is in the public interest and is not requested for a commercial interest.

(k) *Charges for other services and materials.* Apart from the other provisions of this section, where the Secretary elects, as a matter of administrative discretion, to comply with a request for a special service or materials, such as certifying that records are true copies or sending them other than by ordinary mail, the actual direct costs of providing the service or materials shall be charged.

[54 FR 13673, Apr. 5, 1989, as amended at 63 FR 29348, May 29, 1998; 80 FR 39379, July 9, 2015; 81 FR 86577, Dec. 1, 2016]

§ 201.21 Availability of specific records.

(a) *Records available.* The following information, on request to the Secretary of the Commission, is available for public inspection and copying: (1) final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases; (2) those statements of policy and interpretations which have been adopted by the agency; and (3) administrative staff manuals and instructions to staff that affect a member of the public. Available information includes, but is not limited to: (i) Applications, petitions, and other formal documents filed with the Commission, (ii) notices to the public concerning Commission matters, (iii) transcripts of testimony taken and exhibits submitted at hearings, (iv) reports to the President, to either or both Houses of Congress, or to Committees of Congress, release of which has been authorized by the President or the legislative body concerned, (v) reports and other documents issued for general distribution. Much of the information described above also is available on the Commission's World Wide Web site. The Commission's home page is at *http://www.usitc.gov*. The Web site also includes information subject to repeated Freedom of Information Act requests. Persons accessing the Web site can find instructions on how to locate Commission information by following the ''Freedom of Information Act'' link on the home page.

(b) *Records not available.* Information specifically exempted from disclosure by 5 U.S.C. 552(b), including reports to the President, to either or both Houses of Congress, or to Committees of Congress, the release of which has not been authorized by the President or the legislative body concerned, and confidential business data as defined in 18 U.S.C. 1905 and 19 CFR 201.06 are not available to the public.

(c) *Information requested in cases or matters to which the Commission is not a party.* (1) The procedure specified in this section will apply to all demands directed to Commission employees for the production of documents or for testimony that relates in any way to the employees' official duties. These procedures will also apply to demands directed to former employees if the demands seek nonpublic materials or information acquired during Commission employment. The provisions of paragraph (c)(2) of this section will also apply to demands directed to the agency. For purposes of this section, the term *demand* means any request, order or subpoena for testimony or production of documents; the term *subpoena* means any compulsory process in a case or matter to which the Commission is not a party; the term *nonpublic* includes any material or information which, under § 201.21(b), is exempt from availability for public inspection and copying; the term *employee* means any current or former officer or employee of the Commission; the term *documents* means all records, papers or official files, including without limitation, official letters, telegrams, memoranda, reports, studies, calendar and diary entries, graphs, notes, charts, tabulations, data analysis, statistical or information accumulations, records of meetings and conversations, film impressions, magnetic tapes, and sound or mechanical reproductions; the term *case or matter* means any civil proceeding before a court of law, administrative board, hearing officer, or other body conducting a legal or administrative proceeding in which the Commission is not a named party.

(2) Prior to or simultaneously with a demand to a Commission employee for the production of documents or for testimony concerning matters relating to official duties, the party seeking such production or testimony must serve upon the General Counsel of the Commission an affidavit, or if that is not feasible, then a statement which sets forth the title of the case, the forum, the party's interest in the case, the reasons for the request, and a showing that the desired testimony or documents are not reasonably available from any other source. Where testimony is sought, the party must also provide a summary of the testimony desired, the intended use of the testimony, and show that Commission records could not be provided and used instead of the requested testimony. A subpoena for testimony from a Commission employee concerning official

matters or for the production of documents shall be served in accordance with Rule 45 of the Federal Rules of Civil Procedure and a copy of the subpoena shall be sent to the General Counsel.

(3) Any employee or former employee who is served with a subpoena or other demand shall promptly advise the General Counsel of the service of the subpoena or other demand, the nature of the documents or information sought, and all relevant facts and circumstances.

(4) Absent written authorization from the Chairman of the Commission (''Chairman''), the employee shall respectfully decline to produce the requested documents, to testify, or to otherwise disclose requested information. If a court rules that the demand must be complied with despite the absence of such written authorization, the employee upon whom the demand is made shall respectfully refuse to comply based upon these regulations and *Touhy* v. *Ragan*, 340 U.S. 462 (1951).

(5) The Chairman will consider and act upon subpoenas under this section with due regard for statutory restrictions, the Commission's rules and the public interest, taking into account such factors as the need to conserve employees' time for conducting official business, the need to prevent the expenditure of the United States government's time and money for private purposes, the need to maintain impartiality between private litigants in cases where no substantial governmental interest is involved, and the relevant legal standards for determining whether justification exists for the disclosure of nonpublic information and documents. If the Chairman determines that the subpoenaed documents or information are protected by a privilege or that the Commission has a duty in law or equity to protect such documents or information from disclosure, the General Counsel shall move the court to quash the subpoena or for other appropriate action.

(6) The General Counsel may consult or negotiate with counsel or the party seeking testimony or documents to refine and limit the demand so that compliance is less burdensome, or obtain information necessary to make the determination described in paragraph (c)(5) of this section. Failure of the counsel or party seeking the testimony or documents to cooperate in good faith to enable the General Counsel to make an informed recommendation to the Chairman under paragraph (c)(5) of this section may serve as the basis for a determination not to comply with the demand.

(7) Permission to testify will, in all cases, be limited to the information set forth in the affidavit as described in paragraph (c)(2) of this section, or to such portions thereof as the Chairman deems proper.

(8) If the Chairman authorizes the testimony of an employee, then the General Counsel shall arrange for the taking of the testimony by methods that are least disruptive of the official duties of the employee. Testimony may, for example, be provided by affidavits, answers to interrogatories, written depositions, or depositions transcribed, recorded, or preserved by any other means allowable by law. Costs of providing testimony, including transcripts, will be borne by the party requesting the testimony. Such costs shall also include reimbursing the Commission for the usual and ordinary expenses attendant upon the employee's absence from his or her official duties in connection with the case or matter, including the employee's salary and applicable overhead charges and any necessary travel expenses.

(9) The Secretary in consultation with the General Counsel is further authorized to charge reasonable fees to parties demanding documents or information. Such fees, calculated to reimburse the government for the expense of responding to such demand, may include the costs of time expended by Commission employees to process and respond to the demand, attorney time for reviewing the demand and for related legal work in connection with the demand, and expenses generated by equipment used to search for, produce and copy the responsive information. In general, such fees will be assessed at the rates and in the manner specified in § 201.20 of this part.

(10) This section does not affect the rights and procedures governing the

public access to official documents pursuant to the Freedom of Information Act or the Privacy Act.

(11) This section is intended to provide instructions to Commission employees and does not create any right or benefit, substantive or procedural, enforceable by any party against the Commission.

[40 FR 8328, Feb. 27, 1975, as amended at 54 FR 13676, Apr. 5, 1989; 68 FR 32975, June 3, 2003]

Subpart D—Safeguarding Individual Privacy Pursuant to 5 U.S.C. 552a

SOURCE: 63 FR 29348, May 29, 1998, unless otherwise noted.

§ 201.22 Purpose and scope.

This subpart contains the rules that the Commission follows under the Privacy Act of 1974, 5 U.S.C. 552a. The rules in this subpart apply to all records in systems of records maintained by the Commission that are retrieved by an individual's name or other personal identifier. They describe the procedures by which individuals may request access to records about themselves, request amendment or correction of those records, and request an accounting of disclosures of those records by the Commission.

§ 201.23 Definitions.

For the purpose of these regulations:

(a) The term *individual* means a citizen of the United States or an alien lawfully admitted for permanent residence;

(b) The term *maintain* includes maintain, collect, use, or disseminate;

(c) The term *record* means any item, collection, or grouping of information about an individual that is maintained by the Commission, including, but not limited to, his or her education, financial transactions, medical history, and criminal or employment history and that contains his or her name, or the identifying number, symbol, or other identifying particular assigned to the individual;

(d) The term *system of records* means a group of any records under the control of the Commission from which information is retrieved by the name of the individual or by some identifying particular assigned to the individual;

(e) The term *Privacy Act Officer* refers to the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, or his or her designee.

[63 FR 29348, May 29, 1998, as amended at 80 FR 39380, July 9, 2015]

§ 201.24 Procedures for requests pertaining to individual records in a records system.

(a) A request by an individual to gain access to his or her record(s) or to any information pertaining to him or her which is contained in a system of records maintained by the Commission shall be addressed to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall indicate clearly both on the envelope and in the letter that it is a Privacy Act request.

(b) In order to facilitate location of requested records, whenever possible, the request of the individual shall name the system(s) of records maintained by the Commission which he or she believes contain records pertaining to him or her, shall reasonably describe the requested records, and identify the time period in which the records were compiled.

(c) The Privacy Act Officer shall acknowledge receipt of a request within ten days (excluding Saturdays, Sundays, and legal public holidays), and wherever practicable, indicate whether or not access can be granted. If access is not to be granted, the requestor shall be notified of the reason in writing.

(d) The Privacy Act Officer, or, the Inspector General, if such records are maintained by the Inspector General, shall ascertain whether the systems of records maintained by the Commission contain records pertaining to the individual, and whether access will be granted. Thereupon the Privacy Act Officer shall:

(1) Notify the individual whether or not the requested record is contained in any system of records maintained by the Commission; and

(2) Notify the individual of the procedures as prescribed in Secs. 201.25 and 201.26 of this part by which the individual may gain access to those records maintained by the Commission which pertain to him or her. Access to the records will be provided within 30 days (excluding Saturdays, Sundays, and legal public holidays).

§ 201.25 Times, places, and requirements for identification of individuals making requests.

(a) If an individual wishes to examine his or her records in person, it shall be the responsibility of the individual requester to arrange an appointment with the Privacy Act Officer for the purpose of inspecting individual records. The time of inspection shall be during the regular office hours of the Commission, 8:45 a.m. to 5:15 p.m., Monday through Friday. The time arranged should be mutually convenient to the requester and to the Commission.

(b) The place where an individual may gain access to records maintained by the Commission which pertain to him or her shall be at the United States International Trade Commission Building, 500 E Street SW., Washington, DC 20436. The Privacy Act Officer shall inform the individual requester of the specific room wherein inspection will take place.

(c) An individual may also request the Privacy Act Officer to provide the individual with a copy of his or her records by certified mail.

(d) An individual who requests to gain access to those records maintained by the Commission which pertain to him or her shall not be granted access to those records without first presenting adequate identification to the Privacy Act Officer. Adequate identification may include, but is not limited to, a government identification card, a driver's license, Medicare card, a birth certificate, or a passport. If requesting records by mail, an individual must provide full name, current address, and date and place of birth. The request must be signed and either notarized or submitted under 28 U.S.C. 1746, which permits statements to be made under penalty of perjury as a substitute for notarization. In order to help the identification and location of requested records, a requestor may also, at his or her option, include the individual's social security number.

§ 201.26 Disclosure of requested information to individuals.

(a) Once the Privacy Act Officer has made a determination to grant a request for access to individual records, in whole or in part, the Privacy Act Officer shall inform the requesting individual in writing and permit the individual to review the pertinent records and to have a copy made of all or any portion of them. Where redactions due to exemptions pursuant to § 201.32 would render such records or portions thereof incomprehensible, the Privacy Act Officer shall furnish an abstract in addition to an actual copy.

(b) An individual has the right to have a person of his or her own choosing accompany him or her to review his or her records. The Privacy Act Officer shall permit a person of the individual requester's choosing to accompany the individual during inspection.

(c) When the individual requests the Privacy Act Officer to permit a person of the individual's choosing to accompany him or her during the inspection of his or her records, the Privacy Act Officer shall require the individual requester to furnish a written statement authorizing discussion of the records in the accompanying person's presence.

(d) The Privacy Act Officer shall take all necessary steps to insure that individual privacy is protected while the individual requester is inspecting his or her records or while those records are being discussed. Only the Privacy Act Officer shall accompany the individual as representative of the Commission during the inspection of the individual's records. The Privacy Act Officer shall be authorized to discuss the pertinent records with the individual.

§ 201.27 Special procedures: Medical records.

(a) While an individual has an unqualified right of access to the records in systems of records maintained by the Commission which pertain to him or her, medical and psychological records merit special treatment because of the possibility that disclosure

will have an adverse physical or psychological effect upon the requesting individual. Accordingly, in those instances where an individual is requesting the medical and/or psychological records which pertain to him or her, he or she shall, in his or her Privacy Act request to the Privacy Act Officer as called for in §201.24(a) of this part, specify a physician to whom the medical and/or psychological records may be released.

(b) It shall be the responsibility of the individual requesting medical or psychological records to specify a physician to whom the requested records may be released. If an individual refuses to name a physician and insists on inspecting his or her medical or psychological records in the absence of a doctor's discussion and advice, the individual shall so state in his or her Privacy Act request to the Privacy Act Officer as called for in §201.24(a) of this part and the Privacy Act Officer shall provide access to or transmit such records directly to the individual.

§201.28 Requests for correction or amendment of records.

(a) If, upon viewing his or her records, an individual disagrees with a portion thereof or feels sections thereof to be erroneous, the individual may request amendment[s] of the records pertaining to him or her. The individual should request such an amendment in writing and should identify each particular record in question, the system[s] of records wherein the records are located, specify the amendment requested, and specify the reasons why the records are not correct, relevant timely or complete. The individual may submit any documentation that would be helpful. The request for amendment of records shall be addressed to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall clearly indicate both on the envelope and in the letter that it is a Privacy Act request for amendment of records.

(b) Not later than 10 days (excluding Saturdays, Sundays and legal public holidays) after the date of receipt of a Privacy Act request for amendment of records, the Privacy Act Officer shall acknowledge such receipt in writing. Such a request for amendment will be granted or denied by the Privacy Act Officer or, for records maintained by the Inspector General. If the request is granted, the Privacy Act Officer, or the Inspector General for records maintained by the Inspector General, shall promptly make any correction of any portion of the record which the individual believes is not accurate, relevant, timely, or complete. If, however, the request is denied, the Privacy Act Officer shall inform the individual of the refusal to amend the record in accordance with the individual's request and give the reason(s) for the refusal. In cases where the Privacy Act Officer or the Inspector General has refused to amend in accordance with an individual's request, he or she also shall advise the individual of the procedures under §201.30 of this part for the individual to request a review of that refusal by the full Commission or by an officer designated by the Commission.

§201.29 Commission disclosure of individual records, accounting of record disclosures, and requests for accounting of record disclosures.

(a) It is the policy of the Commission not to disclose, except as permitted under 5 U.S.C. 552a(b), any record which is contained in any system of records maintained by the Commission to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains.

(b) Except for disclosures either to officers and employees of the Commission, or to contractor employees who, in the Inspector General's or the Privacy Act Officer's judgment, as appropriate, are acting as federal employees, who have a need for the record in the performance of their duties, and any disclosure required by 5 U.S.C. 552, the Privacy Act Officer shall keep an accurate accounting of:

(1) The date, nature, and purpose of each disclosure of a record to any person or to another agency under paragraph (a) of this section; and

(2) The name or address of the person or agency to whom the disclosure is made.

(c) The Privacy Act Officer shall retain the accounting required by paragraph (b) of this section for at least five years or the life of the record, whichever is longer, after such disclosure.

(d) Except for disclosures made to other agencies for civil or criminal law enforcement purposes pursuant to 5 U.S.C. 552a(b)(7), the Privacy Act Officer shall make any accounting made under paragraph (b) of this section available to the individual named in the record at the individual's request.

(e) An individual requesting an accounting of disclosure of his or her records should make the request in writing to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436. The request should identify each particular record in question and, whenever possible, the system[s] of records wherein the requested records are located, and clearly indicate both on the envelope and in the letter that it is a Privacy Act request for an accounting of disclosure of records.

(f) Where the Commission has provided any person or other agency with an individual record and such accounting as required by paragraph (b) of this section has been made, the Privacy Act Officer shall inform all such persons or other agencies of any correction, amendment, or notation of dispute concerning said record.

§ 201.30 Commission review of requests for access to records, for correction or amendment to records, and for accounting of record disclosures.

(a) The individual who disagrees with the refusal of the Privacy Act Officer or the Inspector General for access to a record, to amend a record, or to obtain an accounting of any record disclosure, may request a review of such refusal by the Commission within 60 days of receipt of the denial of his or her request. A request for review of such a refusal should be addressed to the Chairman, United States International Trade Commission, 500 E Street, SW., Washington, DC 20436, and shall clearly indicate both on the envelope and in the letter that it is a Privacy Act review request.

(b) Not later than 30 days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the Commission receives a request for review of the Privacy Act Officer's or the Inspector General's refusal to grant access to a record, to amend a record, or to provide an accounting of a record disclosure, the Commission shall complete such a review and make a final determination thereof unless, for good cause shown, the Commission extends the 30-day period.

(c) After the individual's request has been reviewed by the Commission, if the Commission agrees with the Privacy Act Officer's or the Inspector General's refusal to grant access to a record, to amend a record, or to provide an accounting of a record disclosure, in accordance with the individual's request, the Commission shall:

(1) Notify the individual in writing of the Commission's decision;

(2) For requests to amend or correct records, advise the individual that he or she has the right to file a concise statement of disagreement with the Commission which sets forth his or her reasons for disagreement with the refusal of the Commission to grant the individual's request; and

(3) Notify the individual of his or her legal right, if any, to judicial review of the Commission's final determination.

(d) In any disclosure, containing information about which the individual has filed a statement of disagreement regarding an amendment of an individual's record, the Privacy Act Officer, or, for records maintained by the Inspector General, the Inspector General, shall clearly note any portion of the record which is disputed and shall provide copies of the statement and, if the Commission deems it appropriate, copies of a concise statement of the reasons of the Commission for not making the amendments requested, to persons or other agencies to whom the disputed record has been disclosed.

§ 201.31 Fees and employee conduct.

(a) The Commission shall not charge any fee for the cost of searching for and reviewing an individual's records.

(b) Reproduction, duplication or copying of records by the Commission shall be at the rate of $0.10 per page.

There shall be no charge, however, when the total amount does not exceed $25.00.

(c) The Privacy Act Officer shall establish rules of conduct for persons involved in the design, development, operation, or maintenance of any system of records, or in maintaining any record, and periodically instruct each such person with respect to such rules and the requirements of the Privacy Act including the penalties for noncompliance.

[63 FR 29348, May 29, 1998, as amended at 68 FR 32975, June 3, 2003]

§ 201.32 Specific exemptions.

(a) Pursuant to 5 U.S.C. 552a(k)(1), (5) and (6), records contained in the system entitled ''Personnel Security Investigative Files'' have been exempted from subsections (c)(3), (d), (e)(1), (e)(4)(G) through (I) and (f) of the Privacy Act. Pursuant to section 552a(k)(1) of the Privacy Act, the Commission exempts records that contain properly classified information that pertains to national defense or foreign policy and is obtained from other systems of records or another Federal agency. Application of exemption (k)(1) may be necessary to preclude the data subject's access to and amendment of such classified information under 5 U.S.C. 552a(d). All information about individuals in these records that meets the criteria stated in 5 U.S.C. 552a(k)(5) is also exempted because this system contains investigatory material compiled solely for determining suitability, eligibility, and qualifications for Federal civilian employment, Federal contracts or access to classified information. To the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence, the application of exemption (k)(5) will be required to honor such a promise should an individual request access to the accounting of disclosure, or access to or amendment of the record, that would reveal the identity of a confidential source. All information in these records that meets the criteria stated in 5 U.S.C. 552a(k)(6) is also exempt because portions of a case file record may relate to testing and examining material used solely to determine individual qualifications for appointment or promotion in the Federal service. Access to or amendment of this information by the data subject would compromise the objectivity and fairness of the testing or examining process.

(b) Pursuant to 5 U.S.C. 552a(k)(1) and (k)(2), records contained in the system entitled ''Freedom of Information Act and Privacy Act Records'' have been exempted from subsections (c)(3), (d), (e)(1), (e)(4)(G) through (I) and (f) of the Privacy Act. Pursuant to section 552a(k)(1) of the Privacy Act, the Commission exempts records that contain properly classified information pertaining to national defense or foreign policy. Application of exemption (k)(1) may be necessary to preclude individuals' access to or amendment of such classified information under the Privacy Act. Pursuant to section 552a(k)(2) of the Privacy Act, and in order to protect the effectiveness of Inspector General investigations by preventing individuals who may be the subject of an investigation from obtaining access to the records and thus obtaining the opportunity to conceal or destroy evidence or to intimidate witnesses, the Commission exempts records insofar as they include investigatory material compiled for law enforcement purposes. However, if any individual is denied any right, privilege, or benefit to which he is otherwise entitled under Federal law due to the maintenance of this material, such material shall be provided to such individual except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence.

[63 FR 29348, May 29, 1998, as amended at 82 FR 60865, Dec. 26, 2017]

Subpart E—Opening Commission Meetings to Public Observation Pursuant to 5 U.S.C. 552b

AUTHORITY: 5 U.S.C. 552b; 19 U.S.C. 1335.

SOURCE: 42 FR 11243, Feb. 28, 1977, unless otherwise noted.

§ 201.33 Purpose and scope.

(a) Consistent with the principle that the public is entitled to the fullest practicable information regarding the decisionmaking processes of the Federal Government, it is the purpose of this subpart to open the meetings of the United States International Trade Commission to public observation while protecting the rights of individuals and the ability of the Commission to carry out its statutory functions and responsibilities. These regulations are promulgated pursuant to the directive of section (g) of the Government in the Sunshine Act (5 U.S.C. 552b(g)), and specifically implement sections (b) through (f) of said act (5 U.S.C. 552(b) through (f)).

(b) Public access to documents being considered at Commission meetings may be obtained by access to the public files of the Commission or, where documents are not in said public files, shall be obtained in the manner set forth in subpart C of this part (§§ 201.17 through 201.21).

(c) Unless otherwise provided by the public notices as described in § 201.35 of this subpart, public observation of Commission meetings does not encompass public participation in the deliberations at such meetings.

§ 201.34 Definitions.

For the purpose of this subpart:

(a)(1) Except as hereinafter provided, the term *meeting* means the deliberations of at least the number of individual Commissioners required to take action on behalf of the Commission where such deliberations determine or result in the joint conduct or disposition of official Commission business.

(2) The consideration by individual Commissioners of business which is circulated sequentially in writing (circulation by ''action jacket'') is not considered a meeting under paragraph (a)(1) of this section because circulation by action jacket does not determine or result in the joint conduct or disposition of Commission business until ratification thereof by formal vote of the Commissioners in a meeting as defined by paragraph (a)(1) of this section, although action proposed by action jacket may be taken before or after formal ratification thereof by vote at a Commission meeting.

(3) Conference telephone calls among the Commissioners are considered meetings as defined by paragraph (a)(1) of this section if they involve the number of Commissioners requisite for Commission action, and where the deliberations of the Commissioners determine or result in the joint conduct or disposition of official Commission business.

(4) Deliberations of a majority of the entire membership of the Commission with the *sole* purpose of determining whether or not to call a meeting at a date earlier than the requisite public notice period as specified in § 201.35 of this subpart are not considered to constitute a meeting or portion of a meeting as defined by paragraph (a)(1) of this section.

(5) Deliberations of a majority of the entire membership of the Commission with the *sole* purpose of determining whether or not to close a portion or portions of a meeting or series of meetings pursuant to § 201.36 of this subpart are not considered to constitute a meeting or portion of a meeting within the meaning of paragraph (a)(1) of this section.

(6) Deliberations of a majority of the entire membership of the Commission with the *sole* purpose of determining whether or not to change the subject matter of a publicly announced meeting, or to change the determination of the Commission to open or close a meeting, or portion thereof, to the public, following a public notice, as permitted under § 201.37(b) of this subpart, are not considered to constitute a meeting or portion of a meeting under paragraph (a)(1) of this section.

(b) The terms *Secretary* and *General Counsel* mean the Secretary and General Counsel of the Commission and

their respective designees within their respective offices.

[63 FR 29348, May 29, 1998, as amended at 80 FR 39380, July 9, 2015]

§ 201.35 Notices to the public.

(a) At least seven (7) days before each Commission meeting the Commission shall issue a public notice which:

(1) States the time and place of the meeting;

(2) Lists the subjects or agenda items to be discussed at the meeting;

(3) States whether the meeting or portion thereof is to be open or closed to public observation; and

(4) Gives the name and business phone number of the Secretary to the Commission.

(b) When the Commission has voted to close any portion of any meeting in accordance with § 201.36 of this subpart, the notice referred to in paragraph (a) of this section shall also include, or be amended to include, if already issued, (1) A list of the persons reasonably expected to be present at such closed portion or portions of the meeting, (2) A corresponding list of the affiliations of those persons reasonably expected to be present, (3) A written copy of the vote of each Commissioner on whether or not the portion or portions of the meeting or series of meetings should be closed to public observation, (4) A full, written explanation of the Commission's action in closing the portion or portions of the meeting or series of meetings, and (5) A copy of the certification of the General Counsel, called for by § 201.39 of this subpart, that such portion or portions of the meeting or series of meetings were properly closed to the public by the Commission. When a vote to close a portion or portions of a meeting in accordance with § 201.36 of this subpart or a vote to change the subject matter of a meeting or to change a determination to open or close a meeting, or portion thereof, to the public in accordance with § 201.37(b) of this subpart fails for lack of a majority of the entire membership of the Commission, the vote shall also be published as part of the notice required by paragraph (a) of this section.

(c)(1) The 7-day period for public notice provided for in paragraph (a) of this section shall not apply when a majority of the entire membership of the Commission determines by recorded vote that Commission business requires that a particular meeting be called with less than 7 days' notice and that no earlier announcement of such meeting was possible.

(2) When the Commission has voted in conformity with paragraph (c)(1) of this section to shorten the 7-day period for public notice provided for by paragraph (a) of this section with respect to a particular meeting, the Commission shall issue the public notice required by paragraph (a) of this section at the earliest practicable time.

(3) When the Commission not only has voted in conformity with paragraph (c)(1) of this section to shorten the 7-day period for public notice provided for in paragraph (a) of this section with respect to a particular meeting, but also has voted to close a portion or portions of such meeting in accordance with § 201.36 of this subpart, the public notice required by paragraph (c)(2) of this section shall also include, or be amended to include, if already issued, those items specified in paragraph (b) of this section.

(d)(1) When the Commission has changed the time or place of a publicly announced meeting by acting under § 201.37(a) of this subpart, the public notice required by paragraph (a) or (c)(2) of this section shall be amended to reflect such changed time or place.

(2) When the Commission has changed the subject matter of a meeting or its determination to open or close a meeting, or portion thereof, to the public following a public notice by acting under § 201.37(b) of this subpart, the public notice required by paragraph (a) or (c)(2) of this section shall be amended to

(i) Include a statement affirming that Commission business required the change in subject matter and that no earlier announcement of such change was possible and

(ii) Indicate the change in subject matter and the vote of each Commissioner upon such change.

(e)(1) The Secretary shall issue the public notices required by this section and such amendments thereto as are appropriate to the specific meeting to which they pertain.

(2) The Secretary

(i) Shall promptly post the public notices referred to in paragraph (e)(1) of this section on bulletin boards outside the Office of the Secretary to the Commission,

(ii) Shall make copies thereof available to interested members of the public, including mailing copies thereof through a mailing list of those persons desiring to receive such notices and distributing copies to the press, whether of specialized or general readership, and

(iii) Shall immediately submit said public notices to the FEDERAL REGISTER for publication.

(3) The Office of the Secretary shall respond to all questions from the public concerning the agendas of Commission meetings. Persons desiring to receive copies of notices of Commission meetings should contact the Office of the Secretary and request to be placed on the mailing list.

[42 FR 11243, Feb. 28, 1977, as amended at 58 FR 64121, Dec. 6, 1993]

§ 201.36 Closing a portion or portions of a meeting or a series of meetings.

(a) Every meeting of the Commission shall be open to public observation except when the Commission properly determines in the manner specified in paragraph (d) of this section that a portion or portions of a Commission meeting shall be closed to the public for the specific reasons enumerated in paragraph (b) of this section.

(b) The Commission may close a portion or portions of a Commission meeting only when it determines that public disclosure of information to be discussed at such meeting is likely to:

(1) Disclose matters that are (i) Specifically authorized under criteria established by Executive order to be kept secret in the interests of national defense or foreign policy and (ii) in fact properly classified pursuant to such Executive order;

(2) Relate solely to the internal personnel rules and practices of the Commission;

(3) Disclose matters specifically exempted from disclosure by statute (other than the Freedom of Information Act), provided that such statute (i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld.

(4) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Involve accusing any person of a crime, or formally censuring any person;

(6) Disclose information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) Disclose investigatory records compiled for law-enforcement purposes, or information which, if written, would be contained in such records, but only to the extent that the production of such records or information would: (i) Interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or to an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, or (iv) disclose the identity of a confidential source, and, in the case of a record compiled by a criminal law-enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national-security intelligence investigation, confidential information furnished only by the confidential source;

(8)(i) Disclose information the premature disclosure of which would, in those instances where the Commission regulates commodities, be likely to lead to significant financial speculation in such commodities;

(ii) Disclose information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed Commission action except (A) When the Commission has already disclosed to the public the content or nature of its proposed action or (B) when the Commission is required by law to make such disclosure on its own initiative prior to taking final Commission action on such proposal; or

(9) Specifically concern:

(i) The Commission's issuance of a subpoena,

(ii) The Commission's participation in a civil action or proceeding, or

(iii) The initiation, conduct, or disposition by the Commission of a particular case of formal Commission adjudication under 19 U.S.C. 1337 pursuant to the procedures of 5 U.S.C. 554 or otherwise involving a determination on the record after opportunity for a hearing.

(c)(1) When the Commission has determined that one or more of the specific reasons enumerated in paragraph (b) of this section for closing a portion or portions of a Commission meeting is applicable to the subject matter or matters to be discussed, the Commission shall consider whether or not the public interest requires that such portion or portions of the meeting be open to public observation.

(2) In making the public-interest determination under paragraph (c)(1) of this section, the Commission shall consider whether public disclosure would (i) Interfere with the Commission's carrying out its statutory responsibilities, (ii) Conflict with the individual right of privacy under the Privacy Act of 1974 (5 U.S.C. 552a), or (iii) Place the Commission in violation of any other applicable provision of law, in addition to any other factors which it deems to be relevant to the particular meeting in question.

(d)(1) Action by the Commission to close a portion or portions of a meeting for one or more of the specific reasons enumerated in paragraphs (b) (1) through (9) of this section shall be taken only when a majority of the entire membership of the Commission has voted to take such action.

(2) A single recorded vote of the Commission shall be taken with respect to: (i) Each Commission meeting of which the Commission proposes to close a portion or portions to the public for one or more of the specific reasons enumerated in paragraphs (b) (1) through (9) of this section, or (ii) any information which the Commission proposes to withhold from the public for one or more of the specific reasons enumerated in paragraphs (b) (1) through (9) of this section. No proxy votes are permissible.

(e)(1) Action by the Commission to close a series of meetings of which the Commission proposes to close a portion or portions to the public for one or more of the specific reasons enumerated in paragraphs (b) (1) through (9) of this section may be taken by a single recorded vote of the Commission to close such portion or portions of the series. No proxy votes are permissible.

(2) A series of meetings may be closed pursuant to paragraph (e)(1) of this section so long as each meeting in such series: (i) Involves the same particular matters and (ii) is scheduled to be held no more than 30 days after the initial meeting in such series.

(f) When the Commission (i) Has voted to close a portion or portions of a meeting in accordance with paragraph (d) of this section or (ii) has voted to close a portion or portions of a series of meetings in accordance with paragraph (e) of this section, the public notices referred to in paragraph (a) or (c)(2) of § 201.35 shall be issued or amended in accordance with paragraph (b) or (c)(3) of § 201.35 at the earliest practicable time, but no later than one (1) working day following such vote.

§ 201.37 Changing the time, place, subject matter, or determination to open or close a meeting following a public notice.

(a) The time or place of a Commission meeting may be changed following a public announcement required by § 201.35 only if the Commission publicly announces such change or changes at the earliest practicable time by issuing an appropriate amendment to the public notice as required by § 201.35.

(b) The subject matter or matters of a Commission meeting or the determination of the Commission to open or close a meeting, or portion of a meeting, to the public may be changed following a public announcement required by § 201.35 only if:

(i) A majority of the entire membership of the Commission determines by recorded vote that Commission business so requires and that no earlier announcement of the change was possible and

(ii) The Commission publicly announces such change in subject matter or such change in the determination of the Commission to open or close a meeting, or a portion of a meeting, to the public and the vote of each Commissioner upon such change or changes

in a subsequent amendment of the public notice required by § 201.35.

§ 201.38 Requests by interested persons that the Commission close a portion of a Commission meeting.

(a) Whenever any person whose interests may be directly affected by a portion of a Commission meeting requests that the Commission close such portion to the public for any of the specific reasons enumerated in paragraphs (b) (5), (6), or (7) of § 201.36, the Commission, upon the request of any one of the Commissioners, shall take a vote in the manner specified in § 201.36 of this subpart on whether or not to close such portion of the meeting.

(b) When the Commission votes on a request to close a portion of a meeting under paragraph (a) of this section in the manner specified in § 201.36(d), a public notice as required by paragraphs (a) and (b) of § 201.35 shall be issued.

§ 201.39 General Counsel's certification of Commission action in closing a meeting or a series of meetings.

Before a Commission meeting may be closed for the specific reasons enumerated in paragraphs (b) (1) through (9) of § 201.36, the General Counsel (i) Shall, in the related public notice, certify that in his or her opinion the meeting may be closed to the public and (ii) Shall state each applicable exemptive provision of paragraphs (b) (1) through (9) of § 201.36.

§ 201.40 Records-retention requirements.

(a) The Secretary shall maintain a copy of the certification by the General Counsel required by § 201.39 for each Commission meeting of which a portion or portions are closed to the public pursuant to a vote under § 201.36(d).

(b) The Secretary shall also maintain a copy of a statement from the presiding officer of each Commission meeting or portion thereof which was closed to the public for the specific reasons enumerated in paragraphs (b) (1) through (9) of § 201.36(b) setting forth (i) The time and place of the closed meeting, or portion thereof, and (ii) A list of the persons present thereat.

(c) The Secretary shall also maintain a complete transcript or electronic recording of the proceedings of each Commission meeting or portion of a meeting, whether open to public observation or closed to the public. The Secretary shall also maintain a complete transcript or electronic recording of all deliberations conducted under paragraphs (a) (4), (5), and (6) of § 201.34 of this subpart.

(d) Where portions of a Commission meeting are closed for the reasons contained in paragraphs (b) (8)(A) or (9) of § 201.36, the Commission preserves the option to maintain detailed minutes of such portions. Such detailed minutes shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of any actions taken, and the reasons therefor, including a description of each of the views expressed on any item and the record of any rollcall vote (reflecting the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

(e) The retention period for the records required by paragraphs (a), (b), (c), and (d) of this section shall be for a period of at least two (2) years after the particular Commission meeting, or until one (1) year after the conclusion of any Commission proceeding with respect to which the meeting or portion thereof was held, whichever occurs later.

(f) The requirements of paragraphs (c) and (d) of this section shall not affect or supplant the existing duty of the Secretary to maintain permanent minutes of each Commission meeting. The Secretary shall also maintain permanent minutes of all deliberations conducted under paragraphs (a) (4), (5), and (6) of § 201.34 of this subpart.

§ 201.41 Public inspection and copying of records; applicable fees.

(a) The Secretary shall promptly make available to interested members of the public the transcript or electronic recording of the discussion of any item on the agenda of a Commission meeting or of any item of the testimony of any witness received at the meeting, except for such item or items of such discussion or testimony as the

Secretary determines to contain information which may be withheld for reasons specified in paragraphs (b) (1) through (9) of § 201.36. The determination of the Secretary shall be in conformity with a prior vote of the Commission under § 201.36(d) to close a portion or portions of a meeting.

(b) Public inspection of electronic recordings, transcripts, or minutes of Commission meetings shall take place at the United States International Trade Commission, 500 E Street SW., Washington, DC 20436. A room is designated by the Office of the Secretary and tape recorders with earphones are provided by the Commission for public-inspection purposes when proceedings are recorded on tape.

(c)(1) The Secretary shall provide any person with copies of transcripts, minutes of Commission meetings, or transcriptions of electronic recordings of Commission meetings, which disclose the identity of each speaker, at the actual cost of transcription or duplication.

(2) The Secretary shall not include items of discussion or testimony determined by the Secretary to contain information which may be withheld from the public for the reasons specified in paragraphs (b) (1) through (9) of § 201.36 in the copies furnished to the public in accordance with paragraph (c)(1) of this section. The determination of the Secretary shall be in conformity with a prior vote of the Commission under § 201.36(d) to close a portion or portions of a meeting.

Subpart F—National Security Information

AUTHORITY: 19 U.S.C. 1335; E.O. 13526, 75 FR 707.

SOURCE: 79 FR 46350, Aug. 8, 2014, unless otherwise noted.

§ 201.42 Purpose and scope.

This subpart supplements Executive Order 13526 of December 29, 2009, and its implementing directive (32 CFR part 2001) as it applies to the Commission.

§ 201.43 Mandatory declassification review.

(a) *Requests for mandatory declassification review*—(1) *Definitions.* Mandatory declassification review (''MDR'') means the review for declassification of classified information in response to a request for declassification that meets the requirements under section 3.5 of Executive Order 13526.

(2) *Procedures.* Requests for MDR of information in the custody of the Commission that is classified under Executive Order 13526 or predecessor orders shall be directed to the Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. MDR requests will be processed in accordance with Executive Order 13526, its implementing directive, and this section. An MDR request must describe the document or material containing the requested information with sufficient specificity to enable Commission personnel to locate it with a reasonable amount of effort. Requests for broad types of information, entire file series of records, or similar non-specific requests may be denied processing. The Secretary shall notify a requester who has submitted a non-specific request that no further action will be taken on the request unless the requester provides additional description.

(b) *Freedom of Information Act and Privacy Act requests.* (1) Requests for records submitted under the Freedom of Information Act (''FOIA'') (5 U.S.C. 552), as amended, or the Privacy Act of 1974 (5 U.S.C. 552a), as amended, which include classified information shall be processed in accordance with the provisions of those acts and applicable Commission regulations (subpart C of this part (FOIA regulations); subpart D of this part (Privacy Act regulations)).

(2) If a requester submits a request under FOIA and also requests MDR, the Secretary shall require the requester to select one process or the other. If the requester fails to select one or the other process, the Secretary will treat the request as a FOIA request unless the requested materials are subject only to MDR.

(c) *Referral of MDR requests.* (1) Because the Commission does not have original classification authority and

all U.S. originated classified information in its custody has been originally classified by another Federal agency, the Secretary shall refer all requests for MDR and the pertinent records to the originating agency for review. Following consultations with the originating agency, the Secretary shall notify the requester of the referral unless such association is itself classified under Executive Order 13526 or its predecessor orders. The Secretary shall request that the originating agency, in accordance with 32 CFR 2001.33(a)(2)(ii) and 2001.34(e):

(i) Promptly process the request for declassification,

(ii) Communicate its declassification determination to the Secretary, and

(iii) If the originating agency proposes to withhold any information from public release, notify the Secretary of the specific information at issue and the applicable law that authorizes and warrants withholding such information.

(2) Unless a prior arrangement has been made with the originating agency, the Secretary shall collect the results of that agency's review and inform the requester of any final decision regarding the declassification of the requested information as follows:

(i) If the originating agency denies declassification of the requested information in whole or in part, the Secretary shall ensure that the decision provided to the requester includes notification of the right to file an administrative appeal with the originating agency within 60 days of receipt of the denial and the mailing address for the appellate authority at the originating agency.

(ii) If the originating agency declassifies the requested information in whole or in part, the Secretary shall determine whether the requested declassified information is exempt from disclosure, in whole or in part, under the provisions of a statutory authority, such as the FOIA. The Secretary shall inform the requester that an appeal from a denial of requested declassified information must be received within 60 days of the date of the letter of denial and shall be made to the Commission and addressed to the Chairman, United States International Trade Commission, 500 E Street SW., Washington, DC 20436.

(d) *Foreign Government Information*—(1) *Definitions.* ''Foreign government information'' (''FGI'') means information provided to the United States Government by a foreign government or governments, an international organization of governments, or any element thereof, with the expectation that the information, the source of the information, or both, are to be held in confidence; information produced by the United States Government pursuant to or as a result of a joint arrangement with a foreign government or governments, or an international organization of governments, or any element thereof, requiring that the information, the arrangement, or both, are to be held in confidence; or information received and treated as FGI under the terms of a predecessor of Executive Order 13526.

(2) *MDR requests for classified records in Commission custody that contain FGI.* The Commission will handle such MDR requests consistent with the requirements of Executive Order 13526 and 32 CFR part 2001. MDR requests for FGI initially received or classified by another Federal agency shall be referred to such agency following the referral procedures in paragraph (c) of this section.

(e) *Appeals of denials of MDR requests.* MDR appeals are for the denial of classified information only. Appeals of denials are handled in accordance with 32 CFR 2001.33(a)(2)(iii), which provides that the agency appellate authority deciding an administrative appeal of the denial of an MDR request shall notify the requester in writing of the reasons for any denial and inform the requester of his or her final appeal rights to the Interagency Security Classification Appeals Panel.

Subpart G—Enforcement of Nondiscrimination on the Basis of Handicap in Programs or Activities Conducted by the U.S. International Trade Commission

AUTHORITY: 29 U.S.C. 794.

SOURCE: 51 FR 4575, 4579, Feb. 5, 1986, unless otherwise noted.

§ 201.101 Purpose.

This part effectuates section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by Executive agencies or the United States Postal Service.

§ 201.102 Application.

This part applies to all programs or activities conducted by the agency.

§ 201.103 Definitions.

For purposes of this part, the term—

Assistant Attorney General means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the agency. For example, auxiliary aids useful for persons with impaired vision include readers, Brailled materials, audio recordings, telecommunications devices and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD's), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant's name and address and describes the agency's alleged discriminatory action in sufficient detail to inform the agency of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Handicapped person means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(1) *Physical or mental impairment* includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term *physical or mental impairment* includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addition and alcholism.

(2) *Major life activities* includes functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) *Has a record of such an impairment* means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) *Is regarded as having an impairment* means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the agency as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in subparagraph (1) of this definition but is treated by the agency as having such an impairment.

Qualified handicapped person means—

(1) With respect to any agency program or activity under which a person is required to perform services or to achieve a level of accomplishment, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or

(2) With respect to any other program or activity, a handicapped person who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity.

(3) *Qualified handicapped person* is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this part by § 201.140.

Section 504 means section 504 of the Rehabilitation Act of 1973 (Pub. L. 93–112, 87 Stat. 394 (29 U.S.C. 794)), as amended by the Rehabilitation Act Amendments of 1974 (Pub. L. 93–516, 88 Stat. 1617), and the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Pub. L. 95–602, 92 Stat. 2955). As used in this part, section 504 applies only to programs or activities conducted by Executive agencies and not to federally assisted programs.

[51 FR 4575, 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]

§§ 201.104–201.109 [Reserved]

§ 201.110 Self-evaluation.

(a) The agency shall, by April 9, 1987, evaluate its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the agency shall proceed to make the necessary modifications.

(b) The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The agency shall, until three years following the completion of the self-evaluation, maintain on file and make available for public inspections:

(1) A description of areas examined and any problems identified, and

(2) A description of any modifications made.

§ 201.111 Notice.

The agency shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

§§ 201.112–201.129 [Reserved]

§ 201.130 General prohibitions against discrimination.

(a) No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

(b)(1) The agency, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap—

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons than is provided to others unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vi) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The agency may not deny a qualified handicapped person the opportunity to participate in programs or activities that are not separate or different, despite the existence of permissibly separate or different programs or activities.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—

(i) Subject qualified handicapped persons to discrimination on the basis of handicap; or

(ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to handicapped persons.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

(i) Exclude handicapped persons from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.

(5) The agency, in the selection of procurement contractors, may not use criteria that subject qualified handicapped persons to discrimination on the basis of handicap.

(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or Executive order to a different class of handicapped persons is not prohibited by this part.

(d) The agency shall administer programs and activities in the most integrated setting appropriate to the needs of qualified handicapped persons.

§§ 201.131–201.139 [Reserved]

§ 201.140 Employment.

No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

§§ 201.141–201.148 [Reserved]

§ 201.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in § 201.150, no qualified handicapped person shall, because the agency's facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 201.150 Program accessibility: Existing facilities.

(a) *General.* The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally

alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with § 201.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) *Methods.* The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) *Time period for compliance.* The agency shall comply with the obligations established under this section by June 6, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by April 7, 1989, but in any event as expeditiously as possible.

(d) *Transition plan.* In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by October 7, 1986, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency's facilities that limit the accessibility of its programs or activities to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the official responsible for implementation of the plan.

[51 FR 4575, 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]

§ 201.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

§§ 201.152–201.159 [Reserved]

§ 201.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(i) In determining what type of auxiliary aid is necessary, the agency shall give primary consideration to the requests of the handicapped person.

(ii) The agency need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD's) or equally effective telecommunication systems shall be used.

(b) The agency shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with § 201.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 201.161–201.169 [Reserved]

§ 201.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The Director, Office of Equal Employment Opportunity, shall be responsible for coordinating implementation of this section. Complaints may be sent to the Director, Office of Equal Employment Opportunity, United States International Trade Commission, 500 E Street SW., Washington, DC 20436.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or

facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation found;

(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by § 201.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant, he or she shall have 60 days from the date of receipt of the additional information to make his or her determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

[51 FR 4575, 4579, Feb. 5, 1986, as amended at 51 FR 4576, Feb. 5, 1986; 68 FR 32975, June 3, 2003]

§ 201.201 Definitions.

Except where the context clearly indicates otherwise or where the term is defined elsewhere in this section, the following definitions shall apply to this subpart.

(a) *Agency* means a department, agency, court, court administrative office, or instrumentality in the executive, judicial, or legislative branch of Government, including government corporations.

(b) *Certification* means a written statement received by a paying agency from a creditor agency that requests the paying agency to offset the salary of an employee and specifies that required procedural protections have been afforded the employee.

(c) *Chairman* means the Chairman of the Commission.

(d) *Compromise* means the settlement or forgiveness of a debt.

(e) *Creditor agency* means an agency of the Federal government to which the debt is owed.

(f) *Director* means the Director, Office of Finance of the Commission or an official designated to act on the Director's behalf.

(g) *Disposable pay* means that part of current basic pay, special pay, incentive pay, retired pay, retainer pay, and, in the case of an employee not entitled to basic pay, other authorized pay, remaining for each pay period after the deduction of any amount required by law to be withheld. The Commission shall allow the following deductions in determining the amount of disposable pay that is subject to salary offset:

(1) Federal employment taxes;

(2) Amounts mandatorily withheld for the United States Soldiers' and Airmen's Home;

(3) Fines and forfeiture ordered by a court-martial or by a commanding officer;

(4) Amounts deducted for Medicare;

(5) Federal, state, or local income taxes to the extent authorized or required by law, but no greater than would be the case if the employee claimed all dependents to which he or she is entitled and such additional

amounts for which the employee presents evidence of a tax obligation supporting the additional withholding;

(6) Health insurance premiums;

(7) Normal retirement contributions, including employee contributions to the Thrift Savings Plan;

(8) Normal life insurance premiums (e.g., Serviceman's Group Life Insurance and ''Basic Life'' Federal Employee's Group Life Insurance premiums), not including amounts deducted for supplementary coverage.

(h) *Employee* means a current employee of the Commission or other agency, including a current member of the Armed Forces or a Reserve of the Armed Forces of the United States.

(i) *Federal Claims Collection Standards (FCCS)* means standards published at 31 CFR chapter IX.

(j) *Hearing official* means an individual responsible for conducting any hearing with respect to the existence or amount of a debt claimed and for rendering a decision on the basis of such hearing. A hearing official may not be under the supervision or control of the Chairman when the Commission is the creditor agency but may be an administrative law judge.

(k) *Notice of Intent to Offset* or *Notice of Intent* means a written notice from a creditor agency to an employee, organization, or entity stating that the debtor is indebted to the creditor agency and apprising the debtor of certain procedural rights.

(l) *Notice of Salary Offset* means a written notice from the paying agency to an employee after a certification has been issued by a creditor agency, informing the employee that salary offset will begin at the next officially established pay interval.

(m) *Office of Finance* means the Office of Finance of the Commission.

(n) *Paying agency* means the agency of the Federal government that employs the individual who owes a debt to an agency of the Federal government. In some cases, the Commission may be both the creditor agency and the paying agency.

[62 FR 38019, July 16, 1997, as amended at 68 FR 32976, June 3, 2003]

§ 201.202 Purpose and scope of salary and administrative offset rules.

(a) *Purpose.* The purpose of sections 201.201 through 201.207 is to implement 5 U.S.C. 5514, 31 U.S.C. 3716, and 31 U.S.C. 3720A which authorize the collection by salary offset, administrative offset, or tax refund offset of debts owed by persons, organizations, or entities to the Federal government. Generally, however, a debt may not be collected by such means if it has been outstanding for more than ten years after the agency's right to collect the debt first accrued. These proposed regulations are consistent with the Office of Personnel Management regulations on salary offset, codified at 5 CFR Part 550, subpart K, and with regulations on administrative offset codified at 31 CFR part 901.

(b) *Scope.* (1) Sections 201.201 through 201.207 establish agency procedures for the collection of certain debts owed the Government.

(2) Sections 201.201 through 201.207 apply to collections by the Commission from:

(i) Federal employees who are indebted to the Commission;

(ii) Employees of the Commission who are indebted to other agencies; and

(iii) Other persons, organizations, or entities that are indebted to the Commission.

(3) Sections 201.201 through 201.207 do not apply:

(i) To debts or claims arising under the Internal Revenue Code of 1986 (26 U.S.C. *et seq.*), the Social Security Act (42 U.S.C. 301 *et seq.*), or the tariff laws of the United States;

(ii) To a situation to which the Contract Disputes Act (41 U.S.C. 601 *et seq.*) applies; or

(iii) In any case where collection of a debt is explicitly provided for or prohibited by another statute (e.g., travel advances in 5 U.S.C. 4108).

(4) Nothing in Sections 201.201 through 201.207 precludes the compromise, suspension, or termination of collection actions where appropriate under the standards implementing the Federal Claims Collection Act (31 U.S.C. 3711 *et seq.*), namely, 31 CFR chapter IX.

[62 FR 38019, July 16, 1997, as amended at 68 FR 32976, June 3, 2003]

§ 201.203 Delegation of authority.

Authority to conduct the following activities is hereby delegated to the Director:

(a) Initiate and effectuate the administrative collection process;

(b) Accept or reject compromise offers and suspend or terminate collection actions where the claim does not exceed $100,000 or such higher amount as the Chairman may from time to time prescribe, exclusive of interest, administrative costs, and penalties as provided herein, as set forth in 31 U.S.C. 3711(a)(2);

(c) Report to consumer reporting agencies certain data pertaining to delinquent debts;

(d) Use offset procedures to effectuate collection; and

(e) Take any other action necessary to facilitate and augment collection in accordance with the policies contained herein and as otherwise provided by law.

§ 201.204 Salary offset.

(a) *Notice requirements before offset where the Commission is the creditor agency*. Deductions under the authority of 5 U.S.C. 5514 will not be made unless the Commission provides the employee with a written Notice of Intent to Offset a minimum of 30 calendar days before salary offset is initiated. The Notice of Intent shall state:

(1) That the Director has reviewed the records relating to the claim and has determined that a debt is owed;

(2) The Director's intention to collect the debt by means of deduction from the employee's current disposable pay account until the debt and all accumulated interest is paid in full;

(3) The amount of the debt and the facts giving rise to the debt;

(4) A repayment schedule that includes the amount, frequency, proposed beginning date, and duration of the intended deductions;

(5) The opportunity for the employee to propose an alternative written schedule for the voluntary repayment of the debt, in lieu of offset, on terms acceptable to the Commission. The employee shall include a justification in the request for the alternative schedule. The schedule shall be agreed to and signed by both the employee and the Director;

(6) An explanation of the Commission's policy concerning interest, penalties, and administrative costs, including a statement that such assessments must be made unless excused in accordance with the Federal Claims Collection Standards;

(7) The employee's right to inspect and copy all records of the Commission not exempt from disclosure pertaining to the debt claimed or to receive copies of such records if the debtor is unable personally to inspect the records, due to geographical or other constraints;

(8) The name, address, and telephone number of the Director to whom requests for access to records relating to the debt must be sent;

(9) The employee's right to a hearing conducted by an impartial hearing official (an administrative law judge or other hearing official not under the supervision or control of the Chairman) with respect to the existence and amount of the debt claimed or the repayment schedule (i.e., the percentage of disposable pay to be deducted each pay period), so long as a request is filed by the employee as prescribed in paragraph (c)(1) of this section;

(10) The name, address, and telephone number of the Director to whom a proposal for voluntary repayment must be sent and who may be contacted concerning procedures for requesting a hearing;

(11) The method and deadline for requesting a hearing;

(12) That the timely filing of a request for a hearing on or before the 15th calendar day following receipt of the Notice of Intent will stay the commencement of collection proceedings;

(13) The name and address of the office to which the request should be sent;

(14) That the Commission will initiate certification procedures to implement a salary offset not less than 30 days from the date of receipt of the Notice of Intent to Offset, unless the employee files a timely request for a hearing;

(15) That a final decision on whether a hearing will be held (if one is requested) will be issued at the earliest practical date;

(16) That any knowingly false or frivolous statements, representations, or evidence may subject the employee to:

(i) Disciplinary procedures appropriate under 5 U.S.C. Chapter 75, 5 CFR part 752, or any other applicable statutes or regulations;

(ii) Penalties under the False Claims Act, 31 U.S.C. 3729–3733, or under any other applicable statutory authority; or

(iii) Criminal penalties under 18 U.S.C. 286, 287, 1001, and 1002 or under any other applicable statutory authority;

(17) Any other rights and remedies available to the employee under statutes or regulations governing the program for which the collection is being made;

(18) That unless there are applicable contractual or statutory provisions to the contrary, amounts paid on or deducted from debts that are later waived or found not to be owed to the United States will be promptly refunded to the employee; and

(19) That proceedings with respect to such debt are governed by 5 U.S.C. 5514.

(b) *Review of Commission records related to the debt.* (1) An employee who desires to inspect or copy Commission records related to a debt owed to the Commission must send a letter to the Director as designated in the Notice of Intent requesting access to the relevant records. The letter must be received in the office of the Director within 15 calendar days after the employee's receipt of the Notice of Intent.

(2) In response to a timely request submitted by the debtor, the Director will notify the employee of the location and time when the employee may inspect and copy records related to the debt.

(3) If the employee is unable personally to inspect the records, due to geographical or other constraints, the Director shall arrange to send copies of such records to the employee.

(c) *Opportunity for a hearing where the Commission is the creditor agency*—(1) *Request for a hearing.* (i) An employee who requests a hearing on the existence or amount of the debt held by the Commission or on the offset schedule proposed by the Commission must send such request to the Director. The request for a hearing must be received by the Director on or before the 15th calendar day following receipt by the employee of the notice.

(ii) The employee must specify whether an oral hearing is requested. If an oral hearing is desired, the request should explain why the matter cannot be resolved by review of the documentary evidence alone. The request must be signed by the employee and must fully identify and explain with reasonable specificity all the facts, evidence, and witnesses, if any, that the employee believes support his or her position.

(2) *Failure to timely submit.* If the employee files a request for hearing after the expiration of the 15-calendar-day period provided for in paragraph (c)(1) of this section, the Director may accept the request if the employee can show that the delay was the result of circumstances beyond his or her control or that he or she failed to receive actual notice of the filing deadline.

(3) *Obtaining the services of a hearing official.* (i) When the debtor is not a Commission employee and the Commission cannot provide a prompt and appropriate hearing before an administrative law judge or other hearing official, the Commission may request a hearing official from an agent of the paying agency, as designated in 5 CFR part 581, appendix A, or as otherwise designated by the paying agency.

(ii) When the debtor is a Commission employee, the Commission may contact any agent of another agency, as designated in 5 CFR part 581, appendix A, or as otherwise designated by the agency, to request a hearing official.

(4) *Procedure*—(i) *Notice.* After the employee requests a hearing, the hearing official shall notify the employee of the form of the hearing to be provided. If the hearing will be oral, the notice shall set forth the date, time, and location of the hearing, which must occur no more than 30 calendar days after the request is received, unless the employee requests that the hearing be delayed. If the hearing will be conducted by examination of documents, the employee shall be notified within 30 calendar days that he or she should submit evidence and arguments in writing to the hearing official.

(ii) *Oral hearing*. An employee who requests an oral hearing shall be provided an oral hearing if the hearing official determines that the matter cannot be resolved by review of documentary evidence alone (e.g., when an issue of credibility or veracity is involved). The hearing need not be an adversarial adjudication, and rules of evidence need not apply. Witnesses who testify in oral hearings shall do so under oath or affirmation. Oral hearings may take the form of, but are not limited to:

(A) Informal conferences with the hearing official in which the employee and agency representative are given full opportunity to present evidence, witnesses, and argument;

(B) Informal meetings in which the hearing examiner interviews the employee; or

(C) Formal written submissions followed by an opportunity for oral presentation.

(iii) *Documentary hearing*. If the hearing official determines that an oral hearing is not necessary, he or she shall make the determination based upon a review of the written record.

(iv) *Record*. The hearing official shall maintain a summary record of any hearing conducted under this section.

(5) *Date of decision*. The hearing official shall issue a written opinion stating his or her decision, based upon all evidence and information developed at the hearing, as soon as practicable after the hearing, but not later than 60 calendar days after the date on which the request was received by the Commission, unless the hearing was delayed at the request of the employee, in which case the 60 day decision period shall be extended by the number of days by which the hearing was postponed. The decision of the hearing official shall be final.

(6) *Content of decision*. The written decision shall include:

(i) A summary of the facts concerning the origin, nature, and amount of the debt;

(ii) The hearing official's findings, analysis, and conclusions; and

(iii) The terms of any repayment schedules, if applicable.

(7) *Failure to appear*. If, in the absence of good cause shown (e.g., illness), the employee or the representative of the Commission fails to appear, the hearing official shall proceed with the hearing as scheduled, and make his or her determination based upon the oral testimony presented and the documentation submitted by both parties. At the request of both parties, the hearing official may schedule a new hearing date. Both parties shall be given reasonable notice of the time and place of this new hearing.

(d) *Certification where the Commission is the creditor agency*. (1) The Director shall issue a certification in all cases where:

(i) The hearing official determines that a debt exists; or

(ii) The employee admits the existence and amount of the debt, for example, by failing to request a hearing.

(2) The certification must be in writing and must state:

(i) That the employee owes the debt;

(ii) The amount and basis of the debt;

(iii) The date the Government's right to collect the debt first accrued;

(iv) That the Commission's regulations have been approved by OPM pursuant to 5 CFR part 550, subpart K;

(v) If the collection is to be made by lump-sum payment, the amount and date such payment will be collected;

(vi) If the collection is to be made in installments, the number of installments to be collected, the amount of each installment, and the date of the first installment, if a date other than the next officially established pay period; and

(vii) The date the employee was notified of the debt, the action(s) taken pursuant to the Commission's regulations, and the dates such actions were taken.

(e) *Voluntary repayment agreements as alternative to salary offset where the Commission is the creditor agency*. (1) In response to a Notice of Intent, an employee may propose to repay the debt in accordance with scheduled installment payments. Any employee who wishes to repay a debt without salary offset shall submit in writing a proposed agreement to repay the debt. The proposal shall set forth a proposed repayment schedule. Any proposal under paragraph (e) of this section must be

received by the Director within 15 calendar days after receipt of the Notice of Intent.

(2) In response to a timely proposal by the debtor, the Director shall notify the employee whether the employee's proposed written agreement for repayment is acceptable. It is within the discretion of the Director to accept, reject, or propose to the debtor a modification of the proposed repayment agreement.

(3) If the Director decides that the proposed repayment agreement is unacceptable, the employee shall have 15 calendar days from the date he or she received notice of the decision in which to file a request for a hearing.

(4) If the Director decides that the proposed repayment agreement is acceptable or the debtor agrees to a modification proposed by the Director, the agreement shall be put in writing and signed by both the employee and the Director.

(f) *Special review where the Commission is the creditor agency*. (1) An employee subject to salary offset or a voluntary repayment agreement may, at any time, request a special review by the Director of the amount of the salary offset or voluntary payment, based on materially changed circumstances, including, but not limited to, catastrophic illness, divorce, death, or disability.

(2) In determining whether, as a result of materially changed circumstances, an offset would prevent the employee from meeting essential subsistence expenses (costs incurred for food, housing, clothing, transportation, and medical care), the employee shall submit to the Director a detailed statement and supporting documents for the employee, his or her spouse, and dependents indicating:

(i) Income from all sources;

(ii) Assets;

(iii) Liabilities;

(iv) Number of dependents;

(v) Expenses for food, housing, clothing, and transportation;

(vi) Medical expenses; and

(vii) Exceptional expenses, if any.

(3) If the employee requests a special review under paragraph (f) of this section, the employee shall file an alternative proposed offset or payment schedule and a statement, with supporting documents, showing why the current salary offset or payments result in extreme financial hardship to the employee.

(4) The Director shall evaluate the statement and supporting documents and determine whether the original offset or repayment schedule imposes extreme financial hardship on the employee. The Director shall notify the employee in writing within 30 calendar days of such determination, including, if appropriate, his or her acceptance of a revised offset or payment schedule.

(5) If the special review results in a revised offset or repayment schedule, the Director shall provide a new certification to the paying agency.

(g) *Notice of salary offset where the Commission is the paying agency*. (1) Upon issuance of a proper certification by the Director (for debts owed to the Commission) or upon receipt of a proper certification from another creditor agency, the Office of Finance shall send the employee a written notice of salary offset. Such notice shall advise the employee:

(i) Of the certification that has been issued by the Director or received from another creditor agency;

(ii) Of the amount of the debt and of the deductions to be made; and

(iii) Of the initiation of salary offset at the next officially established pay interval or as otherwise provided for in the certification.

(2) The Office of Finance shall provide a copy of the notice to the creditor agency and advise such agency of the dollar amount to be offset and the pay period when the offset will begin.

(h) *Procedures for salary offset where the Commission is the paying agency*—(1) *Generally*. (i) The Director shall coordinate salary deductions under this section.

(ii) The Director shall determine the amount of an employee's disposable pay and the amount of the salary offset subject to the requirements in this paragraph.

(iii) Deductions shall begin the pay period following the issuance of the certification by the Director or the receipt by the Office of Finance of the certification from another agency or as soon thereafter as possible.

(2) *Types of collection*—(i) *Lump-sum payment.* If the amount of the debt is equal to or less than 15 percent of the employee's disposable pay, such debt ordinarily will be collected in one lump-sum payment.

(ii) *Installment deductions.* Installment deductions will be made over a period not greater than the anticipated period of employment. The size and frequency of installment deductions will bear a reasonable relation to the size of the debt and the employee's ability to pay. However, the amount deducted for any pay period will not exceed 15 percent of the disposable pay from which the deduction is made unless the employee has agreed in writing to the deduction of a greater amount. The installment payment should normally be sufficient in size and frequency to liquidate the debt in no more than three years. Installment payments of less than $50 should be accepted only in the most unusual circumstances.

(iii) *Lump-sum deductions from final check.* In order to liquidate a debt, a lump-sum deduction exceeding 15 percent of disposable pay may be made pursuant to 31 U.S.C. 3716 and 5 U.S.C. 5514(a)(1) from any final salary payment due a former employee, whether the former employee was separated voluntarily or involuntarily.

(iv) *Lump-sum deductions from other sources.* Whenever an employee subject to salary offset is separated from the Commission, and the balance of the debt cannot be liquidated by offset of the final salary check, the Commission, pursuant to 31 U.S.C. 3716, may offset any later payments of any kind to the former employee to collect the balance of the debt.

(3) *Multiple debts.* Where two or more creditor agencies are seeking salary offset, or where two or more debts are owed to a single creditor agency, the Office of Finance may, at its discretion, determine whether one or more debts should be offset simultaneously within the 15 percent limitation.

(4) *Order of precedence for recovery of debts owed the Government.* (i) For Commission employees, subject to paragraph (h)(3) of this section and (paragraph (h)(4)(ii) of this section, offsets to recover debts owed the United States Government shall be made from disposable pay in the following order of precedence:

(A) Indebtedness due the Commission;

(B) Indebtedness due other agencies.

(ii) In the event that a debt to the Commission is certified while an employee is subject to salary offset to repay another agency, the Office of Finance may, at its discretion, determine whether the debt to the Commission should be repaid before the debt to the other agency, repaid simultaneously, or repaid after the debt to the other agency.

(iii) A levy pursuant to the Internal Revenue Code of 1986 shall take precedence over other deductions under this section, as provided in 5 U.S.C. 5514(d).

(i) *Coordinating salary offset with other agencies*—(1) *Responsibility of the Commission as the creditor agency.* (i) The Director shall be responsible for:

(A) Arranging for a hearing upon proper request by a Federal employee;

(B) Preparing the Notice of Intent to Offset consistent with the requirements of paragraph (a) of this section;

(C) Obtaining hearing officials from other agencies pursuant to paragraph (c)(3) of this section; and

(D) Ensuring that each certification of debt is sent to a paying agency pursuant to paragraph (d)(2) of this section.

(ii) Upon completion of the procedures established in paragraphs (a) through (f) of this section, the Director shall submit a certified debt claim and an installment agreement or other instruction on the payment schedule, if applicable, to the employee's paying agency.

(iii) If the employee is in the process of separating from Government employment, the Commission shall submit its debt claim to the employee's paying agency for collection by lump-sum deduction from the employee's final check. The paying agency shall certify the total amount of its collection and furnish a copy of the certification to the Commission and to the employee.

(iv) If the employee is already separated and all payments due from his or her former paying agency have been paid, the Commission may, unless otherwise prohibited, request that money

due and payable to the employee from the Federal Government be administratively offset to collect the debt.

(v) When an employee transfers to another paying agency, the Commission shall not repeat the procedures described in paragraphs (a) through (f) of this section in order to resume collecting the debt. Instead, the Commission shall review the debt upon receiving the former paying agency's notice of the employee's transfer and shall ensure that collection is resumed by the new paying agency.

(2) *Responsibility of the Commission as the paying agency*—(i) *Complete claim.* When the Commission receives a certified claim from a creditor agency, the employee shall be given written notice of the certification, the date salary offset will begin, and the amount of the periodic deductions. Deductions shall be scheduled to begin at the next officially established pay interval or as otherwise provided for in the certification.

(ii) *Incomplete claim.* When the Commission receives an incomplete certification of debt from a creditor agency, the Commission shall return the debt claim with notice that procedures under 5 U.S.C. 5514 and 5 CFR 550.1104 must be followed and that a properly certified debt claim must be received before action will be taken to collect from the employee's current pay account.

(iii) *Review.* The Commission is not authorized to review the merits of the creditor agency's determination with respect to the amount or validity of the debt certified by the creditor agency.

(iv) *Employees who transfer from one paying agency to another agency.* If, after the creditor agency has submitted the debt claim to the Commission, the employee transfers to an agency outside the Commission before the debt is collected in full, the Commission must certify the total amount collected on the debt. One copy of the certification shall be furnished to the employee and one copy shall be sent to the creditor agency along with notice of the employee's transfer. If the Commission is aware that the employee is entitled to payments from the Civil Service Retirement and Disability Fund, or other similar payments, it must provide written notification to the agency responsible for making such payments that the debtor owes a debt (including the amount) and that the requirements set forth herein and in the Office of Personnel Management's regulation (5 CFR part 550) have been fully met.

(j) Interest, Penalties, and Administrative Costs. Where the Commission is the creditor agency, it shall assess interest, penalties, and administrative costs pursuant to 31 U.S.C. 3717 and 31 CFR 901.9.

(k) *Refunds.* (1) Where the Commission is the creditor agency, it shall promptly refund any amount deducted under the authority of 5 U.S.C. 5514 when:

(i) The debt is compromised or otherwise found not to be owing to the United States; or

(ii) An administrative or judicial order directs the Commission to make a refund.

(2) Unless required by law or contract, refunds under this paragraph (k) shall not bear interest.

(l) *Request from a creditor agency for the services of a hearing official.* (1) The Commission may provide a hearing official upon request of the creditor agency when the debtor is employed by the Commission and the creditor agency cannot provide a prompt and appropriate hearing before a hearing official furnished pursuant to another lawful arrangement.

(2) The Commission may provide a hearing official upon request of a creditor agency when the debtor works for the creditor agency and that agency cannot arrange for a hearing official.

(3) The Director shall arrange for qualified personnel to serve as hearing officials.

(4) Services rendered under this paragraph (l) shall be provided on a fully reimbursable basis pursuant to 31 U.S.C. 1535.

(m) *Non-waiver of rights by payments.* A debtor's payment, whether voluntary or involuntary, of all or any portion of a debt being collected pursuant to this section shall not be construed as a waiver of any rights that the debtor

may have under any statute, regulation, or contract except as otherwise provided by law or contract.

(n) Exception to due process procedures. The procedures set forth in this section shall not apply to adjustments described in 5 U.S.C. 5514(a)(3) and 5 CFR 550.1104(c).

[62 FR 38019, July 16, 1997, as amended at 68 FR 32976, June 3, 2003]

§ 201.205 Salary adjustments.

Any negative adjustment to pay arising out of an employee's election of coverage, or a change in coverage, under a Federal benefits program requiring periodic deductions from pay shall not be considered collection of a ''debt'' for the purposes of this section if the amount to be recovered was accumulated over four pay periods or less. In such cases, the Commission need not comply with § 201.204, but it will provide a clear and concise statement in the employee's earnings statement advising the employee of the previous overpayment at the time the adjustment is made.

§ 201.206 Administrative offset.

(a) *Collection.* The Director may collect a claim pursuant to 31 U.S.C. 3716 from a person, organization, or entity other than an agency of the United States Government by administrative offset of monies payable by the Government. Collection by administrative offset shall be undertaken where the claim is certain in amount, where offset is feasible and desirable and not otherwise prohibited, where the applicable statute of limitations has not expired, and where the offset is in the best interest of the United States.

(b) *Offset prior to completion of procedures.* Prior to the completion of the procedures described in paragraph (c) of this section, the Commission may effect offset if:

(1) Failure to offset would substantially prejudice the Commission's ability to collect the debt; and

(2) The time before the payment is to be made does not reasonably permit completion of the procedures described in paragraph (c) of this section. Such prior offsetting shall be followed promptly by the completion of the procedures described in paragraph (c) of this section.

(c) *Debtor's rights.* (1) Unless the procedures described in paragraph (b) of this section are used, prior to collecting any claim by administrative offset or referring such claim to another agency for collection through administrative offset, the Director shall provide the debtor with the following:

(i) Written notification of the nature and amount of the claim, the intention of the Director to collect the claim through administrative offset, and a statement of the rights of the debtor under this paragraph;

(ii) An opportunity to inspect and copy the records of the Commission not exempt from disclosure with respect to the claim;

(iii) An opportunity to have the Commission's determination of indebtedness reviewed by the Director. Any request for review by the debtor shall be in writing and be submitted to the Commission within 30 calendar days of the date of the notice of the offset. The Director may waive the time limit for requesting review for good cause shown by the debtor. The Commission shall provide the debtor with a reasonable opportunity for an oral hearing when:

(A) An applicable statute authorizes or requires the Commission to consider waiver of the indebtedness involved, the debtor requests waiver of the indebtedness, and the waiver determination turns on an issue of credibility or veracity; or

(B) The debtor requests reconsideration of the debt and the Commission determines that the question of the indebtedness cannot be resolved by review of the documentary evidence, for example, when the validity of the debt turns on an issue of credibility or veracity. Unless otherwise required by law, an oral hearing under this section is not required to be a formal evidentiary hearing, although the Commission shall document all significant matters discussed at the hearing. In those cases where an oral hearing is not required by this section, the Commission shall nevertheless accord the debtor a ''paper hearing,'' (i.e., the

Commission will make its determination on the request for waiver or reconsideration based upon a review of the written record); and

(iv) An opportunity to enter into a written agreement for the repayment of the amount of the claim at the discretion of the Commission.

(2) If the procedures described in paragraph (b) of this section are employed, the procedures described in this paragraph shall be effected after offset.

(d) *Interest.* Pursuant to 31 U.S.C. 3717 and 31 CFR 901.9, the Commission shall assess interest, penalties and administrative costs on debts owed to the United States. The Commission is authorized to assess interest and related charges on debts that are not subject to 31 U.S.C. 3717 to the extent authorized under the common law or other applicable statutory authority.

(e) *Refunds.* Amounts recovered by offset but later found not to be owed to the Government shall be promptly refunded.

(f) *Requests for offset to other Federal agencies.* The Director may request that a debt owed to the Commission be administratively offset against funds due and payable to a debtor by another Federal agency. In requesting administrative offset, the Commission, as creditor, will certify in writing to the Federal agency holding funds of the debtor:

(1) That the debtor owes the debt;

(2) The amount and basis of the debt; and

(3) That the Commission has complied with the requirements of its own administrative offset regulations and the applicable provisions of 31 CFR part 901 with respect to providing the debtor with due process.

(g) *Requests for offset from other Federal agencies.* Any Federal agency may request that funds due and payable to its debtor by the Commission be administratively offset in order to collect a debt owed to such Federal agency by the debtor. The Commission shall initiate the requested offset only upon:

(1) Receipt of written certification from the creditor agency:

(i) That the debtor owes the debt;

(ii) The amount and basis of the debt;

(iii) That the agency has prescribed regulations for the exercise of administrative offset; and

(iv) That the agency has complied with its own administrative offset regulations and with the applicable provisions of 31 CFR part 901, including providing any required hearing or review.

(2) A determination by the Commission that collection by offset against funds payable by the Commission would be in the best interest of the United States as determined by the facts and circumstances of the particular case and that such offset would not otherwise be contrary to law.

[62 FR 38019, July 16, 1997, as amended at 68 FR 32976, June 3, 2003]

§ 201.207 Administrative offset against amounts payable from Civil Service Retirement and Disability Fund

(a) Unless otherwise prohibited by law, the Commission may request that moneys which are due and payable to a debtor from the Civil Service Retirement and Disability Fund be administratively offset in reasonable amounts in order to collect in one full payment or a minimal number of payments debt owed to the Commission by the debtor. Such requests shall be made to the appropriate officials of the Office of Personnel Management in accordance with such regulations as may be prescribed by the Director of that Office.

(b) When making a request for administrative offset under paragraph (a) of this section, the Commission shall include a written certification that:

(1) The debtor owes the Commission a debt, including the amount of the debt;

(2) The Commission has complied with the applicable statutes, regulations, and procedures of the Office of Personnel Management; and

(3) The Commission has complied with the requirements of 31 CFR 901.3, including any required hearing or review.

(c) Once the Commission decides to request administrative offset under paragraph (a) of this section, it shall make the request as soon as practical after completion of the applicable procedures. This will satisfy any requirement that offset be initiated prior to expiration of the applicable statute of limitations. At such time as the debtor

makes a claim for payments from the Fund, if at least a year has elapsed since the offset request was originally made, the debtor shall be permitted to offer a satisfactory repayment plan in lieu of offset upon establishing that changed financial circumstances would render the offset unjust.

(d) If the Commission collects part or all of the debt by other means before deductions are made or completed pursuant to paragraph (a) of this section, the Commission shall act promptly to modify or terminate its request for offset under paragraph (a) of this section.

[62 FR 38019, July 16, 1997, as amended at 68 FR 32976, June 3, 2003]

§ 201.208 Tax refund offset.

(a) *Scope*. The provisions of 26 U.S.C. 6402(d) and 31 U.S.C. 3720A authorize the Secretary of the Treasury to offset a delinquent debt owed to the United States Government from the tax refund due a taxpayer when other collection efforts have failed to recover the amount due.

(b) *Definitions*—(1) *Debt*. Debt means money owed by an individual, organization or entity from sources which include loans insured or guaranteed by the United States and all other amounts due the United States from fees, leases, services, overpayments, civil and criminal penalties, damages, interest, fines, administrative costs, and all other similar sources. A debt becomes eligible for tax refund offset procedures if:

(i) It cannot currently be collected pursuant to the salary offset procedures of 5 U.S.C. 5514(a)(1);

(ii) The debt is ineligible for administrative offset under 31 U.S.C. 3716(a) by reason of 31 U.S.C. 3716(c)(2) or cannot currently be collected by administrative offset under 31 U.S.C. 3716(a); and

(iii) The requirements of this section are otherwise satisfied.

(2) *Dispute*. A dispute is a written statement supported by documentation or other evidence that all or part of an alleged debt is not past due or legally enforceable, that the amount is not the amount currently owed, that the outstanding debt has been satisfied, or, in the case of a debt reduced to judgment, that the judgment has been satisfied or stayed.

(3) *Notice*. Notice means the information sent to the debtor pursuant to § 201.208(d). The date of the notice is the date shown on the notice letter as its date of issuance.

(4) *Past due*. All judgment debts are past due for purposes of this section. Such debts remain past due until paid in full.

(c) The Commission may refer any past due, legally enforceable non-judgment debt of an individual, organization or entity to Treasury for offset if the Commission's or the referring agency's rights of action accrued more than three months but less than ten years before the offset is made. Debts reduced to judgment may be referred at any time. Debts in amounts lower than $25.00 are not subject to referral.

(d) The Commission will provide the debtor with written notice of its intent to offset before initiating the offset. Notice will be mailed to the debtor at the current address of the debtor, as determined from information obtained from the IRS pursuant to 26 U.S.C. 6103(m)(2), (4), (5) or from information regarding the debt maintained by the Commission. The notice sent to the debtor will state the amount of the debt and inform the debtor that:

(1) The debt is past due;

(2) The Commission intends to refer the debt to Treasury for offset from tax refunds that may be due to the taxpayer;

(3) The Commission intends to provide information concerning the delinquent debt exceeding $100 to a consumer reporting bureau unless such debt has already been disclosed; and

(4) The debtor has 65 calendar days from the date of notice in which to present evidence that all or part of the debt is not past due, that the amount is not the amount currently owed, that the outstanding debt has been satisfied, or, if a judgment debt, that the debt has been satisfied, or stayed, before the debt is reported to a consumer reporting agency, if applicable, and referred to Treasury for offset from tax refunds.

(e) If the debtor neither pays the amount due nor presents evidence that the amount is not past due or is satisfied or stayed, the Commission will report the debt to a consumer reporting

agency at the end of the notice period, if applicable, and refer the debt to Treasury for offset from the taxpayer's federal tax refund. The Commission shall certify to Treasury that reasonable efforts have been made by the Commission to obtain payment of such debt.

(f) A debtor may request a review by the Commission if the debtor believes that all or part of the debt is not past due or is not legally enforceable, or, in the case of a judgment debt, that the debt has been stayed or the amount satisfied, as follows:

(1) The debtor must send a written request for review to the Director at the address provided in the notice.

(2) The request must state the amount disputed and the reasons why the debtor believes that the debt is not past due, is not legally enforceable, has been satisfied, or, if a judgment debt, has been satisfied or stayed.

(3) The request must include any documents that the debtor wishes to be considered or state that additional information will be submitted within the time permitted.

(4) If the debtor wishes to inspect records establishing the nature and amount of the debt, the debtor must make a written request to the Director for an opportunity for such an inspection. The office holding the relevant records not exempt from disclosure shall make them available for inspection during normal business hours within one week from the date of receipt of the request.

(5) The request for review and any additional information submitted pursuant to the request must be received by the Director at the address stated in the notice within 65 calendar days of the date of issuance of the notice.

(6) The Commission will review disputes and shall consider its records and any documentation and arguments submitted by the debtor. The Commission's decision to refer to Treasury any disputed portion of the debt shall be made by the Chairman. The Commission shall send a written notice of its decision to the debtor. There is no administrative appeal of this decision.

(7) If the evidence presented by the debtor is considered by a non-Commission agent or other entities or persons acting on the Commission's behalf, the debtor will be accorded at least 30 calendar days from the date the agent or other entity or person determines that all or part of the debt is past-due and legally enforceable to request review by an officer or employee of the Commission of any unresolved dispute.

(8) Any debt that previously has been reviewed pursuant to this section or any other section of this subpart, or that has been reduced to a judgment, may not be disputed except on the grounds of payments made or events occurring subsequent to the previous review or judgment.

(g) The Commission will notify Treasury of any change in the amount due promptly after receipt of payments or notice of other reductions.

(h) In the event that more than one debt is owed, the tax refund offset procedure will be applied in the order in which the debts became past due.

SUBCHAPTER B—NONADJUDICATIVE INVESTIGATIONS

PART 202—INVESTIGATIONS OF COSTS OF PRODUCTION

Sec.

AUTHORITY: Sec. 335, 72 Stat. 680; 19 U.S.C. 1335.

SOURCE: 27 FR 12120, Dec. 7, 1962, unless otherwise noted.

§ 202.1 Applicability of part.

This part 202 applies specifically to investigations under section 366 of the Tariff Act (19 U.S.C. 1336).[1] For other applicable rules see part 201 of this chapter.

§ 202.2 Applications.

(a) *Who may file*. Applications for an investigation to which this part 202 relates may be filed by any firm, association of firms, or corporation engaged in the production of a domestic article, or by any duly authorized representative of the foregoing.

(b) *Requirements for applications*. In addition to conforming with the requirements of § 201.8 of this chapter, applications under this part 202 shall include the following:

(1) A clear statement that they are requests for investigations for the purposes of section 336;

(2) The name or description of the article concerning which an investigation is sought;

(3) A reference to the tariff provision or provisions applicable to such article; and

(4) A statement indicating whether an increase or a decrease in the rate of duty is sought.

(c) *Supporting information*. The applicant must file with his application such supporting information as may be in his possession. As far as practicable, information of the following character should be furnished:

(1) Comparability of the domestic and foreign articles and the degree of competition between them.

(2) Trend in recent years of (i) domestic production, (ii) domestic sales, (iii) imports, (iv) costs of production, and (v) prices.

(3) Evidence of difference between domestic and foreign costs of production of the articles involved.

(4) Areas of greatest competition between the imported and domestic products and the principal market or markets in the United States.

(5) Other relevant factors that constitute, in the opinion of the applicant, an advantage or disadvantage in competition, and any other information which the applicant believes the Commission should consider.

§ 202.3 Preliminary inquiry.

Upon the receipt of an application properly filed, the Commission will make a preliminary inquiry for the purpose of determining whether there is good and sufficient reason for a full investigation. If such determination is in the affirmative, a full investigation will be instituted.

§ 202.4 Public hearing.

A public hearing will be held in connection with each full investigation to which this part 202 relates.

§ 202.5 Type of information to be developed at hearing.

Without excluding other factors, but with a view to assisting parties interested to present information necessary

[1] Section 336(a) of the Tariff Act provides in part that ''(1) upon request of the President, or (2) upon resolution of either or both Houses of Congress, or (3) upon its own motion, or (4) when in the judgment of the Commission there is good and sufficient reason therefor, upon application of any interested party, [the commission] shall investigate the differences in the costs of production of any domestic article and of any like or similar foreign article''. (19 U.S.C. 1336.) The provisions of section 336 of the Tariff Act may not be applied to any article with respect to the importation of which into the United States a foreign trade agreement has been concluded under the Trade Agreements Act of 1934, as amended, or the Trade Expansion Act. (19 U.S.C. 1352(a)).

for the formulation of findings required by the statute, the Commission will expect attention in the hearing to be concentrated upon facts relating to:

(a) The degree of competition between the foreign and domestic articles in the markets of the United States.

(b) The degree of likeness or similarity between grades, classes, and price groups of the American product and the imported article.

(c) Costs of production and importation. Statements of average cost of production, domestic and, so far as known, foreign, may be submitted subject to verification and review in the Commission's investigation. Such statements should include not only the direct costs for materials and labor, commonly termed prime cost, but also indirect costs such as indirect labor, overhead factory expenses, fixed charges, the portion of general and administrative expense chargeable to manufacture, imputed interest on investment equity, and transportation to markets. For the foreign product the expenses (other than duties) incident to importation are also important. Any information which may be available bearing on the general levels of domestic and foreign costs of production, the differentials between particular elements of domestic and foreign costs, and the extent to which invoice or wholesale prices are reliable evidence of foreign costs, will be pertinent.

(d) Other significant advantages or disadvantages in competition.

§ 202.6 Reports.

After the completion of its investigation, the Commission will incorporate its findings in a report, and the report will be transmitted to the President.

PART 204—INVESTIGATIONS OF EFFECTS OF IMPORTS ON AGRICULTURAL PROGRAMS

Sec.

AUTHORITY: 19 U.S.C. 1335.

SOURCE: 27 FR 12121, Dec. 7, 1962, unless otherwise noted.

§ 204.1 Applicability of part.

This part 204 applies specifically to investigations under section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624).[1] For other applicable rules see part 201 of this chapter.

[27 FR 12121, Dec. 7, 1962, as amended at 68 FR 32977, June 3, 2003]

§ 204.2 Investigations.

The Commission will make an investigation for the purposes of section 22(a) of the Agricultural Adjustment

[1] Section 22 provides in part as follows:

''(a) Whenever the Secretary of Agriculture has reason to believe that any article or articles are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with * * * any loan, purchase, or other program or operation undertaken by the Department of Agriculture, or any agency operating under its direction, with respect to any agricultural commodity or product thereof, or to reduce substantially the amount of any product processed in the United States from any agricultural commodity or product thereof with respect to which any such program or operation is being undertaken he shall so advise the President, and, if the President agrees that there is reason for such belief, the President shall cause an immediate investigation to be made by the United States Tariff Commission, which shall give precedence to investigations under this section to determine such facts. Such investigation shall be made after due notice and opportunity for hearing to interested parties, and shall be conducted subject to such regulations as the President shall specify.

* * * * *

''(d) After investigation, report, finding and declaration in the manner provided in the case of a proclamation issued pursuant to subsection (b) of this section, any proclamation or provision of such proclamation may be suspended or terminated by the President whenever he finds and proclaims that the circumstances requiring the proclamation or provision thereof no longer exist or may be modified by the President whenever he finds and proclaims that changed circumstances require such modification to carry out the purposes of this section.'' (7 U.S.C. 624.)

Regulations of the President are set forth in Executive Order 7233 of November 23, 1935.

Act, as amended, only upon request of the President.[2]

[27 FR 12121, Dec. 7, 1962, as amended at 68 FR 32977, June 3, 2003]

§ 204.3 Public hearings.

A public hearing will be held in connection with each investigation to which this part 204 relates. The Foreign Agricultural Service of the U.S. Department of Agriculture may have a representative or representatives at each hearing who shall have the privilege of examining witnesses.

§ 204.4 Supplemental investigations.

An investigation for the purposes of section 22(d) of the Agricultural Adjustment Act, as amended, will be made upon request of the President, or upon the Commission's own motion when in its judgment there is good and sufficient reason therefor. A public hearing will be held in connection with each such supplemental investigation.

§ 204.5 Reports.

After completion of its investigation, the Commission will transmit to the President a report of the results thereof, including its findings and recommendations based thereon, and a statement of the steps taken in the investigation, together with a transcript of the evidence submitted at the hearing. A copy of such report will be transmitted to the Secretary of Agriculture.

[49 FR 32571, Aug. 15, 1984]

[2] Applications for investigations for the purposes of section 22 of this Agricultural Adjustment Act, as amended, must be filed with the Secretary of Agriculture (Executive Order 7233).

PART 205—INVESTIGATIONS TO DETERMINE THE PROBABLE ECONOMIC EFFECT ON THE ECONOMY OF THE UNITED STATES OF PROPOSED MODIFICATIONS OF DUTIES OR OF ANY BARRIER TO (OR OTHER DISTORTION OF) INTERNATIONAL TRADE OR OF TAKING RETALIATORY ACTIONS TO OBTAIN THE ELIMINATION OF UNJUSTIFIABLE OR UNREASONABLE FOREIGN ACTS OR POLICIES WHICH RESTRICT U.S. COMMERCE

Sec.

AUTHORITY: Sec. 335, Tariff Act of 1930 (72 Stat. 680; 19 U.S.C. 1335); sec. 603, Trade Act of 1974 (88 Stat. 2073); (19 U.S.C. 2482).

SOURCE: 42 FR 40426, Aug. 10, 1977, unless otherwise noted.

§ 205.1 Applicability of part.

This part 205 applies to functions and duties of the Commission under sections 131, 301(e)(3), and 503(a) of the Trade Act of 1974. For other applicable rules, see part 201 of this chapter.

Subpart A—Investigations To Determine the Probable Economic Effect of Modifications of United States Duties or of Any Barrier to (or Other Distortion of) International Trade on Domestic Industries and on Consumers

§ 205.2 Applicability of subpart.

This subpart A of part 205 applies to investigations for the purposes of section 131(a)–(b), 131(c), and 503 of the Trade Act of 1974. For other applicable rules, see part 201 of this chapter.

§ 205.3 Investigations under sections 131 and 503 of the Trade Act of 1974.

(a) *Purpose of investigations*—(1) *Sections 131(a)–(b) and 503(a).* Upon the receipt of a list of articles from the President or from the United States Trade Representative as provided in section 131(a) or 503(a), and in Executive Order No. 11846, as amended, which may be considered for modification of United States duties, or as eligible articles for duty-free treatment under the generalized system of preferences, respectively, the Commission shall initiate an investigation to obtain information pertinent to the fomulation of its advice to the President under section 131(b) with respect to such articles to assist him in making an informed judgment as to the impact which might be caused by such duty modifications or duty-free treatment on U.S. manufacturing, agriculture, mining, fishing, labor, and consumers, including whether any reductions in rates of duty should take place over a period longer than the minimum periods provided by section 109(a) of the Trade Act of 1974 (88 Stat. 1985; 19 U.S.C. 2119).

(2) *Section 131(c).* Upon the receipt of a request from the President or from the United States Trade Representative as provided in section 131(c) and in Executive Order No. 11846, as amended, to assist him in his determination of whether to enter into any trade agreement under section 102, the Commission shall institute an investigation to obtain information pertinent to the formulation of its views with respect to the probable economic effects of modifications of any barrier to (or other distortion of) international trade on domestic industries and purchasers and on prices and quantities of articles in the United States.

(b) *Institution and notice of investigation.* An investigation to which this subpart A relates will be instituted promptly after the receipt from the President or the United States Trade Representative of (1) a list of articles which may be considered for duty modifications or duty-free treatment, or (2) a request for an investigation and report concerning the probable economic effects of modifications of any barrier to (or other distortion of) international trade.

(c) *Hearings.* Public hearings will be held in connection with every investigation to which this subpart A relates. For other applicable rules, see § 201.11 of this chapter.

(d) *Report to the President.* After the completion of its investigation, the Commission will incorporate its advice or views in a report which together with hearing transcripts, briefs and other information will be transmitted to the President through the United States Trade Representative.

[42 FR 40426, Aug. 10, 1977, as amended at 63 FR 29351, May 29, 1998]

§ 205.4 [Reserved]

Subpart B—Investigations Concerning the Probable Impact on the Economy of the United States of the President's Taking Retaliatory Action To Obtain the Elimination of Unjustifiable or Unreasonable Foreign Acts or Policies Which Restrict U.S. Commerce

§ 205.5 Applicability of subpart.

This subpart B of part 205 applies to investigations for the purpose of section 301(e)(3) of the Trade Act of 1974. For other applicable rules, see part 201 of this chapter.

§ 205.6 Investigations under section 301(e)(3) of the Trade Act of 1974.

(a) *Purpose of investigation.* The purpose of an investigation by the Commission is to provide the President

with its views pursuant to section 301(e)(3) as to the probable impact on the economy of the United States of imposing retaliatory restrictions on imports into the United States from countries or foreign instrumentalities which maintain restrictions against U.S. exports.

(b) *Institution and notice of investigation.* An investigation to which this subpart B relates will be instituted promptly after the receipt from the President of a request for the views of the Commission with regard to the matters indicated in paragraph (a) of this section.

(c) *Public hearings.* If, in the judgment of the Commission, there is good and sufficient reason therefor, the Commission, in the course of its investigation, will hold a public hearing and afford interested parties opportunity to appear and be heard at such hearing. If no notice of public hearing issues concurrently with a notice of investigation, any interested party who believes that a public hearing should be held may, within thirty (30) days after the date of publication in the FEDERAL REGISTER of the notice of investigation, submit a request in writing to the Secretary of the Commission that a public hearing be held, stating the reasons for such request.

(d) *Written statements.* Any interested party may submit to the Commission a written statement of information pertinent to the subject matter of such investigation not later than thirty (30) days after a notice of investigation under paragraph (b) of this section is published in the FEDERAL REGISTER. If a public hearing is held in the investigation, a statement may be received in lieu of or in addition to appearance at the hearing. Statements shall conform with the requirements for documents set forth in §§ 201.6 and 201.8 of this chapter.

(e) *Report to the President.* After the completion of its investigation, the Commission will incorporate its views in a report which will be transmitted promptly to the President.

PART 206—INVESTIGATIONS RELATING TO GLOBAL AND BILATERAL SAFEGUARD ACTIONS, MARKET DISRUPTION, TRADE DIVERSION, AND REVIEW OF RELIEF ACTIONS

Sec.

AUTHORITY: 19 U.S.C. 1335, 2112 note, 2251–2254, 2436, 2451–2451a, 3351–3382, 3805 note, 4051–4065, and 4101.

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, the authority citation for part 206 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

AUTHORITY: 19 U.S.C. 1335, 2112 note, 2251–2254, 2436, 3805 note, 4051–4065, 4101, and 4551–4552.

SOURCE: 59 FR 5091, Feb. 3, 1994, unless otherwise noted.

§ 206.1 Applicability of part.

Part 206 applies to proceedings of the Commission under sections 201–202, 204, 406, and 421–422 of the Trade Act of 1974, as amended (2251–2252, 2254, 2436, 2451–2451a), sections 301–317 of the North American Free Trade Agreement Implementation Act (19 U.S.C. 3351–3382) (hereinafter NAFTA Implementation Act), and the statutory provisions listed in § 206.31 of this part 206 that implement bilateral safeguard provisions in other free trade agreements into which the United States has entered.

[77 FR 37805, June 25, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.1 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.1 Applicability of part.

This part applies to proceedings of the Commission under sections 201–202, 204, and 406 of the Trade Act of 1974, as amended (19 U.S.C. 2251–2252, 2254, and 2436), and sections 301–302 of the United States-Mexico-Canada Implementation Act (19 U.S.C. 4551–4552) (hereinafter USMCA Implementation Act), and the statutory provisions listed in § 206.31 that implement bilateral safeguard provisions in other free trade agreements into which the United States has entered.

Subpart A—General

SOURCE: 60 FR 10, Jan. 3, 1995, unless otherwise noted.

§ 206.2 Identification of type of petition or request.

An investigation under this part may be commenced on the basis of a petition, request, resolution, or motion as provided for in the statutory provisions listed in §§ 206.1 and 206.31. Each petition or request, as the case maybe, filed by an entity representative of a domestic industry under this part shall state clearly on the first page thereof ''This is a [petition or request] under section [citing the statutory provision] and Subpart [B, C, D, E, F, or G] of part 206 of the rules of practice and procedure of the United States International Trade Commission.'' A paper original and eight (8) true paper copies of a petition, request, resolution, or motion shall be filed. One copy of any exhibits, appendices, and attachments to the

document shall be filed in electronic form on CD–ROM, DVD, or other portable electronic format approved by the Secretary.

[80 FR 39380, July 9, 2015]

§ 206.3 Institution of investigations; publication of notice; and availability for public inspection.

(a) *Institution of investigation and publication of notice.* Except as provided in § 206.15(b), the Commission, after receipt of a petition or request under part 206, properly filed, will promptly institute an appropriate investigation and publish notice thereof in the FEDERAL REGISTER. The Commission also will institute an investigation and publish a notice following receipt of a resolution or on the Commission's own motion under part 206.

(b) *Contents of notice.* The notice will identify the petitioner or other requestor, the imported article that is the subject of the investigation and its tariff subheading, the nature and timing of the determination to be made, the time and place of any public hearing, dates of deadlines for filing briefs, statements, and other documents, limits on page lengths for posthearing briefs, the place at which the petition or request and any other documents filed in the course of the investigation may be inspected, and the name, address, and telephone number of the office that may be contacted for more information. The Commission will provide the same sort of information in its notice when the investigation was instituted following receipt of a resolution or on the Commission's own motion.

(c) *Availability for public inspection.* The Commission will promptly make each petition, request, resolution, or Commission motion available for public inspection (with the exception of confidential business information).

[60 FR 10, Jan. 3, 1995, as amended at 67 FR 8190, Feb. 22, 2002; 68 FR 32977, June 3, 2003]

§ 206.4 Notification of other agencies.

For each investigation subject to provisions of part 206, the Commission will transmit copies of the petition, request, resolution, or Commission motion as required by the relevant statute, along with a copy of the notice of investigation.

[67 FR 8190, Feb. 22, 2002]

§ 206.5 Public hearing.

(a) *Investigations under subpart B of this part.* A public hearing on the question of injury and a second public hearing on remedy (if necessary) will be held in connection with each investigation instituted under subpart B of this part after reasonable notice thereof has been caused to be published in the FEDERAL REGISTER. A hearing on remedy is not necessary if the Commission has made a negative determination on the question of injury.

(b) *Investigations under subpart C, D, E, or G of this part.* A public hearing on the subject of injury and remedy will be held in connection with each investigation instituted under subpart C or D of this part or section 406(a) of the Trade Act and subpart E of this part, after reasonable notice thereof has been published in the FEDERAL REGISTER. The Commission also will conduct a public hearing in each investigation instituted under section 421(b) or (o) of the Trade Act and subpart E of this part or section 422(b) of the Act and subpart G. The FEDERAL REGISTER notice announcing the institution of such an investigation will list the date, time, and location of the hearing, the subjects to be addressed, and the procedures to be followed.

(c) *Investigations under subpart F of this part.* A public hearing on the subject of whether an action taken under section 203 of the Trade Act of 1974 should be extended will be held in connection with each investigation instituted under subpart F of this part after reasonable notice thereof has been published in the FEDERAL REGISTER.

(d) *Opportunity to appear and to cross-question.* All interested parties and consumers, including any association representing the interests of consumers, will be afforded an opportunity to be present, to present evidence, to comment on the adjustment plan, if any, submitted in the case of an investigation under section 202(b) of the Trade Act of 1974, and to be heard at such hearings. All interested parties and consumers, including any association

representing the interests of consumers, will be afforded an opportunity to cross-question interested parties making presentations at the hearing.

[60 FR 10, Jan. 3, 1995, as amended at 67 FR 8190, Feb. 22, 2002]

§ 206.6 Report to the President.

(a) *In general.* The Commission will include in its report to the President the following:

(1) The determination made and an explanation of the basis for the determination;

(2) If the determination is affirmative or if the Commission is equally divided in its determination, such remedy recommendation or proposal as may be appropriate under the statute and an explanation of the basis for each recommendation or proposal.

(3) Any dissenting or separate views by members of the Commission regarding the determination and any recommendations;

(b) *Additional findings and information.* (1) In the case of a determination made under section 202(b) of the Trade Act, the Commission will also include in its report the following:

(i) The findings with respect to the results of an examination of the factors other than imports which may be a cause of serious injury or threat thereof to the domestic industry;

(ii) A copy of the adjustment plan, if any, submitted by the petitioner;

(iii) Commitments submitted and information obtained by the Commission regarding steps that firms and workers in the domestic industry are taking, or plan to take, to facilitate positive adjustment to import competition;

(iv) A description of the short- and long-term effects that implementation of the action recommended is likely to have on the petitioning domestic industry, other domestic industries, and consumers; and

(v) A description of the short- and long-term effects of not taking the recommended action on the petitioning domestic industry, its workers and communities where production facilities of such industry are located, and other domestic industries.

(2) In the case of a determination made under section 302(b) of the NAFTA Implementation Act, the Commission will also include in its report the findings with respect to the results of an examination of the factors other than imports which may be a cause of serious injury or threat thereof to the domestic industry.

(3) In the case of a determination made under section 421(b) or 422(b) of the Trade Act, the Commission will also include in its report a description of—

(i) The short- and long-term effects that implementation of the action recommended is likely to have on the petitioning domestic industry, on other domestic industries, and on consumers; and

(ii) The short- and long-term effects of not taking the recommended action on the petitioning domestic industry, its workers, and the communities where production facilities of such industry are located, and on other domestic industries.

[60 FR 10, Jan. 3, 1995, as amended at 67 FR 8190, Feb. 22, 2002; 77 FR 3925, Jan. 26, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.6 was amended by revising paragraph (b)(2), effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

* * * * *

(b) * * *

(2) In the case of a determination made under section 301(b) of the USMCA Implementation Act, the Commission will include in its report the findings with respect to the results of an examination of the factors other than imports which may be a cause of serious injury or threat thereof to the domestic industry.

* * * * *

§ 206.7 Confidential business information; furnishing of nonconfidential summaries thereof.

(a) *Nonrelease of information.* Except as provided for in § 206.17, in the case of an investigation under subpart B, C, D, F, or G of this part or an investigation under section 422 of the Trade Act and subpart E of this part, the Commission will not release information which the Commission considers to be confidential business information within the meaning of § 201.6 of this chapter unless

the party submitting the confidential business information had notice, at the time of submission, that such information would be released by the Commission, or such party subsequently consents to the release of the information. When appropriate, the Commission will include confidential business information in reports transmitted to the President and the Trade Representative; such reports will be marked as containing confidential business information, and a nonconfidential version of such report will be made available to the public.

(b) *Nonconfidential summaries.* Except as the Commission may otherwise provide, a party submitting confidential business information shall also submit to the Commission, at the time it submits such information, a nonconfidential summary of the information. If a party indicates that the confidential business information cannot be summarized, it shall state in writing the reasons why a summary cannot be provided. If the Commission finds that a request for confidentiality is not warranted and if the party concerned is either unwilling to make the information public or to authorize its disclosure in generalized or summarized form, the Commission may disregard the submission.

[60 FR 10, Jan. 3, 1995, as amended at 67 FR 8190, Feb. 22, 2002]

§ 206.8 Service, filing, and certification of documents.

(a) *Certification.* Any person submitting factual information on behalf of the petitioner or any other interested party for the consideration of the Commission in the course of an investigation to which this part pertains, and any person submitting a response to a Commission questionnaire issued in connection with an investigation to which this part pertains, must certify that such information is accurate and complete to the best of the submitter's knowledge.

(b) *Service.* Any party submitting a document for the consideration of the Commission in the course of an investigation to which this part pertains shall, in addition to complying with § 201.8 of this chapter, serve a copy of the public version of such document on all other parties to the investigation in the manner prescribed in § 201.16 of this chapter, and, when appropriate, serve a copy of the confidential version of such document in the manner provided for in § 206.17(f). The Secretary shall promptly notify a petitioner when, before the establishment of a service list under § 206.17(a)(4), an application under § 206.17(a) is approved. When practicable, this notification shall be made by facsimile transmission. A copy of the petition including all confidential business information shall then be served by petitioner on those approved applicants in accordance with this section within two (2) calendar days of the time notification is made by the Secretary. If a document is filed before the Secretary's issuance of the service list provided for in § 201.11 of this chapter or the administrative protective order list provided for in § 206.17, the document need not be accompanied by a certificate of service, but the document shall be served on all appropriate parties within two (2) days of the issuance of the service list or the administrative protective order list and a certificate of service shall then be filed. Notwithstanding § 201.16 of this chapter, petitions, briefs, and testimony filed by parties shall be served by hand or, if served by mail, by overnight mail or its equivalent. Failure to comply with the requirements of this rule may result in removal from status as a party to the investigation. The Commission shall make available, upon request, to all parties to the investigation a copy of each document, except transcripts of hearings, confidential business information, privileged information, and information required to be served under this section, placed in the docket file of the investigation by the Commission.

(c) *Filing.* Documents to be filed with the Commission must comply with applicable rules, including § 201.8 of this chapter. If the Commission establishes a deadline for the filing of a document, and the submitter includes confidential business information in the document, the submitter is to file and, if the submitter is a party, serve the confidential version of the document on the deadline and may file and serve the

nonconfidential version of the document no later than one business day after the deadline for filing the document. The confidential version shall enclose all confidential business information in brackets and have the following warning marked on every page: ''Bracketing of CBI not final for one business day after date of filing.'' The bracketing becomes final one business day after the date of filing of the document, *i.e.*, at the same time as the nonconfidential version of the document is due to be filed. Until the bracketing becomes final, recipients of the document may not divulge any part of the contents of the document to anyone not subject to the administrative protective order issued in the investigation. If the submitter discovers it has failed to bracket correctly, the submitter may file a corrected version or portion of the confidential document at the same time as the nonconfidential version is filed. No changes to the document other than bracketing and deletion of confidential business information are permitted after the deadline. Failure to comply with this paragraph may result in the striking of all or a portion of a submitter's document.

(d) *Briefs.* All briefs filed in proceedings subject to this part shall be filed electronically, and eight (8) true paper copies shall be filed on the same business day.

[59 FR 5091, Feb. 3, 1994, as amended at 68 FR 32977, June 3, 2003; 76 FR 61942, Oct. 6, 2011]

Subpart B—Investigations Relating to Global Safeguard Actions

SOURCE: 60 FR 12, Jan. 3, 1995, unless otherwise noted.

§ 206.11 Applicability of subpart.

This subpart B applies specifically to investigations under section 202(b) of the Trade Act. For other applicable rules, see subpart A of this part and part 201 of this chapter.

§ 206.12 Definitions applicable to subpart B of this part.

For the purposes of this subpart, the following terms have the meanings hereby assigned to them:

(a) *Adjustment plan* means a plan to facilitate positive adjustment to import competition submitted by a petitioner to the Commission and USTR either with the petition or at any time within 120 days after the date of filing of the petition.

(b) *Commitment* means commitments that a firm in the domestic industry, a certified or recognized union or group of workers in the domestic industry, a local community, a trade association representing the domestic industry, or any other person or group of persons submits to the Commission regarding actions such persons and entities intend to take to facilitate positive adjustment to import competition.

§ 206.13 Who may file a petition.

A petition under this subpart B may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, that is representative of a domestic industry producing an article like or directly competitive with a foreign article that is allegedly being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to such domestic industry.

§ 206.14 Contents of petition.

A petition under this subpart B shall include specific information in support of the claim that an article is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article. Such petition shall state whether provisional relief is sought because *critical circumstances* exist or because the imported article is a *perishable agricultural product*. In addition, such petition shall include the following information, to the extent that such information is available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

(a) *Product description.* The name and description of the imported article concerned, specifying the United States

tariff provision under which such article is classified and the current tariff treatment thereof, and the name and description of the like or directly competitive domestic article concerned;

(b) *Representativeness.* (1) The names and addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition and the locations of their establishments in which the domestic article is produced;

(2) The percentage of domestic production of the like or directly competitive domestic article that such represented firms and/or workers account for and the basis for claiming that such firms and/or workers are representative of an industry; and

(3) The names and locations of all other producers of the domestic article known to the petitioner;

(c) *Import data.* Import data for at least each of the most recent 5 full years which form the basis of the claim that the article concerned is being imported in increased quantities, either actual or relative to domestic production;

(d) *Domestic production data.* Data on total U.S. production of the domestic article for each full year for which data are provided pursuant to paragraph (c) of this section;

(e) *Data showing injury.* Quantitative data indicating the nature and extent of injury to the domestic industry concerned:

(1) With respect to serious injury, data indicating:

(i) A significant idling of production facilities in the industry, including data indicating plant closings or the underutilization of production capacity;

(ii) The inability of a significant number of firms to carry out domestic production operations at a reasonable level of profit; and

(iii) Significant unemployment or underemployment within the industry; and/or

(2) With respect to the threat of serious injury, data relating to:

(i) A decline in sales or market share, a higher and growing inventory (whether maintained by domestic producers, importers, wholesalers, or retailers), and a downward trend in production, profits, wages, productivity, or employment (or increasing underemployment);

(ii) The extent to which firms in the industry are unable to generate adequate capital to finance the modernization of their domestic plants and equipment, or are unable to maintain existing levels of expenditures for research and development;

(iii) The extent to which the U.S. market is the focal point for the diversion of exports of the article concerned by reason of restraints on exports of such article to, or on imports of such article into, third country markets; and

(3) Changes in the level of prices, production, and productivity.

(f) *Cause of injury.* An enumeration and description of the causes believed to be resulting in the injury, or threat thereof, described under paragraph (e) of this section, and a statement regarding the extent to which increased imports, either actual or relative to domestic production, of the imported article are believed to be such a cause, supported by pertinent data;

(g) *Relief sought and purpose thereof.* A statement describing the import relief sought, including the type, amount, and duration, and the specific purposes therefor, which may include facilitating the orderly transfer of resources to more productive pursuits, enhancing competitiveness, or other means of adjustment to new conditions of competition;

(h) *Efforts to compete.* A statement on the efforts being taken, or planned to be taken, or both, by firms and workers in the industry to make a positive adjustment to import competition.

(i) *Imports from NAFTA countries.* Quantitative data indicating the share of imports accounted for by imports from each NAFTA country (Canada and Mexico), and petitioner's view on the extent to which imports from such NAFTA country or countries are contributing importantly to the serious injury, or threat thereof, caused by total imports of such article.

(j) *Critical circumstances.* If the petition alleges the existence of critical circumstances, a statement setting forth the basis for the belief that there

is clear evidence that increased imports (either actual or relative to domestic production) of the article are a substantial cause of serious injury, or the threat thereof, to the domestic industry, and that delay in taking action would cause damage to that industry that would be difficult to repair, and a statement concerning the provisional relief requested and the basis therefor.

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, §206.14 was amended by revising paragraph (i), effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.14 Contents of petition.

* * * * *

(i) *Imports from USMCA countries.* Quantitative data indicating the share of imports accounted for by imports from each USMCA country (Canada and Mexico), and petitioner's view on the extent to which imports from such USMCA country or countries are contributing importantly to the serious injury, or threat thereof, caused by total imports of such article.

* * * * *

§ 206.15 Institution of investigation.

(a) *In general.* Except as provided in paragraph (b) of this section, the Commission, after receipt of a petition under this subpart B, properly filed, will promptly institute an appropriate investigation and will cause a notice thereof to be published in the FEDERAL REGISTER.

(b) *Exceptions*—(1) *Reinvestigation within one (1) year.* Except for good cause determined by the Commission to exist, no new investigation will be made under section 202 of the Trade Act with respect to the same subject matter as a previous investigation under section 202 unless one (1) year has elapsed since the Commission made its report to the President of the results of such previous investigation.

(2) *Articles subject to prior action.* No new investigation will be made under section 202 of the Trade Act with respect to an article that is or has been the subject of an action under section 203(a) (3)(A), (B), (C), or (E) of the Trade Act if the last day on which the President could take action under section 203 of the Trade Act in the new investigation is a date earlier than that permitted under section 203(e)(7) of the Trade Act.

(3) *Articles subject to the Textiles Agreement.* No investigation will be made under section 202 of the Trade Act with respect to an article that is the subject of the WTO Agreement on Textiles and Clothing unless the United States has integrated the article into GATT 1994 and the Secretary of Commerce has published notice to such effect in the FEDERAL REGISTER.

(4) *Perishable agricultural product.* An entity of the type described in §206.13 that represents a domestic industry producing a perishable agricultural product may petition for provisional relief with respect to such product only if such product has been subject to monitoring by the Commission for not less than 90 days as of the date the allegation of injury is included in the petition.

§ 206.16 Industry adjustment plan and commitments.

(a) *Adjustment plan.* A petitioner may submit to the Commission, either with the petition or at any time within 120 days after the date of filing of the petition, a plan to facilitate positive adjustment to import competition.

(b) *Commitments.* If the Commission makes an affirmative injury determination, any firm in the domestic industry, certified or recognized union or group of workers in the domestic industry, local community, trade association representing the domestic industry, or any other person or group of persons may, individually, submit to the Commission commitments regarding actions such persons and entities intend to take to facilitate positive adjustment to import competition.

§ 206.17 Limited disclosure of certain confidential business information under administrative protective order.

(a)(1) *Disclosure.* Upon receipt of a timely application filed by an authorized applicant, as defined in paragraph (a)(3) of this section, which describes in general terms the information requested, and sets forth the reasons for the request (*e.g.*, all confidential business information properly disclosed

pursuant to this section for the purpose of representing an interested party in investigations pending before the Commission), the Secretary shall make available all confidential business information contained in Commission memoranda and reports and in written submissions filed with the Commission at any time during the investigation (except privileged information, classified information, and specific information of a type which there is a clear and compelling need to withhold from disclosure, *e.g.*, trade secrets) to the authorized applicant under an administrative protective order described in paragraph (b) of this section. The term ''confidential business information'' is defined in § 201.6 of this chapter.

(2) *Application.* An application under paragraph (a)(1) of this section must be made by an authorized applicant on a form adopted by the Secretary or a photocopy thereof. A signed application shall be filed electronically. An application on behalf of an authorized applicant must be made no later than the time that entries of appearance are due pursuant to § 201.11 of this chapter. In the event that two or more authorized applicants represent one interested party who is a party to the investigation, the authorized applicants must select one of their number to be lead authorized applicant. The lead authorized applicant's application must be filed no later than the time that entries of appearance are due. Provided that the application is accepted, the lead authorized applicant shall be served with confidential business information pursuant to paragraph (f) of this section. The other authorized applicants representing the same party may file their applications after the deadline for entries of appearance but at least five days before the deadline for filing posthearing briefs in the investigation, and shall not be served with confidential business information.

(3) *Authorized applicant.* (i) Only an authorized applicant may file an application under this subsection. An authorized applicant is:

(A) An attorney for an interested party which is a party to the investigation;

(B) A consultant or expert under the direction and control of a person under paragraph (a)(3)(i)(A) of this section;

(C) A consultant or expert who appears regularly before the Commission and who represents an interested party which is a party to the investigation; or

(D) A representative of an interested party which is a party to the investigation, if such interested party is not represented by counsel.

(ii) In addition, an authorized applicant must not be involved in competitive decisionmaking for an interested party which is a party to the investigation. Involvement in ''competitive decisionmaking'' includes past, present, or likely future activities, associations, and relationships with an interested party which is a party to the investigation that involve the prospective authorized applicant's advice or participation in any of such party's decisions made in light of similar or corresponding information about a competitor (pricing, product design, etc.).

(iii) For purposes of this § 206.17, the term *interested party* means:

(A) A foreign manufacturer, producer, or exporter, or the United States importer, of an article which is the subject of an investigation under this section or a trade or business association a majority of the members of which are producers, exporters, or importers of such article;

(B) The government of a country in which such article is produced or manufactured;

(C) A manufacturer, producer, or wholesaler in the United States of a like or directly competitive article;

(D) A certified union or recognized union or group of workers which is representative of an industry engaged in the manufacture, production, or wholesale of a like or directly competitive article in the United States;

(E) A trade or business association a majority of whose members manufacture, produce, or wholesale a like or directly competitive article in the United States; and

(F) An association, a majority of whose members is composed of interested parties described in paragraphs (a)(3)(iii) (C), (D), or (E) of this section

with respect to a like or directly competitive article.

(4) *Forms and determinations.* (i) The Secretary may adopt, from time to time, forms for submitting requests for disclosure pursuant to an administrative protective order incorporating the terms of this rule. The Secretary shall determine whether the requirements for release of information under this rule have been satisfied. This determination shall be made concerning specific confidential business information as expeditiously as possible but in no event later than fourteen (14) days from the filing of the information, except if the submitter of the information objects to its release or the information is unusually voluminous or complex, in which case the determination shall be made within thirty (30) days from the filing of the information. The Secretary shall establish a list of parties whose applications have been granted. The Secretary's determination shall be final.

(ii) Should the Secretary determine pursuant to this section that materials sought to be protected from public disclosure by a person do not constitute confidential business information or were not required to be served under paragraph (f) of this section, then the Secretary shall, upon request, issue an order on behalf of the Commission requiring the return of all copies of such materials served in accordance with paragraph (f) of this section.

(iii) The Secretary shall release confidential business information only to an authorized applicant whose application has been accepted and who presents the application along with adequate personal identification; or a person described in paragraph (b)(1)(iv) of this section who presents a copy of the statement referred to in that paragraph along with adequate personal identification.

(b) *Administrative protective order.* The administrative protective order under which information is made available to the authorized applicant shall require the applicant to submit to the Secretary a personal sworn statement that, in addition to such other conditions as the Secretary may require, the applicant shall:

(1) Not divulge any of the confidential business information obtained under the administrative protective order and not otherwise available to the applicant, to any person other than

(i) Personnel of the Commission concerned with the investigation,

(ii) The person or agency from whom the confidential business information was obtained,

(iii) A person whose application for access to confidential business information under the administrative protective order has been granted by the Secretary, and

(iv) Other persons, such as paralegals and clerical staff, who are employed or supervised by an authorized applicant; who have a need thereof in connection with the investigation; who are not involved in competitive decisionmaking on behalf of an interested party which is a party to the investigation; and who have signed a statement in a form approved by the Secretary that they agree to be bound by the administrative protective order (the authorized applicant shall be responsible for retention and accuracy of such forms and shall be deemed responsible for such persons' compliance with the administrative protective order);

(2) Use such confidential business information solely for the purposes of representing an interested party in the Commission investigation then in progress;

(3) Not consult with any person not described in paragraph (b)(1) of this section concerning such confidential business information without first having received the written consent of the Secretary and the party or the attorney of the party from whom such confidential business information was obtained;

(4) Whenever materials (*e.g.,* documents, computer disks, etc.) containing such confidential business information are not being used, store such material in a locked file cabinet, vault, safe, or other suitable container;

(5) Serve all materials containing confidential business information as directed by the Secretary and pursuant to paragraph (f) of this section;

(6) Transmit all materials containing confidential business information with a cover sheet identifying the materials

as containing confidential business information;

(7) Comply with the provisions of this section;

(8) Make true and accurate representations in the authorized applicant's application and promptly notify the Secretary of any changes that occur after the submission of the application and that affect the representations made in the application (*e.g.*, change in personnel assigned to the investigation);

(9) Report promptly and confirm in writing to the Secretary any breach of the administrative protective order; and

(10) Acknowledge that breach of the administrative protective order may subject the authorized applicant to such sanctions or other actions as the Commission deems appropriate.

(c) *Final disposition of material released under administrative protective order.* At such date as the Secretary may determine appropriate for particular data, each authorized applicant shall return or destroy all copies of materials released to authorized applicants pursuant to this section and all other materials containing confidential business information, such as charts or notes based on any such information received under administrative protective order, and file with the Secretary a certificate attesting to his personal, good faith belief that all copies of such material have been returned or destroyed and no copies of such material have been made available to any person to whom disclosure was not specifically authorized.

(d) *Commission responses to a breach of administrative protective order.* A breach of an administrative protective order may subject an offender to:

(1) Disbarment from practice in any capacity before the Commission along with such person's partners, associates, employer, and employees, for up to seven years following publication of a determination that the order has been breached;

(2) Referral to the United States Attorney;

(3) In the case of an attorney, accountant, or other professional, referral to the ethics panel of the appropriate professional association;

(4) Such other administrative sanctions as the Commission determines to be appropriate, including public release of or striking from the record any information or briefs submitted by, or on behalf of, the offender or the party represented by the offender, denial of further access to confidential business information in the current or any future investigations before the Commission, and issuance of a public or private letter of reprimand; and

(5) Such other actions, including but not limited to, a warning letter, as the Commission determines to be appropriate.

(e) *Breach investigation procedure.* (1) The Commission shall determine whether any person has violated an administrative protective order, and may impose sanctions or other actions in accordance with paragraph (d) of this section. At any time within sixty (60) days of the later of

(i) The date on which the alleged violation occurred or, as determined by the Commission, could have been discovered through the exercise of reasonable and ordinary care; or

(ii) The completion of an investigation conducted under this subpart, the Commission may commence an investigation of any breach of an administrative protective order alleged to have occurred at any time during the pendency of the investigation, including all appeals, remands, and subsequent appeals. Whenever the Commission has reason to believe that a person may have breached an administrative protective order issued pursuant to this section, the Secretary shall issue a letter informing such person that the Commission has reason to believe a breach has occurred and that the person has a reasonable opportunity to present his views on whether a breach has occurred. If subsequently the Commission determines that a breach has occurred and that further investigation is warranted, then the Secretary shall issue a letter informing such person of that determination and that the person has a reasonable opportunity to present his views on whether mitigating circumstances exist and on the appropriate sanction to be imposed, but no longer on whether a breach has

occurred. Once such person has been afforded a reasonable opportunity to present his views, the Commission shall determine what sanction if any to impose.

(2) Where the sanction imposed is a private letter of reprimand, the Secretary shall expunge the sanction from the recipient's record two (2) years from the date of issuance of the sanction, provided that

(i) The recipient has not received another unexpunged sanction pursuant to this section at any time prior to the end of the two year period, and

(ii) The recipient is not the subject of an investigation for possible breach of administrative protective order under this section at the end of the two year period. Upon the completion of such a pending breach investigation without the issuance of a sanction, the original sanction shall be expunged. The Secretary shall notify a sanction recipient in the event that the sanction is expunged.

(f) *Service*. (1) Any party filing written submissions which include confidential business information to the Commission during an investigation shall at the same time serve complete copies of such submissions upon all authorized applicants specified on the list established by the Secretary pursuant to paragraph (a)(4) of this section, and, except as provided in §206.8(c), a nonconfidential version on all other parties. All such submissions must be accompanied by a certificate attesting that complete copies of the submission have been properly served. In the event that a submission is filed before the Secretary's list is established, the document need not be accompanied by a certificate of service, but the submission shall be served within two (2) days of the establishment of the list and a certificate of service shall then be filed.

(2) A party may seek an exemption from the service requirement of paragraph (f)(1) of this section for particular confidential business information by filing a request for exemption from disclosure in accordance with paragraph (g) of this section. The Secretary shall promptly respond to the request. If a request is granted, the Secretary shall accept the information. The party shall file three versions of the submission containing the information in accordance with paragraph (g) of this section, and serve the submission in accordance with the requirements of §206.8(b) and paragraph (f)(1) of this section, with the specific information as to which exemption from disclosure under administrative protective order has been granted redacted from the copies served. If a request is denied, the copy of the information lodged with the Secretary shall promptly be returned to the requester.

(3) The Secretary shall not accept for filing into the record of an investigation submissions filed without a proper certificate of service. Failure to comply with paragraph (f) of this section may result in denial of party status and such sanctions as the Commission deems appropriate. Confidential business information in submissions must be clearly marked as such when submitted, and must be segregated from other material being submitted.

(g) *Exemption from disclosure*—(1) *In general*. Any person may request exemption from the disclosure of confidential business information under administrative protective order, whether the person desires to include such information in a petition filed under this subpart B, or any other submission to the Commission during the course of an investigation. Such a request shall only be granted if the Secretary finds that such information is nondisclosable confidential business information. As defined in §201.6(a)(2) of this chapter, nondisclosable confidential business information is privileged information, classified information, or specific information (*e.g.*, trade secrets) of a type for which there is a clear and compelling need to withhold from disclosure.

(2) *Request for exemption*. A request for exemption from disclosure must be filed with the Secretary in writing with the reasons therefor. At the same time as the request is filed, one copy of the confidential business information in question must be lodged with the Secretary solely for the purpose of obtaining a determination as to the request. The confidential business information for which exemption from disclosure is sought shall remain the

property of the requester, and shall not become or be incorporated into any agency record until such time as the request is granted. A request should, when possible, be filed two business days prior to the deadline, if any, for filing the document in which the information for which exemption from disclosure is sought is proposed to be included. The Secretary shall promptly notify the requester as to whether the request has been approved or denied.

(3) *Procedure if request is approved*. If the request is approved, the person shall file three versions of the submission containing the nondisclosable confidential business information in question. One version shall contain all confidential business information, bracketed in accordance with § 201.6 of this chapter and § 206.8(c), with the specific information as to which exemption from disclosure was granted enclosed in triple brackets. This version shall have the following warning marked on every page: ''CBI exempted from disclosure under APO enclosed in triple brackets.'' The other two versions shall conform to and be filed in accordance with the requirements of § 201.6 of this chapter and § 206.8(c), except that the specific information as to which exemption from disclosure was granted shall be redacted from those versions of the submission.

(4) *Procedure if request is denied*. If the request is denied, the copy of the information lodged with the Secretary shall promptly be returned to the requester.

[60 FR 12, Jan. 3, 1995, as amended at 68 FR 32977, June 3, 2003; 70 FR 8511, Feb. 22, 2005; 76 FR 61942, Oct. 6, 2011]

§ 206.18 Time for determinations, reporting.

(a) *In general*. The Commission will make its determination with respect to injury within 120 days after the date on which the petition is filed, the request or resolution is received, or the motion is adopted, as the case may be, except that—

(1) If the Commission determines before the 100th day that the investigation is extraordinarily complicated, the Commission will make its determination within 150 days; or

(2) If critical circumstances are alleged, the Commission will make its determination within 120 days after completion of its investigation with respect to critical circumstances. The Commission will make its report to the President at the earliest practicable time, but not later than 180 days (240 days if critical circumstances are alleged) after the date on which the petition is filed, the request or resolution is received, or the motion is adopted, as the case may be.

(b) *Perishable agricultural product*. In the case of a request in a petition for provisional relief with respect to a perishable agricultural product that has been the subject of monitoring by the Commission, the Commission will report its determination and any finding to the President not later than 21 days after the date on which the request for provisional relief is received.

(c) *Critical circumstances*. If petitioner alleges the existence of critical circumstances in the petition, the Commission will report its determination regarding such allegation and any finding on or before the 60th day after such filing date.

§ 206.19 Public report.

Upon making a report to the President of the results of an investigation to which this subpart B relates, the Commission will make such report public (with the exception of information which the Commission determines to be confidential) and cause a summary thereof to be published in the FEDERAL REGISTER.

Subpart C—Investigations Relating to a Surge in Imports From a NAFTA Country

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, Subpart C was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

Subpart C—Investigations Relating to a Surge in Imports From a USMCA Country

§ 206.21 Applicability of subpart.

This subpart C applies specifically to investigations under section 312(c) of the NAFTA Implementation Act. For

other applicable rules, see subpart A of this part and part 201 of this chapter.

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.21 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.21 Applicability of subpart.

This subpart applies specifically to investigations under section 302 of the USMCA Implementation Act (19 U.S.C. 4552). For other applicable rules, see subpart A of this part and part 201 of this chapter.

§ 206.22 Definition applicable to subpart C.

For the purposes of this subpart, the term *surge* means a significant increase in imports over the trend for a recent representative base period.

§ 206.23 Who may file a request.

If the President, under section 312(b) of the NAFTA Implementation Act, has excluded imports from a NAFTA country or countries from an action under chapter 1 of title II of the Trade Act of 1974, any entity that is representative of an industry for which such action is being taken may request the Commission to conduct an investigation to determine whether a surge in such imports undermines the effectiveness of the action.

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.23 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.23 Who may file a request.

If the President, under section 302(b) of the USMCA Implementation Act (19 U.S.C. 4552(b)), has excluded imports from a USMCA country or countries from an action under chapter 1 of title II of the Trade Act of 1974, any entity that is representative of an industry for which such action is being taken may request the Commission to conduct an investigation to determine whether a surge in such imports undermines the effectiveness of the action.

§ 206.24 Contents of request.

The request for an investigation shall include the following information:

(a) The identity of the entity submitting the request; a description of the relief action the effectiveness of which is allegedly being undermined; and a description of the imported article, identifying the United States tariff provision under which it is classified, and the name of the country or countries from which the surge in imports is alleged to be coming;

(b) The information required in § 206.14(b) of this subpart concerning representativeness of the entity filing the request;

(c) Data concerning imports from the NAFTA country or countries that form the basis of requestor's claim that a surge in imports has occurred;

(d) Information supporting the claim that such surge in imports undermines the effectiveness of the relief action.

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.24 was amended by revising paragraph (c), effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.24 Contents of request.

* * * * *

(c) Data concerning imports from the USMCA country or countries that form the basis of requestor's claim that a surge in imports has occurred;

* * * * *

§ 206.25 Time for reporting.

The Commission will submit the findings of its investigation to the President no later than 30 days after the request is received.

§ 206.26 Public report.

Upon making a report to the President of the results of an investigation to which this subpart C relates, the Commission will make such report public (with the exception of any confidential business information) and cause a summary thereof to be published in the FEDERAL REGISTER.

Subpart D—Investigations Relating to Bilateral Safeguard Actions

§ 206.31 Applicability of subpart.

This subpart D applies specifically to investigations under section 311(b) of the United States-Australia Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Bahrain Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the

United States-Chile Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Colombia Trade Promotion Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act (19 U.S.C. 4061(b)), section 211(b) of the United States-Jordan Free Trade Area Implementation Act (19 U.S.C. 2112 note), section 311(b) of the United States-Korea Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Morocco Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 302(b) of the NAFTA Implementation Act (19 U.S.C. 3352(b)), section 311(b) of the United States-Oman Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Panama Trade Promotion Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Peru Trade Promotion Agreement Implementation Act (19 U.S.C. 3805 note), and section 311(b) of the United States-Singapore Free Trade Agreement Implementation Act (19 U.S.C. 3805 note). For other applicable rules, see subpart A of this part and part 201 of this chapter.

[77 FR 3926, Jan. 26, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, § 206.31 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.31 Applicability of subpart.

This subpart applies specifically to investigations under section 311(b) of the United States-Australia Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Bahrain Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Colombia Trade Promotion Agreement Implementation Act (19 U.S.C. 3805 note), section 211(b) of the United States-Jordan Free Trade Area Implementation Act (19 U.S.C. 2112 note), section 311(b) of the United States-Korea Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Morocco Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Oman Free Trade Agreement Implementation Act (19 U.S.C. 3805 note), section 311(b) of the United States-Panama Trade Promotion Agreement Implementation Act (19 U.S.C. 3805 note), and section 311(b) of the United States-Singapore Free Trade Agreement Implementation Act (19 U.S.C. 3805 note). For other applicable rules, see subpart A of this part and part 201 of this chapter.

§ 206.32 Definitions applicable to subpart D.

For the purposes of this subpart, the following terms have the meanings hereby assigned to them:

(a) The term *substantial cause* has the same meaning as in section 202(b)(1)(B) of the Trade Act.

(b) The terms *domestic industry*, *serious injury*, and *threat of serious injury* have the same meanings as in section 202(c)(6) of the Trade Act.

(c) *Critical circumstances* mean such circumstances as are described in section 202(d) of the Trade Act;

(d) *Perishable agricultural product* means any agricultural product or citrus product, including livestock, which is the subject of monitoring pursuant to section 202(d) of the Trade Act.

(e) *Korean motor vehicle article* means a good provided for in heading 8703 or 8704 of the U.S. Harmonized Tariff Schedule that qualifies as an originating good under section 202(b) of the United States-Korea Free Trade Agreement Implementation Act.

[77 FR 3926, Jan. 26, 2012, as amended at 77 FR 37805, June 25, 2012]

§ 206.33 Who may file a petition.

(a) *In general.* A petition under this subpart D may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, that is representative of a domestic industry producing an article that is like or directly competitive with an article that is allegedly, as a result of the reduction or elimination of a duty provided for under a free trade agreement listed in paragraph (b) of this section, being imported into the United States in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that imports of the article constitute a substantial cause of serious injury, or (except in the case of a Canadian article) threat thereof, to

such domestic industry. Unless the implementation statute provides otherwise, a petition may be filed only during the transition period of the particular free trade agreement.

(b) *List of free trade agreements.* The free trade agreements referred to in paragraph (a) of this section include the United States-Australia Free Trade Agreement, the United States-Bahrain Free Trade Agreement, the United States-Chile Free Trade Agreement, the United States-Colombia Trade Promotion Agreement, the Dominican Republic-Central America-United States Free Trade Agreement, the United States-Jordan Free Trade Area Agreement, the United States-Korea Free Trade Agreement, the United States-Morocco Free Trade Agreement, the North American Free Trade Agreement (NAFTA), the United States-Oman Free Trade Agreement, the United States-Panama Trade Promotion Agreement, the United States-Peru Trade Promotion Agreement, and the United States-Singapore Free Trade Agreement, to the extent that such agreements have entered into force.

(c) *Critical circumstances.* An entity of the type described in paragraph (a) of this section that represents a domestic industry may allege that critical circumstances exist and petition for provisional relief with respect to imports if such product is from Australia, Canada, Jordan, Korea, Mexico, Morocco, or Singapore.

(d) *Perishable agricultural product.* An entity of the type described in paragraph (a) of this section that represents a domestic industry producing a perishable agricultural product may petition for provisional relief with respect to imports of such product from Australia, Canada, Jordan, Korea, Mexico, Morocco, or Singapore, but only if such product has been subject to monitoring by the Commission for not less than 90 days as of the date the allegation of injury is included in the petition.

(e) *Korean motor vehicle article.* An entity of the type described in paragraph (a) of this section that is filing a petition with respect to a product from Korea shall state whether it represents a domestic industry producing an article that is like or directly competitive with a Korean motor vehicle article.

[77 FR 3926, Jan. 26, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14890, Mar. 10, 2023, §206.33 was amended by revising paragraphs (a) through (d), effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.33 Who may file a petition.

(a) *In general.* A petition under this subpart may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, that is representative of a domestic industry producing an article that is like or directly competitive with an article that is allegedly, as a result of the reduction or elimination of a duty provided for under a free trade agreement listed in paragraph (b) of this section, being imported into the United States in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that imports of the article constitute a substantial cause of serious injury, or threat thereof, to such domestic industry. Unless the implementation statute provides otherwise, a petition may be filed only during the transition period of the particular free trade agreement.

(b) *List of free trade agreements.* The free trade agreements referred to in paragraph (a) of this section include the United States-Australia Free Trade Agreement, the United States-Bahrain Free Trade Agreement, the United States-Colombia Trade Promotion Agreement, the United States-Jordan Free Trade Area Agreement, the United States-Korea Free Trade Agreement, the United States-Morocco Free Trade Agreement, the United States-Oman Free Trade Agreement, the United States-Panama Trade Promotion Agreement, and the United States-Singapore Free Trade Agreement, to the extent that such agreements have entered into force.

(c) *Critical circumstances.* An entity of the type described in paragraph (a) of this section that represents a domestic industry may allege that critical circumstances exist and petition for provisional relief with respect to imports if such product is from Australia, Jordan, Korea, Morocco, or Singapore.

(d) *Perishable agricultural product.* An entity of the type described in paragraph (a) of this section that represents a domestic industry producing a perishable agricultural product may petition for provisional relief with respect to imports of such product from Australia, Jordan, Korea, Morocco, or Singapore, but only if such product has been subject to monitoring by the Commission for

not less than 90 days as of the date the allegation of injury is included in the petition.

* * * * *

§ 206.34 Contents of petition.

A petition under this subpart D shall include specific information in support of the claim that, as a result of the reduction or elimination of a duty provided for under a free trade agreement listed in § 206.33(b), an article is being imported into the United States in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that imports of the article constitute a substantial cause of serious injury, or (except in the case of a Canadian article) threat thereof, to the domestic industry producing an article that is like or directly competitive with the imported article. If provisional relief is requested in a petition concerning an article from Australia, Canada, Jordan, Korea, Mexico, Morocco, or Singapore, the petition shall state whether provisional relief is sought because *critical circumstances* exist or because the imported article is a *perishable agricultural product*. In addition, a petition filed under this subpart D shall include the following information, to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

(a) *Product description*. The name and description of the imported article concerned, specifying the United States tariff provision under which such article is classified and the current tariff treatment thereof, and the name and description of the like or directly competitive domestic article concerned;

(b) *Representativeness*. (1) The names and addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition and the locations of their establishments in which the domestic article is produced;

(2) The percentage of domestic production of the like or directly competitive domestic article that such represented firms and/or workers account for and the basis for claiming that such firms and/or workers are representative of an industry; and

(3) The names and locations of all other producers of the domestic article known to the petitioner;

(c) *Import data*. Import data for at least each of the most recent 5 full years that form the basis of the claim that the article concerned is being imported in increased quantities in absolute terms;

(d) *Domestic production data*. Data on total U.S. production of the domestic article for each full year for which data are provided pursuant to paragraph (c) of this section;

(e) *Data showing injury*. Quantitative data for each of the most recent 5 full years indicating the nature and extent of injury to the domestic industry concerned:

(1) With respect to serious injury, data indicating:

(i) A significant idling of production facilities in the industry, including data indicating plant closings or the underutilization of production capacity;

(ii) The inability of a significant number of firms to carry out domestic production operations at a reasonable level of profit; and

(iii) Significant unemployment or underemployment within the industry; and/or

(2) With respect to the threat of serious injury, data relating to:

(i) A decline in sales or market share, a higher and growing inventory (whether maintained by domestic producers, importers, wholesalers, or retailers), and a downward trend in production, profits, wages, productivity, or employment (or increasing underemployment);

(ii) The extent to which firms in the industry are unable to generate adequate capital to finance the modernization of their domestic plants and equipment, or are unable to maintain existing levels of expenditures for research and development;

(iii) The extent to which the U.S. market is the focal point for the diversion of exports of the article concerned by reason of restraints on exports of such article to, or on imports of such article into, third country markets; and

(3) Changes in the level of prices, production, and productivity.

(f) *Cause of injury.* An enumeration and description of the causes believed to be resulting in the injury, or threat thereof, described under paragraph (e) of this section, and a statement regarding the extent to which increased imports of the subject article are believed to be such a cause, supported by pertinent data;

(g) *Relief sought and purpose thereof.* A statement describing the import relief sought, including the type, amount, and duration, and the specific purposes therefor, which may include facilitating the orderly transfer of resources to more productive pursuits, enhancing competitiveness, or other means of adjustment to new conditions of competition;

(h) *Efforts to compete.* A statement on the efforts being taken, or planned to be taken, or both, by firms and workers in the industry to make a positive adjustment to import competition.

(i) *Critical circumstances.* If the petition alleges the existence of critical circumstances, a statement setting forth the basis for the belief that there is clear evidence that increased imports (either actual or relative to domestic production) of the article are a substantial cause of serious injury, or the threat thereof, to the domestic industry, and that delay in taking action would cause damage to that industry that would be difficult to repair, and a statement concerning the provisional relief requested and the basis therefor.

[77 FR 3926, Jan. 26, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14891, Mar. 10, 2023, § 206.34 was amended by revising the introductory text, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.34 Contents of petition.

A petition under this subpart shall include specific information in support of the claim that, as a result of the reduction or elimination of a duty provided for under a free trade agreement listed in § 206.33(b), an article is being imported into the United States in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that imports of the article constitute a substantial cause of serious injury, or threat thereof, to the domestic industry producing an article that is like or directly competitive with the imported article. If provisional relief is requested in a petition concerning an article from Australia, Jordan, Korea, Morocco, or Singapore, the petition shall state whether provisional relief is sought because critical circumstances exist or because the imported article is a perishable agricultural product. In addition, a petition filed under this subpart shall include the following information, to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

* * * * *

§ 206.35 Time for determinations, reporting.

(a) *In general.* The Commission will make its determination with respect to injury within 120 days (180 days if critical circumstances are alleged) after the date on which the investigation is initiated. The Commission will make its report to the President no later than 30 days after the date on which its determination is made.

(b) *Perishable agricultural product.* In the case of a request in a petition for provisional relief with respect to a perishable agricultural product that has been the subject of monitoring by the Commission, the Commission will report its determination and any finding to the President not later than 21 days after the date on which the request for provisional relief is received.

(c) *Critical circumstances.* If petitioner alleges the existence of critical circumstances in the petition, the Commission will report its determination regarding such allegation and any finding on or before the 60th day after such filing date.

[77 FR 3927, Jan. 26, 2012]

§ 206.36 Public report.

Upon making a report to the President of the results of an investigation to which this subpart D relates, the Commission will make such report public (with the exception of information which the Commission determines to be confidential) and cause a summary thereof to be published in the FEDERAL REGISTER.

§ 206.37 Limited disclosure of certain confidential business information under administrative protective order.

Except in the case of an investigation under the United States-Jordan Free Trade Area Implementation Act or the NAFTA, the Secretary shall make available to authorized applicants, in accordance with the provisions of § 206.17, confidential business information obtained in an investigation under this subpart.

[77 FR 3927, Jan. 26, 2012]

EFFECTIVE DATE NOTE: At 88 FR 14891, Mar. 10, 2023, § 206.37 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

§ 206.37 Limited disclosure of certain confidential business information under administrative protective order.

Except in the case of an investigation under the United States-Jordan Free Trade Area Implementation Act, the Secretary shall make available to authorized applicants, in accordance with the provisions of § 206.17, confidential business information obtained in an investigation under this subpart.

Subpart E—Investigations for Relief From Market Disruption

§ 206.41 Applicability of subpart.

This subpart E applies specifically to investigations under section 406(a) or 421(b) or (o) of the Trade Act. For other applicable rules, see subpart A of this part and part 201 of this chapter.

[59 FR 5091, Feb. 3, 1994, as amended at 67 FR 8190, Feb. 22, 2002]

§ 206.42 Who may file a petition.

(a) A petition under section 406(a) of the Trade Act may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, that is representative of a domestic industry producing an article with respect to which there are imports of a like or directly competitive article which is the product of a Communist country, which imports, allegedly, are increasing rapidly, either absolutely or relative to domestic production, so as to be a significant cause of material injury, or the threat thereof, to such domestic industry.

(b) A petition under section 421(b) or (o) of the Trade Act may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, which is representative of an industry.

[67 FR 8191, Feb. 22, 2002]

§ 206.43 Contents of a petition under section 406(a) of the Trade Act.

A petition for relief under section 406(a) of the Trade Act shall include specific information in support of the claim that imports of an article that are the product of a Communist country which are like or directly competitive with an article produced by a domestic industry, are increasing rapidly, either absolutely or relative to domestic production, so as to be a significant cause of material injury, or the threat thereof, to such domestic industry. In addition, such petition shall, to the extent practicable, include the following information:

(a) *Product description.* The name and description of the imported article concerned, specifying the United States tariff provision under which such article is classified and the current tariff treatment thereof, and the name and description of the like or directly competitive domestic article concerned;

(b) *Representativeness.* (1) The names and addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition and the locations of their establishments in which the domestic article is produced; (2) the percentage of domestic production of the like or directly competitive domestic article that such represented firms and/or workers account for and the basis for asserting that petitioner is representative of an industry; and (3) the names and locations of all other producers of the domestic article known to the petitioner;

(c) *Import data.* Import data for at least each of the most recent 5 full years which form the basis of the claim that imports from a Communist country of an article like or directly competitive with the article produced by the domestic industry concerned are increasing rapidly, either absolutely or relative to domestic production;

(d) *Domestic production data.* Data on total U.S. production of the domestic article for each full year for which data are provided pursuant to paragraph (c) of this section;

(e) *Data showing injury.* Quantitative data indicating the nature and extent of injury to the domestic industry concerned:

(1) With respect to material injury, data indicating:

(i) An idling of production facilities in the industry, including data indicating plant closings or the underutilization of production capacity;

(ii) The inability of a number of firms to carry out domestic production operations at a reasonable level of profit; and

(iii) Unemployment or underemployment within the industry; and/or

(2) With respect to the threat of material injury, data relating to:

(i) A decline in sales or market share, a higher and growing inventory (whether maintained by domestic producers, importers, wholesalers, or retailers), and a downward trend in production, profits, wages, or employment (or increasing underemployment);

(ii) The extent to which firms in the industry are unable to generate adequate capital to finance the modernization of their domestic plants and equipment, or are unable to maintain existing levels of expenditures for research and development; and

(iii) The extent to which the U.S. market is the focal point for the diversion of exports of the article concerned by reason of restraints on exports of such article to, or on imports of such article into, third country markets;

(f) *Cause of injury.* An enumeration and description of the causes believed to be resulting in the material injury, or threat thereof, described in paragraph (e) of this section; information relating to the effect of imports of the subject merchandise on prices in the United States for like or directly competitive articles; evidence of disruptive pricing practices, or other efforts to unfairly manage trade patterns; and a statement regarding the extent to which increased imports, either actual or relative to domestic production, of the imported article are believed to be such a cause, supported by pertinent data;

(g) *Relief sought and purpose thereof.* A statement describing the import relief sought.

[59 FR 5091, Feb. 3, 1994, as amended at 67 FR 8191, Feb. 22, 2002]

§ 206.44 Contents of a petition under section 421(b) or (o) of the Trade Act.

(a) *Petitions under section 421(b).* (1) A petition for relief under section 421(b) of the Trade Act shall provide specific information in support of the claim that products of the People's Republic of China are being imported into the United States in such increased quantities or under such conditions as to cause or threaten to cause market disruption to the domestic producers of like or directly competitive products. In addition, such petition shall include the information described in paragraphs (b) through (j) of this section. The petition shall provide the information required by this paragraph and paragraphs (b) through (j) of this section to the extent that such information is reasonably available to the petitioner with due diligence.

(2) If the petition fails to provide any item of information specified in paragraphs (b) through (j) of this section, the petition shall include a certification that such information was not reasonably available to the petitioner.

(b) *Product description.* Each petition shall include the name and description of the imported product concerned, specifying the United States tariff provision under which such product is classified and the current tariff treatment thereof, and the name and description of the like or directly competitive domestic product concerned.

(c) *Representativeness.* Each petition shall include:

(1) The names and street addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition, the locations of the establishments in which each such firm produces the domestic product, and the telephone number and contact person(s) for each such firm;

(2) The percentage of domestic production of the like or directly competitive domestic product that such represented firms and/or workers account for and the basis for asserting that petitioner is representative of an industry; and

(3) The names and street addresses of all other producers of the domestic product known to the petitioner, and the telephone number and contact person(s) for each such producer.

(d) *Import data.* Each petition shall include import data for at least each of the most recent 5 full years which form the basis of the claim that imports from the People's Republic of China of a product like or directly competitive with the product produced by the domestic industry concerned are increasing rapidly, either absolutely or relatively.

(e) *Domestic production data.* Each petition shall include data on total U.S. production of the domestic product for each full year for which data are provided pursuant to paragraph (d) of this section.

(f) *Data showing injury and/or threat of injury.* Each petition shall include the following quantitative data indicating the nature and extent of injury to the domestic industry concerned:

(1) With respect to material injury, information, including data on production, capacity, capacity utilization, shipments, net sales, profits, employment, productivity, inventories, and expenditures on capital and research and development, indicating:

(i) An idling of production facilities in the industry, including data indicating plant closings or the underutilization of production capacity;

(ii) The inability of a number of firms to carry out domestic production operations at a reasonable level of profit; and

(iii) Unemployment or underemployment within the industry; and/or

(2) With respect to the threat of material injury, data relating to:

(i) Declines in sales or market share, increases in inventory (whether maintained by domestic producers, importers, wholesalers, retailers, or producers or exporters in the People's Republic of China), and/or a downward trend in production, profits, wages, or employment (or increasing underemployment);

(ii) The extent to which firms in the industry are unable to generate adequate capital to finance the modernization of their domestic plants and equipment, or are unable to maintain existing levels of expenditures for research and development;

(iii) The extent to which the U.S. market is the focal point for the diversion of exports of the article concerned by reason of restraints on exports of such article to, or on imports of such article into, third country markets; and

(iv) Data regarding productive capacity in the People's Republic of China, any unused productive capacity, and any potential for product shifting in the People's Republic of China.

(g) *Cause of injury.* Each petition shall enumerate and describe the causes believed to be resulting in the material injury, or threat thereof, described in paragraph (f) of this section. The petition shall provide information relating to the effect of imports of the subject merchandise on prices in the United States for like or directly competitive articles. The petition shall also include a statement regarding the extent to which increased imports, either actual or relative, of the imported product are believed to be such a cause, supported by pertinent data.

(h) *Critical circumstances.* If the petition alleges that critical circumstances exist within the meaning of section 421(i)(1) of the Trade Act, the petition shall provide detailed information supporting that claim as well as detailed information demonstrating that delay in taking action under section 421 of the Act would cause damage to the relevant domestic industry that would be difficult to repair.

(i) *Relief sought and purpose thereof.* The petition shall include a statement describing the import relief sought under section 421(i)(4) and/or section 421(a) of the Trade Act and the purpose thereof.

(j) *Additional information.* The petition shall include:

(1) The names of all U.S. importers and all producers in China of the subject merchandise known to petitioner, and the street address, telephone and

fax number, and primary contact person(s) for each such importer and producer in China;

(2) A detailed description of each product for which the petitioner requests the Commission to seek pricing information in its questionnaires, and an explanation of why the petitioner believes the Commission should collect pricing information for each such product;

(3) For each domestic producer represented by petitioner, the company names of its 10 largest purchasers, and the street address, telephone number, and primary contact person(s) for each such purchaser;

(4) For each allegation of lost sales and/or lost revenues, supporting information with regard to each such alleged loss, including the name of the company represented by petitioner that lost the sale or revenue, the name of the company that captured the sale or whose competition resulted in lost revenue (including company street address, company contact person, and telephone and fax numbers for each contact person), the date and total value of the lost sale or lost revenue, and the total quantity of product involved (by weight or number of units).

(k) *Petitions under section 421(o).* A petition under section 421(o) of the Trade Act shall include evidence of representativeness, as described in paragraph (b) of this section, as well as specific information in support of the claim that action under section 421 of the Act continues to be necessary to prevent or remedy market disruption. The information provided in support of that claim should take into account factors such as those specified in paragraphs (c) through (g) of this section. To comply with this paragraph, the petition should contain all relevant information that is reasonably available to the petitioner with due diligence.

[67 FR 8191, Feb. 22, 2002, as amended at 68 FR 65167, Nov. 19, 2003]

§ 206.44a Special rules for conducting investigations under section 421(b) of the Trade Act.

(a) *Service of the petition.* (1)(i) The Secretary shall promptly notify a petitioner when, before the establishment of a service list under § 206.17(a)(4) of this part, he or she approves an application under § 206.17(a)(2) of this part pursuant to § 206.47. When practicable, this notification shall be made by facsimile transmission. The petitioner shall then serve a copy of the petition, including all confidential business information, on the approved lead authorized applicants in accord with § 206.17(f) within 2 calendar days of the time notification is made by the Secretary.

(ii) Upon establishment and issuance of the service list, the petitioner shall serve the lead authorized applicants enumerated on the list established by the Secretary pursuant to § 206.17(a)(4) that have not been served pursuant to paragraph (a)(1)(i) of this section within 2 calendar days of the establishment and issuance of the Secretary's list.

(2) As the Secretary adds new authorized applicants to the service list described in paragraph (a)(1) of this section, the Secretary shall notify the petitioner and issue an amended list, and the petitioner shall serve new lead authorized applicants with a copy of the petition in the same manner as under paragraph (a)(1)(i) of this section.

(3) The petitioner shall serve a copy of the non-confidential version of the petition on those persons enumerated on the list established by the Secretary pursuant to § 201.11(d) of this chapter within 2 calendar days of the establishment and issuance of the Secretary's list, and on any additional persons within 2 calendar days of receiving notification from the Secretary of an amended list.

(4) The petitioner shall attest service of the petition by filing a certificate of service with the Commission.

(b) *Comment on information.* The parties shall have an opportunity to file comments on any information disclosed to them after they have filed their posthearing brief. Comments shall concern only such information, and shall not exceed 15 pages of textual material, double-spaced and on single-sided stationery measuring 8½ × 11 inches. A comment may address the accuracy, reliability, or probative value of such information by reference to information elsewhere in the record, in which case the comment shall identify where in the record such information is

found. New factual information and arguments based on that information shall be disregarded. The date on which such comments must be filed will be specified by the Commission when it specifies the time that information will be disclosed. The record shall close on the date such comments are due, except with respect to changes in bracketing of confidential business information permitted by § 206.8(c) of this part.

[68 FR 65168, Nov. 19, 2003]

§ 206.45 Time for reporting.

(a) In an investigation under section 406(a) of the Trade Act, the Commission will make its report to the President at the earliest practical time, but not later than 3 months after the date on which the petition is filed, the request or resolution is received, or the motion is adopted, as the case may be.

(b) In an investigation under section 421(b) of the Trade Act, the Commission will transmit to the President and the United States Trade Representative its determination at the earliest practicable time, but in no case later than 60 days (or 90 days in the case of a petition requesting provisional relief under section 421(i) of the Act) after the date on which the petition is filed, the request or resolution is received, or the motion is adopted. The Commission will transmit its report to the President and the Trade Representative no later than 20 days after the transmittal of the determination.

(c) In an investigation under section 421(b) of the Trade Act in which the petition requests provisional relief under section 421(i) of the Act, the Commission will transmit to the President and the Trade Representative its determination and report with respect to section 421(i) of the Act no later than 45 days after the petition is filed.

(d) In an investigation under section 421(o) of the Trade Act, the Commission shall transmit to the President a report on its investigation and determination not later than 60 days before the action under section 421(m) of the Trade Act is to terminate.

(e) *Date of filing.* Any petition under this subpart E that is filed after 12:00 noon shall be deemed to be filed on the next business day.

[67 FR 8192, Feb. 22, 2002, as amended at 70 FR 8511, Feb. 22, 2005]

§ 206.46 Public report.

Upon making a report to the President of the results of an investigation to which this subpart E relates, the Commission will make such report public (with the exception of information which the Commission determines to be confidential) and cause a summary thereof to be published in the FEDERAL REGISTER.

[59 FR 5091, Feb. 3, 1994. Redesignated at 67 FR 8191, Feb. 22, 2002]

§ 206.47 Limited disclosure of certain confidential business information under administrative protective order.

In an investigation under section 421(b) or (o) of the Trade Act, the Secretary shall make confidential business information available to authorized applicants, subject to the provisions of § 206.17.

[67 FR 8192, Feb. 22, 2002]

Subpart F—Monitoring; Advice As to Effect of Extension, Reduction, Modification, or Termination of Relief Action

SOURCE: 60 FR 10, Jan. 3, 1995, unless otherwise noted.

§ 206.51 Applicability of subpart.

This subpart F applies specifically to investigations under section 204 of the Trade Act. For other applicable rules, see subpart A of this part and part 201 of this chapter.

§ 206.52 Monitoring.

(a) *In general.* As long as any import relief imposed by the President pursuant to section 203 of the Trade Act remains in effect, the Commission will monitor developments with respect to the domestic industry, including the progress and specific efforts made by workers and firms in the industry to make a positive adjustment to import competition.

(b) *Reports.* Whenever the initial period of import relief, or any extension thereof, exceeds three (3) years, the Commission will submit a report on the results of such monitoring to the President and the Congress. Such report will be submitted not later than the date which is the mid-point of the initial period of import relief, or any extension thereof. In the course of preparing each such report, the Commission will hold a hearing at which interested persons will be given a reasonable opportunity to be present, to produce evidence, and to be heard.

(c) Limited disclosure of certain confidential business information under administrative protective order. Upon receipt of a timely application filed by an authorized applicant, the Secretary shall make available to an authorized applicant under administrative protective order all confidential business information contained in Commission memoranda and reports and in written submissions filed with the Commission at any time during an investigation under this section with respect to an article that was the subject of an affirmative Commission determination under section 202 of the Trade Act (except privileged information, classified information, and specific information of a type which there is a clear and compelling need to withhold from disclosure). Such disclosure shall be made in the manner provided for and in accordance with the procedures set forth in § 206.17. The provisions in paragraphs (d) and (e) of § 206.17 relating to Commission responses to a breach of an administrative protective order and breach procedure shall apply with respect to orders issued under this paragraph.

[60 FR 10, Jan. 3, 1995, as amended at 66 FR 32218, June 14, 2001]

§ 206.53 Investigations to advise the President as to the probable economic effect of reduction, modification, or termination of action.

Upon the request of the President, the Commission will conduct an investigation for the purpose of gathering information in order that it might advise the President of its judgment as to the probable economic effect on the industry concerned of any reduction, modification, or termination of the action taken under section 203 of the Trade Act which is under consideration.

§ 206.54 Investigations with respect to extension of action.

(a) *Institution of investigations.* Upon the request of the President, or upon petition on behalf of the industry concerned, the Commission will investigate to determine whether an action taken under section 203 of the Trade Act continues to be necessary to prevent or remedy serious injury and whether there is evidence that the industry is making a positive adjustment to import competition.

(b) *Who may file a petition.* A petition under this § 206.54 may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, which is representative of the industry producing the domestic article concerned in the investigation of the Commission which resulted in the imposition by the President of the import relief action.

(c) *Time for filing.* Any petition filed on behalf of an industry for a determination under this § 206.54 must be filed with the Commission not earlier than the date which is 9 months, and not later than the date which is 6 months, before the date any action taken under section 203 of the Trade Act is to terminate.

(d) *Contents of petition.* A petition under this § 206.54 shall include the following information, to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

(1) *Identification of relief action.* An identification of the action under section 203, or portion of such action, for which a determination under this § 206.54 is sought;

(2) *Representativeness.* (i) The names and addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition and the locations of their establishments in which the domestic article is produced;

(ii) The percentage of domestic production of the like or directly competitive domestic article that such represented firms and/or workers account for and the basis for claiming that such firms and/or workers are representative of an industry; and

(iii) The names and locations of all other producers of the domestic article known to the petitioner;

(3) *Import data*. Import data on the foreign article concerned for each full year since action was taken under section 203 of the Trade Act, starting with the year in which action was taken;

(4) *Domestic production data*. Data on total U.S. production of the domestic article concerned for each year for which data are provided pursuant to paragraph (d)(3) of this section;

(5) *Efforts to adjust*. Specific information in support of the claim that action under section 203 of the Trade Act continues to be necessary to prevent or remedy serious injury and that there is evidence that the industry is making a positive adjustment to import competition.

(e) *Limited disclosure of certain confidential business information under administrative protective order*. Upon receipt of a timely application filed by an authorized applicant, the Secretary shall make available to an authorized applicant under administrative protective order all confidential business information contained in Commission memoranda and reports and in written submissions filed with the Commission at any time during an investigation under this section with respect to an article that was the subject of an affirmative Commission determination under section 202 of the Trade Act (except privileged information, classified information, and specific information of a type which there is a clear and compelling need to withhold from disclosure). Such disclosure shall be made in the manner provided for and in accordance with the procedures set forth in § 206.17. The provisions in paragraphs (d) and (e) of § 206.17 relating to Commission responses to a breach of an administrative protective order and breach procedure shall apply with respect to orders issued under this paragraph.

(f) *Time for reporting*. The Commission will make its report to the President at the earliest practical time, but not later than 60 days before the action under section 203 of the Trade Act is to terminate, unless the President specifies a different date.

(g) *Public report*. Upon making a report to the President of the results of an investigation to which this § 206.54 relates, the Commission will make such report public (with the exception of information which the Commission determines to be confidential) and cause a summary thereof to be published in the FEDERAL REGISTER.

§ 206.55 Investigations to evaluate the effectiveness of relief.

(a) *Investigation*. After any action taken under section 203 has terminated, the Commission will conduct an investigation for the purpose of evaluating the effectiveness of the relief action in facilitating positive adjustment by the domestic industry to import competition, consistent with the reasons set out by the President in the report submitted to the Congress under section 203(b) of the Trade Act.

(b) *Hearing*. In the course of such investigation, the Commission will hold a hearing at which interested persons will be given an opportunity to be present, to produce evidence, and to be heard.

(c) *Time for reporting*. The Commission will submit its report to the President and to the Congress by no later than the 180th day after the day on which the action terminated.

Subpart G—Investigations For Action in Response to Trade Diversion; Reviews of Action Taken

SOURCE: 67 FR 8192, Feb. 22, 2002, unless otherwise noted.

§ 206.61 Applicability of subpart.

The provisions of this subpart G apply to investigations under section 422(b) and/or reviews under section 422(j) of the Trade Act. For other applicable rules, see subpart A of this part and part 201 of this chapter.

§ 206.62 Who may file a petition.

A petition for an investigation under section 422(b) of the Trade Act may be filed by an entity, including a trade association, firm, certified or recognized union, or group of workers, which is representative of an industry.

§ 206.63 Contents of petition.

A petition under section 422(b) of the Trade Act shall include specific information in support of the claim that an action described in section 422(c) of the Trade Act has caused, or threatens to cause, a significant diversion of trade into the domestic market of the United States. To comply with that requirement and the requirements in paragraphs (a) through (f) of this section, the petition shall include all relevant information that is reasonably available to the petitioner with due diligence. The petition shall include the following information:

(a) *Product description.* The name and description of the imported product concerned, specifying the United States tariff provision under which such article is classified and the current tariff treatment thereof, and the name and description of the domestic product concerned;

(b) *Representativeness.* (1) The names and addresses of the firms represented in the petition and/or the firms employing or previously employing the workers represented in the petition and the locations of their establishments in which the domestic product is produced;

(2) The percentage of domestic production of the domestic product that such represented firms and/or workers account for and the basis for asserting that petitioner is representative of an industry; and

(3) The names and locations of all other producers of the domestic product known to the petitioner;

(c) *Description of the action.* A description of the action or actions, as defined in section 422(c) of the Trade Act, that allegedly has caused or threatens to cause a significant diversion of trade into the domestic market of the United States;

(d) *Trade diversion data.* (1) The actual or imminent increase in United States market share held by such imports from the People's Republic of China;

(2) The actual or imminent increase in volume of such imports into the United States;

(3) The nature and extent of the action taken or proposed by the WTO member concerned;

(4) The extent of exports from the People's Republic of China to that WTO member and to the United States;

(5) The actual or imminent changes in exports to that WTO member due to the action taken or proposed;

(6) The actual or imminent diversion of exports from the People's Republic of China to countries other than the United States;

(7) Cyclical or seasonal trends in import volumes into the United States of the products at issue; and

(8) Conditions of demand and supply in the United States market for the products at issue;

(e) *Import data.* Any import data available to the petitioner that will aid the Commission in examining, pursuant to section 422(d)(2) of the Trade Act, the changes in imports into the United States from the People's Republic of China since the time that the WTO member commenced the investigation that led to a request for consultations described in section 422(a) of the Act; and

(f) *Relief sought and purpose thereof.* A statement describing the import relief sought under section 422(h) of the Trade Act and the purpose thereof.

§ 206.64 Institution of investigation or review; publication of notice; and availability for public inspection.

(a) Paragraphs (a) and (b) in § 206.3 govern the institution of an investigation under section 422(b) of the Act and the publication of a FEDERAL REGISTER notice concerning the investigation. Following receipt of notification that the WTO member or members involved have notified the Committee on Safeguards of the WTO of a modification in the action taken by them against the People's Republic of China pursuant to consultation referred to in section 422(a) of the Act, the Commission will

promptly conduct a review under section 422(j) of the Act regarding the continued need for action taken under section 422(h) of the Act. The Commission also will publish notice of the review in the FEDERAL REGISTER.

(b) The Commission will make available for public inspection the notification document that prompted a review under paragraph (a) of this section, excluding any confidential business information in the document. Paragraph (c) in §206.3 governs the availability for public inspection of a petition, request, resolution, or motion that prompted the Commission to institute an investigation under section 422(b) of the Act.

§206.65 Public hearing.

Public hearings in investigations under section 422(b) of the Act are provided for in §206.5(b).

§206.66 Limited disclosure of certain confidential business information under administrative protective order.

In an investigation under section 422(b) of the Trade Act, the Secretary shall make confidential business information available to authorized applicants, subject to the provisions of §206.17.

§206.67 Time for determination and report.

(a) In an investigation under section 422(b) of the Trade Act, the Commission will transmit its determination under that section of the Act to the President and the Trade Representative at the earliest practical time, but not later than 45 days after the date on which the petition is filed, the request or resolution is received, or the motion is adopted, as the case may be. The Commission shall issue and transmit its report on the determination not later than 10 days after the determination is issued.

(b) In a review under section 422(j) of the Trade Act, the Commission will report its determination to the President not later than 60 days after the notification described in that section of the Act.

§206.68 Public report.

Upon making a report to the President of the results of an investigation under section 422(b) or a review under section 422(j) of the Trade Act, the Commission will make such report public (with the exception of information which the Commission determines to be confidential) and cause a summary thereof to be published in the FEDERAL REGISTER.

PART 207—INVESTIGATIONS OF WHETHER INJURY TO DOMESTIC INDUSTRIES RESULTS FROM IMPORTS SOLD AT LESS THAN FAIR VALUE OR FROM SUBSIDIZED EXPORTS TO THE UNITED STATES

Sec.

AUTHORITY: 19 U.S.C. 1336, 1671–1677n, 2482, 3513.

EFFECTIVE DATE NOTE: At 88 FR 14891, Mar. 10, 2023, the authority citation for part 207 was revised, effective Apr. 10, 2023. For the convenience of the user, the revised text is set forth as follows:

AUTHORITY: 19 U.S.C. 1335, 1671–1677n, 2482, 3513, 4582.

SOURCE: 44 FR 76468, Dec. 26, 1979, unless otherwise noted.

§ 207.1 Applicability of part.

Part 207 applies to proceedings of the Commission under section 516A and title VII of the Tariff Act of 1930 (19 U.S.C. 1303, 1516A and 1671–1677n) (the Act), other than investigations under section 783 (19 U.S.C. 1677n), which will be conducted pursuant to procedures specified by the Office of the United States Trade Representative.

[61 FR 37829, July 22, 1996]

Subpart A—General Provisions

SOURCE: 56 FR 11923, Mar. 21, 1991, unless otherwise noted.

§ 207.2 Definitions applicable to part 207.

For the purposes of this part, the following terms have the meanings hereby assigned to them:

(a) The term *the Act* means: The Tariff Act of 1930, as amended.

(b) The term *administering authority* means: The Secretary of Commerce, or any other officer of the United States to whom the responsibility for carrying

out the duties of the administering authority under section 303 or title VII of the Act is transferred by law.

(c) The term *Director* means: The incumbent Commission Director or Acting Director, Office of Operations, or, in the absence of either, a person designated by the Director.

(d) The term *ex parte meeting* means: Any communication between

(1) Any interested party or other person providing factual information in connection with an investigation, and

(2) Any Commissioner, or member of a Commissioner's staff, in which less than all parties participate, and which is not a hearing or conference for which an opportunity to participate is given to the parties.

(e) The term *injury* means: Material injury or threat of material injury to an industry in the United States, or material retardation of the establishment of an industry in the United States, by reason of imports into the United States of subject merchandise which is found by the administering authority to be subsidized, or sold, or likely to be sold, at less than its fair value.

(f) The term *record* means:

(1) All information presented to or obtained by the Commission during the course of an investigation, including completed questionnaires, any information obtained from the administering authority, written communications from any person filed with the Secretary, staff reports, all governmental memoranda pertaining to the case, and the record of ex parte meetings required to be kept pursuant to section 777(a)(3) of the Act; and

(2) A copy of all Commission orders and determinations, all transcripts or records of conferences or hearings, and all notices published in the FEDERAL REGISTER concerning the investigation.

(g) The term *coalition or trade association* as used in an investigation referred to in section 771(9)(G) of the Act means a coalition or trade association which is representative of domestic processors, domestic processors and producers, or domestic processors and growers.

[44 FR 76468, Dec. 26, 1979, as amended at 60 FR 21, Jan. 3, 1995]

§ 207.3 Service, filing, and certification of documents.

(a) *Certification.* Any person submitting factual information on behalf of the petitioner or any other interested party for inclusion in the record, and any person submitting a response to a Commission questionnaire, must certify that such information is accurate and complete to the best of the submitter's knowledge.

(b) *Service.* Any party submitting a document for inclusion in the record of the investigation shall, in addition to complying with § 201.8 of this chapter, serve a copy of each such document on all other parties to the investigation in the manner prescribed in § 201.16 of this chapter. If a document is filed before the Secretary's issuance of the service list provided for in § 201.11 of this chapter or the administrative protective order list provided for in § 207.7, the document need not be accompanied by a certificate of service, but the document shall be served on all appropriate parties within two (2) days of the issuance of the service list or the administrative protective order list and a certificate of service shall then be filed. Notwithstanding § 201.16 of this chapter, petitions, briefs, requests to close a portion of the hearing, comments on requests to close a portion of the hearing, and testimony filed by parties pursuant to §§ 207.10, 207.15, 207.23, 207.24, 207.25, 207.65, 207.66, and 207.67, shall be served by hand or, if served by mail, by overnight mail or its equivalent. Failure to comply with the requirements of this rule may result in removal from status as a party to the investigation. The Commission shall make available to all parties to the investigation a copy of each document, except transcripts of conferences and hearings, business proprietary information, privileged information, and information required to be served under this section, placed in the record of the investigation by the Commission.

(c) *Filing.* Documents to be filed with the Commission must comply with applicable rules, including § 201.8 of this chapter. If the Commission establishes a deadline for the filing of a document, and the submitter includes business

proprietary information in the document, the submitter is to file and, if the submitter is a party, serve the business proprietary version of the document on the deadline and may file and serve the nonbusiness proprietary version of the document no later than one business day after the deadline for filing the document. The business proprietary version shall enclose all business proprietary information in brackets and have the following warning marked on every page: ''Bracketing of BPI not final for one business day after date of filing.'' The bracketing becomes final one business day after the date of filing of the document, *i.e.*, at the same time as the nonbusiness proprietary version of the document is due to be filed. Until the bracketing becomes final, recipients of the document may not divulge any part of the contents of the document to anyone not subject to the administrative protective order issued in the investigation. If the submitter discovers it has failed to bracket correctly, the submitter may file a corrected version or portion of the business proprietary document at the same time as the nonbusiness proprietary version is filed. No changes, including typographical changes, to the document other than bracketing and deletion of business proprietary information are permitted after the deadline unless an extension of time is granted to file an amended document pursuant to § 201.14(b)(2) of this chapter. Failure to comply with this paragraph may result in the striking from the record of all or a portion of a submitter's document.

[44 FR 76468, Dec. 26, 1979, as amended at 61 FR 37829, July 22, 1996; 63 FR 30607, June 5, 1998; 70 FR 8511, Feb. 22, 2005]

§ 207.4 The record.

(a) *Maintenance of the record.* The Secretary shall maintain the record of each investigation conducted by the Commission pursuant to title VII of the Act. The record shall be maintained contemporaneously with each actual filing in the record. It shall be divided into public and nonpublic sections. The Secretary shall also maintain a contemporaneous index of all materials filed in the record. All material properly filed with the Secretary shall be placed in the record. The Commission need not consider in its determinations or include in the record any material that is not filed with the Secretary. All material which is placed in the record shall be maintained in the public record, with the exception of material which is privileged, or which is business proprietary information submitted in accordance with § 201.6 of this chapter. Privileged and business proprietary material shall be maintained in the nonpublic record.

(b) *Audits.* The Commission may in its discretion verify information received in the course of an investigation. To the extent a verification results in new or different information, the Commission shall place such information on the record.

(c) *Materials provided by the administering authority.* Materials received by the Commission from the administering authority shall be placed on the Commission's record and shall be designated by the Commission as public or nonpublic in conformity with the applicable designation of the administering authority. Any requests to the Commission either to permit access to such materials or to release such materials shall be referred to the administering authority for its advice.

[44 FR 76468, Dec. 26, 1979, as amended at 61 FR 37829, July 22, 1996]

§ 207.5 Ex parte meetings.

There shall be included in the record of each investigation a record of ex parte meetings as required by section 777(a)(3) of the Act. The record of each ex parte meeting shall include the identity of the persons present at the meeting, the date, time, and place of the meeting, and a summary of the matters discussed or submitted.

§ 207.6 [Reserved]

§ 207.7 Limited disclosure of certain business proprietary information under administrative protective order.

(a)(1) *Disclosure.* Upon receipt of a timely application filed by an authorized applicant, as defined in paragraph (a)(3) of this section, which describes in general terms the information requested, and sets forth the reasons for

the request (*e.g.*, all business proprietary information properly disclosed pursuant to this section for the purpose of representing an interested party in investigations pending before the Commission), the Secretary shall make available all business proprietary information contained in Commission memoranda and reports and in written submissions filed with the Commission at any time during the investigation (except nondisclosable confidential business information) to the authorized applicant under an administrative protective order described in paragraph (b) of this section. The term ''business proprietary information'' has the same meaning as the term ''confidential business information'' as defined in § 201.6 of this chapter.

(2) *Application.* An application under paragraph (a)(1) of this section must be made by an authorized applicant on a form adopted by the Secretary or a photocopy thereof. A signed application shall be filed electronically. An application on behalf of a petitioner, a respondent, or another party must be made no later than the time that entries of appearance are due pursuant to § 201.11 of this chapter. In the event that two or more authorized applicants represent one interested party who is a party to the investigation, the authorized applicants must select one of their number to be lead authorized applicant. The lead authorized applicant's application must be filed no later than the time that entries of appearance are due. Provided that the application is accepted, the lead authorized applicant shall be served with business proprietary information pursuant to paragraph (f) of this section. The other authorized applicants representing the same party may file their applications after the deadline for entries of appearance but at least five days before the deadline for filing posthearing briefs in the investigation, or the deadline for filing briefs in the preliminary phase of an investigation, or the deadline for filing submissions in a remanded investigation, and shall not be served with business proprietary information.

(3) *Authorized applicant.* (i) Only an authorized applicant may file an application under this subsection. An authorized applicant is:

(A) An attorney for an interested party which is a party to the investigation;

(B) A consultant or expert under the direction and control of a person under paragraph (a)(3)(i)(A) of this section;

(C) A consultant or expert who appears regularly before the Commission and who represents an interested party which is a party to the investigation; or

(D) A representative of an interested party which is a party to the investigation, if such interested party is not represented by counsel.

(ii) In addition, an authorized applicant must not be involved in competitive decisionmaking for an interested party which is a party to the investigation. Involvement in ''competitive decisionmaking'' includes past, present, or likely future activities, associations, and relationships with an interested party which is a party to the investigation that involve the prospective authorized applicant's advice or participation in any of such party's decisions made in light of similar or corresponding information about a competitor (pricing, product design, etc.).

(4) *Forms and determinations.* (i) The Secretary may adopt, from time to time, forms for submitting requests for disclosure pursuant to an administrative protective order incorporating the terms of this rule. The Secretary shall determine whether the requirements for release of information under this rule have been satisfied. This determination shall be made concerning specific business proprietary information as expeditiously as possible but in no event later than fourteen (14) days from the filing of the information, or seven (7) days in the preliminary phase of an investigation, except if the submitter of the information objects to its release or the information is unusually voluminous or complex, in which case the determination shall be made within thirty (30) days from the filing of the information, or ten (10) days in the preliminary phase of an investigation. The Secretary shall establish a list of parties whose applications have been granted. The Secretary's determination shall be final for purposes of review by the U.S. Court of International Trade under section 777(c)(2) of the Act.

(ii) Should the Secretary determine pursuant to this section that materials sought to be protected from public disclosure by a person do not constitute business proprietary information or were not required to be served under paragraph (f) of this section, then the Secretary shall, upon request, issue an order on behalf of the Commission requiring the return of all copies of such materials served in accordance with paragraph (f) of this section.

(iii) The Secretary shall release business proprietary information only to an authorized applicant whose application has been accepted and who presents the application along with adequate personal identification; or a person described in paragraph (b)(1)(iv) of this section who presents a copy of the statement referred to in that paragraph along with adequate personal identification.

(iv) An authorized applicant granted access to business proprietary information in the preliminary phase of an investigation may, subject to paragraph (c) of this section, retain such business proprietary information during any final phase of that investigation, provided that the authorized applicant has not lost his authorized applicant status (*e.g.*, by terminating his representation of an interested party who is a party). When retaining business proprietary information pursuant to this paragraph, the authorized applicant need not file a new application in the final phase of the investigation.

(b) *Administrative protective order.* The administrative protective order under which information is made available to the authorized applicant shall require the applicant to submit to the Secretary a personal sworn statement that, in addition to such other conditions as the Secretary may require, the applicant shall:

(1) Not divulge any of the business proprietary information obtained under the administrative protective order and not otherwise available to the applicant, to any person other than

(i) Personnel of the Commission concerned with the investigation,

(ii) The person or agency from whom the business proprietary information was obtained,

(iii) A person whose application for access to business proprietary information under the administrative protective order has been granted by the Secretary, and

(iv) Other persons, such as paralegals and clerical staff, who are employed or supervised by the authorized applicant; who have a need thereof in connection with the investigation; who are not involved in competitive decision making for an interested party which is a party to the investigation; and who have signed a statement in a form approved by the Secretary that they agree to be bound by the administrative protective order (the authorized applicant shall be responsible for retention and accuracy of such forms and shall be deemed responsible for such persons' compliance with the administrative protective order);

(2) Use such business proprietary information solely for the purposes of representing an interested party in the Commission investigation then in progress or during judicial or other review of such Commission investigation;

(3) Not consult with any person not described in paragraph (b)(1) of this section concerning such business proprietary information without first having received the written consent of the Secretary and the party or the attorney of the party from whom such business proprietary information was obtained;

(4) Whenever materials (*e.g.*, documents, computer disks, etc.) containing such business proprietary information are not being used, store such material in a locked file cabinet, vault, safe, or other suitable container;

(5) Serve all materials containing business proprietary information as directed by the Secretary and pursuant to paragraph (f) of this section;

(6) Transmit all materials containing business proprietary information with a cover sheet identifying the materials as containing business proprietary information;

(7) Comply with the provisions of this section;

(8) Make true and accurate representations in the authorized applicant's application and promptly notify the Secretary of any changes that occur after the submission of the application

and that affect the representations made in the application (*e.g.*, change in personnel assigned to the investigation);

(9) Report promptly and confirm in writing to the Secretary any breach of the administrative protective order; and

(10) Acknowledge that breach of the administrative protective order may subject the authorized applicant to such sanctions or other actions as the Commission deems appropriate.

(c) *Final disposition of material released under administrative protective order.* At such date as the Secretary may determine appropriate for particular data, each authorized applicant shall return or destroy all copies of materials released to authorized applicants pursuant to this section and all other materials containing business proprietary information, such as charts or notes based on any such information received under administrative protective order, and file with the Secretary a certificate attesting to his personal, good faith belief that all copies of such material have been returned or destroyed and no copies of such material have been made available to any person to whom disclosure was not specifically authorized.

(d) *Commission responses to a breach of administrative protective order.* A breach of an administrative protective order may subject an offender to:

(1) Disbarment from practice in any capacity before the Commission along with such person's partners, associates, employer, and employees, for up to seven years following publication of a determination that the order has been breached;

(2) Referral to the United States Attorney;

(3) In the case of an attorney, accountant, or other professional, referral to the ethics panel of the appropriate professional association;

(4) Such other administrative sanctions as the Commission determines to be appropriate, including public release of or striking from the record any information or briefs submitted by, or on behalf of, the offender or the party represented by the offender, denial of further access to business proprietary information in the current or any future investigations before the Commission, and issuance of a public or private letter of reprimand; and

(5) Such other actions, including but not limited to, a warning letter, as the Commission determines to be appropriate.

(e) *Breach investigation procedure.* (1) The Commission shall determine whether any person has violated an administrative protective order, and may impose sanctions or other actions in accordance with paragraph (d) of this section. At any time within sixty (60) days of the later of the date on which the alleged violation occurred or, as determined by the Commission, could have been discovered through the exercise of reasonable and ordinary care, or the completion of an investigation conducted under subpart B or C of this part, the Commission may commence an investigation of any breach of an administrative protective order alleged to have occurred at any time during the pendency of the investigation, including all appeals, remands, and subsequent appeals. Whenever the Commission has reason to believe that a person may have breached an administrative protective order issued pursuant to this section, the Secretary shall issue a letter informing such person that the Commission has reason to believe a breach has occurred and that the person has a reasonable opportunity to present his views on whether a breach has occurred. If subsequently the Commission determines that a breach has occurred and that further investigation is warranted, the Secretary shall issue a letter informing such person of that determination and that the person has a reasonable opportunity to present his views on whether mitigating circumstances exist and on the appropriate sanction to be imposed, but no longer on whether a breach has occurred. Once such person has been afforded a reasonable opportunity to present his views, the Commission shall determine what sanction if any to impose.

(2) Where the sanction imposed is a private letter of reprimand, the Secretary shall expunge the sanction from the recipient's record two (2) years from the date of issuance of the sanction, provided that

(i) The recipient has not received another unexpunged sanction pursuant to this section at any time prior to the end of the two year period, and

(ii) The recipient is not the subject of an investigation for possible breach of administrative protective order under this section at the end of the two year period. Upon the completion of such a pending breach investigation without the issuance of a sanction, the original sanction shall be expunged. The Secretary shall notify a sanction recipient in the event that the sanction is expunged.

(f) *Service*. (1) Any party filing written submissions which include business proprietary information to the Commission during an investigation shall at the same time serve complete copies of such submissions upon all authorized applicants specified on the list established by the Secretary pursuant to paragraph (a)(4) of this section, and, except as provided in § 207.3, a nonbusiness proprietary version on all other parties. All such submissions must be accompanied by a certificate attesting that complete copies of the submission have been properly served. In the event that a submission is filed before the Secretary's list is established, the document need not be accompanied by a certificate of service, but the submission shall be served within two (2) days of the establishment of the list and a certificate of service shall then be filed.

(2) If a party's request under paragraph (g) of this section is granted, the Secretary shall accept the nondisclosable confidential business information into the record. The party shall serve the submission containing such information in accordance with the requirements of § 207.3(b) and paragraph (f)(1) of this section, with the information redacted from the copies served.

(3) The Secretary shall not accept for filing into the record of an investigation submissions filed without a proper certificate of service. Failure to comply with paragraph (f) of this section may result in denial of party status and such sanctions as the Commission deems appropriate. Business proprietary information in submissions must be dealt with as required by § 207.3(c).

(g) *Exemption from disclosure*—(1) *In general*. Any person may request exemption from the disclosure of business proprietary information under administrative protective order, whether the person desires to include such information in a petition filed under § 207.10, or any other submission to the Commission during the course of an investigation. Such a request shall only be granted if the Secretary finds that such information is nondisclosable confidential business information. As defined in § 201.6(a)(2) of this chapter, nondisclosable confidential business information is privileged information, classified information, or specific information (*e.g.*, trade secrets) of a type for which there is a clear and compelling need to withhold from disclosure. The request will be granted or denied not later than thirty (30) days (ten (10) days in a preliminary phase investigation) after the date on which the request is filed.

(2) *Request for exemption*. A request for exemption from disclosure must be filed with the Secretary in writing with the reasons therefor. At the same time as the request is filed, one copy of the business proprietary information in question must be lodged with the Secretary solely for the purpose of obtaining a determination as to the request. The business proprietary information for which exemption from disclosure is sought shall remain the property of the requester, and shall not become or be incorporated into any agency record until such time as the request is granted. A request should, when possible, be filed two business days prior to the deadline, if any, for filing the document in which the information for which exemption from disclosure is sought is proposed to be included. If the request is denied, the copy of the information lodged with the Secretary shall promptly be returned to the requester. Such a request shall only be granted if the Secretary finds that such information is privileged information, classified information, or specific information of a type for which there is a clear and compelling need to withhold from disclosure. The Secretary shall promptly notify the requester as to whether the request has been approved or denied.

(3) *Procedure if request is approved.* If the request is approved, the person shall file three versions of the submission containing the nondisclosable confidential business information in question. One version shall contain all business proprietary information, bracketed in accordance with § 201.6 of this chapter and § 207.3. The other two versions shall conform to and be filed in accordance with the requirements of § 201.6 of this chapter and § 207.3, except that the specific information as to which exemption from disclosure was granted shall be redacted from the submission.

(4) *Procedure if request is denied.* If the request is denied, the copy of the information lodged with the Secretary shall promptly be returned to the requester. The requester may file the submission in question without that information, in accordance with the requirements of § 207.3.

[44 FR 76468, Dec. 26, 1979, as amended at 59 FR 66723, Dec. 28, 1994; 61 FR 37829, July 22, 1996; 68 FR 32978, June 3, 2003; 70 FR 8512, Feb. 22, 2005; 76 FR 61942, Oct. 6, 2011]

§ 207.8 Questionnaires to have the force of subpoenas; subpoena enforcement.

Any questionnaire issued by the Commission in connection with any investigation under title VII of the Act may be issued as a subpoena and subscribed by a Commissioner, after which it shall have the force and effect of a subpoena authorized by the Commission. Whenever any party or any other person fails to respond adequately to such a subpoena or whenever a party or any other person refuses or is unable to produce information requested in a timely manner and in the form required, or otherwise significantly impedes an investigation, the Commission may:

(a) Use the facts otherwise available in making its determination;

(b) Seek judicial enforcement of the subpoena pursuant to 19 U.S.C. 1333;

(c) Make inferences adverse to such person's position, if such person is an interested party that has failed to cooperate by not acting to the best of its ability to comply with a request for information; and

(d) Take such other actions as necessary to obtain needed information.

[61 FR 37831, July 22, 1996]

Subpart B—Preliminary Determinations

SOURCE: 56 FR 11927, Mar. 21, 1991, unless otherwise noted.

§ 207.10 Filing of petition with the Commission.

(a) *Filing of the petition.* Any interested party who files a petition with the administering authority pursuant to section 702(b) or section 732(b) of the Act in a case in which a Commission determination under title VII of the Act is required, shall file copies of the petition and all exhibits, appendices, and attachments thereto, pursuant to § 201.8 of this chapter, with the Secretary on the same day the petition is filed with the administering authority. A paper original and eight (8) true paper copies of a petition shall be filed. One copy of all exhibits, appendices, and attachments to the petition shall be filed in electronic form on CD–ROM, DVD, or other portable electronic format approved by the Secretary. Petitioners also must file one unbound copy of the petition (the unbound copy of the petition may be stapled or held together by means of a clip). If the petition complies with the provisions of § 207.11, it shall be deemed to be properly filed on the date on which the requisite number of copies of the petition is received by the Secretary, provided that, if the petition is filed with the Secretary after 12:00 noon, eastern time, the petition shall be deemed filed on the next business day. Notwithstanding § 207.11 of this chapter, a petitioner need not file an entry of appearance in the investigation instituted upon the filing of its petition, which shall be deemed an entry of appearance.

(b) *Service of the petition.* (1)(i) The Secretary shall promptly notify a petitioner when, before the establishment of a service list under § 207.7(a)(4), he or she approves an application under § 207.7(a). When practicable, this notification shall be made by facsimile

transmission. A copy of the petition including all business proprietary information shall then be served by petitioner on those approved applicants in accord with § 207.3(b) within two (2) calendar days of the time notification is made by the Secretary.

(ii) The petitioner shall serve persons enumerated on the list established by the Secretary pursuant to § 207.7(a)(4) that have not been served pursuant to paragraph (b)(1)(i) of this section within two (2) calendar days of the establishment of the Secretary's list.

(2) A copy of the petition omitting business proprietary information shall be served by petitioner on those persons enumerated on the list established by the Secretary pursuant to § 201.11(d) of this chapter within two (2) calendar days of the establishment of the Secretary's list.

(3) Service of the petition shall be attested by filing a certificate of service with the Commission.

(c) *Amendments and withdrawals; critical circumstances.* (1) Any amendment or withdrawal of a petition shall be filed on the same day with both the Secretary and the administering authority, without regard to whether the requester seeks action only by one agency.

(2) When not made in the petition, any allegations of critical circumstances under section 703 or section 733 of the Act shall be made in an amendment to the petition and shall be filed as early as possible. Critical circumstances allegations, whether made in the petition or in an amendment thereto, shall contain information reasonably available to petitioner concerning the factors enumerated in sections 705(b)(4)(A) and 735(b)(4)(A) of the Act.

[61 FR 37831, July 22, 1996, as amended at 70 FR 8512, Feb. 22, 2005; 76 FR 61942, Oct. 6, 2011; 79 FR 35924, June 25, 2014]

§ 207.11 Contents of petition.

(a) The petition shall be signed by the petitioner or its duly authorized officer, attorney, or agent, and shall set forth the name, address, and telephone number of the petitioner and any such officer, attorney, or agent, and the names of all representatives of petitioner who will appear in the investigation.

(b)(1) The petition shall allege the elements necessary for the imposition of a duty under section 701(a) or section 731(a) of the Act and contain information reasonably available to the petitioner supporting the allegations.

(2) The petition shall also include the following specific information, to the extent reasonably available to the petitioner:

(i) Identification of the domestic like product(s) proposed by petitioner;

(ii) A listing of all U.S. producers of the proposed domestic like product(s), including a street address, phone number, and contact person(s) with email address(es) for each producer;

(iii) A listing of all U.S. importers of the subject merchandise, including street addresses, email addresses, and phone numbers for each importer.

(iv) Identification of each product on which the petitioner requests the Commission to seek pricing information in its questionnaires; and

(v) A listing of the main purchasers from which each petitioning firm experienced lost sales or lost revenue by reason of the subject merchandise during a period covering the three most recently completed calendar years and that portion of the current calendar year for which information is reasonably available. For each named purchaser, petitioners must provide the email address of the specific contact person, 5-digit zip code, and the information identified in the template spreadsheet specified in the Commission's Handbook on Filing Procedures. Petitioners must certify that all lost sales or lost revenue allegations identified in the petition will also be submitted electronically in the manner specified in the Commission's Handbook on Filing Procedures.

(3) The petition shall contain a certification that each item of information specified in paragraph (b)(2) of this section that the petition does not include was not reasonably available to the petitioner.

(4) Petitioners are also advised to refer to the administering authority's

regulations concerning the contents of petitions.

[61 FR 37831, July 22, 1996, as amended at 79 FR 35924, June 25, 2014; 80 FR 52618, Sept. 1, 2015]

§ 207.12 Notice of preliminary phase of investigation.

Upon receipt by the Commission of a petition under § 207.10 or receipt of notice that the administering authority has commenced an investigation under section 702(a) or section 732(a) of the Act, the Director shall, as soon as practicable after consultation with the administering authority, institute an investigation and commence the preliminary phase of the investigation under section 703(a) or section 733(a) of the Act and shall publish a notice to that effect in the FEDERAL REGISTER.

[61 FR 37832, July 22, 1996]

§ 207.13 Cooperation with administering authority; preliminary phase of investigation.

Subsequent to institution of an investigation pursuant to section 207.12, the Director shall conduct such investigation as the Director deems appropriate. Information adduced in the investigation shall be placed on the record. The Director shall cooperate with the administering authority in its determination of the sufficiency of a petition and in its decision whether to permit any proposed amendment to a petition. Notwithstanding §§ 201.11(c) and 201.14(b) of this chapter, late filings in the preliminary phase of an investigation shall be referred to the Director, who shall determine whether to accept such filing for good cause shown by the person making the filing.

[61 FR 37832, July 22, 1996]

§ 207.14 Negative petition determination.

Upon receipt by the Commission of notice from the administering authority under section 702(d) or section 732(d) of the Act that the administering authority has made a negative petition determination under section 702(c)(3) or section 732(c)(3) of the Act, the investigation begun pursuant to § 207.12 shall terminate. All persons who have received requests for information from the Director shall be notified of the termination.

[61 FR 37832, July 22, 1996]

§ 207.15 Written briefs and conference.

Each party may submit to the Commission on or before a date specified in the notice of investigation issued pursuant to 207.12 a written brief containing information and arguments pertinent to the subject matter of the investigation. Briefs shall be signed, shall include a table of contents, and shall contain no more than fifty (50) double-spaced and single-sided pages of textual material, and shall be filed electronically, and nine (9) true paper copies shall be submitted on the same business day (on paper measuring 8.5 × 11 inches, double-spaced and single-sided). Any person not a party may submit a brief written statement of information pertinent to the investigation within the time specified and the same manner specified for the filing of briefs. In addition, the presiding official may permit persons to file within a specified time answers to questions or requests made by the Commission's staff. If he deems it appropriate, the Director shall hold a conference. The conference, if any, shall be held in accordance with the procedures in § 201.13 of this chapter, except that in connection with its presentation a party may provide written witness testimony at the conference; if written testimony is provided, nine (9) true paper copies shall be submitted. The Director may request the appearance of witnesses, take testimony, and administer oaths.

[79 FR 35924, June 25, 2014]

§ 207.16 [Reserved]

§ 207.17 Staff report.

Prior to the Commission's preliminary determination, the Director shall submit to the Commission a staff report. A public version of the staff report shall be made available to the public after the Commission's preliminary determination and a business proprietary version shall also be made available to persons authorized to receive business proprietary information under § 207.7.

§ 207.18 Notice of preliminary determination.

Whenever the Commission makes a preliminary determination, the Secretary shall serve copies of the determination and a public version of the staff report on the petitioner, other parties to the investigation, and the administering authority. The Secretary shall publish a notice of such determination in the FEDERAL REGISTER. If the Commission's determination is negative, or that imports are negligible, the investigation shall be terminated. If the Commission's determination is affirmative, the notice shall announce commencement of the final phase of the investigation.

[61 FR 37832, July 22, 1996]

Subpart C—Final Determinations, Short Life Cycle Products

SOURCE: 56 FR 11928, Mar. 21, 1991, unless otherwise noted.

§ 207.20 Investigative activity following preliminary determination.

(a) If the Commission's preliminary determination is affirmative, the Director shall continue investigative activities pending notice by the administering authority of its preliminary determination under section 703(b) or section 733(b) of the Act.

(b) The Director shall circulate draft questionnaires for the final phase of an investigation to parties to the investigation for comment. Any party desiring to comment on draft questionnaires shall submit such comments in writing to the Commission within a time specified by the Director. All requests for collecting new information shall be presented at this time. The Commission will disregard subsequent requests for collection of new information absent a showing that there is a compelling need for the information and that the information could not have been requested in the comments on the draft questionnaires.

[61 FR 37832, July 22, 1996, as amended at 79 FR 35925, June 25, 2014]

§ 207.21 Final phase notice of scheduling.

(a) Notice from the administering authority of an affirmative preliminary determination under section 703(b) or section 733(b) of the Act and notice from the administering authority of an affirmative final determination under section 705(a) or section 735(a) of the Act shall be deemed to occur on the date on which the transmittal letter of such determination is received by the Secretary from the administering authority or the date on which notice of such determination is published in the FEDERAL REGISTER, whichever shall first occur.

(b) Upon receipt of notice from the administering authority of an affirmative preliminary determination under section 703(b) or section 733(b) of the Act or, if the administering authority's preliminary determination is negative, notice of an affirmative final determination under section 705(a) or section 735(a) of the Act, the Commission shall publish in the FEDERAL REGISTER a Final Phase Notice of Scheduling.

(c) If the administering authority's preliminary determination is negative, the Director shall continue such investigative activities as the Director deems appropriate pending a final determination by the administering authority under section 705(a) or section 735(a) of the Act.

(d) Upon receipt by the Commission of notice from the administering authority of its final negative determination under section 705(a) or section 735(a) of the Act, the corresponding Commission investigation shall be terminated.

[61 FR 37832, July 22, 1996]

§ 207.22 Prehearing and final staff reports.

(a) *Prehearing staff report.* The Director shall prepare and place in the record, prior to the hearing, a prehearing staff report containing information concerning the subject matter of the investigation. A version of the staff report containing business proprietary information shall be placed in the nonpublic record and made available to persons authorized to receive business proprietary information under

§ 207.7, and a nonbusiness proprietary version of the staff report shall be placed in the public record.

(b) *Final staff report.* After the hearing, the Director shall revise the prehearing staff report and submit to the Commission, prior to the Commission's final determination, a final version of the staff report. The final staff report is intended to supplement and correct the information contained in the prehearing staff report. A public version of the final staff report shall be made available to the public and a business proprietary version shall also be made available to persons authorized to receive business proprietary information under section 207.7.

[56 FR 11927, Mar. 21, 1991, as amended at 60 FR 22, Jan. 3, 1995. Redesignated at 61 FR 37832, July 22, 1996]

§ 207.23 Prehearing brief.

Each party who is an interested party shall submit to the Commission, no later than five (5) business days prior to the date of the hearing specified in the notice of scheduling, a prehearing brief. Prehearing briefs shall be signed and shall include a table of contents and shall be filed electronically, and nine (9) true paper copies shall be submitted on the same business day. The prehearing brief should present a party's case concisely and shall, to the extent possible, refer to the record and include information and arguments which the party believes relevant to the subject matter of the Commission's determination under section 705(b) or section 735(b) of the Act. Any person not an interested party may submit a brief written statement of information pertinent to the investigation within the time specified and the same manner specified for filing of prehearing briefs.

[79 FR 35925, June 25, 2014]

§ 207.24 Hearing.

(a) *In general.* The Commission shall hold a hearing concerning an investigation before making a final determination under section 705(b) or section 735(b) of the Act.

(b) *Procedures.* Any hearing shall be conducted after notice published in the FEDERAL REGISTER. The hearing shall not be subject to the provisions of 5 U.S.C. subchapter II, chapter 5, or to 5 U.S.C. 702. Each party shall limit its presentation at the hearing to a summary of the information and arguments contained in its prehearing brief, an analysis of the information and arguments contained in the prehearing briefs described in § 207.23, and information not available at the time its prehearing brief was filed. Unless a portion of the hearing is closed, presentations at the hearing shall not include business proprietary information. Notwithstanding § 201.13(f) of this chapter, in connection with its presentation, a party may provide written witness testimony at the hearing; if written testimony is provided, eight (8) true paper copies shall be submitted. In the case of testimony to be presented at a closed session held in response to a request under § 207.24(d), confidential and non-confidential versions shall be filed in accordance with § 207.3. Any person not a party may make a brief oral statement of information pertinent to the investigation.

(c) *Hearing transcripts*—(1) *In general.* A verbatim transcript shall be made of all hearings or conferences held in connection with Commission investigations conducted under this part.

(2) *Revision of transcripts.* Within ten (10) days of the completion of a hearing, but in any event at least one (1) day prior to the date for disclosure of information set pursuant to § 207.30(a), any person who testified at the hearing may submit proposed revisions to the transcript of his or her testimony to the Secretary. No substantive revisions shall be permitted. If in the judgment of the Secretary a proposed revision does not alter the substance of the testimony in question, the Secretary shall incorporate the revision into a revised transcript.

(d) *Closed sessions.* Upon a request filed by a party to the investigation no later than seven (7) business days prior to the date of the hearing that identifies the subjects to be discussed, specifies the amount of time requested, and justifies the need for a closed session with respect to each subject to be discussed, the Commission may close a portion of a hearing to persons not authorized under § 207.7 to have access to

business proprietary information in order to allow such party to address business proprietary information during the course of its presentation. If any party wishes to comment on the request to close a portion of the hearing, such comments must be filed within two (2) business days after the filing of the request. In addition, during each hearing held in an investigation conducted under section 705(b) or section 735(b) of the Act, following the public presentation of the petitioner(s) and that of each panel of respondents, the Commission will, if it deems it appropriate, close the hearing to persons not authorized under § 207.7 to have access to business proprietary information in order to allow Commissioners to question parties and/ or their representatives concerning matters involving business proprietary information.

[61 FR 37832, July 22, 1996, as amended at 70 FR 8512, Feb. 22, 2005; 76 FR 61943, Oct. 6, 2011]

§ 207.25 Posthearing briefs.

Any party may file a posthearing brief concerning the information adduced at or after the hearing with the Secretary within a time specified in the notice of scheduling or by the presiding official at the hearing. A posthearing brief shall be filed electronically, and nine (9) true paper copies shall be submitted on the same business day. No such posthearing brief shall exceed fifteen (15) pages of textual material, double-spaced and single-sided, when printed out on paper measuring 8.5 × 11 inches. In addition, the presiding official may permit persons to file answers to questions or requests made by the Commission at the hearing within a specified time. The Secretary shall not accept for filing posthearing briefs or answers which do not comply with this section.

[79 FR 35925, June 25, 2014]

§ 207.26 Statements by nonparties.

Any person other than a party may submit a brief written statement of information pertinent to the investigation within the time specified for the filing of posthearing briefs.

[56 FR 11928, Mar. 21, 1991. Redesignated at 61 FR 37832, July 22, 1996]

§ 207.27 Short life cycle products.

(a) An eligible domestic entity may file a petition to establish a product category for short life cycle merchandise which has been the subject of two or more affirmative dumping determinations. The Commission shall within thirty (30) days of the filing of the petition determine its sufficiency. If the petition is found to be sufficient, the Commission shall institute a proceeding to establish a product category and publish a notice of institution in the FEDERAL REGISTER. Upon request of an interested person filed within fifteen (15) days after publication of the notice of institution, the Commission shall conduct a hearing which shall be transcribed. The Commission's determination concerning the scope of the product category into which to classify the short life cycle merchandise identified by the petition shall be issued no later than ninety (90) days after the filing of the petition.
